"Everything is ready. The east wind has arrived. If we don't take action now, when will we take action?" August's face showed a trace of excitement. He walked up to Ji Xuanyi and said seriously: "My child, this operation to recapture the lost continent must succeed. If it fails, the evil gods on the elemental continent may come back. This matter still requires your strength."

Ji Xuanyi expressed his understanding and asked, "How can we help?"

This is asking August about the specific gameplay of this event.

It is said that it is very beneficial to hold on to someone powerful. Although the conditions for triggering the event are a bit harsh and require the favorability of the great magician in the Mage

Tower, once you use this condition to start the event, the event strategy will also be given to you. The other servers that started the event first are still groping in the dark as to how the event is going to be conducted!

August heard this and said, " If we want to counterattack the Lost Continent, the first thing we need to do is to build a teleportation array. However, this kind of advanced magic requires too much materials and preparation time, and we cannot be disturbed. So before the three of us great magicians go to the Lost Continent, we need your help to clear out a safe area in the Lost Continent where we can settle down. "

Okay, the first stage is to reach the Lost Continent and clean up the base.

August continued, " After you are ready, the other two magicians and I can prepare to set off.

When we go to the Lost Land, we will need you to escort each other. "

Ji Xuanyi continued to remember that in the second stage, he would escort three great magicians to the Lost Land.

August said, " Once the teleportation array is built, we will have no more worries and can officially launch a counterattack. "

Ji Xuanyi wrote it down again: the third stage, the formal counterattack.

When this stage is over, the activity will probably be coming to an end.

Ji Xuan took a look and found that clearing the safe zone did not seem to be the most important stage. About two-thirds of the manpower should be left on the Elemental Continent to wait for the escort of the great magician. If there is no strategy, it is easy to get the priorities wrong. If a large group of people go to the Lost Continent first, it will be very difficult to send the great magician to each other in the second round. It is possible that some people will have to commit suicide to come back to complete the task.

How horrible.

Ji Xuanyi thought about it and marked the column of manpower allocation in his mind.

August reminded, " After clearing a safe area in the Lost Land, you may still encounter sieges from the evil gods. Although I don't know how strong they are, I still suggest that you try to reduce your strength consumption during the voyage. The masters you made friends with in the city may be willing to lend you a hand. "

Ji Xuanyi was stunned when he heard this: " An expert to make friends with? "

Perhaps afraid that the players wouldn't understand, he explained it in more popular language: " These are the people you have helped a lot with before, and they have a very friendly relationship with you. Go and invite them. Maybe some of them will agree to go on an adventure with you. But there is one thing I need to remind you. Pay attention to the load-bearing capacity of your vehicle. If you invite too many people, you may not be able to fit them all. "

Ji Xuanyi finally got it. All those seemingly useless favorability points he had accumulated before were actually used here!

August was talking about the strategy there, and Ji Xuanyi was confused. After a while, he suddenly asked: " Then can you accompany me to the sea? "

After saying this, Ji Xuanyi himself felt that it was impossible. Although August's favorability with him was full, he still had to participate in the second phase of the activities. Now he went to the

Lost Continent with him. When the other two main cities sent great magicians to each other in the second phase, would their Starry City just transport a cargo ship?

Just thinking about it doesn't seem reliable!

Ji Xuanyi was just about to take back his nonsensical question when he saw August in front of him was stuck.

Of course, being stuck would not be shown directly. From Ji Xuanyi's perspective, August was just lost in thought.

After a long while, just when Ji Xuan wanted August not to worry so much and that he could find someone else, August said slowly: " Sure, I haven't been out of the Mage Tower for a long time anyway. "

Ji Xuanyi: "..."

Ji Xuanyi: " What?!?!?!"

Ji Xuan was completely stunned. He had just dug August out of the Mage Tower?!

August obviously didn't notice anything wrong with Ji Xuanyi, and continued to talk to himself, " Recovering the Lost Continent is indeed a big deal, so it shouldn't be a problem to leave the Mage Tower, but Starry City can't do without me. Before I leave with you, I have to let Hamana come to Starry City to take over my position. This may take one to two days. Can you wait? "

Ji Xuanyi came back to his senses and said quickly: " Of course! "

Not to mention one or two days, he would have to wait even for one or two weeks! This is August! During the second world mission, everyone saw the fighting power of this big guy. It was like he was cheating. Only a fool would not wait for him!

August smiled and said, " I have to write a letter and contact Hamana. I also have some preparations to make. You can come back to me tomorrow. "

Ji Xuanyi's soul had flown away at this time. He didn't hear clearly what August said at all. He nodded in a daze and left the Mage Tower like a sleepwalker.

After Ji Xuanyi entered the Mage Tower, Liu Tian had a fierce fight with the guards. In the end, he was grabbed by the scruff of the neck and thrown out of the Mage Tower by the guards. Now he was waiting outside the Mage Tower with an unhappy face.

Seeing Ji Xuanyi walking out in a daze, Liu Tian quickly stopped him and said, " Is the event open? I saw the system announcement, it's awesome, let's go, let's hurry up and go back. "

Ji Xuanyi was stopped by him, and came back to his senses, saying: " No, we can't leave yet. In addition to launching the event, August also told me the event strategy. "

Liu Tian was stunned and said, " What? "

It was too much effort to explain to others, so Ji Xuanyi simply put him aside and said, " Don't worry about it. Anyway, we will wait in Starry City for another day or two . Have you brushed your impression in Starry City? "

Liu Tian didn't understand, but answered honestly: " I have, the one over at the stable. Some idiot said there was a hidden quest there that made the horse run faster, so I went there, but it was useless even after I maxed it out. "

Ji Xuanyi: "..."

The guys over there in the stable ... are they capable of fighting?

Ji Xuanyi was stunned for a moment, but finally put the matter aside and said, " Okay, forget about it for now. You can go do whatever you want now. I'll contact you when it's time for us to leave. "

Liu Tian was confused, but there was really nothing to do here, so he left alone.

Ji Xuanyi immediately contacted Xu Chu and the others and sent out all the information he got from August.

The information Ji Xuanyi obtained was no different from a thunderous drop, but this time, before Xu Chu could say anything, Xiao Xiao Yuxia howled first.

" Fuck! I've been in Star City for so long, nothing happened. I just came to the beach for an event, and suddenly this happened. I have to go back again! "

Ji Xuanyi was also helpless and could only say: " Have you increased your favorability? If you haven't or you don't have much fighting power, you don't need to come back. You guys should collect the statistics over there and send back those who have good favorability. "

Although it takes a lot of time, this is the only way for now. The other servers are fast, but the mission is very difficult. The four servers that went out to sea first have only gone halfway, and one-third of the people have been lost. It is estimated that it will be difficult to defend the garrison after arriving at the Lost Continent, and another round of people will need to be sent over. Although they move a little slowly, it is not a bad thing to be prepared in advance.

" According to the information provided by Ji Xuanyi, speed is not the most important thing now. There is only one strategy that can minimize losses, and everyone has to do it this way. There is no such thing as first or second. We can take our time and there is no rush, " Xu Chu said, " But there is one thing we still need to consider . Ji Xuanyi, do we need to announce the method of launching the event and the strategy? "

Not long after the second server activity started, some people had already started to inquire about the situation offline.

The system announcement of the second server explained the way to start the event very clearly. Someone triggered a clue from the great magician in the Mage Tower and started the event, but no one knew how the clue was triggered.

There is no wall that is impenetrable. The news that the second server Fanxing City suddenly sent people back to the main city from the beach also spread. Not only Xu Chu but also Ye Linyu and others were secretly chatting with Ji Xuanyi to inquire about the situation. In fact, there were more people secretly chatting with Xu Chu and his group. Everyone was annoyed enough. The most convenient and direct way to solve all this at the moment is to go directly to the forum to announce the information, and everyone can rest assured.

As someone who had experienced this, Ji Xuanyi could understand the pain of being flooded with private chat messages. He could also imagine what would happen if he didn't make the information public. After a little thought, he said, " Let's make it public, but I won't go. You can open a post, or Xiao Xiaoyu can go. "

When Xu Chu heard this, he immediately said in a very straightforward manner: " Then Xiao Xiao Yu, go down! "

Xiaoxiaoyuxia: "... Hey! "

Ji Xuanyi couldn't help but ask, " Let's just post the message, what about calculating the popularity? "

Xu Chu said calmly: " The rain is going down. "

Xiaoxiao Rain: " Meow meow meow???"

In the end, Xu Chu was still forced to make the guide. Even though Xiao Xiao Yu Xia was a model worker, he couldn't be used like this, otherwise he would die suddenly!

Ji Xuanyi decided to publish the strategy guide not entirely because he was annoyed by the influx of private chats or worried that someone would attack them in public opinion, but simply because there was actually no harm in publishing the strategy guide. To be precise, it should be beneficial.

The information Ji Xuanyi received from the very beginning told him that in this event, at least in the first two stages of this event, the three major cities were not in opposing positions. To some extent, they were even in a state of cooperation. The publication of this strategy can be said to have accelerated the completion of the task in disguise.

From another perspective, Ji Xuanyi's side, which had obtained the strategy, was slowed down by it, while the Day City, which did not know the strategy, set out first. Although it was very likely to suffer heavy losses, it was hard to say whether there would be any adventures or preparations over there, which would cause Ji Xuanyi and his team to be overtaken by others. Instead of being clueless and letting Day City complete the task at their own pace, it would be better to directly publish the strategy so that Day City's progress would have to keep pace with theirs. At least Ji Xuanyi knew that if they followed the strategy, he would definitely have more cards in his hand than Day City.

Having said that, after talking to Xu Chu and others, Ji Xuanyi still snorted in dissatisfaction . Although it was a cooperative stage, he was still unwilling to bring Daylight City along to play ... I don't know if Qi Qin is smart enough. If he meets Zhaochen who is alone, it would be best if he can help him relieve his hatred.

The generosity of the second server, Star City, in releasing its exclusive strategy guide also made many players admire it. After all, if it were them, they would not be so generous.

There is one thing that everyone cannot figure out. Isn't your triggering method a bit too advanced? Raise the favorability with the Great Mage in the Mage Tower to above Intimacy? What's the joke? What kind of method is this!

Most people doubt the authenticity of this trigger method, but they even took out the specific strategy, why would they lie to you here? There is money to be made? Besides, the screenshots of the system announcement have been released, and it is to go to the Mage Tower to find the Great Mage to open it!

Various doubts and specious speculations occupied half of the forum, but none of them were as upset as the servers that had been shipped overseas in advance.

You guys are so awesome, couldn't you come up with this strategy earlier? They've already died several times! We can't turn back now, we can only bite the bullet and keep going forward. But no matter what, with the strategy, the activity finally got on the right track, and the people who had gathered at the beach rushed to the main city to seek help.

Just as the first group of Star City players arrived at the main city at full speed, August had finally packed up his belongings, arranged his affairs, and prepared to leave with Ji Xuanyi. Perhaps because he knew that he would be facing players from the other two main cities, even the usually sloppy August finally paid attention to his image. When Ji Xuanyi first saw the old man in front of him with luxurious clothes and a strong aura, he almost didn't recognize that this was the usual August, and was stunned for a long time.

August looked at Ji Xuanyi and said awkwardly: " This is the robe that Hamana picked for me. I don't want to wear it like this. "

Because it didn't want to delay the players for too long, it only took two days from the time Mrs. Harman received the letter to the time she rushed from Elemental Town to Starry City. Now Mrs. Harman was standing next to August, looking at her father with a smile.

Ji Xuanyi quickly praised: " It's very beautiful, very beautiful. "

August then smiled.

Liu Tian received a notice from Ji Xuanyi, saying that he could leave today, so he obediently went to the door of the Mage Tower and waited for him to come out.

Liu Tian, the fool, had no idea what Ji Xuanyi was busy with and thought he had some other arrangements. So when he saw Ji Xuanyi taking August and his students out of the Mage Tower, he was completely stunned.

There is no one in Starry City who doesn't know August. After all, one needs to report to August to register for household registration. In addition, August was so powerful during the second stage of the world mission that his DPS even surpassed that of the Elf King. So there is no one who doesn't know him.

Liu Tian's jaw was almost dislocated, and it took him a long time to come back to his senses. He came close to Ji Xuanyi and asked in disbelief: " What the hell, what the hell, what the hell! What the hell is going on? Why did August come out?! Wasn't he on the tower?! "

Ji Xuan remained calm and said in a very pretentious manner: " Well, didn't you read the guide? You can invite people with high favorability to go out to sea together. I invited August by the way, and he agreed. "

Liu Tian opened his mouth and stared blankly at Ji Xuanyi and August, unable to speak for a long time.

August ignored them. Leaving the Mage Tower was a big deal for him, and he also had to carefully instruct his students to maintain the peace in Starry City.

Liu Tian took a long time to react before he said dizzily, " August wants to come with us? Ride my horse? Should I carry August on my back? I don't know if the load is enough for the three of us ..."

Ji Xuan was so upset when he heard this. August was riding with them? That was too cheap. Impossible!

But having said that, Ji Xuanyi felt a little uncertain. After all, August had never left the tower except for fighting monsters during the second world mission. Could it be that he was really going to go with the two of them, with three of them riding on one horse?

Ji Xuanyi thought about it for a long time, and finally couldn't help but ask August.

Fortunately, August said there was no need to worry about this. He would act together with an elite guard force from Star City, so there would be no need for three people to ride the same horse. Their speed might be a little slow, so Ji Xuanyi would not have to wait for them. He could just lead the way at his own pace.

Only then did Ji Xuanyi feel relieved.

Liu Tian glanced at the people who were gathered together and respectfully listening to August's lecture, and whispered to Ji Xuan: " Is it possible to get this group of people over with us? "

Ji Xuan gave him a cold look and couldn't help thinking, it turns out that when it comes to taking advantage of something like this, even a fool like Liu Tian would come to his senses and actually want to pack up the entire Mage Tower and take it away. He's really ambitious! But this is obviously impossible. First of all, August will not agree, as the Mage Tower must keep some people there. Secondly, even if these students of August can really go, Ji Xuanyi cannot invite them. Although he has a high reputation in the Mage Tower and has the favorability of several apprentices, this favorability is just enthusiasm, not enough to take people away.

There is only one apprentice who has a close relationship with Ji Xuanyi, and that is Pusi who is obsessed with divination. Ji Xuanyi dare not invite this person, because he has only one function, which is to predict good and bad luck. What he says will come true and cannot be deciphered. After getting on the boat, saying good things can only be icing on the cake, and saying bad things will be like adding insult to injury. If he says " We are going to capsize " , well, everyone on the boat will be finished. What's the point of playing? Even August will be drowned. When he comes back, the master and apprentice will turn against each other!

Ji Xuanyi quickly threw aside the terrible thoughts in his mind and said to Liu Tian: " Don't think too much. August is enough. If there are more people, the boat will not be able to accommodate them! "

After finishing speaking, Ji Xuanyi quickly notified Xu Chu and Xiao Xiao Yuxia that if anyone said that he had gained the favorability of the Mage Tower apprentice Pushi, they should never let him come back!

After Ji Xuanyi, Xuchu and others explained Puxi's situation clearly, August finally ended his long lecture and turned back to Ji Xuanyi with a serious face: " Let's go. "

Ji Xuanyi nodded frantically like a chick pecking at rice, then turned around and led the way. Except for the two guards at the door of the Mage Tower, the others stayed outside the Mage Tower and did not continue to send them off. August did not ride a horse, but walked on his own two legs. Liu Tian did not dare to ride either, but just followed Ji Xuanyi in front.

It was fine when we just came out of the Mage Tower. Everyone went to the beach for the new event. There were really few people in the city, let alone near the Mage Tower. Those who had just returned from the beach had just entered the city and had no idea what was happening in the city.

If you walk a little further outside, you will meet players scattered around in the inner city.

There are actually quite a few tasks in the game that require you to run around. Although most of the tasks in "Domain" are unique, you can occasionally see players taking them for a stroll on the road.

But this definitely does not include the Great Magician who represents a main city!!!

When Ji Xuanyi and Liu Tian were walking on the road, everyone's reaction was, first glance over and think, oh, they are on a mission, normal ... then they reacted, suddenly turned their gaze to them, and then rubbed their eyes desperately, wishing they could dig out their eyeballs and stick them on them to scan them, then they were stunned for several seconds before they reacted – what the hell? !

What the hell?!?!

What the hell?!?!

Isn't this August in new clothes?! What the hell! Who are these two?! They're taking August out for a stroll?!?!

Wherever Ji Xuanyi and Liu Tian passed by, all the players froze into statues, watching them pass by in a daze.

Liu Tian felt something was wrong, so he said to Ji Xuan, " This atmosphere is so weird, I thought everyone would come over to watch, what's going on now? "

Ji Xuanyi's face was expressionless, and he said silently: " After all, August has a very strong aura of kingship. If he walks on the street, would you dare to approach him and chat with him? " Liu Tian: "... I dare not. "

Players in Star City who have entered the Mage Tower have basically been scolded by August. Do you dare to say hello to your dean if you meet him on the street?!

The players of Star City were so intimidated by August's power that no one dared to come up and watch, allowing Ji Xuanyi and Liu Tian to walk to the exit of the inner city unimpeded. Then the two of them were blocked.

The team that returned from the beach has just arrived, and everyone is busy contacting those with whom they have a high favorability, while the more powerful ones in the main city are almost all in the inner city, which makes most of the players who returned from the beach rush to the inner city without stopping after entering the city.

Then a scene that confused these players appeared.

A team of guards suddenly appeared at the nearest entrance to the inner city. These guards were dressed differently from ordinary guards. Compared with the guards that could be seen everywhere in the Starry City, their equipment was obviously more gorgeous. In addition to the shiny armor, there were also dense enchantments and various magic bonuses. Almost all the guards were shining with a faint light.

You know, in this game where the special effects are not that fancy, this kind of light often represents that the target's combat capability is very strong.

This team of just a hundred or so people looks very tough to deal with.

Everyone had forgotten why they came back, and they all gathered around this group, wanting to see what they were up to. Was it related to this event? Who knew there might be a hidden mission?

Just as everyone was watching with great interest, even forgetting why they came back, the leader suddenly said: " Welcome to the great magician! "

After that, everyone, led by that person, knelt on one knee in one direction.

Everyone looked in the direction they were heading. The player in front of them was flattered. He pointed at himself in disbelief and stammered, " Me, me? "

Everyone looked at him in surprise.
Until a voice came from behind him.

" What are you thinking, big brother? " Ji Xuanyi said with a frown on his face. " What are you thinking? I'm kneeling down to you. How dare you do that? Move aside. The real boss is coming. "

The player's face flushed red, and he jumped away like a frightened rabbit, leaving Ji Xuanyi and August behind him.

This time, the surprise on everyone's faces was even greater – no, it can't be called surprise, it's simply shock!!!

Everyone gasped and someone shouted, " What the hell! August?! "

There were suddenly suppressed screams of varying heights from the crowd, and many players couldn't help but swear.

What's going on?! Is the world going to be destroyed again?! How did August escape from the Mage Tower?!

August seemed to be accustomed to such scenes and calmly walked past the guard. The guard immediately stood up, had someone lead a white horse from behind, and stood in front of August.

The commotion around became louder, and screams were heard one after another!

" August is not only leaving the tower! He is also leaving the city! "

" What the hell! Is this an event? Can someone of August's level be taken out to sea with us?! "

" Isn't August a wizard? Why can he ride a horse? "

The last voice made Ji Xuan's head turn black. What a mess! Can't you be more credible when you scream? Who cares if a wizard can ride a horse?

August was a skinny old man, and also a wizard. He obviously didn't have the strength to climb onto the back of such a tall horse by himself. It was only when the guard squatted on the ground and stretched out his hand for August to step on that he was able to climb onto the gorgeously decorated white horse.

Ji Xuanyi heard someone muttering beside him: " The evil ruling class ..."

Ji Xuan was speechless when he heard this. Before he could say anything, August had already ridden up to him and said amiably, " Child, do you want to join me? "

There was another gasp.

Oh my god! Is this the fucking August who can spit in your face when he curses? He actually spoke in a friendly way!

Ji Xuanyi was actually a little envious of August's horse. Just by looking at its appearance, one could tell that it was definitely more awesome than Liu Tian's horse.

But think about it, they are two weak magic professions. It is hard for August to ride a horse alone, let alone bring him along. It is still a question whether the old man can hold the reins! Out of safety concerns , Ji Xuanyi declined with regret: " No, you ride alone, my companion and I will lead the way. "

August was obviously well-versed in his riding skills. When Ji Xuanyi said this, he agreed with a smile and said, " Then lead the way. Time waits for no one. "

Ji Xuan nodded, pulled Liu Tian, squeezed through the dazed crowd, rode his horse, and led August and his guard team to the city gate in a mighty manner.

Ji Xuanyi and the others left for quite some time before someone finally came to his senses and shouted, " What did I just see?! "

" Fuck! That's awesome!!! August also went to the beach!!! How come our Starry City is so awesome?! Can Youyue City and Sun City do that?! "

Everyone reacted suddenly. A few of them went to show off, but most of them still remembered their mission and hurried to make contact.

When they came back, they still felt a little uncertain. What if someone refused to follow and they didn't find enough people, which led to problems in the subsequent voyage?

Now I don't have to worry about these things anymore. August has already come out, so what difference does it make whether others go or not? ! Those who can call can call, and those who can't call can forget it. Don't force it. Don't force it.

Ji Xuanyi and Liu Tian did not dare to travel too fast. Although August's horse was good, he rode slowly. Besides, there were about a hundred guards, of which only twenty or thirty were on horseback, and the rest were infantry. Although their speed was definitely faster than the player's swordsman, it was impossible for them to be faster than the horses.

It took the group three days to get close to the beach. Ji Xuanyi and Liu Tian were so absorbed in their journey that they didn't notice that a commotion had broken out in the forum.

A Star City player from the second server said that they had invited August, and was mocked by players from other servers and the main city, saying that you guys couldn't make your story more realistic, and that it was easy for the great magician in the Mage Tower to get out? And the strategy you released said that you had to send gifts to each other in the second stage.

Oh, now August will accompany you to the Lost Continent. Are you planning to transport cargo ships in the second phase? Psycho ...

Of course, there are also more rational people who say that only pictures can reveal the truth, and they will remain neutral for now, and they will believe you if you send them the screenshots. But the problem is that the onlookers in Star City were so shocked that no one thought of taking screenshots, so now there is no evidence for posting on the forum! How annoying!

The players in Star City could only say unwillingly: " You will know when they reach the beach! " Of course, this news also reached the ears of other main cities in the second server. Not to mention the Sun City, at least Ye Linyu, as a friendly party of the Star City, remained on the sidelines. In fact, even Xu Chu and the others themselves were a little bit unconvinced that Ji Xuanyi could invite August.

Although August and Ji Xuanyi have a very good relationship, it is unlikely that they will simply ignore the second phase of the event and bring people in the first phase, right?

But at this moment, I sent a message to Ji Xuan but he didn't reply, and I don't know what he was doing.

What are you doing? Of course you are on the road!

Just when everyone was looking forward to Ji Xuanyi and Liu Tian, Ji Xuanyi and Liu Tian, who had been traveling for three consecutive days, finally arrived at the beach!

The author has something to say: When I was writing about everyone gasping for air, I suddenly remembered a joke I saw on Weibo before.

Everyone gasped in unison, almost vacuuming the hall!

Chapter 163

Although Ji Xuanyi and Liu Tian returned to Fanxing City ahead of time, they had been on the road for three whole days . Some players with faster pace had already returned and even surpassed them.

The three main city forces on the coast were basically counting the days for the people they sent out to return , and every day there were people standing near the shore looking in.

However, the people who went out to look around from Fanxing City and Youyue City today were not ordinary people. They were a team consisting of the four leaders of the three major gangs and the leader and senior executives of Youyue City . They were standing on the side of the road like a husband-waiting stone, standing on tiptoe with their necks stretched out.

Because Day City was a step slow in receiving the initial intelligence, everything was delayed by half a beat . Other things would be fine, but for such a large-scale event, it was very uncomfortable to encounter this half-beat. Even with the public strategy, they were still uneasy, so they kept a close eye on the movements of Star City and Youyue City . Of course, the behavior of the high-level officials of these two main cities coming out in full force could not escape their surveillance.

The player in charge of intelligence immediately informed Zhaochen of this matter, worrying whether Star City and Sun City had any special plans.

Zhaochen was stunned for a moment after receiving the news, then he thought of something and said with his eyes downcast: " It shouldn't be any special circumstances . Calculating the date, Ji Xuanyi should be back by then. "

Because of Zhaochen's previous failure, although Ji Xuanyi's name was not yet known throughout the entire Day City, it was at least known throughout the entire New Half City. The person who reported the news had also heard of this person . It was said that he had a deep hatred for Zhaochen, so he immediately asked: " What should we do? Should we send someone to ambush him? "

Zhao Chen lowered his eyes, not knowing what he was thinking. After a long while, he said, " The people of Fanxing City are not fools. If Ji Xuanyi was ambushed, would they think it was done by Youyue City? When Ji Xuanyi came back, even the people of Youyue City went out to wait for him. The two main cities probably formed an alliance a long time ago. If something happened to him, we would have to face the pincer attack of the two main cities, and we would have no chance of winning. "

The messenger thought about it and said, " What should we do then? "

Zhaochen shook his head, and after a while, he said, " Let's go out and take a look. "

The man was stunned for a moment, then he thought of something and laughed as if he was watching a joke: " Boss, do you know the news? Those idiots in Star City said that Ji Xuanyi took the great magician out of their magic tower. The high-ranking officials of the two main cities next door didn't take the news seriously and went to welcome him in such a grand manner, right? "

Zhao Chen glanced at him, stood up, and said as he walked out: " Who knows if it's true? " The man followed Zhaochen and said, " How could it be true? The great magician in the Mage Tower, not to mention the one in Star City, even the one in our own city, it's impossible for him to come out. He has to stay in the main city and it's impossible for him to abandon the main city and run to the seaside. Besides, according to the strategy they published themselves, they have to escort three great magicians in the second stage. If we accompany them now, will we bring them back and send them to each other again? "

Zhaochen didn't know if he heard what the man said or not. Anyway, he just walked forward in silence. The man said a few words but got no response. He felt bored and could only shut up in dismay. Before he shut up, he didn't forget to say: " We'll know when the time comes. It's definitely impossible ..."

Because they also had to take the situation at the seaside into consideration – such as the refreshing of the sea monster boss , those of them as commanders could not leave too far , so they waited for people in the camp near the main road. In less than five minutes, Zhao Chen and his inexplicably additional followers saw Xu Chu, Ye Linyu and others.

Zhaochen's feelings towards Ji Xuanyi are complicated , and can be described as a mixture of love and hate, but one thing is certain, he absolutely does not want to hear others slander Ji Xuanyi.

In fact, what the intelligence officer said annoyed him a lot. He was reluctant to let the man follow him at first, but after thinking about it, he was alone now. If he went to the place where the top leaders of Youyue City and Fanxing City gathered, it would be too easy for him to be put in a sack and beaten with a club. Rather than being raped for no reason, he would rather endure that follower who didn't know how to read people's expressions.

When Zhaochen and his followers approached, Qi Qin noticed it immediately and was the first to turn around.

He was in a bad mood as Ji Xuanyi had left him alone for another week. Although Ji Xuanyi was still with him offline, Ji Xuanyi was busy on the road during this period and he only ate and slept when he was offline. He hadn't kissed, hugged or talked with Qi Qin for a long time.

Qi Qin's first reaction when he saw Zhao Chen was to go up and beat him up, but unfortunately he had just taken a step when Xu Chu saw through his thoughts and Xu Chu directed Xiao Xiao Yu Xia and Xue Piao Ren Jian to hug him.

Qi Qin said eagerly: " I will kill him at level one ..."

Xu Chu: "... Don't be like this. Even if you only knock down half of his health and spread the news, we are not in the right. Ji Xuanyi will be back soon, so just behave yourself. "

It would have been fine if Xuchu hadn't mentioned Ji Xuanyi, but once he did, Qi Qin couldn't help but say, " Killing him at level one won't work, I'd better take his turn. "

Xu Chu: "..."

Xu Chu even wanted to wink at Zhao Chen and let him run away first.

It's a pity that Zhaochen seemed to be completely unaware of how much he was hated, and he walked over calmly.

Qi Qin was trapped by Xiao Xiao Yu Xia and Xue Piao Ren Jian because of his power. He was about to throw the artifact in his hand to kill him when he heard the man behind Zhao Chen say, " Are you really going to wait for Ji Xuan Yi to bring the great magician from the Mage Tower over? "

Everyone immediately turned their attention to that person.

The man didn't mean to help Zhaochen out, he was just really curious about this matter, so he asked a few questions. Seeing that everyone's eyes were on him, he couldn't help but hide behind Zhaochen and said, " You guys took it seriously too? "

Ji Xuanyi hasn't replied to everyone yet. Xu Chu and others, including Ye Linyu, of course have doubts about this, otherwise they would not have come out together to greet Ji Xuanyi today. But their curiosity, in the eyes of the players in Sun City, seemed to have turned into a meaning of grand welcome. No matter whether it was true or false, in their opinion, it was never a good thing, and they could not help but want to say a few sarcastic words.

Xuchu thought he had seen through Zhaochen and the others' intentions, so he certainly wasn't afraid of the stage. He smiled and said, " Whether he's here or not, we'll know when we see it. " After saying that, he moved closer to Qi Qin and whispered, " Calm down and wait until Ji Xuanyi comes back. If we beat him to death now, it would seem like we are angry and guilty, and we are embarrassing Ji Xuanyi for nothing. "

Upon hearing this, Qi Qin relaxed his strength. Xiaoxiao Yuxia and Xue Piaorenjian also breathed a sigh of relief and let go.

Qi Qin glanced at Zhao Chen coldly, and the other party also looked at him with an unfriendly look.

Xiaoxiao Yuxia couldn't help but whispered: " The difference in strength is so huge that it's unbearable. How can Zhaochen, a jerk, have the courage to challenge Tianxia? "

Even without mentioning direct combat power, Zhao Chen simply cannot compare with Qi Qin in terms of favorability with Ji Xuanyi!

The old western doctor had only heard a little about the feud between the two main cities of Daytime City and Star City, but he didn't understand the chaotic emotional struggles among these people. He had been confused from the beginning until Xiao Xiaoyu spoke, and he finally found a place to connect the dots. He couldn't wait to say: " Maybe Liang Jingru gave him the courage! "

Everyone: "..."

Ye Linyu said speechlessly: " Don't tell such a cold joke, just be quiet. "

The old Western doctor also realized that he had lost the audience, so he just said " Oh " and stopped talking.

After Zhaochen and Qi Qin finished their eye contact , they walked to the other side alone with their people and said, " You pick up your people, and we pick up ours. We won't interfere with each other. "

This is a very shameless thing to say. Except for the old western doctor and Ye Linyu who didn't get to eat the melon, everyone here knows that you are here for Ji Xuanyi!

But I can't say it yet, because after I say it, Qi Qin might not be able to control himself and go crazy. If he really goes crazy, not to mention the drizzling rain and snow, even if you bring another twenty people, it will be useless!

Xu Chu could only smile and say, " That would be great. I hope that when we pick up the people and leave later, Gang Leader Zhaochen won't be a follower, okay? "

Zhaochen hummed softly and stopped talking .

Everyone looked in the direction they came from and waited for nearly an hour. Just when Xu Chu began to complain that this was the first time someone had stood him up like this, two people and a horse finally appeared in the distance .

Before Qi Qin recognized Ji Xuanyi's silhouette hiding behind Liu Tian, Xu Chu had already recognized Liu Tian – his horse!

Xu Chu shouted: " They are back, that horse is six days old! "

Everyone was startled and quickly leaned over to look. The figures of the two people and the horse were getting closer and closer. In just a moment, everyone could see them clearly.

As expected, it was Ji Xuanyi and Liu Tian! The two of them were back!

Just as Xuchu and the others showed their happy expressions, they heard the person next to Xuchu say: " What did I say? They are just two people. What magician? You are just talking nonsense! "

The old western doctor was about to pull the man over and give him a scolding, but Ji Xuanyi and Liu Tian had already run over, and everyone was busy going up to pick them up, so he had to give up.

Qi Qin left everyone behind and excitedly went forward to help Ji Xuanyi off his horse, saying, " Xuanyi, you're back? How are you? Are you tired? Do you want to take a break first? I'll buy you an ice cream when I log off. "

Ji Xuanyi hugged Qi Qin comfortingly and said, " No need for ice cream. "

He looked very excited. Just as he was about to speak, Liu Tian had already fallen off his horse and shouted, " Fuck, fuck! You don't know how awesome Ji Xuanyi is! "

Everyone was shocked. Did they really bring August here? !

The man next to Zhaochen said angrily: " It's fake, it must be fake. How can a great magician leave the main city? It's not like the world is destroyed. "

His voice was really loud and Ji Xuanyi also heard it. The moment he turned his head and saw Zhaochen, Ji Xuanyi's face became gloomy.

Ji Xuanyi was shocked and asked, " Why is this person here? "

Chu said: " Sun City also has players to pick up, they are not here to pick you up, don't be so self-indulgent, okay? "

Ji Xuan kicked Xu Chu expressionlessly. When the other party ran to the side with a grin on his face and rubbed his butt, he glanced at Zhao Chen, sneered, and ignored him.

Zhaochen felt mixed emotions . He stared at Ji Xuan for a long time but couldn't even open his mouth. The player from Dayo City behind him felt humiliated and said to Ji Xuan, " You brought

the Great Magician back? Where is he? Just the two of you? Don't tell me the Great Magician is invisible! "

Because the players who have returned are basically all fast knights, and most of the things they brought back were riding on the knights' horses. Even when Ji Xuanyi and Liu Tian came back, they were not seen on horseback!

Ji Xuan just laughed and didn't want to pay any attention to him.

Just when the player from Sun City felt that he was being looked down upon and was about to argue with Ji Xuanyi, a new figure appeared on the road.

There were quite a lot of people in this group, and everyone was stunned. The man said blankly, "The large group heading back to the main city is back? "

Xu Chu did look at Ji Xuanyi subconsciously.

Ji Xuan looked back at Xu Chu, curled his lips towards him, and said, "August can't travel alone. Is he going to share the same broken horse with me for six days? "

As soon as Ji Xuanyi finished speaking, August came over with his guard team.

It must be said that there was a reason why Augustus specially changed into a gorgeous robe.

The horse, the clothes, and the pomp behind him stunned everyone at the time.

Oh my god, August really ran out of the wizard tower!

After a long time, Xiaoxiao Yuxia and Xu Chu finally recovered from their shock, and the expressions on their faces changed from surprise to ecstasy.

Xiao Xiaoyu kept saying, "Fuck, fuck, fuck ..."

Xu Chu also said: "Awesome, awesome, so awesome ..."

The two grabbed Ji Xuanyi from the left and right and asked in unison: "How did you do that?! "

Ji Xuanyi smiled pretentiously and said, "Just max out your favorability."

Amid the exclamations of the crowd, August walked up to Ji Xuanyi, looked up, and said, "This is the sea ... I haven't seen it for many years. "

That's right. Ever since he became the great magician of Star City, August has never left the Mage Tower. He even insisted on staying in the Mage Tower when Madam Harman was in danger. If Madam Harman had not been free to take over his job this time, no matter how good his relationship with Ji Xuanyi was, he would not have been able to escape like this.

August seemed to have completely ignored the people around him. He just lowered his head and smiled at Ji Xuan, saying, "Child, continue to lead the way. Where are we going? "

Ji Xuanyi wanted to lead the way, but he had been out for a week and was not familiar with the place anymore, so he could only watch in the rain.

Ji Xuanyi was looking at Xiao Xiaoyuxia, so August also turned his gaze over. Xiao Xiaoyuxia's knees became weak and he shivered. He walked to the front, nodding and bowing like a lackey, and said to August: "Please come this way! "

Ji Xuanyi: "..."

Xiaoxiao Yuxia is such a polite person!

Until the people from Star City left with August and his guards, Zhaochen and Ye Linyu remained where they were, unable to react for a long time.

Even Ye Linyu was shocked, which shows how big of an impact this incident had!

In the end, it was the old western doctor who was more mentally resilient who reacted first, muttering, " Fuck, what kind of magical cheat is Ji Xuanyi using ..."

In fact, just as the old Western doctor and others belatedly realized the situation and chased back to the camp, other players in the camp who were ready to go out to sea at any time were saying the same thing to the old Western doctor.

" Fuck, what kind of magic is this! "

When August walked in with his guards, all the players were stunned, staring at the team in amazement, and could not believe their eyes!

Someone dug the great magician out of the magician tower!

For a moment, all the players on the beach were shocked and told each other the news. The bragging post that was originally posted by the players of Star City in the forum and was suppressed by a lot of people was also dug out again. Countless people knelt down and apologized, saying that your Star City on the second server is awesome and they can't afford to offend them, so they said goodbye.

The situation online was even more exaggerated. After August arrived at the camp, all the players from Star City who stayed in the seaside stronghold came online and gathered around August. There were so many people that they squeezed the camp of the neighboring Youyue City dozens of meters away!

In fact, not only the players from Starry City, but also the players from Youyue City and even the players from Youri City, all wanted to come and watch August, and they blocked the Starry City's camp on the seaside!

Xiaoxiao Yuxia and the others drove along the road with great difficulty. When they were almost at the beach, Ji Xuan asked, " Wait, how is the boat being prepared? "

Xu Chu shook his head and said, " Wait until you remember to do it, the daylily will be cold. "

On the second day after Ji Xuanyi launched the event, a sea monster boss reappeared on the beach again. Starry City and Youyue City joined forces to squeeze out Youri City, and after taking the sea monster boss and dividing it equally, they played rock-paper-scissors at night to decide the ownership of the ghost ship.

Ji Xuanyi interrupted with a frown on his face, " Wait, wait, you guys? Playing rock-paper-scissors with Youyue City? Didn't they send Yunzhongjian out? "

Xuchu smiled like a fox and said, " Ye Linyu is not stupid. For a game that relies on luck, of course he would send Yun Zhongjian out. "

 " But he still doesn't know me well enough, " Xu Chu, who had managed to defeat Ye Linyu, said in a low voice with pride, " I bribed a few people from Day City with money and put Yun Zhongjian in a sack— "

Ji Xuanyi: "..."

Xu Chu: " Hehehe ... "

Ji Xuanyi frowned and said, " You didn't do anything to Yun Zhongjian, did you? If Yun Zhongjian was only tied up when he was playing rock-paper-scissors, and then he was sent back safely, even if the murderer was confirmed to be from Dayo City, he wouldn't be so stupid as to think it had nothing to do with you, right? "

Xu Chu said: " How could I not think of such a thing? The condition I set for those Sun City vagrants was to put him in a sack and kill Yun Zhongjian ... No, no, no! Don't do it yet! Yun Zhongjian is fine! "

Ji Xuanyi looked at Xu Chu with dissatisfaction and said, " Yun Zhongjian is as naive as a rabbit. How dare you attack him? "

Xu Chu said indifferently: " I don't have a conscience anyway! "

Ji Xuanyi looked at him coldly, and Xu Chu laughed dryly: " But we still need to take revolutionary friendship into consideration. I asked Xue Piao Renjian to find an opportunity to rescue the people, but when we sent them back, we had already won the game of rock-paper-scissors, so the ghost ship had already been shot down. "

Xu Chu got the ghost ship from Youyue City in this way. Thinking of Ye Linyu's ugly face at that time, he wanted to laugh. Moreover, Yun Zhongjian became familiar with Xue Piao Renjian because of this matter, but Xue Piao Renjian was not very willing to pay attention to him.

Poor Yun Zhongjian, he would be heartbroken if he found out that his new friendship was actually a conspiracy!

Ji Xuan looked at Xu Chu expressionlessly. Xu Chu subconsciously walked a little further away from him , and then said: " But there is one more thing that requires your help. "

Ji Xuan was stunned for a moment and said, " Anything else? "

Xu Chu nodded, with a look of embarrassment on his face: " We sent people to clear out all the monsters on the ghost ship that night. "

 " But when the time came, the ghost ship disappeared. "

Ji Xuan was stunned for a moment and said, " How could that be? Didn't it say that as long as we defeat the pirates, we can gain control of the ghost ship? "

Xu Chu shook his head and said, " I don't know. The ship disappeared so suddenly that we almost lost someone. When we went back to look for it, it was gone too. "

Ji Xuanyi frowned and said, " Did the ship appear again later? "

Xu Chu nodded and said, " It has appeared before, and the ghost ship after that ignored the sea monster boss 's refresh pattern and appeared every night. "

 " Have you gone over to take a look? Is the monster up there still there? " Ji Xuanyi asked.

Xu Chu shook his head: " I saw it, it's not there. The boat is just there all alone, and it disappears at a certain time. "

Ji Xuanyi rubbed his brows and said, " There must be a setting that has not been discovered. "

Xu Chu said: " The problem is that I don't know where this setting is ..."

Ji Xuan suddenly thought of something and asked, " Didn't you find a green monster before? Did you talk to that monster? "

Xu Chu said: " Of course it was right. If there is no response ... it's screwed. "

The two of them fell silent. After a while, Ji Xuanyi and Xu Chu looked at each other and said speechlessly: " After all this time, you still haven't gotten the boat. What on earth were you so proud of before? "

Xu Chu was not to be outdone and said, " I have managed to get Ye Linyu back, shouldn't I be proud of myself???" "

Ji Xuanyi: "..."

Ji Xuanyi was so disappointed that he said, "Look at what you have accomplished! "

Xu Chu said, with a dead pig fearless of boiling water: "Anyway, this is the situation now. The ship has been shot down, but it can't be driven away. August is here, you can ask him, maybe he has some solution. "

Ji Xuanyi frowned and said, "I was planning to board the ship and set off as soon as August arrived. How could you be so useless? "

Xu Chu said in disbelief: "Come on, boss. If August comes, just leave. What will the others do? We have to wait. It's a good time to solve the problem of the ship. "

Ji Xuan glanced at him and said, "Is there any post on the forum that mentions the ghost ship? "

Xu Chu said: "Yes, someone mentioned it after the event started, but those cunning guys didn't release the guide on how to sail. So far, we only know that the Sun City in the first server sailed out on a ghost ship. It seems that one of the other two main cities made their own ships, and the other got it from someone else. They still didn't say which one it was. It's really fucking stupid. "

"Are there any other ways to get the boat?" Ji Xuanyi lowered his eyes and said, "This activity is quite interesting. "

Xu Chu couldn't help but nod his head as well: "This time the free activity mission is really free, there are many different ways to trigger the activity, and it seems that there is more than one way to get the boat. "

It's really a headache.

Ji Xuanyi said, "That's all we can do. We still have a little time left. Let's see if we can find a way to drive the ghost ship away. If there's really no other way, we can only give up on it and look for another ship. If other servers can find other ships, we can definitely find them too. "

Xu Chu nodded. He didn't have much doubt about this. Up to now, basically all the main cities of the servers that had opened the event had successfully set out to sea. The official must have set up multiple ways to obtain ships. It didn't make sense that they were the only ones stuck. What's more, there was also August. This big guy wouldn't just come and do nothing and watch them get stuck on the mission, right?

Ji Xuanyi thought for a moment and said, "After all, this activity is a cooperative activity in the early stages. What is the current situation of Sun City and Youyue City? "

Xu Chu said, "Sun City doesn't know. They are guarding against us like thieves, afraid that we might eavesdrop on their plans. However, the situation in Youyue City is not hidden from us. " Having said this, Xu Chu's face darkened again.

Ji Xuan took one look at him and knew without asking that Ye Linyu must have done something to him again.

In fact, this is indeed the case ...

Because of the alliance, Youyue City's movements were not hidden from Fanxing City at all. After the ghost ship was won by Fanxing City, Ye Linyu was indeed upset for a while, but he soon figured it out. Regardless of the alliance, this was a cooperative stage after all. Even if Youyue City really couldn't find the ship in the end, Fanxing City would definitely help them. After all, in the second stage of sending great magicians to each other to build the teleportation

array, the great magician of Youyue City must be present. Otherwise, how could they build a teleportation array without all the people?

Although Ye Linyu did not go as far as to slack off, he was indeed a bit reckless. Every day he carefully led the other players of Youyue City to find another ship. Before logging off, he did not forget to report to the Fanxing City camp on time to report the progress to Xiaoxiao Yuxia and Xu Chu.

What I mean is, take it easy, buddy, and be prepared. We can't find it here, so you'll have to find two!

Xu Chu snorted and said , " He is so shameless and wishful thinking. Do I look like a philanthropist if I find him another ship? If there are not enough ships for the return trip, just pick up two people from Youyue City and take them over. At most, we can give them some land so that their great magician has a place to live. "

Xu Chu was not worried at all that Ye Linyu would bully him, but after suffering a loss last time, he really hated Ye Linyu. He felt annoyed whenever he saw him and felt that his spirit was hurt. Ji Xuanyi had nothing to say about the disagreement between the two people. Anyway, he was not that familiar with Ye Linyu, so he would talk about it later.

Xiao Xiaoyu respectfully brought August to the center of the Star City camp. Ji Xuan saw that there were too many people watching and thought that if he didn't go up to talk, he would not be able to squeeze in. So he went up to August and said, " Let's stop here now. There are others behind us who haven't arrived yet. "

August heard this, nodded to Ji Xuan and said, " Okay, I need a piece of vacant land. "

Before Ji Xuanyi could say anything, Xiao Xiao Yuxia immediately shouted, " Everyone, make way! August wants a vacant space, what do you want? Don't push, don't push! "

Throughout history, the curiosity of the spectators should not be underestimated. Members from the three major gangs all joined in and it took a lot of effort to squeeze the people out of the way and make room for August.

August got off his horse, pointed with a staff taller than himself, and a small hut with all the necessary facilities immediately rose up on the open ground.

The crowd exclaimed again, and Ji Xuanyi heard someone say: " What kind of magical spell is this! We are all mages, why can't I do it?! Boss, I want to learn it too! "

Ji Xuan was speechless for a while.

August walked into the room alone, and the hundred or so guards he brought with him immediately began to patrol the surroundings. Any player they met on the way were grabbed by the scruff of the neck and thrown aside like garbage. Their efficiency was much faster than that of the members of the three major gangs. After a while, the area around August's small room became empty. Everyone was looking around, but they didn't dare to squeeze in.

Xiao Xiaoyu heaved a sigh of relief and was about to discuss something with Ji Xuanyi when a team of guards came over, picked him up and threw him out.

Xiaoxiao Rain: "..."

Xiao Xiao Yuxia said in disbelief: " No way? I am the representative of Star City, a representative?! Even if the official is not serious, I just led you the way, and you turned your back on me???"

After the heavy rain fell, Xu Chuliutian and others were thrown out one by one. Later, the only people who could be tolerated by the guards to stay near August's residence were Ji Xuanyi, Qi Qin, and Jian Xi Xinjiu.

Seeing this lineup, Ji Xuanyi understood that only those who liked August could stay. He immediately waved his hand to Xiao Xiaoyuxia, telling him not to waste his energy, and said, " I'll go discuss the boat with August, and I'll tell you about the situation later. "

Although Xiaoxiao Yuxia felt aggrieved, she couldn't reason with him, so she could only agree and go to stabilize the scattered people in Fanxing City with Xu Chu.

Seeing that the surroundings were finally empty, Qi Qin immediately followed Ji Xuanyi's footsteps. Jian Xi Xinjiu hadn't reacted to what had happened yet, still immersed in the shocking news that August had left the Mage Tower. He was several beats late before following him into the house.

The interior of this makeshift house is exactly the same as the top floor of the Mage Tower in Starry City. If it weren't for the blue ocean that could be seen outside through the window, Ji Xuanyi almost thought he had returned to Starry City.

August probably didn't plan to change his clothes recently. He rolled up his overly long sleeves and made tea for Ji Xuanyi and the others while muttering in a low voice: " Hamanna, that girl, always makes these useless things. "

Having said that, after making tea, August carefully put his sleeves down again and carefully smoothed out the folds on them, for fear of leaving any traces.

Ji Xuanyi and Qi Qinjian washed the wine and sat down, drank a cup of tea, and said to August without further ado, " We seem to have encountered a problem. "

August was sitting opposite them. Hearing this, he asked with great concern: " What's wrong? Kid, if you have any problem, just tell me. I will help you. "

It's different when you have a big boss. It's so much easier to hear such a straightforward promise than to rack your head to figure out a solution yourself!

Ji Xuanyi exhaled lightly and said, " It's the boat's problem. "

Ji Xuanyi told August the truth about how they got the ghost ship but couldn't figure out a way to sail it, and said, " We thought the issue with the ship had been resolved, so we asked you to come over, but we didn't expect this to be the case. If you can help come up with a solution, that would be great. "

August fell into deep thought after hearing this. After a while, he said, " Ghost pirate ship? "

Ji Xuanyi responded.

August said slowly, " Son, I should have told you about the load-bearing capacity of the vehicle. "

Ji Xuanyi was stunned, not knowing why he suddenly brought this up.

August shook his head and said, " To be honest, I came here when I was young. I remember the ghost ship you mentioned. But if it was that small boat, it wouldn't be able to carry me and my guards, let alone other helpers. "

Ji Xuanyi's heart skipped a beat and he couldn't help but ask, " What should I do then? "

Chapter 164

What should I do? With August here, do I need to ask this kind of question? Of course, I should just leave it to August!

This activity has a very high degree of freedom . As long as you explore carefully , there are more than one or two ways to get a boat , which of course includes the method of sucking up to others.

When August was young, he traveled to many places and of course went to sea. Although his goal at that time was not the Lost Continent , August's showy nature still made him make sufficient preparations for that trip.

This, of course, includes a ship that is big enough.

Everyone was shocked when August's ship appeared on the sea the next day.

This is a fucking ship?! This is an island! It's fucking too big!

Not to mention Xiao Xiaoyu and the others, even Ji Xuanyi looked at August as if he was looking at a great god.

August, the golden thigh that fell from the sky, solved all the headaches of Star City at once .

Xiaoxiao Yuxia almost knelt on the ground and called him daddy.

Xu Chu also ran to Ye Linyu very proudly , and transferred the ownership of the ghost ship to them as if giving alms, and then walked away happily in Ye Linyu's amusing and helpless gaze. The ship brought by August is so large that it can accommodate a thousand people. Apart from their loads , at least seven or eight hundred players can board. Basically, after arriving at the Lost Land, the number of players in Star City can surpass the combined number of players in Youyue City and Youri City.

Although Xiaoxiao Yuxia and the others did not get carried away and kick out Youyue City as their partner , they could not avoid strolling around and showing off every day.

Ye Linyu didn't feel anything about this childish behavior , but the old western doctor was very angry and said sourly: " It's just a big ship, what's the big deal? It was obtained by Ji Xuanyi, what does it have to do with them? "

Ye Linyu said calmly: " Then why don't you bring Ji Xuanyi to Youyue City? What 's the point of just saying this? "

The old Western doctor then pursed his lips and stopped talking.

I guess even Ye Linyu didn't expect that people on both sides were trying to poach each other. The effect brought by August and his big ship was very sensational. The area around him was basically surrounded by players from morning to night. A special post was even opened on the forum to discuss why and how August ran out of the Mage Tower. Some people even suspected that the Starry City on the second server had used plug-ins. However, the GM clearly appeared and stated that August came out of the Mage Tower through normal channels without plug-ins. The discussion in the forum gradually returned to normal.

With the precedent of Star City, they also tried to invite the great magician of their main city, but they were basically driven out without even seeing him. Those who were lucky enough to meet him were rejected without hesitation and had no chance at all.

In the end, everyone could only think that it was either a hidden mission, or that the player in the second server, Star City, had a very high favorability with August. There was no other plausible reason.

The Starry City in the second server was in the spotlight, but their life was not as glorious and easy as others imagined. It was true that August brought a lot of benefits, but August himself was not that easy to serve.

Jian Xi Xin Jiu walked out of August's house in a daze.

Xiaoxiao Yuxia squeezed in the crowd of onlookers and waved to him frantically.

Jian Xi Xin Jiu trotted over and looked at the excited players around him, saying speechlessly: "Everyone is still so energetic? It's been a few days ..."

It's so boring.

He didn't dare say the last sentence because there were people all around him, and one person's spit could drown him.

Xiaoxiao Yuxia said: "Let's not talk about this. What does August want?"

Jian Xi Xin Jiu almost cried when he heard this and said, "He wants twenty magic crystals ... twenty! Isn't Ji Xuanyi online yet? Can't you guys urge him?!"

Xiao Xiaoyu's face turned green, and she said, "This is too rude! Twenty magic crystals?"

Magic crystal is an essential material for making magic professional equipment. It is of orange quality and very rare. Although the efficiency of obtaining magic crystal has become higher than before due to the increase in level, for most people, its price change is meaningless, because they still cannot afford it.

Why did Xiaoxiao Yuxia and others suddenly worry about the magic crystal? It was because of the big Buddha August.

Inviting someone to accompany you out to sea is not an easy task, it requires a lot of luck and a high level of favorability. Xiaoxiao Yuxia and the others originally thought that everything would be fine if they were invited to go out to sea, but they never expected that the cost of staying on standby in "Domain" would be so high!

As mentioned before, the important thing about the game "Domain" is that characters are unique in most cases. Only in very few copies or special tasks may two identical characters appear. For example, the Mrs. Harman that Ji Xuanyi had seen in the copy before, in fact, there is another Mrs. Harman in the Xinmu Town.

But in most cases, for example, now that August has left the Mage Tower, Madam Harman is taking over Starry City in his place. At this time, Madam Harman in the New Wood Town no longer exists. If you go back to the Novice Town to ask others, they will also tell you that Madam Harman has gone to the city to visit relatives and will not be back until after a while.

It is conceivable that leaving his original place is actually a very big thing. If it is a task based on the plot, it would be fine, but this time it is an invitation from the players. They have a lot of things to do, but they still come here and have been on standby for several days. Don't you players have to pay any price?

Of course, August was not the only one like this. Those who arrived from the other two main cities first also put forward their own requests. Some wanted to eat specific food, some wanted

someone to protect them, and there were all kinds of weird demands, which were updated every day, like daily tasks.

Most of the daily tasks were not difficult, after all, their strength was there, but could August be the same as an ordinary one? He was the symbol of the entire Star City!

As for other things like food and drinks, he had them all in his small room, so he never made any requests. He had only one request – to continue his research on magic after leaving the Mage Tower and to ask for experimental materials.

The experimental materials of the top magicians are certainly not ordinary stuff. You can tell by the horses they ride and the guards they bring with them. They are all top-notch. The materials that August required are, of course, all rare orange materials.

It's not that the three major gangs can't provide orange materials, but you want too much, sir! You asked for twenty, Xuchu can't afford your consumption!

When Xu Chu first took out the materials, he almost thought he had a mine at home. Later he realized that he was unwilling to pay for it alone. They, Ta Ma Jiang Hu, could share half of the materials, but the remaining half would have to be paid by Chen Shi and Meng Tanggu themselves. That's why Xiao Xiao Yu Xia and Jian Xi Xin Jiu looked so unhappy. If Xu Chu had to pay for it all, they wouldn't even blink an eye, let alone twenty or forty dollars!

In fact, August's initial asking price was really forty, but the official obviously would not really force players to sell their kidneys like this . Daily tasks would be issued every day, and if they were not met, their mood value would be lowered, which would affect their combat effectiveness at the very least, and even say goodbye at the worst. However, the things they asked for were actually negotiable.

If the person who accepts the quest is a player with a high enough favorability, or simply invites the player here, the required materials or other things will become less, or be completely replaced by another more common item.

For example, the magic crystal that August wants now, if the person who accepts the task is Xiaoxiao Yuxia, then it will be forty pieces, but if the person who accepts the task is Jianxi Xinjiu, then it becomes twenty pieces. If Ji Xuanyi goes, it is possible that the magic crystal can be directly replaced with purple material.

But the problem was that after bringing August and preparing the boat, when all that was left was waiting for someone, Ji Xuanyi was too lazy to go online – he was not needed anyway, and instead of going online and staring at the sea, he might as well go on a date outside with Qi Qin. What's worse is that these people couldn't contact Ji Xuanyi, so when they wanted to contact Qi Qin instead, the latter also disappeared.

What on earth are these two people doing? Come back soon!!!

Xiaoxiao Yuxia and Jianxi Xinjiu held their purses tightly and shouted silently.

In fact, Ji Xuanyi and Qi Qin had only lost contact for two days, but the financial blow was so great that Xiaoxiao Yuxia and Jianxi Xinjiu had the illusion that the two had been missing for a long time.

The reason why Ji Xuanyi couldn't be contacted was very simple. Usually these people were too noisy, so Ji Xuanyi blocked them all. The reason why Qi Qin couldn't be contacted was even simpler. This big brother left his cell phone at home.

Ji Xuanyi and Qi Qin didn't actually want to travel far at first , let alone spend the night outside. They just went out to see a movie, but it just so happened that Ji Xuanyi received a call just after the movie ended.

The streets were so noisy at night that even Qi Qin couldn't hear clearly what Ji Xuanyi said to the person on the other end of the phone, but judging from Ji Xuanyi's expression, it was definitely not a happy thing for him.

After that, the originally agreed midnight snack was also canceled. Ji Xuanyi took Qi Qin to the next city, which was Qi Qin's original residence. After settling Qi Qin down, Ji Xuanyi firmly refused Qi Qin's company and went out alone. This time he came back quickly. Before Qi Qin could not help but go out to look for him, Ji Xuanyi came back quickly.

Ji Xuanyi's expression looked very complicated , as if he was relieved but also a little heavy. Qi Qin couldn't understand it at all, so he could only go up and hold his hand, as if he wanted to give him some strength.

Ji Xuanyi gradually calmed down, glanced at Qi Qin, and said, " It's okay. "

As soon as Ji Xuanyi finished speaking, his cell phone rang again.

It's really embarrassing.

Ji Xuanyi picked up the phone with a gloomy face and walked to the door. The other end said something, and Ji Xuanyi only said one word: " Get lost. "

Then he turned off his phone.

It just so happened that they didn't have classes, so Ji Xuanyi and Qi Qin stayed in the house here for more than a day and didn't go home until the third day. That's why they didn't contact Qi Qin and Ji Xuanyi for two consecutive days under the drizzling rain.

It was not until the third day that Ji Xuanyi and Qi Qin came online.

As soon as Ji Xuan came online and opened his eyes, a long string of private chats flooded the screen. When Xiaoxiao Yuxia and Jianxi Xinjiu saw these two people, they almost knelt down in front of them on the spot.

Ji Xuanyi stepped back with a frown on his face and said to Jian Xixinjiu: " What are you two doing? "

Xiao Xiao Yu choked up and told the whole story, hugged Ji Xuanyi's thigh and said: " I really want you to send him back! Boss, please save us! "

Ji Xuanyi didn't expect that there would be such a setting. After Qi Qin tore Xiao Xiaoyuxia off his legs, he went to August's room.

August was busy fiddling with the little things on the table. He looked up and saw Ji Xuanyi coming in. He immediately smiled and said, " Kid, you're here? "

Ji Xuanyi greeted him and said, " It's a great trouble to ask you to come here. Is there anything I can help you with? "

August nodded and issued a daily task to Ji Xuanyi: " I have nothing to do after I get out, so I want to do some small experiments. I hope you can help me collect some magic materials. "

When Ji Xuan thought of the twenty magic crystals that Xiao Xiaoyu and the others had mentioned, his scalp suddenly tingled and he asked, " What do you need? "

August smiled kindly and said, " I need four hundred magic stones. "

Ji Xuanyi's nervous expression suddenly turned strange: " Magic Stone? "

August nodded.

Magic stones are different from magic crystals. Magic crystals are orange materials, while magic stones are just ordinary blue materials. Although the number four hundred looks scary, in fact, the unit price of magic stones in the trading house is only five silver coins. Four hundred magic stones are equivalent to twenty gold coins, which is a great bargain.

At this moment, he couldn't say to August, " Didn't you want magic crystals last time? " If he took it seriously and changed the materials, he would have no place to cry. Ji Xuanyi could only agree and left August's room.

During this period, other players also came back one after another, and the firepower of onlookers on August's side finally became lighter. The players from Star City could still see August after boarding the ship, so they didn't waste time here. Now, only occasionally players from Phantom Moon City or Sun City would look over here from afar , but because it was not the camp of their main city, they did not get close.

Xiao Xiao Yu Xia could finally stand safely outside the patrol area of the guards, without being jostled by others. Seeing Ji Xuanyi coming out, Xiao Xiao Yu Xia excitedly approached him and asked, " How is it? What did he want from you? "

Ji Xuan glanced at him and said, " Four hundred magic stones. "

Xiao Xiao Yuxia was stunned and said, " Magic Stone? Magic Stone?! Are you sure it's a Magic Stone? "

Ji Xuan said expressionlessly: " If you want to give me 400 magic crystals, I have no objection. " The expression on Xiaoxiao Yuxia's face was indescribable. You couldn't tell whether it was envy, jealousy or hatred. After all, Ji Xuanyi's special treatment was helping him save money. After a long while, Xiaoxiao Yuxia sighed with a complicated expression and said, " Same person, different fate! "

Ji Xuanyi: "... I'm sorry, we don't have much in common, what about the world? "

Whenever Ji Xuanyi was doing something, Qi Qin would never leave his side, even if Ji Xuan had to go out alone and left him behind. When he came back, the first thing he would see was him waiting for him there. It seemed as if Qi Qin would never abandon him.

This realization gave Ji Xuanyi an incomparable sense of security, causing him to feel a little panicked when he came out and didn't see Qi Qin.

Xiao Xiaoyu just shook her head when Qi Qin ran over and said, " Xuan Yi, I'm here! "

Ji Xuanyi's expression relaxed unconsciously and he said, " Where did you go? "

Qi Qin said honestly: " Oh, I was just talking to Jian Xixinjiu. "

Talk? What can Qi Qin and Jian Xixinjiu talk about? If they were just discussing games, the two of them were not on the same level at all, Ji Xuan thought.

In fact, what Qi Qin and Jian Xi Xinjiu were talking about was not really about the game.

Although the two were already in love, there were many things that Ji Xuanyi did not tell Qi Qin, the most important of which was the situation in Ji Xuan's family. It was not that Ji Xuanyi did not tell Qi Qin on purpose, but because it was too upsetting and he wanted to get angry whenever he thought about it. In order to control his temper, Ji Xuanyi never mentioned it.

But keeping this secret would inevitably make Qi Qin think too much, especially when they went to the next city. What happened to Ji Xuanyi? Why did he suddenly go out alone and didn't want him to follow? He didn't say a word after he came back.

Qi Qin felt that he was an unreliable boyfriend. His girlfriend was so upset that he didn't even know what happened ...

Just now Ji Xuanyi walked in a hurry and left Qi Qin behind. Jian Xixinjiu saw that Qi Qin's expression was not right, so he stopped him and the two had a heart-to-heart talk.

" You two still have this kind of problem? " Jian Xi Xin Jiu asked in surprise, " I thought you two had a very good relationship, but he is actually hiding something from you? "

Jian Xi Xin Jiu was right to say this. After all, Ji Xuanyi and Qi Qin had completely different personalities when they were together and when they were not together. Although he once jokingly said that the handsome young man Ji Xuanyi was occupied by Qi Qin, he actually always felt that these two people were a perfect match. No one could handle Ji Xuanyi's situation, and it seemed hard to imagine that Qi Qin would like anyone else.

Jian Xi Xin Jiu thought for a long time and said, " For things like this between lovers, they really should sit down and have a good talk. "

Upon hearing this, Qi Qin looked at him silently.

Jian Xi Xin Jiu was silent for a moment, then said, " The success rate of peacefully talking to Ji Xuanyi is relatively low? You seemed to have said just now that he was quite disgusted by the mention of this matter ..."

Qi Qin sighed.

Jian Xi Xin Jiu touched his chin, and suddenly an idea came to him. He said, " It's not okay to just talk quietly, but there is another way for lovers to talk! "

Qi Qin immediately asked: " What?! "

Jian Xi Xinjiu revealed his naked body and said, " Hehehe, it was that kind of time. With your physique, you should be the one on top, the time when Ji Xuan was unconscious ..."

Qi Qin: "..."

Qi Qin beat Jian Xi Xin Jiu in shame and anger, and then said to himself: " I am really too stupid. How can I ask a single guy like Jian Xi Xin Jiu about such a matter between lovers? "

Sword washing new wine: "..."

Jian Xi Xin Jiu was beaten and then stabbed again. If mental trauma in this game did not count as damage, he would have been sent back to the resurrection point in anger.

However, the two parted unhappily, and Qi Qin barely caught up with Ji Xuanyi.

When Ji Xuan heard Qi Qin say that he went to Jian Xixinjiu to have a heart-to-heart talk, although he felt that it was inappropriate, he did not ask any more questions. Anyway, he estimated that these two people could only talk about some stupid topics , so there was no point in asking.

After Qi Qin arrived, Ji Xuanyi said to Xiao Xiao Yuxia: " Let Xu Chu take care of the magic stone. What's the situation now? Are all the people back? "

Xiaoxiaoyuxia shook her head and said, " Those who ran fast have all returned, but there is still a group of slow ones, and they may not arrive until tomorrow. "

As the main city that gets the first-hand intelligence, Fanxing City is definitely the fastest in action. Their people haven't all come back yet, let alone Sun City and Youyue City. The first stage will only count if all three main cities arrive. Even if they don't want to, they have to unify their steps with the other two main cities. I guess they still have to wait.

Ji Xuanyi frowned and said, " How about the manpower? "

Xiaoxiao Yuxia shook her head and said, " It will take some time. "

Although August's arrival brought them great benefits, it also disrupted their original plans to some extent, especially in terms of manpower allocation.

Originally, their target ship was the ghost ship. At most, only about a hundred people could be squeezed on the ghost ship. They picked some people with stronger combat capabilities and invited them on board. The number of people who could get on board was probably about seventy to eighty. They never expected that August would suddenly appear and bring this large ship that looked like an island. The number of people on board suddenly increased from dozens to hundreds, which made Xiaoxiao Yuxia very busy.

" And the more troublesome problem is that the people on board cannot be all elites, but also individual soldiers, because there will be another wave of escort missions coming over here, so some people have to stay on the shore, " Xiao Xiao Yu Xia said, " Even if August leaves early, he still has to be careful when transporting materials for building the teleportation array. "

" Let's not talk about the people from the three major gangs. They are very fast in action, but it's very troublesome for the individual gang members. For them, the opportunity to participate in this kind of event is rare. They have to carefully consider the allocation of quotas, and adjust the time and so on. As a result, the speed is slowed down. "

" To be conservative, the number of people on board will be controlled at 600, including 300 elite members from the three major gangs and 300 individual soldiers. " Xiaoxiao Yuxia said.

Ji Xuanyi calculated and said, " This many people should be enough? "

Xiao Xiao Yuxia nodded and said, " We definitely have enough people. A powerful person like August is like a plug-in. The power he brings is definitely not the official standard value. Xu Chu estimated that if we reach the other side and expand the station, under normal circumstances, it should be our three main cities that unite and do our best to barely complete the task. "

Under normal circumstances, the combined combat power of these people is about three to five times the number of people the ghost ship can take away, that is, three to four hundred people. Even four hundred people will find it difficult, but five hundred people can handle it with ease. What's more, they can bring six hundred people, so the pressure in the first stage on the Lost Continent will definitely not be too great.

" There should still be some people left to handle the second phase of the escort mission. " Xiao Xiao Yuxia said.

Apart from other things, Xiaoxiao Yuxia handled this messy coordination matter very carefully, and with Xu Chu's supervision, it is basically unlikely that anything will go wrong. The next problem should be waiting.

Ji Xuanyi was about to discuss the time of going online with Xiao Xiao Yuxia, when he suddenly remembered something, paused, and said, " What is the current situation in Day City? "

It's not that Ji Xuanyi suddenly started to care about Zhaochen. Given Ji Xuanyi's current level of worry, he was lucky enough not to hope that Zhaochen died. The reason he asked this was mainly because he was worried that Yueri City would slow down their progress.

Speaking of Day City, Xiao Xiaoyu's expression became a little subtle. He said, " Day City is doing pretty well. They found a ship. It seems they brought it back from a faraway place. I heard a rumor that their spies walked along the coast for two days and encountered a mirage-like city, and then spent money to buy a ship there. "

" Mirage? So mysterious? " Ji Xuanyi asked puzzledly.

Xiao Xiao Yu nodded and said, " Because it is rumored that someone went there again, but did not see the city, only the boat. When you were away two days ago, the Sun City sent people to tow the boat back. "

Ji Xuanyi said: " It's not easy, drag it back? "

Xiaoxiao Yuxia nodded in agreement.

Ji Xuanyi smacked his lips, came to his senses, and said speechlessly: " No, you told me so much, how come it's all rumors? You're just like the one spreading rumors on WeChat Moments . "

Xiao Xiao Yu said helplessly: " Do you think I am willing to tell you rumors? What can I do? The defense of Dayo City is like defending against thieves. We can't get any real intelligence at all. What else can I tell you except rumors? But it is true that we found the ship and it is also true that we towed it back. Everyone has seen these two things. But there is another rumor ... "

Ji Xuanyi said with a frown, " Stop, stop, stop it. There are still rumors? What are they? "

Xiao Xiao Yu Xia said quickly: " This is the last one. Listen to me. They said that the money spent on buying this boat in Day City was not gold coins, but the devil gold coins obtained before the event! "

Ji Xuanyi was stunned when he heard this and said, " Devil's gold coins?! "

This rumor makes more sense.

Since the launch of the event, two mission items have appeared in the pre-process, one is the map, and the other is the demon gold coin.

It doesn't take much to guess what the map is used for, but the devil's gold coins are a strange thing. At least until now, Ji Xuanyi and his team have never used the devil's gold coins anywhere, and they don't know where to use them.

Ji Xuanyi felt that the rumor about the demon gold coin that Xiaoxiao Yuxia mentioned was not necessarily groundless. After all, the demon gold coin had a very low presence until now. Even if someone made up a rumor, the possibility of involving the demon gold coin was relatively small.

It is very likely that the ships of Day City were really purchased with devil gold coins.

But are the demon coins only used to purchase ships? They already have August's big ship, so what else can they do with these demon coins? They can't just waste them, right?

Ji Xuanyi frowned and thought for a long time, but finally gave up and decided to take it one step at a time. When the time comes to use the devil coins, there will naturally be prompts.

Ji Xuanyi pondered for a moment and said, " It's good that Sun City found the ship by itself. It's better than needing our help later. "

They must bring Yueri City with them when going out to sea. If Ji Xuanyi really helps them at that time, not only Yueri City but also Ji Xuanyi himself will be annoyed.

Xiao Xiaoyu glanced at Ji Xuanyi and said, " That's about it for now regarding the event. "

Ji Xuanyi raised his eyebrows: " Is that all about the event? What do you mean, there are things that are not related to the event? "

Xiao Xiao Yu Xia said helplessly: " There are three main cities clustered together, and there are too many things that have nothing to do with the event. You should know it by just thinking about it. But other people's affairs have nothing to do with you. It's mainly your own business. "

Ji Xuanyi said: " My business? What can I have? "

Xiaoxiao looked at him silently in the rain.

The only problem that could make Xiao Xiao Yuxia come to him instead of solving it internally could be something related to other main cities, but Ji Xuanyi only knew a few people in Youyue City.

Ji Xuan smacked his lips and said, " Old Western doctor? Yun Zhongjian? It can't be Ye Linyu, right? "

Xiaoxiao shook her head in the rain.

Ji Xuanyi suddenly realized: " A small flower! "

Xiaoxiao Rain: "..."

Xiao Xiao Yuxia was so annoyed that she asked, " Who is that? You know so many people? I thought you only knew a few of us. "

Ji Xuan thought about it and realized that if it was really a little flower looking for him, wouldn't it be enough to just have a private chat? Why would he come to Xiao Xiao Yu Xia? He shook his head honestly and said, " Who is it? I can't guess. "

Xiao Xiao Yu Xia sighed and said, " What's so hard to guess? Just read the names of the people in Youyue City, then they are in Youri City! "

Just when Ji Xuan wanted to say that the snow was falling on the earth and he was returning, Xiao Xiaoyu couldn't help but said, " It's Zhaochen! "

Ji Xuanyi: "..."

Xiaoxiao Rain: "..."

Ji Xuanyi said speechlessly: " Are you sick? Zhaochen came to me and told me, are you afraid that Tianxia will not kill you when they attack you? "

Xiaoxiao Yuxia then remembered to look up at Qi Qin. As expected, the latter's face had turned dark and he was frowning, looking at him with dissatisfaction.

The relationship issues between him and Ji Xuanyi haven't been resolved yet, and Zhao Chen has popped up again. It would be strange if he was in a good mood!

Xiao Xiaoyu saw his expression and subconsciously took two steps back before saying, " I'm not trying to ruin your relationship. I don't want to mention him, but that girl is too persistent.

Damn it! "

Zhaochen is indeed very persistent.

It has actually been a long time since he recovered from the last battle. It's not because of Bancheng's strength, but because of what Ji Xuanyi said to him at that time, which made him feel almost shocked.

He was still trapped in that farcical betrayal, but Ji Xuanyi had already walked out of it and regained what he wanted. This made Zhaochen feel unwilling and resentful. He had to have a face-to-face talk with Ji Xuanyi and tell him some of the truth about what happened. He wanted to know if Ji Xuanyi could still remain so calm after knowing those things.

For this reason, Zhaochen came to the camp in Star City almost every day. Even the scene of huge crowds of players crowding together to watch August in the first two days failed to persuade him to leave.

But maybe God was unwilling to help him. While he was waiting so earnestly, Ji Xuanyi hadn't even come online.

However, regardless of whether Ji Xuanyi was online or not, after discovering Zhaochen's figure around the camp, Xiaoxiao Yuxia immediately sent Xu Chu to teach him a lesson.

Xu Chu's mouth is so infuriating, not to mention that the target is his old enemy Zhao Chen. Xu Chu opened fire with all his might, poking at the opponent's sore spots, such as Zuo'an, Xue Piao Renjian, and Ji Xuanyi. He poked wherever it hurt, making Zhao Chen's face turn blue. But this man just refused to leave and insisted on waiting for Ji Xuanyi.

By the end of the story, Xu Chu had become numb to Zhao Chen's face. Zhao Chen's ugly expression had made Xu Chu no longer interested in hurting him. He could only tell Xiao Xiao Yuxia angrily that he couldn't do this job.

Since Xuchu couldn't drive him away, Xiaoxiao Yuxia certainly couldn't do anything to him.

Zhaochen was still the leader of Dayo City, so he couldn't just attack him. After all, he didn't enter your camp to do anything. He was just standing outside the camp. Are you in Fanxing City so overbearing? You can't even stand there?

Xiaoxiao had no choice but to leave it alone in the rain. It was already the third day. Zhaochen was actually still standing outside the camp, but he was not on their road, so Ji Xuanyi didn't see him. He would probably continue to stand there.

Although there would indeed be no loss, the thought of such a thing made her feel uncomfortable and upset. Xiao Xiao Yuxia still hoped that Ji Xuanyi could directly deal with the other party.

What's the point of being hurt by Xu Chu's words? Only when Ji Xuanyi stabs him himself can the problem be solved once and for all!

Chapter 165

After Xiao Xiao Yuxia finished speaking, Ji Xuanyi looked at him coldly until Xiao Xiao Yuxia felt something was wrong all over his body. Then Ji Xuanyi said, "Are you sick? "

Xiaoxiao Rain: "..."

Ji Xuan said expressionlessly, " Your annoyance has nothing to do with me . Anyway, I haven't been online very often these two days , so he won't bother me in any way. Just wait and see. " Xiaoxiao Yuxia thought that Ji Xuanyi's mood would be better after being with Qi Qin during this time , but she didn't expect him to pout back as soon as he opened his mouth. It can be said that this was an answer in Ji Xuanyi's style.

Without waiting for Xiao Xiaoyu to speak again, Ji Xuanyi left him aside and walked away with Qi Qin.

Xiaoxiao Rain: "..."

You were very friendly to him when he asked about the situation just now , but then you turned against me and ignored me when I wanted to ask for your help . That's too much!

However, Xiaoxiao Yuxia mentioned Zhaochen, not only because the other party's face was really disgusting, the most important thing was to remind Ji Xuanyi that Zhaochen was trying to make trouble again . Although Ji Xuanyi did not agree to drive Zhaochen away, he should have some idea about this matter in his heart, so Xiaoxiao Yuxia did not force anything.

It doesn't matter if it makes you feel uncomfortable . At worst, you can just not take that road out of the camp anymore.

Although Ji Xuanyi didn't want to bother with Zhaochen at all , Zhaochen was very persistent in meeting Ji Xuanyi. Ji Xuanyi went online every day to help with August's daily comfort tasks, and then went offline after finishing the task. It was thought that it was impossible to meet Zhaochen, but he never expected that on the last day, when everyone was preparing to arrange people to board the ship, Ji Xuanyi was blocked by Zhaochen.

While people were crowding and walking towards the huge ship brought by August, Ji Xuanyi and Qi Qin were stopped by Zhaochen.

Ji Xuanyi: "..."

If he wasn't a sorcerer now, Zhaochen would have been kicked away by him.

So annoying!

However, Zhaochen didn't realize how much he was disliked. He looked at Ji Xuanyi deeply, and didn't mention how many days he had waited for Ji Xuanyi. He just said, " If you want to know what happened, come with me. "

After saying that, Zhaochen turned and walked away.

Qi Qin glanced at Zhaochen's back, then looked at Ji Xuanyi with some worry.

Ji Xuanyi was speechless and said: "... Psychopath. "

After saying that, Ji Xuanyi took Qi Qin to queue up to get on board without hesitation.

In Zhaochen's opinion, Ji Xuanyi must be full of resentment and doubts about what happened back then. He would never give up if there was a chance to know the truth.

This man had no idea that Ji Xuanyi had ruthlessly abandoned him. He walked to a secluded corner with mysterious confidence before turning around, only to find that there was no one behind him.

Zhaochen: "..."

Zhaochen was completely confused, and it took him a long time to react. Ji Xuanyi ignored him at all. Did he not believe that he knew about the past? Or had he really put everything in the past behind him and didn't care about it anymore?

Zhaochen gritted his teeth, mounted his horse and ran back, once again stopping Ji Xuanyi and Qi Qin who were about to board the boat.

Ji Xuanyi looked at the people behind him and assumed that they were in trouble. He walked past them without hesitation. He was so angry that he pointed at Zhaochen's nose and cursed: " Are you fucking sick? You want to die? Tianxia! "

Qi Qin was waiting for this! He raised his leg and kicked Zhaochen away, then pulled out the Sword of Ares from his backpack and slashed straight at Zhaochen.

Zhaochen was so scared that he rolled over and fell. He failed to dodge and lost a third of his blood. His face turned green and he quickly said, " Don't you want to know what happened in the past? Do you still remember Chen Xiao?! "

This name was too old in Ji Xuanyi's memory . Until recently, he thought he would remember this name very clearly, even for a lifetime. However, it was not until Zhaochen said this name that Ji Xuanyi realized that he actually needed to think for a while before he could remember who this person was.

Because of this strange sense of dislocation, Ji Xuan was stunned for a moment.

However, this moment of sluggishness caused misunderstandings to the other two people present.

The sword in Qi Qin's hand stopped, and Zhao Chen also showed an almost smug smile. He said: " You still remember it very clearly, right? Don't lie to yourself anymore. You still care about the past. "

Ji Xuanyi frowned and was about to ask Qi Qin to quickly kill this whining guy and send him back to the resurrection point, when he heard a low discussion coming from the side.

 " What is this for? "

 " Seeking revenge? Isn't that guy on the ground from Day City? He was standing outside the camp every day for the past two days. "

 " Oh, it seems he is a senior executive of Sun City? "

 " It's a matter between the two main cities. Those two people seem to be senior executives of our Sun City. "

 " No way, from what they said it doesn't seem to be the case? "

Ji Xuanyi then remembered that they were still on the way to board the ship, and there were a bunch of onlookers nearby. If they beat Zhaochen to death, a lot of messy gossip would spread around.

Ji Xuanyi frowned and winked at Qi Qin. This time Qi Qin got what he meant. He reached out and picked up Zhaochen, and followed Ji Xuanyi to a remote place.

Zhao Chen finally showed some signs. After Qi Qin threw him down, he immediately spoke before Ji Xuanyi could say anything: " You have already met the instigator of that incident. The one who alienated the leader from Jiang Pojun was Zuo An! "

Ji Xuan was stunned for a moment.

Pojun was the name of his previous gang of a thousand people. It had been a long time since that happened and he had made new friends. The gang that had used rubbish to replace Pojun had also been disbanded by him. Now that the grudge had been avenged, he had no intention of pursuing it further. However, he had not expected that the man was actually Zuo An.

No wonder Zuo An said when he was pushed to the limit that Ji Xuanyi had also fallen into his hands ... No, it's still hard to let it go when I think about it this way.

Ji Xuanyi's face darkened.

Did he actually fall for an idiot like Zuo An? How fucking embarrassing!

Ji Xuanyi would never admit such a thing, so he sneered and said, " Oh, you're crazy, I don't want to bother with you. "

After saying that, he forgot about beating Zhaochen and wanted to leave with Qi Qin.

Seeing this, Zhao Chen thought Ji Xuanyi didn't believe him, so he immediately said, " I am Chen Xiao! "

Ji Xuanyi paused.

Zhao Chen said with a complicated expression: " I am the one who betrayed you and was killed by you and forced to retreat. I never thought that we would meet again, Mu Xuanyi. "

Ji Xuanyi finally understood why Zhaochen kept pestering him. He also knew what this guy wanted to say after calling him out and talking nonsense for a long time.

Zhao Chen breathed a sigh of relief when he saw Ji Xuanyi stop. He quickly wanted to tell Ji Xuanyi everything that had happened in the past and the reason why he was hanging out with Zuo An.

But before he could open his mouth, he heard Ji Xuan say, " Who are you? It's none of my business. "

Zhao Chen was stunned. Ji Xuanyi had already turned around, looked at him with contempt, and said, " I don't care what disgusting things you are thinking in your heart, but the matter was settled when you were defeated by me. Of course, it doesn't mean that I forgive you. From the past to now, you have always made me so disgusted, but my anger has subsided and I don't want to care about you anymore, understand? "

" I'll say it one last time. I'm no longer interested in the truth of what happened before, and the same goes for you. Whether it's Chen Xiao or Zhao Chen, to me, they are nothing more than enemies. If you show up again to disgust me, I will kill you until you can't get out. "

Zhao Chen looked at Ji Xuanyi in a daze. Ji Xuanyi looked at him coldly for a long while without any movement. He turned back in anger and kicked Qi Qin, saying, " Are you stupid? Do you want me to do it myself? "

Qi Qin reacted immediately, rushed over and slashed Zhaochen back to the resurrection point with two swords.

Ji Xuanyi said with an impatient " tsk ", " This guy really has a problem with his brain. It's so annoying. "

Qi Qin came over and said cautiously: " Xuan Yi, you are not angry? "

Ji Xuanyi told Qi Qin about what happened to his gang, so Qi Qin fully understood Ji Xuanyi's resentment towards the person who took the lead in betraying him. He didn't expect that person to be his old enemy Zhaochen. Taking the two together, Qi Qin thought Ji Xuanyi would explode on the spot and kill Zhaochen until the other party could not get up. Unexpectedly, Ji Xuanyi just cursed at the other party a few times and only let him kill the other party once.

Qi Qin was a little panicked. Did Zhaochen really have a crush on Ji Xuanyi? And Ji Xuanyi didn't seem to blame him anymore? !

Qi Qin should be thankful that Ji Xuanyi didn't see what he was thinking, otherwise it wouldn't just be a beating, he might have been beaten to death.

Ji Xuan glanced at Qi Qin, and noticing his concern, his expression softened a little. While waiting for Qi Qin to walk to the entrance to board the ship, he said, " I was already angry a long

time ago. Back then, there was no setting for death and loss of level in that game. I chased him to death and made him quit the server. You should know what the situation was like at that time."

Most players choose to quit the service because there is nothing valuable left on their account. For example, their account has been stolen, or like Zuo An, they were killed directly to level 20, which is equivalent to losing everything. Quitting the service is just a desperate act.

In the case where there is no level drop due to death and all the items on the account are still there, quitting the server is equivalent to giving up the rights and status that have been hard-earned, as well as various high-level equipment. Most players would rather hold on when being killed by enemies in this situation. Even if the gaming experience is a little worse, they will never quit the server. Not giving up what they have is one thing, but staying can also disgust their enemies!

The fact that Zhaochen was forced to make such a choice also indirectly proves how devastated he was after being killed by Ji Xuanyi . It is very likely that it was not just a matter of poor gaming experience. Ji Xuanyi probably killed him to the point where he was only in the death interface when he went online. The power and equipment in his hands were nothing. He really couldn't play anymore, so he quit the server.

Ji Xuanyi scratched his face and said, " It was just that. I was so angry at the time that I wanted to strangle him offline. But now looking back, it seems that it was not all their fault. My personality ... my personality at the time made it difficult for me to have friends. "

Ji Xuanyi has many advantages, but his disadvantages are equally obvious. It is not easy to tolerate him, especially at the beginning.

Ji Xuanyi said calmly, " Of course, the biggest fault is definitely not mine, but at that time I had already avenged myself. Zuo'an dismantled my guild, so I dismantled his. Zhaochen made me isolated from my friends and unable to play the game, so I killed him until he could only lie down online, and finally quit the game. What happened in the past is almost even, and I don't have the energy to pursue it anymore. "

" My memory is not as good as Mi Yin's. She can remember everything clearly, " Ji Xuanyi smiled and said to Qi Qin, " The space I use to store my memories is only this big. "

Ji Xuanyi gestured casually, and said to Qi Qin with a low smile: " It's such a small place, it's not easy, I just need to put the memories of us together. "

After saying that, he looked at Qi Qin and said, " What do you think? "

Qi Qin's cheeks flushed slightly, and her eyes flickered slightly. After a long while, she raised her hand and held Ji Xuanyi's, saying, " Okay, I'll accompany you for the rest of the journey. " The two smiled at each other, and everything was said without words.

The atmosphere was just right. Xiao Xiaoyu came over and saw the two of them. She said helplessly, " Boss, what are you doing? It's time to get on the boat! "

Ji Xuanyi came back to his senses and looked at Xiaoxiao Yuxia, only to find that the two had already walked back to the boarding gate. The originally tightly packed team had almost disappeared, with only a few people left outside. It was obvious that most people had already boarded the ship.

Xiaoxiao Yuxia said: " Hurry up, we need to bring the ladder up. If you two don't go up, you will be left behind! "

The last few people had already gone up, and their figure appeared at the boarding gate, shouting something loudly. Ji Xuan hurriedly grabbed Qi Qin and ran up the wooden ladder.

After making sure that they would not fall, he turned back to look at Xiao Xiaoyu.

The latter did not catch up, but remained where he was.

Ji Xuanyi called out, " Aren't you coming with us? "

Xiao Xiao Yuxia shook her head and replied, " There is still the second phase! We can't leave Liu Tian and Xiao Han behind, you guys go, I'll wait for your news here! "

Ji Xuanyi wanted to say something else, but someone on the boat yelled, " What are you doing? The ladder is going to be taken away. "

Ji Xuanyi had no choice but to wave to Xiao Xiao Yuxia and take Qi Qin on board.

Because of the threat of the evil god on the lost continent , the sea area here has not developed even though there is a long ocean between them. There is naturally no dock on the uninhabited seaside, so it is not easy to board a ship.

The situation of Day City and Youyue City was worse. Their ships were small and could not get close to the coast, so they could only use small wooden boats to send people up one by one. However, Ji Xuanyi had the technical support of August. Although his ship could not dock as there was no port, it could slightly enter the diving area and then extend a wooden ladder to the shore.

Because of the different boarding methods on both sides, although Star City had a larger population, it was the first main city to complete boarding of all its personnel. After the other two main cities rowed aboard with great difficulty, they were basically splashed with water, looking very embarrassed.

The old western doctor leaned on the side of the ghost ship, looking at the huge ship that looked like an island not far away , and said with envy and jealousy: " It's so disloyal. Why didn't Ji Xuanyi invite me to visit their ship! "

Ye Linyu walked past him and said coldly, " Control yourself and don't let others poach you. "

The old western doctor was frightened and pouted at Ye Linyu's back, saying angrily: " You bastard leader, a swordsman who walks without making any sound, you can't tell at a glance that you are a good person! "

Yun Zhongjian said helplessly: " The boss's footsteps were very loud, but you were just too engrossed in looking at the other person's boat. "

The old western doctor smacked his lips and stopped talking.

Of course, it's not just Old Western Doctor who is envious and jealous of Star City. The situation in Day City is similar. They didn't find their absent-minded leader until the last group of people boarded the ship. Even the simplest boarding process was a mess. I don't know how many people envied the well-organized giant ship of Star City.

I joined because of how strong Day City was, but I didn't expect that it would become like this in just a short time. If I had known, I would have gone to Star City. It is much better than Day City because it is so popular and has big ships.

It's a pity that the account transfer function has not been released yet, so they can only continue to stay in the messy Day City.

In fact, we will not set sail today, and there are still many things to prepare after getting on the ship. It is obviously very easy for the ship to capsize if we drive it out when the players are still confused. We also have to tell the players what tasks they need to do.

The wooden ladder was put away as soon as Ji Xuanyi and Qi Qingang got on board. Although they were inside the cabin, the light around them was not dim because of the magic lamp.

The cabin is divided into four floors. The bottom floor is the ballast tank, filled with seawater to maintain the stability of the ship. The second to last floor is the cargo hold, where some sundries are stored. It is estimated that there will be missions here in the future. The second floor from the top, which is where Ji Xuanyi and his team are, is a passage with a wooden ladder. There is also a part that is the same as the first floor under the plywood, which is a lounge.

The most important place in the lounge is the player's bedroom – it is called a bedroom, but it is actually a place for players to go offline. Because the ship is always moving, the coordinates are not fixed. You only need to register your bedroom in advance. Then when you go offline in your bedroom, the system will default to an additional coordinate to fix the player's location, so that the player is not still on the ship when logging off, and drifting on the sea when logging on.

In addition to the players' bedrooms, the lounge also includes a cafeteria, system vendors, and messengers.

I won't say much about the cafeteria. The food on the ship will provide food to players at fixed times. In addition to most of the common effects, the food will occasionally provide some special effects, such as luck value and the food effects obtained by Ji Xuanyi and his friends when they roasted the sea monster boss .

In addition, the food in the cafeteria will also provide a lot of experience points. After all, players spend a lot of time at sea. When they are close to the maximum level, it would be a real loss if they can't get any experience points.

The stalls and messengers provided on the ship are almost low-profile versions of the trading house, except that the trading house on the ship is not interoperable with the one on the mainland. It only facilitates transactions among players on the same ship.

The extra floors on the deck were similar to those in the cabins, except that they could accommodate slightly more people, and the helpers invited from Star City only lived on the upper floors. Basically, the number of people accommodated on the deck was about the same as that in the cabins.

In order to prevent individual players from feeling unfair, members of the three major gangs were separated from the individual players and mixed together. By drawing lots, half of them lived in the upper part and half lived in the lower part.

Ji Xuanyi and Qi Qin took a quick look at the situation, then walked forward and went up the stairs.

The two men had just popped their heads out and hadn't even gotten on deck when Ji Xuanyi's private chat channel was deleted.

When Ji Xuanyi opened the box, he saw it was Xu Chu. The other party was screaming and said that there was an urgent matter that required Ji Xuanyi's support. If Ji Xuanyi didn't come, he would not be able to bear it!

Ji Xuanyi: "..."

Just think about it and you will know that Xu Chu must be talking nonsense. We are already on the boat, so what can't we handle?

Although it was not as serious as Xu Chu said, something was certain. Ji Xuanyi formed Xu Chu's team and took Qi Qin to where the blue dot was.

Of course, I didn't forget to ask which floor Xu Chu was on. Now their coordinates are not just the x- axis and y -axis. It would be embarrassing if they found the wrong floor.

Xu Chu said: " I'm on the top deck, you'll know what's going on when you get here! "

Ji Xuanyi: "..."

You'll know what's going on when you get here. This sentence has almost the same meaning as " Are you there? " . You can tell it's not a good thing, but if Xu Chu is left alone there, he might really capsize everyone on the boat if pushed to the limit. Ji Xuan thought about it and decided to go anyway.

On the deck, Jian Xi Xin Jiu was taking Liu Tian, Mi Yin, Xue Piao Renjian, and some management organizations of the three major gangs to draw lots to arrange rooms. Except for the congested location of the draw, other places were quite spacious. Ji Xuanyi and Qi Qin soon found the way, climbed to the top deck, and found Xu Chu.

Xu Chu was in a room, staring at each other.

Seeing Ji Xuanyi and Qi Qin push the door open, Xu Chu immediately showed an ecstatic expression and said: " You are finally here! "

Ji Xuanyi was about to ask something when he heard the man say, " Have you decided? Who will be the captain? "

Ji Xuanyi: "..."

He finally understood why Xu Chu was so anxious to call him over.

The position of captain is probably similar to that of gang leader, except that the captain is probably more miserable than the gang leader. After all, even if the gang leader doesn't take care of things, the atmosphere in the gang will just be a little slack, and nothing serious will happen. But if the captain doesn't take care of things, your ship will capsize!

The person who is chosen as the captain is destined to be the first to go online and the last to go offline. He must also keep an eye on the situation on the ship all day long. No matter what happens, he must solve it immediately. In addition to the tasks that may arise on the ship, there may also be various crises that may be encountered on the sea!

It can be said to be the most thankless position!

Ji Xuanyi now has only one thought in his mind.

Xiaoxiao Yuxia should have been tied up in the first place!

The drizzle on the shore: " A-choo! "

As soon as Xu Chu saw Ji Xuanyi's expression, he knew what he was thinking. He immediately rushed over and grabbed Ji Xuanyi's hand. Relying on the fact that he had two more strength points than Ji Xuanyi, he pulled him over there and said, " Let Xiao Xiao Yuxia go! He doesn't have much hair left. It looks quite thick to you, right? In fact, it's all automatically corrected by the game system. To be honest, this kind of thing should be handled by young people like you who are still in college ..."

Ji Xuan shouted expressionlessly: " The world. "

Qi Qin received the order and immediately stood up, picked up Xu Chu like a chick, dusted him off, and put him in front of him.

Ji Xuanyi said: " How about this? Where can I register to become a captain? "

Xu Chu screamed in fear, struggling in Qi Qin's hands, and said, " I'm sorry, I'm sorry, I was wrong! "

Xu Chu originally thought that although there were a lot of people here, the only one who was weaker than him was Ji Xuanyi, so he called Ji Xuanyi over. However, he forgot that Ji Xuanyi brought his own bodyguards and almost got himself involved.

But of course he couldn't just say that, Xu Chu apologized sincerely: " I'm sorry, I was wrong, I was just joking with you! Of course I won't let you be the captain! "

Ji Xuanyi understood that Xu Chu was unreliable. For the sake of everyone on the ship , he had not wanted him to be the captain. But when he saw that the other party admitted his mistake quickly, he let Qi Qin loose.

Xu Chu immediately ran to the corner of the room and stayed far away.

Seeing Xuchu's miserable appearance, like a young wife, Ji Xuan asked: " Why don't you let Liutian be the captain? "

Xu Chu sighed and said, " After all, this position still requires real work. How can I do it for six days? In the end, I still have to work hard. Xiaoxiao Yuxia is not here again, what do you say I should do? "

That's a problem.

But Xu Chu didn't want to do hard labor, so did Ji Xuanyi want to do it? Liu Tian couldn't do it, and Qi Qin couldn't do it either.

Mi Yin is very busy with work, and if something happens, it is really more important than the game. He has to leave when he says he will, which is unreliable. Xue Piao Renjian is a taciturn person and never says anything. Moreover, his household registration is in Yaori City, which may affect the mission.

After thinking about it, Ji Xuanyi could only think of washing the sword with new wine.

Although Jian Xi Xin Jiu is not as smart as Xiao Xiao Yu Xia and his reaction is a little slow, fortunately he is an honest person, so even if he makes a mistake, it should not be a big one.

Ji Xuanyi told Xu Chu about his decision, and Xu Chu agreed. Then Xu Chu said, " Actually, I also think Jian Xi Xin Jiu is very suitable, but I am not as strong as him, so I called you over. "

After saying that, Xu Chu looked at Qi Qin behind Ji Xuanyi, and Ji Xuanyi showed a knowing look.

Ji Xuanyi: " Go ahead, hurry up. "

Qi Qin's movements were indeed very quick. After a while, Jian Xixinjiu was brought up by Qi Qin with a confused look on his face.

" What's going on? What's going on? " Although Jian Xi Xin Jiu is a bit stupid, as a high-end PVP player, his intuition is still very accurate.

Now his intuition told him that nothing good was going to happen!

So Jian Xi Xin Jiu struggled and said, " They are still drawing lots for registration! They can't do without me! "

Xu Chu grinned and said, " It's okay. It will only take a moment. I will let you go back and continue drawing lots. "

Jian Xixinjiu showed a horrified expression and shouted: " Xu Chu! Control yourself! I am not that kind of person! "

Xu Chu: "... what? "

Xu Chu reacted and cursed with a frown on his face: " Fuck! You f**king faggot, you're just wishful thinking! "

The innocent gay Ji Xuanyi was speechless for a moment and said, " Stop talking nonsense and take him to register quickly. "

The three men placed their swords and new wine in front of them and said, " This is the captain we chose. "

He glanced at Jian Xi Xin Jiu, nodded, took out a piece of paper and a feather pen from his pocket, and said, " Sign here and you can register as the captain. "

Jian Xi Xin Jiu also reacted at this time. It turned out that this group of people wanted him to take the blame. He immediately struggled hard and said, " I don't want to be a captain! I don't want to be a captain! You go find Xiao Xiao Yu Xia! I'm still young! I don't want to be bald! "

No one would allow him to refuse, so Qi Qin held him with one hand and with the other hand pinched his fingers and wrote the four words " Wash the Sword with New Wine " on them.

Jian Xi Xinjiu was powerless to resist and was about to cry out in despair. He was not let go by Qi Qin until he finished signing and the indenture contract floated to the ground. He collapsed to the ground.

Qi Qin smiled somewhat embarrassedly and said, " Sorry. "

Jian Xi Xin Jiu sniffed and said in despair, " The rice has been cooked, what's the point of saying this now? "

Ji Xuan felt a chill when he heard this. If someone didn't know, they would think they had done something to him!

Just when everyone was relieved that they finally had a captain, he spoke slowly.

 " And where are your first mate and helmsman? "

Everyone: "..."

Isn't it enough to sacrifice a sword to wash the new wine?

After a while, Qi Qin brought up the Ze, Yu and Sishui trio again ...

Anyway, the most basic positions were finally arranged, and the system was considered conscientious in not asking them to arrange candidates for chefs and cleaners.

Everyone went down together to organize the draw, and after settling the players down, they found a room and started the meeting.

The ship had not yet left the shore, but they had been separated from the outside world. Xu Chu and Jian Xi Xinjiu told everyone the structure they had learned about the ship, and everyone immediately couldn't help but murmur.

Because Xiaoxiao Yuxia was not there, the group that was short of manpower added the Ze Yu Sishui trio, who had helped a lot in previous activities, into the meeting team.

Ze Yu Sishui was very excited about becoming the first mate, and he became much calmer from his noisy state , looking like he was ready to take on the important responsibility.

When I heard Xu Chu talking about the trading house, I asked, " Why is it that they don't communicate with the mainland trading houses? "

Ji Xuan glanced at him and said, " Because this is the normal situation. You are already out at sea, do you want to buy things on the shore? "

Xu Chu also said: " Yes, apart from the trading house, the only postman also has no communication with the shore. He can only be responsible for delivering items and letters on the ship. "

Ze Yu Sishui immediately frowned and said, " Only responsible for the ship? Then the existence of this postman is meaningless, right? "

Liu Tian glanced at Ze Yu Si Shui and said coldly, " It's good to have a postman trading company. Look at the two boats next door. There's nothing there. "

Except for the ship of Ji Xuanyi and his crew, the ship of Dayo City was actually slightly larger than the ghost ship of Youyue City. However, this was of little use. The ships of the other two main cities were barely enough to carry people, and there was no way they could carry the same amount of miscellaneous things and cargo as Ji Xuanyi and his crew.

Ze Yu Sishui stopped talking, but Ming Shao thought a little more. He frowned and said, " Completely separated from the shore? What if there is a mission that requires supplies or materials? "

Just like when August was in the camp on the shore, he would always issue daily tasks from time to time. Although he was already on the ship and would not run away if the tasks were not completed, he never knew he would need other supplies to complete the tasks.

Xu Chu heard this and said, " You are right. This is indeed the case. In fact, we confirmed this before we boarded the ship. "

This ship does need supplies when it sets sail. The second to last floor of the cabin is a special place for storing supplies. The items will not be refreshed after the player leaves, but will only decrease with the normal daily consumption. Xu Chu and his friends had already filled up the second to last floor before boarding the ship, and tried to put as many things in their backpacks as possible.

" But our ship is so big, and with so many people, the supplies are definitely not enough, " Xu Chu said, " The authorities won't force the players into a dead end. There will definitely be tasks to replenish supplies later, so we just need to hurry up when the time comes. "

Everyone nodded.

The two ships next door need to meet the needs of about a hundred people. Although their ship looks impressive, it consumes supplies for 600 people. In fact, it is much more tiring than the other two main cities!

The ship would not sail until tomorrow. No matter how many things there were to discuss now, it would be pointless. After a meeting that lasted less than ten minutes, everyone went back to their rooms and logged off to rest.

Let's talk about everything after we set off tomorrow.

Chapter 166

Thinking about going out to sea the next day, all the players, including Ji Xuanyi and Qi Qin, were filled with excitement . No one got a good rest after logging off that night . Most of them tossed and turned and couldn't sleep . Before dawn the next morning , they rolled off the bed and into the game cabin with dark circles under their eyes.

Ji Xuanyi and Qi Qin were in a similar situation. Fortunately, Qi Qin's biological clock was very powerful , and the two of them managed to get a good night's sleep. At dawn the next day, they started playing games.

It is just past eight o'clock now, which is generally a time when there are fewer players online . However, after Ji Xuanyi and Qi Qin arrived on the deck , they discovered that many people had already logged on early.

The sun was not yet scorching hot, and it felt warm on my body. The sea breeze was not strong, and it brought a faint fishy smell of sea water , which made people feel very comfortable. I lay on the sidewall and looked down, and I could see the white waves broken by the hull.

It's no wonder that everyone came online so early . This event is actually more like a trip . It would be a shame not to enjoy it.

Ji Xuan looked back and saw that the coast was already far away from them . It seemed that the ship had been away for some time.

Ji Xuanyi was not the only player looking back. Even though they knew that this was just an event, everyone couldn't help but feel a strange sense of being away from home.

Ji Xuan glanced at his friend list and found that except Xu Chu, everyone else was online. He then looked at the situation on both sides and saw that the boats from the Sun City and the Youyue City were following behind them.

Qi Qin said to Ji Xuanyi blankly: " Xuanyi, what should we do now? "

Ji Xuanyi thought for a moment and said, " Let's go find Jian Xi's new bar first. "

Although everyone was very excited yesterday and wanted to go out to sea immediately, the fact is that the time they agreed to go online yesterday was 10 o'clock in the morning, and now they are setting off at only 8 o'clock. He still has to find Jian Xi Xinjiu to ask about the situation.

Jian Xi Xinjiu was on duty in the captain's room on the first deck – if nothing unexpected happened, he would probably have to be on duty here during the time they were at sea.

Ji Xuanyi and Qi Qin's rooms are also on the first deck, so they can find Jianxi New Wine directly without having to walk too far.

When Ji Xuanyi and Qi Qin entered the captain's room, Jian Xi Xinjiu was scratching his head frantically. After scratching, he looked at the copy of the nautical chart in his hand, then looked at the telescope in the captain's room , and continued to scratch his head.

Ji Xuanyi: "..."

For some reason, Ji Xuanyi felt a sense of guilt in his heart.
If I had known earlier, I should have brought Xiaoxiao Yuxia up with me!
Ji Xuanyi said with a guilty conscience: " Stop scratching it, or you'll become bald. "
Jian Xi Xinjiu turned around suddenly and found that it was Ji Xuanyi who came. He almost cried.
Ji Xuan was shocked. He really didn't expect Jian Xi Xin Jiu to be so miserable. Seeing that the other party almost knelt on the ground, he quickly asked Qi Qin to lift him up.
" What's going on? " Ji Xuanyi asked.
Qi Qin forced Jian Xi Xin Jiu back onto the captain's chair, and said aggrievedly, " This thing asked me to set the route, but I can't even read the map! "
No wonder Jian Xi Xin Jiu looked like that just now. The captain couldn't understand the map, which means that they are still sailing in a straight line without a destination. If they can't reach the destination, the blame will be all on Jian Xi Xin Jiu alone. It would be strange if he wasn't anxious!
Ji Xuanyi quickly took the copy of the map from Jian Xi Xinjiu's hand and took a look at it.
This copy was copied by Xiaotui Junlong and a group of artists with great effort. Except for the fragments in the hands of the scattered people in Fanxing City, Youyue City and Xuchu, about one-fifth of the graphics above were missing, which were the fragments in the hands of Youri City.
With the blessing of Yunzhongjian's European emperor buff , the degree of restoration of the map is actually very high. Basically, most of the fragments with patterns in the middle of the map have been taken by Yunzhongjian. Together with those from Fanxing City, it is almost a complete sea map. Most of the fragments obtained by Youri City are fragments of edges and corners, which have no effect on the overall integrity of the map – normally, it should be like this.
In fact, before today, neither Ji Xuanyi nor anyone else had thought of this.
This map is missing direction markings.
A direction marker is a small thing that is always placed in a corner where no one cares. It is very inconspicuous, but it affects the use of the entire map. Without it, it is impossible to tell the east, south, west and north of the terrain on the map. Let alone washing the sword with new wine, even if Ji Xuanyi scratched his head here, it would be useless.
Although they can barely figure out what the map is like after encountering reference objects, this is on the open sea. Ji Xuanyi and his team can't wander around the sea with this player army of less than a thousand people!
Jian Xi Xin Jiu looked at Ji Xuan Yi pitifully and said, " What should we do? "
Ji Xuanyi rubbed his forehead and said, " The missing direction indicator is probably in the hands of Daylight City. "
Jian Xi Xin Jiu was stunned and said, " Sun City? Isn't that the end of the game? "
The hatred between Sun City and Star City can be said to be as deep as the sea, and Youyue City doesn't have a good relationship with them either. If you want to get the map fragments from them, that's just dreaming!

Ji Xuanyi shook his head and said, "That's not the case. We are the ones leading the way now. We are lost. Can they row to the Lost Continent by themselves? Besides, it's useless for them to just hold a direction marker. If we talk it over, they should be able to get there. "

Upon hearing this, Jian Xi Xin Jiu stared at Ji Xuanyi in a daze.

Ji Xuan knew what he was thinking at a glance, and immediately shook his head and said, " I can't go. I just beat Zhao Chen yesterday and killed him one level. I will definitely not get it if I go. "

Jian Xi Xinjiu didn't quite believe it. Anyone with eyes could see Zhao Chen's inexplicable obsession with Ji Xuanyi. He was just going back to kill one level higher. It was very likely that Ji Xuanyi would ask Zhao Chen for it.

But it is obvious that Ji Xuanyi would never agree to it, not to mention that there is Qi Qin next to him. If he says one more word, Qi Qin will pin him to death on his seat.

Jian Xi Xin Jiu awkwardly changed the subject and said, " Why don't we wait for Xu Chu to come online and let him go? "

Ji Xuanyi said speechlessly: " Are you from Fanxing City? Can you learn a lesson? When Xuchu comes online, the opportunity will be gone. Just go find Ye Linyu and see who will be the captain. Either Ye Linyu or the old doctor can get this done. "

Jian Xi Xin Jiu said: " The captain of Youyue City is an old western doctor. "

Ji Xuanyi was silent for a moment, then said, "... Well, that's to be expected. Then you contact Ye Linyu and ask him to look for Day City. "

Jian Xi Xinjiu nodded quickly and informed Ye Linyu. Ye Linyu was not vague and agreed immediately and went to talk to Yaori City.

Jian Xi Xin Jiu said: " We will probably have to exchange information offline later, and I have to go and notify the calf cramp. "

Jian Xi Xin Jiu was typing away, and Ji Xuan asked, " By the way, why is the boat leaving so early today? Wasn't it said to be at 10 o'clock? Even if there are a lot of people, it shouldn't be so urgent, right? "

Jian Xi Xin Jiu's face wrinkled when he heard this, and he complained: " You don't know how confused I was when I was dragged in this morning! "

In a sense, the time of departure of the ship is indeed controlled by the captain, but it is not entirely controlled by the captain.

Jianxi Xinjiu went online early today, earlier than Ji Xuanyi and the others, almost at around seven o'clock.

He originally wanted to watch the sunrise at sea, but as soon as he walked out of the room, he was invited to the captain's room, and then set off in a daze.

Jian Xi Xin Jiu said: " What the hell, according to that, today is the first day of sailing off the shore, which can basically be regarded as a tutorial for novices. It seems that if the captains of the three main cities are not all here, everyone can actually set off freely, but the three captains are online at the same time, so in order to save trouble, we set off together. "

Ji Xuanyi was so annoyed that he said, "... What a lousy setting. "

However, the main reason for this setting is that everyone has already boarded the boat and has long since cut off contact with the shore. Departing early or late actually doesn't affect anything, and there will be no situation where people or things are left behind.

Ji Xuanyi was talking to Jian Xixinjiu when the latter suddenly said, " Fuck, so fast? "

Ji Xuanyi asked: " What's wrong? "

Jian Xi Xin Jiu said: " It's been settled with Ye Linyu. "

Ye Linyu is a difficult opponent, but as a teammate, he is really useful. If he doesn't take action, it's fine. But once he does, he can get things done in minutes.

Jian Xi Xin Jiu sighed and said, " I'll wait for my calf cramp to add the direction mark. Once the route is set, it shouldn't be a big deal. "

Ji Xuan nodded and said, " Is there anything else I can help you with? "

Jian Xi Xin Jiu thought for a moment and said, " No, there seems to be breakfast in the cafeteria now. You can go and have some. They said that there will be work to do after the route is designated. It is probably something like daily tasks. "

At this point, Jian Xi Xin Jiu sighed again and said, " I'm sure I still have things to do. I'll find you guys when I need help. "

Jian Xi Xin Jiu glanced at Ji Xuanyi dimly and said, " I suddenly felt the feeling of the rain. "

Ji Xuanyi pretended not to understand what he was saying and pulled Qi Qin away.

There are cafeterias on the deck and in the cabin. Ji Xuanyi and Qi Qin plan to visit both sides.

The ship is so huge that there are many places that neither of them have seen . In fact, there are many players like them. Many of them are running around exploring places they have never been to. After all, the ship is so big, who knows what adventures they might encounter.

However, this is only the way of playing for the players in Star City. The other two small boats, especially those from Daytime City which were crowded with players in order to accommodate more people, had difficulty turning around and reached the end after just a few steps. There was no condition for the boats to run around like in Star City.

Ji Xuanyi and Qi Qin first went to the cafeteria on the first deck.

Because of the good lighting, this cafeteria is quite popular. The moment Ji Xuan walked in, he felt as if he was in his own university cafeteria, especially during mealtime.

People were walking around with their bowls in their hands. It was very crowded. As there were not enough seats, some people simply sat on the floor to eat, while others thought the floor was dirty and ate while standing. However, judging from the expressions on people's faces, the food in this cafeteria must taste good.

Qi Qin said: " Do you want to go in? "

Although there are many people inside, it is still easy for Qi Qin, as a swordsman, to go in and get a meal.

Ji Xuanyi was different. As a delicate sorcerer, just looking at this scene was enough for him, not to mention letting him go in to eat. He immediately said with a green face: " Forget it, forget it, let's go to the cabin and take a look. "

Qi Qin responded, and the two of them strolled back into the cabin.

Ji Xuanyi originally thought that the lights in the cabin were dim and there must be few people willing to eat here. But after arriving, he found that things were a little different from what he had imagined.

The light in the cabin was indeed not as good as that on the deck, but with the magic lamp on, it did not look any more shabby than the deck, and the slightly dim light created another kind of romantic atmosphere in the cabin.

The only thing that was consistent with Ji Xuanyi's speculation was that there were indeed fewer people in the cabin than on the deck.

However, the small number of people has nothing to do with the light. It's just that the players here seem to be in pairs. The atmosphere is very ambiguous and it is very difficult to fit in.

I guess most players feel that eating in this kind of atmosphere can easily give them stomachaches, so they'd rather squeeze into the cafeteria on the deck, right?

However, this situation was not an obstacle for Ji Xuanyi and Qi Qin. It was good enough that they did not specifically look for such a place to eat. It's just that there were couples everywhere around them, so the two of them fit in perfectly!

Ji Xuanyi and Qi Qin walked all the way to the food distribution area. They were distributing Western breakfasts such as bread and thick soup to the players while chatting with each other.

Ji Xuanyi blinked and moved closer to listen to what they were saying.

Qi Qin took the bread and mushroom soup handed to him, smacked his lips, and said to Ji Xuanyi in a very aggrieved tone: " Xuanyi, I want to eat porridge. "

Ji Xuanyi: "..."

Ji Xuanyi said with a frown on his face: " Do you really think you didn't have breakfast? "

The two of them got up at six o'clock today and had just eaten before playing the game. They came here to eat just for the sake of their gesture, okay?

Besides, Qi Qin, you've eaten everything when you were a hero. Why are you being picky about food now?

Qi Qin was scolded by Ji Xuanyi and had no porridge to drink, so he had to carry the bread and soup to save a seat with a wronged look on his face.

As soon as Ji Xuan saw him leave, he went to listen to the conversation.

One of them said that there were too many things to do and he was a bit overwhelmed, and his magic reserves were running low. The other one said, it's okay, Lord August will find someone to help in a while, and it won't be busy for long.

Ji Xuanyi: "..."

This conversation was a bit weird, and Ji Xuanyi couldn't find the key points to digest for a while, but it was true that there would be daily tasks next, and it was possible that all the players on the ship would be mobilized to do them.

Ji Xuanyi pondered the conversation between the two and walked aside with the food. After a while, he remembered to look for Qi Qin.

Ji Xuan looked up and found that Qi Qin was talking to a group of acquaintances – yes, it was the Ze, Yu and Sishui trio. They were also in the cabin cafeteria and occupied the largest table in the cafeteria.

However, the aura of these three people is really weird. Eating together in such an ambiguous atmosphere can easily turn into a weird Shura scene, but these three people turned the candlelight breakfast into a family gathering, which seemed very abrupt compared with the several tables of affectionate couples around them.

Qi Qinzheng had his back to Ji Xuanyi, talking to Ze Yu Sishui and the other two without realizing it. Ji Xuanyi didn't call him and just walked over with light steps.

When they could almost hear what the people were saying, Ze Yu Sishui and Ming Shao, who were sitting opposite Qi Qin, saw Ji Xuanyi and their faces changed immediately.

Ji Xuanyi didn't think there was anything wrong at first, but the change of expression of these two people was a bit strange. Ji Xuanyi started to wonder in his heart and immediately turned cold towards them.

When Ze Yu Sishui and Ming Shao saw Ji Xuanyi's expression, they understood what he meant. In order to save their lives, they had no choice but to sell out Qi Qin and Qingfeng Bufu and pretend that they did not see Ji Xuanyi.

Ji Xuanyi took another step towards that side, and heard Qi Qinzheng complaining to Ze Yu Sishui and the others in a very aggrieved tone: " I wanted to eat porridge, but Xuanyi was mean to me. "

Ji Xuanyi: " ... "

Ze Yu Sishui and Ming Shao glanced at Ji Xuanyi who was standing behind Qingfeng Bufu and Qi Qin, and coughed desperately.

Qing Feng Bu Fu asked curiously: " What's wrong with you two? Did you eat too much salt? " As he said this, he poured them both a glass of water.

Ze Yusi took a sip of water, trying to cover up his mistake, and said to Qi Qin: " You can't say it's fierce or anything like that. This is a western fantasy game after all. People don't even eat porridge. Where can Xiao Ji get you a bowl? "

Young Master Ming also nodded and said, " It's too much to ask of someone. Any normal person would be unhappy, let alone Ji Xuanyi. "

After saying that, Ming Shao immediately added: " Of course, I'm not saying that Ji Xuanyi is not a normal person, he's just not ordinary. Not ordinary means outstanding, understand? "

Qi Qin didn't quite understand what Ming Shao said, but it seemed like he was praising Ji Xuanyi? He nodded confusedly, then sighed and said melancholy: " You are right, mainly because I ate a little too much in the morning, and now I have to eat again. I was talking about losing weight before, so it's no wonder Xuanyi was angry. "

Ze Yu Sishui breathed a sigh of relief and was about to say something when Qingfeng Bufu slammed the table and said, " You are too cowardly! "

Everyone was shocked, especially Ze Yu Sishui and Ming Shao, who looked at Qingfeng Bufu with almost horror.

Unfortunately, Qingfeng Bufu didn't get the desire to survive of the two people opposite him, but said seriously: " Tianxia, you are obviously the one on top. You can't be so cowardly as a husband. You have to show your authority as a husband! Ji Xuanyi is also harsh on you for something like drinking porridge. You have to protest against it! "

Qi Qin was stunned, and before he could say anything, Ze Yu Sishui immediately slammed the table and said righteously: " What nonsense are you talking about! What husband's authority, bah! This kind of thing is no longer popular now, not to mention that two men are in love, why do they care about this? Isn't Xiao Ji's husband's authority very strong! Besides, is that fierce? That's called aura, momentum! How can a mortal like you understand, why don't you shut up! " Young Master Ming also cleared his throat and chimed in, " Qing Feng Bu Fu, stop talking nonsense and shut up. "

Qingfeng Bufu was caught off guard and spit on the face by Ze Yu Sishui. He was completely stunned. It took him a long time to react. He wiped his face with his sleeve and said strangely: " What's wrong with you? When everyone was complaining about Xiao Ji before, weren't you the most active? You kept talking non-stop, saying that Xiao Ji was shady, cruel, and nepotistic ..." Ze Yu Si Shui: "..."

Ze Yu Sishui showed a desperate expression and struggled weakly: " I'm not, I didn't, don't talk nonsense! "

But judging from Ji Xuanyi's expression, this struggle seemed to be meaningless. Seeing that Ze Yu Sishui could not be saved, Ming Shao immediately moved his chair away from the group of people, indicating that he was not with him.

Qingfeng Bufu hadn't reacted yet and was still asking, " What's wrong? What's wrong with you? "

Ze Yu Sishui and Ming Shao didn't say anything, but soon he knew why his two best friends suddenly acted so abnormally.

" Oh, shady, cruel, nepotism? "

A familiar voice came from behind.

Qingfengbufu: "..."

Qingfeng Bufu felt a chill on the back of his head and turned around tremblingly, only to see Ji Xuanyi standing behind him and Qi Qin, with his arms folded, looking at him expressionlessly. Qi Qin was also shocked. It took him a long time to react. He swallowed and began to frantically recall what he had said just now to seek death.

Before Qi Qin could figure it out, Ze Yu Si Shui had already jumped onto Ji Xuanyi's thighs and cried, " I am innocent! I am innocent! Qing Feng Bu Fu is putting the blame on me. I am innocent! "

After saying that, Ze Yu Sishui raised his head and started begging for mercy from the bottom up towards Ji Xuanyi like a pitiful little boy, saying: " I have never said anything bad about Xiao Ji ..."

Ji Xuanyi: "..."

Ji Xuanyi was disgusted by this malicious act of cuteness, so he kicked the man away and said expressionlessly: " I know what I'm doing, come one by one. "

Everyone: "..."

Except Ming Shao, the three people of Ze Yu Si Shui and Qi Qin were beaten up by Ji Xuanyi in the cafeteria.

Five minutes later, under the horrified gazes of the people around them, the five people sat together and started eating.

Ze Yu Sishui and Qing Feng Bufu lowered their heads and almost buried their faces in the bowls. Qi Qin was too timid to speak. Only Ming Shao was able to sit at the table and eat because he had never said anything bad about Ji Xuanyi.

The atmosphere was too weird. Young Master Ming was eating so hard that his stomach ached. He wondered whether he should ease the atmosphere. However, before he could open his mouth, Ji Xuanyi coughed, which frightened him so much that he shivered.

Ji Xuan raised his head and gave Ming Shao a cold look, which made the latter sweat all over his forehead.

After a long while, Ji Xuanyi finally said to Qi Qin: " The weather is a bit hot recently, let's eat porridge tonight. "

Qi Qin breathed a sigh of relief.

Qingfeng Bufu and Zeyu Sishui were still drinking soup with their faces. Ji Xuan glanced at them and changed the subject: " What's going on here? "

It is actually quite normal to be gossiped about behind one's back. Ji Xuanyi even complained to Qi Qin about how Ze, Yu Sishui and the others played games like a weird family of three.

Although it was a bit stupid to be caught by the pigtails for saying bad things in front of him, a beating was enough for the sake of politeness, and Ji Xuanyi had no intention of pursuing the matter further.

Qingfeng Bufu and Ze Yusihui were startled, and raised their heads tremblingly. When they found that Ji Xuanyi was asking them a question, they breathed a sigh of relief and said, " What's going on? "

Ji Xuan said, " I felt something was a little strange when I came in. I just realized why there was no one near the window. "

Generally speaking, in this kind of atmosphere that is not much different from traveling, window seats should be very popular because you can see the scenery on both sides. However, in the cafeteria where Ji Xuanyi and his friends are, although there are glass windows on both sides, most of the players gather in the center, and there is no one sitting by the window.

It's so weird.

When Ze Yu Sishui heard Ji Xuanyi's question, his face turned green, and then he said angrily: " It's all because of the two ships from Youyue City and Yangri City! "

Ji Xuanyi: "..... ? "

What does this have to do with Youyue City and Yueri City?

Ji Xuanyi stood up curiously and planned to go to the window to see what happened in Youyue City and Yaori City.

Qing Feng Bu Fu weakly stopped him and said, " Xiao Ji, you'd better not go now. Let's talk about it after dinner ..."

Ji Xuanyi was not the kind of person who would listen to advice. The more Qingfeng Bufu said this, the more he wanted to go and take a look. He immediately stood up and walked to the window.

After just one glance, Ji Xuanyi came back with a dark face.

No wonder there is no one in the seat by the window. The guys from Youyue City and Yueri City are so disgusting!

The ship of Star City was very large, so even if there were some wind and waves, they had little impact on the ship, and everyone walked on the deck as if it were flat ground. However, such wind and waves were not friendly to the smaller ships of Youyue City and Yangri City. The ships were very bumpy, and many people on the ship suffered from seasickness debuff , lying on the sidewall and vomiting.

Ji Xuanyi was sitting near the window in the cafeteria. When he turned his head, he could see the figures of Yaoricheng and Youyuecheng lying on the side of the boat and vomiting. It would be strange if anyone would sit there!

Qing Feng Bu Fu actually had some sympathy. Besides feeling disgusted, he also said hypocritically: " Oh, that's too tragic. "

Ji Xuanyi was also very disgusted and said, " Why don't they log off and take a break? "

Ze Yu Si Shui said: " It seems that the main city of the second server that went out to sea first said that this is a normal phenomenon. The vomiting debuff is randomly given and will be eliminated after the online time reaches three hours. "

Ji Xuanyi frowned and said, " Is it like this every day? "

Ze Yu Sishui showed a disgusted expression and said, " If it's like this every day, there's no point in playing. Let's go blow up the official first ... It seems that it only appears when you first board the ship, and it will be completely gone after three hours. "

Ji Xuanyi finally breathed a sigh of relief.

They were sailing leisurely on the sea, but the people on the two boats next to them were vomiting violently and were under a lot of pressure.

" Forget about Sun City, " Ji Xuan said, " I don't know what the situation is like in Youyue City now. "

After all, Youyue City is the main city of their alliance, so Ji Xuanyi will still reluctantly show some concern for it.

The situation in Ghost Moon City is actually slightly better than that in Sun City. Although their ship is smaller than that of Sun City, the ghost ship has additional earthquake resistance properties. In addition, there are not many people brought up by Ghost Moon City, so the seasickness debuff does not have much impact on them.

It's a pity that although the situation is better, it is not much better. Those who are supposed to be infected will still be infected. For example, the old western doctor was hiding in the captain's room, but there was still a vomiting debuff under his avatar .

The old western doctor was shocked at the time, because their route was just to follow the Starry City mindlessly, and there were not many things that the captain needed to pay attention to, so he had quite some time. He immediately opened the door and rushed out of the captain's room.

Yun Zhongzhong, the first mate, immediately followed in a panic. As soon as he went out, he saw the old western doctor leaning against the sidewall and vomiting .

Yunzhongjian: "..."

Because it's not good and really makes players feel sick, although a vomiting debuff is set for the authenticity of the game , the things that players vomit will not have any peculiar smell,

and the appearance is just a mosaic. The only impact is that players will feel like their bodies are hollowed out after vomiting, and it will take a while to recover.

The old western doctor vomited a round, then collapsed on the boat, looked at Yun Zhongjian, and said angrily: " You definitely didn't get it! Damn you, the European Emperor! "

Yun Zhongjian was indeed not affected. He laughed dryly and approached him and said, " Are you okay? Do you want me to pour you some water? "

The old western doctor was still immersed in the anger of the non-Africans facing the European emperor, and said firmly: " No! "

Yun Zhongjian asked, " You want it? "

The old western doctor looked at him again and groaned, " Do you have any ice? "

Yun Zhongjian said in a sweat, " I'll go there and see if there is any. "

Yun Zhongjian was about to leave when the old western doctor suddenly remembered something and stopped him, saying, " Wait a minute! "

 " What's wrong? " Yun Zhongjian asked curiously.

The old western doctor smiled wickedly and said, " Help me up, let's go see the dog boss. When he vomits, I want to take a screenshot! "

Yunzhongjian: "..."

For a moment, Yun Zhongjian didn't know how to describe the old western doctor's spirit. Even in this damn situation, he still didn't forget to think about Ye Linyu's ugly photos. Perhaps Xu Chu was the only one in the world who could understand the old western doctor's feelings!

Yun Zhongjian was at a loss as to what to do. The old Western doctor, a pastor, couldn't even stand up after vomiting. Yun Zhongjian had to half-carry him and half-carry him to find Ye Linyu, and he vomited twice more on the way.

However, God seemed unwilling to stand on the side of the old Western doctor. After seeing Ye Linyu, the old Western doctor suddenly looked as pale as death.

The opponent was just like Yun Zhongjian, he was not hit at all!

On the contrary, the old western doctor, when he saw Ye Linyu, leaned over the sidewall and vomited all over the place, which was captured by Ye Linyu!

No matter how miserable the old Western doctor's situation was, Ji Xuanyi couldn't see it because he was too far away .

However, Ji Xuanyi's concern was just verbal, and he would not do anything more. Putting Day City and Youyue City behind his mind, Ji Xuanyi started to enjoy his breakfast.

Ze Yu Sishui complained while breaking off a piece of bread: " I thought we could eat seafood on the boat, but I didn't expect it to be these things. "

Ming Shao ate the last bite of bread and said, " Treasure the food you have now. We don't know how long we will be drifting on the sea. We will eat seafood every day. When you get tired of it, you won't even be able to eat mushroom soup. "

Ze Yu Si Shui wrinkled her nose and said coquettishly: " If you can't eat it, just go offline and eat it! "

Ji Xuanyi was too lazy to pay attention to them. He scooped a spoonful of soup and put it in his mouth. Only then did he realize that although the soup tasted ordinary, it was actually seasoned.

But it's not that much? Ji Xuan thought about it, took another sip, and suddenly showed a surprised expression.

When eating in a keyboard online game, you just click and the food is gone, which makes it easy to calculate the data. However, in a holographic online game, it is impossible to finish the food in one bite. Therefore, in most cases, the food is set up so that after taking a bite and obtaining the buff , the remaining uneaten food will become invalid. Continuing to eat can only continue to taste the food, but the special effects attached to the food will no longer be triggered.

Like the soup that Ji Xuanyi is eating now, food that counts as experience per bite is not a lot. After all, it is very troublesome to calculate like this in the program. The reason why the official took the trouble to make the food like this is probably to allow players to better get into the feeling of going to sea. Of course, cherishing food is the first thing that needs to be paid attention to.

Ji Xuanyi said: " No wonder so many players are crowded together to eat, just like in a real cafeteria, instead of throwing away the food after taking a bite ... Why do the officials always suddenly become reliable in such strange places? "

Everyone shook their heads. Who knows?

Ji Xuanyi finished his meal in the cafeteria with doubts. At the same time, Jian Xi Xinjiu finally got the copy of the direction sign fragments from Yao Richeng. After piecing them together on the map, he immediately identified the direction and planned the route forward.

The large ship from Star City changed direction slightly and headed towards its destination. Just when Jian Xi Xinjiu had finally completed the designated route mission and everything was back on track, and he couldn't help but breathe a sigh of relief for not having to take the blame, a message arrived, informing him that the activity mission on the ship was about to begin.

Sword washing new wine: "..."

Please possess me with the rain!

Ji Xuanyi and his group had just left the cafeteria and were walking towards the deck when they heard the system prompt.

Almost everyone on the boat opened the chat interface at the same time and found that there was an extra channel.

[Ship] : Captain informs all personnel to proceed to where you are needed as soon as possible.

Chapter 167

After all, it was the first time to go out to sea in the game, and the goal was to find a new continent . Although procrastination was coming on strong , Xu Chu still overcame it with strength , and even went online half an hour earlier than ever before!

The moment he lay down in the game cabin , Xu Chu sighed in his heart, this was the first time in his life , if Ji Xuanyi and the others had seen him in advance, they might have been so moved that they burst into tears!

Xu Chu logged into the game while imagining the scene of Ji Xuanyi crying and hugging his thighs.

It turned out that he was thinking too much.

The first thing Xu Chu did after coming online was to go out and look for someone, preferably in a way that would surprise everyone . However, as soon as he walked out of the room , he bumped into Ji Xuanyi and Qi Qin who were walking in that direction.

The two of them stared at each other blankly for three seconds. Xu Chu reacted first and was about to ask for praise, but Ji Xuanyi grabbed him and said, " Great, we are in need of someone! "

Xu Chu: "..."

Xu Chu felt something was wrong, and he struggled while saying, " What are you doing? What are you doing? It's rare for me to be online early , and I have to work for no reward at all?! "

Ji Xuanyi sneered, " Everyone is online at around 8 o'clock . What time is it now? "

Xu Chu was startled and said sadly: " I finally came early, am I late again? "

Unexpectedly, Xu Chu, the pigeon king, would actually have a change of heart. When he saw Xu Chu really showing a sad expression, Ji Xuanyi's hand subconsciously loosened.

The sadness on Xuchu's face disappeared immediately . He pulled his arm out, turned around and ran away, shouting, " It's so hard to get online ahead of schedule. I don't want to work anymore! "

Ji Xuanyi: "..."

Xu Chu, you may want to die.

Xu Chu's escape plan certainly failed, and he was brought back by Qi Qin holding him by the scruff of the neck. This time, even if he burst into tears, Ji Xuanyi would not be soft-hearted. Fortunately, Xu Chu didn't think the same trick could work twice, and Qi Qin held him in his hand like a wilted eggplant. After a long while, he said faintly: " You're doing hard labor when you're online. Who wouldn't run? At least give me some explanation. "

Ji Xuanyi briefly told Xu Chu what he knew, and then said, " The activities at this stage are scored, and there is a countdown. Now the whole ship is busy, and it is not certain that you can get the full score before the countdown ends. Don't be lazy. "

Xu Chu was stunned and asked, " Point system? Point system? "

Ji Xuanyi said: " It's a scoring system. "

Although the scoring system and the points system differ by only one letter and have the same pronunciation, they are actually two different situations.

The point system is relatively mild. Points are accumulated during the activity period. There is no upper limit. It is up to the players to do more or less. However, after the activity ends, rewards will be distributed according to the number of points. The more work, the more you get. But the scoring system is much more subtle. Its time limit is not throughout the entire activity time, but is set within a time period, such as ten minutes, or an hour. At the same time, it has another score bar. If the score bar is filled up within the specified time, or if it is not filled up, the next activity stage will be led to two completely different directions.

It goes without saying that the direction without full calculation is definitely not a simple one, and it is very likely that the ship will suffer heavy losses!

Xu Chu's face wrinkled, and he said unwillingly: " Why do I have to face this situation as soon as I come online? "

Ji Xuanyi said calmly: " If you had come online earlier, you could have eaten in the cafeteria first and then face this situation. "

Xu Chu: "..."

I would have given up if I had known this earlier!

Ji Xuanyi knew what he was thinking without even looking at him, and said, " Don't worry, even if you don't go online, we will ask Liu Tian to find you. There is a shortage of people on the ship right now, and no one who doesn't go online can escape. "

When they select people to go overseas, the first condition they must meet is sufficient time, in order to avoid the situation where there are not enough people online when something happens. The stages of the three main cities are actually synchronized. Star City is now very busy, and the other two main cities have actually entered the same scoring stage. However, as long as someone stops to look at both sides, they will find that the difference between them is also very obvious.

The shortcomings of the Starry City's ship were still exposed. Although Youyue City and Youri City had smaller ships, fewer people, were crowded, and had seasickness debuffs , their scoring data would be correspondingly lower, and this amount of task was easy for them to complete.

However, the ship of Star City is too big, and the scoring data is very high. In fact, their good environment is partly due to the fact that they do not bring too many people. The few people are left for the second escort phase of the activity, which also frees up more spacious space for the 600 people on the ship. However, these 600 people are stretched when faced with the scoring provided for 800 people.

They had to complete the task against the clock just to catch up with the score.

Xu Chu understood the seriousness of the situation, and no longer needed Qi Qin to carry him. He stretched out his precious legs and started walking by himself, saying, " After talking so much, you still haven't told me what the mission is about? "

Ji Xuan glanced at him and said, " Actually, I don't know either. Jian Xi Xin Jiu just posted the announcement before you came online. He told me to go to the Magic Workshop on the second floor of the deck. I'm heading that way now. "

Xu Chu's room was right next to the corridor on the second floor of the deck. Ji Xuanyi ran into him as soon as he climbed up, so he took him over to do some hard labor.

When Xu Chu learned the truth, the muscles on his cheeks twitched involuntarily.

He is really unlucky.

They had already reached the second deck and the magic workshop was not far away . In less than five minutes, Ji Xuanyi and Qi Qin brought Xu Chu into the magic workshop.

This ship was originally built under the supervision of August. Of course, it does not need manpower to move the ship forward like ordinary ships. As a great magician, August is actually a technical geek. In the study of magic, he can be regarded as the number one in the Elemental Continent. The power source of this ship comes from the magic circle that August had created a long time ago, and the magic workshop is an important place for maintaining the magic circle.

When Ji Xuanyi and others arrived at the magic workshop, many magic players had already gathered inside, and all of them were concentrating on checking the conditions of the various magic circles in the magic workshop.

Ji Xuanyi saw someone run over to report muttering to himself after checking, as if there was an error in the magic circle. After talking to him, he handed him a blueprint and asked him to repair the magic circle.

The huge magic workshop was filled with players running around, and it looked very busy.

Xu Chu's forehead was covered with sweat. He turned around and wanted to leave, muttering, "So busy? Fuck, I'll just slip away ..."

You're already here, how can I let you go? Ji Xuan pulled everyone back and walked over there. He was holding a small notebook and busily recording something. When Ji Xuanyi and the others came over, he just responded perfunctorily and asked them to wait a moment.

Ji Xuanyi took this opportunity to take a look and inexplicably felt that she looked familiar. It took him a long time to remember that this woman looked like the cafeteria lady.

It's really amazing. How can the cafeteria lady also work part-time as a magic workshop manager? Is she reliable? !

Ji Xuanyi looked at that person with a frown on his face until the other person put down the pen in his hand and looked at them.

The cafeteria auntie is the cafeteria auntie, Ji Xuan thought, he couldn't protest against her, so let it be!

Ji Xuanyi said: "Hello, we are here to help. Is there anything you need us to do? "

After saying that, in order to prevent Xu Chu from escaping, Ji Xuanyi dragged him to the front.

He glanced at Xu Chu, nodded, and while writing and drawing on the notebook, he said: "Master, Xu Chu, right? "

Xu Chu wanted to say that it was not right, but Ji Xuanyi looked at him coldly from the side, so he could only pinch his nose and nod.

He took out a piece of paper, handed it to Xu Chu, and said, "This is the formation diagram of area 401. Go check it. If there are any deviations or omissions, come to me and report it. Then go over there to get the materials to repair it. "

Xu Chu took the paper and asked expectantly, "What if there is no problem? Can I leave now? "

He glanced at him and said slowly, "If there is no problem, you can come to me and get the formation map of area 402. "

Xu Chu: "... Okay. "

Xu Chu was turned back and dejectedly took the blueprint to look for the location of Area 401 .

The next one was Ji Xuanyi. Ji Xuanyi originally wanted to get the drawings quickly and do the task, but he didn't expect that he would stare at him for a long time.

What? Did you see that I have a backer? Are you going to give me a management position? Ji Xuanyi thought absentmindedly.

It turns out that it is absolutely impossible to let players be managers and enslave them. After looking at him for a long time, he just showed a surprised expression and said: "It's so rare, you are a warlock! "

Ji Xuan was stunned for a moment and said, " What happened to the warlock? " She excitedly recorded Ji Xuanyi's information in the notebook. After hearing his question, she was not as cold as she was to Xu Chu. Instead, she explained amiably, " Warlocks don't have as strong attack power as mages, nor can they heal people like priests, but in the research of alchemy and magic circles, no one can catch up with them. You must be very good at such tasks. If you do the same thing, you will definitely get twice the result with half the effort. " Although Ji Xuanyi is indeed a warlock, as a player, he is not as awesome as he says. Just as he was about to decline, he suddenly saw an extra buff under his avatar .

[Mastery of Magic Circles] : As a sorcerer, you are proficient in the use of magic circles, and you can definitely make the most of them in the Magic Workshop. <Magic Workshop Mission Score x4 >

It turns out that what he meant was not really saying how awesome he is, but rather reminding him that he has a buff ... But this x4 is so funny, is this how you interpret getting twice the result with half the effort?

He was still complaining that there were too few warlocks. Only two had appeared so far, which was totally not enough.

Ji Xuan was thinking, the old western doctor also said that male priests are a hidden profession. If they are hidden, can they be as hidden as warlocks?

But the mission was more important at the moment, so Ji Xuan put aside all those messy thoughts and asked, " Is there anything I need to do? "

Ji Xuanyi originally thought that he would get the blueprint of Area 402 right after Xu Chu , but he unexpectedly said: " You can go to Area 6 to help reinforce the magic circle. "

Ji Xuan was stunned for a moment and said, " Reinforce the magic circle? "

He smiled and nodded, then took out another piece of paper and handed it to Ji Xuanyi, saying, " This may be a bit troublesome, but there is no other way. Only you sorcerers can do this job. "

Ji Xuanyi took the piece of paper with the messy magic circle drawn on it, took a look at it, and put it into his backpack without hesitation.

I can't understand it at all. I'll take it out when I get there and see how to fix it.

Ji Xuanyi was about to let Qi Qin behind him step aside, but suddenly he thought of something, paused, and said, " Isn't reinforcing the magic circle different from inspecting and maintaining the magic circle? What is the use of reinforcing the magic circle? "

If someone else were to ask such a question, they would definitely not respond, because they were busy. But who made Ji Xuanyi a warlock who was rarer than a giant panda? He had to be coaxed like a baby. At the moment, he could only take time out of his busy schedule to explain: " Maintaining the magic circle is to make the magic energy of the ship move more smoothly, so that it will not go wrong in a critical moment, but reinforcing the magic circle is to add details to the magic circle, which can make the ship move faster. "

After that, he added meaningfully: " The task you are responsible for is very important, hurry up and help. "

After listening to the explanation, Ji Xuanyi frowned.

Speed up the ship? Why? Was it a polite remark that his mission was important or was it true? If it was true, did that mean that one of the processes that the scoring mission would affect next would most likely require the ship to speed up?

In what situations would you need to speed up and rush over? Is it because of the terrain?

Ji Xuanyi had little experience in matters at sea and had no idea what he would face next, so he had to let Qi Qin come up and report first.

Ji Xuanyi originally thought that although Qi Qin's profession was very common, his strength and attributes would result in him being treated differently. Unexpectedly, he was really treated differently, but it was a little different from what Ji Xuanyi had imagined.

As soon as he took a look at Qi Qin, he immediately showed an expression of disgust.

Qi Qin: "..."

Before Qi Qin could say anything, he pushed him out and said, " What are you doing here at the magic workshop as a swordsman? Hurry up and report to the cabin. They still need your hard work over there. Hurry up! "

Qi Qin hesitated for a moment, then immediately shouted: " Why don't you leave quickly?! "

Before Ji Xuanyi had a chance to say anything, he was dragged away to find where District 6 was. Qi Qin could only look at Ji Xuanyi's back aggrievedly, and then left with his eyes wide open, looking back every step of the way.

The magic profession was repairing the magic circle in the magic workshop, the strength profession went to the cabin to reinforce the hull, and the agility profession was running errands all over the ship, transporting the materials needed by both sides. By the way, they were also responsible for notifying everyone. Everyone on the ship was very busy.

After about half an hour, Day City, which had forced many people onto the ship, completed the mission. However, their situation was not so leisurely because the vomiting debuff that had temporarily disappeared due to the start of the mission reappeared, and a row of players were hanging on the sidewall, vomiting in an orderly manner.

The next closest was Youyue City. They had slightly fewer people, but luckily their ship was small, so they completed the mission in less than an hour. Like the players from Youri City, they were neatly hung on the bulwarks.

At the same time, Star City was still busy.

The scoring limit is one and a half hours, and they now have more than thirty minutes left, but the scoring progress is not even two-thirds. I don't know if these few extra minutes will be enough for them to reach the two-thirds line.

Not only Ji Xuanyi and the others were working hard on the mission. Seeing that the situation was a little tense, even Jian Xixinjiu ran from the captain's room to the cabin to help with Banzhuan. It was a pity that he was a knight, and he had to do what he could get without any professional bonus.

The three systems of professions are responsible for tasks in three places respectively. In the magic workshop, the warlock's score bonus for completing the task is four times, the mage has no bonus for completing the task, and the worst is the priest, whose score multiplier for completing the task is 0.8. The explanation given for this is that they are good at perceiving the force of life, and they are very bad at the use and research of magic circles.

In fact, this 0.8 multiplier is already a special price given by the official considering the players' psychological tolerance. In fact, it should be only 0.5.

As for the cabin, the swordsman's scoring multiplier for completing the task is twice, and the knight has no multiplier. As for running errands, the archer's multiplier is 1.5, and the assassin has no multiplier.

Xu Chu was so busy that his face was covered in dust. Seeing Ji Xuanyi not far away from him , he couldn't help but mutter to him: " Why didn't August tell you about this in advance? If he had known in advance, he could have reduced the burden by adjusting the number of professionals he brought with him. "

Ji Xuanyi was busy with the lines on the paper, so he didn't have time to pay attention to him. He said without even looking up: " How do you know that there will be no bonuses for other professions in the next stage? "

That's right, this is only the first day at sea, who knows if anything will happen later?

Ji Xuan paused, and then said, " Besides, regarding the matter of the magic workshop, how many sorcerers can you find in the entire Starry City? "

Xu Chu was completely silent this time.

A group of people worked hard and finally completed the scoring task on the finish line. The moment the task was completed, everyone received a large amount of experience value rewards, which also meant that material rewards would be distributed directly to everyone's room, and the cafeteria once again prepared rich food to reward everyone.

Although it is indeed something worth being happy about, none of the players who have been playing for so long have the energy to be happy. They all go back to their rooms or to the cafeteria like dead fish. There are not many people even going up to the deck to enjoy the breeze and watch the sea.

Ji Xuanyi felt like his eyes were going blind. Those messy lines almost made him confused. It was even more difficult than when he and Xu Chu were solving the maze together.

Everyone dispersed like wandering souls. Ji Xuanyi went to the cabin to meet Qi Qin and met Jian Xixinjiu on the way.

The knights' horses could not be summoned on the ship, so they had to walk on their own two legs. Xu Chu didn't want to hang out with Liu Tian because of this. No matter how anxious Jian Xi Xin Jiu was, he could only run to the captain's room with a grunt.

There will be no other situations when the event starts, so Jianxi Xinjiu can come out to help. But it is hard to say after the event ends. Something unexpected may happen soon. He must rush back to the captain's room as soon as possible to keep an eye on it.

After Ji Xuanyi met Qi Qin smoothly, they went to the cabin cafeteria again. This time the food was slightly better than breakfast, but only slightly better. After the two of them replenished their experience, they went offline to eat.

It can be seen from the first scoring task that the pace of the sea activities is very tight. Ji Xuanyi and Qi Qin used to stay offline for a while before going back, but today they didn't have the time. After washing the dishes, they went online again and waited for orders.

Among the three people of Ze Yu Si Shui, Ze Yu Si Shui served as the first mate and Ming Shao became the helmsman. Except for going to the cafeteria to gain experience, they could not run

around most of the time. Qing Feng Bu Fu, however, had nothing to do and wandered around, feeling very lonely.

Although Qingfeng Bufu also participated in the work of the magic workshop, the magic workshop was large and there were many people, so he did not stay with Ji Xuanyi. After dinner, he met Ji Xuanyi and Qi Qin who had just come out of the room.

Ever since Qingfeng Bufu and Ze Yu Sishui Mingshao formed a family of three, they were rarely left alone. Ji Xuanyi and Qi Qin were a little surprised when they saw him, especially Ji Xuanyi, who always felt something was strange.

The last time he had this strange feeling of disharmony was when he met the pve twin brothers in Starry City, but he still hasn't figured out what was wrong at that time.

When Qingfeng Bufu saw Ji Xuanyi and Qi Qin, he immediately came over happily like a little bird.

At this moment, I can't remember how cruel he was, Ji Xuan thought.

Without waiting for Ji Xuanyi and Qi Qin to speak, Qingfeng Bufu immediately spilled out his own situation like pouring out beans, crying: " Ze Yu Sishui and Ming Shao won't play with me anymore! "

Ji Xuanyi said, " They are busy with things, so of course they can't take you with them. "

Qing Feng Bu Fu said sadly: " Forget about Mr. Ming. He didn't want to play with me in the first place. But Ze Yu Si Shui has also changed. He is like a little adult and even kicked me out, saying that I am affecting his work. "

In this family of three, Ming Shao is the pillar, while Qingfeng Bufu and Ze Yu Sishui are just troublemakers. Every time, it is they who make the mess and Ming Shao has to clean it up. It is normal for Ming Shao to be unwilling to play around with Qingfeng Bufu, and Qingfeng Bufu himself is used to it.

But Ze and Yu Sishui were different. They were the best of friends and did everything together, especially when they spoke ill of Ji Xuanyi behind his back. After all, they were often taught a lesson by Ji Xuanyi ...

I'm off topic. Anyway, this time Ze Yu Sishui got the position of first mate, and he became serious. He was like the second Ming Shao. He didn't hang out with Qingfeng Bufu anymore, and he even educated Qingfeng Bufu. Qingfeng Bufu really couldn't accept it, and he was in a bad mood.

After crying, Qing Feng Bu Fu followed Ji Xuan Yi and Qi Qin like a little tail, looked at Ji Xuan Yi pitifully, and said: " Where are you two going? Take me with you? "

Ji Xuanyi: "..."

Forget about Ming Shao and Ze Yu Sishui, they are at most a father and son, you can only act as a mother if you follow behind them. He and Qi Qin are in a romantic relationship, you can only be a light bulb if you come along, are you looking for a fight?

Ji Xuanyi was unwilling and immediately said angrily, " How old are you? You still need someone to guide you when playing games. Are you a follower? "

Qing Feng Bu Fu was also very shameless and said: t'Don " talk about being a follower. If you two are willing to take me out to play, I'd even be willing to be a follower. "

Ji Xuanyi: "..."

Damn, I overestimated this guy's moral integrity!

Ji Xuanyi felt disgusted by Qingfeng Bufu, but the other party's pitiful and abandoned expression made him unable to bring himself to hit him. Ji Xuanyi could only accept it and took him to the deck.

Qing Feng Bu Fu asked: " What are you doing on the deck? "

Ji Xuanyi said unhappily: " If it weren't for you, we would be on a date looking at the scenery right now. "

Qing Feng Bu Fu said shamelessly: " It's okay, with me here, you two can still enjoy your date and see the scenery! "

Ji Xuanyi was too lazy to pay attention to him and took Qi Qin to the side of the bulwark. It was not until the small boats on both sides appeared in Ji Xuanyi's eyes that he realized belatedly that there were people on these two boats with the vomiting debuff . He immediately wanted to look away, but just a glance made Ji Xuanyi stop.

When the previous mission was over, there was a row of people hanging on the side walls of Youyue City and Yaori City, looking dizzy from vomiting. But now they seem to be gone?

Qi Qin saw Ji Xuanyi's gaze and almost understood what he was thinking. Just as he was about to speak, he heard Qingfeng Bufu interrupt him: " According to the time, they should have finished vomiting. That's great. From now on, when we go to the cabin cafeteria to eat, we can sit by the window! "

Qi Qin, whose lines were stolen: "..."

Or why don't we pack this person up and send him back to Ze Yu Sishui and Ming Shao?

Ji Xuanyi calculated and found that it was indeed the case, so he nodded and said, " This setting is really disgusting. Fortunately, it didn't last too long. "

Qi Qin opened his mouth, but before he could say anything, Qingfeng Bufu interrupted and said, " But there must be some entertainment activities on the sea, right? It's so boring to float like this all the time and then just eat and do tasks! "

Ji Xuanyi thought about it and said, " It seems to be true. "

Qing Feng Bu Fu's eyes lit up and he said, " Actually, I have an idea! "

Ji Xuanyi's eyes moved slightly, and the two looked at each other and said at the same time: " Go and talk to him to get information! "

 " I saw a huge fishing net in the cabin! "

Ji Xuanyi: "..."

Qingfengbufu: "..."

The two of them were silent for a while, and Qingfeng Bufu said in a low voice: " I'd better go find Young Master Ming and the others. "

Ming Shao and the others were really boring, much more boring than Ji Xuanyi's idea of finding a conversation. Qingfeng Bufu probably felt really lonely, so he wanted to find them.

Ji Xuanyi should have applauded his decision, but for some reason, seeing the other party's pitiful appearance, he actually felt an inexplicable sense of guilt, and subconsciously said: " Forget it, let's go to the cabin to check the fishing nets. "

Qing Feng was stunned for a moment, then immediately said happily: " Great! I have never used a net to catch fish before! "

Ji Xuan actually regretted the moment he said it, but there was no way to take it back in this situation. He could only sigh and accept it with his nose pinched.

He was clearly planning to go to the bow with Qi Qin to enjoy the breeze and the scenery, but why did he act like he was taking care of a child ...

Ji Xuanyi looked at Qingfeng Bufu's back and began to doubt whether he had misjudged the matter regarding the family of three.

For example, it's not the parents who are taking care of the kids, but Ming Shao, a single old father, who is taking care of two naughty kids or something like that ...

Ji Xuanyi and Qi Qin accompanied Qingfeng Bufu to the cargo hold on the second-to-last floor of the cabin to look for the fishing net he mentioned.

Qingfeng Bufu and Qi Qin were rummaging so hard that dust was flying up. Ji Xuanyi stretched out his hand and fanned his nose, saying, " How do you know there are fishing nets in the warehouse? There's not even one here. "

Qing Feng Bu Fu said, " On the first day that Ze Yu Si Shui and I boarded the ship, we searched every part of the ship. We wanted to see if there were any hidden tasks or something like that, but we didn't find anything. "

" And you and Tianxia are not involved at all? Many people have explored everywhere today. "

Ji Xuanyi turned his face away feeling somewhat guilty. When he was with Qi Qin, he was very slow in doing anything. When others were exploring the rooms on the ship, he and Qi Qin didn't even know which area they were walking in.

Qi Qin said as he searched: " Although I grew up in the mountains and don't know much about fishing in lakes and seas, our boat is so big that it's hard to reach the water. An ordinary small net shouldn't be able to catch fish on this boat, right? "

Qing Feng Bu Fu was stunned for a moment after hearing this, and said, " It seems that what you said is right ... "

Just when Ji Xuanyi thought Qingfeng Bufu was going to give up this unreliable idea, Qingfeng Bufu suddenly said: " That's not right, Tianxia, did you grow up in the mountains? The deputy gang leader clearly said that you seem to be very rich. "

Qi Qin: "..."

Qi Qin was so shocked by this question that he almost broke out in a cold sweat. Fortunately, Ji Xuanyi was quick to respond and replied calmly, " Well, he is quite rich. The people in that mountain are all from the Tianxia family. "

Qing Feng Bu Fu believed it without hesitation and sighed: " The Tianxia family is engaged in farming? They rented a mountain? Land is very expensive nowadays, so they must be very rich ..."

Ji Xuanyi: "..."

Fortunately, Qingfeng Bufu is a bit stupid. It would be hard to fool someone else!

Qingfeng was not disappointed with the chattering . Questions came one after another. Just when Ji Xuan was a little overwhelmed at the beginning and was considering whether to use violence to solve them directly, the two people finally found a huge net from a pile of large and small supply boxes – it was really huge, and the piled together looked like a small mountain.

The ropes used to weave the net did not seem to be made of ordinary materials, but were very strong and heavy.

Qi Qin looked at the huge net, the expression on his face was hard to describe.

Although fishing on such a large boat does require such a large net, isn't it a bit too big? If this wasn't a game, it would be really difficult for the three of them to get the tangled net out.

Qingfeng Bufu was also stunned. When he and Ze Yu Sishui came out to explore in the dark, they only saw a net, but they didn't expect it to be so big. They were immediately troubled.

Ji Xuanyi said with a headache: "Forget it if I can't take it out. What's the fun of fishing with a net? Just leave it like this and don't do it."

Qing Feng Bu Fu said sadly: "But if we don't use a net to fish, it will be even less fun. I still want to fish, but the line can't even reach the surface of the sea..."

This is the drawback of holographic online games being too real. After finally going out to sea, there is no other entertainment for everyone on the boat except playing Landlord.

Qing Feng Bu Fu sighed helplessly, took out a box of cards from his backpack, and said, "There is no other way, we can only continue playing Landlord. Since Ming Shao and Ze Yu Si Shui are not here, the three of us can also get together to play at one table."

Ji Xuanyi: "..."

Ji Xuanyi said calmly: "Tianxia, bring the net and let's go up."

Qi Qin: "..."

This is also thanks to the fact that it is a game. As long as the attributes are high enough, anything can be lifted.

However, such a big thing would still attract the attention of others if it was put on the deck in public. When Qi Qin climbed to the second floor of the cabin with the fishing net, some curious players rushed up to help.

They originally thought it was a hidden mission and that was why they were so active, but when they heard Qingfeng Bufu say that he wanted to catch fish, they did not just leave, but instead enthusiastically helped to put up the fishing net.

When Ji Xuan saw this situation, he had only one thought in his mind: it seemed that there was really not much entertainment on the ship and everyone was quite bored.

By the end, Qi Qin had basically pulled himself out and stood with Ji Xuanyi, watching others busy fixing the two ropes holding the net to the boat, and then hurriedly putting the net into the water.

Someone asked: "How long will it take to fish it out?"

Another person asked: "Can we eat the seafood after we catch it? I don't want to drink mushroom soup anymore."

Everyone was chattering and talking, and many of them were lying at the stern of the boat, looking out to see what was going on under the water.

At this moment, the ship suddenly shook violently, and two people lying on the stern were shaken and fell into the sea with a "plop". Everyone screamed subconsciously.

What happened?!

Chapter 168

Ning San is the deputy leader of a Sanren Gang. Before the event started , he had secretly sworn in his heart that he must complete this mission successfully and never quit halfway! But swearing is one thing , and encountering force majeure is another. Ning San was simply inexperienced and watched the sea for too long, and was bumped into the sea. Ning San was filled with despair when he fell from the stern. Although he was not too weak and still remembered to try to hang himself on the net that had just been thrown down , the waves were too big and the boat was moving too fast. He could not reach the edge of the net even with his hands stretched out. He fell into the sea with a plop like a small stone, and the waves he stirred up were insignificant.

Fortunately, before going out to sea, everyone was given a lot of octopus skewers with special effects. Ning San thought of this thing the moment he sank into the water. He immediately ate a mouthful of it mixed with sea water , and floated to the surface of the sea with a frown.

Then he regretted it .

Not to mention that the boat had sailed very far away , he couldn't catch up even if he floated on the water. The more serious problem was that a dense crowd of small sea monsters suddenly emerged on the originally empty and calm sea surface – they were crowded together, layer upon layer , and there were so many of them that Ning San almost thought this was a sea monster breeding farm!

The good news is that most of these sea monsters chased after the large ship that was leaving here. The bad news is that a small number of them discovered the two unlucky guys that were left behind by the large ship ...

Ning San: "..."

If he had known this earlier, he would not have eaten that mouthful of octopus meat. He would rather have drowned!!!

After the main forces of the three main cities left by boat, the people on the shore did not rest. Some returned to the main city to wait for orders and collect activity information there, while some remained at the beach waiting for support.

Xiaoxiao Yuxia, as the only reliable manager left among the three major gangs in Fanxing City, of course cannot leave the seaside. There are many things that need him to deal with. In addition to keeping in touch with Ji Xuanyi and others, he also has to keep an eye on the resurrection point.

Yes, the resurrection point.

There will be no resurrection point on the sea, and most likely there will be no resurrection point on the Lost Continent. Any player who dies at this stage should basically be teleported directly to the resurrection point on the shore.

Xiao Xiao Yu Xia was actually just going to the resurrection point for a routine visit. After all, this was only the first day out to sea, so the casualties wouldn't be that fast. And even if there were deaths, it wouldn't be from Starry City, after all, their ship was so big, and there were so many people ...

Just as Xiaoxiao Yuxia thought of this, she noticed a white light flashing at the resurrection point, and then two familiar-looking figures appeared.

Ning San and Xiao Xiaoyu looked at each other, and after a long while, they stammered and revealed their identities: "The deputy leader of the weak singles' gang in Fanxing City ..." Xiao Xiao Yuxia was dumbfounded for a moment, and couldn't help asking: "So fast ... No, how did you two die?"

Before Ning San could say anything, the unlucky guy next to him covered his face and said shamefully: "I was lying on the side of the boat watching the fish, and I accidentally fell off."

Xiaoxiao Rain: "..."

Ning San: "..."

Although this is indeed the cause, can't they put it in a more high-brow way?! They make it seem like they are comedians!

Not to mention the current situation on the shore, Ji Xuanyi and the others are not in a good situation either.

After the violent collision, dense swarms of sea monsters emerged from the water. Most of them attacked the ship in the water, while some even used their powerful bouncing force to jump directly onto the deck and launched an attack on everyone!

The visual effect was too terrifying. Fortunately, Ji Xuanyi and Qi Qin happened to be next to the sea monster. When the players were scared out of their wits, Qi Qin kicked the sea monster that was about to attack the surrounding players back into the water without saying a word. At the same time, everyone finally received the message sent by Jian Xi Xinjiu from the captain's room.

[Ship] : Captain: Attention everyone! We have entered a sea monster gathering area. We need to speed up and rush over, but the sea monsters are also attacking the ship. If this continues, the ship will not be able to hold on for long. Everyone, help kill the monsters!

Ji Xuanyi immediately realized that this should be the combat stage of this activity, and he finally understood what the mission he had been pulled into doing was for.

It was really fucking terrible that this attack came suddenly without any warning. Just preparing a formation for resistance was enough to overwhelm them. But fortunately, Ji Xuanyi and Qingfeng Bufu's preparations to fish had attracted a large group of players, and there were quite a few people on the deck, just enough to deal with this hasty battle.

Everyone was concentrating on fighting, but in fact they had no idea of the overall situation of the ship. Only Jian Xi Xin Jiu, who was sitting in the captain's room, had a clear view of everything.

Faced with the sudden battle stage, Jianxi Xinjiu was originally confused, and was even very worried that the boat would capsize and he, as the captain, would have to take the blame. However, when he saw the combat attributes of this ship, Jianxi Xinjiu calmed down.

At this time, I can't help but sigh, fortunately Ji Xuanyi has embraced August!

As one of August's works, this ship can be called perfect in terms of defense, speed, and attack attributes. Except for the severe shock caused by the first collision due to the suddenness and failure to open the defense, there was no severe shaking even when it was running over a sea monster.

Although the sea monster's attack is fierce, it cannot actually cause much damage to the ship in a short period of time. If the player's combat power is strong, not a single piece of wood will fall off the hull.

Jian Xi Xinjiu took a look at the situation and estimated that there shouldn't be any major problems getting through this stage.

Although there were some unexpected casualties at the beginning, the situation on the ship was actually in good order when the battle really began.

Although half of the people are independent soldiers, the remaining half are elite and are very experienced in combat.

There are still melee combat on the outside and ranged combat on the inside. The swordsman knights outside will directly hack to death the small sea monsters that jump onto the boat, or kick them under the boat. Archers and mages will cast skills at the sea from a distance . Some of them who are short and have poor vision will climb high to fight monsters. Assassins will walk between melee and ranged combat, eliminating the fish that escape from the melee defense line one by one.

Fighting is a very strenuous and troublesome task. At the beginning, everyone was rushing to throw the monsters that climbed onto the boat off the boat, until a sea monster that escaped was blown up by the assassin and dropped a lot of gold coins and blue, green and occasionally purple materials, as well as a little experience. Then everyone suddenly realized where the reward for this part of the task was!

Although there is no time to pick it up in the current situation, we all know that it has fallen and we must not let it go!

For a moment, no one kicked the monster under the boat. Everyone was frantically trying to kill the sea monster that had crawled onto the deck. Some people even tried desperately to pull the sea monster out of the sea – although they failed and almost pulled themselves under.

However, the most heartbreaking thing was the sea monsters that were killed by the ranged players . The gold coins and materials only flashed for a moment before sinking into the sea. Seeing this, the players were heartbroken and shouted: Can " you guys with ranged weapons please stop attacking the sea monsters! They are all worth money! "

However, these words are just words. Although August's ship attributes are good, he can't just let the monsters attack freely. The damage of the ranged ones is still necessary, but it's a little wasted ...

The Star City can be said to be handling the situation with ease. It was supposed to be a tense and exciting battle phase, but they turned it into a gold rush. In comparison, the situation in Youyue City and Yangri City was quite difficult.

The ships of these two main cities were very small and of course did not have the same earthquake-resistant properties as the large ships of Star City. The old western doctor sitting in the captain's room was almost thrown into the air, not to mention the players outside who were resisting the sea monsters. Only a few players were killed by the monsters, but many were thrown directly into the water.

Because their boats are not that high and the waves are not that big, those who are lucky can still step on the water and come out, but some who are unlucky are thrown far away , then there is nothing they can do and they have to sink to the bottom.

Unlike the death of two people in Star City where it was not a big deal, the death of even one person in Youyue City and Yangri City was heartbreaking, not to mention three or five people

falling down in such a sudden change. Although he escaped the captain's duties, Ye Linyu, who was killing monsters outside, couldn't help but blush.

Both Youyue City and Yueri City suffered heavy losses. Just when both sides were wondering if they would capsize, people from their respective main cities came out to help.

The fighting power of these people varies, some can only take turns using axes to chop monsters one by one, while others can cast magic to blow up a large area, but there is no doubt that their power can indeed help the two main cities overcome this difficulty.

But losses like these should be avoided as much as possible. Ye Linyu glanced at the large ship of the Star City leading the way ahead and couldn't help but frowned deeply.

This speed was more than enough for Star City, but it was too slow for their two main cities that were having difficulty supporting themselves.

Ye Linyu took a look at the situation on the deck, confirmed that he could help deal with it, and hurried to the captain's room.

The boat was still shaking violently. When Ye Linyu staggered to the door of the captain's room, the old western doctor was holding onto the leg of the table, fearing that he would fly out.

Ye Linyu took a look inside the room and asked, " Where is Yun Zhongjian? "

The old western doctor was hit on the head without noticing it. He bit his tongue and said with stars in his eyes: " Go out, go out and kill monsters ... Anyway, he is lucky, he won't fall in and drown – damn it! "

Ye Linyu grabbed the old western doctor who was about to fall out of the captain's room and said to him: " Did we slow down just now? Don't follow Star City anymore, go full speed ahead. If we keep dragging on like this, I don't know how many people will be killed. "

The old western doctor was stunned and said, " It did slow down a bit. After all, the ship from Star City suddenly slowed down. There was nothing we could do. But if we don't follow Star City, wouldn't it be more unsafe for us to go on our own? "

Ye Linyu shook his head and said, " We are just not following you in this section. We will slow down after we pass this section. They will be able to catch up with us. "

The old western doctor was still a little hesitant , and said, " Our ship has the bonus of a ghost ship. We shouldn't have any problems if we hold on for a while. The sea monsters drop gold coins and materials, which can be considered as mission rewards. Shouldn't we take a little more? "

He could also see the situation outside from the captain's room. Although the ship was shaking violently, it seemed that not many gold coins were lost. These were all activity rewards. He took half of them and ran away. Isn't it a bit of a loss?

Ye Linyu glanced at him and said speechlessly: " You are such a money-hungry person? Are heads more important or gold coins? If half of them are dead now, how will we go on? I have already notified the people in Fanxing City, hurry up and set sail! "

The old western doctor was shocked and muttered " You son of a bitch " . He climbed back to his seat with the help of Ye Linyu and gave the order " Stop following, go full speed ahead " . The moment the order was issued, the ghost ship's shaking became even greater. Ye Linyu crashed into the ceiling in a panic, not to mention the old Western doctor, who almost died on the spot!

However, the speed of the ghost ship also increased accordingly. It didn't take long for it to overtake the big ship of Star City and sail far ahead.

On the other hand, the Day City, which had also suffered heavy losses, immediately followed suit and caught up with the Youyue City's ship. However, the number of people on their ship was obviously over the limit. When faced with more violent turbulence, there were not many places for people to stabilize their bodies and stand firmly. While chasing the Youyue City, people were falling into the sea with splashes. They were like a punctured rice bag. No one knew how many people would be left after this section of the journey.

Compared to the other two main cities, Starry City has more ships loaded on board and provides greater help. With the addition of ships, the battle becomes a lot easier, especially for the healers. There is basically no pressure and they can even find time to use Holy Light Balls to finish off the sea monsters or something.

As a special healer with only a single healing skill, Ji Xuanyi only needs to heal Qi Qin, a swordsman who basically doesn't lose much blood. His workload can even be said to be light, so he takes time out from time to time to check on the situation in the other main cities on both sides.

At the beginning, when people were dropping off on both sides, Ji Xuanyi felt a little embarrassed. After all, they were the leading ship and they were somewhat responsible for not notifying in advance. But when he saw the ships from Youyue City and Yangri City passing by them one by one, Ji Xuanyi felt a little strange.

The speed of the ships of these two main cities could never be faster than the large ship built by August in Star City. In fact, when they were on the road before, Star City deliberately slowed down its speed to take care of the ships of the other two main cities.

Furthermore, the scoring mission that Ji Xuanyi participated in before specifically increased the ship speed. Even if the two main cities wanted to avoid losses, under normal circumstances, the other two main cities could only be slower than before. How could they directly surpass Fanxing City?

Ji Xuanyi frowned and asked, " Did you slow down specifically for the reward? "

After a while, Jianxixinjiu's reply came.

[剑洗新酒] : What? What do you mean? Slow down? I didn't slow down?

Jian Xi Xin Jiu, who was sitting in the captain's room, looked confused and even said a little aggrievedly: " Not only did I not slow down, I even accelerated after entering the battle area. Now I am moving at full speed! "

When Jian Xi Xin Jiu decided to speed up, he felt a little guilty. He felt like he had abandoned the other two main cities. Not to mention Yue Ri City, You Yue City was still their ally!

Ji Xuan's face wrinkled up in disbelief, " Full speed ahead? Are you kidding me? "

How could it be so slow when going at full speed!

But in fact, the data from the captain's room showed that they were indeed moving at full speed. Jian Xi Xinjiu didn't know why the ship's speed suddenly slowed down.

Seeing that Ji Xuanyi seemed a little anxious, Jian Xi Xin Jiu comforted him, " Don't worry, this speed is enough. August's ship attributes are super awesome, it's definitely enough for us to get out. "

Since Jianxi Xinjiu had made such a promise, Ji Xuanyi didn't think much about it. Although he was still concerned about their speed, he still focused on the battle.

Nearly half an hour later, the Starry City's ship finally sailed away from the sea monster gathering area. The gold coins and materials on the deck were almost above the players' ankles. The players fell into the piles of gold coins and materials, exhausted and excited. Some of the more cunning ones had already started packing things into their backpacks.

While the players were collecting their spoils, they all returned to their rooms after talking to the other players.

The sea became calm again.

Ji Xuanyi shook his sore hands and put his staff back into his backpack. Qi Qin came up and supported him. Ji Xuanyi didn't mind that his body was stained with sea water and had a fishy smell, and just leaned on him to rest.

When everyone was bending down to pick up the money, it was very obvious for the few people standing. When Ji Xuan looked up, he saw Xu Chu slipping in the pile of gold coins.

Coincidentally, Xu Chu also raised his head, and their eyes met for a while. Xu Chu immediately gave up slipping and ran towards them.

The tinkling sound of the gold coins colliding was very pleasant. Xu Chu jumped in front of them, stopped, and said excitedly: "It's so cool! This feeling of killing monsters and dropping gold coins! I used to think that holographic online games were very troublesome. This kind of experience is indeed something that keyboard online games can't give you! "

Ji Xuanyi also nodded, and then said: "But the gold coins rewarded by this activity are a bit too much. "

Xu Chu said, "Going out to sea has always been a way to make money, and it's no different in the game. And to be honest, the gold coins dropped are only as much as our ship, as the other two main cities' boats have been capsized quite a bit. "

When Xu Chu mentioned the other two main cities, Ji Xuanyi remembered the sudden slowdown of the ship. He couldn't help but worry about this problem, so he told Xu Chu the truth. Hearing this, Xu Chu also shook his head and said, "I don't know if you ask me about this. I'm not very familiar with things at sea ... But if you say the speed is slowing down, I can feel it. It seems that our speed is not very fast now? "

Although Youyue City and Youri City ran to the front together, in fact, if Fanxing City resumed its original fastest speed after leaving the battle area, it could still catch up quickly. Now they have drifted for a while, but there is no trace of Youyue City and Youri City.

Ji Xuanyi frowned and said, "The speed is still not increasing? Is there something wrong with the ship? "

Ji Xuanyi was thinking about whether to go to the captain's room to check the situation, but he noticed that Qi Qin next to him was looking at something curiously.

Ji Xuan patted his back expressionlessly and said, "What are you doing? "

Qi Qin came back to his senses, looked at Ji Xuanyi, scratched his head and said, "A lot of food has fallen on the boat. Didn't Ze Yu Sishui and the others say they wanted to eat seafood? I wonder if we can make a fire on the boat, or should we leave it to ..."

Qi Qin looked at Ji Xuanyi, his voice getting lower and lower, and finally he added weakly: " I don't like mushroom soup ... and bread either. "

Even if I can't drink porridge, I can still eat barbecue, right?

In fact, Qi Qinchan cannot be blamed. In fact, when sea monsters die, they don't just drop gold coins and materials. Some also leave their own bodies behind, or simply drop fish, shrimp and shells. Now in addition to gold coins, there are also a lot of seafood on the boat. Some players, in addition to collecting gold coins, also do not forget to put some ingredients into their backpacks.

Ji Xuanyi sighed helplessly. What else could he do? He had chosen his boyfriend, so he could only spoil him. He immediately said, " Pick up the ones you like. We'll go to the captain's room later to see if these things are edible ... They should be edible, otherwise they wouldn't have fallen off. "

Upon hearing this, Qi Qin immediately became happy and went to pick seafood with great haste. Only a small number of foodie players would put food ingredients into their bags. Most people went for the gold coins and valuable materials. No one would compete with Qi Qin for them. Qi Qin would just look around as if he was eating at a buffet, picking up some prawns or shells from time to time and putting them in his bag.

Xu Chu looked at him for a while and couldn't help but ask, " Isn't Tianxia quite rich? Why does he look like a country bumpkin? "

Ji Xuanyi still had a doting smile on his face, but he became unhappy when he heard this. He glanced at Xu Chu coldly and said, " I can beat you a hundred times, you want to try? "

Xu Chu: "... No, no, it will hurt your body. "

Qi Qin walked around and came back. He said to Ji Xuanyi with great regret: " There are not many left. I saw a lot before, but unfortunately they all fell into the sea. "

Xu Chu was amazed and said, " Brother, you are a man, but why do you only care about food? Not to mention seafood, how many gold coins and materials have been dropped? It hurts me to see them. "

Ji Xuanyi said: " For this kind of thing, if it's yours, it's yours. If it's not yours, it's not yours. It's destined to fall. What's the point of regretting it now? Just refresh it when it should be refreshed, and sink to the bottom when it should sink to the bottom. "

Xu Chu smacked his lips and said, " Master, your opinion is great. It is beyond the reach of mortals like us. I am just feeling bad for myself. "

This guy said he felt sorry for the coins, but he didn't even bend down to pick them up among all the gold coins on the ground. He was actually having a lot of fun playing.

Ji Xuan curled his lips and was about to take Qi Qin to the captain's room when he was suddenly poked in the back.

Ji Xuanyi: "..."

This is only in the game, he is a warlock. If this happened offline, anyone who dared to poke him like this would be lying on the ground now.

Ji Xuan turned around expressionlessly and saw Qingfeng Bufu looking at him excitedly.

Ji Xuanyi said: " Do you want to die? "

Qing Feng Bu Fu: "... I don't want to, I don't want to. "

Qing Feng looked at him timidly and said, " Did I disturb you? But I have something serious to tell you. "

Ji Xuanyi thought, you have disturbed us before, and you just realized it now? But what made Ji Xuanyi more concerned was that Qingfeng Bufu actually said that he had something important to do. This guy actually had something important to do?

Ji Xuanyi frowned and said, " What's the matter? "

Qing Feng Bu Fu said: " It's been delayed for so long, isn't it time to put away our net? "

Net? What net? Ji Xuanyi was stunned for a moment, then asked in confusion: " Wait, net?! "

Qing Feng Bu Fu said: " Yes, the net we cast has been dragging for nearly an hour. Isn't it time to collect it? "

Ji Xuanyi: "..."

Ji Xuanyi looked at Qingfeng Bufu with an indescribable expression, then strode towards the stern of the ship.

Ji Xuanyi lay down at the stern and looked down, and sure enough, it was true!

I saw seventeen or eighteen sea monsters and a pile of gold coins and materials hanging on the tiny part of the net exposed above the sea. You can imagine how much stuff is contained in the underwater net!

No wonder the damn boat can't go fast! With so many messy things in the net, it's so heavy, it's a wonder it can go fast!

Ji Xuan held his forehead and said, " Wait, I'll contact Jian Xi Xin Jiu. If I don't call more people, I'm afraid this thing won't be available. We also need to prepare to clear a wave of monsters. " Qing Feng Bu Fu responded happily. While typing in a private chat, Ji Xuanyi couldn't help but mutter, " This time I'm going to make a fortune ..."

The facts were indeed as Ji Xuanyi had expected.

No one knew what material August used to make the net. Besides being strong, it was also somewhat ductile. More things came out of the net than expected. Almost all the swordsmen and knights on the ship were mobilized to finally pull the package up. Then there was a hectic cleanup battle. In the end, the gold coins and supplies collected were even more than those collected on the ship before!

As the initiator of the trawling operation, Qingfeng Bufu also received a large sum of gold coins and supplies. He happily went to show off to Ze Yu Sishui and Ming Shao.

Ji Xuanyi didn't know the specific process, he only knew that after that day, Ze Yu Sishui and Ming Shao quit their jobs as first mate and helmsman, and let Introduction to Art and Sleepy Cat take over. After that, Ze Yu Sishui became Qingfeng Bufu's follower, doing whatever Qingfeng Bufu did, completely different from his previous hypocritical and pretentious look.

After counting the harvest, the Starry City ship finally resumed its normal speed and silently chased the other two ships on the calm sea, and also entered the post-war cleanup points activity stage.

Having already received the high rewards for the battle phase, small projects like post-battle cleanup have completely disheartened people. Apart from the elite troops of the three major gangs and some hardcore players who are still diligently mopping the floor, talking to people, and handing out thank-you gifts, most players have become exhausted, either resting or eating.

Ji Xuanyi did not participate in the post-war cleanup phase, but it was not because he was lazy. He had promised Qi Qin before that he would help him ask if seafood was edible. Taking advantage of the fact that the activity was not so intense, he took Qi Qin to the captain's room in a very nonchalant manner.

Although Jian Xi Xinjiu had never left the captain's room, he was frightened by the sudden battle and was not feeling well. When Ji Xuanyi and Qi Qin came over, he was slumped in a chair and vomiting.

When Ji Xuan saw his ugly appearance, he was speechless for a moment, then he called him and explained his purpose.

Jian Xi Xin Jiu was stunned for a moment and said, " Ah? How would I know about this? "

Ji Xuanyi said: " You are the captain, why don't you know? "

After hearing this, Jian Xi Xin Jiu almost cried out of grievance, and said: " I don't want to be a captain anymore, it's too tiring, I have to take care of everything, fighting and maintenance are fine, I can barely accept the rewards for catching fish, why do I have to know about the cafeteria's affairs? "

When Ji Xuan heard this, he felt a little aggrieved, so he comforted her: " Think about it, when it rains, isn't it the same for others? "

Jian Xi Xin Jiu thought about the rain and burst into tears. He said, " I'm still young and I don't want to be bald! "

Ji Xuanyi: "..."

Ji Xuanyi said speechlessly: " It's not the time when you guys were competing to be the largest gang in Star City. What would you have done if I wasn't there then? "

Jian Xi Xin Jiu wiped his tears and said: " I didn't volunteer in the first place. I didn't even volunteer to be the gang leader! "

Ji Xuanyi said calmly: " Whether you are the gang leader or the captain, you are already the leader, so you have to take responsibility. Tell me, can this thing be eaten? Can we make a fire on the boat? "

Compared to consoling him, force and coercion are more effective. Seeing that Ji Xuanyi was getting angry, Jian Xi Xin Jiu didn't dare to complain and said, " It should be okay, right? I remember when you were teaching me the captain's tutorial, you also said that I needed to collect supplies. You can just take them to the cafeteria. But I'm not sure if I can cook for you guys. Maybe I can borrow the stove? "

Ji Xuanyi: "... Okay, let's go. Let me know if there's anything else. "

Jian Xi Xin Jiu responded, then as if remembering something, he said, " Oh, by the way, there is something I wanted to ask you. "

Ji Xuanyi said: " What? "

Jian Xi Xin Jiu said, " I don't think I've seen August since I got on board. What is he doing in his room all the time? He didn't come out to help when we were fighting the sea monster before. "

August is a huge golden thigh. Not knowing the other party's movements, Jian Xi Xin Jiu always feels uneasy.

Ji Xuanyi said speechlessly: " August needs to come out to help fight the sea monster? Aren't you afraid that he will blow up the ship ... Besides, what is he doing? August is a fucking otaku

in Star City. I finally persuaded him to come out. Do you still expect him to come out and hang out every day facing the sea and the flowers blooming in spring? "

But to be honest, Ji Xuanyi hasn't seen August much since he got on board ...

Ji Xuanyi hesitated for a moment, but still said to Jian Xixinjiu: " Don't worry, I'll take some time to check it out later and tell you if there's anything. "

Jian Xi Xin Jiu finally felt relieved and watched Ji Xuanyi and Qi Qin leave.

Seeing that August's matter was put at the back of the list and dinner time was approaching, Ji Xuanyi and Qi Qin decided to go to the cafeteria first.

The canteen on the ship has fixed meal service times. The meals at this stage provide experience and are free. You can also go to the canteen to eat outside meal service times, but the meals require gold coins to purchase and do not provide experience, only some special effects.

Ji Xuanyi paid special attention to the fact that the gold coins used to purchase meals were still the ordinary gold coins that were used from the beginning, not the devil gold coins.

I don't know when this thing was used. Is it really just to buy a boat? Ji Xuanyi couldn't help thinking.

After entering the cafeteria, Ji Xuanyi saw the familiar cafeteria aunt at first sight.

Well, you just finished supervising maintenance at the Magic Workshop, and now you're back to serve meals. You're really busy!

Ji Xuanyi was quite speechless, but he still came forward and said, " Can I submit the ingredients here? "

Glancing at him, he said in a friendly tone, " The ingredients are in the cabin, not here, and now is not the time to submit them. Please submit them after the captain issues the task. "

Ji Xuan was stunned for a moment and thought to himself, this is actually a mission?

After thinking for a while, Ji Xuanyi changed the question and said, " Can you lend us a place to cook? "

Thinking of some of them having strange tempers, Ji Xuanyi quickly added: " Of course it's not that the food you cook is not delicious, it's just that we ..."

" Of course! " I didn't expect him to agree so readily.

The lady in the cafeteria smiled good-naturedly and said, " This is Lord August's ship. You are Lord August's friend. You just want to use the kitchen. You don't need to ask us. "

Ji Xuan was stunned for a moment, feeling that something was wrong, but he couldn't figure it out, so he nodded blankly and said, " Thank you. "

Chapter 169

Qi Qin ate most of the seafood he had collected. Ji Xuanyi silently crossed out the plan of taking Qi Qin to eat seafood offline.

Lack of money was part of the reason . He really felt that Qi Qin could eat himself into gout . For the sake of his health , he would just satisfy his craving for food in the game from now on.

However, this visit to the cafeteria made Ji Xuanyi inadvertently discover something . What was said to him made him notice that, except for the people brought by Star City , everyone else on

the ship was indeed very friendly to him – in fact, because of August, the people from Star City were not unfriendly to him. He had become accustomed to this atmosphere of being treated kindly , so he had not noticed this before.

" Isn't this normal? " Qi Qin subconsciously wanted to say that Xuanyi is so good that of course everyone will like you , but when he was about to say it, he realized what Ji Xuanyi said and quickly changed his words: " This ship belongs to August. August has a good relationship with Xuanyi, so of course everyone will respect Xuanyi. "

Qi Qin was right . The power and reputation of the Mage Tower were linked to August, and the situation of this ship should be similar.

Ji Xuanyi thought about it and still felt something was wrong , so he said, " August should be considered the leader of the Mage Tower . Although this ship belongs to August, what is the relationship between the people on the ship and August? "

Qi Qin was stunned, and said hesitantly : " Employment relationship? "

Ji Xuanyi blinked and said, " If it's just an employment relationship, isn't your attitude towards me, your employer, a bit too flattering? "

I wouldn't have felt anything if I hadn't said it , but now that I think about it, there's a big difference in how I treat him and how I treat others.

Qi Qin thought for a moment and said, " Could it be that they are August's servants? "

Ji Xuan was stunned for a moment. He had actually forgotten about this possibility. As the great magician of Starry City, it seemed normal for August to have several servants.

Ji Xuanyi wrinkled his nose in dismay and said, " Maybe. Never mind. There's no point in guessing. Didn't Jian Xi Xin Jiu ask us to go check on Auguste? Have you finished eating? Let's go. "

Upon hearing this, Qi Qin hurriedly patted the crab shells on her body and stood up. The person next to her rushed over to clean up the crabs. Qi Qin had no choice but to thank her politely, then followed Ji Xuan and left.

As the most distinguished person on the ship, August almost monopolizes the entire fourth deck. Because there is nothing on the fourth deck except August, all activities and daily life have nothing to do with this area. This also leads to the fact that no player would come here for nothing. It's no wonder that Jian Xi Xin Jiu, as the captain, doesn't even know the current situation of the golden thigh.

Ji Xuan felt a little embarrassed when he thought about it. It was he who tricked August into coming here. There was no daily task for him, and he didn't even think of going up to see him today.

After coming out of the cafeteria and going up to the deck, there were many players around who were diligently doing the post-war maintenance tasks. Since it was a points task, Ji Xuanyi had no shortage of experience and rewards, so he didn't get involved and took Qi Qin directly to the second floor.

When he reached the corner, Ji Xuanyi's footsteps suddenly paused.

Qi Qin said: " What's wrong? "

Ji Xuanyi didn't say anything, so Qi Qin could only guess: " Do you want to go to Xuchu to discuss something? "

Xu Chu's room was at the corner of the second deck. Qi Qin had bumped into the two of them during the first activity today, so he remembered them.

But Xu Chu might not be in the room at this moment, he might be hanging out somewhere else. As expected, Ji Xuanyi shook his head and did not mention Xu Chu. Instead, he said hesitantly , " I kind of want to go to the Magic Workshop to take a look. "

Qi Qin was stunned for a moment and said, " Magic Workshop? There are no tasks now ..."

Ji Xuanyi ignored Qi Qin and hesitated for a while. He looked up at the stairs to the third floor and said, " Let's put August's matter aside. Let's go to the magic workshop first. "

Although Qi Qin didn't understand, he nodded and followed Ji Xuanyi around a corner to the magic workshop.

The magic workshop was not far from the stairs and could be reached in five minutes. However, unlike the lively scene when the mission started, the door of the magic workshop was closed and there was a sign saying "No entry for outsiders" hung on it.

Qi Qin glanced at Ji Xuanyi and whispered, " Are we considered idlers? "

Ji Xuan glanced at him and said, " August's friends are not idle anywhere. "

After saying that, he knocked on the door symbolically. After waiting for a while and seeing no one answering, Ji Xuanyi simply opened the door and walked in.

Qi Qin still felt something was wrong, but since Ji Xuanyi had already gone in, he had no choice but to follow him with hesitation.

Thanks to the maintenance of the magic professions in the previous stage, the magic circles in the magic workshop are operating in an orderly manner, emitting a faint light, appearing very quiet and peaceful.

So it was obvious that Ji Xuanyi's previous knock on the door would not fail to attract the attention of the magic workshop guard. As soon as he and Qi Qin entered the door, they saw a menacing figure walking towards them.

However, as soon as he saw Ji Xuanyi's appearance clearly, the anger and impatience on his face immediately changed.

" It's you, " the man said with a smile, " the sorcerer who helped me a lot before, and also a friend of Lord August. What do you want to talk to me about? "

Ji Xuanyi didn't say anything, just looked at her with a sullen face.

After going back and forth so quickly twice, even Qi Qin realized that something was wrong. He stared at that person in amazement, and after a long while he said: " You, you are not ..."

The cafeteria lady?!

How come you were helping him clean up the crab shells just now, and now you're guarding the magic workshop? Don't you find it tiring to do two jobs at once?

Of course, Ji Xuanyi would not have the same idea as Qi Qin now. He felt that he might have misunderstood this.

Before Qi Qin finished speaking, Ji Xuanyi interrupted and said, " It's not her. The time is too short. It seems like two people. "

Qi Qin was stunned for a moment and said, " Two people? "

Ji Xuan nodded and said, " I want to ask, are you and the lady in the cafeteria sisters? "

He blinked and said innocently, " What are you talking about? I don't understand. "

Ji Xuanyi: "..."

here we go again.

Ji Xuan was mysteriously concerned about this setting, so he asked Qi Qin to go to the cabin cafeteria again to see if that person was still there.

After receiving the order, Qi Qin immediately ran as fast as he could and sent the message after a while.

[Qi Qin] : The ones in the cafeteria are still here, they are not the same person!

Ji Xuanyi looked at the person in front of him. On the one hand, he felt that he had wronged him by accusing him of doing all kinds of work, but on the other hand, he felt a little puzzled.

The twins in this game are so worthless. Why are they everywhere? There is a mayor and a blacksmith in the Novice Town, there are two on the ship now, and there is also a pair of twins in the Starry City – oh, no, the twins in the Starry City are real people, not set up in the game.

Ji Xuanyi was so embarrassed that his face turned black. It took him a long time to remember to ask Qi Qin to come back when he asked what to do next.

After figuring out why Ji Xuanyi felt something was strange, they still had to go upstairs to find August.

But even so, Ji Xuanyi couldn't help but complain, saying: " Are twins so common now? Why are they everywhere? "

Qi Qin actually didn't think it was common. Whether they were from Novice Town, Starry City, or the twins on this ship, he found them all quite novel.

But since Ji Xuanyi didn't seem very happy, Qi Qin followed his lead and said, " Maybe they are not twins. Xiao Xiao Yuxia told me when we were chatting before that many games use the same model and the same face just to be lazy ..."

Ji Xuanyi shook his head.

This situation will not happen in "Domain". Everyone looks different. Even if some of them have similar faces, the probability of similar faces is similar to that in real life. You can still see the differences when comparing them together. If two people look exactly the same, there must be some connection between them in the settings.

Ji Xuan curled his lips, put the matter behind him, and walked to the fourth floor with Qi Qin. There are four floors on the deck. Except for the fourth floor which is occupied by August alone, there are many people living on the third floor. Apart from some functional rooms, the rest are players' dormitories.

There are not many players living on the third floor yet. Because of the game play up to this point, many clues are hidden in inconspicuous places on the body, so when Ji Xuanyi walked up, he subconsciously took a look into the passage on the third floor.

Just this one glance shocked Ji Xuan again.

Qi Qin said: " What's wrong? "

Ji Xuan turned his head to look at him with a wooden face.

Qi Qin: " ? "

Qi Qin looked into the passage on the third floor with a confused look on his face, followed by Ji Xuanyi, who was also confused!

How come the person walking towards this side in the corridor on the third floor is the same person as the cafeteria lady and the magic workshop guard!

Ji Xuanyi murmured, " Could it be that the authorities really cut corners? Triplets? "

Qi Qin was silent for a moment, and said very sincerely: " The possibility of cutting corners is still quite high. After all, the probability of getting the August ship is so low. Maybe they think that no one will trigger this possibility! "

Ji Xuanyi: "..."

The two were silent for a while, and then the man walked up to them in a hurry.

Ji Xuanyi hesitated for a moment, but still stopped the man and asked, " Excuse me, what are you going to do? "

He stopped, glanced at Ji Xuanyi, and said with a smile: " Friend of Lord August, I was just about to go to the captain's room to inform the captain to issue a mission to the crew. "

Ji Xuan was stunned for a moment, then he realized that the score bar for the previous post-war maintenance phase had disappeared, and it seemed that he was about to enter another stage of the mission.

Ji Xuan asked unconsciously: " What mission? "

Without hiding anything from him, he said directly, " Resource collection. Our destination this time is the Lost Continent. We won't be at sea for too long. The resources we brought from the shore are not enough for us to consume. So even if the resources are sufficient now, it is necessary to collect them in advance. "

After that, he smiled and said a little embarrassedly: " To be honest, we may not have the opportunity to accompany you for too long. After all, resources are too scarce. When the time comes, we will have to ... Alas. "

This sigh made Ji Xuanyi's hair stand on end, and Qi Qin's eyes revealed the fear from the bottom of his heart.

What are resources? The resources on this ship, in addition to the consumption of magic materials, are food. Just think about it, the former is only related to the power of the ship, while the latter is the biggest consumption. What kind of nonsense is this! What does it mean that if there are no resources, there will be no way to accompany the players?

With this in mind, do they have to starve to death to save food for the players? Even scarier, do they have to eat when they run out of food in the later stages?

The key point is that the person in front of him acted as if it was no big deal and smiled amiably, which scared Ji Xuanyi so much that his face turned green!

What kind of horror disaster movie setting is this? The game company will definitely be sued!

This is not a game that can only be played by 18-year-olds, it should be 28-year-olds!

Ji Xuanyi was complaining like crazy in his mind, and it took him a long time to get rid of the goose bumps on his body.

He seemed to be completely unaware that he had said something that sounded like a horror story, and he was still smiling. Seeing that Ji Xuanyi's face seemed a little off, he comforted him, " Don't worry, if we can collect more resources, we can still serve you for a while longer. "

Ji Xuanyi: "..."

He looked at him and said, " Do you have anything else to say? If not, I will go to the captain's room. "

With this interruption, the plot of the horror story came out. How could Ji Xuanyi still have the energy to look for August? He quickly said: " We will go with you. When it comes to collecting resources, everyone has to contribute! "

How can I not contribute? Even if he doesn't care about life or death, Ji Xuanyi refuses to think of being treated as food!

Qi Qin also nodded like a chicken pecking at rice, with an expression that showed that anyone who didn't let him help looked down on him.

He didn't understand the two people's ideas at all, and showed a surprised expression. After a while, he smiled and said: " Okay, thank you all. "

Ji Xuanyi breathed a sigh of relief, put August aside for the time being, and took Qi Qin and went to the captain's room together.

The captain's room can only monitor the condition of the ship itself and the sailing route. The specific activity stage still needs to be reported to the captain before it can be triggered.

Therefore, Jian Xi Xinjiu is actually quite familiar with the matter of coming to him, after all, it has happened three times.

However, even though Jian Xi had just prepared some new wine, he never expected that Ji Xuanyi and Qi Qin would actually come running over with him.

Jian Xi Xin Jiu saw that Ji Xuanyi looked unhappy, and hesitantly said : " What happened? Why do you look like that? Is Augustus not in good condition? "

Ji Xuanyi shook his head and said, " I haven't looked for August yet. I'll tell you after I finish talking about this. "

Jian Xi Xin Jiu could only nod when he heard this, turned around and said, " What's the matter? "

smiled and said, " Captain, there shouldn't be any more troubles on the rest of the journey today. It's time to start recuperating and collecting supplies. "

Then, she repeated to Jian Xi Xin Jiu what she had said to Ji Xuan Yi before, and said, " For food collection, I recommend the trawl in the cabin. For fresh water collection, mages can go to the magic workshop to find a way. Energy collection requires some luck, but it is possible to get output in various situations. I won't go into too many examples. "

After she finished speaking, she confirmed it again very considerately: " Did you remember it? " Jian Xi Xinjiu was taking notes in a small notebook. When he heard this, he nodded subconsciously, then realized what was going on and shook his head quickly.

However, it was assumed that he had remembered it and was not willing to say it again.

Sword washing new wine: "..."

When Ji Xuan saw that his face was not right, he went to take a look and saw the following words written on the Jianixinjiu notebook:

If you collect food, fresh water will be collected, and luck will be gone.

Ji Xuanyi: "..."

You haven't even finished writing! It's fine if you haven't finished writing, but none of the words are important, so why bother remembering them! And you dare to nod!

Ji Xuanyi's expression was like that of a demon that had just crawled out of hell. It was so terrifying that he wished he could beat Jian Xi Xinjiu to death on the spot.

Jian Xi Xinjiu looked up at Ji Xuanyi, shivered with fear, and stammered to explain: " It's been too long since I last wrote ... "

Seeing the veins on Ji Xuanyi's forehead twitching, Jian Xi Xinjiu said quickly: " Although I haven't finished writing it, I have written it down. I really have written it down and will broadcast it immediately! "

After saying that, he turned around and asked, " Well, is there anything else? "

He smiled and said, " Just send all the collected resources to the cargo hold on the second-to-last floor of the cabin. "

Jian Xi Xinjiu nodded quickly, not daring to look at Ji Xuanyi on the side, and mumbled what he had said on the radio.

After Ji Xuan heard it, he realized that nothing serious had happened, so his expression relaxed. Jian Xi Xin Jiu breathed a sigh of relief and said, " Thank you. I have already sent out the task. " She smiled, said hello to him and left without saying anything.

Jian Xixinjiu prepared himself mentally before looking at Ji Xuanyi and asking him what was the matter.

Ji Xuanyi was still rushing to the deck to help, so he didn't waste time talking to him and told Jian Xixinjiu his guess.

Sword washing new wine: "..."

Jian Xi Xin Jiu looked at Ji Xuan Yi in horror and said, " Are you kidding me? Are you kidding me?! "

Ji Xuanyi said seriously: " I did say that. Although my imagination may be wrong, it is true that nothing good will come of not collecting resources properly! "

I never thought about eating the new wine after washing the sword! What kind of horror story is this! I was so scared that I quickly made up another broadcast, forcing everyone to participate in this activity that looked like a leisure stage.

Although they didn't understand why, since the captain said so, the players on the ship had no choice but to take action.

Seeing that his goal had been achieved, Ji Xuan did not linger any longer and said directly to Jian Xixinjiu: " I won't say any more to you. I have to go out and help too. "

Upon hearing this, Jian Xi Xin Jiu immediately said, " I'll go too! I just said that everything will be fine afterwards. This should be the last activity of the day, so it shouldn't matter if I leave for a while. "

Ji Xuanyi nodded when he heard this and said, " Okay, let's act together. "

The last stage of leisure activities today seemed to be a more leisurely activity than the previous stage. However, for some reason, it inexplicably turned into a stage that was even more tense and exciting than the battle stage.

There are two nets in the cabin. In addition to the one that caught the sea monster today, the other one was also dragged out. With the efforts of the swordsmen and knights, they took turns to fish, while the assassins used their agility to classify and pick the prey in the net. If they are

lucky, they can occasionally find sea monsters among ordinary seafood. After killing them, they will drop shiny crystals. I guess this is the so-called energy?

Players with magic professions were not idle either. Under the instruction of the magic workshop, they used magic circles to refine sea water into drinking water. They repeated the same movements one after another and almost became confused.

But even so, there are still some people who can't squeeze in and can't help because the area is so small.

Most of these people are archers. After thinking about it, they realized that they couldn't refine water or catch fish. If they wanted to collect resources, they could only aim at the seabirds above their heads ...

Most of the archers' skills have target calibration, so as long as they don't aim too crookedly, they can basically hit the target. However, creatures like seabirds cannot be considered normal attackable targets. In other words, if you want to catch birds, you can only rely entirely on the player's own archery skills.

In an instant, arrows and bird feathers flew everywhere, and many unlucky people were directly pierced by the arrows shot into the sky by the archers.

But we are all here to collect resources, so just bear with it!

However, surprisingly, the seabirds also carried those energy crystals, which seemed to be a way to earn points for the players.

This time, not only the archers, but even the knights who couldn't squeeze in started shooting birds with their spears!

But the knights' actions were soon protested. It was understandable that arrows fell from the sky and pierced people, but were you trying to murder me by dropping a gun weighing dozens of kilograms from the sky ?! There were not many people who died in the battle, so is it reasonable for them to be pierced by your flying guns now?!

Ji Xuanyi, as a warlock with " alchemy mastery " , was the one who contributed the most in the magic workshop. He was almost sick. Xu Chu even sat next to him and muttered while refining water, saying, " This game is so fucking stupid. Why are the towns of the five elements separated, but all the mages are lightning and fire?! If there was a water branch option, would we have to do such a stupid job here? "

Ji Xuanyi was too lazy to pay attention to him.

Xu Chu continued to nag: " Is Jian Xi Xin Jiu mentally ill? This is an activity that is obviously a casual game and will most likely last for four or five hours, but he forces everyone to participate? Is he crazy as a captain? "

Ji Xuan, one of the instigators, glanced at him and said something fair for Jian Xi Xin Jiu: " He has a mental problem. Why don't you be the captain? "

Xu Chu: "..."

Xu Chu laughed dryly and said, " Of course I am not qualified for such an important position as captain. I'd rather Jian Xi Xin Jiu take the job. I think he has a good brain. "

This person never feels any pain in his face when he speaks.

Although he said this, Xu Chu still couldn't help nagging and looked unhappy.

Ji Xuanyi thought about it and decided to tell him what happened today. Xu Chu was a smart man. Before Ji Xuanyi said anything, he immediately realized that something was wrong with the words.

"Can't accompany us anymore? What do you mean?" Xu Chu looked at Ji Xuanyi in disbelief.

Ji Xuanyi pursed his lips and said nothing.

Xu Chu frowned and said, "No wonder you guys take this kind of salted fish link so seriously. What you said is too strange. Could it be that they will become resources in the future?"

Ji Xuanyi said: "Who knows, but no matter what the consequences are, it is always right to collect as much as possible and prevent resources from becoming scarce."

Xu Chu nodded without saying anything, but his brows were still tightly furrowed.

Ji Xuanyi's heart moved, thinking that he had discovered something, and immediately asked: "What are you thinking about?"

Xu Chu slowly turned his head and looked at Ji Xuanyi's face. After a long while, he pondered, "If it is really edible, what would it taste like? Would it have any special effects?"

Ji Xuanyi: "..."

Ji Xuan was furious and slapped Xu Chu onto the table, cursing, "You are fucking sick!"

Xuchu, are you a troublemaker? You want to try everything! Why don't you just die?

Not to mention the many episodes that occurred during the supply collection activities, in the busyness and the passage of time, the Starry City, which had recovered its original speed, finally caught up with the Moon City and Sun City, which had left early during the battle.

Jian Xi Xinjiu was bending over and fishing. He looked up at the small boats on both sides. He didn't care about the fishy smell on his hands. He wiped them on his body casually, strode back to the captain's room, and slowed down the speed again.

Like Star City, Youyue City and Yueri City are also in the stage of collecting resources.

Seeing that it took so long for Fanxing City to catch up, Ye Linyu, who was just sitting there doing nothing, was just about to ask them if anything had happened, or if something had happened in the battle after they left, but when he looked up, he found that a large group of people had gathered on the deck of Fanxing City, working busily.

Ye Linyu: "..... ???"

What's going on? Isn't this a casual part? Why is Star City so nervous? Are there too many people and not enough food?

Ye Linyu stared blankly for a long time until Jian Xi Xin Jiu sent him a routine private message to report that he was safe, and then he came to his senses.

Ye Linyu put aside all the matters concerning the battle phase and asked curiously, "What's going on on your ship? Isn't it the slowdown phase now? Why are you so busy? It looks like all the staff are out there."

Jian Xi Xinjiu originally wanted to go back to help after reporting that he was safe, but he didn't expect Ye Linyu to suddenly ask a question, and he couldn't help but be stuck.

He knew that Ye Linyu was very cunning and even Xu Chu was no match for him, so he didn't dare to talk to him at all. But since he was an ally, he asked, and he couldn't pretend he didn't

see it, so he had to say, " This is a problem on our ship. The situation on your side should be different from ours. Don't worry about us. "

Ye Linyu immediately felt something was wrong, Jian Xi Xin Jiu was trying to hide something from him, so he asked again: " What's the difference? The phased activities of the three main cities, except for the combat phase that can be avoided before, are the same. They start and end together. What's the difference between us and you? Brother Jian Xi, is there something else you want to hide from me? "

What he meant was that they were already allies. How could you, Jian Xi Xin Jiu, have the nerve to keep the news to yourself?

Jian Xixinjiu took a lot of effort to fully understand Ye Linyu's words. His head hurt and he suddenly felt that talking to Ye Linyu was not his job. He didn't know how many brain cells he would waste if he wanted to explain what happened on the Fanxing City ship. What's more, even they themselves didn't fully understand it!

Jian Xi Xin Jiu thought for a long time before finally coming up with a (self-perceived) good idea. He immediately admitted his mistake and said, " I can't explain it clearly. If you want to know something, go ask Ji Xuanyi! "

Ji Xuanyi, who was refining water in the magic workshop: " A-choo! "

Xu Chu: " Wow, you have this problem too? I used to sneeze all the time too! "

Ji Xuanyi: "..."

As soon as he finished speaking, Ye Linyu smiled and said, " Okay, I understand. I don't need to bother Ji Xuanyi anymore. "

Jian Xi Xinjiu thought, no need to bother! I finally dealt with this guy, I'll see you later!
Just turn off the private chat.

Jian Xi Xinjiu thought he had dealt with Ye Linyu well, but he never expected that because of his two sentences, Ye Linyu had completely misunderstood him!

After finishing the secret chat with Jian Xixinjiu, Ye Linyu immediately went to the captain's room to find the old Western doctor and informed him that everyone should be forced to participate in the current stage of the task.

The old western doctor was completely confused and said, " Boss, are you sick? This is just a casual activity, and you force everyone to participate? What do you want? "

Ye Linyu smiled and said, " To be honest, I don't know what the benefits of this stage of activities are, but look, the Starry City next door is also working hard. "

The old western doctor couldn't help but reach out and touch Ye Linyu's forehead, saying: " You have a fever, right? You used to be such a follower. If Fanxing City goes crazy, do you go crazy too? "

Ye Linyu slapped the old western doctor's hand away and said in astonishment: " How come you haven't made any progress in such a long time? "

After saying that, he repeated the previous conversation with Jian Xixinjiu to the old Western doctor.

The old western doctor was confused and said, " What's wrong? Didn't they tell you that this is a special case of their Starry City? Do you still have to follow them? "

Ye Linyu smiled and said, " If Jian Xi Xin Jiu had simply explained it to me like this, there would be no problem and I would have believed him, but he only said two sentences and then pushed everything onto Ji Xuanyi and asked me to talk to him. "

Old Western Doctor: "... No, they don't want to talk to you, so they asked you to find Ji Xuanyi. What's the problem? "

Ye Linyu said slowly, " There are many problems, the biggest one is that Jian Xi Xin Jiu is wary of me. "

The old western doctor couldn't help but complain: " This is not a problem at all. Don't even mention the sword washing new wine. I'm also on guard against you! "

Ye Linyu said: " If you were wary of me, you wouldn't be sitting in the captain's chair now. "

The old western doctor said expressionlessly: " No, that only proves that my level is too low. "

Ye Linyu looked at him and said nothing.

The old western doctor quickly made a gesture of invitation and said, " Go ahead, go ahead. "

Ye Linyu then smiled and said, " Jian Xi Xin Jiu knows that I am a difficult person to deal with, and he should be very clear about his own strengths and weaknesses. Unless it is necessary, he will not lie to me or hide anything. That would be too tiring for him. It is better to tell the truth. Whenever he speaks unclearly, there must be something wrong. "

The old western doctor couldn't help but say: " You are too confident. What if the other person just can't explain it clearly? "

Ye Linyu said: " If you can't explain it clearly, you can explain it slowly. It's weird that you pushed it to someone else, and the weirdest thing is that you pushed it to Ji Xuanyi. "

The old western doctor asked curiously: " What's so strange about this? "

Ye Linyu glanced at him and said, " Logically speaking, the three major gangs in Fanxing City have close relations. This can be seen from the people they sent to negotiate with us before. Xu Chu is the top think tank among the three major gangs. If we only talk about the relationship, Xu Chu is definitely closer to Jianxi Xinjiu than Ji Xuanyi. Even if they are impatient to deal with me and push me to others, the first choice will definitely be Xu Chu, who is also the leader of the three major gangs, and not Ji Xuanyi, a lone man. "

The old western doctor thought about it and asked, " Then why did he ask you to go find Ji Xuanyi? "

Ye Linyu smiled and said, " Because he wanted to hide something from me. Everyone saw how Xu Chu fell into my hands during the negotiation. He knew that Xu Chu would not be my opponent and could not hide it from me, so he pushed me to Ji Xuanyi. "

The old western doctor seemed to understand it in a trance.

Ye Linyu smiled confidently and said, " I don't need to know what the benefits of doing this are. Since my competitors don't want me to do this, then it must be right to make a decision that goes against what they want! "

 " Everyone must join this activity, " Ye Linyu said seriously, " Don't be lazy, everyone go fish! "

Old Western Doctor: " ==Although I still feel that something is strange, but since you said so, then okay ... "

The author has something to say: Ye Linyu: Humph, don't even think about hiding it from me! Sword washing new wine: ... ???

Chapter 170

Under Ye Linyu's insistence, the old Western doctor had no choice but to issue an order for compulsory participation , and the ghost ship in Youyue City also began to get busy.

Originally, only Fanxing City had such a big reaction , and Youri City didn't feel anything . It was originally a narrow road for enemies, and they didn't care what Fanxing City was doing . Even if they really missed something, with Youyue City following them, they wouldn't be at the bottom. But now the bad thing is that Youyue City has also started to follow suit, and Sun City is also confused. What 's going on? It's a fucking slow start , why are the other two main cities so busy?

This time, even the friends who were at the bottom of the list were gone, and the Day City was also panicking. After hesitating for a while, the Day City also issued an order to force everyone to participate in the collection phase . The three ships in the three main cities were immediately busy.

Ji Xuanyi was still refining water in the magic workshop. He was a little dazed , so he got up and took a few steps to loosen up his muscles . As soon as he reached the window, he saw that not only their ship, but also the two main cities next door were frantically collecting supplies.

Ji Xuanyi: "..."

What are they doing? Labor is the most glorious? Ji Xuanyi was confused and thought, could it be that the two boats next door are facing the same situation as them? I haven't heard of it?

Ji Xuan couldn't figure it out, so he just gave up thinking about it and strolled back to continue refining water.

The resource collection phase lasted a long time before it ended. Everyone was exhausted. When Star City was counting the amount of supplies, the other two main cities also stopped. The players who were finally able to take a break and count their achievements were all very puzzled. No one knew why the three main cities suddenly started to participate in a slow-moving activity, and everyone was confused.

The old western doctor was also dragged out by Ye Linyu to help after the task was issued. He was almost exhausted and said to Ye Linyu with a groan: " This is obviously a leisure period, otherwise how could it last so long, you dog boss, you must have fallen into a trap, right? "

Ye Linyu frowned, glanced at the Starry City ship, and said, " No, Starry City has been busy for so long. Even if they want to deceive me, they wouldn't bring more than 600 of their people into it, right? That would be too much of a compliment to us. "

Old Western doctor: "... That seems to make sense. "

Ye Linyu said calmly: " There must be some setting that we haven't discovered. Everyone will be required to participate in the next resource collection phase. "

Old Western doctor: "..."

The old western doctor collapsed and said, " No, let's not fight over this little thing, okay? Brother, it's five or six hours. If it comes again, the players on our ship will have to swim back to the Elemental Continent! "

Ye Linyu said: " If you can't swim back, you will lose a level if you jump down. "

The old western doctor said woodenly: " I choose death. "

After the old Western doctor's strenuous struggle, Ye Linyu finally agreed to take a look at the situation in Fanxing City before deciding whether to force participation in the next event.

The old western doctor cursed: " What the hell is the difference between this and before? If Star City eats shit, are you going to eat shit too? "

Ye Linyuliang said in a hurry: " Why don't you go ask Ji Xuanyi if his shit tastes good? "

Old Western doctor: "... Humph! "

Not to mention Youyue City which thought it had discovered the secret, the Youri City was just like a follower, craning its neck to see the reactions of Fanxing City and Youyue City. They had made up their minds that they would follow whatever the two main cities did!

This is probably also related to the fact that Zhaochen was hit hard and didn't care much about the internal command situation in Yaori City.

But in the final analysis, no matter what the other two main cities look like, Ji Xuanyi and his team are still completing the task according to their own plan.

After the activity ended, the Magic Workshop said to everyone: " Thank you for your hard work. That's all for today. "

After saying this, the water refining devices in everyone's hands stopped moving, and they also received a lot of experience rewards.

When Ji Xuan saw the experience value he gained, his cheeks couldn't help but twitch.

In the event, the reward values for each stage are different. For the same points, more difficult tasks will give more experience and may even be accompanied by item rewards.

In this event, it is obvious that the stage with the richest rewards is the battle stage we experienced today. Correspondingly, the rewards for collecting supplies are the least. If we only calculate the ratio of points, it takes about ten points to collect supplies to catch up with one point in the battle stage.

The most terrifying situation occurred. The experience points that Ji Xuanyi had just calculated were almost catching up with the experience points calculated during the battle phase!

The situation should be the same for everyone else. Ji Xuan took a look and saw that everyone around him looked dazed, including Xu Chu.

Xu Chu muttered, " How fucking hardcore am I? I feel like I've used up all my hard work in this life ... No, I've definitely used up all my hard work in my next life. No, I'm going to cancel tomorrow— "

Ji Xuanyi slapped him on the head and said expressionlessly: " Let's talk about the next life. Wait until you have put all your hard work into making the quilt. "

Xu Chu cried and said, " Then I will die ..."

He didn't notice the complicated expressions of the players at all , and said, " Everyone can go to the cabin to check the current resource reserves. Thank you for your hard work. "

This is a way of telling people to leave as soon as you finish your work. However, the players really wanted to see how many resources they had accumulated, so they tried hard to cheer themselves up, but eventually they all left in dejection.

Even a maverick like Xu Chu was worn out and left in a daze following the crowd.

Ji Xuanyi was about to go with them, but then he thought, it's probably not just them now. Most of the strength and agility professions on the deck have also been told that they can go to the cabin to check the situation. The cabin must be very crowded at this time. Not to mention the large number of people, the strength and agility professions have been fishing on the deck for several hours! They are probably full of fishy smell, and the scene of them being squeezed together is simply too beautiful ...

Ji Xuanyi's face turned pale, and he avoided everyone and went back to his room to wait for Qi Qin.

Qi Qin took more than ten minutes to go find Ji Xuanyi, not because the way was far , but just as Ji Xuanyi thought, to get rid of the smell.

The net on the Star City ship is not small. It is said to be catching fish, but in fact it is no different from rolling in a pile of fish. The smell is really pungent even with the system weakening.

Qi Qin sat on the deck in the breeze for a long time, and since the various smells in the game were metabolized very quickly, he finally got rid of the smell on his body. However, even so, Ji Xuanyi still disliked him from beginning to end.

Two people were whispering sweet nothings in the room.

Ji Xuanyi asked: " Did you go to the cabin to check? "

Qi Qin thought to himself, this is not a whisper of love at all! But he still answered obediently: " I saw it. When it was over, I was delivering goods to the cabin. Fortunately, I was quick, otherwise I would have been squeezed in. "

This place is not like the square in Star City. The space is so small. If it were really blocked, Qi Qin would not be able to squeeze out no matter how high his strength attribute is.

Qi Qin said: " The warehouse is full, and it seems that there is still a lot of stuff leaking out. More than 600 people have spent several hours on it. They said that they have already exceeded the task, so they will give out some extra rewards. You can go to the postman to collect them later. "

Ji Xuan nodded and felt a little relieved.

The extra reward from the postman is nothing. If the current situation can be maintained for a few days, I guess we won't have to make any more sacrifices.

Ji Xuanyi was talking to Qi Qin about how it was almost eight o'clock and whether they should get ready to log off, when they heard the system notification sound and someone sent a private message.

As soon as Ji Xuan took a look at the name, the expression on his face disappeared.

Qi Qin said: " What's wrong? "

Ji Xuanyi gritted his teeth and said, " Jian Xi Xin Jiu sent me a private message again. "

Jian Xi Xin Jiu would usually talk to Ji Xuanyi and Ji Xuanyi would not behave like this. The main reason was that he was the captain now. Whenever someone contacted Ji Xuanyi, it must be because there was something to do.

Ji Xuanyi seldom refuses tasks, but it's almost eight o'clock, and everyone knows that Ji Xuanyi and Qi Qin are going to go offline. The action of washing the sword with new wine is tantamount to Ji Xuanyi lying on the bed with his eyes closed, and then suddenly a phone call comes in.

Ji Xuanyi said grimly: " If it's not something important, I'll kill Jian Xi Xin Jiu today. "

Qi Qin: "..."

Think twice, Xuanyi! Jianxi Xinjiu is dead, who will be the captain? !

But obviously Ji Xuanyi didn't consider this point, and Jian Xi Xinjiu was not so desperate. He dared to come to Ji Xuanyi at this time, so there must be something very important.

For example, August wants to talk to him.

Ji Xuan was stunned for a moment, then he remembered that they had said they would go look for August today, but they were interrupted all the time and have not taken any action until now. But August contacted them in advance. Is there anything wrong?

Ji Xuanyi asked: " What's going on? "

Jian Xi Xinjiu glanced at the people waiting beside him, and sent a message to Ji Xuanyi with a sad face.

[Sword Washing New Wine] : I don't know either. I'm waiting in the captain's room to take me up. I just thought of what happened when August was still in the seaside camp. If he has any requests, you go with me. At least he should give me some face ...

What Jian Xi Xinjiu said was true. Except for Ji Xuanyi, August had a bad temper when dealing with other people. Even if Jian Xi Xinjiu and August were on good terms, it would not be as efficient as Ji Xuanyi coming in person.

If it is related to August, it is not a small matter. Ji Xuanyi thought about it and said to Qi Qin: " If you are tired, please log off first. I will go to see what is going on. "

Qi Qin was indeed a little sleepy, but how could he leave Ji Xuanyi alone? He forced himself to cheer up and followed.

As soon as the two arrived at the captain's room, Jian Xi Xinjiu ran up as if he saw a savior, and almost hugged Ji Xuanyi's thigh.

Ji Xuanyi avoided him with disgust, stood behind Qi Qin, then looked up.

Although there was no quadruplets incident, the one in front of him looked familiar. Ji Xuanyi thought about it and decided to put this matter aside for now. He asked, " What's the matter? " Because the person asking the question was Ji Xuanyi, even though he was not the captain, he answered in a good-tempered manner: " It's about the settlement of the daily consumption of this ship. Lord August ordered me to ask the captain to settle the bill. "

Upon hearing this, Ji Xuan looked at Jian Xi Xin Jiu speechlessly and said, " That's it? "

Jian Xi Xin Jiu said timidly: " I don't know the exact method of settlement. What if I fail to settle it properly and get beaten? August, you know how fierce he is when he gets angry! "

Ji Xuanyi said: " Don't say it, I really don't know. "

Ji Xuanyi has been clinging to August's lap since the day he reported to Fanxing City. He has never seen how fierce the other party is.

Jian Xi Xin Jiu said jealously: " Damn you, European Emperor. "

Ji Xuan thought to himself, am I considered lucky? Don't you even look at Yunzhongjian?

But Qi Qin was getting more and more sleepy. They were in a hurry, so they didn't waste any more time. Ji Xuanyi said, "Can we go together?"

He smiled and said, "Of course."

Ji Xuanyi glanced at Jian Xixinjiu, who breathed a sigh of relief and then talked to her, asking her to take them to the fourth deck to find August.

There won't be any interruptions this time, right? Ji Xuan thought.

In fact, this was indeed the case. Today's activities had already ended. Not only the players, but even those who came from Star City to help seemed very lazy. Of course, there would be no other things to interfere. The three of them successfully reached the floor where August was. He politely led them to August's room, knocked on the door, opened it and led them in without waiting for August to speak.

August was still wearing the clothes that Mrs. Harman had prepared for him. His expression was very serious at first, but when he saw that Ji Xuanyi was among the people who came in, August unconsciously smiled and said, "Child, you are here too?"

Sword washing new wine: "..."

Alas, although this kind of scene is not the first time I have seen it, Ji Xuanyi's ability to cling to others is still something that makes people envious and jealous!

Ji Xuanyi also smiled, and walked straight over with Qi Qin and Jian Xixinjiu, and found a stool to sit down.

Ji Xuanyi said: "I am here with the captain to settle the expenses."

August nodded when he heard this, and then said with some concern: "Thank you for your hard work."

Sword washing new wine: "..."

Jian Xi Xinjiu almost vomited blood. What kind of difference in treatment is this? He is the captain and he works hard too!

Before August spoke, Ji Xuan took a look at the surrounding furnishings.

Unlike the rooms in the Mage Tower and the seaside camp, August's room on the ship was quite large – after all, he was the only one living on the entire fourth floor.

Because there was no place to put August's collection in the cabin, it had to be piled up in the room. There were all kinds of magic props and notebooks everywhere. Although there were many more things than in the small room in the wizard tower, it was organized in other ways and looked very clean and tidy.

It seems that August was a very respectful person when he was young. I don't know how he became such a dirty old man later.

Ji Xuanyi retracted his gaze and said, "What is the resource settlement?"

August took out a notebook and started writing on it with a feather pen. When he heard Ji Xuanyi's question, he replied, "This ship is not driven by human power, but by the power of the magic circle. You know this."

Ji Xuan nodded.

August said, "This is what resource settlement means. The energy on board is not enough for us to travel all the way to the Lost Continent, so we need to replenish it in real time. Sea

monsters and some seabirds in the sea will carry energy. Although everyone is working hard to collect this energy, it is still not enough. "

August frowned, looking somewhat distressed. " So we have to calculate the energy consumed and the energy obtained every day in order to accurately distribute the remaining energy, or we can set aside more time every day to collect energy ... This is what we have to do. "

Ji Xuanyi frowned and said, " So is today's harvest enough? "

August glanced at him and said slowly, " Although the resources we collected today have far exceeded the initial demand plan, I have to say that these energies are just enough to make up for today's consumption, and there is even a little shortage. "

Jian Xi Xin Jiu was stunned for a moment, then shouted: " How is it possible? We have been busy for five or six hours! "

Perhaps because Ji Xuanyi was there, and Jian Xi Xinjiu had a good relationship with him, August was not angry. He just shook his head and said, " There is no way. The output of resources is too low. After all, when sailing in battle, the attacks on the hull will also increase the consumption of energy ... In fact, you have done very well today. After all, we passed a sea monster gathering area. Now this achievement is already an extraordinary performance. "

Although the situation sounded grim, August didn't seem to be that anxious.

He slowly wrote down a series of numbers on a piece of paper, and then continued: " In addition to energy consumption, there is also food and fresh water consumption. This aspect is barely enough to support for a period of time. "

August scribbled on the paper while mumbling. After a long while, he handed a piece of paper to Jian Xi Xin Jiu and said, " Here, Captain, take a look at our resource reserves and decide how much time we will spend collecting resources tomorrow. "

Jian Xi Xinjiu took a look at the paper and suddenly felt dizzy. There were numbers all over it. He didn't study accounting, so how could he understand them?

Jian Xixinjiu said to Ji Xuan in bewilderment: " Why don't we call Xu Chu over? Didn't he say his family is a legitimate business? He will definitely understand! "

Ji Xuanyi said unhappily: " Still waiting for you to yell? Xu Chu has already logged off! "

Xu Chu was squeezed in the cabin and felt terrible. If he didn't want to float on the sea as soon as he opened his eyes, he would have logged off on the spot! After finally squeezing onto the deck, he immediately went back to his room and logged off. It seemed that he would not be online before 8 o'clock tomorrow night, and it was very likely that he would postpone it until the day after tomorrow.

Jian Xi Xin Jiu suddenly looked worried and said, " What should I do? I heard that your friend in Green Forest City, Ze Yu Si Shui's family seems to be in business as well? "

Ji Xuanyi was just about to wake him up when Qi Qin couldn't sit still anymore.

Qi Qin has been learning from Father Qi for a long time, and thinks he knows a little about accounting. How can he not show off at such an important moment!

Qi Qin immediately perked up, even the sleepiness was gone, and he raised his hand and said eagerly: " My family is also in business, I can do it, let me see! "

Ji Xuanyi and Jian Xixinjiu were both startled by his sudden shout. After all, Qi Qin looked drowsy just now.

After a long time, Jian Xi Xin Jiu finally reacted. He handed the paper over with doubt and said, "Can you do it, Tian Xia? "

Qi Qin took the paper, patted his chest and said, "Don't worry! "

After saying that, he took the paper and looked at it carefully.

Half an hour later.

Ji Xuanyi: "..."

Sword washing new wine: "..."

Qi Qin: "..."

The atmosphere was a little awkward, Jian Xi Xin Jiu asked tentatively: "Have you finished reading it? "

Qi Qin held it in for a long time, then said, "I feel a little sleepy ..."

Sword washing new wine: "..."

Jian Xixinjiu's gaze was so hurtful! Qi Qin handed the paper to Ji Xuanyi aggrievedly and said, "I will go home and study for a few more days ..."

Ji Xuanyi said speechlessly: "You should study hard."

Qi Qin: "Hmm."

Neither of them was helpful, so Ji Xuanyi had to do it alone.

The energy consumption figures of the ship are very terrifying. According to today's consumption and acquisition, the ship can only sail for five days at most. After five days, it will completely lose power. At that time, they can either all 600 people go out to row the boat together, or they can only give up this activity mission and return to the shore to start all over again.

Although the reality is very grim, generally speaking, this consumption is still normal in Ji Xuanyi's opinion. After all, the ship is so big, you can't expect its consumption to be at the same level as that of Sun City and Youyue City.

What Ji Xuanyi didn't understand was their food consumption. Even if there were 600 players on the ship, and everyone had three full meals, it wouldn't be consumed so quickly, right? It seemed that the food they collected tonight was just enough to make up for the shortfall, and with the unexpected gains during the battle, there was a little extra.

Ji Xuanyi frowned and told August about his doubts. August also felt very strange. He said, "There are more than 600 people on the ship? There are 200 helpers from Star City, including the glutton Hans ... Why did you call him up to help? "

Ji Xuanyi: "..."

Ji Xuanyi looked at Jian Xi and the new wine.

Jian Xi Xin Jiu quickly passed the buck and said, "Xiao Xiao Yu Xia was responsible for the invitation! "

Hans, the big eater, is very famous in Star City. His characteristic is that he can eat a lot. He seems to be always hungry and can eat from morning to night without stopping.

The most important thing is that it is very easy to increase his favorability. When there are no daily tasks to increase favorability, as long as you send him food, he will increase your favorability, and he does not care about the quality of the food. Many players initially practiced

their cooking skills while increasing his favorability. Players who have a close favorability with him can go around Starry City!

Probably because of this, when calculating the high favorability, Xiaoxiao Yuxia accidentally included him in ...

But now is not the time to cause trouble for Xiao Xiaoyu. He is already on the boat, and you can't throw him into the sea. But it cannot be denied that because of this, Fanxing City is now short of not only resources but also food!

Ji Xuanyi couldn't help but hold his forehead. He originally thought that he could take it easy after being busy for a few more days, but now it seems that they may have to be busy until they reach the Lost Continent!

Perhaps because Ji Xuanyi's face was so ugly, Jian Xixinjiu always felt inexplicably guilty and could only say weakly: " When we get back, I'll help you beat Xiao Xiaoyuxia! "

Ji Xuanyi didn't bother to pay attention to him. He looked at the paper again, raised his head and said to August: " How long will it take us to reach the Lost Continent? "

August said: " It will take at least half a month. "

Ji Xuanyi immediately frowned and said, " Half a month? We can't hold out that long. Today is already the best we've been able to do, and we still don't have enough resources. What will we do if we encounter a more intense battle in the future? "

August smiled and said, " Of course we can't just go to the Lost Continent like this. "

Ji Xuan was stunned for a moment and asked, " What do you mean? "

August looked confident. He said, " The road from the Elemental Continent to the Lost Continent is not entirely bare ocean. If we take a detour, we can pass by about three small islands where we can get supplies and rest temporarily. "

Ji Xuanyi's eyes lit up and he asked, " Where is the nearest island? "

August said: " At this speed, we will arrive in three days. "

The three people present breathed a sigh of relief when they heard this.

They can still hold on for three days. If they are lucky and the combat phase is not triggered one day, they might even have some energy left.

August said: " But energy is very scarce, and the supply on the island is also very limited. According to my calculations, if we are unlucky, we may still need to dismantle the puppets and use them as energy in the later stages ..."

Ji Xuanyi: "..."

Sword washing new wine: "..."

Qi Qin: "..."

After a long while, Ji Xuan asked, " What the hell? What did you say? Puppet? What puppet? "

August looked at Ji Xuanyi strangely, pointed at the person who had just gone to the captain's room to report to them and said, " This puppet. "

Ji Xuanyi and the other two were stunned.

Ji Xuanyi was so shocked that he couldn't help but point at it and said, " Is this a puppet?! Is this a fucking puppet? The one in the kitchen, the one in the magic workshop, and the one on the third floor— "

August said as a matter of course: " What are you talking about, silly boy? Except for you and the helpers from Star City, all the people on this ship are puppets made by me using energy. "

Ji Xuanyi: "..."

Ji Xuanyi had an indescribable expression on his face. No wonder there were things on the ship that seemed to be cutting corners. They turned out to be puppets?! In this case, what I said before can be explained. They meant to contribute to energy, not to become food for you to eat! So what on earth are they busy with today? !

Jian Xixinjiu's face also showed visible collapse. Both of them were in a very bad situation. Qi Qin, on the other hand, kept comforting them: " We were also short of resources. It's not a waste of time. "

That being said, after knowing the truth, the blow in my heart is still very heavy!

Jian Xi Xinjiu also looked at Ji Xuanyi with an accusing expression. He didn't expect that the other party would also make such a mistake.

Ji Xuanyi held his forehead for a long time before he recovered. The main reason was that he took the matter of twins too much for granted. Otherwise, he should have reacted when he saw the second puppet, not to mention the third puppet.

Ji Xuanyi sighed deeply and said, " There is nothing I can do. People make mistakes and horses stumble. I can't predict everything. I will learn from my mistakes. "

They have been busy enough, just like Qi Qin said, fortunately what they are busy with just fills the gap, so it is not completely useless.

August didn't seem to understand why the two of them reacted like that. He thought everyone was frightened by the puppets, so he explained very kindly, " Puppets are not something I would normally use. To be precise, they are the product of sorcerers' alchemy. But I have to say, they are really useful. I made this batch of puppets when I was building the ship. "

From the later conflicts between Mrs. Harman and August, we can see that the young August actually had prejudices against sorcerers. At that time, August would use the sorcerers' methods to make puppets, which shows that this thing is really useful.

In fact, they are very useful and can do everything. If August didn't say it, Ji Xuanyi would not be able to tell that they are puppets.

August said to Ji Xuan, " I originally wanted to hire a few servants, but they could never do things the way I wanted. Plus, the ship would be put aside after a while, and it would be too much trouble to hire new people to re-activate it. So I created these puppets. They only need a little energy to move. But if you want to save energy, stopping them in advance can also help. " Ji Xuanyi had been distracted since he knew that these were puppets. He barely heard a few words at this moment and said, " Stop them? "

August nodded, and then said, " But even if we go earlier, we have to wait until we reach the first supply island. There are some orcs on the island. Although their intelligence is not high, they can still be hired to do some work. "

" Orcs? " Jian Xi Xin Jiu was stunned. He didn't know what was going on in his mind. His eyes lit up and he said, " Is it the kind of orcs I was thinking of?! "

Furry ears and tail! A handsome boy! He is so civilized!!!

Ji Xuanyi: " Fuck! Your head is full of yellow crap! "

Ji Xuanyi almost couldn't help but pin Jian Xixinjiu to the ground and beat him in front of August, but he was almost caught by Qi Qin.

Jian Xi Xin Jiu said aggrievedly: " What are you doing? You already have a boyfriend, you have everything you want, of course you don't have any dirty crap in your mind, I'm a fucking single dog, can't I think about it? "

Ji Xuanyi: "..."

This time Qi Qin couldn't stop him. Ji Xuanyi pressed Jian Xi Xinjiu to the ground and beat him violently!

It would be fine if you don't mention your boyfriend. What's the point of having a boyfriend? Ji Xuanyi doesn't have everything he wants!

Thinking of this, Ji Xuanyi couldn't help but glare at Qi Qin.

Qi Qin covered his face in shame.

Jian Xi Xinjiu got beaten up for nothing because of his imagination, and he felt completely depressed.

Ji Xuanyi didn't have time to pay attention to him. August continued, " Those orcs were the same as humans. They were also the original inhabitants of the Lost Continent at first. But later, all humans migrated to the Elemental Continent, while most of the orcs stayed in the Lost Continent. Only a small number escaped. "

" I'm not sure what the situation is with the orcs on the Lost Continent right now, but the small number of orcs that escaped were unable to reach the Elemental Continent, and instead settled on the three supply islands I told you about. "

August seemed to have thought of something. He reached into his pocket and placed a gold coin on the table. He said, " The currency used to supply the orcs on the island is different from that on the Elemental Continent. It is a gold coin with a demon's head printed on it. If you want to hire them, you have to use this kind of gold coin. "

Ji Xuanyi was stunned when he heard this and said, " Devil's gold coins? "

August nodded, and reminded him considerately, fearing that he had forgotten, " Some time ago, these gold coins came from somewhere and were circulated to the Elemental Continent. You should have collected some, right? The orcs' requirements are not high, and you don't need too many gold coins to hire them. "

As soon as August finished speaking, Jian Xi Xin Jiu immediately stretched out his hand towards Ji Xuan Yi, but before he could touch Ji Xuan Yi, he timidly shrank back, looked at him eagerly, and said pitifully: " Boss, please give me some money! I want to hire a young man! "

Ji Xuanyi: "..."

Don't even think about it! I will protect your innocence!

Chapter 171

According to August, if they change the route before going offline today , they will be able to reach the supply island for resupply in about two and a half days . However, if they want to complete this voyage with sufficient resources , they will have to visit all three supply islands, which may extend the half-month voyage by another three to five days .

Changing the route is a big deal after all . They didn't know the situation on the ships of the other two main cities. Jianxi Xinjiu had to contact Ye Linyu and explain their decision to him. Ye Linyu expressed his understanding very kindly and was willing to change the route with them. As for the people in Youri City , Jian Xi Xinjiu and the others had no desire to talk to them. However, Youri City had at least provided them with map fragments with directions before, so they couldn't just leave them there. So Jian Xi Xinjiu asked Ye Linyu to pass on the message. According to August's suggestion , the current resources are enough for them to reach the first supply island, and the resource collection phase does not need to be extended, and can even be shortened appropriately.

In fact , even if August didn't say it, Ji Xuanyi would have planned this way , because he had suffered enough from the previous misunderstanding ...

Fortunately, the resource-related issues were resolved, and Ji Xuan had a rare good dream after he went offline. But he was only worry-free for one night. As soon as Ji Xuan came online the next day , he was entangled by Jian Xi Xin Jiu.

Ji Xuanyi: "..."

Sword washing new wine: " qaq ! "

Ji Xuan said expressionlessly, " Get lost. "

Jian Xi Xin Jiu said shamelessly: " Don't be like this, Xiao Ji, Xuan Xiao Yi, boss! I know you are the best person! "

Ji Xuanyi rubbed the goose bumps on his arms and said, " This is the first time in my fucking life that someone has said I'm a good person. "

Jian Xixinjiu had just shown a happy expression when Ji Xuanyi said, " This is disgusting. "

Sword washing new wine: "..."

Even though he was despised like this, Jian Xi Xinjiu still blocked Ji Xuanyi's door and refused to leave.

Just when Ji Xuanyi couldn't help but beat him, Qi Qin poked his head out and said, " What's wrong with Jian Xi Xin Jiu? Why are you blocking here? Don't you need to watch the captain's room? "

Jian Xi Xin Jiu said: " Now is the stage of cleaning the hull of Xianyu. Nothing will happen before the end of the stage. I came here ... Let's not talk about this. Please help me persuade Ji Xuanyi, Tianxia! "

Qi Qin looked at Ji Xuanyi in confusion.

Ji Xuanyi said coldly, " Take him away. "

Upon hearing this, Jian Xi Xin Jiu immediately looked at Qi Qin pitifully like an abandoned dog, meaning, can you bear it?

In this situation, Qi Qin certainly could n't bear it.

Ji Xuanyi's order was more important than anything else. Qi Qin picked up the sword and the new wine without hesitation and threw them aside. After kicking the other party away , Qi Qin followed Ji Xuanyi and left.

Jian Xi drank the new wine and burst into tears with a " wow " .

Qi Qin ignored him and approached Ji Xuanyi and asked, " What's going on with Jian Xi's new wine? "

Ji Xuanyi sneered: " What could possibly happen to him? He is just after the young man. Tsk, his head is full of pornographic garbage. "

Qi Qin didn't quite understand and asked, " What is that? "

Ji Xuanyi glanced at him impatiently and was about to let him go to x on his own , but he suddenly stopped after glancing at him.

Qi Qin felt uncomfortable under Ji Xuanyi's gaze and blushed as she asked, " What's wrong? "

Ji Xuan smiled, stared at him, touched his chin, and said with interest: " Humanity is indeed good. In your situation, if you can grow tiger ears ... well, it seems a bit too cute. Would it be better to be completely furry and beastly? "

Qi Qin felt a chill run down his spine from Ji Xuanyi's mumbling, and said in horror, " Xuanyi, what are you talking about! "

Ji Xuan smacked his lips and said, " Nothing. This kind of thing is really popular. It's normal for Jian Xi Xin Jiu to be so wretched. "

Qi Qin was very upset after hearing this, but he vaguely remembered something. Although his attention was not very focused last night, he seemed to have heard someone mention the word "renwai".

Qi Qin said: " Is Xuanyi talking about hiring orcs on the supply island? "

Ji Xuanyi raised his eyebrows in surprise and said, " You actually figured it out? That's right, Jian Xi Xin Jiu went over to block the door just for this matter. "

August said that Demon Gold Coins are needed to hire orcs on the supply island, and the collection of Demon Gold Coins actually started before the sea voyage activity started, and it lasted for quite a while. Generally speaking, in the entire server, there is definitely a lot of Demon Gold Coins distributed by the official through tasks.

As the first main city of the second server, there is certainly no shortage of demon gold coins within the Starry City. Although demon gold coins will not be collected from individual players, the demon gold coins obtained by players within the three major guilds are actually allocated in a unified manner.

Then, the problem came. Although Jian Xi Xinjiu was one of the leaders of the three major gangs, the devil gold coins of the three major gangs were actually allocated by the two deputy leaders Xiao Xiao Yuxia and Xu Chu. Jian Xi Xinjiu had no chance to intervene at all, or it could be said that he didn't want to intervene in this matter at that time. After all, it was so cool to be a hands-off boss!

And now it's too late to regret. Who the hell knew that the devil's gold coins could be used to hire beautiful young men!

Ji Xuanyi also said: " Forget about the universal gold coins of the Elemental Continent. Although Jian Xi Xin Jiu is not rich, he is not poor either. If we talk about the demon gold coins, Jian Xi Xin Jiu would be a real pauper. "

But Ji Xuanyi was different. Although as an individual player he did not participate in the distribution of demon gold coins of the three major gangs, and he had been slacking off when the task rewards were opened in the later period, he collected a lot of demon gold coins in the

dungeon activities. Even if he could not be compared with the behemoths like the three major gangs, as an individual, he was definitely a rich man.

No wonder Jian Xi Xinjiu cried and shouted for hugging his thigh.

Qi Qin scratched his head and said, " But why didn't Jian Xi Xin Jiu go to find Xu Chu? Xuan Yi just said that Xu Chu and Xiao Xiao Yu Xia were managing the demon coins within the three major gangs, right? If it's for gang expenses, Jian Xi Xin Jiu should contact Xu Chu, right? "

Ji Xuan glanced at him and said, " First of all, you have to understand how difficult Xu Chu is. "

Jian Xi Xin Jiu was not as stupid as Liu Tian. His action of looking for Ji Xuanyi seemed very puzzling, but in fact he knew everything in his mind!

Although Ji Xuanyi is a bit cruel and it is easy to get beaten if you go after him, it is not difficult to repay his favor if you really succeed. It is very likely that he will write off the favor in his mind if you just run an errand for him. But if the target is changed to Xu Chu, whether you succeed or not, Jian Xi Xin Jiu will definitely not feel any better.

" If you are troubled by Xu Chu, you might as well come here to get beaten. " Ji Xuanyi said.

Qi Qin: "..."

Qi Qin didn't actually communicate very much with Xu Chu, after all, the latter was always thinking about poaching people. But after Ji Xuanyi said that, it seemed to be true. Xu Chu was indeed a difficult guy to deal with.

But when you think about it this way, Jian Xi Xin Jiu seems quite pitiful?

Qi Qin couldn't help but ask: " Why didn't Xuanyi agree to Jian Xi's new wine? "

Ji Xuan said expressionlessly: " If I agree to Jian Xi Xin Jiu, what should I do to clear my name? "

Qi Qin: "..."

Qi Qin stopped talking.

The sword is washed with new wine, so just be content, it's not easy for them too!

Ji Xuanyi and Qi Qin ran to the cafeteria to have breakfast. Ji Xuanyi looked at the familiar face and couldn't help but feel deeply moved.

Although some misunderstandings arose because of his words, Ji Xuanyi was still reluctant to part with these puppets. In two or three days, these puppets would be replaced by orcs. He didn't know whether those orcs could do the job well. August said that they didn't seem to be very smart.

Ji Xuanyi was waiting in line for food while thinking, I don't know what the orcs mean by being unintelligent, are they stupid? How do they compare to Liu Tian?

Hiding in the room for the 108th time, I was testing whether I could summon a horse on the ship for six days: " A-choo! "

Six days: "..."

Liu Tian: " Fuck! It must be that idiot Xu Chu who is cursing at me behind my back again! "

Thanks to their hard work fishing yesterday, today's meal was finally replaced with seafood soup. There were all kinds of shells in the bowl, as well as sea fish, shrimps and crabs. It looked very rich.

When Ji Xuan saw how greedy Qi Qin was, he teased, " Do you want more porridge? "

Qi Qin quickly shook his head.

Ji Xuanyi just thought it was funny and took him to sit by the window.

The two of them were halfway through their meal when Ze Yu Si Shui and his group of three also entered the cafeteria. They spotted the two of them at a glance and quickly moved a table over to them, completely ignoring Ji Xuan's dark face.

Ji Xuanyi was shocked and said disdainfully: " What's wrong with you three? You just parted ways yesterday, and today you're as sweet as honey again. "

Upon hearing this, Ming Shao immediately sat further away and said that he and the other two had always gone their separate ways and had never been in such a close relationship.

Instead, Ze Yu Sishui shamelessly hugged Qing Feng Bu Fu and said, " We have always been so sweet and close, like one person! "

Qingfeng Bufu showed a proud expression.

Ji Xuanyi: "..."

He remembered that it was because Qingfeng Bufu had caught the sea monster yesterday and received a huge reward. Ze Yu Sishui was such a lackey!

Ji Xuanyi was so disgusted that he said, " Eat quickly and get out of here quickly after you finish eating. Don't you still have work to do? "

Ze Yu Sishui immediately said: " We? What kind of work? There is no work! "

Ji Xuanyi: "..... ??? "

Young Master Ming said ashamedly, " The work of the first mate and helmsman has been taken over by Mi Yin and Xue Piao Renjian. "

Ji Xuanyi: "... I'm really impressed by you guys. "

However, the first mate and the helmsman do have an easier job, because under normal circumstances their work is done by others, and Jianxi Xinjiu is responsible for any special events. They are only needed occasionally when Jianxi Xinjiu makes an oversight. It is reasonable to let Mi Yin and Xue Piao Renjian take these two positions.

But speaking of Mi Yin and Xue Piao Renjian, they seemed to have not seen these two people for a while, and they did not meet them during the mission phase.

Ji Xuanyi couldn't help but ask: " What did they do after they got on the boat? No one was seen. Xue Piao Renjian was just a spearman when he got on the boat. He couldn't possibly fight with Mi Yin again, right? "

Ze Yu Sishui nodded and said, " Yeah, they don't have much to do, and no one in the deputy gang is looking for trouble, so they don't seem to show up much. "

Qing Feng Bu Fu also said: " I guess they are both in a daze in the room. I haven't seen them on the deck much, but I did hear news about them yesterday. "

Ji Xuanyi asked: " What news? "

Qing Feng Bu Fu looked around, lowered his voice, and said, " The person who told me this asked me not to spread the news. He said that Xue Piao Renjian might feel a little uncomfortable in the next two days. "

Ji Xuanyi frowned and said, " Feeling uncomfortable? "

Qingfeng Bufu nodded and said, " That person said that Xue Piao Renjian is allergic to seafood in real life, and it's very serious. Although he doesn't talk much, he is actually very greedy. Didn't he catch a lot of seafood yesterday afternoon? Then Xue Piao Renjian ate a lot of seafood all at once. "

Ji Xuanyi: "..."

Qing Feng Bu Fu frowned and said, " He vomited all over the floor of his room. He was so sad, and then he was completely hurt. I heard that he was so autistic that he didn't go out all night. "

Ji Xuanyi: "..."

Ji Xuanyi couldn't help but glance at Qi Qin, then said to Qingfeng: " Are you sure you meant "Xue Piao Renjian" and not "Ze Yu Si Shui"? "

Before Qingfeng Bufu could say anything, Ze Yu Sishui had already angrily picked up the seafood soup in front of him and took a big sip, to show that he had no intention of getting hurt. Qing Feng Bu Fu said mysteriously: " Xue Piao Renjian seems to feel ashamed of this matter. That person told you not to spread it! "

Ji Xuanyi: "... What about that person? Did Mi Yin tell you about that person? "

Qing Feng Bu Fu said awkwardly: " Did you hear it? "

Ji Xuan said expressionlessly: " I'm not Liu Tian, why can't I hear it? And you've already said this, what about not spreading it? Who else did you tell besides me? "

Qing Feng Bu Fu said quickly: " Except you and the world, I didn't tell anyone else! "

Ji Xuanyi was about to speak when Qi Qin suddenly opened his mouth and said hesitantly : " There is one thing I may need to tell you, but I don't know if I should tell you ..."

Qing Feng Bu Fu immediately said: " It's okay, you can share any news with me, I won't say anything nonsense! "

Qi Qin said slowly, " Just now when you were telling Xuanyi the secret, Xue Piaorenjian and Miyin had already sat down in the seats behind you. "

Qing Feng Bu Fu: "... Forget it, Tian Xia, how could this happen a second time! "

Qi Qin looked at him sincerely.

Qingfengbufu: "..."

Qingfeng Bufu turned his head tremblingly, and saw Xue Piao Renjian looking at him expressionlessly, and Mi Yin also looked embarrassed.

Qingfengbufu: " qaq ! I'm sorry, I was wrong! "

who snorted softly and turned away.

Xue Piao Renjian is a guy who is very frugal with words and will never speak unless it is necessary. But at this moment he actually snorted . He must have been really upset. Mi Yin hurriedly chased after him, and Ze Yu Sishui and the other two also followed him with great difficulty.

When Ji Xuan saw that the people around him had finally quieted down, he couldn't help but breathe a sigh of relief and said, "Finally, it's just the two of us. It was so noisy."

Qi Qin couldn't help but say: "It's unlucky that Qingfeng is not a good person."

Ji Xuan said: "It's still because his level is not high enough. If Xu Chu was here, he would not even blink if he was caught."

However, this was also a good opportunity for Xue Piao Renjian and Ze Yu Sishui to get closer. As a former player from Yuri City, although he had many fans in Fanxing City, he was actually very lonely. Apart from Mi Yin, there was almost no one he could talk to. Not to mention Ji Xuanyi, even Xu Chu didn't communicate with him much. He stuck to Mi Yin every day, and even the latter was a little out of touch with the group.

The situation after getting on the boat this time is very easy to see. These two people basically don't communicate with others. They would rather sit face to face in the room and be in a daze than find someone else to play Landlord. If nothing happens, Ji Xuanyi will not even think of them. If this continues, even if they are not autistic, they will become real gays.

Ze, Yu and Sishui are completely opposite. They have good relationships with everyone. Ji Xuanyi has even heard Ming Shao complain that there is not enough space in the friend list. If Xue Piao Renjian can really get along well with these three people, he basically won't have to worry about his relationships with others. He might even become a chatterbox.

But thinking about it, this scene seems quite scary ...

Ji Xuanyi propped up his chin and said, "Speaking of the people from Day City, I wonder how Yugui is doing."

Yugui did not board the ship this time because there were too many elite troops and Xiaoxiao Yuxia also needed help. Ji Xuanyi didn't even say anything, but she volunteered to stay.

Ji Xuanyi originally felt that he owed Yugui a little, but Yugui thought that she had not yet repaid her gratitude. According to her, the influence of the scumbag was too great. If it weren't for Ji Xuanyi, she might not have been able to get over it until now, so no matter how much she helped Ji Xuanyi, she was willing to do so.

However, as a girl, this situation was a bit too much for Yu Gui. Some people in the three major gangs privately spread rumors that Yu Gui liked Ji Xuanyi. Before Ji Xuanyi said anything, Yu Gui had already taken the initiative to distance herself from Ji Xuanyi.

Of course she could see that Qi Qin didn't really like her, but she really only had feelings of gratitude towards Ji Xuanyi, or perhaps mixed with some admiration for his idol. In short, there was no love between men and women. Before Qi Qin and Ji Xuanyi had misunderstandings because of her, she had already consciously gone to work for the three major gangs.

Anyway, Ji Xuanyi has a close relationship with the three major gangs now. It doesn't matter which side she helps, she is helping Ji Xuanyi.

But even so, when Ji Xuanyi suddenly mentioned Yu Gui, Qi Qin subconsciously became alert. Ji Xuan glanced at him and laughed, "I guess he should be doing well. Xiao Xiao Yu Xia is quite good at taking care of girls."

Only then did Qi Qin slowly relax as if his hair was stroked.

The whole day was very leisurely. They did not encounter any combat phases, and no other situations occurred. Everything was fine in Day City, and everyone had a peaceful day.

In the evening, when Ji Xuanyi and Jian Xi Xinjiu went to Auguste to settle resources as usual, he talked about the activity stage, mainly the battle stage. He thought that the daily stage was fixed in opening and ending, but it turned out not to be the case?

August, as always, expressed doubts about Ji Xuanyi's question from a different perspective. He said, " Although the sea is indeed full of dangers, battles don't happen every day. How could anyone be so unlucky? It all depends on luck, and the route chosen by the captain. "

Ji Xuanyi showed an expression of realization.

It turned out to be a semi-random event.

If I had known earlier, I should have asked Youyue City to arrange Yun Zhongjian to be the captain. In this way, if there was an emergency and we couldn't fight, Yun Zhongjian would lead the way ...

During the settlement period, Jian Xi Xin Jiu tried to beg Ji Xuanyi for devil gold coins for the ten thousandth time but failed.

On the third day of sailing, the players almost no longer felt the novelty of going out to sea, and everyone was doing the activity tasks like dead fish.

On the contrary, Xu Chu seemed to be doing well because he had missed a day, and was wandering around everywhere in high spirits.

" There's nothing we can do about it, " Mi Yin said as she struggled to peel open the crab shell as big as a basin, " Most things in the world are like this. It's easy to make people feel tired and bored, but there's nothing we can do about it. We just have to persevere. Think about it, we're heading to the New World this time, so aren't we a little more energetic now? "

Mi Yin pulled off the crab legs and handed them to Xue Piao Renjian next to him. Xue Piao Renjian turned his head away, indicating that he didn't want it. Seeing this, Qing Feng Bu Fu flatteringly handed a bowl of mushroom soup left over from the first day's packing to Xue Piao Renjian. Xue Piao Renjian hesitated for a moment, glanced at Mi Yin, and found that he continued to take apart the crab legs and had no intention of paying any attention to him. Then he took the mushroom soup from Qing Feng Bu Fu and whispered, " Thank you. "

Qing Feng was flattered and said, " No thanks, no thanks! "

Mi Yin, who was rejected by Xue Piao Renjian, took off all the crab legs and handed them to Ji Xuanyi, who was lying on the table listlessly. Ji Xuanyi made a disdainful " tsk " sound and said, " Go away, I don't want it! "

Hearing this, Mi Yin had no choice but to ignore Qi Qin who was eager to try, and tentatively handed the crab leg to Xu Chu. Xu Chu accepted it with a smile, threw it to Liu Tian who was sitting next to him, and said, " Here you go. "

Liu Tian looked at Xu Chu suspiciously, and seeing that he looked sincere, he lowered his head and started peeling the shells.

The main reason why this group of people gathered together was because the food was too salty.

Nothing happened yesterday. Apart from the various points-earning tasks for hull maintenance, there were only some daily errands provided, which was very boring. Today is already halfway through, and it is already afternoon, and still nothing has happened. It looks like it will pass without any incidents just like yesterday.

Everyone was so bored that it was finally Jian Xi Xin Jiu who suggested that they just go to the cafeteria to have a meal together. Just shelling the seafood could kill the whole afternoon. So everyone gathered here, except Jian Xi Xin Jiu – he was kicked back to continue staring at the captain's room.

" It's so tragic. " Even Xu Chu couldn't help but say so.

Liu Tian has a little obsessive-compulsive disorder. He has to peel out the whole crab leg before he is willing to eat it. As a result, as soon as he finished peeling it, Xu Chu took the crab leg in front of him and ate it. The two of them almost fought on the spot.

Ji Xuanyi lay on the table listlessly and said, " The dinner party is also boring. It's too boring. I want to log off. "

Mi Yin advised: " Don't be like this, what if something happens after you go offline? "

Ji Xuanyi hesitated and said, " There shouldn't be any problems, right? Even if there was a battle on the first day, it would be time to collect supplies after three o'clock. Although the time is shortened in the past two days, it should start soon, right? "

After all, if we don't start now, it will be dark.

Xu Chu pushed Liu Tian away and said, " You want to log off? I'll go with you. I also want to take a nap. Call me if you need anything later. I'll definitely come. "

Everyone at the table booed.

Xu Chu shrugged timidly without explaining.

Ji Xuanyi nodded and said, " All is fine. "

The two men stood up from their seats. Seeing this, Qi Qin also quickly stood up. The three of them said hello to everyone else and walked straight out of the cafeteria.

Ji Xuanyi said, " We will be able to reach the supply island tomorrow afternoon. Have you discussed hiring orcs with Jian Xixinjiu? "

Xu Chu said hesitantly , " After receiving the strategy, Xiao Xiao Yu Xia and I both thought that the Demon Coins might be used in the second stage, which is the stage of sending three great magicians to each other. After all, it was mentioned that materials had to be prepared. We thought that the Demon Coins were to be used to purchase special materials, so when I boarded the ship, I only took one-third of the total gold coins of the three major guilds, and the rest was left in Xiao Xiao Yu Xia's hands. "

Xu Chu spread his hands and said, " I roughly know how much you collected during the dungeon activity. To be honest, I probably don't have much more demon gold coins than you do now. "

Ji Xuanyi raised his eyebrows and said, " Are you kidding me? "

Xu Chu said, " Why am I teasing you? Seriously, although there are many people in the three major gangs, it is absolutely unrealistic to take all the quest items from everyone. Gold coins are different from fragments. Fragments are counted, but these things are not. People only hand over a few of them. What can you do? "

Seeing that Ji Xuanyi was silent, Xu Chu continued, " Besides, before the event, the gold coins given by the tasks were really few. Didn't it say in the announcement, a tiny amount – a tiny amount, do you understand? They even had the nerve to write these two words, how much do you think it would be? "

Ji Xuanyi raised his eyebrows and said, " What do you mean by telling me this? "

Xu Chu smiled cunningly, rubbed his hands at Ji Xuanyi, and said, " I mean, can Xuan Xiaoyi support me? "

Ji Xuanyi said unhappily, " Didn't August say that the cost of hiring orcs is not high? "

Xu Chu said: " That's not right. You don't know how many replacements we have on board.

Besides, the orcs can be used as combat power. Of course, the more the better! "

Ji Xuan said expressionlessly: " Since you can't say for sure, let's talk about it later. Go away, go away, you should go upstairs. "

The two of them unknowingly walked to the stairs of the first deck. Ji Xuanyi had already arrived, but Xu Chu still had to climb one more level.

Xu Chu frowned and said, " I already said I want to live on the first floor, but you forced me to draw lots. It's so annoying. "

Ji Xuanyi said: " The world. "

Qi Qin: " Yes! "

Xu Chu didn't wait for Ji Xuanyi to continue speaking and hurriedly climbed upstairs.

Ji Xuanyi snorted and said , " You've been thinking about taking advantage of me all day.

You're so happy. "

Speaking of contribution, didn't you see the boat under your feet? That was also earned by Ji Xuanyi. How dare you ask him for gold coins? Even Xiao Xiao Yuxia couldn't open his mouth to ask for it!

Ji Xuanyi took Qi Qin back to the room.

Qi Qin said: " Let's go offline and watch the movie we didn't finish yesterday? That martial arts movie! "

Ji Xuanyi was speechless and said, " You still enjoy watching movies from the 1980s. "

And logically speaking, this shouldn't happen. Qi Qin can fight by himself, and he watched others fight so vigorously ...

Qi Qin looked at Ji Xuanyi pitifully, and Ji Xuanyi had no choice but to compromise and said, " Okay, okay, let's take a look. Sigh. "

The two of them had decided what TV show they wanted to watch offline and were about to leave the game when the boat suddenly shook violently.

This attack was not only sudden, but also of great magnitude, even more violent than the first time they broke into the sea monster's habitat. If Qi Qin hadn't caught it, Ji Xuanyi almost fell to the ground. At the same time, screams of players were heard outside, and it seemed that many people were startled.

Ji Xuanyi lay on top of Qi Qin, raised his head, frowned and asked: " What happened? "

Just as Ji Xuanyi finished speaking, a message from Jian Xi Xin Jiu appeared in the newly added channel in the chat bar.

[Captain] : Holy shit! Everybody, come out and meet the enemy ! Something big has happened!!!

Ji Xuanyi's expression froze. He got up, grabbed Qi Qin and ran out.

Although Jian Xi Xin Jiu is unreliable, he can still explain the most basic situation clearly whenever something happens. This time, he only had time to call the police and even forgot to

tell the specific situation. He must have been scared to death. In addition, it was obvious that the boat had hit something just now, so it is easy to imagine the current situation.

When Ji Xuanyi and Qi Qin went out, other players who stayed in the room ran out in twos and threes, and a person rolled down from the staircase leading to the second floor!

Ji Xuanyi: "..."

Qi Qin quickly grabbed the man who had rolled to his feet and took a closer look. It turned out to be Xu Chu whom he had just said goodbye to.

Xu Chu said dazedly, " People make mistakes, horses stumble ..."

Ji Xuan said expressionlessly: " Hello, Ma, if you weren't in the game, your neck would be broken right now, and I would have to say goodbye to you forever. "

Xu Chu finally came to his senses at this time and said aggrievedly: " It's not my own will. I was halfway up the stairs when I suddenly swayed. If it were you, would you be able to stand steadily ? "

Hearing this, Qi Qin couldn't help but glance at Ji Xuan.

Ji Xuanyi was of course unable to stand steadily , so he said decisively: " Stop talking nonsense, and get going! "

Xu Chu was confused and said, " Leave? Leave for what? What's going on? "

He rolled down without even seeing the call coming from the channel.

Ji Xuanyi said as he ran: " Emergency! "

In fact, Xu Chu didn't need to ask more questions. As soon as he walked out, they saw the situation clearly. Ji Xuanyi also understood why Jian Xixinjiu was so panicked just now.

It was still a sea monster, but not an ordinary one. Compared to the small sea monsters they encountered on the first day and the sea monsters they had encountered on the shore, the one in front of them was much larger!

Ji Xuan glanced and saw Mi Yin and others also running out of the cabin. Qingfeng Bufu, who was at the back, was wearing a crab shell on his head like a helmet, and he looked very timid and wretched.

When Ze Yu Sishui looked up and saw the huge monster in front of him, he couldn't help but scream and cursed: " Fuck! Why is it still a tentacle monster! "

Ji Xuanyi: "..."

That's all you fucking feel!

However, Ze Yu Sishui was right. The sea monster blocking their way was indeed the same one as the one on the coast, but it was much larger. When Ji Xuan saw the other party's tentacles reaching out to the deck, he estimated that the size of this sea monster was half the size of the boat under his feet! No wonder the previous bumps were so severe!

Before everyone could react, the octopus in the sea stretched out another tentacle and slammed heavily on the deck!

Even though the defense mode had been activated, the ship began to shake again. Some players standing in the front were unable to dodge and were swept into the sea amid the screams of the crowd. They probably would never have a chance to climb back up.

" How the hell do we fight this? " Ji Xuanyi heard the players around him muttering.

It's no wonder they would have such emotions. After all, the size of this sea monster is too huge. Its tentacles are as tall as two players when spread out. There's no guarantee that their attacks will be able to pierce its skin!

Just when everyone was at a loss, the sea monster had already placed its third tentacle on the deck, and there was another shaking!

Finally, someone discovered something and screamed: " Fuck! Is this boss trying to climb up?! "

Another person shouted: " Stupid! There's no point in it climbing up! It wants to press down directly and sink our boat! Fuck! "

It was already afternoon, and the sun was setting. The blinding red sunlight shone on the deck and the huge monster that was slowly crawling up the deck, making the scene look almost like the end of the world.

" Damn it! What kind of horror disaster movie plot is this? What should I do now? "

Chapter 172

The movement of the ship was so loud that the players who had been staying in the room ran out . However, like other players , they were helpless against such a huge monster!

Jian Xi Xinjiu was stunned after he hurriedly ran down from the captain's room . Although he had seen the situation in the captain's room , it was still too terrifying when he actually faced it! Ji Xuanyi immediately gave the order: " Don't just stand there! Organize the defense line for close combat, and gather for long-range combat . Fight first, whether we can kill him or not. Wash the sword with new wine! Contact Sun City and Youyue City and ask for help. If we can't kill this boss , all three of our ships will be fucking overturned! Speed! "

After Ji Xuanyi's shout , the people around him woke up as if from a dream. Jian Xi Xinjiu hurriedly sent messages to the other two main cities, and Xu Chu immediately helped Ji Xuanyi to start commanding the players on the boat.

The sea monster was climbing up the boat quite fast, and they didn't have much time left! If it continued like this , the boat would really capsize!

Qi Qin, as a melee fighter, had already rushed to the front. Ji Xuanyi stayed behind and huddled together with the ranged fighters . After a while , Jian Xi Xinjiu sent him a private message.

[Sword Washing New Wine] : No!

Ji Xuanyi frowned and said, " What's wrong?! "

[Sword Washing New Wine] : Youyue City and Yueri City can't help us! They also encountered sea monsters!

Ji Xuanyi was stunned for a moment, and immediately squeezed towards the side of the ship. Fortunately, there were magic professions around him. Ji Xuanyi spent some effort and finally moved to a place where he could see the situation of the other two ships on the sea.

Sure enough , just as Jian Xi Xin Jiu said, the other two ships were not in good condition either. Although the sea monster that Day City faces is not larger than theirs, the species is obviously much more difficult to deal with than the one they have here!

It turned out to be a crab! It was hooking its claws on the sidewall of the Sun City, extending its two huge claws and attacking the players on the Sun City ship. It could be said that it was even more difficult to deal with than the ones on their side!

After all, no matter how big the octopus is, it is made of meat. If you try hard, there is still a possibility of hurting it. Crab shells are difficult enough to get on the dining table, let alone one this big now!

I guess the players in Day City are desperate enough.

The situation in Youyue City was also confusing. Ji Xuanyi did not see anything on the sea, but the ship of Youyue City was shaking violently.

Ji Xuanyi inappropriately thought of the rocking cars in the amusement park, but it was obvious that the current situation was not suitable for this metaphor. Players in Youyue City had already started to fall into the sea due to being shaken !

In comparison, the situation in Daylight City seems to be better. After all, although they cannot break the shells of others, they can at least see the enemy , while Youyue City really cannot do that.

Ji Xuanyi was on the ship of Fanxing City, and even with his third-person perspective at a commanding vantage point, he couldn't see what was happening on the ship of Youyue City. The players on the ship of Youyue City, including commanders like Ye Linyu, were even more confused!

It's no wonder that the other two ships refused to offer them assistance. They really were powerless!

Ji Xuanyi gritted his teeth. Although the situation could almost be described as hopeless, the authorities would not give players questions without answers. There must be a solution.

If fighting alone is a dead end, the only solution is to unite!

Ji Xuanyi frowned and thought about it. It was obvious that the breakthrough point now was on their ship. If they could tear the giant octopus apart, with their strength, they could actually try to rescue Youyue City and Yangri City. But the current situation was, how should they get rid of this octopus?

Ji Xuanyi's gaze switched between the ships in Youyue City and Yueri City several times, and suddenly an idea came to him!

Ji Xuanyi immediately said to Jian Xi Xin Jiu in private: " Ask the Sun City to bring the boat over to our side! The crabs on their boat might be able to get the octopus off! "

Although the crab is very small compared to the octopus, its claws are always more powerful than the player's. If all else fails, you can use it as bait to lure the octopus to eat it!

Jian Xi Xin Jiu was stunned for a moment after receiving the news, and said: " Ah? The crab got the octopus down? But what if they are in the same group? "

Ji Xuanyi: "..."

This is a question. Who knows if there is any connection between sea monsters and sea monsters?

But now is not the time to talk about this. Ji Xuanyi said with a frown on his face: " Even if they are in the same group, the worst result is that our ship will sink faster. Anyway, it will sink anyway if you don't do this. What are you afraid of? "

Ji Xuanyi was right. The worst outcome was nothing more than the ship sinking. Whether it sank quickly or slowly, it would still sink . There was no need to worry about this.

Jianxi Xinjiu had no choice but to send a message to Yueri City, asking them to sail the boat over.

Although Day City and Star City have a grudge, this is a joint activity after all, so they should help each other, right? In addition, Zhaochen hasn't been seen causing trouble in the past two days, and the relationship between the two sides has eased. There is still a high probability that the request for help will be successful.

Jian Xi Xin Jiu originally thought so, but the facts proved that he was indeed too naive. The reply from Yue Ri City was sent by Zhao Chen. This guy said a lot of nonsense and then said, "I'm sorry, we don't trust you. Who knows if you want to cheat us again? If you need help, please go to your good partner You Yue City. Thank you."

Sword washing new wine: "..."

If Zhaochen was in front of Jian Xixinjiu now, he would definitely beat the other person so hard that his mother wouldn't even recognize him!

What the fucking time is now! Is this the time to dwell on the past?! Are you fucking possessed by Zuo An? If you don't help now, we'll all be finished!

Jian Xi Xin Jiu was about to explain to Zhao Chen when the boat shook again! The sea monster had already come up with five tentacles. There was no time to waste time talking to this idiot!

Jian Xi Xin Jiu had no choice but to contact Ji Xuanyi directly.

When Ji Xuanyi heard Zhaochen's reply, he had a feeling that it was just as he expected.

Although he wanted to hit him, he still said to Jian Xixinjiu, " Don't waste your energy. This idiot won't agree to help us. "

Jian Xi Xin Jiu simply couldn't understand it, and said: " Is this guy mentally retarded? If he doesn't help us, they will die anyway, and this activity will fail! "

Ji Xuanyi frowned and said, " Zhaochen's IQ is still barely online. He replied to you like this just as an excuse. He just wanted to express his current attitude. But now is not the time to discuss this. What we want is not the assistance of Day City, but the big crab on Day City's ship. "

Ji Xuanyi pondered for a moment and said, " If the mountain doesn't come to me, I will go to the mountain. Can our boat move? "

Jian Xi Xin Jiu took a look at the situation and said, " It's tough. It might have worked when we first hit the monster, but now our boat is tilted quite a bit. If we start the boat rashly, it might capsize ..."

Ji Xuan was shocked and had to open the private chat channel and directly contact the old Western doctor on the Youyue City ship.

The old western doctor was in the captain's room, being shaken so much that he almost vomited. When he received Ji Xuanyi's secret message, he took a lot of effort to open the chat interface. When he saw the two words sent by Ji Xuanyi, the old western doctor almost rolled his eyes and was so angry that he passed out.

[Ji Xuanyi] : Are you there?

The old Western doctor wanted to write a 10,000-word essay to scold Ji Xuanyi at that time. What the hell is this time? Don't you know whether I am there or not?

However, it was too difficult to type in the current situation. The old Western doctor poked several times but didn't poked the right place. He could only roll his eyes and send a " 2" to Ji Xuanyi .

Some keyboard online games have this kind of default rule. When the situation is urgent and there is no time to type, " 1" represents affirmation and " 2" represents negation.

the old western doctor sent out the number 2 , his anger was evident. If translated, the original meaning of this " 2" might be: " Don't look for me, I'm dead! "

Ji Xuanyi was very calm after receiving the reply, and continued: " Then can your ship move? " The old western doctor still replied with a " 2" .

This time it wasn't out of anger or anything, it just meant that they couldn't move – in fact, when problems arose in the development of Star City, Ye Linyu immediately judged that they would also encounter similar situations, and ordered the old Western doctor to speed up and sail at full speed, away from Star City, and preferably leave this sea area.

But unfortunately, as soon as Ye Linyu gave the order, the ship of Youyue City began to shake violently, and the old Western doctor's order to start the ship was forcibly terminated, and it could no longer move an step.

The current situation is that the two ships that are willing to cooperate are unable to move, and the commander of the only ship that can move is an idiot who wants everyone to die together. It's really fucked up ...

Ji Xuan was so angry that he couldn't help but slap the sidewall hard, but unfortunately he was still a sorcerer, and except for his hands turning red, there was no movement at all.

At this moment, the hull tilted again. It was obvious that another tentacle of the boss had come up. Once it climbed up completely, the ship would sink!

Jian Xi Xinjiu was still sending him private messages in a panic, asking him what to do. Ji Xuanyi felt annoyed when he saw this.

Shit! He needs to know what to do. Is this still the case?

Ji Xuanyi felt like he was about to explode, but he could only suppress the anger in his heart and squeeze to the bow. He had to find Qi Qin and ask Qi Qin for a kiss and a hug.

Not to mention that the deck is extremely crowded now, and whether Ji Xuanyi can reach the bow smoothly, in fact, Qi Qin may not really have the time to find Ji Xuanyi, as he is struggling with the suction cups under the tentacles.

" waiting to die " do not exist in Qi Qin's mind . No matter how slim the hope is, he will try his best until the last moment.

The octopus's skin is very flexible, and because it can wriggle, a swordsman's heavy sword can do little damage to it. The knight's spear can penetrate it, but it can only penetrate it. It is very difficult to pull it out. No matter what efforts are made, it can only leave a hole the size of a pinhole for the boss , which is completely harmless. The same is true for the weapons of assassins and archers.

why Qi Qin was competing with the boss 's suction cups was mainly because he remembered the battle with the sea monster on the coast. In the current situation, they would definitely not be able to kill the monster, but if they could destroy the opponent's

suction cups, maybe they could push the opponent off the boat, even if it was just to delay the sinking of the ship!

Qi Qin was trying to find a way to cut off the suckers on the boss 's tentacles. He was so excited that he wished the weapon in his hand was not the Sword of Ares, but a meat cleaver ... Ji Xuanyi was halfway to the bow when he couldn't squeeze any further. He felt like he was going to lose his mind. In fact, there were few people on the boat who hadn't lost their minds. After all, the boss ' tentacle had already reached the seventh one, and the ship would sink in just a matter of minutes. Jian Xi Xin Jiu didn't even send a message to Ji Xuanyi – he sent a message to Xiao Xiao Yuxia instead.

I'm sorry for the gang's training. This activity may fail. Can you please not hit me when you go back? Even if you hit me, please be gentle. Thank you.

But it seems that it is still easy to get beaten up if you say this? Should we just let Xu Chu take the blame? Xiao Xiao Yu Xia will definitely not beat up this local tyrant anyway.

Just as Jian Xi Xin Jiu was racking his brains to think of how to put the blame on Xu Chu, Xu Chu, who was mixed in the mage camp, was also muttering and sighing: " If only I could be on the other two ships right now. "

Qingfeng, who was also a mage and was squeezed in with Xuchu, said seriously: " I have to criticize you for this. How can the deputy say such a thing? Wouldn't he have to die on the other two ships? "

Xu Chu took off the crab shell hat on Qing Feng Bu Fu's head, put it on his own head, and said leisurely: " No, it's just that the view from the other two boats is better. I have never seen such a big boat capsize. I'm a little curious. "

Qingfengbufu: "..."

Qing Feng Bu Fu stood in awe and said, " The deputy is indeed a master. We mortals don't understand! Can you give me my hat back? "

Xu Chu snorted angrily and returned the hat to him.

Just when everyone had almost prepared themselves mentally for the impending capsize, a low chant suddenly spread across the entire sea.

Not only the players on the Starry City ship, but also the players on the Youyue City and Sun City ships heard this sound!

The voice is not loud. To be precise, it is more like a whisper held in the lips. The voice is not clear either. It is more like the mumbling of an elderly person. It is old, but somehow gives people a sense of peace.

Ji Xuanyi felt so familiar with this voice that he was stunned for a moment, and then he couldn't help laughing.

 " Fuck! How could I forget about this! " Ji Xuanyi cursed excitedly.

An unknown player nearby asked: " What? What's going on? What did you say?! "

Ji Xuanyi's eyes sparkled, and he no longer felt annoyed. He looked at the man and explained, " It's August! We have another one on the ship! August! "

As soon as this sentence came out, it was immediately heard by everyone around, and everyone repeated it like a tape recorder: " August? Fuck! Our great magician is still on the ship! "

The news spread one after another like waves, and everyone was excited and shouted loudly: "It's August's voice! "

The players in Sun City and Phantom Moon City didn't know who August was, so they were all confused when they heard the voice chanting. Some were wondering what kind of awesome person had appeared, while others were thinking that Star City was really talented, as they could create sound in this kind of game background ...

No matter how they thought about it, when they saw that the Star City's ship was about to sink, but the players suddenly cheered together, the people in Youyue City and Yangri City had only one thought in their minds.

Are the people in Star City probably driven crazy by this?

Fortunately, before any player went offline to dial 120 , the long spell was finally finished. The moment the spell ended, everyone felt something was wrong.

The air around them seemed to solidify and become sticky. The players on the Star City ship could not even hear the shouting from around them!

However, it was only for a moment, and the feeling immediately receded like a tide, replaced by a sky that suddenly darkened – as if the world was about to end. Huge, burning fireballs fell from the sky in succession, one after another, hitting the sea monster boss 's head hard. The entire ship of the Starry City was also shaken violently, and the players on the ship screamed and rolled on the ground.

It was indeed August! All the players in Star City had seen this skill. When the evil god attacked the city, August had used this skill to summon more than a hundred huge fireballs in succession, which not only stunned the evil god's clones attacking the city, but also made the dwarf king and the elf king dumbfounded!

But August! You have to consider the situation when you use your skills! How can this ship withstand all the fireballs you throw? More than a hundred fireballs hit the ship in a row, and the boss is dead, and their ship is also ruined!

The players from Sun City and Youyue City were stunned, and the players from Star City were all rolling on the ground. Ji Xuanyi was stunned and heard someone screaming: " What kind of turret output method is August? Don't you have any milder skills? "

Another person shouted, " If a mage has a gentle skill, he's not a mage anymore! August didn't drop a mine, but blew up the whole area. He's already very considerate of our feelings! "

However, August was a little rough, but the effect was very obvious. While everyone was rolling on the ground, they could smell the aroma of grilled octopus ...

I don't know who started it first, but the players shouted in unison: " Mr. August! That's enough! It's done! If you put it on the heat again, it's over! It's going to be burnt!!! "

after another. Everyone was already dizzy, and they were still shouting with great difficulty——

 " Lord August! Take away your magical powers!!! "

It was not known whether August had calculated the ship's bearing capacity in advance or had really heard the players' prayers. Not long after the smell of grilled octopus emanated, the fireball in the sky finally stopped, the dark clouds dispersed, revealing the last ray of sunlight before sunset, and the sky finally darkened.

The sea was completely silent, and no one dared to make a sound. After shaking a few times, the Star City ship slowly regained its balance.

Ji Xuanyi stood up from the pile of players lying on the ground, turned around and looked at the bow. He saw that the octopus sea monster that was showing off its might before, leaving many players helpless and waiting to die, had now turned into a red barbecued octopus, hanging miserably on the bow of the Star City.

Ji Xuanyi: "..."

Ji Xuanyi had an indescribable expression on his face, and muttered, " What the hell is this magical cheat that I'm using ..."

This is also what the players from Sun City and Youyue City want to say!

What kind of magic trick did you guys use in Star City? ! !

After Ji Xuanyi, the other players also climbed up from the ground in confusion, staring at the barbecued octopus on the bow in amazement.

" August's combat power is too fucking buggy ! " A player murmured, " No wonder he didn't take action in the previous mission. If he had taken action, we would have been completely helpless! "

Jian Xi Xinjiu was hurriedly sending a battle report to Xiao Xiao Yuxia, asking him not to rush to arrange the next round of sailing. However, Xu Chu had already excitedly gone to the bow to watch the giant octopus up close. Ji Xuanyi had to take over the task of commanding the players to clean up the battlefield.

First of all, the octopus must be taken off the boat. Not to mention whether it can be eaten, it is a problem to have it hanging there blocking the view. Also, although August controlled the power of magic, the hull was still damaged and had to be repaired as soon as possible.

Who would have thought that just now he and Qi Qin were thinking about logging off because they were too bored, but now they have to be busy until at least eight or nine in the evening.

Seeing that the monster faced by Star City was the most terrifying, but it was the first main city to successfully escape danger, Sun City and Dark Moon City also became anxious.

The reason why Day City is anxious is that Zhaochen originally wanted everyone to die together, but the people in Fanxing City kicked them away and said that if you want to die, die by yourselves and we won't accompany you.

How embarrassing it would be if he really died in vain!

But there is nothing that Yaori City can do. After all, you refused when someone asked you for help before. Do you have the nerve to ask others to save you again now?

The people of Day City are really suffering this time.

In comparison, Youyue City is much better. Although they did not go to help Fanxing City, they really couldn't help. Besides, the old western doctor and Ji Xuanyi have a good relationship.

Even if it was only for the sake of the old western doctor and Yun Zhongjian, Ji Xuanyi would go to help.

" 1111" in Ji Xuanyi's private chat channel , Ji Xuanyi could only deal with the giant octopus first and then go over to help.

Speaking of it, it is indeed not easy to help Youyue City. After all, we still don't know what's going on with them and why they are shaking like this ... After Ji Xuanyi and his team drove the boat to the side of Youyue City, they still couldn't figure out what had happened.

Ze Yu Sishui lay on the bulwark next to Ji Xuanyi, leaned over to look at the Youyue City ship, and said hesitantly : " What's going on with them? Should we ask August for help? "

Qing Feng Bu Fu said: " August may not be willing to help them, right? After all, Youyue City is Youyue City, and Fanxing City is Fanxing City. He is not the great magician of Youyue City. What does the life and death of Youyue City have to do with him? "

Xu Chu was shocked and said, " This is not a question of whether August will help or not. Even if August is willing to help, how will he help? The monsters can't even be seen. Could it be that he will just smash through the Youyue City ship? "

Upon hearing this, Ze Yu Si Shui guessed: " The ship from Youyue City is a ghost ship! Could it be some unnatural event? For example, the ghost of a sea monster— "

" Stop it! " Ji Xuanyi said with a frown on his face, " There's no ghost of a sea monster. The monster in Youyue City can't be seen on the surface of the sea, so it must be on the bottom of the sea. There must be something under their ship. "

" Under the boat? " Ze Yu Si Shui asked, " What should we do? Can August use ground spikes? "

Young Master Ming, who had been as quiet as a chicken, finally couldn't help but speak, saying with disdain: " Can you use your brains? This is the sea. How far is the sea bottom from the sea surface ? Can the spikes reach it? Even if they can, they will pierce through the Youyue City ship directly! Are you crazy! "

Ji Xuanyi frowned and said, " August is an unexpected god after all. Even without August, this battle can definitely be resolved. According to my previous idea of using crabs to fight octopuses, this time it is very likely that the three ships will need to help each other. "

Qi Qin and other force-based professions moved the octopus to the deck, preparing to store it as a food resource. The draft of the entire ship was deepened, and the bow was slightly tilted forward, looking very unstable .

The assassins were already being mobilized to use their daggers to cut the octopus into pieces and transport them to the cabin. Qi Qin, a swordsman whose weapon was not so good at cutting meat, had to run back to Ji Xuanyi alone.

Ji Xuan took a look at him and found that his body was covered with sea water and mucus brought by the octopus. He was immediately disgusted and didn't bother to talk to other people. He took out the cloth in his bag to wipe his face.

If an old Western doctor saw this scene, he would definitely burst into curses.

Can't you just care more about the other two friends who are in dire straits? Can't you just let them wipe it themselves?

Young Master Ming looked at the Youyue City ship that was still shaking wildly, and couldn't help but move closer to Ji Xuanyi and said, " Then what? How can we help? "

Before Ji Xuanyi could say anything, Xu Chu had already said from a distance: " Why are you in such a hurry? I'll save him later. Let me send a private message to Ye Linyu first to ask him if he's happy. Hehehe~ "

Ji Xuanyi: "..."

This man's desire for revenge is truly terrible!

Ji Xuan threw Xu Chu aside and ignored him completely. He said to Ming Shao, " If the crabs in Day City can solve the octopuses here, then the octopuses here should be able to solve the problems in Youyue City. Although I'm not sure if this is true, it will definitely be okay to give it a try. "

Upon hearing this, Young Master Ming said with a strange expression: " But the octopuses on our ship are already—— "

It's already a barbecue! How can we solve the problem in Youyue City?

Ji Xuanyi frowned and thought for a while, then said, " Do you have a long rope? A very, very long rope, at least one that can sink ten meters into the water after being thrown from our boat. "

Young Master Ming nodded and said, " Yes! "

Ever since he noticed the difference between the activities in this game and traditional keyboard online games, Ming Shao's bag has always been filled with these miscellaneous items, in case he suddenly needs them.

Ji Xuanyi's expression eased a little, and he said, " That's good. Let's go to the octopus corpse. "

Xu Chu vaguely guessed what Ji Xuanyi was going to do, and protested unhappily: " Can't we let them hang around for a while? That bastard Ye Linyu hasn't replied to me yet! "

Ji Xuanyi said with great experience: " He can't reply to you. How can he type when he is shaking like that? "

When Xu Chu heard this, he immediately became happy and said happily: " Then hurry up, rescue them. I want to see what that bastard has to say to me! "

Ji Xuanyi: "..."

Ji Xuanyi led everyone to the place where the octopus pieces were sorted without saying a word. He stopped a player at random, took the meat he had just cut, tied it to a rope, and said, " Let's go and help Youyue City catch sea monsters. "

Everyone responded and ran to the boat excitedly. Those who knew about the situation thought they were going to rescue people, while those who didn't think they were going on a spring outing!

Everyone threw the bait made of octopus meat over the side of the boat, but because of the distance between the two boats, it seemed a bit far .

Ji Xuanyi was considering whether to throw the rope directly to the people of Youyue City, when he saw that the ship of Youyue City, which had been swaying in an orderly manner, suddenly shook violently, and then slowly stopped.

Ji Xuan was stunned for a moment. Before he could even shout out, he felt the rope in his hand suddenly drop, as if there was something weighing a thousand pounds at the other end of the rope, pulling them madly into the sea.

Ji Xuanyi, Xu Chu, Qingfeng Bufu, the three mages were very self-aware and let go instantly. Ze Yu Sishui was dragged out of the boat with Ming Shao screaming. The only person who had

strength , Qi Qin, had veins bulging on his arms, and he stood with his feet on the side of the boat at a 45-degree angle to the ground, barely maintaining his balance!

This is only true in the game, when Qi Qin lacks strength, he can use this method to maintain his balance. If this happened in reality, Qi Qin's waist would probably be broken by now!

But it was obvious that Qi Qin couldn't hold on for long. He was like a thin string that was about to break! He gritted his teeth, the veins on his forehead were throbbing, and he didn't even have time to open his mouth to speak!

Ji Xuanyi and Xu Chu shouted at the same time: " All strength-based professions, come to support us!!! "

Fortunately, the giant octopus had just been dealt with and the players were still gathered on the deck. After hearing the shout, they hurried over and grabbed the extra rope behind Qi Qin.

Qi Qin was finally freed from the situation where he had to serve as the fulcrum alone. Although he was not really injured, he still subconsciously touched his waist, which made Ji Xuan so angry.

Because Ji Xuanyi knew that if the situation just now was really real, Qi Qin would probably use the same method to save Ze Yu Sishui and Ming Shao.

More and more force players came to support, and the situation has stabilized . Qi Qin glanced at Ji Xuanyi, then let go, handed the rope to someone else, and walked slowly to Ji Xuanyi's side.

It doesn't matter if he's scolded, Qi Qin thought, with Xuan Yi's expression, he might get beaten after a long time.

However, Ji Xuanyi just looked at him silently and didn't say anything.

Qi Qin felt guilty first, so he pretended to be calm and explained: " That move just now was very dangerous, Xuanyi, don't learn it. "

Ji Xuan glanced at him and said, " Just keep it to yourself. It's okay in the game, but if you try to be a hero in real life, if something happens later, I will ... Tsk! "

Qi Qin swallowed his saliva, and heard Ji Xuanyi silent for a moment, then said: " If anything happens later, you still have to wait on me, fuck! "

Qi Qin was stunned, his heart beat faster, and he could not speak. He just stared at Ji Xuanyi blankly.

Ji Xuanyi looked back, his expression slightly moved. Just as he was about to speak, he heard Qi Qin say seriously: " It's okay, don't bother Xuanyi, we can hire a housekeeper ..."

Ji Xuanyi: "..."

Ji Xuan slapped Qi Qin on the forehead and cursed: " Get lost! "

Qi Qin rolled away in shame.

At this time, Ji Xuanyi finally remembered to go and check on Ze Yu Sishui and Ming Shao hanging on the side of the boat. These two people with agility professions really had no idea of their own strength . Now they were hanging there like grasshoppers on a rope, drifting in the wind.

If Qi Qin hadn't grabbed the rope in time, the two of them would probably have gone into the sea to feed the fish.

The thing on the other end of the rope was really heavy. Even though all the strength players in Star City had gathered here, the speed of pulling the rope was very slow, and it was difficult to pull the two people up a little.

Ze Yu Sishui was still below Ming Shao. Looking at the sea below his feet, he couldn't help swallowing his saliva and said to Ming Shao with a trembling voice: " Ming Shao, I'm a little scared. "

Ming Shao was actually a little confused, but Ze Yu Sishui said it first, and he calmed down and comforted him: " Don't worry, we will be up soon, just hold on tight. "

Ze Yu Sishui was moved when he heard this and said, " Ming Shao, you are such a nice person. Um, can you, can you do me a favor? "

Ming Shao was stunned, thinking that Ze Yu Sishui wanted to go up and drag him to make trouble together. It turned out that he would definitely not agree. But now Ze Yu Sishui was so scared, it would not hurt to agree. He smiled helplessly and said, " Of course, just say it. "

Ze Yu Sishui heaved a long sigh of relief and said, " That's good. Don't move. "

Ming Shao: "..... ? "

Ze Yu Sishui teleported and whooshed onto Ming Shao's head. Then he stepped on his head and teleported again and got on the boat smoothly!

Ming Shao: "... Fuck! Ze Yu Si Shui, get off here! "

Chapter 173

After Ming Shao climbed up, he immediately pinned Ze Yu Si Shui to the ground and beat him up. Qing Feng Bu Fu's attempts to stop the fight were useless. Xu Chu smiled with gloating pleasure and said, " Wow , domestic violence is still okay. "

Qing Feng Bu Fu also tried to persuade him: " If you beat your child too much, he won't grow taller ..."

Young Master Ming: "..."

Ming Shao said in disbelief: " He's already this age, and you still expect him to continue to grow taller? "

" Is this the point? " Ze Yu Si Shui said angrily, " If you want to hit someone , just hit them. Please don't make personal attacks, okay? "

The three of them got into a fight.

Ji Xuanyi was too lazy to pay attention to them . He took Qi Qin and lay down on the side of the boat to see what was going on in the water. After the Youyue City boat stopped , the players who were dizzy from being shaken came out of the cabin one after another, and cautiously poked their heads to look into the water.

The players on the Star City boat worked very hard and finally pulled the object on the other end of the rope out of the water. Everyone was shocked to find that there was a big shell on the other end of the rope!

Ze Yu Sishui gasped and exclaimed: " How could it be a shell?! "

Ji Xuanyi's heart moved, and he asked: " What do you mean? "

Ze Yu Sishui said worriedly, " It seems that there is not enough garlic paste on the boat ..." "

Ji Xuanyi: "... Get lost! "

Ji Xuanyi felt that dealing with Ze Yu Sishui and his gang was a waste of life, so he kicked them away mercilessly and directed everyone to move the big shells onto the boat.

While everyone was busy , Ji Xuanyi thought about it and had a private chat with Jian Xi Xin Jiu, asking him not to pay attention to Ye Linyu's private chat and not to respond no matter what Ye Linyu said.

Jian Xi Xin Jiu was watching the situation in the captain's room . He was stunned for a moment when he heard this and said, " Why? If Ye Linyu contacted me, wouldn't he have to thank us? Why don't you respond? "

Jian Xi Xinjiu also wants to take this opportunity to get some benefits from Ye Linyu!

Ji Xuanyi said helplessly: " Are you stupid? How can you benefit from someone like Ye Linyu? If he came to you, he definitely didn't come to thank you, he must come to ask for this big shell, just ignore him. "

Jian Xi Xin Jiu couldn't believe it: " No , how could he be so shameless? We were the ones who fished out the shells, and we saved them! "

Ji Xuanyi asked very seriously: " Don't they usually take you out to play when it's raining? "

Sword Wash New Wine How can you be so naive!

Jian Xi Xin Jiu was stunned for a moment before he realized what Ji Xuanyi meant. He was silent in anger, but Xiao Xiao Yu Xia and Xu Chu really didn't want to play with him. These two people usually put him in the same category as Liu Tian Jing Yun Han ...

Although he was a little unhappy, Jian Xi Xinjiu still listened to Ji Xuanyi's words obediently. And things turned out to be just as Ji Xuanyi had expected. Not long after, Ye Linyu had a secret chat with Jian Xi Xin Jiu. However, with Ji Xuanyi's reminder, Jian Xi Xin Jiu certainly would not be fooled. He just pretended that he was blind and could not see anything. Ye Linyu on the Youyue City boat could only sigh helplessly.

The old western doctor had just crawled out from under the table in the captain's room. Seeing his appearance, he gloated and said, " What's the matter? Did you run into trouble? "

Ye Linyu glanced at him and sighed, " The one who could predict what I wanted to do in advance should not be that stupid Xu Chu. Ji Xuanyi is really awesome. How could Star City be so lucky to have such a person? "

The old western doctor snorted , and before he could say anything, he heard Ye Linyu say: " Why are you the only one by my side? I can't compare, I can't compare ..."

Old Western doctor: "... get out of here! "

Not to mention the internal strife on the Youyue City ship, the Fanxing City also had a problem after getting the big shell.

It goes without saying that this is a good thing, but it is not easy to open it. Everyone gathered together, discussing how to open the shell and whether there would be pearls or something like that inside.

Ji Xuan took a look at the shell and found that there was a subtle concave arc on it, which seemed to fit the bottom of the boat very well. He guessed that it had used this to stick itself

under the Youyue City ship and then shook it wildly. If it weren't for the octopus meat that attracted it, it would not be easy to get it out from under the boat.

Ji Xuan knocked on the shell of the big shell, turned to Qi Qin and said, " Let's go. "

Ze Yu Sishui, who was watching the shells, was stunned and said, " Let's go? Xiaoji, you don't want to help find a way to open the shells? "

Ji Xuan said, " We have already arrived on our ship. Whether it will open or not is just a matter of time. You guys figure it out. Sun City is still hanging there. "

Although Ze Yu Sishui didn't know that Day City had rejected their request for help, the relationship between the two cities was not good to begin with, so he asked curiously: " Day City? Xiao Ji, why do you care about them? Just let them be. I think it's fine. "

In fact, compared to Ze Yu Si Shui, Ji Xuanyi wanted to leave Day City alone, but this was a collective task after all. Although Day City was capable of doing stupid things, Ji Xuanyi didn't want to sink with them. Things that needed to be solved had to be solved in the end. He said to Ze Yu Si Shui: " I'll go and see the excitement first. Whether it can be solved or not is another matter. "

When Ze Yu Sishui heard what the other party said, he didn't say anything more and just said, " Okay, then I'll stay here and open shells. "

Ji Xuan nodded at him, took Qi Qin away from the crowd, and went to the other side to observe the situation in Day City.

The crabs from the Sun City had already crawled onto the boat, and were pushing the Sun City players on the deck into the sea one by one, just like pushing sand. From time to time, they would break off a piece of wood from the Sun City boat, gnaw on it, and then spit it aside.

Although the players of Sun City were also trying their best to attack the crab, its shell was just there and it didn't hurt at all. You can fight yours and they can mess with you without any delay.

Ji Xuanyi lay on the sidewall, watching with interest the crabs causing trouble in Day City.

Qi Qin watched for a while and said, " How can we help? "

Ji Xuan said indifferently: " How should I know? "

Qi Qin said stupidly: " Didn't you say you would help them? "

Ji Xuanyi smiled and said, " Of course I can help, but it doesn't prevent me from watching the show. I'll talk about it after I enjoy it. "

In fact, in addition to seeing Yueri City in trouble, Ji Xuanyi also wanted to wait for Zhaochen to give in. If Yueri City bowed to Fanxing City now, it would be equivalent to slapping itself in the face. No matter how eloquent Zhaochen was, he would never be able to save his image in the eyes of other players in Yueri City.

However, Ji Xuanyi obviously underestimated Zhaochen's persistence. Even when the crabs were about to make the boat of Dayo City leak, he didn't say a word and had no intention of asking for help from Fanxing City.

It was getting dark, and Xuchu finally had no idea what to do with the big shell, so he decided to leave it on the boat for a while and deal with it later. However, the matter had not been completely resolved, and everyone could not just leave. Xuchu had no choice but to walk over to Ji Xuanyi and said, " What's going on in Day City? "

Ji Xuanyi sneered and said, " He's just refusing to speak. It seems that in Zhaochen's eyes, his reputation is more important than the interests of Day City . He's a piece of trash on the same level as Zuo'an. "

Xu Chu sighed and said , " He's not relying on the fact that this is a cooperative mission to bet that we won't not take action, right? "

Ji Xuanyi thought for a moment and said, " That shouldn't be the case, right? Doesn't this guy have paranoid delusions? He always thinks that I will target him for revenge. I guess he is really determined to go all the way. Maybe he is still imagining some bloody plot in his mind. "

Xu Chu had heard about the old grudge between Ji Xuanyi and Zhao Chen, and had once stabbed Zhao Chen in the heart, so he asked curiously, " So what are you going to do? "

Ji Xuanyi was silent for a moment after hearing this, and then said, " What can I do? Don't you want to eat crabs? "

Xu Chu hesitated for a moment and said honestly: " I do! "

Ji Xuanyi smiled and said, " If we want to complete the mission, Sun City is definitely indispensable. Let's get rid of the crabs now. It's better than waiting until their boat is no longer usable and then having to rescue them and place them on our boat. "

Xu Chu thought about the scene that Ji Xuanyi described and felt so disgusted that he quickly called for help.

The method to get the crabs off the boat of Dayo City is the same as that of fishing for the big shells under the boat of Youyue City. Just lure them with octopus meat. Moreover , the crabs that are almost invincible in Dayo City are not that powerful when they are on the boat of Star City. After all, their bodies are not that big. There are enough people in Star City. With some tools, they can easily subdue them and tie them up.

Ze Yu Sishui started to worry again: " We don't have such a big pot! "

Ji Xuanyi said speechlessly: " Why not just remove the legs first? "

Ze Yu Sishui looked at him blankly. Ji Xuanyi had no choice but to order people to clean up the crabs.

The Sun City did not express any gratitude to the Star City for rescuing them and taking away the crabs. They neither thanked them nor asked them for crabs. They just started repairing the boat in silence.

Ji Xuanyi was too lazy to pay attention to them and directly asked Jian Xixinjiu to set off again. After wasting so much time, he didn't know whether he could reach the supply island before dinner tomorrow.

From then on until eight o'clock, Ji Xuanyi was almost entirely devoted to removing crab legs and opening shells. It took a lot of effort for a group of people to pack up all the ingredients and store them in the cabin.

This battle can be said to be a close call, the most important thing is that August's move was too magical. Each main city should have received a portion of food supplies, but all were taken by a ship from the Star City. After that, the ship even drafted more water when sailing, and everyone became more lazy in the stage of collecting resources, which made the Sun City and the Dark Moon City envious and jealous.

As the player with the highest favorability towards the great hero August, Ji Xuanyi went to August's room to express his gratitude to him after everything was over. August just smiled and told Ji Xuanyi that although he could protect the ship in Starry City, he could not spend most of his magic power on the way to the Lost Continent. In a situation like today, he could only take action twice more at most, and the remaining crises would need to be resolved by Ji Xuanyi and the others themselves.

This setting was within Ji Xuanyi's expectations. If the August plug-in could really be used unlimited times, there would be no need to play this game. He could just cling to August's thigh every day. Why would he need to participate in any activities or complete any tasks?

However, Jianxi Xinjiu and the others expressed regret after hearing that August could only make two more attacks at most.

Ze Yu Sishui sighed the loudest: "I was planning to ask August to boil the crabs directly..."

Ji Xuanyi: "..."

I'm afraid you haven't been beaten enough.

Although August helped to deal with the huge sea monster, the hull was damaged after all. As it was getting late, everyone went offline to rest. The next day, everyone climbed up early to repair the ship.

In fact, the most serious damage to the Starry City was the bow. The octopus boss had gnawed a large piece of the wood on the bow, and August didn't stop when he used his skills, which further enlarged the hole. The players had no choice but to go to the cabin to get the hammer and wooden board, and lie on the bow to repair the ship.

In fact, the damage to Star City is not the most serious, but their hull is large, even if it is not very large in comparison, the workload of repairing it is not low. The hull of Sun City is actually the one with the most serious damage. After all, the crab has been wreaking havoc on the ship for so long, and there is a hole in its leg. Judging from the visual effect, it is no exaggeration to say that it is full of holes.

When Ji Xuanyi came online, he heard Xu Chu mumbling to him, saying that the bottom of the ship of Dayo City seemed to be punctured, and it was patched overnight last night. He hoped that their ship could hold out until reaching the Lost Continent and must not sink, otherwise the ship of Youyue City would not be able to accommodate so many people, and they would eventually have to be crammed onto their ship.

"Thinking about the possibility that in the future all I'll see are people from Day City makes life seem very hopeless." Xu Chu said.

In fact, there were many people who shared the same idea as Xu Chu, including Ji Xuanyi and others. The people on the Starry City ship were basically praying that the Sun City ship would hold on, hold on! Please don't break down!

If you don't know, you would think they have a very good relationship!

It was not known whether the prayers of the Star City players worked or the Sun City players were just too hard-working, but the holes on the Sun City ship were finally all patched up. Only one or two leaks remained on the deck that did not affect the draft of the ship much. But it did not matter, as we could just treat it as a skylight in the cabin.

The players in the two main cities all breathed a sigh of relief.

In the end, it was Youyue City whose ship was not affected at all in this battle. Although they did not gain any benefits, it was still better than Youri City.

It seems like it has been four or five days since they set out to sea. The players have finally gotten used to life on the sea. They are busy when they should be busy, and have fun when they should be idle. However, correspondingly, the players have finally grown tired of seafood and are beginning to crave the taste of vegetables.

If we had known earlier, the majority of people who participated in the sea trip would first think of being able to eat seafood anytime and anywhere. Among the 300 individual participants, at least 200 came for the food, and the remaining 100 came for the activity mission.

But even those who came here for the seafood in the first place are finding it a bit too much now. Every day they have large chunks of octopus, crab, and shell meat – and not even a damn garlic paste. It's simply not a life for a human being. Everyone is starting to miss the mushroom soup they had on the first day on the boat.

Even Qi Qin told Ji Xuanyi very subtly that mushroom soup and bread were actually quite delicious.

Ji Xuanyi ignored Qi Qin, but when he walked into the cafeteria, he heard a player complaining quietly: " I feel like I'm going to get gout from eating so much ..."

Ji Xuanyi: "..."

This is a fucking game, how can it give you gout?

Ji Xuanyi speechlessly took Qi Qin to the cafeteria to get food from the auntie.

Due to the shortage of resources, the situation of the puppets is not very good. They are controlled by August to consume energy. Their reactions have been a bit slow recently, and they speak with drawn-out tones, which sounds very uncomfortable.

But there is nothing we can do about it. After all, they didn't do it on purpose. The saved resources can be used to operate your ship.

Ji Xuanyi greeted him, took his plate and found a table with Qi Qin, ready to spend some time alone.

But it is obvious that in a place like the cafeteria where everyone comes, there will definitely be no situation for the two of them to be alone. Just as Ji Xuanyi and Qi Qingang sat down, the Ze Yu Sishui trio arrived and came up to them again without any hesitation.

Ji Xuanyi: "... roll, roll, roll! "

Ze Yu Sishui came to Ji Xuanyi's side with a playful smile, put the plate in his hand into Qingfeng Bufu's hand, and said: " No shells, thank you. "

Qingfeng Bufu was not angry at all. He just responded weakly and went to get food with Ming Shao.

Ji Xuan knew that he couldn't drive these people away. He glanced at Qingfeng Bufu's back and said, " What's going on? Wasn't Qingfeng Bufu quite happy a few days ago? "

After capturing a large number of sea monsters and obtaining the rewards, Ji Xuanyi thought that he could at least make Qingfeng Bufu happy until he returned to the Elemental Continent! When Ze Yu Sishui heard this, he sighed and said, " Do you remember that he had a crab shell hat? "

Ji Xuanyi: "..... ? "

Seeing that he didn't remember, Ze Yu Si Shui reminded him, " It was the crab that Mi Yin peeled when we were having dinner yesterday. Qing Feng Bu Fu used the crab shell to make a hat. "

Actually, to be honest, Qingfeng Bufu just cleaned the crab shell and put it on his head. It looks pretty cute.

Ji Xuanyi vaguely remembered that there was such a thing and said, " What's wrong? "

Ze Yu Sishui said solemnly, " The local tyrant deputy gang leader also took a fancy to that hat. "

Ji Xuanyi: "..."

Ji Xuanyi was speechless and said, " No way? Xu Chu robbed Qingfeng Bufu's crab hat by force? "

Ze Yu Sishui shook his head and said, " If the deputy gang member had paid for it, Qingfeng Bufu wouldn't be so sad. To be more precise, even if the deputy gang member had snatched the hat away, Qingfeng Bufu wouldn't be so sad! "

Ji Xuanyi was very upset and said, " What a mess! What happened? "

Seeing that Ji Xuanyi seemed to be about to hit someone, Ze Yu Sishui didn't dare to keep it a secret and said honestly: " The big crab we got from Day City yesterday, the deputy gang used the crab shell to make a big bed. Compared to that, Qing Feng Bu Fu's hat is not interesting at all ..."

Qingfeng Bufu originally thought his crab hat was cute, but when he saw Xuchu's crab bed, he was stunned, his eyes were glued to it, and he couldn't take them off. The worst thing was that he didn't even have the qualifications to rob it, since Xuchu was so rich!

Qing Feng Bu Fu liked the crab bed so much that he lost his appetite and felt completely depressed.

After listening to this, Ji Xuanyi only wanted to say one thing: " You guys are so fucking boring! "

Ji Xuanyi cursed incomprehensibly: " What a psycho! What's so good about fighting over a crab shell! "

Ze Yu Sishui sighed quietly and said, " Xiao Ji, you don't understand. "

Ji Xuan said expressionlessly, " That's great – but how did Xu Chu get such a big crab shell into the room? Wouldn't it be uncomfortable for him to sleep on it? And it would smell bad! "

Ze Yu Sishui shook his head like a rattle, repeatedly saying: " I don't know, I don't know. It's hard for us mortals to guess what the deputy gang is thinking. "

Just as they were talking, Qingfeng Bufu and Ming Shao came back with plates.

Ze Yu Sishui sighed: " Although I have been mentally prepared, I still feel very depressed when I really face these foods. "

Two of the three were in a very depressed mood, so Young Master Ming had to force himself to cheer up, knocked on Ze Yushishui's plate, and said, " Stop talking nonsense and eat quickly. "

Ze Yu Sishui ignored him and looked at Ji Xuanyi, saying seriously: " Xiao Ji, don't you feel uncomfortable eating like this every day? "

Ji Xuanyi originally wanted to say that he didn't feel uncomfortable, but when he looked down at his bowl, there was octopus, shells, crab roe, and an unknown small sea fish ... They had eaten similar food for more than ten meals.

Even Ji Xuanyi found it difficult to open his mouth at this moment.

Ze Yu Sishui said in a coquettish voice: " Xiao Ji~ Don't you have a say in the deputy gang? Do you want to give them some suggestions, such as planting some water plants? Even growing some bean sprouts is better than eating seafood every day now! "

Even though Ji Xuanyi couldn't eat, he was speechless after hearing this and said, " What a mess, planting on water, why don't you say aquaculture? "

After hearing this, Ze Yu Sishui's eyes lit up and he said, " Our boat is so big! I think it's OK! I want to eat pork! "

Ji Xuan slapped him on the head expressionlessly and said, " Do you fucking eat beef? Shut up. "

Ze Yu Sishui pursed his lips in displeasure and stopped talking.

However, Ji Xuanyi still took a look at the situation around him. It was just as Ze Yu Sishui said. Most players could not stand these foods with too high a repetition rate. Even though they knew that there was experience in them, many people still left their food.

Ji Xuanyi thought about it and said, " Actually, this situation won't last long. We should be able to reach the supply island this afternoon, and there should be other food on it. "

As soon as Ji Xuanyi said this, everyone at the table suddenly looked up and looked at him.

Qi Qin couldn't help but ask: " Can we get there this afternoon? "

Ji Xuan nodded and said, " If nothing unexpected happens, that's it. "

" That means we can change the ingredients for dinner tonight? " Ze Yu Sishui said in disbelief, then suddenly raised his hand and said happily: " Great! I want to eat vegetables! " When Ji Xuan saw him like this, he couldn't help but smile. He looked up and found that Qingfeng Bufu had finally perked up, his face trembling with excitement as he reached into his backpack.

Ji Xuanyi asked curiously: " What are you doing? "

Qingfeng Bufu took out a plate from his bag as if it were a treasure and placed it on the table with great care.

When everyone looked closely, they found that it was a plate of mushroom soup!

Everyone: "..."

Qing Feng Bu Fu sighed: " Since we will arrive at the supply island in the afternoon, I will not hide this bowl of soup. Let's share it with everyone! "

Ji Xuanyi: "... No, how long have you kept this soup? "

Qing Feng said proudly: " Not long ago, that is, I saved some when I first got on the ship. I knew it would become like this later, fortunately I kept it! "

In fact, the game backpack does have a certain freshness preservation function, but in a fully simulated holographic game, except for prop-type food, most of the food is fresh and will go bad if left for a long time.

Yesterday, Qingfeng Bufu enthusiastically served Xue Piaorean a bowl of mushroom soup, and Xue Piaorean seemed to be fine after eating it. But now another day has passed. Is Qingfeng Bufu's mushroom soup still edible?

Everyone couldn't help but fall into deep thought.

Qingfeng Bufu enthusiastically pushed the mushroom soup to the center of the table and said, " Everyone, eat quickly. Don't be polite! "

Everyone: "..."

everyone hesitated for a while, Ming Shao finally came forward to hold Qingfeng Bufu down. Amid Qingfeng Bufu's wailing, Ze Yu Sishui cruelly poured out the bowl of leftover mushroom soup that had been left for who knows how many days.

Everyone lowered their heads to eat. Qingfeng Bufu was like a young wife who had been abused. She felt aggrieved and sobbed as she complained to them.

Qing Feng said with resentment: " Doesn't your conscience hurt? "

Everyone pretended not to hear and continued eating and drinking.

Anyway, we are about to reach the supply island. In fact, Qingfeng Bufu doesn't feel particularly sorry for this bowl of soup. It's just that he has kept it for so long that he has some attachment to it ... But it doesn't matter if he pours it out. We will have fresh vegetables to eat in the afternoon! After everyone finished their food, they began to wait quietly for the afternoon to come.

The first person to see the supply island was of course Jian Xi Xin Jiu. The telescope in the captain's room allowed him to spot the shadowy black dot in the distance at a glance. It was not until he got close enough to clearly see the vegetation on the island that Jian Xi Xin Jiu slapped his thigh and stood up, excitedly announcing in the channel: " Everyone prepare to land! The supply island is almost there! "

For a moment, the whole ship was in an uproar. No one had ever thought that one day they would miss land so much. Some went up to the deck and leaned their heads to look at the small island in the distance that could not be seen clearly at all. Some went straight into the cabin, rummaged around to take out the boat, and prepared to go ashore!

Because they would go to August to settle resource reserves every night, so under normal circumstances, their resources should be enough and even have some in surplus. However, a sudden and fierce battle broke out yesterday, and even though August acted in time, the Starry City's consumption in defense became a huge number.

Last night, when Ji Xuanyi, Qi Qin and Jian Xi Xinjiu went to August to settle the accounts, Jian Xi Xinjiu looked at the string of numbers and almost died on the spot.

In fact, their resources today are already very tight. The so-called arrival time of the supply island is only a rough estimate. It is hard to say whether it will arrive early or late. Ji Xuanyi's heart is actually always on edge – if they can't reach the supply island in the afternoon, they will really have no choice but to dismantle the puppets and use them.

Fortunately, the situation did not develop to that point, and they actually arrived an hour earlier than they expected.

Because there were three main cities, and it was unknown whether the resources would be sufficient after reaching the shore, the leaders of the three main cities almost simultaneously gave the order to advance at full speed, determined to be the first to reach the shore – to be precise, the order from Youyue City and Yangri City was to be the second to reach the shore. After all, the equipment was so far behind, and they had never even thought about the possibility of competing with Star City for the first place.

In fact, this was indeed the case. The large ship from Star City took the lead and reached the near sea first.

There must have been many ships passing by the supply island in the past. There was actually a large dock on the island. Upon seeing this, the players from Star City quickly dropped their small boats and crowded onto the deck, all wanting to be the first to land.

But Fanxing City is an organized and disciplined main city after all. With the support of other players from the three major gangs, they finally managed to make room for Xu Chu and the others to go down first.

Xu Chu ran ahead and fell on the green grass the moment he stepped on land. He said passionately: "Ah! It's the smell of green grass!"

Standing right in front of Xu Chu: "..."

Ji Xuanyi squeezed down with the other players. He was speechless when he saw Xu Chu lying on the ground. He took Qi Qin to pick him up, and patted the grass debris on Xu Chu's clothes. He said speechlessly: " You came up and bowed down to others, are you forcing them to give you a discount? "

Xu Chu: " qwq ! "

: "....."

I didn't understand what they were saying. Just as I was about to speak, another person came running down from the boat and shouted, " Beautiful young man, here I come! "

: "....."

Jian Xi Xin Jiu ran all the way to Ji Xuanyi and the others and asked anxiously: " Did you see the handsome young man?! "

Ji Xuanyi pointed at the one in front of him and said, " Do you want to ask this friend if he is still a teenager? "

Jian Xi Xin Jiu looked up in bewilderment, and saw a muscular man with a tiger head and hair all over his body looking at him awkwardly. He scratched his chin, opened his tiger mouth, and said in a low voice: " Young man? According to human age, I should be considered a young man? "

Sword washing new wine: "..."

Jian Xi Xinjiu rolled his eyes, turned into a white light, and disappeared in front of everyone.

Ji Xuanyi: "..."

Qi Qin: "..."

Xu Chu: "..."

After a long while, Xu Chu finally reacted and asked tentatively: " Did he log off voluntarily or involuntarily? "

Ji Xuanyi said solemnly: " It is probably because he was too shocked and was forced to log off the line. "

Jian Xi Xin Jiu has been very excited since he learned about the orcs. Although he did not get money from Ji Xuanyi, he was not discouraged at all. After all, as the captain, he must have contact with them. When the time comes, why not just act coquettishly to Xu Chu and ask him to help arrange a young secretary to take care of the captain!

But who could have expected that, he was extraordinary, he had ears and a tail, but no one told him that the beastmen were so strong! And he was covered with hair! This level of extraordinary was too much for him!

It's no wonder that Jian Xi Xinjiu was kicked off the line by the security system after seeing it. Just the "young" orc in front of Ji Xuanyi and the others is as tall as Qi Qin, and his muscles are more solid than Qi Qin's. Coupled with a very intimidating tiger head, even if Jian Xi Xinjiu can really fall in love with him, it's hard to say who will be on top and who will be on the bottom! Xu Chu said hypocritically: "How miserable, the sword washes the new wine."

Ji Xuanyi: "... You better shut up. Don't worry, he's quitting. Go and discuss the supplies with him. Sun City and Youyue City will be landing soon."

Xu Chu's family was also in a legitimate business, so he certainly knew the importance of timing. He quickly straightened his clothes and started the conversation with a smile.

Ji Xuanyi listened intermittently while observing the situation around him.

The supply island was much larger than he had imagined. The players ran down from the ship in a mess, having fun and no one knew where to go. Besides the orcs who were sorting the goods, there were also other orc women and children living on the supply island who were looking around at them.

Ji Xuanyi suddenly remembered that August said that these orcs escaped from the Lost Continent. He wondered if they knew anything about the Lost Continent?

Chapter 174

"As for resources, we need about this amount," Xu Chu gestured and said with a smile, "In addition, we need to hire some people. The price is negotiable. What do you think?" Tiger Head stared at Xu Chu blankly for a long time before he said in surprise: "So many?!" Xu Chu had expected the intelligence of the orcs, and was not frightened by the slow reaction. He smiled and said, "Our ship is only this big. I wonder if there are enough resources on the island?"

Tiger Head nodded quickly and said, "That's enough!"

Xu Chu counted the demon gold coins in his hand and asked, "How do you calculate the price?"

, Tiger Head said quickly, "Resources cost 5 gold coins for 20 boxes, food costs 1 gold coin for 10 boxes, and as for manpower, it depends on their respective offers. Do you think it's okay?" So cheap?! Xu Chu almost cried out, but he was a profiteer after all, so he knew that the price offered by the other party could be lowered. However, when Xu Chu raised his head and was about to speak, he saw the honest expression on the tiger's head.

Xu Chu: "..."

I can't bear it! After all, he is already so stupid, there are other people to support on the island! Xu Chu smacked his lips for a long time before saying, "This price seems a bit high?"

Ji Xuanyi, who was watching nearby, couldn't help but glance at him. If Xu Chu wasn't discussing the business of the three major gangs, Ji Xuanyi might have gone up to make him sober up.

However, the course of events was different from what Ji Xuanyi had expected. Tiger had just shown a frustrated expression when Xu Chu said, " But it's not unacceptable if you're willing to let me touch your head. "

Ji Xuanyi: "..."

So you're waiting here!

Ji Xuanyi could imagine Xu Chu's mental journey: Hey, I've never touched a tiger in my life! I might as well take this opportunity to touch it first!

But to be honest, this fury thing really makes people want to touch it ...

In order to prevent players from doing strange things in the game, there are actually appropriate contact restrictions. However, when the player has a good relationship with the other party, or agrees, the player can still touch the other party.

Ji Xuanyi originally thought that Lao Hu would be a little reserved, or hesitate for a moment, but he didn't expect that when he heard that he could just touch it without bargaining, he immediately nodded and agreed!

As expected of the Orcs, you are a gullible tribe. Fortunately, you don't have a real cat-eared boy here, otherwise Jian Xi Xin Jiu would not be able to control himself!

Xu Chu was enjoying petting the big cat, and he was foolishly happy. Then Xu Chu made the final decision to replenish the goods at the offered price, and went to select the goods under the guidance of another dog head.

When Ji Xuan saw that Xu Chu didn't say that there were not enough gold coins, he guessed that he would not be able to use him anymore, so he planned to take Qi Qin to find out the situation around.

As soon as Ji Xuanyi left, the ships from Yuri City and Youyue City arrived together.

Logically speaking, the ship from Dayo City was actually faster than the ship from Youyue City, but unfortunately it had been severely damaged before, and the ship from Youyue City had attribute bonuses, so the two groups of people arrived at the same time.

After stepping onto the shore, Ye Linyu smiled at Zhaochen, who returned a fake smile. Before he could speak, he heard Ye Linyu say, " Boss Zhaochen, please go first? We won't compete with you for our small main city. "

Regarding the matter of the supply island, Ji Xuanyi and his team actually only informed Youyue City. Youyue City certainly would not be kind enough to share the information with Youri City, so Youri City was actually completely unprepared for the appearance of this small island.

But being unexpected does not mean they knew nothing. Just from the energy consumption of their own ships, they could find that the daily task of collecting resources was far from enough. When the three ships began to accelerate together and saw the shadow of the island, Zhaochen guessed that the island was probably used for supplies. Otherwise, if an island suddenly appeared, anyone's first reaction would be to consider whether there would be any danger.

Even with a think tank like Ji Xuanyi, Fanxing City would not look like it was heading for it.

But Zhaochen couldn't understand why Ye Linyu let him go first. After all, he was already here. Was there any difference in talking to him first or second?

Of course, he would not believe such things as a small main city. After losing the battle with Star City, the situation of Sun City had plummeted. Youyue City had already shown signs of catching up. In terms of power, it was hard to say which one was stronger and which one was weaker. Ye Linyu is not a man who is easy to deal with. If he shows weakness to him now, there must be something he is up to!

The corner of Zhaochen's mouth twitched, and he said, " Boss Ye, you are joking. You guys go first, we will wait for the people behind us. "

Ye Linyu looked at him strangely and said, " Why wait for the people behind? Isn't it enough to talk to one person? Gang leader Zhaochen should go first. "

Zhao Chen said impatiently: " This is our own business, there is no need for the boss to worry about it, you can do it first. "

Ye Linyu blinked innocently and said, " Okay, well, we'll go first, you wait. "

Zhaochen thought that Ye Linyu would find ways to trick him, but he didn't expect that after he said it twice, Ye Linyu would take advantage of the situation and leave first. He immediately felt bad. Sure enough, he vaguely heard the conversation between Ye Linyu and the old western doctor in front.

" Is Zhaochen mentally ill? Didn't you say he was smart before? Why did he insist on waiting for others and letting the two of us go first when everyone else was rushing to get ashore? " The old western doctor muttered, " Originally, the two of us, a priest and a swordsman, couldn't outrun him, the knight. "

Ye Linyu said with a smile: " Because I am smarter than him. Keep your voice down. Let's go first. He should be able to react soon. "

After saying that, the two of them quickened their pace and ran away.

Zhaochen: "..."

If you don't want me to hear, please speak a little more quietly!

The problem is that even if he heard it, he couldn't chase after her and embarrass himself.

Zhaochen's face turned blue, red and white, it was so spectacular that he almost spit out Ling Xiao's blood on the spot.

Logically speaking, he shouldn't have been so easily fooled by Ye Linyu's tricks. He wasn't such a fool. It was mainly because of Ji Xuanyi's attitude before he set out that he was always uneasy and couldn't concentrate. His brain couldn't figure it out for a while, so he was fooled even in this situation ...

Zhaochen gritted his teeth, muttered Ji Xuanyi's name twice in his throat, and suddenly called out to the Bancheng executives next to him.

The players in Day City were frustrated one after another and were not in a good mood. The executive was the same. Zhao Chen called him twice before he reacted and responded repeatedly: " What's the matter? "

Zhao Chen glanced at him, as if he had made a decision. His eyes became firm and he said slowly, " The plan has changed. After reaching the Lost Continent, the target will be changed. " The executive was stunned for a moment, then immediately perked up and said, " We're not going to kill the number one in the world? Who should we kill? "

Zhaochen's Adam's apple rolled, and he whispered, " Ji Xuanyi. "

Ji Xuanyi didn't know what stupid thing Zhaochen was planning, so he and Qi Qin strolled into the forest outside the dock. The coordinates of the Starry City ship were shown on everyone's parchment, so there was no need to worry about getting lost.

The supply island is actually not small. There are more than ten villages of various sizes here. Some are divided by vegetarians and carnivores, and some are divided by race. The village closest to the dock is a mixed village with all kinds of orcs.

Ji Xuanyi and Qi Qin walked along and saw many orcs of various kinds.

Ji Xuanyi couldn't help but whisper, "What would happen if two different kinds of orcs married each other? Would there be reproductive isolation? "

Qi Qin didn't know what reproductive isolation was yet, but after hearing Ji Xuanyi's previous words, he barely guessed it and said, "I'm not sure either, but I know that donkeys and horses can give birth to mules. Maybe we can find out by looking for mule orcs here."

Ji Xuanyi smiled when he heard that. Just as he was about to say something, he saw a rabbit-headed man looking at them with an unhappy face.

It was indeed impolite to discuss such things in the orcs' territory. Although they had lowered their voices, the orcs' hearing was very sensitive.

Ji Xuanyi could only smile awkwardly and apologetically at the rabbit-headed orc, and escaped dejectedly with Qi Qin.

Just like many people on the Elemental Continent actually don't know about the Lost Continent, there are probably many orcs on the supply island who actually don't know anything about the Lost Continent. Ji Xuanyi didn't rashly grab anyone and ask, but looked for someone who looked more like an elder, as they must know something.

Ji Xuanyi said, "The longest-lived animal is definitely the turtle, but I don't think I've seen any turtle-like beastmen. Should I go ask them? "

Upon hearing this, Qi Qin suddenly couldn't help laughing.

Ji Xuanyi said: "What are you laughing at? "

Qi Qin laughed for a while and said, "I was thinking, if there really are turtle orcs, wouldn't they look exactly like the turtle prime minister in the TV series? "

When Ji Xuan heard this cold joke, he couldn't help but breathe a sigh of relief.

Fortunately, Qi Qin did not become dirty ...

Ji Xuanyi and Qi Qin walked for a while and found that just searching didn't seem to be very effective, so they stopped and stopped a passing orc to ask who knew the most things among them.

The orc was a deer, and seemed even dumber than the tiger on the dock. After a long while, he muttered, "Who knows the most? Foxes, right? Foxes know the most. We ask the foxes about everything."

After saying that, he realized it belatedly, shook his ears, and said in surprise: "You are humans from outside? You don't have hair on your body, aren't you cold? Oh, by the way, in fact, the dock for your ship to dock was built by the foxes. We made a lot of money. I won't say more. I'm still busy farming. If I don't farm, you won't have enough food when you come here to buy food later! "

After saying that, the man ran away on his own. He was quite fast and before Ji Xuanyi could even say anything, he disappeared.

Qi Qin said sympathetically, " Deer are just so startled. There's nothing we can do about it. "

Ji Xuanyi looked at him speechlessly and said, " Okay, then let's find someone to ask where the foxes are. "

Next, Ji Xuanyi and Qi Qin asked several orcs one after another, and only then did they know that the fox tribe was not willing to interact with orcs of other races and lived alone in the western forest. No wonder Ji Xuanyi and Qi Qin didn't see anyone along the way.

Ji Xuanyi and Qi Qin had no choice but to change their route and head west.

Fortunately, it was already late, and they still needed to move the goods, so they had decided in advance to stay on the supply island for one night. Otherwise, Ji Xuanyi and Qi Qin would not have that much time to slowly look for people on the island.

When it was almost dark, Ji Xuanyi and Qi Qin finally reached the western forest where the orcs said foxes lived.

" They said that foxes don't like to interact with other people most of the time. We haven't seen any orcs in this area, so we guess they are here. " Ji Xuan glanced at the parchment and confirmed that they were heading west, so he nodded and said so with certainty.

Qi Qin also said: " It should not be far away. "

After saying that, Qi Qin added cautiously: " Xuan Yi, it's almost time to log off. We have to hurry up, okay? "

Ji Xuan said, " We can't log off early today even if it's not time to log off. We'll have to leave tomorrow after a good night's sleep, so we have to finish our work tonight. "

Upon hearing this, Qi Qin responded weakly.

When Ji Xuan saw that he was in a bad mood, he felt that he was being a little inhumane. Just as he was about to speak, he heard a clear voice angrily saying, " That's too much! "

Ji Xuanyi: "..."

Before Ji Xuanyi opened his mouth, the voice shouted again: " Too much! Too much! Too much! Too much!!!! "

Ji Xuanyi was so upset. I was talking to my boyfriend. It's none of your business whether I'm being excessive or not!

Ji Xuanyi was just about to call that man out when he saw the bushes in front of him move. A fiery red shadow suddenly jumped out from it, without even braking, and slammed into Ji Xuanyi heavily, causing Ji Xuanyi to stagger. Fortunately, Qi Qin caught him, otherwise he would have fallen flat on his face.

In fact, it was nothing to just hit a person. The red furry creature was still clinging in Ji Xuanyi's arms, crying.

To be honest, it was the first time that Ji Xuanyi heard someone make such a standard “嘤嘤嘤” sound. He couldn't help but pat his head on his chest and said, " What's wrong? "

The two big ears on the furry head trembled, as if he just realized that this person was not the one he imagined, and raised his head in confusion.

Ji Xuanyi guessed that this was probably the cub of some orc, so he tried his best to force out a friendly smile.

Who would have known that the cub looked up at Ji Xuanyi and screamed in horror, " Ghost! " Then his eyes rolled back and he fainted.

Ji Xuanyi: "..."

It's not like Ji Xuanyi had never experienced someone screaming " ghost " after seeing him , but in this situation, isn't it too hurtful? !

However, before Ji Xuanyi exploded, he heard a system prompt, telling him that he had received a task.

Ji Xuan was stunned for a moment, and opened the parchment, only to see an extra line of words on it.

Pre-configuration tasks:

[Runaway Jack] : When you were wandering in the forest, you came across the fox orc Jack who ran away from home. Please gain his trust and send him back to the village. Jack's family will thank you.

Send little Jack home [0/1]

Reward for completing the mission: Unknown.

Pre-tasks are just a concept in many online games, generally referring to a series of tasks that must be completed before accepting a certain task. However, in "Domain", the four words "pre-tasks" do refer to a specific type of task.

This type of task is actually very confusing, because just as its name suggests, it is a prerequisite task with basically no rewards. It just means that after completing this task, you can receive a task chain.

In fact, the tasks that follow are not necessarily tasks with rich rewards. Ji Xuanyi knows that there was once a player in Star City who triggered a pre-task and worked on the subsequent task chain for three days. He almost ran his legs off, but in the end, the experience gained was only as much as that of an ordinary task, and there was no special reward.

After this situation occurred, many players cried out that it was a rip-off, but apart from symbolically increasing some experience rewards and gold coin rewards, the official did not make any major changes to the situation. According to the official, luck is also part of strength. In fact, this is indeed the case. After all, there are many precedents where the pre-tasks led to very awesome tasks. Therefore, after accepting the pre-task, most players will happily complete it to the end no matter what the follow-up is.

Ji Xuanyi certainly had the same attitude. Moreover, he really needed to go find the fox orcs to inquire about the Lost Continent. The pre-task brought by this little fox might be of great help.

The little fox Jack was frightened by the hairless human and fainted. He lay limply on the grass, looking as if he would fall asleep from the fright. Ji Xuanyi was in a hurry and of course couldn't let him sleep like this, so he picked him up and shook him roughly.

The little fox woke up dazed, and when he saw Ji Xuanyi, he almost cried out again. Ji Xuanyi quickly pinched his long mouth and said, " Be quiet! "

Little Jack's big eyes were filled with tears of fear. He nodded pitifully and whimpered.

Ji Xuanyi said helplessly: " Haven't you seen people from outside? We are human beings. We came here by boat. We arrived at your island today to buy things. Do you know about this? "

The little fox was stunned for a moment, then his eyes widened, as if he suddenly remembered something, and the tears in his eyes disappeared. He nodded quickly, and put his two little paws on Ji Xuanyi's wrist, as if he wanted to say something, and patted him quickly with his paw pads. Ji Xuanyi got what he meant and loosened his hand. The little fox didn't even bother to rub his mouth, and said happily: " You are humans! You came here by boat! I heard that you are recruiting orcs to board the ship, right? Can you take me with you? I'm very strong! Take me to see the outside world! "

After saying this, fearing that Ji Xuanyi didn't believe in his abilities, the little fox clenched his claws tightly, revealing his furry, thin arms, allowing Ji Xuanyi to see his pitifully small muscles. Ji Xuanyi: "..."

So this is the plot.

Because the plot is so old, it doesn't even need a mission explanation. Ji Xuanyi can almost guess it. The fox clan seldom interacts with outsiders, but the little fox is very naive and thinks about seeing the outside world every day. It happened that when they arrived on the island, the little fox wanted to apply for a job, but was opposed by his family. He ran away in anger and might even have lost his way.

No wonder he was screaming " this is too much, this is too much " before . He probably felt that his family looked down on him.

Ji Xuanyi coughed, pressed down the hairy little arm, and said, " Well, you are still young, wait for the next wave of boats to come. Come, tell me where you live, and I will take you home. "

When the little fox heard this, he completely wilted. He looked at Ji Xuanyi with his big eyes that seemed to be about to cry. His ears were turned back to the back of his head. He looked so pitiful that he was about to faint. He said, " You said that too. The next wave of ships is just a lie to children. When the next wave of ships comes, you will say that I am too old and can't go out.

Sob ..."

The fox cried so hard that Ji Xuan felt a headache when he heard it. He said quickly, " As expected of a fox, you know a lot. Stop crying and let's discuss this. "

When the little fox heard this, he immediately quieted down, but there were still tears on his furry face, and his fur was all pulled up, looking very aggrieved.

Ji Xuanyi took out a piece of cloth to wipe his tears, and decided to take things slowly, first asking: " What's your name? "

The little fox answered very obediently: " My name is Jack. "

Ji Xuanyi did not complain about the name being so common. He then asked the little fox about its age, who was in its family, when it ran away, and where it lived, just like checking its household registration.

Except for not answering the last question because he was worried that Ji Xuanyi would coax him back, the little fox told Ji Xuanyi everything.

When Ji Xuan saw that the other party was defending so tightly, he couldn't help but sigh. Aren't all orcs said to be stupid? How come this little fox is so smart? He is much smarter than Liu Tian.

It seems that just as it is said in the mission, we have to gain trust first.

In the following time, Ji Xuanyi could only chat with Jack and tell him their previous stories at sea. Seeing that the little fox was hungry, he took out some grilled octopus skewers from his backpack and gave it to him to eat. It took a lot of effort to finally make the little fox relax and tell Ji Xuanyi everything about his experience at home.

It is really hard to resist when some animals show sad expressions. Even Ji Xuanyi couldn't help but feel soft-hearted. He tentatively placed his hand on Jack's head.

The little fox really acted like a little animal, squinting its eyes happily, holding its head high, and tucking its ears behind its head to let Ji Xuan touch it.

Ji Xuan said earnestly, " You are a member of the fox tribe, and you know much more than other beastmen. In fact, you should also know that your family members don't really look down on you, they are just worried about you. I have been advising you for so long, and I mean the same thing. "

When the little fox heard this, he opened his eyes and looked at Ji Xuanyi with some sadness. After a long while, he said, " I know everything. Otherwise, I wouldn't have stayed here with you for so long. But I really want to go out and have a look. This is my dream. Everyone is only worried about my safety. Haven't you ever considered what I think in my heart? Although I am indeed young, I have reached the age where I should be able to take charge of my own affairs among the orcs. Have you seen Tiger An at the dock? He is only one year older than me! "

Ji Xuanyi: "..."

He had never expected this! It turns out that Tiger Brother at the dock is actually a young boy! The little fox said sadly, " He has become the manager of the dock, and I am still eating and sleeping at home. If you don't know me, you would think I am a pig. "

Ji Xuanyi also didn't expect that, although the little fox looked like Ze Yu Sishui, his age was almost the same as the tiger that was stronger than Qi Qin. From this point of view, the reason for him to run away from home seemed quite sufficient?

Ji Xuanyi choked for a long time, and even stopped stroking the little fox's head. The little fox pushed him unhappily, and he continued to stroke it. He said hesitantly : " If you say so, then I understand a little, but I can't just take you away like this. If you want to go out, you must tell your family. "

Ji Xuanyi hesitated for a moment, then said pretentiously, " How about this, you take us home too, and I'll talk to your parents. If I guarantee you, they should agree to let you go, right? "

It just so happens that he can complete the task!

The little fox was not stupid. After hearing this, he hesitated for a moment and said half-doubtfully: " You are not lying to me, are you? You took me back and left me there? "

Ji Xuan thought to himself, he really didn't have this idea, he had to talk to the person who knew the most in your village!

He then patted his chest and said, " Of course not. I will try my best to convince your family. "

After hearing this, the little fox became happy. He put both paws on Ji Xuan's arm and said happily: " Remember to mention my age more often. I really don't want to be looked down upon by them anymore. "

Ji Xuan thought to himself, this setting is still a bit silly. What's the point of mentioning your age? Your family raised you up, don't they know how old you are?

But the little fox's eager eyes were so touching that Ji Xuanyi could only nod and say, " I will. " The little fox cheered happily, stood up, grabbed Ji Xuanyi's hand, and could not wait to lead the way, saying: " Come on, I'll take you home! "

Ji Xuanyi smiled helplessly and walked forward following his force.

Qi Qin followed Ji Xuanyi happily and whispered, " Xuanyi, do you like small animals? "

Ji Xuan glanced at him, raised his eyebrows and asked, " What do you mean? "

Qi Qin muttered, " You are so gentle to him. "

This can be said to be Ji Xuanyi's best temper!

Ji Xuanyi couldn't help but smile when he heard this, and said, " Am I not gentle to you? "

Qi Qin: "..."

Qi Qin originally wanted to shake his head honestly, but after taking a look at Ji Xuanyi, a desire to survive that came from nowhere hit him!

Qi Qin said seriously: " Xuan Yi is very gentle to me, really! "

Ji Xuanyi showed a satisfied smile.

Ji Xuanyi originally thought that they should be quite close to the fox village, but he did not expect that they had been walking for nearly an hour. He looked at the parchment and found that although they did not go in the wrong direction, the timing of changing the route was a bit wrong. They turned too early and missed the fox village. If they had not met Jack, they might have walked to the edge of the island and still not found where the foxes were.

As soon as the two arrived at the edge of the fox village, they could vaguely see the lights in the village on, and there were voices calling Jack's name, high and low. Many adult fox orcs were holding torches looking for the little cub that Ji Xuanyi was holding.

Ji Xuanyi looked down at the little fox, who stuck out his tongue at him, let go of his hand, and ran out, shouting, " I'm here! "

Ji Xuanyi and Qi Qin were slower than him. When they got nearby, they heard the familiar "嘤嘤嘤" cry of the little fox. It was probably because it had been punished badly.

As soon as Ji Xuanyi and Qi Qin walked out, the fox tribe beastmen saw them and showed some defensive expressions. They asked: " Are you the humans who came to the island today? Why are you here? "

Ji Xuanyi heard the system prompt that the task was completed. He took out the parchment and saw that the previous task had ended and was replaced by the [Task Chain] task.

[Quest Chain] : First Ring

[Jack's Dream] : You sent little Jack back to the village. Little Jack now trusts you very much and hopes that you can help him convince his family to let him go to sea.

Convince Jack's family [0/1]

Mission Reward: A little fox named Jack as a pet [Limited time]

Ji Xuanyi: "..."

What a weird reward this is!

Ji Xuanyi was speechless for a moment, but he still had to continue his mission, so he put away the parchment and said to those in front of him: " Yes, we are humans from the ship, but we have no ill intentions, we just want to see ... uh, help send Jack back. "

Still refusing to let down his guard, the little fox Jack struggled to slip out of the adult orc's hand. Amid the screams of the crowd, he ran to Ji Xuanyi's side, held his hand, and said, " He is the captain of those humans! He agreed to hire me! But he said he needed the approval of his parents. I am bringing him back to see my parents and grandparents. Don't stop me! "

When Ji Xuan heard this, he was speechless. He was indeed a little cub of the fox clan. He could even lie like he was the captain without any hesitation, without worrying about his tongue. However, those who were also from the fox tribe clearly understood the nature of their own people and said helplessly, " You just caught two humans and said they were the captain? Do you have any evidence? Stop fooling around and go home quickly. "

Jack tightly grasped Ji Xuanyi's hand, leaned on him, and shouted: " He is the captain, and this is our family's business. What you say doesn't count. I don't care. I want to take them home! " The situation suddenly became deadlocked.

Ji Xuanyi was certainly not in a hurry. The mission had already been accomplished here. Everything from now on would depend on its own development. When it got stuck, that would be the time for him to speak.

Sure enough, after a while, the orcs looked at each other, and one of them said hesitantly : " Although humans are more cunning than us, this human sent Jack back instead of taking him away quietly, and even asked for the consent of the parents before hiring him. Maybe he is not a bad person after all? "

Although the other fox orcs still had some doubts , they generally thought the same as the orc who spoke. They nodded hesitantly and discussed in a low voice for a while before the orc who spoke first stood up and said, " Okay, let them in, but we have to take you home together. "

Jack's ears stood up straight with joy, and he said, " Okay! Let's go! "

After saying that, he took Ji Xuanyi's hand and walked towards the fox orcs.

Qi Qin was a little uncomfortable, but Ji Xuanyi calmly ignored the wary looks and followed them to Jack's house.

All the buildings in the fox village are of the same style. It is impossible to tell which family is more important and which is just an ordinary citizen. At most, there are some differences in size, but that is not due to status, but because the houses of families with more people are bigger. Jack's family is a standard family of five, and their house is neither big nor small compared to other people's.

" Old Jack! Your little Jack is back! Open the door! " one of the fox orcs shouted.

Ji Xuanyi lowered his head and asked in surprise, " Little Jack, didn't your parents go out to look for you? "

The little fox's ears trembled, and he still said excitedly: " They went out to look for me. The man called ' Old Jack ' is my grandfather. He is old and can't go out anymore. When they call ' Jack they , ' are calling my dad. I am Little Jack. "

Ji Xuanyi: "..."

It's really easy for the officials!

Soon the door of Little Jack's house was pushed open, and a fox beastman who looked very old leaned on a cane and poked his head out tremblingly, saying: " Little Jack is back? "

Chapter 175

The little fox Jack ran up and shouted, " Grandpa! I'm back . I brought back the captain of the human ship that came to the island today . He agreed to hire me! "

Little Jack's grandfather frowned , touched Jack's head and said, t'Don " be silly. You are only a little kid . Don't talk nonsense about going to sea or not. "

After saying that, Old Jack looked up at Ji Xuanyi and the others, smiled, and said, " Thank you for sending little Jack home . I know this kid is just talking nonsense . Don't mind it. The kid's parents haven't come back yet. Why don't you come in and rest for a while? "

After saying that, Old Jack sent away the other fox orcs who brought Little Jack back, and then he dragged the reluctant Little Jack to welcome Ji Xuanyi and Qi Qin into the house.

I don't know if it's because the fox orcs are more particular , but the decoration style of little Jack's house is not much different from that of humans. It even looks quite fresh.

Old Jack asked Ji Xuanyi and Qi Qin to sit at the table, and he brought them tea and fruit , then sat down as well . Little Jack looked eagerly at Ji Xuanyi, then at Old Jack, and finally sat down next to Old Jack with a wronged look on his face.

Before Ji Xuanyi could speak, Old Jack said, " Little Jack's parents will be back soon. Alas , this child is really worrying. His grandmother is still lying in bed. I am an old man left, and I can only look after the family. "

Ji Xuan was stunned for a moment and said, " Is little Jack's grandmother sick? How can we help? "

Ji Xuanyi thought this was part of the task chain, and asked subconsciously, but he looked at him defensively and said, " It's just a minor illness, it's nothing serious, you don't need to worry about it. "

Upon hearing this, Ji Xuan could only respond hesitantly and didn't say anything more.

Seeing that he didn't say anything, she started nagging again. Ji Xuanyi really couldn't get a word in about the trivial topic of family life, so he could only listen dryly.

I told you all the trivial things about little Jack. The main idea was that the kid was still young and kept talking nonsense about going out. You should never believe him. Thank you for sending him back. The specific reward will be discussed after his parents come back.

Ji Xuan almost fell asleep after hearing this and leaned on Qi Qin without moving. Little Jack looked at him eagerly and wanted to say something, but then he glanced at his grandfather and closed his mouth again.

After a while, little Jack's father and mother came back.

It seems that the fox orcs have no natural physical advantage. Little Jack's father should be considered a fox orc in his prime, but he is thinner than Ji Xuanyi. If it weren't for those two big ears standing up, he would probably be shorter than Ji Xuanyi.

Little Jack's mother sobbed and hugged him as soon as she entered the door, but his father, like all strict fathers, frowned and had a sullen face.

Little Jack hid in his mother's arms, shook his ears, timidly stuck out half of his face and looked at his father.

Jack snorted coldly and said, " You still want to go to sea in this state? "

When little Jack heard this, he got anxious and broke free from his mother's arms, ran to Ji Xuanyi, and said with his head raised: " I can do it! I'm not young anymore, right? "

If it were in real life, Ji Xuan would most likely stuff little Jack back into his parents' arms, but this is a game after all, and he has accepted the mission, so he said, " I did promise little Jack that I can hire him to go to sea with me. Although I'm not the captain, the situation is similar. I will ensure the child's safety. "

However, even Ji Xuanyi himself felt that such words were a bit dry. Who are you? You can promise just because you say so. Why should others believe you?

As expected, Little Jack's father just gave him a fake smile and said, " Thank you for sending him back, but there's no need to say such things. As a thank you gift, how about using the discount on the resources you bought from the island? Since you can find this place, I believe that the orcs have already told you what the fox tribe has done for this island. I can still say something at the dock, so don't worry about me defaulting on my debt. "

The fox father's words completely shut Ji Xuanyi up, leaving him speechless.

Who said orcs aren't very smart? They're obviously much harder to deal with!

Seeing that Ji Xuanyi was speechless, Little Jack got angry and stood in front of Ji Xuanyi, shouting: " Enough! I just want to go out and take a look, why do you always try to stop me? No one takes my dream to heart, no one cares about me! This is the human I found with great difficulty, and he has agreed to it, why can't you just nod your heads?! "

The fox father didn't take him seriously at all and said, " How old are you? What do you know? The dangers outside are not like those in the village. They are just pranks of little cubs. "

The fox father seemed to want to cite some examples of human evil intentions to convince little Jack, but he glanced at Ji Xuanyi who was sitting next to him, smacked his lips, and still showed some mercy, saying, " Anyway, these are all terrible things that you can't even imagine, so just be quiet. "

Little Jack sniffed, his eyes became wet, his big red tail drooped, and his ears unconsciously folded behind his head.

He looks like an abandoned puppy now, it's really heartbreaking.

Ji Xuanyi was a little annoyed. It wasn't that what little Jack's father said was wrong, but mainly because his father's appearance reminded Ji Xuanyi of bad memories. He immediately asked: " How long have the orcs lived on this small island? "

Little Jack's father's ears twitched suddenly, and he turned his head to look at him and said, " What do you mean? "

Ji Xuanyi was just testing the waters, but he didn't expect that they would actually react to his words. He immediately said, " The orcs escaped from the Lost Continent. Because they don't have the strength to cross the ocean, they can only live on three small islands. They have no contact with the outside world all year round. It doesn't matter that they can't return to their former glory, but you guys are content to stay in a corner, so are you going to stop the younger generation from going out to see the world? "

After hearing this, Jack laughed instead of getting angry and said, " The orcs are incapable of crossing the ocean? How can you, a human, say that? Since you know about the Lost Continent, you must have heard about how humans left the orcs behind and left alone, right? "

Ji Xuanyi was stunned. Is this possible?

However, the old grudges that he didn't know about were not that important. Just because he sent little Jack back, Jack would not directly attack him and Qi Qin. Moreover, this time one thing was finally confirmed: the orcs of the fox tribe really knew about the lost continent.

When Little Jack heard what his father said and saw that Ji Xuanyi was silent, he looked at the two of them in confusion and asked, " What are you talking about? Why don't I understand? " August was not around, and Ji Xuanyi was not sure whether what Jack's father said was true or not. How should he respond? He could only touch his head and said to Jack's father in a roundabout way: " It was a long time ago that the two tribes left the Lost Continent. It is unclear who is right and who is wrong. There is no point in arguing about it now. "

" But there is one thing I need to tell you. The destination of our voyage this time is the Lost Continent. We want to retake this territory. It's not a bad idea to let little Jack go with us. You should understand what opportunities the first wave of people to arrive in a new continent have. "

The fox tribe's AI settings are very high, at least in terms of IQ, it far exceeds that of Liu Tian and Jian Xi Xin Jiu. When Ji Xuanyi said this, Jack's father was indeed moved, but he quickly reacted and said, " The opportunity and the degree of danger are directly proportional, but I have to say that your actions are indeed very exciting. "

" This is the first time I've seen such a big ship. I believe you've made preparations. The possibility of failure of this operation is very small ... The orcs have been silent for long enough and really need a chance, but little Jack can't do that. He's my son, and I can't let him take this risk. "

Jack's father pondered and said, " Even if I really want to fight for the first chance for the foxes to return to the Lost Continent, I can only go with you instead of letting little Jack go out. "

When Ji Xuan heard this, he couldn't help but complain in his heart.

Am I fucking sick? Bringing someone as difficult as you on board means little Jack isn't sweet or cute enough?

As expected, little Jack also jumped up immediately, blocked Ji Xuanyi behind him, and protested to his father: " How can this be! This is too much! I was the one who found this human, how could you snatch my opportunity, Dad?! This is too much, too much, too much!!! Oh, oh, oh ..."

Little Jack couldn't help crying again. Ji Xuanyi didn't want to take his father on board, so he said earnestly, " Children have to grow up. Little Jack is not young anymore. Aren't tiger orcs of similar age already helping out at the dock? As a smart fox orc, Little Jack is no worse than him. I understand your parents' painstaking efforts, but you have to give Little Jack a chance to prove himself! "

Little Jack's father had a stern face, as if it was useless for him to say anything. But when Ji Xuanyi was halfway through his words, he was stunned for a moment and looked at little Jack with a frown.

Little Jack held Ji Xuanyi's hand, looked back at him eagerly, and said sincerely: " Dad, I really can do it. Look, this is my first time going out, and I found two humans. Give me a chance! They are all good people and will take good care of me! "

The corners of Jack's father's mouth twitched, and he looked at Ji Xuanyi helplessly.

Ji Xuanyi felt strange when he was looked at like this, and asked curiously: " What's wrong? "

Jack's father looked at little Jack again, and finally sighed helplessly and said, " It's nothing ...

Never mind, I know, I have seen the determination of this child. "

He hesitated for a while, then looked at little Jack's grandfather and mother. After a long while, he made up his mind and said, " Okay, I agree. Let this child go with you to the Lost Continent. "

Ji Xuan was stunned when he heard this. He didn't expect that Jack's father, who had just been unmoved, would suddenly change his mind. He was a little confused for a moment, until little Jack cheered and hugged him, then he reacted and said, " You agree? "

Jack's father frowned, and did not seem to become more open-minded. He looked even more serious than before. He glanced at little Jack and said, " This is a decision you made yourself. If something goes wrong, you have to learn to take responsibility for it yourself. "

Of course, little Jack straightened his back and nodded solemnly.

Then, Jack's father looked at Ji Xuanyi again and said, " What I said just now was what I said to that child as a member of the tribe, but now these words are what I want to say to you as a parent. "

" First of all, thank you very much for sending little Jack back. I will go to the dock tomorrow to inform them about the resource discount. Secondly, this is not only the first time for this child to go out to sea, but also the first time to go out. Not to mention that the destination is the lost continent occupied by the evil god. I hope you can take good care of him and at least don't let him die outside. "

Ji Xuanyi nodded without hesitation. No matter how stupid the official was, the chance of the event failing was still very small. What's more, they had August as a plug-in, so it would be difficult for the little fox to get into trouble. Even if there was an accident, with so many people in Fanxing City, it would be more than enough to protect one.

Seeing Ji Xuanyi agreed, Jack's father's expression relaxed. He smiled and said, " You humans must have almost forgotten about the Lost Continent. Come with me to the house. I have something to tell you. "

Ji Xuanyi was cheered up. He never expected that he was ready to tell them the information about the lost continent without them asking. He immediately followed.

At the same time, the prompt sound for the completion of the task rang again. Ji Xuanyi knew without looking that another link in the task chain must have been completed. Congratulations to the player for getting a little fox and a pet!

As soon as Ji Xuan opened the parchment, he saw another line of tasks on it.

[The Secret of the Lost Continent]

You finally convinced the stubborn fox father, but he is still very worried about the safety of his children. Now, he wants to tell you something about the lost continent. Please listen quietly.

Listen to Father Fox's explanation of the lost continent [0/1]

Mission completion reward: 10% of the current experience bar.

Ji Xuanyi couldn't help but raise his eyebrows, this kind of percentage experience reward is rare, especially at his current level, 10% of the experience bar is not a small number, it takes at

least nearly a week of tasks to get it. It seems that this task chain is quite cost-effective. This task has completely paid off, and it is a task that can be completed by AFK and listening to talks.

"It's not easy for humans to still remember the Lost Continent. You can think of a counterattack, which shows that you are prepared."

Ji Xuanyi glanced at the fox father and said, "Yes, in fact, we are absolutely sure. Not long ago, the evil god who attempted to invade the elemental continent again was repelled by us. After discussion, the three great magicians of mankind decided to take advantage of the victory and recapture the lost continent."

The fox father smiled noncommittally and said, "You have already driven out the evil god? That's not bad. It seems that your strength is indeed very strong. But there is one thing I need to tell you. The current situation of the Lost Continent may not be the same as you imagined."

Ji Xuanyi blinked, and did not say that he had never thought about what the Lost Continent was like now, but asked directly: "What do you mean?"

The fox father said, "I guess the things about the Lost Continent were told to you by those three great human magicians you mentioned. Did they tell you that the humans and orcs back then were actually much stronger than you are now, and that the evil gods are no match for us at all?"

Ji Xuanyi was stunned for a moment, then frowned. He had already guessed what the fox father was going to say.

As expected, he said, "The united humans and orcs can be said to be invincible. Nothing can harm us. But at that time, humans and orcs had a civil war."

"The evil god seized this opportunity to capture all humans and orcs and completely expel them from the Lost Continent."

Although it is an old joke, it has to be said that this situation is indeed very easy to happen. It is very difficult for two races to fully trust and cooperate with each other, not to mention that the appearance of the orcs is indeed difficult for humans to accept.

The fox father said, "The grudge between humans and orcs is just as you said. There is no point in discussing it now, so I won't say much. I just want to tell you that when humans and orcs left together, the orcs were forced to stay. Some of them, that is, our ancestors, took a small boat to the three small islands, and some of them stayed in the Lost Continent and became minions of the evil god."

Ji Xuanyi frowned and said, "You mean, when we go to the Lost Continent this time, we need to deal with not only the evil gods, but also the orcs who left behind?"

The fox father nodded, then shook his head and said, "Not all of the orcs who stayed behind have become minions of the evil god. Some of them still want to take back their territory. However, whether they are orcs who obey the evil god or orcs who want to resist, they basically have no good feelings towards humans."

Ji Xuanyi made a "tsk" sound in embarrassment.

The fox father said, "The reason why I know this is because our tribe has passed this news on by word of mouth. In fact, there are still some fox tribes in the Lost Continent. I can't say which side they are on now, but our tribe has always been protective of its own people. No matter what, we will never attack our own people. If something happens in the Lost Continent, or you

don't have time to take care of little Jack, you can send him to the hands of the fox orcs in the Lost Continent. "

" Although I know it's not good for you to deal with the enemy , but no matter who they obey, little Jack will be fine. I hope you can promise me this. "

As soon as the fox father finished speaking, Ji Xuanyi's mission was completed. The next task was for him to agree to the fox father's request and hand over the pet little Jack to the hands of the fox orcs in the lost continent after arriving at the lost continent.

Although he didn't know what the current situation of the Lost Continent was, it could be seen from the mission that little Jack could become a link to re-establish contact with the Orcs of the Lost Continent. Ji Xuanyi certainly couldn't refuse.

Another thing that caught Ji Xuanyi's attention was that this task seemed to be the final link in this task chain. The reward column for completing the task did not directly tell him what the task reward was, but instead directly wrote the word "unknown".

The early rewards are already so generous, it's impossible that the last link of the task will reveal that there are only dozens of gold coins, right?

After hearing Ji Xuanyi's assurance, the fox father smiled with relief and said, " I don't know much about the Lost Continent. I don't know whether you can form an alliance with the orcs after you arrive. Everything depends on your own luck and ability. But there is one thing I need to remind you. "

" Of the three islands, our island is the farthest from the Lost Continent . We basically have no contact with that island and are not affected by it. But the other two islands are different, especially the last one you will pass. To be honest, it is not far from the Lost Continent . It is hard to say whether it has been eroded by the power of the evil god. I hope you can be careful. "

Ji Xuanyi almost understood what Fox Dad meant, and the information he obtained on this trip was a little more than he had imagined. It can be said that he not only made no loss, but also made a profit.

After Ji Xuanyi talked with the fox father, he prepared to leave.

It is already past eight o'clock, and Qi Qin is holding on entirely by willpower and the experience he gained from staying up late several times before. It is time for them to log off.

Little Jack was talking to his dad, and it was basically the latter telling the former some common sense stuff, like don't mess with guys who are much stronger than you.

After talking to his father, little Jack excitedly ran to Ji Xuanyi and said happily: " Thank you! Thank you so much! I can go out to sea with you tomorrow! "

After saying this, he couldn't help but look back at his family, feeling the sadness of a belated separation.

Ji Xuanyi touched his head and said, " Life at sea is not as interesting as you think. To be precise, it is very boring, and the food is also the same, always seafood. "

The little fox Jack barely lives in the inland area of the island. He doesn't eat seafood very often, and his daily meals are mainly small animals and berries. Hearing Ji Xuanyi's words, he couldn't help swallowing his saliva.

When Ji Xuan saw his useless look, he felt as if he saw the player who had just boarded the ship.

It doesn't matter, you won't be able to swallow your saliva in two days.

Ji Xuanyi thought about it, and out of consideration for the child, he still advised: " You can bring more of your daily food, such as berries, dried fruits or meat. It will never go wrong to change the taste more often. "

After hearing this, the little fox nodded obediently and replied crisply: " I will! "

Ji Xuanyi smiled with satisfaction and said, " You know where the dock is, right? Come to see us at eight o'clock tomorrow morning. We will leave at about ten o'clock. If you are late , you will be left behind. "

When the little fox heard this, he straightened his back and said seriously, " I will definitely not be late ! "

Ji Xuan nodded and took Qi Qin away from the Fox Village.

After all, this is the center of the supply island. Not to mention whether it is safe to log off here, we may not be able to catch the boat tomorrow morning. Not to mention the little fox, they will be in trouble if they are left behind.

When Ji Xuanyi and Qi Qin returned to the dock, except for a few players, the orcs had all gone home to rest. The hired orcs would gather at the dock and board the ship early tomorrow morning, and the puppets on the ship could be replaced – by the way, there was also the resource discount that Fox Dad mentioned, Xu Chu owed him another favor.

Ji Xuanyi and Qi Qin logged off as soon as they arrived. After washing up, Qi Qin couldn't help but have a midnight snack, and then the two of them lay down on the bed.

According to Qi Qin's personality, he should be the type who can fall asleep as soon as he touches the pillow, but this time after lying on the bed, Qi Qin turned over twice and still couldn't fall asleep. Ji Xuanyi was so annoyed by him that he kicked him and scolded: " It's not the time for you to doze off just now, what are you doing?! "

Qi Qin hugged Ji Xuanyi's feet, rubbed them, and said, " Xuanyi, I was wondering if we can have a pet? "

Ji Xuanyi was stunned and said, " What? "

Qi Qin whispered: " Little Jack is very cute. "

Ji Xuanyi: "..."

Just when Ji Xuanyi was about to explain to Qi Qin in detail how troublesome it was to raise a small animal, Qi Qin closed his eyes and fell asleep.

Ji Xuanyi had no way to deal with him and could only wait until tomorrow to talk to him.

Although it's such a small matter, he will most likely forget about it tomorrow.

In fact, there was no need for Ji Xuanyi to remind him. Soon, Qi Qin realized how troublesome it was to raise a pet.

The next morning, Ji Xuanyi and Qi Qin got out of bed and logged into the game.

Since the start of the sea activities, players have been logging on earlier and earlier. It's not even eight o'clock yet, but the dock is already bustling with hired orcs rushing to gather, executives having conversations, and individual players craning their necks to see the novelty. It's really lively!

Ji Xuan raised his eyes one by one and saw Xu Chu and Jian Xixinjiu, the former was happily counting the people, while the latter had a gray face and looked bored.

Ji Xuanyi walked over and said to Jian Xixinjiu: " You were not online yesterday? "

Jian Xi Xin Jiu glanced at him, almost burst into tears, and said, " I fucking went up once, and was bounced off again ..."

After being kicked off the line for the second time, Jian Xi Xinjiu finally realized that he really couldn't force himself, otherwise not only would he be in danger, but the game company would also be in trouble!

Ji Xuanyi couldn't help but ask, " Is the blow really that great? "

Jian Xi Xin Jiu murmured, " I was so excited about the beautiful boy with animal ears, but when I saw that tiger brother, I was greeted with ten times more despair. "

Ji Xuanyi: "... You're so hypocritical. "

Jian Xi Xin Jiu said angrily: " How can you people with a relationship understand? You're still blaming me. It's not easy for me to climb up here today, okay? "

Do you know how much effort Jian Xi Xin Jiu put in to abandon the beautiful boy with animal ears that he had always loved, so that the shock he received after going online would not be so great!

Ji Xuanyi said he didn't know.

Xu Chu counted the men happily. The orcs' hiring fee was not much, they were even only slightly more expensive than vegetables, but the men they sent were basically strong men who were worth two men each, and their fighting capacity was obviously very high.

Jian Xi Xin Jiu followed Xu Chu and muttered softly, " I don't want such a strong muscular man to send me a notice. Even if there is no beautiful boy, send me a slimmer one. "

Xu Chu ignored him and said, " What time is it? Can you stop being such a beast? "

Jian Xi Xin Jiu said angrily, " What do you mean by beast? I just don't like so much muscle. It's too stressful to look at. And even if I have a slim body, it's all hair. What can I do? "

Xu Chu immediately stood eight feet away from him , looked at him with a perverted look, and said: " Fuck, what are you going to do with no hair? "

Jian Xi choked on the new wine and was completely speechless. He could only shout: " That's not what I meant! "

The two of them were still arguing, and Ji Xuan glanced at the time and said, " Why hasn't little Jack come yet? It's past eight o'clock. "

When Xu Chu heard what Ji Xuanyi said, he pushed the sword and wine aside, raised his hand to signal that they could get on the boat, and moved closer to him and asked, " Little Jack?

What little Jack? I was wondering why you suddenly disappeared yesterday. Where did you go to hook up? "

Ji Xuan glanced at him and was about to tell him to be careful with his words and not to seek a fight, when he heard a familiar " wailing " sound coming from a distance.

Xuchu and Jianxixinjiu both looked in the direction of the sound. Xuchu said, " What's that sound? It's whimpering ... Why does it sound like a fox? "

Ji Xuanyi: "... You can hear all of this, that's amazing. "

After Ji Xuanyi finished speaking, he took Qi Qin and walked in that direction without caring how strange Xu Chu looked.

Xu Chu and Jian Xi Xinjiu looked at each other and followed.

Ji Xuanyi and Qi Qin were not far from the pier . They pushed aside a bush and saw the source of the sound – it was indeed little Jack, the poor little fox. He was carrying a bag that was bigger than him and could hardly walk. But seeing that he was going to be late , he could only cry while carrying the bag and moving forward bravely.

Before Ji Xuanyi could say anything, Xu Chu, who followed him, had already said , What the " What the .s really a fox'it , hell hell , is this using a fox like a donkey? "

When the little fox heard someone talking, he looked up and found it was Ji Xuanyi. He immediately tilted his head back and started to cry out at the top of his lungs , with his ears and tail drooping. He looked extremely pitiful.

Ji Xuanyi's head hurt from his crying, so he had to let Qi Qin go up and take off his bag and put it on his back, while he went over to hug the little fox to comfort him.

Little Jack was freed and immediately hugged Ji Xuanyi's waist, pressing his head into his arms, sobbing, " It's so heavy! "

Ji Xuanyi patted his head, not knowing how to comfort him, and only said: " Okay, okay, we're already at the dock, don't you want to go see the big ship? "

Hearing this, the little fox perked up all of a sudden, tears still hanging in his eyes, his ears already erected, leaning on Ji Xuanyi to look out of the bushes, muttering softly: " Dad also asked me to bring a letter to An, saying it was the thank-you gift I promised to my little brother. " When Ji Xuan heard this, he understood that little Jack's father did not come, but asked him to bring the discount letter. He guessed that he wanted to let little Jack exercise himself.

Qi Qin picked up Little Jack's bag and immediately couldn't help cursing, saying, " It's so heavy! "

Even Qi Qin felt it was heavy, no wonder little Jack was crying like that.

Ji Xuanyi was speechless and asked, " What did you bring? "

Little Jack sniffed and said, " Berries and dried meat ... my grandparents and mom prepared them for me last night. "

Ji Xuanyi: "..."

Okay, he understood. It was normal for parents to overreact when the only child in the family went out.

Ji Xuanyi comforted the little fox and was about to go out with Qi Qin. Xu Chu squeezed over, looked at the little fox eagerly, and said: " Awesome Ji Xuanyi, where did you get this from? Oh my, it can even shake its ears! So cute! Can I touch it? "

Ji Xuanyi said coldly: " No, go away. "

Xu Chu said persistently: " Then touch the tail – or the paws! "

Ji Xuanyi said calmly: " Xu Chu, you have become the same kind of person as Jian Xi Xin Jiu. Wake up quickly! "

Xuchu put on a big face and ignored all this. He came close to little Jack and said like a pervert: " Little fox, let your brother touch your paws? "

The little fox was so scared that it let out a chirp and almost hugged Ji Xuanyi and climbed onto his head.

Ji Xuanyi pushed Xu Chu away with disgust, and subconsciously glanced at Jian Xi's new wine. Even though he didn't like the orcs' sword-washing new wine, his face was moved when he saw little Jack.

Ji Xuanyi realized that he seemed to be mumbling something, so he walked closer to hear clearly that the man was mumbling: " It's cute, but I'm not a child lover ..."

Ji Xuanyi: "... Beast, get out! "

Chapter 176

Apart from the hired orcs, the most troublesome thing was to gather those players who ran around happily as soon as they got off the boat . It took Jianxi Xinjiu a lot of effort to count the number of people and make sure that no one was left behind.

As soon as ten o'clock arrived , Jianxi Xinjiu notified the other two main cities and prepared to set off.

When the little fox followed Ji Xuanyi and the others to the boat, he handed the letter given to him by his fox father to the tiger orc An . Although he was a little reluctant, the orc still returned the extra gold coins after the discount to Xu Chu.

For this reason, the city of Dayo was jealous.

They had spent a lot of demon gold coins to buy the ship before they set out, and because of the previous fierce battle, resources were in short supply . Although their ship was not as big as the Starry City and the resources they needed to reserve were not more than those of the Starry City, the consumption of gold coins seemed to be unsustainable.

Of course, it doesn't mean that the situation is really at the end of its rope. It's just that apart from the current small island, there are two more small islands behind . In addition, after arriving at the Lost Continent, it is not known whether there will be any places that need gold coins. In fact, the Sun City is already a little overwhelmed.

But at this time, they saw their arch-rival Fanxing City receiving preferential treatment, and of course they were so jealous that their eyes were about to bleed.

However, Day City could only be jealous for a moment . Facing the current Fanxing City , Day City could not do anything it wanted to do. Xu Chu was already relatively conscientious, as he did not specially go to Day City to hang around and show off.

Ji Xuanyi and Qi Qin did not need to worry about the specific matters of sailing. When Jianxi Xinjiu was counting the number of people , Ji Xuanyi and Qi Qin led the little fox on board first. Xu Chu wanted to follow stealthily, but Ji Xuanyi directly pushed him to Jianxi Xinjiu to help.

The orcs on the boat also had some reaction to Ji Xuanyi's pet little fox, but their AI was not that high and their reactions were all the same. Apart from lamenting that this was a little cub of the fox clan and they had never seen one before, they were wondering why such a small cub was also hired.

After the little fox went out, he was not so timid anymore. He was not afraid when he heard other orcs talking about him. He just pretended not to hear and followed Ji Xuanyi closely.

Ji Xuanyi didn't know how to settle this little guy, so he had to take him to his and Qi Qin's room first, so that he could get familiar with the place and know where to rest.

Although the ultimate purpose of the room prepared for players is just to provide a place to store offline data, the furnishings inside are still the same as those in a normal room. After Ji Xuanyi pointed out his bed, the little fox ran over and then looked at Ji Xuanyi eagerly.

Ji Xuanyi understood what he meant and said to Qi Qin, "Take his bag over."

Qi Qin responded and did as he was told.

The little fox carefully untied the bag and took out dried meat, dried fruits, and fresh berries. He carefully hid the former two in small packages under Ji Xuanyi's bed. As the latter could not be stored for a long time, he did not bring much and only put them in a small wooden bowl.

The little fox said crisply: "Little brother, please sit down! I will go and wash the fruits for you!"

After saying that, without waiting for Ji Xuan to react, he held the wooden bowl high in both hands, stepped on his two little paws, and ran out again.

Ji Xuan was stunned for a moment, then hurriedly followed out, but they were just about to set off and most of the players were outside. When Ji Xuan went out, the little fox had been blocked from view by the players coming and going.

Ji Xuan knew that his strength was useless if he went out, so he kicked Qi Qin out and asked him to bring the little fox back.

Qi Qin took the order and told Ji Xuanyi to stay in the room well, then he squeezed out.

After a while, there was a knock on the door of the room. When Ji Xuan opened it, he saw that Qi Qin had not come back yet. The little fox came back first with a bowl in his hand, but the hair on his head was messy. It was estimated that he had been rubbed countless times by those impatient players in the process of going there and back.

Ji Xuanyi was just about to teach him a lesson, but the little fox climbed onto the bed and sat beside him as if nothing had happened. He picked out the biggest berry from the bowl and stuffed it into Ji Xuanyi's mouth. He ate another one himself and said happily, "So sweet!"

Ji Xuanyi: "..."

It's quite sweet, and also has experience.

Ji Xuanyi had no idea what to do with this little thing, so he could only let him get away with it, and the lesson was left unfinished.

After the two of them finished eating the berries, the little fox changed into his pajamas and started to catch up on his sleep. Ji Xuanyi then belatedly remembered that Qi Qin was still outside and he had to notify him!

When Qi Qin received the private message and ran back, he only saw Ji Xuanyi lying on the bed with the little fox.

This picture still looks very beautiful, but Qi Qin always feels that he can't quite get involved – after all, raising a pet is just something that can only be thought about, right?

In fact, the existence of the little fox was not what Qi Qin had thought before. It was just a cute pet. To be precise, it was a big light bulb! At least three thousand watts! After all, every time the little fox was there, Ji Xuanyi paid more attention to him, and Qi Qin was not taken seriously at all. He couldn't help but feel sour in his heart.

And Qi Qin couldn't complain to others. After all, compared with the strong man, everyone liked the little fox more, even he liked it. What could he do? He could only look forward to reaching the Lost Continent as soon as possible and sending the little fox to his fellow tribesmen, so that Ji Xuanyi's attention could be returned to him again.

However, Ji Xuanyi and other players on the boat have completely different attitudes towards the little fox, especially Ji Xuanyi, the pet owner. The little fox is simply too adorable!

Every day the little fox would hide dried meat and dried fruits on its body and feed Ji Xuanyi from time to time. No matter what Ji Xuanyi wanted, the little fox would be the first to rush out to run errands. Because of the existence of the little fox, Ji Xuanyi no longer needed to go out to get food himself, which made others envious.

Xu Chu said sourly: " According to what you said before, this little fox came aboard to gain experience? Why is it always circling around you? "

Jian Xi Xin Jiu also said: " I feel that for training purposes, I should stay in the captain's room for a while longer ..."

Ji Xuanyi and Xu Chu immediately looked at Jian Xixinjiu with defensive eyes.

Sword washing new wine: "..."

Jian Xi Xin Jiu burst into tears and said, " I don't want that Minotaur to send me quests anymore. It's like a fucking mountain when I walk in the door. I feel like he can bite my head off with his mouth, wuwuwu ... "

Although Ji Xuanyi expressed sympathy for Jian Xixinjiu's plight, he still cautiously pulled the little fox into his arms and said, " You didn't pay for the little fox's employment. This is my pet. Don't even think about it. "

Everyone showed disappointed expressions.

Just when the little fox's stock of dried meat and dried fruits was almost half gone, the fleets from the three main cities finally arrived at the second supply island.

Because of the reminder from Fox Dad, Ji Xuanyi specially observed the situation of the orcs on the island. As expected, the orcs on the second island were much more cautious towards humans than those on the first island. The orcs doing business with the players at the dock were fine, they just raised the price of resources, and the other orcs Ji Xuanyi met on the island even cast hostile eyes at them.

" It seems that the situation is indeed not very good. " Ji Xuanyi murmured.

Xu Chu had heard about Ji Xuanyi's experience on the first island, so he had expected the current situation. He couldn't help but say, " No wonder the things on the first island were so cheap. It turned out that the price would double on the second island. So it seems that the third island will be even more expensive. If it's not cheap at the beginning, won't we be squeezed dry after three islands? "

In fact, the accounting department of Dayo City is now in a state of gloom.

Ji Xuan was speechless when he heard this: " Is this the fucking point? Wake up, the situation on the supply island is still good. The most important thing is that when we arrive at the Lost Continent, their attitude will not only affect the fees, but they may even have to fight with us. "

Xu Chu let out a long " Oh " and said, " That's true, but don't we have a little fox at home? When we get to the Lost Continent, let's try to see if we can get in touch with the little fox, right? "

Ji Xuanyi thought so too. After the little fox got on board and officially became a pet, it was not as lively as in the plot. Probably because the AI was adjusted to save costs , but it was still very cute. It just didn't quite understand what Ji Xuanyi and Xu Chu were saying, and looked at them blankly.

Ji Xuanyi touched his head, and the little fox smiled and narrowed his eyes.

Because of the experience on the first island, Ji Xuanyi and his companions did not continue to stay on the second island – mainly because the people here were not so welcoming to them. If they had to stay overnight, a fight might break out, and the casualties would be very heavy.

After the fleet finished replenishing resources that day, it headed directly to the third supply island without looking back.

In fact, they are not too far away from the Lost Continent now . The distance between the second supply island and the third supply island is about half that between the first and second supply islands, and the third supply island is even closer to the Lost Continent than it is to the second supply island.

Not to mention the time it takes to reach the Lost Continent, but looking at the distance, one can imagine what the attitude of the third supply island will be towards the fleet from the Elemental Continent.

On the third supply island, Xu Chu and Jian Xi Xinjiu didn't even dare to let the players get off the boat. They only sent Xu Chu, Ji Xuanyi, Qi Qin, and a few elite members from the three major gangs, for fear that they would never come back.

If a fight really breaks out, the elite members of the three major gangs are all blood-bull-armored swordsmen and priests. They will cover Ji Xuanyi and his men and let them escape first. Even if Ji Xuanyi and his men don't escape, at least there is Jian Xi Xin Jiu on the boat who can take care of things. Together with Ze Yu Sishui and his men, three cobblers are better than one Zhuge Liang. With some luck, they should be able to complete the activity smoothly.

In the beginning, Ji Xuanyi actually felt that Xu Chu's arrangement was a bit too exaggerated. After all, the third island was one of the supply islands pointed out by August. Although it was certain that the people on the island were not very friendly to them, it should not be to the point of drawing swords.

However, the moment he got off the boat, Ji Xuanyi discovered that Xu Chu really didn't think too much about it. Such an arrangement was really necessary!

Except for a few yellow names representing neutrality on the dock, looking around, almost all of them were red names. Except for those who stared at them with unfriendly eyes as soon as they got off the boat, even some who seemed to have a good attitude, worked seriously, and paid no attention to them at all were all red names.

Xu Chu couldn't help but exclaimed: " This is too exciting, isn't it? "

Ji Xuanyi also found it quite exciting, but the resources still needed to be replenished. He could only remind the players who followed them to be careful, not to bump into anything, and it was best not to make any movements. Then he carefully hugged the little fox who insisted on following him, and stepped onto the land with Xu Chu and Qi Qin.

The two ships from the neighboring Youyue City and Yueri City were originally preparing to bring down a large number of people, but after seeing the situation on the island, they all retreated in fear. In the end, Yueri City only sent down one senior executive, while Youyue City

sent Ye Linyu with Yun Zhongjian. The two men discussed it and decided to leave the old western doctor on the ship.

As soon as Ji Xuanyi and others got ashore, everyone's eyes turned over here. Some of them with bad tempers almost rushed over. The executives of Day City were scared to death, and they didn't know if they had a brain cramp or something. Seeing that there were many people in Fanxing City, they actually moved towards them.

Ji Xuanyi frowned and was about to tell him to get out, but Xu Chu smiled and said, " Oh, what's your plan? Do you think we'll be kind or something? Activities are activities, and it's good enough that you guys from Day City can reach the shore. Now someone comes to ask for asylum? Isn't that wishful thinking? "

The executive's face turned pale and blue, and after a long while he said, " I was kicked out by them. You guys should have seen what kind of status I hold over there ..."

He looked up at Ji Xuanyi, then lowered his head and said, " I don't like them either, but there's nothing I can do. After entering Day City, I can't transfer my household registration. But as the saying goes, the enemy of my enemy is my friend. Although I can't be considered an enemy of them, our relationship is not that good either. So, my relationship with you guys is neutral, even if it's not friendly, right? Since we're all players ..."

" Tsk, tsk, tsk, " Xu Chu said in astonishment, " How can you be excluded if you are so talkative? Why don't I believe it? You said you have a bad relationship with them, do you have any evidence? "

The Sun City executive was stunned. Before he could say anything, Xu Chu said with a sly smile: " For example, do you have any information to sell? "

Ji Xuanyi looked at Xu Chu speechlessly.

The Sun City executive glanced at Ji Xuanyi, and thinking of what Zhaochen had said to him, his face immediately became serious, and he said righteously: " Although I don't like them and don't like the current Sun City, I am still a player of Sun City after all. It's okay to say bad things about them, but I won't do things like selling out information. "

Xu Chu was about to " shush " him, but Ji Xuanyi's expression had already relaxed, and he said to Xu Chu: " Come on, if you have time to gossip, you might as well think about how to talk to him later. If he wants to stand here, he can stand here. We didn't build the road. "

Xu Chu saw Ji Xuanyi's attitude, curled his lips, and walked to the front. Ji Xuanyi glanced at the executive of Day City, snorted coldly, and said: " With the current strength of Day City, do you still need us to inquire about intelligence? You think too highly of yourself. "

The executive choked and was about to say, " Didn't that person ask me to sell the information? Why are you arguing with me? " Ji Xuanyi had already left with the little fox.

The surrounding Star City guards also left, so the executive could only swallow his words and follow them.

The situation on the third supply island was indeed not very good. Even though Xu Chu had already used all his patience to stir up trouble, the island remained unmoved. When Xu Chu even mentioned bargaining, his status almost changed from yellow to red!

I'm already lucky enough to be willing to sell things to you, and you still dare to bargain?!

Xu Chu almost thought he was going to die on the spot, and was so scared that he quickly changed his words and said, " Let's just take the current price, it's good! It's good! "

He then snorted coldly and did not attack them. Instead, he called a few red-named people over to help carry the goods.

It was the first time for Xu Chu to encounter such a situation where there were red-named players walking around. He was so excited that he quickly shrank into the middle of the Star City guard players and dragged the delicate and frail Ji Xuanyi in with him.

Qi Qin wanted to follow after realizing it belatedly, but a red-named guy rushed straight towards him. Fortunately, Qi Qin reacted quickly and moved swiftly enough to dodge. The guy actually looked at him and snorted coldly with resentment, as if he felt sorry for not being able to provoke him successfully.

When Xu Chu saw this scene, he quickly reminded others to pay attention to his movements and not to bump into him, otherwise he would probably use this as an opportunity to attack them. Ji Xuanyi couldn't help but re-evaluate the current situation of the Lost Continent in his mind. Is it really feasible to use the little fox to establish good relations with the people on the Lost Continent? Or to be more direct, how credible is the fox father's statement that the fox clan will never attack its own clan?

After all, everything the fox father knew was passed down by word of mouth. He had never been to the Lost Continent in person. What if the situation there was different from what he imagined? If the little fox was handed over as soon as he handed it over, and something happened to it right after, the plot would be really screwed. Ji Xuanyi would have to find the game company and beat up the plot planner.

Just as Ji Xuanyi was calculating the possible directions of the plot, Xu Chu suddenly burst into laughter.

Ji Xuanyi was speechless and said, " Are you sick? How can you still laugh when the situation is like this? "

Xu Chu laughed and said, " I was thinking, it's a good thing I didn't come up and say ' what are you looking at? ' Otherwise, how would I hide and respond? I'm afraid I really wouldn't be able to go back. "

Ji Xuanyi: "..."

Ji Xuan was furious when he heard this and cursed: " Are you an idiot? "

Xu Chu didn't care and was enjoying himself.

Fortunately, there weren't many people who would provoke the players, and the players paid a little attention and managed to successfully hold on until the goods were delivered. Everyone breathed a sigh of relief.

Immediately behind Fanxing City, the goods from Youyue City and Yangri City were also loaded. Xu Chu counted and made sure nothing was left out, so he told everyone to turn around and prepare to go back.

At this moment, the senior executive of Dayo City walked towards them quickly again.

Ji Xuanyi frowned and was about to ask him why he didn't go to his boat when the executive turned around and attacked him!

The people on the third supply island are full of malice towards humans. They always look for trouble even when there is none. They can't even hide from it. And you even attack others.

Aren't you looking for death?

exploded with a " bang " , just like a spark entering an frying pan !

They rushed towards the executive who had no idea what was going on with red eyes, but that was only a part of them. Another part went directly towards other innocent players who were not on board.

The orcs' current position is very vague. You say he is an enemy , but he can actually be an ally. You say he is an ally, but he is indeed hostile to humans. In the current situation, no one knows what the impact will be if the orcs are really killed . No one dares to do it, and everyone runs towards their own ships.

Ji Xuanyi clearly saw that the executive glanced at them before attacking them, and he immediately realized that this was not an accident or a mistake, but that the man did it on purpose. The commotion he wanted to cause seemed to be accidental, but in fact it was aimed at Ji Xuanyi and the others!

The executive was an archer, and he jumped away after luring the monster. However, everyone on Ji Xuanyi's side had short legs, and if they were a step slower, they would face a catastrophic disaster.

" Fuck your mother! " Ji Xuanyi couldn't help but curse: " I thought that idiot was a good person. It must be that idiot Zhaochen who specifically warned him! "

Xu Chu also reacted immediately and exclaimed: " Fuck, Ji Xuanyi, aren't you a cancer who kills people and ghosts ? How could this happen? This is all false propaganda, I will never believe in rumors again! "

Ji Xuan was so angry that he wanted to hit him. Xu Chu was hit twice, but he kept talking, saying: " You should change your soft-hearted and gullible habit! "

Before Ji Xuanyi could say anything, Qi Qin suddenly said, " No need to change it. "

Ji Xuanyi was stunned for a moment, then looked up at him, and their eyes met.

Qi Qin smiled at him and said, " Xuan Yi is fine the way he is now. I like him the most, so there is no need to change. If there is any problem, I will solve it. "

Ji Xuan opened his mouth, but before he could say anything, Qi Qin had already pushed away the people around him, jumped up, and chased in the direction of the Sun City executive!

" What the hell! " Xu Chu yelled, " What the hell is this dog food plot! Hey! Tianxia! It's too dangerous, don't fall over just because you're trying to be cool! "

When Xu Chu was hesitating whether he should send some people to support Qi Qin and whether the support would be useful in this situation, Ji Xuanyi had already pulled him and said, " Hurry up, we are not fast enough and they are catching up. "

Xu Chu was stunned and said in disbelief: " Boss! That's your boyfriend! Did you see the monsters all over the floor? You just left him and walked away? What kind of scumbag script is this? "

Ji Xuan was so upset that he ran forward and pouted several times, saying, " What a rubbish scumbag script! I'm not wasting time here because I don't want to drag him down! "

Ji Xuan glanced at Xu Chu, curled his lips, and said, " My boyfriend is so awesome, I believe him. "

Xu Chu: "..."

After a long while, Xu Chu said in a trance: " Ah, the sour smell of love is suffocating me. I want to find Jian Xixinjiu and smell the fragrance of a single dog on him more. "

Ji Xuanyi: " He will think you want to pick him up, smell yourself! "

Xu Chu: "..."

Although Ji Xuanyi told Xu Chu that he believed in Qi Qin's flower, no matter how powerful Qi Qin was, there were so many monsters around and he couldn't kill any of them . How could he not be worried? Ji Xuanyi was just being stubborn and refused to say it.

In fact, Qi Qin's situation was even more dangerous than Ji Xuanyi and Xu Chu had imagined! The executive of Daytime City was an archer. Although there was only one dock and the direction he was running in was not far from Ji Xuanyi and the others, his speed was there and he could still jump very quickly.

However, he probably didn't expect that someone from Fanxing City would come out to chase him so fiercely. The archer didn't pay much attention to the situation in Fanxing City. He just wanted to get rid of the people behind him.

Compared with the innocent Youyue City and Fanxing City, he was the one who was directly attacked, and the hatred was too high. Almost half of them were chasing after him alone!

After Qi Qin used the Heavy Slash to jump out, he immediately saw the executive of Day City in his field of vision. However, although he saw him, it was not so easy to catch up with him.

Qi Qin glanced at the person catching up from the side, and after making sure that there was enough time, he estimated the distance between himself and the Sun City executive, then frowned and changed the Sword of Ares in his hand to Guardian.

Qi Qin murmured in a low voice: " Although this is very unfair to the swordsmanship that Master taught me, Xuanyi is still more important. I am sorry to have wronged you. "

After saying that, Qi Qin couldn't help but sigh and added: " Alas, this isn't the first time ... I've decided it's you, go ahead! "

After saying that, Qi Qin held the sword in both hands, threw it forward suddenly, and threw the guardian far away!

When Guardian first met Qi Qin, he probably didn't expect that he would end up in such a state in the future ... It flew out in a spin, flying very high, and then landed precisely on the ground under Qi Qin's gaze, piercing into the soil, and blocking the escape path of the archer executive of Day City!

The executive hadn't even thought that someone was chasing him, so how could he have thought that someone could throw something at him so accurately! He was still concentrating on turning his head to look behind him! As soon as he turned his head, he hit the huge sword of the guardian with a " duang" sound, and fell on his back, and was almost kicked off the line by the security system!

When Qi Qin saw that the opponent was hit, he immediately chased after him, drew out the Sword of Ares, and killed the opponent with two slashes. Then he put away his guards and looked at the ship of Day City from afar.

He didn't know if Zhaochen was watching him from the boat, but he still said in that direction very seriously and firmly: " I will protect Xuanyi from now on. "

" I will never let you hurt him again! "

Just when Qi Qin was neatly dealing with that stupid executive of Day City, Ji Xuanyi and Xu Chu, the two short-legged guys, finally hurriedly got on board.

After leaving the island, they were out of the battle and receded like the tide, but the other players who remained on the supply island were still being chased.

The ship of Youyue City was right next to Fanxing City, very close. Ji Xuan raised his eyes and saw Ye Linyu and Yun Zhongjian. The two were running and panting.

Both of them are swordsmen and are slow. The worst thing is that they were the two farthest away from the dock when the incident happened. At this moment, apart from Ji Xuanyi, they are probably the two who want to be hurt the most in Yaori City.

Ye Linyu probably anticipated that as a gang leader, he would definitely run for his life. As a swordsman, he actually gave up his combat power and accumulated some agility! Even Yun Zhongjian, who was dressed in orange, couldn't run as fast as him and was left behind by him. After a while, Ye Linyu ran onto the boat, sat down on the deck, and looked at Yun Zhongjian. Yun Zhongjian was in real trouble. His clothes were almost touched by his claws several times, but he managed to avoid it again and again!

However, even so, when he was about to run onto the boat, the people behind him caught up with him. Ji Xuanyi was just about to give Yun Zhongjian a hand to help, but he saw Yun Zhongjian stumble with a cry of " Aiya " and dodged the claw that was stretched out for the back of his head. Then he reacted, rolled on the ground, and got on the boat safely.

Ye Linyu looked down at him: "..."

Yun Zhongjian smiled at him weakly.

Ye Linyu said with mixed feelings: " Why don't I have such an awesome passive skill? "

There would be no answer to this question even if it was asked. When Ji Xuanyi and Xu Chu saw that the two important figures of the alliance had boarded the boat, they withdrew their gaze. Ji Xuanyi's face was not looking good. Xu Chu also found that he was not as calm as he said. After thinking for a while, he comforted him: " There should be no problem in the world. If there was any trouble, it would have happened a long time ago. Most of them have returned to the Elemental Continent to send us a message. Since there is no movement now, they will definitely be able to deal with it. "

Ji Xuanyi almost couldn't help kicking Xu Chu off the boat when he heard half of it. He barely calmed down after hearing the last two sentences and said, " Tianxia is very powerful. There won't be any problem. "

Ah, what familiar dog food!

Xu Chu secretly rolled his eyes, but still responded in a hypocritical manner: " That's right. "

In fact, Qi Qin really lived up to Ji Xuanyi's trust. Not long after Xu Chu and Ji Xuanyi finished talking, a large number of red names came from the side!

Ji Xuanyi stood up immediately and took a closer look. Sure enough, the person leading the race was Qi Qin!

After dealing with the executives of the Day City, it was almost impossible to leave them far behind and run back. After all, the direction had changed. When Qi Qin ran towards the Star City ship, he was no longer running in a straight line, but in a diagonal line. What was worse was that he was being chased from the side. In fact , it didn't take Qi Qin much time to deal with that guy, so he shouldn't have been chased so badly. The main reason was that he made harsh remarks in front of the Day City ship in order to show off, which wasted time, and when he ran back, he was closely followed.

Qi Qin was a little overwhelmed at first, but when he looked up, he saw Ji Xuanyi on the deck. He thought to himself that he couldn't lose face in front of Xuanyi, so he suddenly had the motivation to persevere. After raising his sword to block the attack from behind, Qi Qin suddenly gave up running, turned around and kicked Ji Xuanyi to the side, and then started fighting with the hilt of the sword and his fists and feet.

" Fuck, they're almost there, what the hell are they doing? There's always a good time to show off! " Xu Chu couldn't help but yell.

Ji Xuanyi, however, immediately raised his staff after Qi Qin turned around and said, " I'm not trying to show off, but at this distance, I can't show my back anymore. "

Xu Chu said anxiously: " We can't fight like this? The whole world is almost surrounded! "

Ji Xuan glanced at him and sneered, " You don't believe me when I say you're a rookie. "

" He's waiting for the CD , waiting for a heavy blow. " After saying that, Ji Xuanyi's staff moved.

" It's just a CD , go on. "

Warlock's skills have a faster cooldown .

Before Xu Chu could react, as soon as Ji Xuanyi's skill arrived, Qi Qin immediately swung it away, turned around and made a heavy slash, then jumped directly onto the dock, ran two more steps, and returned to the boat safely.

Qi Qin didn't say much to Ji Xuanyi, but just looked at him with sparkling eyes, and couldn't stop smiling on his face.

Ji Xuanyi couldn't help laughing and said, " Solved? "

Qi Qin nodded and said, " It's solved. "

Ji Xuanyi curled his eyes, Qi Qin put away his sword, held his hand, and said: " I like Xuanyi now. "

Ji Xuanyi: " Hmm? "

Qi Qin said seriously: " So just be yourself. No matter what troubles arise, I will help Xuanyi solve them. "

Ji Xuanyi felt warm in his heart and was about to speak when Xu Chu, who was beside him, stood up, looking like he was about to die of his injuries, and staggered away.

Ji Xuanyi: "..."

Xu Chu said weakly: " I'm dying, Jian Xi Xin Jiu, please use your single dog energy to heal me! Please! "

After saying that, Xu Chu seemed to remember something and added defensively: " I don't want to pick you up! "

The author has something to say: Sword Washing New Wine: Meow meow meow???

Chapter 177

and the time spent on replenishing supplies became shorter and shorter . After almost an hour at the last island , the fleets from the three main cities sailed away as if they were escaping.

" Even the supply island is full of red names . I really don't know what the situation will be like when we reach the Lost Continent. " Xu Chu couldn't help but say.

Ji Xuanyi: "..."

Qi Qin: "..."

After a while, Ji Xuanyi could no longer bear it and said, " Come closer! I'm not going to fucking eat you! "

The three of them had just escaped from the third supply island and were sitting in the cafeteria to rest. Xu Chu was sitting five tables away from Ji Xuanyi and the other two. He talked to them from a distance, attracting the attention of a group of onlookers.

Xu Chu said worriedly: " No , you two will make me feel uncomfortable. "

The spectators looked at Ji Xuanyi and the others with even more weird eyes!

Ji Xuanyi: "..."

Ji Xuanyi raised his hand expressionlessly , and Qi Qin stood up and walked quickly towards Xu Chu. When the other party tried to escape, he grabbed him by the back of the neck and pulled him in front of Ji Xuanyi.

Ji Xuan didn't say anything, he beat Xu Chu up and said, " Are you still smoking? "

Under the sympathetic gazes of the bystanders , Xu Chu smiled very flatteringly and said, " No, no! "

Ji Xuanyi then asked Qi Qin to put Xu Chu down and sit him down , and said slowly: " Go and see what the Lost Continent is like. "

Just as August said, their voyage has lasted for more than half a month, and leaving the third supply island means that they are not far from the lost continent . It is very likely that tomorrow or the day after tomorrow , they will be able to set foot on the land they have been looking forward to for a long time.

" Have you finished your work? " Ji Xuan said, " After arriving at the Lost Continent, we need to have a plan for the deployment of personnel, as well as the cooperation with Youyue City and Day City ..."

Xu Chu was fine at first, but after hearing the latter part, he was confused and asked, " Daytime City? What does it have to do with Daytime City? "

Ji Xuanyi sneered and said, " Today they even did something like stabbing me in the back. Now that they are on shore, are they just going to let it go? In a cooperative activity, physical violence is not okay, but ostracizing them is still okay, right? Do you really think I have no temper? "

Xu Chu finally reacted and said with sudden realization: " It's mainly because we have always been ostracizing them. I was a little confused when you said that. "

But I still have to take revenge. Since I can't really do it, I can only try harder to exclude them ...

Xu Chu thought for a moment and said, " Okay, I'll go contact Youyue City. I haven't made fun of Ye Linyu for his ugly face during the negotiation today, hehe. "

Ji Xuanyi: "..."

Ji Xuanyi held his forehead with his hands helplessly and said, " Get lost! "

Xu Chu rolled away quickly, leaving only Ji Xuanyi and Qi Qin.

The light in the restaurant was ambiguous. Qi Qin thought of the tacit understanding between him and Ji Xuanyi and his concern for him, and his heart moved.

No one was paying attention to this place anymore, Xu Chu also left, and there were only two of them left. Could there be a better opportunity for intimacy than this?

Qi Qin swallowed his saliva, mustered up his courage, and was about to move forward silently when suddenly a red shadow flashed, and a little fox jumped out from behind Ji Xuanyi!

The little fox wagged its tail and fed Ji Xuanyi dried fruits, making cute sounds and making Ji Xuanyi smile.

Qi Qin: "..."

Qi Qin couldn't help but ask from the bottom of his heart, when can we reach the Lost Continent? Send this little light bulb away quickly!

In fact, Qi Qin didn't have to wait too long. Just as Ji Xuanyi expected, two days later, the coast of the Lost Continent appeared in front of everyone.

However, due to what happened on the supply island, most players were not as excited as when the event first started, but rather a little nervous.

It's not that they haven't had group fights before. The combat effectiveness of Star City is still very high, and Sun City is definitely well aware of this – but players are different from monsters after all. When players die, they will go back to the resurrection point, and there will always be a time to fight, but monsters are constantly refreshed. Before knowing the true intensity of the battle, no one dares to relax.

And their situations were surprisingly similar. Not only the orcs hired from the supply island, but even the ones brought from various main cities, were in a somewhat strange state.

If players talk to them more often, they can hear that they are also a little worried about the upcoming battle .

Compared with the population of an entire continent, the people they brought were still too few. Although their mission was not to occupy the entire continent with such a small number of people, they only needed to open up a stronghold to welcome the great magicians from the other two main cities who would arrive next, set up a teleportation array, and wait for the arrival of support from large forces.

But even so, this activity is still very difficult.

Jian Xi Xinjiu hadn't slept well for the past two days. Besides the fact that Xu Chu started harassing him again, it was also because of the upcoming battle.

Before the second server, activities on several other servers were launched first, but because they did not receive guides in time, the activities on those servers were very bumpy.

According to the news leaked on the forum, one of the servers that set out first has failed in its mission and returned to the starting point, and the situation of the other servers is not good either.

Although everyone successfully found the supply island, they were delayed due to serious damage to the ship, shortage of resources, insufficient gold coins, etc. Now, the second server that started later is back in the lead and has become the server with the fastest progress in this event.

In other words, there is no strategy to follow for what they will face next, and they can only take it one step at a time.

Jian Xi Xin Jiu probably sighed more in the past two days than he had in his entire life.

Ji Xuanyi was not too worried about getting ashore. After all, with August's help, it could be said that they had already won an advantage at the starting line. Such conditions that were like having a cheat were not available to everyone. As far as getting ashore was concerned, they could only face a simple mode, and at worst a normal mode. Difficulty was impossible.

What he was more worried about was the mission for the little fox. He didn't know how long it would take him to find the little fox's tribe since the Lost Continent was so big.

Everyone has their own thoughts, but no matter what, the lost continent is getting closer and closer.

It was already nine o'clock in the evening when they could actually see the dock of the Lost Continent. Ji Xuanyi and Qi Qin were both holding on and did not log off.

Jian Xi Xinjiu counted the number of people and looked at their condition. Finally, he decided to rest for a night and then go to the dock tomorrow to prepare to go ashore.

" You all know the current situation without me having to explain it. We have already reached the Lost Continent. As long as we successfully land and stabilize our position, our mission as the vanguard will be completely completed. The only thing left is to ' wait ' . "

Jian Xi Xin Jiu rarely showed the aura of a gang leader, frowning and saying, " Tomorrow will definitely be a tough battle, and it may even take more than a day. I hope everyone can have a good rest tonight and gather on time tomorrow. "

There was no need to say any more childish words. Originally, I was telling everyone to have a good rest. If I get them excited now, they might accidentally lose sleep and be in a state of lethargy when it comes to fighting tomorrow. That would be a disaster.

Upon hearing this, everyone responded and dispersed. Xu Chu and Jian Xi Xinjiu had already discussed the next arrangements two days ago, so there was no need to waste time. Xu Chu yawned and left. This was a serious matter, so he would not be late tomorrow.

Jian Xi Xin Jiu originally wanted to go back to his room and log off, but when he looked up and saw Ji Xuanyi and Qi Qin, who looked sleepy and confused, he asked curiously, " Do you two have anything else to do? "

They used to go to Auguste together every night to settle resources, but today they were only one step away from their destination, so this step could be completely omitted, so Jian Xi Xin Jiu prepared to log off and go to sleep.

Ji Xuanyi shook his head, then nodded and said, " We are going to go ashore tomorrow. I am going to ask August if there is anything I need to pay attention to. Do you want to come with me? "

Jian Xi Xin Jiu was stunned for a moment after hearing this. After talking with August, it was probably getting late. But after a little hesitation, he still nodded and said, " Okay, I'll go with you. "

Whether he is in good spirits tomorrow is not actually the most important thing. After all, there are many people on the ship who can take command, including Xu Chu, Ji Xuan Yi, Qi Qin Xue, and Piao Renjian for wisdom and courage. He is at most a substitute and can only worry about things. It is not his turn to take the blame for any specific problems.

Ji Xuanyi and the other two arrived at the door of August's room. The puppet seemed to have expected this and was already waiting there, smiling at them.

Although other tasks on other ships were taken over by hired orcs, all matters on the floor where August lived were still controlled by puppets. This was not only because the orcs might clumsily mess up August's experimental props, but also for August's safety – although Ji Xuanyi felt that with August's strength, there would most likely be no safety risks against him.

The puppet smiled at them and said, " The Lost Continent is almost here. Lord August has been waiting for you. "

Ji Xuanyi touched his nose, feeling a little embarrassed.

In fact, he had expected that the Lost Continent would be approaching this morning, and had been thinking about finding August to ask about the situation, but he had been obsessed with watching the little fox being cute and Qi Qin being jealous the whole day, and forgot about it for a moment. For the first time, he put the important matters behind his mind. He only remembered it when they were disbanded just now, and hurriedly brought swords and new wine.

However, apart from limited-time missions, they don't have any objections to players for waiting, and August is obviously the same, otherwise the puppets would not treat them like this.

It was not the first time that the little fox had seen a puppet. He raised his head, took out a piece of dried fruit from his pocket, handed it to her, and said crisply: " Auntie, do you want some dried fruit? "

The puppet smiled even more happily, bent down and touched the little fox's head, and said: " Auntie doesn't want to eat it, baby, eat it yourself. "

The little fox shook its ears, looked at her blankly, stuffed the dried fruit into its mouth, and chewed it vigorously.

Ji Xuanyi took his paw, opened the door, and led him into August's room.

Ever since the little fox got on the boat, he would follow August every night when he came to settle resources.

Perhaps it was a common problem among older people, but August was very caring towards this little guy and fed him a lot of snacks, which made Ji Xuanyi begin to suspect that if it was Ze Yu Sishui who got Madam Harman's necklace, August might have had a great impression of him when they first met.

After rubbing the little fox as usual, August looked at Ji Xuanyi and the others seriously and said, " I know you have a lot of questions to ask, so tell me, kids. I will tell you everything I know. "

Although Ji Xuanyi was the first to speak, Jian Xi Xinjiu was the first to speak. However, the question he asked was indeed very important. Ji Xuanyi just glanced at him and said nothing.

Jian Xi Xin Jiu said, " Tomorrow when we go ashore, we will definitely be attacked by the evil forces of the Lost Continent and the fallen orcs. We are too short of manpower. I wonder if you can help us? "

August heard this, looked at him, and did not give an answer, but said: " It is not a good thing for me to take action. Of course, you can use me as a last resort, but I don't recommend you to rely on me like this. "

In other words, I tend to disagree, and I feel a little embarrassed to say that the sword is washed with new wine.

Indeed, the event still depends on the players' own strength to complete. If you always rely on August, what is the difference between that and cheating? August's magic will definitely destroy the dock, but the many easter eggs and hidden rewards in the event are probably irrelevant to them.

Seeing that Jian Xixinjiu was silent, Ji Xuan asked: " I want to ask, how much do you know about the Lost Continent? What kind of concept is the enemy we are about to face? "

August shook his head and said, " I don't know that much about the Lost Continent. Like you, I also have expectations and curiosity. However, if we combine the rumors I heard from the orcs with the intelligence I have, the enemy we are about to face may not be that simple. "

Ji Xuanyi frowned and said, " What do you mean? "

August said, " The Lost Continent has been occupied by the evil god. The orcs left on the Lost Continent are divided into two categories. One category has already fallen and become the minions of the evil god, while the other category still hopes to drive out the evil god and regain control of this continent . In fact, the situation of the latter category is much worse than expected. "

The orcs who surrendered to the evil god are no longer the same orcs as before. Just like the mermaid boss that Ji Xuanyi and his companions encountered in the changed world line copy , the orcs have also been infected by the evil god. Not to mention their mental state, they will definitely not be friendly to humans, but their combat effectiveness has definitely doubled. August frowned and said, " The population of the Lost Continent may not be as large as we imagined, but the enemy 's individual combat power should not be underestimated. I suggest that you secretly go ashore to investigate tomorrow and then land after confirming the situation. "

Ji Xuan nodded.

According to the information provided by August, it seems that the battle to be faced tomorrow will not be a human wave tactic. Most of the monsters on the shore should be elite monsters. In this case, a more detailed arrangement of manpower is required. Every team must have a complete set of tanks and healers.

Before Jian Xixinjiu could say anything, Ji Xuanyi said seriously, " The task of arranging the personnel is now up to you! "

Sword washing new wine: "..."

Before Jian Xixinjiu could reply, Ji Xuanyi had already left him aside and said to August: " I have another question for you. "

August said, " What's the problem? "

Ji Xuanyi rubbed the little fox's head and said, " It's about him. "

August seemed to have expected this, and his expression became a little serious.

Ji Xuanyi said, " It's not impossible to bring the orcs who want to take back the continent to our side. Little Jack is the key, but there are still some things I need to know. "

" Little Jack's father once told me that the fox clan had passed down from generation to generation what happened in the Lost Continent. "

August's initial explanation to him was that there was a struggle among humans, which led to the fall of the Lost Continent. The orcs were later mentioned when the supply island appeared. At that time, the orcs described by August were more like the other five races on the Elemental Continent today, rather than a force that could compete with humans.

But according to Fox Papa, the situation on the Lost Continent was that humans and orcs had a fight, which allowed the evil god to take advantage of the situation. Then when the two races fled together, humans left the orcs behind and fled alone.

" What was the truth of that year? " Ji Xuanyi asked: " When I send the little fox back to his tribe, if those foxes are not the minions of the evil god, I hope to talk to them about cooperation. The things that happened before the Lost Continent will definitely become an obstacle. I have to find a way to convince them. "

In fact, even if Ji Xuanyi didn't say the following words, August had no intention of hiding it from him.

old magician sighed and said, " It's not that I'm intentionally hiding anything, but there is too little information that has been passed down. The relationship between the other five races on the Elemental Continent and humans is not very good. The orcs' tempers and their relationship with humans can only be worse. If there was a fight between orcs and humans, it is indeed very likely. "

" Including all the news that little Jack's father said just now, it is possible that it is true. "

Ji Xuanyi frowned. If this was really the case, not to mention the fact that humans owed the orcs, given the fox people's level of vigilance, it would not be so easy to convince them.

But at the moment, apart from Little Jack, he really had no other way to get in touch with the orcs.

Perhaps seeing what Ji Xuanyi was thinking, August said slowly: " However, this is just a possibility. "

Ji Xuanyi looked up at him.

August said calmly, " What happened back then is not just what you heard from the fox. When I was young, I also occasionally heard rumors. "

After the fall of the Lost Continent, it was not the humans who turned against the orcs first and abandoned them. Instead, the orcs on the same ship felt that there was a shortage of supplies and food on the ship, so they used humans to make up the number, and started a killing spree . The humans had no choice but to drive the orcs off the ship.

August looked at Ji Xuanyi meaningfully, and said pointedly: " The biggest feature of the fox orcs is not that they are much smarter than other orcs, or even more cunning than humans, but that they live on lies and are good at using lies to profit themselves. I once read in a book that if

the fox orc cubs can't lie, they must not be let out, because they think that if they can't lie, they can't protect themselves, and the cubs will die if they go out rashly. "

Ji Xuan was stunned for a moment and looked at the little fox Jack beside him.

The little fox was staring at August blankly. When Ji Xuanyi looked at him, he suddenly reacted. His ears suddenly fell behind his head, and his tail twitched uneasily. He hugged Ji Xuanyi's arm and said, " I, I didn't lie to my brother! "

He looked at Ji Xuanyi with his big watery eyes and said very seriously: " I am telling the truth! "

Ji Xuan looked at him for a while and knew everything.

The little guy is still young, of course he is not as smart as an old vixen. All his thoughts are written in his eyes and cannot be hidden at all.

Ji Xuanyi didn't feel too angry. Maybe it was because the little fox was so cute? He reached out and touched his head, and said with great sympathy: " It doesn't matter if you lied. Fox orcs are naturally weak and can only survive in this way. I can understand. "

" As long as it's not something that will harm others, it's okay to lie to me, I will forgive you. "

Ji Xuanyi said, and couldn't help but smiled gently at the little fox who looked like he was about to cry, and scratched his chin.

The little fox subconsciously raised its head to let him tickle it, but tears suddenly welled up in its grape-like eyes.

" Brother, I -- ah! "

Ji Xuanyi pinched his mouth and said, " It's okay, no need to say it. "

" ooh " sound came out of his throat and tears began to fall like water.

Ji Xuanyi wiped him and let go of his hand. The little fox then buried its head in his arms and whimpered, mumbling words like " I'm sorry " .

Ji Xuanyi said: " Have you ever told me any important lies? "

The little fox paused in his arms for a moment and shook his head.

Ji Xuanyi exhaled lightly and said, " That's good. "

Then he took out a dried fruit from the little fox's pocket as if he knew the way and stuffed it into his mouth, causing the little fox to cry again.

The feeling of kidnapping a child almost made Ji Xuanyi feel guilty.

Having asked all the questions he wanted to ask and having made plans for what was to come, Ji Xuanyi stopped bothering August. As August was staring at the little fox that was hiccuping, Ji Xuanyi went downstairs with his pet and the other two people.

Jian Xi Xin Jiu frowned. Although the formation he and Xu Chu had planned before included a method to deal with elite monsters similar to what August had said, plans and reality could never be completely consistent. The formation still needed to be fine-tuned. If Jian Xi Xin Jiu didn't want to be bald, he could only hope that Xu Chu would have a change of heart and suddenly go online two hours earlier tomorrow ...

Jian Xi Xin Jiu muttered, " I might as well just shave myself bald tonight. "

Ji Xuanyi: "..."

After bidding farewell to Jian Xi and Xin Jiu, Ji Xuanyi took the little fox and Qi Qin to the room. Because the little fox is Ji Xuanyi's pet, in addition to helping Ji Xuanyi, the little fox will never leave his side. However, it is impossible for a player to be online 24 hours a day, and Ji Xuanyi

always has to go offline to rest. Therefore, every time he goes offline, he will let the little fox sleep in the room.

As soon as the door was opened, the little fox climbed onto Ji Xuanyi's bed very consciously, changed into pajamas, and curled up into a ball holding its tail.

Ji Xuanyi walked over, put away the clothes he had changed out of, took out the dried fruits that he had not finished eating in his pocket, and put them into the cloth bag under the bed. When he was about to log off, he looked up and saw the little fox looking at him.

Normally, once the little fox assumed a sleeping posture, it would fall asleep immediately, and Ji Xuanyi would be able to log off, but now the latter's eyes were wider than copper bells, and it was obvious that it had something to say to him.

Ji Xuanyi sighed, wiped the fur on the little fox's face that was stained by tears, and said, "What's wrong? "

The little fox's state seemed different from before, as if the plot had been triggered. He looked at Ji Xuanyi seriously and said, " Is what the great magician said true? "

Ji Xuan was stunned for a moment and said, " What? "

The little fox looked at the tip of his tail and said, " My father also told me about the Lost Continent. Is he really lying? Which one is true, the Great Magician or my father? "

With his eyes shining, Ji Xuanyi realized that the option for this question might have an impact on the development of the plot.

But he didn't know which answer would bring good and which would bring bad. If the fox father didn't lie, then even if humans could form an alliance with the orcs, they would always be inferior to the orcs because of this betrayal. But if what August said was true, would the orcs on the Lost Continent be willing to accept it? Is it possible that they would be angry and refuse to cooperate directly?

Ji Xuanyi frowned, but had no intention of giving up. He stared at him blankly.

Ji Xuanyi thought for a while and said tentatively: " Maybe this question shouldn't have an answer. "

The little fox stared at him blankly. After a while, he slowly reacted and asked in a soft voice: " What do you mean? "

It's good to have a reaction. A reaction means that there is indeed a third answer in the setting.

Ji Xuanyi breathed a sigh of relief and said, " Because this question has no meaning other than causing conflict, and humans and orcs can no longer repeat the mistakes of the past. "

" The past is no longer important. In addition to remembering the pain of the past and constantly reminding ourselves not to make the same mistakes again, humans and orcs need to look forward and work together to create a better future. This is what we need to do, and everyone will be happier. "

This answer is a textbook example of smoothing things over. It may not be useful in real life, but it is enough to deal with it. The little fox thought for a while, finally smiled, nodded vigorously, and said, " Brother is right! I remember it! If I meet the tribesmen on the Lost Continent, I will tell them the same thing! "

Hearing this, Ji Xuanyi couldn't help swallowing his saliva. Sure enough, the previous question was a trap.

In this quest chain, the little fox's questions and answers are probably bound to be triggered. Even if there is no August, there will probably be other channels for players to know another version. At this time, the little fox asks questions, and after the player answers, the little fox will tell the big fox the player's answer in the last link of the task.

Ji Xuanyi couldn't help but wipe the sweat from his head. If his answer to August was correct, let alone the mysterious reward of the task chain, it would be great if the big fox didn't slap him to death!

Ji Xuan patted the little fox on the back with lingering fear and said, " Be good, it's getting late, go to sleep. "

The little fox nodded, said good night to Ji Xuan, and fell asleep hugging his big furry tail.

Ji Xuanyi then called out to Qi Qin, and the two of them logged off.

Qi Qin has been very worried about the light bulb incident recently. After taking a shower with Ji Xuanyi and going to bed tonight, he tossed and turned and couldn't sleep.

Ji Xuanyi was annoyed by him and said, " Weren't you very sleepy in the game just now? What are you going to do now? "

Upon hearing this, Qi Qin cautiously moved towards Ji Xuanyi and said, " Xuanyi. "

Ji Xuanyi asked impatiently: " What? "

Qi Qin said aggrievedly: " Let's not raise a puppy. It's too troublesome ... "

Ji Xuanyi: "..."

Ji Xuan said expressionlessly: " I didn't intend to raise one in the first place. You alone are already annoying enough. Shut up and go to sleep! "

Qi Qin then became happy, responded happily, and fell asleep holding Ji Xuanyi.

When Ji Xuanyi and Qi Qin came online the next day, Jian Xi Xinjiu was anxiously counting the number of people. As soon as Ji Xuanyi came on deck, he hurried over and said, " Tianxia and I are here! "

Jian Xi Xinjiu scratched his head, said " Oh ", and flipped through the roster in his hand, looking for Ji Xuanyi and Qi Qin's names.

Ji Xuan looked at the crowds of people on the deck and said speechlessly, " Xu Chu didn't come? "

Jian Xi Xin Jiu collapsed and said, " Because it's only 8:55 now, there are still five minutes before the gathering at 9 o'clock ... "

Xu Chu, the pigeon god, is lucky enough to arrive on time, especially when work is needed. Don't expect him to show up early!

Jian Xi Xin Jiu said madly: " Everyone from Dayo City and Youyue City has arrived. They are counting on us. Those idiots from Dayo City have urged us eight hundred times. Fuck! "

Ji Xuanyi said helplessly: " There is nothing we can do. There are not many people here, and many of them dropped off along the way. Now there are only about 40 to 50 people on a boat, so it is normal for everyone to arrive. "

Although there were some people falling behind on their ship, there were still more than 500 people on it, and it would take time to gather and count them.

Of course Jian Xi Xinjiu was not that stupid, he still sent Ze Yu Sishui and others to help investigate together. However, even so, it was still many times slower than the other two main cities.

Seeing that it would take a while to finish the job, Ji Xuan said, " Didn't August say yesterday that we could send someone to sneak in and take a look at the situation? Should I take them there? "

Upon hearing this, Jian Xi Xin Jiu temporarily put down the book in his hand and said hesitantly : " You go? But you are a sorcerer, and the world is full of swordsmen ..."

But he hesitated only for a moment, and Jian Xi Xin Jiu said in amazement: " There is no one more reliable than you, okay, you lead the people. "

Ji Xuan nodded and said, " If nothing unexpected happens, the dock should be full of elite monsters, so there's no need for the others. I want to take Mi Yin and Xue Piao Renjian with me as well. "

Jian Xi Xin Jiu had no objection and said, " Okay, you guys do your best. Don't force yourself to get the intelligence. Just stay safe and don't get into any trouble. "

Ji Xuanyi and the other four are basically the top configuration of intelligence and power in Fanxing City. Intelligence doesn't matter. They can always get it by adding more people. It would be a big loss if they return to the Elemental Continent early.

Ji Xuan said, " You don't need to worry about this kind of thing. Just count the number of people and inform Youyue City of our landing. Forget about Sun City, so that those idiots won't do anything weird again. "

Jian Xi Xin Jiu certainly would not make such a mistake, and immediately said, " Got it, I'll call a few people to help you lower the boat. "

Jian Xi Xinjiu looked at the dock of the Lost Continent. This new continent was completely different from the Elemental Continent in style. Not only the buildings, but even the plants looked very dark and rugged, which made people feel overwhelmed. Fortunately, there were many hidden corners to hide in. Ji Xuanyi and his friends could take a small boat and make a detour directly into the woods on the edge of the Lost Continent dock. As long as their luck was not too bad, they would not have to confront monsters head-on.

Jian Xixinjiu said: " Be careful. "

Ji Xuan responded, contacted Mi Yin and Xue Piao Renjian through secret chat, and then prepared to get off the boat with Qi Qin.

Chapter 178

In most games, there are actually " infiltration " missions , and the road leading to the mission target point is bound to be crowded with surveillance monsters walking around.

These monsters are basically set with a sensing range . If the player accidentally steps into it , it may lead to a fierce battle at best, or start from the beginning at worst.

, Ji Xuanyi is very familiar with similar settings. If this game is still a keyboard online game, clearing the game will be a piece of cake for him.

But the problem is that this is a holographic online game . Even if the ordinary red-named monsters are set with the same sensing range as those in keyboard online games , the current situation may not necessarily have the same setting as that of ordinary online games.

After all, this event is a major event related to the later development of the game. If he gives you a high AI , the monsters will know you as soon as they see you, and then it's game over, right? A fierce battle is fine , but if we really start from the beginning, it's hard to say where the beginning is.

Ji Xuanyi and three other people took two small boats from the Star City , made a big circle , and finally bypassed the sight of the elite monsters on the dock, and reached the shore by feeling the bushes nearby.

Mi Yin was actually the only one among the four who was truly suitable for stealth operations. She had been leading the way, hiding in the front. After finding a hidden bush to stop temporarily, she said speechlessly, " Actually, I can come up alone . You can wait on the boat. I remember everything anyway. I can mark the distribution map for you when I get back. "

Xue Piao Renjian felt that what Mi Yin said was quite right. He had no idea why he had followed along and looked at Ji Xuanyi with some surprise.

Ji Xuanyi hugged the little fox that followed him and said, " We are not here just to observe the situation. The game is not like the real world where you can only fight hard and there are not so many coincidences. But this is a game, there must be hidden tasks or easter eggs here, which will make it easier for us to occupy the dock. "

" Observing the distribution of elite monsters and summarizing their fighting methods is important, but it only accounts for half of our mission. The other half is what I just said, at least we need to find someone we can talk to at the dock. "

Xue Piao Renjian and Mi Yin were both players of the Ten Thousand Year Arena and were not very clear about the mission. When they heard Ji Xuanyi say this, they nodded in conviction.

Ji Xuan said, " Miyin, go and observe the position of the elite monsters. Xue Piao Renjian, please follow me and Tianxia. By the way, be careful. The assassin's invisibility is definitely not omnipotent in this situation. If you get too close to the elite monsters here, something might happen. "

Mi Yin frowned when he heard this. If Ji Xuanyi hadn't reminded him, he might have forgotten about it. He immediately said, " I know. Don't worry. "

Mi Yin is definitely one of the most reliable players in Fanxing City. Ji Xuanyi is of course relieved about him. After reminding him of a few details, he let Mi Yin leave the bushes first. Ji Xuanyi looked out from the gap in the grass. For a long time, the elite monsters outside did not show any special movements. It seemed that Mi Yin was indeed very careful and should not need their support for the time being.

Ji Xuanyi lowered his voice and said, " Let's go too, and make less noise. " and the little fox following Ji Xuanyi was very sensible and moved lightly, with almost no sound when their claws stepped on the ground. The group tiptoed along the bushes to move deeper into the ground.

There were indeed not as many elite monsters on the dock as on the third supply island, but there were still about a dozen or twenty of them. There were more of them when walking inside. Not only Ji Xuanyi, but also the other two people had frowns on their faces.

In such a small area, the number of people shouldn't have made everyone feel overwhelmed, but the problem was that the strength of these elite monsters was too high.

August was set as a highly respected great magician. The official certainly would not let him tell players false information. Even if what he said was just speculation, it was basically true. The situation at the dock was exactly the same as what he had previously inferred about Ji Xuanyi. The orcs who stayed in the Lost Continent became the evil god's henchmen, and were strengthened like the mermaid boss . The orc elite monsters that Ji Xuanyi and his companions saw at the dock were completely different from the orcs they had seen on the three supply islands before. Whether in appearance, size or pressure, there was a feeling of heaviness and suffocation in people's hearts.

If the orcs on the supply island still make people want to touch them, then the orcs on the Lost Continent will only make people feel dangerous. You can tell without having to meet them face to face that these orcs are no different from man-eating beasts.

Ji Xuan took a look at the levels of the orc elite monsters and couldn't help but curse in his heart, another fucking question mark ... He is now level 69, only one level away from the maximum level. The question marks all over his eyes mean that these elite monsters are at least level 72, which is almost the same as the boss in the dungeon !

Ji Xuan took a look at his HP and found that although it was not as high as that of a dungeon boss , it was almost as strong as a small boss . He estimated that the attack would not be too low ...

If there were only one or two monsters of this strength, it would be easy to deal with, but now that there are so many of them all over the ground, it is very difficult. If we want to clear out the elite monsters here, each monster must be assigned the combat power of at least ten players. Although their number should be enough, who knows if they will refresh or get support during the fight?

After Ji Xuanyi reached this point, he became more certain of his speculation. There must be a mission nearby that could weaken the defense force of the dock. As long as he could find it, it should not be too difficult to set up camp at the dock.

However, this pier is neither big nor small. Although there are dense vegetation and many places for them to hide from the sight of elite monsters, it is not easy to find one in this area. Because they had to control their voices and pay attention to observe the situation around them, the three of them moved very slowly. During this time, Jian Xi Xinjiu also sent a message to say that everyone on his side had gathered and asked about the situation here.

Ji Xuanyi replied to him briefly, saying that the situation at the dock was a bit serious and it would be best not to act rashly.

It seemed that it was not very convenient for Jian Xi to make new wine. After all, everyone had already gathered, and Youyue City and Yaori City were still urging him. If there was no movement at all, he would still be under a lot of pressure.

Ji Xuanyi thought for a moment and replied, " Youyue City is an ally and can definitely understand the situation here. There's no need to explain to Day City. Tell them what we are doing. They might come to cause trouble. You should discuss with Youyue City and try to hold on as much as possible. "

Jian Xi Xin Jiu also understood that they should not act impulsively in this matter. If they misjudged the intensity of the upcoming battle, they might have to go home together. So he had no choice but to agree.

As soon as Jianxi Xinjiu responded, Mi Yin sent a message.

Sure enough, this area was not just filled with elite monsters. Fortunately, he insisted that Jian Xi Xin Jiu not act rashly. Otherwise, with the other two main cities, there would be a total of more than 700 people, and maybe all of them would have to die here!

Mi Yin carefully avoided the elite monsters and sneaked inside, and found that there was a stone giant nearly a kilometer away from the dock.

Although the stone giant just stood there like a dead object and didn't move, Mi Yin noticed its health bar and red name with her sharp eyes, and thought it was the final boss stationed at the dock .

The stone giant, like the other monsters on the dock, has a question mark level. Although Miyin is only level 68 and there is no way to figure out its exact statistics, as the final boss , its level can only be higher than the elite monsters, and its health bar will only be thicker. It might even be slightly weaker than the original world boss .

After Ji Xuanyi reminded Mi Yin to be careful, he once again informed Jian Xi Xinjiu of the situation that had been discovered at the dock, and continued the search with Xue Piao Renjian and Qi Qin.

About five minutes later, Ji Xuanyi and his two companions reached the end of the bush. There is a fork in the road ahead. There is a section of road about ten meters long that is not covered, and there are still orc elite monsters guarding the surroundings. If you want to go through, you will definitely risk being discovered.

Ji Xuan looked at Qi Qin subconsciously.

Qi Qin lowered his voice and said, " If this were in reality, I would be able to pass through without being discovered, and I could bring you with me, but here ..."

He said hesitantly , " This armor is still too heavy, and the orcs' five senses are probably much sharper than those of ordinary people. "

Ji Xuanyi frowned, not noticing that Xue Piaorenjian, who was following behind them, looked confused.

What are these two talking about? Is there an advantage in real life over in-game?

However, Xue Piao Renjian was just wondering in his heart, and maybe he would turn around and complain to Mi Yin, but he would not say it out loud in front of the two of them.

Ji Xuanyi didn't say anything, Qi Qin couldn't help but ask: " What should we do now? Turn back or change lanes? "

The people on the Lost Continent certainly have no intention of beautifying and greening the land, and the grove of trees where they are is not a neat straight line. They can continue

searching by changing direction, but they may have to repeat the same route and need to spend more time in this area.

Of course, turning back is impossible, but changing lanes is still something you can consider . Just as Ji Xuanyi fell into deep thought, he felt his sleeve move. He looked down and saw that it was the little fox pulling him.

The little fox was Ji Xuanyi's pet and never left his side. When Ji Xuanyi first decided to come down to get information, he hesitated whether he should stay because of him. But the little fox was very smart and knew what they were doing. He followed their example and lightened his footsteps. As a fox orc whose body size was not very big, his movements were quieter than Ji Xuanyi and the others, which made Ji Xuanyi feel a lot more relaxed.

The little fox suddenly moved, it must have discovered something. In addition, due to its connection with the Lost Continent, Ji Xuanyi was still very concerned about the little fox's movements.

Seeing that the little fox looked a little anxious, Ji Xuanyi touched his head and comforted him softly: " What did you find? It's okay, tell me slowly. "

The little fox nodded, and moved closer to Ji Xuanyi's ear, with its wet nose touching Ji Xuanyi's earlobe, and then whispered: " I smell blood. "

The three of them were stunned when they heard this and looked straight at the little fox.

The little fox hid in Ji Xuanyi's arms with some fear and said, " I don't know what the blood is, but I really smelled it. It's very close ..."

After yesterday's conversation, Ji Xuanyi was sure that the little fox would not lie to him. Since he said there was blood, it must be correct.

Ji Xuanyi lowered his voice and whispered, " Besides blood, did you smell or hear anything else? "

The little fox's ears twitched, and then he said honestly: " There was no sound, but the smell of blood seemed a bit stinky, as if it had gone bad. "

The three of them looked at each other. The blood tasted different, so there were only two possibilities. One was that the blood came from orcs infected by the evil god, or simply from the evil god's minions. The other was that the blood might have gone bad, as the little fox said, because the incident happened a long time ago.

In terms of the defense level of the dock and the strength of the elite monsters, Ji Xuanyi was more inclined to the latter. He whispered to the other two: " Look around to see if there are any subtle bloodstains. The little fox can smell it here, so if it's not us, but other players who didn't bring him here, there must be a chance to find it. If we are careful, it should be relatively easy to find it. "

Upon hearing this, Xue Piao Renjian and Qi Qin both nodded, and then began to search carefully.

Ji Xuanyi always felt that the setting of this fork in the road was strange. Rather than trying to make the players give up, this distance that was neither long nor short was more like a test for the players ...

Because of this idea, Ji Xuanyi paid special attention to the situation on the other side of the intersection. After shifting his gaze away from the patrolling orc elite monster, Ji Xuanyi soon made a discovery.

"Do you think that's blood?" Ji Xuanyi narrowed his eyes and said uncertainly. He has a slight myopia, and even with the correction in the game, he is not so sure about what he sees.

There is no proper greening in the Lost Continent, and of course it is impossible to build roads. The roads are all mud, and after being exposed to the sun, there is a lot of dust and it is dirty. The place that Ji Xuanyi pointed to looks like ordinary black soil. If there were no faint traces of dragging, Ji Xuanyi might not have noticed it at all.

Although Xue Piao Renjian was an amazing expert, he still had no knowledge of this kind of thing. Fortunately, Qi Qin was there, and after just one look, he confirmed: "It's blood!"

Ji Xuan said: "Sure enough!"

It seems that a battle has indeed taken place here, and someone was injured – no, judging from the combat power of the elite monster, that person is most likely dead. The dragging trace is most likely a scene that happened in the past. The orcs who wanted to resist the evil god were killed by the infected orcs after approaching the dock , and their bodies were then dragged away for disposal.

But the problem is that the dragging trace leads to the other end of the road. If Ji Xuanyi and the others want to continue tracking it, they have to pass through here!

All three of them had solemn expressions on their faces.

Before Ji Xuanyi and Qi Qin could say anything, Xue Piao Renjian said, "I'll go lead them away."

Ji Xuanyi couldn't help but look at him.

Xue Piao Renjian said with no expression on his face, "I have a horse."

Now we are no longer on the boat. As a knight, Xue Piao Renjian can summon a horse. But now they were in the Lost Continent, with red-named monsters everywhere, and the ships in the three main cities were far from the shore . Even if Xue Piao Renjian had a horse, where could he run to after alarming so many elite monsters? In the end, he would most likely be surrounded by monsters and sent back to the resurrection point in the Elemental Continent. Ji Xuanyi frowned and immediately rejected the idea: "No, if you die here, how can I explain it to Mi Yin?"

Xue Piao Renjian glanced at him, and a smile appeared on his face. He said, "No need to explain, he understands."

Ji Xuanyi: "..."

Ji Xuanyi said with a frown on his face: "Don't say such gay things . "

Snowfall: "..... ? "

Renjian was suddenly filmed saying something very gay , and was completely confused. Qi Qin then said, "Why don't I go? "

Ji Xuan said expressionlessly: "Don't join in the fun. If you go, can you divert them at this speed? If you do, we will all be discovered together."

Qi Qin: "..."

That's true.

Qi Qin remained silent.

Of course, it was impossible for Ji Xuanyi himself to go. He was not as fast as Qi Qin and he would probably be caught as soon as he showed his head. He would not be able to buy any time at all.

But no one can go. We can't expect the elite monsters to run away on their own, right?

Ji Xuanyi was in a dilemma, thinking about whether he should look around to see if there were any tools that could be used, when he suddenly felt a pain in his hand, as he was bitten by the little fox!

Most of the pain in the game was blocked, and Ji Xuanyi hadn't felt pain in the game for a long time. He was stunned for a moment, and the strength in his hands loosened.

Unexpectedly, at this moment, the little fox that was originally held in Ji Xuanyi's arms seized the opportunity, broke free from his arms and jumped out. When Ji Xuanyi reacted and tried to catch him, he only touched the tip of its furry tail!

The little fox got on all fours and ran very fast, and immediately disappeared into the bushes on the other side, making sharp cries from time to time. Even if the orc elite monster was slow to react, it noticed it and immediately chased in the direction the little fox fled.

Ji Xuanyi was about to chase out of the bushes immediately, but Qi Qin reacted immediately, hugged Ji Xuanyi, and together with Xue Piao Renjian, took advantage of the moment when the elite monster was lured away and quickly ran across the three-way intersection.

After the three of them hid again, Ji Xuanyi immediately hit Qi Qin hard, but his strength attribute was too low, and Qi Qin didn't even make a sound.

Ji Xuanyi lowered his voice and said angrily: "He's just a little brat!"

How could he be allowed to lead the monster away? If anything happened to him, Ji Xuanyi would be in trouble!

Perhaps the setting of the little fox as a pet is to go through this plot to lure away elite monsters for the player, but the sense of substitution is so strong that Ji Xuanyi still can't help but feel that he is not cautious enough and underestimated the little fox's AI. He can actually understand what they are planning.

If all they can find later is the little fox's corpse, Ji Xuanyi is going to call the authorities to complain. This plot is too fucking bullshit!

Ji Xuanyi cursed under his breath for a long time before he realized that although he was not so enthusiastic about the little fox, the expression on Qi Qin's face was actually not good-looking either.

None of the three people expected the little fox to suddenly do this, and they all felt bad. The reason why Qi Qin stopped Ji Xuanyi was that he knew it was useless for him to go, and he would just go back to the resurrection point in vain, and the little fox's sacrifice would be in vain. Ji Xuanyi calmed down and realized that he shouldn't be angry with Qi Qin. He couldn't help but sigh and said, "I'm sorry, I didn't mean it."

Qi Qin was already used to being bullied by Ji Xuanyi, and was actually somewhat flattered after hearing the apology. He quickly patted his back, pulled him into his arms, and comforted him, "It's okay, I know everything."

Ji Xuanyi leaned against him and whispered, " If I had known this would happen, I would have agreed to let Xue Piao Renjian go out from the beginning. "

Xue Piao Renjian, who was suddenly caught in the crossfire, said: "..."

He just doesn't like to talk, otherwise I must tell Ji Xuanyi now that he is still here! Can't I wait until he leaves before saying this!

But even though the snow was falling on the earth, although he didn't say anything, he couldn't help but complain a few words in his heart and began to miss Mi Yin.

What kind of people are these!

Qi Qin patted Ji Xuan gently for a while and said, " The bloodstain is on the leaves over here, it's quite obvious, shall we continue to look for it now? "

Ji Xuanyi shook his head without hesitation and said, " Wait here for a while. If the little fox can come back, he will definitely come here to find us. "

Although he knew that the possibility of the little fox coming back was small, Qi Qin did not force him. He nodded and agreed to stay and wait with him.

The wait lasted nearly twenty minutes. Jian Xi Xin Jiu sent several private messages, and even Ye Lin Yu joined in the fun. However, Ji Xuan Yi remained unmoved and insisted that Jian Xi Xin Jiu extend the wait time a little longer.

Jian Xixinjiu had no choice but to ask him how long it would take. Ji Xuanyi thought for a moment and replied, " Two or three hours if fast, five or six hours if slow. "

Sword Washing New Wine: "... Are you kidding me? "

Ji Xuan said, " Otherwise, you can bring your people up now, and then go back to the Elemental Continent together. You can see if Xiao Xiao Yu Xia will let you go. "

Sword washing new wine: "..."

Jian Xi Xin Jiu was of course aware of his position as the scapegoat, so he could only let everyone disperse first and gather again in the afternoon.

Forget about Youyue City, they were pretty Buddhist to begin with, and had no objection to hearing that they had to wait a little longer for safety, so they just went about their business. But Yueri City got anxious and rushed over to ask Jian Xixinjiu if he was playing a trick on them.

They kept postponing the agreed time, and now they were saying they were disbanding?

Jian Xi Xin Jiu didn't have a good attitude towards Day City, and said impatiently: " Plans can't keep up with changes, understand? Do you know what's going on at the dock now? You're just talking nonsense! Am I not more unlucky than you in terms of gathering and disbanding? You don't even have a hundred people, and I have more than six hundred. I didn't say anything about gathering and disbanding! "

Day City was also anxious, and said: " Everyone knows that you have more people in Star City, but you went back on your word, isn't that right? "

Jian Xi Xin Jiu sneered, " Of course I was wrong to go back on my word, but I've told you the reason. The situation at the dock is very serious. If you insist on going, I won't stop you. At worst, we can go back to shore and wait for your next boat to come over. Are you going? "

The executives of Day City cursed Jian Xi Xin Jiu a few words and then stopped talking.

If Jian Xi Xin Jiu insisted on stopping them from going because this was a cooperative activity, Zhao Chen, this lunatic, might actually go just to make them upset. But Jian Xi Xin Jiu's attitude

was very boring, and Zhao Chen had no desire to cause trouble. Instead, he just shrank back quietly.

He didn't think that the person who went to the island would be Ji Xuanyi. After all, Mi Yin was in Fanxing City. If he knew that Ji Xuanyi was on the island, he would probably start to act up again.

Jian Xi Xin Jiu was scolded a few times, but he didn't take it to heart at all. In the game, the one who scolds others is usually the one who gets beaten or suffers a loss, and most people are used to it. Jian Xi Xin Jiu turned his head and put it behind him. Looking at the team that disbanded after him in Day City, he couldn't help but curse: " Fuck, this idiot is so fucking cheap! "

Jian Xi Xin Jiu had just finished dealing with Yue Ri City, and Ji Xuanyi had been waiting for nearly ten minutes.

Qi Qin did not try to persuade him to leave, but Ji Xuanyi himself already had a bad feeling in his heart.

Ji Xuanyi gritted his teeth tightly, not thinking about the next mission or what to do with the alliance with the orcs. His mind was full of the little fox's face that looked smart but was actually stupid.

Just when Ji Xuanyi was about to accept his fate, the bushes shook violently, and a fiery red figure jumped in from outside, threw itself into his arms, and began to tremble constantly, with a suppressed, almost inaudible whimpering sound coming out of his throat.

Ji Xuanyi was startled, then overjoyed. He took a breath and hugged the little fox tightly. He didn't dare to scold him loudly, so he lowered his voice and cursed: " Are you fucking going to die?! "

The little fox did not respond. Although he mustered up the courage to run out, it was the first time he was so bold. In fact, he was scared to death and did not care about being scolded. He cried and struggled hard to get into Ji Xuanyi's arms.

Ji Xuanyi couldn't bear to blame him anymore, so he hugged him tightly and stroked his fur. Afterwards, not long after, the orc elite monsters that had been chasing the little fox came back. They looked around and found no trace of the little fox, so they continued their patrol.

Ji Xuanyi and others walked along the blood trail to a hidden place before stopping again. Xuanyi 's hand. His throat still made a whimpering sound unconsciously .

Ji Xuanyi looked out from the gap in the grass and it seemed that the guard was not as strict as before. He couldn't help but breathe a sigh of relief. He pulled the little fox to his side and felt it up and down.

Unfortunately, the fox's body structure is really different from that of humans. Ji Xuanyi could only grab a handful of soft fur and asked helplessly: " Are you not injured anywhere? "

When the little fox heard this, the tears that had stopped flowing started flowing again, and he held up his big tail with a feeling of grievance.

Ji Xuan was startled, fearing that the little fox was seriously injured. Fortunately, he picked it up and took a closer look and found that the little fox only had a tuft of its tail hair pulled out, and was not injured. If he had to say there was any damage, it was probably that the little fox was so scared that its tail had cramped and became stiff into a hook, unable to twist back.

Ji Xuanyi rubbed his hands with both anger and amusement, and said, " There won't be a next time for such dangerous things. Otherwise, how can I explain to your father when I go back? " The little fox lay in Ji Xuanyi's arms and thought for a while, then said, " I hope you can lie to him and I'll be fine. "

Ji Xuanyi pinched his mouth and said, " I'm not lying. "

The little fox's ears drooped and he said " Oh " dejectedly.

With the lesson just now, Ji Xuanyi held the little fox tighter, almost tying it up with a rope, for fear that the little fox would jump out in a fit of rage and fight the monster again.

But speaking of it, this little thing really doesn't look like a fox orc. How could it be so stupid ...

But now that the little fox has returned safely, the tracking must continue.

The bodies of the orcs who wanted to resist were dragged roughly into the bushes. The bloodstains on the leaves were much more obvious than the dried traces on the road. Ji Xuanyi and his team could also find cloth on the branches from time to time.

After a while, the little fox couldn't help but say, " The smell is getting stronger. It stinks. "

Ji Xuanyi and the other two didn't smell anything, but the little fox's expression of disgust was too obvious, so Ji Xuanyi reached out and covered his nose.

After walking for a while, not only the little fox, but Ji Xuanyi and the others could also vaguely smell a foul odor.

Ji Xuanyi was choked by the smoke and couldn't help asking, " How long ago did this happen? "

Qi Qin frowned and said, " This weather must have happened at least three to five days ago. "

Various negative states are weakened in the game. Although the smell was faint, Ji Xuanyi and his team were actually very close to the corpse. If there hadn't been this weakening, Ji Xuanyi might have been smoked out of the game by now, and the little fox didn't have such good treatment. If Ji Xuanyi hadn't helped cover his nose, he would have probably rolled his eyes.

Soon, the group found the source of the smell, a half-buried body.

Although this game has restrictions on the registration age, it is a holographic online game after all, and there are too many scenes that are too realistic. Not to mention people over 18, even people over 38 would find it difficult to play. So even though Ji Xuanyi and the others only saw two exposed legs from a distance , the images were all blurry.

If only that part of the picture was blurry, Ji Xuanyi almost thought that his myopia had worsened to a thousand degrees due to playing games.

Qi Qin had never been nearsighted before, and he couldn't help rubbing his eyes over and over again. Ji Xuan stopped him and said, " This is how it is set up. Stop rubbing your eyes. "

Qi Qin gave up and couldn't help but look at the blurry area again before asking, " How do we get there? "

They were still squatting in the grass. The place where the bodies were buried was only about ten meters away from them. It was a small open space where an orc elite monster was patrolling.

Qi Qin said: " Do we need to divert them again? Should we seize the opportunity to check the body? "

Although he knew that the possibility of the little fox triggering the monster-luring plot again was small, Ji Xuanyi still subconsciously pinched the little fox's mouth with one hand and hugged

him tightly with the other hand. When he looked down and saw the little fox blinking its big eyes and looking at him obediently, Ji Xuanyi relaxed a little and said, " It's just a monster. There are no other elite monsters patrolling around. Generally speaking, it should mean that it needs to be killed. "

Ji Xuanyi checked the situation of the patrolling monster in front of him. Sure enough, the opponent's level was only 68, one level lower than him. Although his health was high, with Qi Qin and Xue Piao Renjian there, it was not difficult to deal with him.

Logically speaking, this kind of clue-based task can be completed by most people, the difficulty lies only in discovery. However, the configuration of Ji Xuanyi and the other three is definitely not considered " most people " , so there must be some props around that can help complete this task.

However, Ji Xuanyi had been waiting for too long and didn't want to waste any more time, so he said directly: " Come on together, I'll support you. "

Upon hearing this, Qi Qin and Xue Piao Renjian immediately took out their weapons and rushed towards the patrolling monster. Ji Xuanyi followed closely out of the bushes, and then the little fox also jumped out. While Qi Qin and Xue Piao Renjian were fighting the patrolling monster, the little fox hugged the monster's thigh and bit it !

Regardless of the damage, the momentum was quite good, which made Ji Xuan look at him with admiration.

It turns out that the little fox is not only a cute pet, but also a combat pet! Awesome, awesome, awesome ...

Ji Xuanyi was originally worried that the little fox would be accidentally injured, but the patrolling orc had enough trouble dealing with Qi Qin and Xue Piao Renjian, and he had no time to pay attention to the little fox hanging on his legs. It was bitten dozens of times. The last knives of Qi Qin and Xue Piao Renjian fell at the same time, and the patrolling orc's roar was strangled in his throat, and he fell down unwillingly.

The little fox ignored the stench and excitedly ran to Ji Xuanyi to ask for credit. Ji Xuanyi touched his head, praised him, and then strode towards the half-buried corpse.

Chapter 179

In order to protect the physical and mental health of the players, the bodies that died in too tragic a way were blurred , but just looking at the outline was enough to make the three people's frowns never relaxed.

Qi Qin was quite receptive to this kind of thing . Under Ji Xuanyi's command , he dug the half-buried body out of the soil. The little fox buried its head in Ji Xuanyi's arms in fear.

Ji Xuanyi patted his head and said, " Is there anything on the body? "

Qi Qin heard this and said with some embarrassment: " It's too blurry, it's a little hard to see. " But if you really have to touch it with your hands, your sense of touch is still not blocked , but the rotten and sticky feeling makes people feel creepy.

Ji Xuanyi didn't want Qi Qin to do such dirty work , so he pushed him aside and squatted down himself.

It was not known whether the dead orc was dead because he did not obey the evil god or because his race was originally small in size. In addition, the body was broken and not heavy . Ji Xuanyi took some effort to turn the body over.

Then the three of them were stunned at the same time.

There was indeed something hidden on the corpse, and in order to prevent the orcs controlled by the evil god from finding it , the thing was hidden very secretly . Even though the clothes of the corpse had become a pile of rags, only a corner of the paper he had hidden was exposed, and it was black and very inconspicuous – at least it should not be conspicuous according to reason ...

However, when the authorities blurred the body, they did not blur the paper as well , which resulted in Ji Xuanyi immediately seeing the eye-catching corner of the paper as soon as he turned the body over.

Ji Xuanyi said with a frown on his face: " This is a little too obvious. "

Qi Qin said awkwardly: " No matter what, it's a good thing that we can find it. "

Ji Xuanyi sighed, pinched the corner, pulled out the whole piece of paper, and continued searching on the corpse, but found nothing else.

Because they were worried that there would be more elite monsters spawning in this place, the three people made sure that there were no other clues around, and then returned to the bushes to check the clues that Ji Xuanyi had obtained.

The paper was not clearly visible due to the stains on the corpse, but Ji Xuan touched it and found that the surface of the paper was very smooth. He took out a cloth and wiped it, and then he could barely see the words on the paper.

There was information on both sides of the paper. One side was a map that showed the approximate deployment of elite monsters near the dock, with a larger red dot drawn in the farthest corner and a danger symbol marked on it.

Ji Xuanyi took out the parchment and compared the direction, and found that this symbol should refer to the stone giant that Mi Yin had discovered before.

" It's a very detailed drawing. Ask Mi Yin to come and meet us. There's no need to scout out the terrain for now. Just ask him to check his memory against this piece of paper. If it roughly matches, there shouldn't be any big mistakes. " Ji Xuan said.

Xue Piaorenjian nodded, lowered his head and began to chat in secret.

Ji Xuanyi turned the paper over, revealing the other side.

The pattern on this side was different from that on the back. It was full of densely packed words, but because of some indelible stains, Ji Xuanyi found it a bit difficult to read.

The above roughly describes the elite monsters' shift changes and patrol patterns. For Ji Xuanyi and his team who are preparing to force a landing, this kind of information that is only needed for stealth operations is not of much use. However, it can be seen that the owner of this piece of paper did intend to do something secretly at the dock, but his luck was not good. No matter what happened, he was caught by the patrolling elite monsters and was brutally killed .

Ji Xuanyi continued to read.

" The mechanism that the rabbit tribe worked so hard to complete is at the blue mark. Although they were killed at the last moment, they hid the mechanism in a more concealed

place. As long as the mechanism is activated, the evil god's magic circle will be destroyed. The stone giant has no power and can only be activated manually. Not only will its power be weakened, but the activation time will also be delayed to at least three days. At the same time, the violent orcs on the dock will also be weakened. We can take this opportunity to tamper with the ship and let all the violent orcs on the ship sink to the bottom of the sea! "

Ji Xuanyi was stunned.

There is so much information contained in this passage.

The Lost Continent has a dock, of course, because they also want to go out to sea, but what are they going to do? If they died, the plan to resist the orcs failed, then where did the ships carrying the violent orcs mentioned in the paper go? If they were going to the supply island, why didn't they meet each other when they came from there?

However, where these clues point to is not what Ji Xuanyi needs to consider now . The most important thing is the mechanism mentioned on the paper!

Ji Xuanyi quickly turned the paper over and looked at it carefully, then he saw a very inconspicuous blue dot on it.

The dot was still a little far away from them , and they needed to pass through many patrol points of elite monsters. With their current configuration, it was absolutely inconvenient to go there. Ji Xuanyi didn't want to take risks with the little fox again.

Ji Xuanyi frowned and thought for a while, then said, " Now is not the time to show off. Let's wait here first. It's better for Mi Yin to open the mechanism. "

Ji Xuanyi first carefully took screenshots of both sides of the paper, then took out the parchment. Seeing that Mi Yin was not far away from them , he began to contact Jian Xi Xinjiu and informed him of the situation here.

Jian Xi Xin Jiu felt that the dock was full of dangers just by listening to his description. Hearing that there was a mechanism that could weaken the enemy's combat power, he was of course very excited and said, " In other words, after Mi Yin activates the mechanism, we can go ashore? "

" It should be like this, " Ji Xuanyi said hesitantly , " but the paper mentioned that the activation time of the stone giant will be delayed by three days. Although this should be a good thing for the plot, I always feel that it is not right. "

Jian Xi Xin Jiu was stunned for a moment, not understanding what he meant, and asked: " What do you mean? "

Ji Xuanyi said: " You have seen how difficult this activity is in the early stages. Not to mention the preparations, just starting the activity is a hassle. "

Jian Xi Xin Jiu said in a daze: " Is it a hassle? Didn't you just go and say something and it will open? "

Ji Xuanyi: "..."

Jian Xi drank the new wine and remained silent.

Ji Xuanyi said speechlessly: " You think it's easy to increase August's favorability? Wake up! Starting the event, finding a ship, and going out to sea are all very difficult. Do you think the difficulty of landing will suddenly decrease? Just clear out the weakened monsters on the dock? And then you can settle down? "

Jian Xixinjiu was stunned, and felt that what Ji Xuanyi said seemed to make sense, and hesitantly asked: " What do you think? "

Ji Xuanyi said: " The stone giant was not only discovered by Mi Yin, but was also mentioned once in the clues in hand. It is definitely not just a decoration. "

" I guess this stone giant will be the final boss . In other words, if you want to settle down and start the second phase of activities, you will probably have to kill this boss . "

Ji Xuanyi frowned and said, " If my guess is correct, then the three-day delay may mean that we have to defend the dock for three days amidst the constantly spawning elite monsters, and then fight the stone giant. "

Jian Xi Xin Jiu was startled and said, " Fighting monsters for three days? Wouldn't that be boring? "

Ji Xuanyi was speechless and said, " What the hell are you thinking about? Is being bored the point? Although it may affect morale and combat effectiveness to a certain extent, the reduction in personnel is what we need to pay most attention to. If we finally fight our way up and then get driven back again, that would be a shame! "

Jian Xi Xin Jiu heard this and asked quickly: " What should we do then? "

Ji Xuanyi pondered for a moment and said, " Postpone the attack? If my guess is all true, the best way should be to start the attack on the second day before the stone giant is activated. It would be best if we only need to clear out a wave of elite monsters, and then the stone giant will be activated and killed . "

“ This should be the best case scenario. ”

However, before Jian Xi Xin Jiu could reply, Ji Xuanyi sighed again and said, " But this situation is too idealistic. Not only the exact time when the stone giant will be activated, but also how long it will take us to capture the dock is uncertain. It would be fine if we start the battle early. But if we start the battle too late, and the stone giant and a large wave of elite monsters rush over together, that would be a disaster. "

Jian Xi Xin Jiu used his brain for once and said, " Then it's better to do it as early as possible? " Ji Xuan nodded and replied, " One day in advance. If the opening of the Stone Giant is delayed by three days, that is, it will be activated on the third day from today, we can go ashore on the second day, and then control the refresh pattern of the elite monsters by killing them quickly. This is the easiest way to pass the level. "

Jian Xi Xin Jiu was filled with awe and said without hesitation: " I'll go and inform them right away! "

" Wait a minute! " Ji Xuan stopped him and said, " After all, these are all my inferences. If it was only Star City, it wouldn't matter. At most, I would take the blame if something went wrong. But there are two other main cities. I have to discuss it with them. "

When Jian Xi Xin Jiu heard this, he immediately became unhappy and said, " Forget about Youyue City. As long as it's your proposal, the people in Fanxing City will definitely not agree. They are a bunch of idiots. Why ask for their opinions? There's no need to listen to them. If you want to follow me, follow me. If not, get lost! "

Ji Xuanyi said calmly, " I know this better than you do. Although I have always been confident in myself, this is a cooperative activity after all. It would not sound good if we always have the final say. It has come to this point, and we still have to consider our reputation. "

In fact, due to the constant friction between Star City and Sun City, there are already some brainwashed players from Sun City complaining on the forum that Star City has the final say and completely ignores the opinions of the other two main cities.

Jian Xi Xin Jiu also knew about this, but it didn't matter to him at all. It had no meaning other than making him hate Day City even more. He immediately said in disbelief: " What the hell? What did you say? Are you the Ji Xuanyi I know? Are you going to bow down to Day City for something as messy as your reputation?! "

Ji Xuanyi couldn't help but said, " It's really hard to talk to you. Next time, let Xu Chu come and talk to me in private, okay? "

Sword washing new wine: "..."

It was obviously you who chatted with me first, okay!

Ji Xuanyi patiently explained: " We are not just soliciting opinions from Day City. We have three main cities. Each of us should send a representative to hold a meeting. The minority should obey the majority! "

The minority obeys the majority! Youyue City and Fanxing City had formed an alliance before the event started, so it was easy to guess who would be the minority and who would be the majority!

Jian Xi Xin Jiu laughed after hearing this and said, " Oh! That's what you mean!

Hahahahahaha ... I was wondering why you suddenly changed your personality. Okay! I'll let Xu Chu go to the meeting later. I've long been annoyed with those crying weaklings in Day City. Now they know that we are bullying the weak. It's not the time when they relied on their power to do whatever they wanted during the world mission. "

Ji Xuanyi stopped him again and said, " Don't let Xu Chu go to the meeting. Since Ye Linyu is on our side, you can just follow him and be his yes-man after you have discussed it privately. He will take the brunt of everything. If you let Xu Chu go, he might get pissed off by Ye Linyu and even slap himself in the face and go to the side of Day City! "

Jian Xi Xin Jiu: "... Does he have such a big grudge against Ye Linyu? "

Ji Xuanyi thought for a moment and said very seriously: " If it were Xu Chu, it would probably be a blood feud! "

Jian Xi Xin Jiu: "... Okay, then I'll be the yes-man, and you guys will come back after Mi Yin finishes opening the mechanism? "

Ji Xuanyi thought for a moment and said, " No, it's too troublesome to go back. We might even be discovered by the monsters. You guys decide on a time, and we'll go offline directly and come back when the fight starts. If we're lucky, we might be able to cooperate with the monsters from inside and outside. "

Jian Xi Xin Jiu thought it made sense, so he didn't say much. He just responded and ran to discuss it with Ye Linyu.

Not to mention how Ye Linyu and Jian Xinxiju had a nonsensical conversation, they finally figured out each other's purpose. On Ji Xuanyi's side, Mi Yin finally hurried back.

When the bushes they were hiding in moved, Ji Xuanyi knew that Mi Yin had arrived. Sure enough, the air fluctuated, and the next second, Mi Yin appeared in front of the three of them. Just as Ji Xuanyi said, the elite monsters' perception is indeed not restricted by the stealth skill. They just can't detect Mi Yin through vision. But when Mi Yin gets too close, they can still feel it. When Mi Yin went to the stone giant, she would have been discovered if she hadn't teleported quickly.

It took Mi Yin a lot of effort to sneak all the way here. As soon as she appeared, she sat down on the ground, rolled her eyes and said, " I'm so tired. "

Ji Xuanyi ignored him and handed him the paper he got from there, saying, " Take a look at this. Is it the same as what you saw outside? "

Mi Yin took it and took a look. He had a good memory. Without Ji Xuanyi telling him, he changed the direction and understood it. After comparing it with his memory, he nodded and said, " There is not much difference. There should be no problem. "

Ji Xuanyi said: " That's good. "

Then he pointed out the words on the back to Mi Yin.

Mi Yin frowned as she finished reading, and immediately said, " Open the mechanism? Then I'll go. "

Ji Xuan nodded and said as a matter of course: " If we didn't want you to go, we wouldn't have waited so long. "

Miyin: "... Hey! "

Ji Xuanyi smiled and said, " The main reason is that Mi Yin is reliable, otherwise I would have brought Ze Yu Sishui down with me, don't you think? "

Mi Yin then hummed with a little satisfaction and said , " Then you must remember to bring him with you next time. You can't always be a laborer! I'm leaving! "

I had just taken a few breaths when Mi Yin was about to leave again.

Ji Xuanyi hurriedly asked: " Wait, you don't have paper with you? "

Mi Yin smiled and said, " No need, I wrote it down, I won't make any mistakes. "

Ji Xuanyi was shocked, watching Mi Yin disappear into thin air again, and couldn't help but say: " This guy is just showing off. "

Qi Qin said: " What should we do next? Let Mi Yin handle the matter. Shall we log off? "

Ji Xuanyi shook his head and said, Although this kind of mechanism that was created to be " it is hard to say whether Mi Yin needs ,opened should not be set up as a place full of crises s wait for'Let .we have to find a place to put the little fox before we go offline ,Besides .support Mi Yin and consider going offline after the mechanism is opened . "

Qi Qin nodded, and everyone began their long wait in the bushes again.

But it wasn't like he was completely in a daze. Ji Xuanyi once heard Qi Qin say that when they were still sailing on the ship, he once stayed behind to wash the dishes. Qi Qin came online early and found that the little fox was sleeping on Ji Xuanyi's bed, in a daze, with something chewing in his mouth.

In other words, the pets in the holographic online game will not disappear even when the player goes offline, but will still exist in the game, and at most will enter a sleeping state.

Obviously, it was not a good idea to let the little fox sleep in the bush for two or three days. It was too unsafe. After all, there would be a plot where the elite monsters would drag away the corpses of the rebellious orcs. Maybe the elite monsters would come out to pee. If the little fox was discovered in his sleep and couldn't run away, Ji Xuanyi would be dead.

So before they go offline, they must find a safe place to put the little foxes.

Apart from that, it is not known whether the little fox needs to replenish energy. In short, when the little fox follows Ji Xuanyi, he eats when Ji Xuanyi eats, and from time to time he chews some snacks he brought from home.

Ji Xuanyi knew that the little fox must have some dried fruits and meat in his pocket, but it was unrealistic for him to eat them for a few days, so he could only rummage through his bag. The skewers smelled too strong, and taking them out would be like being a sitting duck, but he wasn't as greedy as Qi Qin, and he didn't usually put food in his bag, only some blue and purple materials that looked edible ...

Ji Xuanyi hesitated for a moment, but still looked at Qi Qin and Xue Piao Renjian for help. It was not that he was reluctant to give up the materials, but things like the luminous mushrooms and poisonous wolf leg meat, even though they seemed edible compared to various stone cloths, were really too unsafe!

Although Qi Qin had learned cooking and was even an expert at it, because he had been at sea before, he had just randomly caught the ingredients, so now he only had some condiments in his bag. He couldn't let the little fox eat the chili sauce without any food!

Ji Xuanyi could only look at the snow falling on the earth.

Xue Piao Renjian hesitated for a moment, took out two stacks of dry biscuits from his bag, and said, " Is this okay? "

Even though it doesn't look or taste very good, it is indeed real food!

Ji Xuanyi breathed a sigh of relief, took it and said, " Thank you. "

Only after getting the item did Ji Xuanyi see the attributes on it.

" Although Granny Mona's pancakes don't have much taste, they are very filling! "

[Effect of consumption] : Gain three points of strength, lasting for one hour. Can be stacked with any effect. The same item only stacks time.

Ji Xuanyi: "..."

He thought Xue Piao Renjian was really sick. Not only did he not talk, but he also ate tasteless food in the game. After a long time, he found out that it was an effect that could stack all attributes. Although there were only three points, a mosquito leg is still meat. He guessed that he would use it when sparring with Mi Yin.

Xue Piao Renjian saw that he accepted it and was afraid that it was not enough, so he said: " I have more. "

Ji Xuanyi said quickly: " Enough, enough. "

If you give me a few more, the little fox will be so hungry that he will be silly!

The cake handed to him by Xue Piao Renjian was folded. When Ji Xuan opened it, he found that the description of the item was correct and the portion was really big, even bigger than a washbasin!

Ji Xuanyi held the cake and tried it on the little fox's pocket to make sure it wouldn't fit. After hesitating for a while, he made a hole in the middle of the cake, put the little fox's head in, and let the cake hang on its neck.

Little Fox: "..."

Seeing the dull look on the little fox's face, Ji Xuanyi took out the other two cakes in his hand while the other party had not reacted, and hung them up. He folded the cake slices and stuffed them into the little fox's pocket.

After doing all this, Ji Xuanyi patted the little fox's head lovingly and said, "With these and the dried fruits and meat, it shouldn't be hungry."

Little Fox: " qaq ! "

The little fox really disliked this style of collar, which was the same as the Elizabethan collar! But it was given by Ji Xuanyi, so the little fox could only silently hold back two bags of tears and accept it.

Although he didn't know whether the little fox's AI could understand, Ji Xuanyi still explained to the other party what they were going to do specifically, and that the little fox might have to hide here alone for a few days.

The little fox had no objection to hiding alone. After all, the orcs of the fox tribe had started training the cubs to be able to survive independently very early on.

In fact, Ji Xuanyi sometimes couldn't help but wonder what the connection was between the orcs in this game and ordinary animals. After all, apart from being able to speak and having a body structure that was closer to that of humans, they were too similar in other aspects. For example, the actions of the little fox when it attracted elite monsters to them were very similar to the behavior of wild foxes that would lure away predators to protect their cubs.

Although the little fox, as an orc, has certainly never experienced these things, it might be a conditioned reflex hidden in its bones according to the setting.

Ji Xuanyi and the other two hugged the little fox and waited for nearly an hour before they received a private message from Mi Yin.

[Miyin] : Okay!

In fact, after Mi Yin became familiar with the road conditions, he arrived at the location of the blue dot in twenty minutes. However, just as it said on the paper, the group of rabbit orcs really tried very hard to hide the mechanism in a secluded place. For the remaining thirty minutes, Mi Yin was frantically looking for the mechanism. Finally, he climbed into a tree hole and crawled in the rabbit hole for a long time before he found where the mechanism was.

As soon as Mi Yin's secret chat came, the next second, Ji Xuanyi discovered that the surrounding orc elite monsters twitched at the same time. Not only their levels and health, but also their size became smaller!

Afterwards, the orc elite monsters roared to the sky and ran in one direction together.

Ji Xuanyi compared and found that the direction they were going was not the direction where Mi Yin was now. He was slightly relieved and thought that they were most likely going to the location of the evil god's magic circle.

After a while, all the elite monsters left. Ji Xuan stuck his head out to take a look, and after making sure that there were no monsters around, he pulled everyone out of the bushes.

The three big men, who were not short in stature, had been hiding in the bushes for such a long time and were feeling suffocated. Not to mention Qi Qin and Xue Piao Renjian, Ji Xuanyi himself could not help but stretch his arms, and then he pulled up the little fox and started to search for the blueprint in his hand.

Qi Qin came over and said, " What is Xuanyi looking for? "

Ji Xuanyi said: " Find a tree. "

Qi Qin immediately remembered that every time he hid under Ji Xuanyi, he always preferred tall and big trees, preferably with lush branches and leaves.

Not only can they hide more safely, but the wider field of vision also allows them to better observe the surrounding situation.

Qi Qin took a look and said, " How about that one? "

Ji Xuanyi looked in the direction he pointed. The tall tree was growing among various vegetation with lush branches and leaves, but there was a small sparse spot on the branches towards the pier, which was perfect for observation.

Ji Xuan nodded and said, " That's it. Let's go up there before the orc monster comes back. "

The three of them and their pet hurried to the tree. First, Ji Xuanyi climbed up with the help of Qi Qin, followed by Xue Piao Renjian, and Qi Qin went up together carrying the little fox.

Xue Piao Renjian and Qi Qin only needed to hide, so they sat on the branches with more lush leaves. However, Ji Xuanyi wanted to observe the situation at the dock, so he occupied the largest branch alone, and the little fox hid behind him.

Ji Xuan glanced at the branch that was still thick enough for the little fox and said, " We are almost here. I will contact Jian Xixinjiu and you can get off first. "

Xue Piao Renjian didn't bother to be polite with him. After talking to Mi Yin, he went offline first. Qi Qin waited for Ji Xuanyi to join him.

After Ji Xuanyi finished washing the new wine with his sword, he took out a can of water from his bag and handed it to the little fox with the cake still hanging around its neck, saying, " Be good here and don't get down from the tree. "

The little fox nodded obediently. As soon as Ji Xuanyi brought up the exit interface, the little fox lay on the branch and assumed a sleeping posture.

Ji Xuanyi couldn't help but laugh and logged off.

According to Ji Xuanyi's inference, they will not need to go online again tomorrow after logging off today, and will gather online the day after tomorrow afternoon.

Originally, Qi Qin was supposed to go to his father's house for classes when he was not playing games, but after he lived with Ji Xuanyi, Qi's father refused to let him go and instead asked him to spend more time with Ji Xuanyi.

Qi Qin had no choice but to become a salted fish and lie down with Ji Xuanyi.

He had originally planned to go out on a date with Ji Xuanyi today, but when Ji Xuanyi woke up in the morning, he received a stupid phone call from abroad and exploded on the spot. If Qi Qin hadn't been there, who knows what Ji Xuanyi would have done. However, accordingly, the original plan to go out was also cancelled.

Ji Xuanyi had a gloomy face and sat on the sofa with Qi Qin watching TV.

This time they were performing a costume comedy. Qi Qin was laughing like a but Ji , fool Xuanyi didn't make a single move.

Qi Qin laughed for a while, then seeing that Ji Xuanyi was unhappy, he sat up straight and said, " Xuanyi, are you okay? "

Ji Xuanyi said woodenly: " It's okay. "

Qi Qin squeezed his hand and said, " Shall I make you something delicious? "

Ji Xuan looked up at him, and seeing the concern in the other's eyes, he couldn't help but curse himself in his heart.

Even if he was angry, it had nothing to do with Qi Qin. If he had the guts, he would just beat up the idiot on the other end of the phone. What was the point of giving Qi Qin the cold shoulder?

Ji Xuanyi tried to suppress his irritation, smiled at Qi Qin, and said, " I'm fine, and I'm not hungry. Don't you want to go out and play? Let's go now? "

Qi Qin was stunned for a moment, and was about to speak when he suddenly saw his cell phone flashing wildly.

stupid group set up by those people in Fanxing City , Qi Qin's phone was actually always on.

Liu Tian and Jing Yunhan didn't know where they got so many stupid emoticons from, which were refreshed on the screen every day, which annoyed Ji Xuanyi so much that he blocked them. It was just that Qi Qin was stupid and kept the group open all day long.

However, even if it was Liu Tian and Jing Yunhan, the frequency of refreshing the screen would not be so fast. It seemed as if something had happened.

Qi Qin opened his phone and took a look at it, then he was stunned.

 " What's wrong? " Ji Xuan asked. He didn't know why, but he always had a bad feeling in his heart.

Qi Qin handed him the phone blankly, still with a puzzled expression on his face.

Ji Xuanyi took it and looked at it, only to see that the person who was swiping the screen in the group was actually Xiao Xiao Yuxia!

He thought something had happened to Jian Xi Xin Jiu, why was it Xiao Xiao Yu Xia? Shouldn't he be preparing for the second phase of activities in the Element Continent? Even Zhao Chen from Dayo City had followed him to the Lost Continent, could there be anything else that could hinder him?

Ji Xuan scrolled up the chat history and was stunned.

[Xiaoxiao Rain] : Tianxia, is Tianxia still there? The best in the world

[Six days] : Jing Yunhan, you are a little bitch.jpg .

[Jing Yunhan] : Look, the pig is talkingjpg .

[Xiaoxiao Rain] : ... You two, shut up! Help me, the world!

[Six Days] : No. 1 in the World

[Jing Yunhan] : The best in the world

...

[Xiaoxiao Rain] : Why haven't you shown up yet? Tianxia, what are you doing with Ji Xuanyi? Forget it, let me just say it, Tianxia, ask Ji Xuanyi to check the forum, something has happened!

[瀟瀟雨下] : An assassin suddenly appeared in the second server, and he also used the name of Mu Xuanyi! I heard that he killed a lot of people and attracted a lot of hatred! Let Ji Xuanyi go and see what's going on! Is it his enemy who came to seek revenge on him! When Ji Xuanyi saw this message, a bunch of people in the group were blown away. Everyone was shocked. What was going on? The genuine Mu Xuanyi had already played a warlock. The assassin in the game must be a fake! But who has such a big grudge against Ji Xuanyi? It has been so long and nothing has happened. How come a fake Mu Xuanyi suddenly appeared and attracted so much hatred? !

Ji Xuanyi frowned tightly.

He had many enemies, too many to count, but that didn't mean he was willing to take the blame for others. What was this Mu Xuanyi who suddenly appeared like? He didn't remember that there was such a copycat among his enemies.

Furthermore, although this person was pretending to be him, he had killed so many people, so his strength must be good. Ji Xuanyi had a good idea of his assassin enemies who were quite strong. The only person he could think of who was close to his level was Mi Yin. Could it be that he was another master like Wan Ge Naizhi who suddenly appeared because of the change in the way the game was played?

Qi Qin saw Ji Xuanyi frowning and couldn't help but ask, " Xuanyi, are you okay? "

Ji Xuanyi shook his head. It was the first time he encountered such a situation. Of course, he was caught off guard, but in his opinion, it was not a big deal.

Since the other party was impersonating him, they must be coming for him. Although he was in the Lost Continent now, the other party would eventually come to find him after the event. If there was any problem, they would solve it together then. He was not alone now. With Qi Qin and those funny guys from Fanxing City around, he had nothing to be afraid of.

However, it is also very necessary to understand this matter in detail.

Ji Xuanyi said, " I'm fine, but I may not be able to go out today. I have to go to the forum to check the situation. Although I can't come forward to clarify, I may be able to find out what the guy who pretended to be me wants to do. "

Chapter 180

After Ji Xuanyi hadn't visited the forum for the first time in a long time, he found that the matter seemed to be quite serious. After all, "Domain" was not like other games where death was just death and there was no loss . The penalty for demotion was very serious for most players , and they certainly couldn't just let it go if they were killed for no reason .

When Ji Xuanyi went up, a collection thread had already been opened on the forum because there were too many posts on the same topic. Players who were killed by " Mu Xuanyi " could directly follow the thread.

Although there will be no situation in the game where the GM will deal with toxic players for the sake of justice , but even if they can only get together and curse at others, it is better than doing nothing.

Everyone in the building was discussing what was going on with the sudden appearance of " Mu Xuanyi " . Most of the players in the building had no grudges against him and were just passers-by.

Someone in the building also dug up what Ji Xuanyi had done in the past, that is, he was a well-known cancer . He had killed people in the past without any hatred or grudge , and it was normal for him to kill people for no reason now .

discussing the cruelty and insanity of " Mu Xuanyi " , everyone prepared to gather together again to seek revenge on " Mu Xuanyi " . Without mentioning whether there was any action or not , everyone sounded very motivated, saying that one person would kill one level higher and then just beat the person up.

But later, someone brought up the story of Ji Xuanyi breaking up the Zuo'an Gang and explained that if you think your combat effectiveness is higher than that of the Thousand-Man Gang , then go ahead if you want to. It was just bad luck that you were killed while passing by. If you are targeted and killed , you will have no place to cry even if you want to.

Should we just let this person go unpunished? Of course, some people ask this question.

Someone else answered below, and it seems that this is the only way ...

After Mu Xuanyi stirred up a bloody storm in another game , no one could deal with him. In the end, he suddenly disappeared. Now I don't know why he has reappeared in the game, and it seems that no one can do anything to him.

After all, he was an assassin. Most people didn't know how they died, and many people didn't even see the face of " Mu Xuanyi " . Until now, no one has been able to produce a screenshot of " Mu Xuanyi " !

The victims had no choice but to complain, curse, and even say some nasty things.

Although he knew that this " Mu Xuanyi " was not the same " Mu Xuanyi " , Qi Qin, who was sitting next to Ji Xuanyi, still felt a little angry when he saw it and said, " It's too much to say such things! "

Ji Xuanyi said calmly, " What's so excessive about this? They were indeed harmed, and I'm not the one who should be scolded. I was demoted for no reason, and I can't do anything about the murderer. If I were in their place, I would scold them too. "

Qi Qin looked at Ji Xuanyi with some concern and said, " Xuanyi, are you okay? "

Ji Xuanyi smiled. How could he be alright? He was so angry! He didn't know which bastard dared to use his name to make him take the blame. He was in the Lost Continent now, otherwise he would have to pull that person out and beat him up so hard that his mother wouldn't recognize him!

Ji Xuanyi forced himself to calm down and continued to scroll down the posts. As a result, he found someone who was suspected to be Mu Xuanyi's fan. He said that most of the victims above had done something bad to suffer this misfortune, and most of the people killed by Mu Xuanyi were not good people.

such stupid and arrogant remarks . Ji Xuanyi is not a messenger of justice, and he himself does not dare to say such words. If he did not vaguely know that there are really people who think of him this way, Ji Xuanyi almost thought that this group of people were hired by someone to discredit him!

As expected by Ji Xuanyi, the post exploded after those people finished speaking . It was bad enough that they were killed for no reason, but now they were also blamed for having bad character. Even a saint couldn't help it, let alone a group of ordinary players. A war of words immediately broke out in the building.

There were a large number of victims, but Mu Xuanyi's fans were surprisingly good at fighting. The quarrel was so fierce that the sky was dark and the sun and moon were dim. Ji Xuan was so overwhelmed that he was overwhelmed.

Ji Xuanyi scrolled down and unexpectedly saw Yugui's account. She didn't even wear a pseudonym, but used the original name Xilai, indicating that this Mu Xuanyi was a fake. She knew the whereabouts of the real Mu Xuanyi. He was not an assassin at all, and it was absolutely impossible for him to return to the underworld.

However, the argument between the two parties in the thread was so intense that Yugui, a witness, was ignored. In addition, Yugui replied too late. Many people who were just watching the incident did not have the patience to spend so much time on the thread, and their judgments on the matter were quite arbitrary. Seeing that they could not explain, Yugui could only say: " I am late in replying. I will open a new thread right away and explain the truth! "

Although the other party was Yu Gui, who was suspected of being a love rival, she was, after all, the one who had become famous with Ji Xuanyi because of the scumbag Wu Jian. What she said was very credible. Qi Qin was very happy that she could stand up in time at this time. Qi Qin did not read on and immediately said, " Xuan Yi! Let's go check out Yu Gui's post. She must have explained it to you clearly! "

Ji Xuanyi thought so too, and immediately closed the post. When he returned to the forum homepage, he found that Yugui's clarification post was actually just below the collection post. However, he was too anxious to observe the situation when he first arrived, so he did not notice it for a while.

Yu Gui explained the matter very clearly. She first stated that she was Xilai who had encountered a scumbag and was helped by Mu Xuanyi. As expected, the onlookers who had an impression of Mu Xuanyi also knew her more or less. Even the girl who had jointly signed a banner with her to Ji Xuanyi appeared under the post and expressed her willingness to testify for her.

Then, Yugui tactfully told everyone that she was actually in contact with Mu Xuanyi, and that the other party no longer played the assassin in this game. As everyone knows, you cannot change your name, change your profession, or open a small account in this game, so she is very sure that the Mu Xuanyi who suddenly appeared in the second server recently is definitely not Mu Xuanyi himself, but someone impersonating him with ulterior motives and doing bad things to put the blame on him.

At first, some people who were just watching the show said that what Yu Gui said might be true. After all, Mu Xuanyi had so many enemies in the past, it was not impossible for him to take revenge on him. But later, some discordant voices emerged.

Some people said, you said this person is not Mu Xuanyi, so where is the real Mu Xuanyi? He should come out and explain, right?

Needless to say, Ji Xuanyi could guess that there was an 80% chance that this person was his former enemy, who came out to take advantage of the situation after seeing that he no longer

played the assassin, wanting to seek revenge on him. There was also a 20% chance that this person was sent by the person who pretended to be him, or that person himself, who came out to confuse the public.

However, from Ji Xuanyi's point of view, the possibility of the latter is still relatively small. After all, if she wanted to lead the trend, there was no need to say such stupid things. She could just impersonate another " Xi Lai ". When she and Gui Kai posted the post to hang the scumbag Wujian and thank Ji Xuanyi, there was no evidence or trace left, and there was no way to prove her identity. It would be too easy to impersonate her.

However, Yugui would certainly not agree to such a request, and immediately said: " Everyone knows what Mu Xuanyi's situation is, and he has enemies everywhere. If I reveal his specific situation, it would be the same as selling him out. He is my benefactor, and I would never do such a thing. "

However, it is true that " Mu Xuanyi " killed people for no reason , and Yugui's explanation has no evidence and can only be said to be one-sided. Someone else said below that you said Mu Xuanyi was your benefactor, so if he did something bad, it would be normal for you to cover up for him and shift the blame. Who knows if you are lying and made up a " Mu Xuanyi pretending to be Mu Xuanyi " to help him shift the blame?

Yugui was immediately furious and cursed: " You can't change your account in this game! I said that this Mu Xuanyi was an impostor, so aren't you going to cause trouble for the Mu Xuanyi who pretended to be him? It's not the real Mu Xuanyi who gets beaten up, I'm just mad that someone is using his name to take the blame. Besides, although Mu Xuanyi is a cancer, he is an upright person. If he did it, it's what he did, and if he didn't, it's not what we fans are unwilling to admit! "

Someone immediately replied, "There are you Mu fans out there who are blaming others without any basis, saying that people killed by Mu Xuanyi have bad character!"

Don't those people know that Mu Xuanyi is fake?!

However, it is too late to say this now. It was originally a clarification post, but later it turned into a quarrel between Yugui and a group of Mu Xuanyi's fans, which completely went off the track. The onlookers also said that the water is too complicated and they can't understand it. You guys keep fighting and notify us when there is a result.

It was a good post, but it turned into a mess at the end. Qi Qin was dumbfounded, and Ji Xuanyi could only sigh helplessly and hold his forehead silently.

Qi Qin was dumbfounded for a long time, and said to Ji Xuan: " Xuan Yi, you can't even explain Yu Gui clearly, what should we do? "

Ji Xuanyi said unhappily: " What should we do? Just let it sit! "

Things have already developed to the point where it is now. It is useless for him to go out and clarify things himself. Not only will the situation be muddied down again and no one will believe him, he will most likely attract a wave of enemies who have long held a grudge against him.

Ji Xuanyi sighed and said, " Anyway, let's spread the word that I went to the Lost Continent and am not in the Elemental Continent at all. It's up to those people whether they believe it or not. After the event is over, I will meet the person pretending to be me, and then we can settle the accounts together ... Let Xiaoxiao Yuxia help keep an eye on him. That person knows my server

and may also know that I am in Starry City. If he does something bad to Xiaoxiao Yuxia and the others, there will be few people in the Elemental Continent who can stop him. "

Qi Qin quickly responded and lowered his head to send a message to Xiao Xiaoyu.

Before one problem is solved, another one arises. This time, Ji Xuanyi really has no mood to go out and play with Qi Qin.

This incident soon became a hot topic. When Ji Xuanyi and Qi Qin went online at the agreed time, they saw Xue Piao Renjian staring at him silently.

" What's wrong? " Ji Xuanyi asked subconsciously at first, then he reacted and said with a frown: " Okay, I know, no need to say anything, I'm fine, I will handle this matter. "

Xue Piao Renjian nodded silently without saying anything.

The little fox had lived in the tree for two days with great difficulty. It had eaten most of the three cakes and could not eat any more. So it handed the empty can to Ji Xuanyi and snuggled into Ji Xuanyi's arms with the cake ring with holes in it around its neck.

As soon as Ji Xuanyi helped the little fox take the cake off, his screen was flooded with private chat messages. They were all people who knew his pseudonym, and they all asked the same question: " Are you okay? Do you know who did it? Is it your enemy? "

Ji Xuanyi was too lazy to reply to them one by one. Out of sight, out of mind. Just as he was about to close them all, he saw a private chat with unique content.

[Introduction to Art] : Xiao Ji! Xiao Ji! Did you know! My idol who has the same name as you has made a comeback! Hahahahahaha!!!

Ji Xuanyi: "..."

This girl must be a fool, maybe she is on the same level as Liu Tian!

Ji Xuanyi was also speechless, but because he was a fan of Introduction to Art, he had not revealed his real name until now, so it was normal for the other party to be deceived.

After Ji Xuan ignored this group of messy people, he glanced at the elite monsters that were still patrolling nearby, and after confirming that the weakening buff on them had not fallen off, he began to chat privately with Jian Xi Xin Jiu, asking if the other party was ready.

Because Ji Xuanyi and his team did not need to gather, they came online about two hours after Jian Xi Xinjiu and his team came online.

Jian Xixinjiu waited for a while before saying, " It's ready! "

Ji Xuanyi was just about to tell him that they could start moving forward when Jian Xixinjiu hesitated and said, " Well, I have something to ask you. "

Ji Xuanyi thought he had something important to do, so he asked, " What's wrong? "

Jian Xi Xin Jiu said: " It's about that incident! Are you okay? Do you know who did it? Is it your enemy? "

Ji Xuanyi: "..."

Ji Xuan said expressionlessly: " Get lost! "

Sword Washing New Wine: "... Oh, okay. "

When Ji Xuan looked at the dock through the gaps in the tree canopy again and again, he saw in the distance that the Xingcheng, a finger-sized ship floating on the sea, seemed to be really starting to move slowly.

"Wait," Ji Xuan said, "Wait until Jian Xi Xin Jiu and the others get ashore. When the time is right, we will attack from behind! By the way, where is Mi Yin?"

Xue Piao Renjian glanced at Ji Xuanyi silently and said, "Last time, after he opened the trap, we were all offline, and he didn't have time to rush over."

Ji Xuanyi coughed awkwardly and said, "Is that so? That's a bit embarrassing. Let him come over quickly now."

Xue Piao Renjian said such a long sentence, I think Mi Yin must have been very resentful at that time and complained to Xue Piao Renjian for a long time.

Hearing Ji Xuanyi's words, Xue Piao Renjian shook his head and said, "He went to see the stone giant."

Mi Yin is cautious by nature, and was probably worried that something unexpected might happen, so he went to check it out before doing that.

Ji Xuan nodded and said, "Mi Yin shouldn't have any problems. Now it's up to Jian Xi to make the new wine."

Jianxi Xinjiu is now heading towards the Lost Continent Pier together with the other two main cities.

Because no one knew what would happen after reaching the shore, and it was hard to say whether those who arrived first would get benefits or suffer more, so in order to be fair, everyone adjusted the boat speed to the same level.

Although Jian Xi Xin Jiu was dissatisfied with this, the shore was full of elite monsters, even if they were weakened, they were still elite monsters. Going up first would not necessarily give him an advantage. Xu Chu had stood him up again, so he did not dare to make a rash decision on his own, and finally agreed to this idea.

Just as they were approaching the dock and were about to speed up, they saw the ships from the Dayo City and Youyue City nearby stopped and slowly turned sideways.

Jian Xi Xin Jiu was stunned and asked, "What are you doing?"

He soon found out. Before Jian Xixinjiu could finish his words, several holes were opened at regular intervals on the hulls of the ships of Dayo City and Youyue City, and black gun muzzles protruded from them.

Sword Washing New Wine: "..... Meow meow meow?"

What the hell is going on! Why are there cannons on the ships of Sun City and Youyue City? !! As the sound of cannons rang out, Jian Xi Xin Jiu was shocked and immediately started chatting with Ye Lin Yu, asking him how it could be!

Ye Linyu said that although their ghost ship was a merchant ship, merchant ships going out to sea would actually be equipped with turrets to defend against pirates, but the number was not large. For example, the turrets on the ship from Day City were twice as many as those on the ghost ship. Although several of them could not be used due to the battle with the big crab, the firepower was still very strong. Most of them were warships from the beginning.

After explaining, Ye Linyu asked very considerately: "What's wrong? Don't you have any cannons on your ship?"

Jian Xi Xin Jiu was also confused. There was no gun turret on their ship! He had been the captain for so long and explained so many things to him. He was sure that there was no gun turret on the ship!

Ye Linyu said: " That's strange. Why don't you have gun turrets on such a big ship? Could it be that you just crash into anything dangerous you encounter? "

Jian Xi Xin Jiu is also very strange! Why don't they have a turret?

Ji Xuanyi, who was on the Lost Continent dock, also saw the commotion on the coast and said in confusion: " Fuck! Why are there cannons?! "

Upon hearing this, the other two people also looked over here. Not only did Qi Qin exclaim in surprise, but Xue Piao Renjian also opened his mouth wide.

Ji Xuanyi looked at it carefully again and said, " That's not right! Why don't we have it? "

Ji Xuanyi immediately contacted Jian Xi Xinjiu, and Jian Xi Xinjiu could only repeat Ye Linyu's words to Ji Xuanyi.

Jian Xi Xin Jiu asked speechlessly: " Isn't this ship too strange? If we encounter an enemy , can we really only ram it? "

Ji Xuanyi was stunned for a moment, then he reacted and said with a frown: " Fuck, I know why we don't have any cannons! "

This ship belongs to August! With August himself here, what the hell does he need a cannon for? For August, this ship is just for show. It has to be big, gorgeous, and sturdy. The offensiveness doesn't matter at all. How much firepower can August alone resist?

After Ji Xuanyi finished explaining, Jian Xixinjiu was speechless. Isn't that right! It was August who said in advance that he couldn't help. Otherwise, if the old man stood here, what would happen to you, Sun City and Youyue City? Everyone went ashore directly!

But for now, Jian Xi Xin Jiu can only watch helplessly as the ships from the other two main cities display their might, feeling envious, jealous, and hateful!

But in fact, if the firepower of the artillery could really cause so much damage, there would be no need to set a weakening task. After the bombing of Youyue City and Youri City, there were almost no fallen orc elite monsters on the dock, and the scene was very embarrassing for a while.

However, some of its blood was definitely lost, which shows that the combat effectiveness of this elite monster is indeed very strong.

After the ships from Youyue City and Youri City turned around, all three ships docked at the pier. The players who had already assembled also rushed to the pier with shouts and fought with the elite monsters.

The people in Fanxing City had the largest number of people, basically occupying most of the battlefield. After coming into contact with the enemy , they kept pushing the front line forward. Jianxi Xinjiu still remembered that Ji Xuanyi and the others were still trapped behind enemy lines , so they moved in while clearing out monsters.

Before long, the situation on the field became extremely intense, and the orc elite monsters around Ji Xuanyi and his men also rushed to support them.

Ji Xuanyi sat on the tree and found that no orcs appeared behind him, so he brought Xue Piao Renjian and Qi Qin and joined the battle from behind.

Although there were only three of them, their combat effectiveness was not much worse than that of an ordinary regiment. Not long after, the three of them advanced to the middle section and joined forces with Jian Xi Xinjiu.

Jian Xi Xin Jiu looked at Ji Xuanyi and the other two and asked, " Where is Mi Yin? "

Ji Xuanyi said: " I went to check on the situation at the stone giant. Where's Xu Chu? Isn't he with you? "

Jian Xi Xin Jiu said in embarrassment: " Xu Chu, Xu Chu has stood the test! "

Ji Xuanyi: "..."

I asked without thinking too much.

Not long after the battle on the field began, the people who were brought as support also got off the boat to help. August, as the big boss , although he did not participate in the battle, also got off the boat under the cover of the puppet and stood in a safe area at the rear to observe the battle situation.

The people from Sun City and Youyue City were shocked when they saw August, fearing that this cheater would kill all the monsters in seconds again, and then they would not get any rewards. Seeing that the other party had not made any moves and did not seem to intend to join the battle, the people from the two main cities breathed a sigh of relief.

The health bars of elite monsters are really thick. Even under the cover of many priests, their attacks do not pose much threat to players. It takes more than an hour just to reduce their health.

Two hours after Ji Xuanyi and Qi Qin came online, the task of clearing out the elite monsters at the dock was initially completed.

The score bar for [Capture the Lost Continent Dock] on the event interface was also full, and then a wave of experience and gold coin rewards were settled, and the next stage of the event began.

[Establish a base and initially station at the dock] : Activity progress 0/3

Adventurers, please search for building materials and build a simple stronghold with your help. The simple stronghold will effectively help adventurers resist the next counterattack of the violent orcs.

Ji Xuanyi immediately understood that the counterattack of the violent orcs might refer to the refresh of monsters. Just as he had expected before, they would most likely have to defeat the stone giant before the next stage of the activity could be started. If they landed immediately after Mi Yin opened the mechanism that day, they would probably have to defend until the day the stone giant was opened.

But before Ji Xuanyi could finish his words, Jian Xi Xin Jiu asked, What does " this 0/3 mean? Does it refer to our three main cities? "

Ye Linyu said: " Most likely. If any of the three main cities is not completed, it may have a great impact on the next stage. "

Jian Xi Xin Jiu subconsciously looked towards Yao Ri City. As luck would have it, Zhao Chen was also looking here, but he was not looking at Jian Xi Xin Jiu, but at Ji Xuanyi.

Although Ji Xuanyi didn't bother him at all, Zhaochen still noticed Jian Xixinjiu's gaze. He raised his eyebrows at Jian Xixinjiu and smiled.

Jian Xixinjiu was so disgusted that his face turned green.

Zhaochen saw Jian Xi Xinjiu's expression, but didn't care. He lowered his head and started a private chat with Jian Xi Xinjiu.

[Zhaochen] : Jianxi Gang leader, what do you say? Do you hope that we can work hard to complete the task?

Jian Xi Xin Jiu replied expressionlessly: " Go away, idiot. "

Zhao Chen was not annoyed, he just said: " The cooperation phase is probably coming to an end soon. In the last period of time, are you still planning to help us build the base? I feel a little embarrassed about that! "

Although that was what they said, when the players from Youyue City and Fanxing City were preparing to cut down trees, the players from Yueri City stood still under Zhaochen's orders. It looked like they were just waiting for Fanxing City and Youyue City to do the work for them. Jian Xi Xinjiu was so angry that his teeth were itching. He knew that even if Fanxing City relied on its large population and decided to ignore them, the Buddhist players in Youyue City would definitely help them build a stronghold for the sake of the overall situation.

It's so fucking infuriating!

Jian Xixinjiu cursed: " What a psychopath! "

Zhaochen spread his hands towards him from a distance and shrugged timidly .

Jian Xi Xinjiu subconsciously looked at Ji Xuanyi, but in fact Ji Xuanyi could not help with this matter, and it was completely meaningless except making Ji Xuanyi upset.

So before Ji Xuanyi turned his head, Jian Xi Xinjiu still looked away.

As expected, Zhaochen sent another private message right after that, saying: " I'm really sorry, how could I trouble you! But we won't move now, mainly because there is something I don't understand, and my curiosity is too strong, so I can't think of anything else. Otherwise, Jianxi Gang Leader can help me solve my doubts? "

If Zhaochen was talking to Ji Xuanyi, the latter would definitely not bother to talk to him and would just tell him to get lost and block him. However, Jianxi Xinjiu was not as decisive as Ji Xuanyi after all. When he heard Zhaochen say that, he subconsciously asked, " What's the matter? "

Then, Jian Xi Xin Jiu finally reacted and cursed: " I won't tell you anything! "

Zhao Chen raised his eyebrows helplessly and said, " It's not a big deal. I'm just curious. I heard that there is another Mu Xuanyi on the Elemental Continent. I know this one is real, so I'm curious and want to ask, what is the attitude of this Mu Xuanyi towards this matter? "

Before Jian Xi Xin Jiu could say anything, Zhao Chen couldn't wait to speculate: " Is he very angry, and angry that he can't do anything to that person? The sorcerer's lack of aggression made him uncomfortable, right? I know that if he was the same person as before, he would have killed him without hesitation and taught that person what kind of strength the real Mu Xuanyi is. But now he is too weak. Even if he goes back, he can only use others to take revenge. Without the number one in the world, he is nothing at all, right? "

Jian Xi Xin Jiu couldn't help it and yelled, " Fuck you! I guessed it a long time ago. You sent someone to pretend to be Ji Xuanyi in the Element Continent, right?! Fuck you! What the hell are you talking about? I'll bring people to kill you right here, believe it or not! "

Jian Xi Xin Jiu was really ready to call people when he spoke. Zhao Chen probably didn't expect Jian Xi Xin Jiu to be so violent. Although he wanted to hinder the progress of the mission in Fanxing City, he had to die together with them at least. If he was directly beaten to death now, what would be the point of going back?

Zhaochen quickly typed: " You think too highly of me! "

If Zhaochen said anything else, Jian Xi Xinjiu would have ignored him, but this self-deprecating remark made Jian Xi Xinjiu feel better. He thought to himself, didn't I overestimate you? There's nothing between you, a retard, and Zuo An!

Seeing Jian Xinxinjiu stopped, Zhao Chen said, " The man pretending to be Mu Xuanyi has killed so many players, and there is not even a screenshot photo. He must be at least a master of Miyin level. I can't find such a person under my command, let alone let him pretend to be Ji Xuanyi. What benefit do I get? "

Although Jian Xi Xinjiu felt that for Zhaochen, attracting Ji Xuanyi's attention was the biggest benefit, but the other party was right in one thing: that man was a master, and if Zhaochen had such a master under his command, he would not be pinned to the ground by them now.

That person was not sent by Zhaochen, he might really be Ji Xuanyi's wild enemy.

Jian Xi Xin Jiu frowned and said to Xiang Chen: " Don't be a troublemaker. Ji Xuanyi doesn't feel anything about this matter, nor does he feel that the man is a threat to him. The name Mu Xuanyi is a thing of the past, and has no influence on him at all. And he now has a group of friends like us. No matter how powerful that person is, he can't touch Ji Xuanyi! "

After saying that, Jian Xi Xin Jiu added angrily: " You too! "

After saying that, Jian Xi Xin Jiu directly blocked Zhao Chen. He said, "I don't care whether you build the stronghold or not. It's none of my business!"

Jian Xi Xin Jiu turned his head away, Zhao Chen could only see the back of his head, but his expression gradually darkened because of Jian Xi Xin Jiu's words. After a long while, he sneered and said, " You guys, your friends? Ha, you are just a bunch of rabble! You still don't let me touch him? I will let you slap yourself in the face, just wait and see. "

Seeing that Starry City and Youyue City had already started to transport wood back, a senior executive of Xinban City couldn't help but come up and said, " Boss, aren't we going to collect materials yet? "

Zhao Chen glanced at him and said, " Go ahead. I just promised the leader of the Jianxi New Wine Gang in Star City that this is an event related to the direction of the entire server plot. We can't fall behind. "

The senior manager breathed a sigh of relief. Although he was muttering in his heart that Zhaochen was slow and the surrounding wood had been snatched away by the other two main cities, he still actively summoned the players of Youri City and ran to a farther place to collect wood.

Most players actually don't know how to use the wood, but the commanders of each team have given orders, and although they are confused, they can only cut down the trees first.

Fortunately, the authorities were not so heartless as to let players do the carpentry themselves, but quickly asked them to help.

They have set up a system where they know how to use the wood and what else is needed. With just a little consultation from the players, the task can be completed in an orderly manner. While the players were rushing to build the stronghold, a wave of elite monsters refreshed at the dock again. Fortunately, these elite monsters had been weakened before, and there were many people in Star City. Some of them were used to resist, while the other part continued to help build the stronghold, so the mission could continue.

They fought and built at the same time, and by about three o'clock in the afternoon, the simple strongholds in the three main cities were completed. They were basically just wooden fences that surrounded the entire dock. A very large area was included, even the tree where Ji Xuanyi and the other two had been hiding. All the elite monsters were kept outside the fence.

I have to say that the action of clearing monsters has indeed become simpler. The fences of the strongholds in the three main cities have been cast with spells by the magic system. Although the violent orcs are extremely powerful, they have no way to destroy those fences and can only scratch them in vain. Melee combat can directly attack the claws of the violent orcs, and ranged combat is even simpler. The priest's strength is still left, and it no longer takes so much effort to clear out the violent orcs.

After the stage mission is completed and a wave of settlement is completed, the activity mission of the last stage begins.

[Clear the last hidden dangers on the dock and wait for support to arrive] : Activity progress 0/1

Compared to the previous task, the explanation of this task is really too general. What is the final hidden danger? Can you give me some hints?

Youyue City and Yueri City were not sure, but Fanxing City, which received the first-hand information, was very sure.

The only hidden danger on the dock is the stone giant that will be activated tomorrow!

Before Ji Xuanyi and the others could finish their words, August stepped forward under the guard of two puppets and said, " I have found out that the last threat to the dock will probably arrive tomorrow. Although the power of the evil god has begun to dissipate, everyone should not take it lightly. "

Chapter 181

After August spoke up, although he still did not specify what the hidden danger was , he finally let everyone know that the boss would be here tomorrow , and Ji Xuanyi and others were more certain of their previous speculation.

Ji Xuan thought about it and asked Jian Xi Xinjiu to synchronize the news with Youyue City .

Forget about Yaori City and let them guess blindly.

Jian Xi Xinjiu didn't want to deal with Zhao Chen at first , but what Ji Xuanyi said was exactly what he wanted, so he nodded and agreed immediately.

When Jian Xi Xin Jiu was contacting Ye Lin Yu, Mi Yin also came back.

To be honest, having not experienced the previous scene , it was still shocking to see so many defensive fences on the dock . Mi Yin was shocked, then she climbed over the fence and found Ji Xuanyi.

Ji Xuanyi said: " How is it? "

Mi Yin said: " Just as you guessed, I went to the stone giant and saw that there was a countdown icon under the boss's portrait. It should be activated tomorrow afternoon. The boss still has a lot of weakening debuffs on him, and his health bar is also missing one line. "

There are many bosses in the game whose health bars are very high . If the boss only has one bar of blood, the player may not see the blood bar move for half an hour after attacking, which can easily make the player feel frustrated. In order to deal with this situation , almost all games have multiple blood bars, and "Domain" is no exception.

boss for the first time , the outermost layer of the opponent's blood bar was purple, which meant that there were four layers of blood bars underneath. But this time when Mi Yin went to check, the color of the stone giant's blood bar turned white, which means that there were only three layers of blood bars. In terms of blood volume alone, the boss was weakened by nearly half.

Mi Yin said excitedly: " I feel that the mechanism is very important! The boss has been weakened so much, won't it be much easier to deal with it later? "

Ji Xuanyi said: " It has been weakened a lot, but it is not necessarily easy. After all, we only know the possible percentage of the boss being weakened, but we don't know what the boss's initial strength is. It is still unclear whether it is easy to fight. "

Mi Yin was stunned for a moment, then suddenly realized and said, " That does make sense. Although the monsters on the dock have been cleared, when I went to the stone giant, there were still many orcs surrounding it. I guess there is no way to avoid it, and they will definitely come with the stone giant. "

Ji Xuanyi frowned and said, " Then there is no other way. We have done everything we can. We will just fight as we should. We have brought so many people with us. The possibility of passing is still very high. Otherwise, what about the other servers? "

That's true. If they can't pass this event with this configuration, unless this is a plot- killing setting where death is inevitable, I really can't think of any other possibilities for passing the event on other servers.

Mi Yin finally felt relieved and went to find Xue Piao Renjian.

Now there are enough people, although monsters spawn from time to time, it is not difficult to deal with them. Mi Yin finally has the opportunity to find Xue Piao Renjian to compete.

Everything was going on in an orderly manner. Jian Xi Xinjiu contacted Xiao Xiao Yuxia and said that it might not take them long to complete the first phase of the task. He asked Xiao Xiao Yuxia about the situation and whether she was ready.

At the beginning, Xiaoxiao Yuxia was still worried about finding a second boat and purchasing supplies, and was ready to ask Ji Xuanyi and his team to send two people to drive the boat back to pick up people. However, they found out later that the players did not need to continue preparing the boat and supplies for the second stage, and the players' task was only to provide escort.

Not long after Ji Xuanyi and his group went out to sea, people busy building ships appeared in all the main cities. The guards dragged out a wide variety of materials from the Mage Tower in batches, preparing for the voyage. Even the Mage Tower missions in the remaining two main cities were suspended. Players who were used to reporting to the Mage Tower every day could only sigh at the tower.

In other words, there is actually not much for players who stay in the Elemental Continent to do, except for daily tasks such as helping to build ships and delivering supplies. The rewards are there, neither too much nor too little, so it doesn't matter whether you do it or not.

When he found out that things were not that troublesome, Xiao Xiao Yuxia thought that since the alliance of the three major gangs, he could finally relax and rest for a while. He didn't expect that the activity tasks were not that troublesome. He didn't know where a fake Mu Xuanyi appeared!

When Xiao Xiaoyuxia heard the news for the first time, she almost vomited blood on the spot, and it took her a long time to recover.

In fact, this matter has nothing to do with them after all. Apart from the fact that he was killing people everywhere, this matter could even be said to be Ji Xuanyi's private matter. After all, the other party was coming towards him and could only be his enemy.

But Ji Xuanyi had helped the three major gangs and Fanxing City so much after all. From the beginning to now, Ji Xuanyi had contributed to almost every major event. Although Xiaoxiao Yuxia was a cunning person, he had a good conscience. When Ji Xuanyi got into trouble, he would help him even if he almost vomited blood. When he informed Ji Xuanyi, he had actually been silently tracking down that person three days later.

If it wasn't because of his limited ability and inability to catch the person, Xiao Xiao Yuxia actually wanted to solve the matter himself and not let Ji Xuanyi worry more in the Lost Continent.

When Jian Xi Xinjiu contacted Xiao Xiao Yuxia, Xiao Xiao Yuxia was actually still busy investigating the matter of Fake Mu Xuanyi. After telling Jian Xi Xinjiu the progress in general, Xiao Xiao Yuxia mentioned this matter.

"Don't worry about the progress of the second phase. We are basically busy. I estimate that when your side is finished, our side should be almost finished. It may just take a little longer to transport the boat from the main city to the seaside," Xiao Xiaoyu said, "Ji Xuanyi's matter is more troublesome."

Now everyone almost understands that when Ji Xuanyi is mentioned, it is about the fake product.

Jian Xi Xin Jiu was stunned for a moment and said, "What do you mean?"

Xiao Xiao Yu Xia said: "I don't know how Ji Xuanyi made this enemy before, but this person is obviously a difficult character to deal with."

He was not very good at fighting, and was just at the level of an ordinary player, so he did not dare to assert this person's strength. But in fact, in his opinion, this person was very likely a master of the same level as Ji Xuanyi and Xu Chuxue Piao Renjian – not to mention Tianxia, that person was no longer a human being at all.

" With the people we have left in the Elemental Continent, let alone catching that person, we don't even have a screenshot of his profile. With our abilities, there is absolutely no way we can solve this matter, " Xiao Xiao Yu Xia said worriedly, " But we still have to go out to sea to carry out the second stage of mutual delivery, which is equivalent to taking away the last available manpower on the Elemental Continent, which already has little combat power. " Although these people now have no way to deal with the elusive fake Ji Xuanyi, it is more or less a deterrent. When the elites of the three major gangs have left, and the fighting forces of the other two main cities have also gone out to sea, won't the fake Ji Xuanyi have no scruples and kill whoever he wants ? !

Xiao Xiao Yu Xia calculated, " It took you more than half a month to get from the sea to the Lost Continent. Even though we had experience when we went there, we still had to go through the necessary tests. Ji Xuanyi, Xu Chu, Tian Xia, and Xue Piao, these masters are not here, so the time we spent can only be more, not less. "

" Let's take a worst-case scenario. By the time we reach the Lost Continent and open the teleportation point between the two continents, it may have been a month. During this month, the Elemental Continent is completely out of our control. "

How many people " will the person pretending to be Ji Xuanyi kill ? How many accusations will be made against Ji Xuanyi? How will public opinion ferment? Even if Ji Xuanyi catches that person after he comes back, will he be able to explain himself clearly? "

Xiaoxiao Yuxia threw out a series of questions, which stunned Jian Xixinjiu. He had never thought of so many things!

" Then what should I do? " Jian Xixinjiu was anxious and angry, and he couldn't do anything, so he could only ask stupidly.

Xiao Xiao Yuxia sighed and said, " If there is a solution, I won't tell you so much. Wouldn't it be better to just solve the problem directly? "

Jian Xi Xinjiu stared blankly at the chat bar, completely not knowing what to do.

Ji Xuanyi asked Qi Qin to move the dried meat and dried fruits of the little fox down from the boat. Just as he finished coaxing the little fox and was about to see what was happening over there under the drizzling rain, he saw Jian standing there like a wooden stake, with a blank expression on his face.

" Jian Xi Xin Jiu, what's wrong with you? " Ji Xuan said jokingly: " Did Xiao Xiao Yu Xia confess to you? "

Jian Xixinjiu shuddered and came to his senses. He covered Ji Xuanyi's mouth with his hand, and quickly let go before Qi Qin looked over, and said hurriedly: " Don't dare to say anything nonsense! Xuchu betrayed me before, insisting that I had an affair with Xiaoxiao Yuxia, and it has not been cleared up yet! Everyone has finally forgotten it, but now that you mention it, they remember it again! "

When Ji Xuanyi thought of what happened before, he chuckled and stopped talking.

Jian Xi Xinjiu glanced at him, then thought of what Xiao Xiao Yu Xia had said, and became sad again.

" What's wrong? " Ji Xuanyi asked him again.

Jian Xi Xin Jiu opened his mouth to speak, but then he remembered what Xiao Xiao Yu Xia had said. Ji Xuan Yi was already busy enough, so he should not worry about him anymore ...

Jian Xi Xin Jiu pulled the corners of his mouth, smiled stiffly, and said: " It's okay, it's okay. "

Ji Xuanyi never thought that Jian Xi Xinjiu would hide any ritual from him. In his opinion, if Jian Xi Xinjiu had any important matter, he would come to him without him asking. If he hid something from him, it must be a trivial matter, but it would be a face-saving matter.

Jian Xi Xin Jiu is not like Liu Tian. He is very clear-headed about major issues, but he will prioritize his vanity over minor issues. When Ji Xuan saw him like this, he thought he was rejected after confessing his love to someone again, so he didn't ask any more questions and walked away leisurely with Qi Qin.

Jian Xi Xinjiu let out a long sigh of relief, then lowered his head and continued to chat with Xiao Xiao Yuxia.

" There has to be a way to solve this problem. Although the activity mission is very important, Ji Xuanyi is also very important! Otherwise ... otherwise, let the scattered people escort him, and the people from our three major gangs stay to continue looking for people? " Xiao Xiao Yuxia refused without a second thought. It was not because she was reluctant to give up the mission reward, but in fact, the people from the three major gangs would not be able to play any role if they stayed. How could it be called a deterrent? No matter how much you deter, it will only prevent that person from coming to Fanxing City to cause trouble. People from other main cities and the wild can be killed at will ! Ji Xuanyi has to bear all the blame. When the final settlement is made, they may even make a fuss about the fact that there are no victims in Fanxing City!

Jian Xi's new wine was about to explode, and he said: " This won't work, and that won't work either ..."

Xiao Xiao Yu Xia said: " The fundamental reason why the problem cannot be solved is that there are no masters on the Element Continent who can be used. There is no Xue Piao Renjian, no Mi Yin, no Tianxia, and even Ji Xuanyi, who is the target of the other party, is missing. It would be great if one or two people from your side could come back. "

Jian Xi Xin Jiu was stunned and said, " Come back? It will take another half a month to come back! And if only one or two people come back, there won't even be enough manpower to collect supplies. How can they come back? "

Xiaoxiao Yuxia said helplessly: " Did you just hang out with Liu Tian when you went there? "

Sword washing new wine: "..."

Xiao Xiao Yu said angrily: " It's okay to go, but is it so difficult to come back? Why sail back? If you die, you can just come back directly! "

Jian Xi Xin Jiu suddenly realized what was going on and said, " Oh – you want us to commit suicide and come back! "

Xiao Xiaoyu said expressionlessly: " No, I told you to sail back! "

Jian Xi Xin Jiu was certainly not so stupid that he couldn't even hear the sarcasm and just laughed " hehehe " .

But although Xiaoxiao Yuxia said it very simply, that you can come back after dying, the price of death is not small.

The maximum level of this game is 70, and now it has reached the late stage of the upgrade phase. The majority of the troops are basically hovering between 66 and 68. People at the top of the pyramid like Ji Xuanyi are even at level 69. Not to mention Jian Xi Xin Jiu, Mi Yin and Xue Piao Renjian also have serious tasks. Now one is 66 and the other is 67. Losing one level is equivalent to losing half a month's hard work. This price is still very high in the game, especially in this stage when everyone is rushing to level up.

Xiaoxiao Yuxia also mentioned this point.

Jian Xi Xin Jiu immediately said: " It doesn't matter to me. It doesn't matter if I reach the maximum level first or later. I can go back and help! "

Xiao Xiao Yuxia heard this and immediately said, " Then there's no need. Although your strength is relatively high, it still doesn't seem to be of much use. You should stay in the Lost Continent. "

Sword Washing New Wine: "... Hey! "

After all, he is considered one of the top masters in Star City. Although he cannot be compared with Mi Yin and the others, such words are still too hurtful to a PVP player who focuses on strength!

Xiao Xiao Yuxia reacted and apologized repeatedly, then said tactfully: " But the impact of being demoted at this time is still too great, especially since you are all the leaders of the three major gangs. If the problem can be solved, the fewer people who come back, the better. You still have to stay in the Lost Continent to take charge of the situation! "

Jian Xi Xin Jiu then reluctantly accepted this statement.

" But there is one more thing you have to pay attention to, " Xiao Xiao Yu Xia Bi Jian Xi Xin Jiu didn't know how many times he had grown up, and hurriedly reminded him: " You are willing to be demoted for Ji Xuan Yi, but others may not be willing to do so, so the candidates cannot be decided directly. If you force them to come back in an imperative or moral way, it will easily cause a rift between them and Ji Xuan Yi, so you still have to ask for everyone's opinions. Those who are willing can come, and those who are not willing can forget about it, and don't cause conflicts. "

Jian Xi Xin Jiu immediately said: " I know this, don't worry, I won't say anything nonsense. " Xiao Xiao Yu Xia finally felt relieved and said, " It would be best if Xu Chu could come back. He has a lot of ideas. If Xue Piao Renjian and Mi Yin come back together, it would be great, but it's also OK if only one of them comes back. It would be best if it's Mi Yin. After all, Xue Piao Renjian is stronger. If his level can be kept, we should keep him. "

Jian Xi Xin Jiu said awkwardly: " There are only a few of us, you ordered everything, and you even said you should come back as little as possible! "

Xiao Xiao Yuxia realized it later and said, " Oh? Really? Why do I always feel that we have a lot of people? Aren't there only three of us? "

Jian Xi Xin Jiu said: " You may have been counting Ji Xuanyi and Tianxia. Once they pick the two, we will lose one third of our manpower. "

But I don't want Ji Xuanyi to worry about this matter. I definitely can't take back the number one in the world. Now I can only choose from the other three.

Xiao Xiao Yuxia sighed and said, " There is still a huge shortage of talent! "

In fact, Fanxing City is already very good. Look at Youyue City and then look at Yaori City. If Fanxing City dares to complain in front of them that it has no one, Zhaochen and Ye Linyu will rush up and tickle Xiaoxiao Yuxia to death!

Jian Xi Xin Jiu said speechlessly: " Alright, alright, I got it. I'll go ask them and tell you later. But you can't go back now. We're going to fight the final boss soon . The earliest we can go back is tomorrow afternoon. By the way, where are you now? "

Xiao Xiao Yu Xia said: " After I found out that the main city was the starting point of the second stage, I returned to the main city. I am still in the main city now. That fake Mu Xuanyi is too elusive. I have no idea where he will appear next time. Otherwise, I would have taken people out directly. "

" You better leave now! " Jian Xi Xin Jiu said hurriedly, " If you don't catch the man, you will lose your rank. You should just stay in the city. What's the situation at the beach? "

Xiaoxiao Yuxia also knew what level he was at, so he didn't refute Jian Xi Xin Jiu, but replied: " I left people at the beach, mainly because there are many people from Dayo City at the beach, and I was afraid that they would suddenly attack and ambush us, so I left about half of the people there, which is just right. Xue Piao Renjian doesn't count. If Xu Chu and Mi Yin come back, we can ask the knights at the beach to send them back. "

Jian Xi Xin Jiu was also Ji Xuanyi's driver twice, so he said, " That's too slow. Why don't we ask Liu Tian to go back? If he goes back, his mobility will be much higher. He's a noob anyway, so one more level or one less level won't make a difference. "

After listening to this, Xiao Xiao Yu Xia sighed: " Great, Jian Xi Xin Jiu, you thought of this, smart! Anyway, he is just a rookie, so he will be demoted. How about this, you must ask him to come back and make contributions to the people! "

Sword washing new wine: " Good! "

Liutian was arguing with the pigeon that had just climbed onto the line: " A- choo ! "

Liu Tian's sneeze was so loud that he was stunned for a moment. Then he looked at Xu Chu fiercely and cursed: " Are you saying bad things about me behind my back again! "

Xu Chu, who was spitting all over his face, said: "... Fuck your mother, I was standing in front of you and you spit all over my face. You have a mouth on the back of your head and you say bad things about you! Fuck! So disgusting! "

Liu Tian was stunned for a moment, then he said firmly: " That means you are cursing me in your heart! "

Xu Chu rolled up his sleeves and cursed: " Fuck, I'm still cursing you in my heart! I don't even have enough words! "

After saying that, he pounced on him, and the two of them started fighting each other like elementary school students.

After discussing with Xiaoxiao Yuxia, Jianxi Xinjiu went to find Mi Yin and others to prepare for a meeting – if Xiaoxiao Yuxia was here, she would beat Jianxi Xinjiu into the ground alive!

I told you to take their feelings into consideration, and he promised to do so. Is that how you take them into consideration? You're still holding a meeting! Why don't you go to heaven?

Xiaoxiao Yuxia's original intention was to let Jianxi Xinjiu have a private chat with everyone one by one, preferably secretly pulling them into a small corner and talking face to face. After all, it was about his friends, and if he really refused, he would seem too disloyal.

Jian Xi Xin Jiu is good, he turned around and called everyone to go together. When asked, those who don't go will be villains! I can only agree. Okay, okay, everyone agreed, just casually, and called people again. They have to go even if they don't want to go, otherwise they will hold a grudge!

This was what Xiaoxiao Yuxia was worried about, so Jian Xi finished making the new wine in no time.

Jian Xixinjiu's way of thinking has been spoiled by the gang members of Mengtanggu. They just discuss it together. If they want to go, they go. If they don't want to go, they don't go. Even though he was thinking about saving face, he just thought it would be better to say it on the spot and didn't think too much about it at all.

However, Xiaoxiao Yuxia had considered this matter carefully, but it was actually unnecessary. Everyone here had the same thoughts as Jian Xi Xin Jiu and Xiaoxiao Yuxia. It was just a matter of level. Let alone falling from level 67 or 68, even if it fell from the maximum level, what would it matter? Of course, one's own interests were important in the game, but if the game was only about oneself, what was the point of playing it?

No matter how much profit you make in the game, it is not as happy as having a friend.

Jian Xi Xin Jiu called Mi Yin and Xue Piao Renjian, and then pulled apart Xu Chu Liu Tian who were fighting with each other. After hesitating for a moment, he notified Ze Yu Si Shui and the other two.

Although the strength of these three people is not top-notch, Ji Xuanyi once said that Ze Yu Sishui can become a master like Mi Yin after some training. What's more, these three people have a lot of ideas when they get together. Maybe they can provide some unexpected help if they are called together?

A group of people gathered together, thinking that Jianxi New Wine had some news related to an event to be announced. Ze Yu Sishui said: " Master Jianxi, are you going to call Xiao Ji again? I'll run errands for you! "

Seeing that Ze Yu Si Shui was about to run away, Jian Xi Xin Jiu was so scared that he said quickly: " Come back! What are you doing? Don't call him! "

Ze Yu Sishui ran two steps, then walked back, confused and asked: " What? Why? Not calling Xiao Ji? "

Jian Xi Xin Jiu sighed and told them everything. He said, " Ji Xuanyi has spent so much time and effort. It's time for us to help him. Xiao Xiao Yu Xia and I both think so. Let him do the Lost Continent mission here. We will go back and solve this matter with a few people. "

Before anyone else spoke, Xu Chu laughed and said, " Interesting, I've heard about this as well. That guy is pretty awesome. I'm quite interested in him. I'll go back and take a look. "

When the others heard Xu Chu interrupt, they all said, " I'll go too! "

 " I'll go back too! "

 " Me too! "

Mi Yin said: " As for the assassin profession, I am quite familiar with it, and I also had some friendship with Ji Xuanyi at that time, so maybe I can know who that person is. I am also confident that I will not lose in the assassin civil war, so you don't have to go, I can go alone. " Xue Piao Renjian frowned when he heard this, shook his head at him, and said, " I'll accompany you. "

Mi Yin smiled and was about to speak when Ze Yu Si Shui said, " I am also a very good assassin now! Really! Master Mi Yin, I read your tutorial post and I think that person is very good, but not so good that you need to take action. I can do it! "

Qing Feng Bu Fu mercilessly pointed out: " Come on, after Xiao Ji praised you for your talent, have you ever really practiced your skills for a day? When you get hung up and beaten, you won't even be able to ask us for help! "

Ze Yu Sishui angrily reached out to hit him, but was held down by Ming Shao, and everyone started to make a noise.

Jian Xixinjiu held his forehead and was about to directly designate a candidate, but Xuchu, who was watching the fun, said, " Hey, why are you arguing? Why don't we all go back together? " After these words were spoken, everyone quieted down.

It's one thing to go through fire and water for a friend, but if you insist on going back with them when there are enough people, wouldn't that be stupid? I won't do such a thing in six days!

Qing Feng Bu Fu also said: " This is not a good idea. In order to hide it from Xiao Ji, it would be best to rush forward and kill the boss when he is about to fall. It would be fine if one or two people died, but if a large group of people died, and they were all senior executives, people would think that something happened in our Fanxing City! "

 " That does make sense, " a voice said.

Qing Feng Bu Fu was rarely recognized by others for once, and he was completely unaware of the silence of others. He turned around happily and said, " Is that so? I said – cough cough cough!!! "

Ji Xuanyi said innocently: " How come you choked on your saliva while talking? "

Qingfengbufu: "..... qaq ! "

Why does he always encounter this kind of situation? Is he cursed?

Everyone was like elementary school students who were caught talking in class by the teacher. They lowered their heads and did not dare to look at Ji Xuanyi.

After a long while, Jian Xi Xin Jiu finally laughed twice and said in a voice as soft as a mosquito: " Ji Xuanyi, when did you come? "

Ji Xuan said expressionlessly, " When you explain to them what happened on the Elemental Continent. "

Hasn't it been standing here since the beginning?!

Ji Xuanyi was speechless and said, " Do you think I'm blind? Everyone is working, and you guys are gathered together, and you're all senior executives, but you didn't call me. Do you think I can't see that you are hiding something from me? "

Jian Xi Xin Jiu smiled awkwardly and said, " Look, we are doing this for your own good. "

Ji Xuanyi certainly knew that they were doing this for his own good, otherwise he wouldn't have this expression now.

Ji Xuanyi sighed and said, " I know everything. Thank you for your kindness. Originally, I wanted to let him go and wait for him to come to me after the event. I already have enough enemies. If I have to take a few more scapegoats, it doesn't make any difference to me whether I can explain it clearly or not. "

" But after I finished talking about Jian Xi Xin Jiu, I realized that I wasn't the only victim in this matter. There were also those players who were demoted for no reason. Every day this matter was delayed, there would be new victims. I was too simplistic before. Waiting for something to happen is not suitable for this matter. "

Ji Xuanyi looked ferocious, but he was actually very soft-hearted. It would have been fine if he hadn't thought about it, but now that he had realized it, there was no way he could just sit back and watch. After all, he was the enemy, so why would he let others lose a level for this?

" I will go back and solve this matter. You don't need to lose levels because of this. After defeating the boss , I will go back to the Elemental Continent alone. I will deal with my own enemies by myself. "

Everyone was shocked and asked: " You are going back alone?!"

Qi Qin had been listening to Ji Xuanyi quietly, but now he became anxious and said, " Xuanyi, you are going back alone? What should I do? I will go back with you! "

Ji Xuanyi shook his head and said, " Don't worry. I used to play an assassin myself. I know the characteristics and shortcomings of this profession very well. It's enough to have the elites of the three major gangs here. You have to stay. Sun City is not stable. I saw Zhaochen whispering something with his executives. If you stay, the activities will be more secure. "

When Ji Xuanyi said this, Jian Xi Xin Jiu remembered the inexplicable conversation that Zhao Chen had had with him before.

Ji Xuanyi was right. Zhaochen was indeed not very honest and he always seemed like he was waiting for an opportunity to make a move.

Qi Qin still disagreed, so Ji Xuan had no choice but to say, " I won't act tough. Xiao Xiao Yu Xia is still in the Elemental Continent. If anything unexpected happens, I promise to be the first to tell you. I will stay well protected by the elites of the three major gangs and wait for you to come and save me. Now everyone is almost at the maximum level. At this juncture, the fewer people who drop levels, the better. I can handle the problem. "

Qi Qin frowned and looked at him steadily.

Ji Xuanyi looked at him for a while, exhaled softly, and said, " Well, actually I vaguely felt the identity of that person, but it's just a guess, and I can't tell you for the time being. I'm not taking you back because of this. If my guess is true, then it will be absolutely fine for me to go alone. That person is an acquaintance and I don't have much hatred. If I guessed wrong, I will go offline immediately. I won't come until you catch up. How about that? "

When Qi Qin heard Ji Xuanyi say that he might know that person, the expression on his face eased a little, but he was still hesitant .

He could tell that Ji Xuanyi did not lie to him, but who was that person?

When Ji Xuan saw that he had compromised, he smiled and said, " Thank you for trusting me. Don't worry, I will be fine. "

Qi Qin lowered his eyes, still very unhappy, and said after a long while: " When this is over, you have to tell me what happened. "

Ji Xuanyi hugged him, kissed his face, and said, " Don't worry, I will. "

Only then did Qi Qin calm down.

Although the others did not want Ji Xuanyi to take the risk alone, Ji Xuanyi had already made his point clear, and even Qi Qin had nodded, so there was no room for them to object and they could only nod in agreement.

Qing Feng Bu Fu looked deeply shocked, and he staggered as he muttered, " Is this some kind of strange curse? Why is it that every time I mention someone, that person immediately appears behind me? If it happens a few more times, I'm going to have a heart attack ... "

Jian Xixinjiu pushed him aside and said to Ji Xuanyi: " We are all the same as the world, Ji Xuanyi, if there is anything you can't solve, just call us directly, and we can all support you! "

Ji Xuanyi looked at these friends and couldn't help laughing. His nose even felt a little sour. He said, " I have a bad temper and can't get along with anyone. How can I have friends like you ... "

Everyone looked at each other, feeling a little embarrassed. Xu Chu came up to them with a smile and said, " I am a person that everyone loves, but unfortunately I only make friends with people I like. The fact that you have such a good relationship with me proves that the problem is not with you. "

After saying that, he pointed his lips in the direction of Daylight City and said, " Look at what kind of rubbish you were hanging out with before. Luckily you woke up in time and you should cherish us! "

Ji Xuanyi couldn't help laughing and said, " Yes, yes, I'm marrying above my station, so of course I have to cherish her! "

After saying this, Ji Xuanyi looked at everyone and couldn't help but sincerely said, " Thank you. "

Willing to accompany me and give so much for me.

He looked at Qi Qin again and said, " Thank you too. "

Willing to come to me.

The author has something to say: It doesn't seem that long? I feel like I have grasped the thread of the ending! But my feelings are always inaccurate, so just listen to it and don't trust it too much ...

Chapter 182

, the result of everyone's discussion was to let Ji Xuanyi go back alone . After all, it seemed that he was not particularly willing to let others interfere in this matter. Even Xu Chu's suggestion to let Liu Tian go back with him was rejected.

" But there is one thing you seem to have forgotten. " Xu Chu suddenly said.

Ji Xuan was stunned for a moment and said, " What? "

Xu Chu pointed to him and said, " If you want to go back to the Elemental Continent , what will happen to this little thing? Will he go back with you? "

Ji Xuanyi then remembered that he had a person and a pet with him!

Ji Xuanyi lowered his gaze and looked at the little fox.

Because they were discussing the love, hate and vengeance between players, the little fox's AI couldn't quite understand what they meant and could only listen stupidly . Seeing Ji Xuanyi looking down at him, he looked back and gave Ji Xuanyi a smile that showed he didn't understand anything.

Ji Xuanyi frowned.

The little fox is his pet, and it will never leave his side except when he is running errands or for some unexpected events . But if he dies, how will the little fox be affected? Will it be refreshed to the resurrection point where it is , or will it be considered that its mission has failed?

There were so many possibilities that Ji Xuanyi was a little hesitant.

Xu Chu said with a sly grin, "After all, the little guy is just a by-product of the event, so the possibility of him going back with you is too small. How about this, do you have any transfer procedures? I can help you take care of him! "

The little fox was frightened by Xu Chu's gaze and quickly hid behind Ji Xuanyi, looking at him with trembling eyes.

Xu Chu let out a perverted laugh , and everyone moved five meters away from him .

Leaving Xuchu aside, Miyin stepped forward and said, " You are right about this. The possibility of the little guy returning is very small. If you don't give him to Xuchu, I can help you take him with you. "

Ji Xuan glanced at Mi Yin and shook his head. It was not that he was afraid that Mi Yin would become as depraved as Xu Chu because of Maomao. After all, Mi Yin was a serious person and one of the more reliable people present. However, he got the little fox and the pet because he accepted the mission, so there was no way he could transfer it.

Ji Xuanyi pondered for a moment and said, " Thank you for reminding me. Indeed, if I leave after killing the monsters tomorrow, I must first resolve the issue of the little fox. "

Xu Chu said, " No way, boss, can you just complete your mission? It's not like we have conquered a large area of land. Now we only have a base the size of a dock. Where can you find the same kind of people as this little thing? "

Ji Xuanyi knew that the situation was difficult, but there was only one way to solve the problem. Transferring the property did not exist, so he ruthlessly pushed Xu Chu back and said, " I know what to do. If there is really no other way, I will ask you for help. "

After hearing what he said, everyone nodded and followed him. Only Xu Chu was still looking at the little fox with envy. Seeing that Ji Xuanyi had no objection, he walked up to it and stroked it reluctantly before leaving.

The first thing Ji Xuanyi had to do was to go to August to inquire about the situation. August knew a lot of things and would surely be able to give him an answer. It would be great if he could take the little fox back, but if he couldn't, he would just have to wait and see.

Ji Xuanyi said goodbye to everyone and just as he took a step towards August, Qi Qin immediately came up to him and almost stepped on Ji Xuanyi's heel.

" What are you doing? " Ji Xuan pushed him away without any courtesy.

Qi Qin didn't say anything either, just looked at him silently.

Ji Xuanyi will be leaving alone soon, and it might take nearly a month before they meet again. So of course he wants to stay with him as long as possible. Qi Qin even wishes he could grow up together with Ji Xuanyi!

Ji Xuanyi's mouth twitched, and he said, "Forget about growing up together. Besides, are you stupid? Although I didn't play with you for a moment, we ate and slept together after logging off. Why are you so reluctant to say goodbye? "

Qi Qin pretended not to hear and insisted on walking with him, causing Ji Xuanyi to stagger twice. The latter couldn't bear it any longer and beat him up. Only then did Qi Qin reluctantly move a little further away from Ji Xuanyi.

August did not participate in the battle to clear monsters at the front. If he had, the players would have nothing to do! He summoned his own hut on an open space at the dock. Guards and puppets patrolled the surrounding area, and many players who wanted to get close to him were thrown out.

When Ji Xuan entered the room, he was a little worried that August, who had entered standby mode again, would ask for materials for experiments or something. Although the other party would not ask for too much with him around, the team was now completely cut off from the Elemental Continent. Even if it was ordinary white and green materials, they could not provide them in large quantities.

Fortunately, August probably knew the current predicament and had no intention of making things difficult for the players. After seeing Ji Xuanyi for the first time in a long time, he amiably made tea for him and Qi Qin and said, "Kids, what do you want to talk to me about? Please tell me in advance that if it is that 'hidden danger', I cannot take action. It is a test for you. If you cannot even defeat it, it proves that you are not ready to go out. In order to avoid unnecessary sacrifices, we can only return the same way. "

Ji Xuan was shocked to hear this. Is there such a thing as returning the same way? ! However, this also proves that the stone giant should not be that difficult to defeat. Otherwise, if there is really a server that cannot be cleared, "Domain" will probably set a precedent in the gaming industry where games will close activities due to insufficient player ability!

Ji Xuan smacked his lips, pulled the little fox to his side, and said to August: "It's not because of the 'hidden danger'. It's just that I personally may return to the Elemental Continent before the great magicians from the other two magic towers arrive here because of some things . I want to ask you, if I go back to the Elemental Continent, can this child go with me? "

As a character with high AI , August certainly wouldn't ask Ji Xuanyi why he was so impatient. After all, it would take him half a month to go back by boat, and it would take about the same amount of time for the great magicians from the two main cities to come. Once the teleportation array was built, he could teleport in seconds. In August's worldview, Ji Xuanyi's action was just like taking off his pants to fart, which was a waste of time.

Ji Xuanyi was actually afraid that August would ask this question, otherwise he would not know how to explain it. Fortunately, August's coping mechanism should also know that players can directly die and resurrect, so he did not say much, but just said: " You want to take this little guy

back? Hmm ... Although I don't understand the situation of the orcs, kid, I don't recommend you to do this. "

Since August gave a negative answer, Ji Xuanyi almost understood it. The reason was not important. He just needed to know that the official did not support such behavior. If he forcibly brought the little fox back to the Elemental Continent, it would definitely have a bad influence on the other party.

Ji Xuanyi nodded helplessly and said, " Okay, thank you, I understand. But in that case, I may need to ask you another question. "

August smiled and said, " Ask, kid. "

Ji Xuanyi said, " I brought this little guy with me because his father asked me to hand him over to the orcs who stayed in the Lost Continent. Since I am leaving, I must complete this task before that. Is there any way you can help me find him? "

August frowned and glanced at the little fox, and seemed to realize that the little guy might be the key to their and the Lost Continent's resistance against the Orc Alliance, and the expression on his face became serious.

But his face was not good. He said, " I'm sorry, kid. You may need divination to find someone, not an old man like me who only has magic power. If my disciple Puxi was here, he might be able to give you some help, but I ... I 'm sorry. "

Ji Xuanyi understood.

A fortune-telling talent like Puxi is indeed useful. But think about it, this guy's divination may cause the ship to capsize when on the boat ... Forget it, just go and find it yourself. Puxi, you just stay in Starry City.

But as it stands now, August probably won't be able to find any help here.

In fact, this is indeed the case in Ji Xuanyi's inference. The follow-up clues of the little fox's mission to find his relatives will most likely appear in the middle stage of the conquest of the Lost Continent. After all, only at that time will they have the opportunity to face off against the orcs who resisted the Lost Continent. The fox clan is a race with distinctive characteristics, and no matter whether they are good or evil, the orcs who resisted will definitely have news of them. However, it will take at least another month before the activity reaches the middle and late stages. Ji Xuanyi cannot wait that long. Without the clues that can be obtained under normal circumstances, how can he push forward this mission?

Ji Xuanyi frowned and pondered for a long time before he could barely come up with a solution that was not really a solution. He thanked August, said goodbye, and took Qi Qin out of his cabin.

Qi Qin saw Ji Xuanyi's worry and said, " Xuanyi, what should we do now? "

Ji Xuanyi said calmly: " Cold salad. "

Qi Qin: "... what? "

Ji Xuan glanced at him and said, " Let's go to Youyue City and find Yunzhongjian. "

Ji Xuanyi was really forced into a corner, and even thought of finding the European Emperor ... To be honest, luck is something that is too unreliable. After all, Qi Qin is a person with good luck, but he also has bad luck sometimes. But Yun Zhongjian is really different. After all, this

person relied on his luck to become the first person to reach the maximum level in the game and ascended all the way.

Emperor Europe, show us the strength that made you ascend to the sky, and let us see what a miracle is!

As soon as Ji Xuanyi arrived at the stronghold in Youyue City, he saw the old Western doctor and Ye Linyu huddled together whispering, wondering what they were discussing in secret. Ji Xuanyi was just about to sneak up on them like he did before to eavesdrop on Qingfeng Bufu's conversation, but Ye Linyu, the fox-like guy, raised his head alertly, was stunned for a moment when he saw Ji Xuanyi, and then showed an expression that seemed to be a smile. Ji Xuanyi was caught red-handed, but he didn't blush. He pretended to be calm, cleared his throat, and said, " What are you two discussing? "

Before Ye Linyu could say anything, the old western doctor came up to him and said, " Hey! Isn't this Xuan Xiaoyi? What's the matter? What brought you here? If you have anything to say, please come and see me! We are just friends, so don't be polite! "

Ji Xuanyi almost couldn't help rolling his eyes at him on the spot, but once the old Western doctor started yelling, there was basically no way he could get the truth out of him.

However, Ji Xuanyi was not in a hurry. If the old western doctor could hide something from him on the same front as Ye Linyu, it must be related to the interests of Youyue City. Now the two families have formed an alliance, everything is in black and white, no matter how much the old western doctor and Ye Linyu hide it, no matter how cunning they are, they will still have to distribute it in the end. He is not in a hurry.

It's such a waste of time arguing with these two people!

Ji Xuanyi pushed him away with one hand and said, " Come on, stop giving me that crap. Just speak directly. Let me borrow Yunzhongjian for a while. "

The old western doctor and Ye Linyu looked at each other before saying, " Lao Yun? What do you want Lao Yun for? "

There was nothing to hide about this matter, except that Ji Xuanyi was Mu Xuanyi. Ji Xuanyi changed the reason for returning to the Element Continent to that he wanted to go back to help, and told them everything else intact, saying: " I have to complete this mission before I can leave. Yunzhongjian may be able to help me. "

When Ji Xuanyi was halfway through his speech, the old western doctor squatted down with a silly smile on his face to play with the little fox. Seeing Ji Xuanyi's expression, Ye Linyu couldn't help but laugh and said, " Has it come to this? Can we only rely on Yunzhongjian? "

Ji Xuan said: " Then what other solutions do you have for this situation? Try to save the situation as long as possible. "

The bitch, the old Western doctor, started pinching the little fox's wet nose, causing the little fox to shed tears.

Ji Xuanyi drove the old western doctor away with a look of disgust on his face, saying: " Where is Yunzhongjian? It's getting late. If we delay any further, it will be too late. "

The old western doctor looked at the little fox with regret and said, " I'll call him for you. "

Ji Xuan nodded and said, " Try to be quick. "

The old western doctor didn't have a private conversation. The Youyue City base was not large, so he went straight into the crowd to look for it. Ye Linyu approached slowly and said to Ji Xuan: "Do you want to take Yun Zhongjian out for a walk? "

Ji Xuan glanced at him and said, "There are definitely no clues in the base. What else can we do if we don't go outside? "

Ye Linyu said: "Yun Zhongjian is from Youyue City after all. We are still counting on his good luck to be contagious. You have to protect him well. If you lose him, you will have to pay for it! " Ji Xuanyi: "... I will give Xuchu to you as compensation. "

Ye Linyu pretended to think about it and said, "Okay, let's make do with it. "

If Xu Chu were really here, he would spit in Ye Linyu's face.

Do what you can!

After a while, Yun Zhongjian came with the old western doctor, and hurriedly ran to Ji Xuanyi and said, "What's wrong? The old western doctor said it's urgent. What's the matter? "

Ji Xuanyi grabbed him, thanked the old western doctor, and said, "It's getting late, let's go and talk while we walk. "

Yun Zhongjian nodded in confusion and followed Ji Xuanyi.

After the three people walked away, the old western doctor let out a sigh of relief and complained: "Wow, this is so annoying. Why does this kind of thing always happen? I was scared just now. "

Ye Linyu said: "Normal. "

The old western doctor looked at the backs of Ji Xuanyi and the other two, then looked at Ye Linyu, and said hesitantly: "Why didn't Ji Xuanyi ask any further questions? He didn't care at all, and I deliberately concealed it. I feel embarrassed. "

Ye Linyu glanced at him and said, "He didn't ask because he knew we would tell him. After all, we are not the only ones with the fragments. Starry City will find them sooner or later. "

Ye Linyu took out a piece of nautical chart fragment, turned it over and saw that the back of the nautical chart fragment, which was originally blank before landing, now had content.

If you could put all the pieces together, you would find that the back of the chart is actually a map of the lost continent!

Ye Linyu sighed helplessly and said, "I didn't expect my speculation to come true. It's a power base. I originally thought that being the first to discover it would give me more benefits, but everyone has the fragments, and it seems that there is no way to hide it. I can only divide it 40% and 60% according to the agreement. "

The old western doctor smacked his lips and said, "Do we still need to contact Star City?

Should we go and tell them now? "

Ye Linyu shook his head and said, "No rush. If Star City can discover this matter in advance, we won't have to spend too much effort. If they can't find it, we can wait until Ji Xuanyi returns to the Element Continent. "

Although it has been agreed that the territory will be divided into 40% and 60% respectively, if Ji Xuanyi is not around, Youyue City may have the opportunity to gain more benefits.

Ye Linyu rubbed his brows and said, "I've really been worried sick about Youyue City. Never mind. After the camp base is taken down, it will probably be maxed out. Whoever becomes the

boss will do whatever he wants. Anyway, I don't want to worry about it anymore. I also want to be a salted fish! "

Ji Xuanyi didn't know yet that the later stages of the Lost Continent activities were indeed related to the faction's stronghold, but even if he knew it, he didn't have time to care about it. He was taking Qi Qin and Yun Zhongjian slowly away from the dock.

Yun Zhongjian is a little timid. He is a PVX and his mental endurance cannot be compared with that of PVP and PVE .

For him, it was fine if everyone was there, but if there were only two or three people, he would actually be a little afraid of being surrounded by monsters, which would remind him of some scenes from horror movies. Moreover, such a long time had passed, and it was actually approaching dusk, so the light was not that obvious. Under the shade of grass and branches, the darkness was actually more terrifying than complete night.

Yun Zhongjian swallowed his saliva, moved closer to Ji Xuanyi, and said, " Xuanyi, what exactly do you want me to help you with? You haven't told me yet. And, are we out of the base? Aren't we going to walk into a pile of monsters? I'm a weakling and will be a drag. Why don't you go find someone else? "

Ji Xuanyi looked at him speechlessly. He didn't know that Yun Zhongjian was such a coward.

" No one else can help you. Only you can do it. " After Ji Xuanyi finished speaking, he repeated the task.

He pushed the little fox in front of Yunzhongjian and said, " It's this little guy. If you don't complete the task, I'll be gone tomorrow. Who knows what will happen to this little guy. He might get lost, or even die. Can you bear it? "

The little fox cooperated very well and showed a tearful expression. Yun Zhongjian was immediately touched and softened his heart. He was no longer timid. He touched the little fox's head and said, " I know. I won't let anything happen to this child! "

When Ji Xuan heard this, he stopped leaving.

Yun Zhongjian was stunned for a moment, looked at him and asked: " What's wrong? "

Ji Xuanyi said confidently: " It's no use for me to lead the way, you go ahead. "

Yunzhongjian: "..."

Yun Zhongjian frowned, " It's hard to say for sure about this kind of thing. Although everyone says that I have good luck – well, it's indeed quite good, but this is a passive skill, I don't even know how to trigger it. If you let me go like this, I will ..."

Ji Xuanyi pushed him and said, " Don't listen to me, you just said that you won't let little Jack get hurt. Hurry up and act! "

Yun Zhongjian had no choice but to follow Ji Xuanyi's force and walked. He said with some worry, " It's very dangerous outside here, right? Why don't we just walk around the base? I always feel like we'll run into some monsters. "

Ji Xuanyi immediately said, " No, there are just more monsters at the dock. The population of the Lost Continent is actually not that large. The monsters in other places should be quite sparse, and it won't be that easy to encounter them. "

Yun Zhongjian then felt a little relieved, and he was willing to move forward as long as Ji Xuanyi didn't push him.

Although death will lead to a level drop, most players are not that afraid of death. The reason why Yun Zhongjian is so timid is mainly because this is on the Lost Continent and there are no resurrection points for players. Once they die, they will go straight back to their hometown. Therefore, on this continent, everyone seems to have only one life and they cherish it very much. Yun Zhongjian led Ji Xuanyi and the others for a while, and when they turned a corner, they suddenly saw a dense bush in front of them.

The appearance of this bush was actually a little abrupt, but Yun Zhongjian's heart skipped a beat and he said with great certainty: " Let's go in and take a look! "

Seeing Ji Xuanyi looking at him, Yun Zhongjian said, " It must be correct. Every time I have this kind of premonition, it proves that there must be something behind it! "

Since the European Emperor himself has said so, what reason does Ji Xuanyi have not to believe it!

Ji Xuanyi's eyes lit up, and he immediately said, " Let's go in and take a look! "

The three of them immediately rushed into the bushes excitedly, struggled to push aside the branches that blocked their way, and finally saw the situation clearly.

There were at least twenty elite monsters lined up in neat rows and patrolling, and countless violent orcs were repairing the stone giants in the distance that were hidden by tall trees and occupations.

As soon as Ji Xuanyi and his two companions rushed in, they immediately attracted the attention of the elite monsters!

Ji Xuanyi: "..."

Qi Qin: "..."

Yunzhongjian: "..."

The elite monsters ran down from the stone giant, roaring and rushing towards the three people, stirring up a cloud of dust. The three people turned around and ran away without saying a word!

Ji Xuanyi collapsed and said: " This is what you call a premonition! It really is something! What is it! Fuck! Are you a European emperor or a non-European emperor? What kind of road are you leading! "

Yun Zhongjian blushed and said, " My premonition won't always be so accurate! And didn't you say that the monsters outside the dock are not densely distributed? Why are there so many monsters crowded together! "

" You brought us here to the stone giant and you're saying this?! " Ji Xuan said, " This is the fucking base camp of the dock elite monsters. It would be strange if there weren't many people here! "

Yun Zhongjian wanted to say something else, but Qi Qin had already sped up, grabbed a man with one hand, and ran forward desperately, saying, " Now is not the time to quarrel, the monster is catching up with us! "

Although Qi Qin has considerable combat power, even he would definitely not be able to cope with so many elite monsters. Not to mention whether his defense can withstand the damage, he cannot stop so many monsters alone. Ji Xuanyi and Yun Zhongjian, one is an assistant and the other is a rookie, they will be eaten alive by these monsters!

So even Qi Qin could only use his speed, which was different from that of ordinary swordsmen, to escape with Ji Xuanyi and Yun Zhongjian!

But even though Qi Qin's speed was different from that of other swordsmen, he was still a swordsman. He didn't run far before the elite monsters seemed to be catching up with him.

Yun Zhongjian pointed to a patch of grass on the roadside as he ran and said, " Let's hide over there! "

Ji Xuanyi shouted: " Is this another premonition of yours?! "

Yun Zhongjian said: " No! This is the intuition brought about by the desire to survive! "

Even if you don't believe in the European Emperor's premonition, you have to believe in the desire to survive!

Without saying a word, Qi Qin took two people and rushed straight to the bushes on the side of the road, rushing in before the elite monster caught up.

Ji Xuanyi was just about to say, the elite monsters are not blind, how can they not see them coming in? They should still chase them! As a result, as soon as he entered the bushes, the ground under Yun Zhongjian's feet suddenly sank in, and Yun Zhongjian fell down without even a sound!

Ji Xuanyi looked at the deep hole, gasped, and immediately pushed Qi Qin. Qi Qin understood and followed him down, followed closely by Ji Xuanyi. The elite monsters lost their target after rushing into the bushes, and did not see the deep pit under their feet. They had to withdraw from the battle and return to the stone giant.

Although Ji Xuanyi had played many exciting projects in the amusement park, none of them was as real and exciting as this game. This pit was like a steep slide. The back of Ji Xuanyi's sorcerer robe was lifted up to his back, and then he fell from the passage onto the solid ground with a plop.

Unlike the darkness that Ji Xuanyi had imagined, a warm yellow light was on in this space. A fox orc was sitting in front of a dining table filled with berries and meat, staring in amazement at the sudden intruders.

Ji Xuanyi: "..."

Qi Qin: "..."

Ji Xuanyi finally understood what it meant to be unreasonable. Where were the most basic rules of the game! Where were the clues! How could there be such a fantastic plot where you suddenly fell into a pit while walking and then completed the task! Was there a pit in the brain of the game planner? !

Yun Zhongjian seemed to be used to it. He patted the dirt that had fallen into his armor, climbed up from the ground, and said to Ji Xuan: " Now you know how I reached the maximum level, right? "

Ji Xuanyi: "..."

He was still in shock and hadn't recovered yet.

What should I do? Compared with Yun Zhongjian, he, who relies on his brain, is nothing but a piece of trash ...

What is the meaning of living for non-Africans?

August is not the cheater at all, Yunzhongjian is!

This kind of person affects the balance of the game!

Before Ji Xuanyi could react, the little fox took action first.

It has been quite a while since he left the village. It would be a lie to say that he didn't miss his family. He glanced at the fox orc sitting behind the dining table. He felt a sense of closeness, yet a little scared. He subconsciously leaned into Ji Xuanyi's arms.

The little fox's leaning against him finally woke Ji Xuanyi up.

No matter how stupid the process was, Yun Zhongjian's European Emperor power took effect, and they did find the mission-related information! Although I don't know if the other party will pay attention to them without any previous clues, anyway, let's talk to them first!

In fact, Ji Xuanyi had thought too much. He had just gotten up from the ground when the fox orc behind the dining table came out, squatted beside him, looked at the little fox and said, " Whose child is this? He looks unfamiliar. "

Just as the fox father said at the beginning, the fox orcs are indeed very protective of their own people. No matter what their position is, they will not harm their own people. At least now, Ji Xuanyi can see that this is completely harmless to the little fox.

Ji Xuanyi quickly helped the little fox up, and then told the fox orc who lived in the underground cave about his life story.

When he heard the name of little Jack, he let out a long " Oh " and said, " So you are Jack's child? I saw it in the family tree. When the evil god attacked the Lost Continent, your family escaped. It seems that they are doing well? "

Little Jack didn't know what to say and just nodded timidly.

The fox orc smiled at Little Jack and said, " I'm Eddie. You can call me Uncle Eddie or Brother? It's all right. Come, I'm having a meal. Let's eat together. When you're full, take a rest. I'll take you back to the village and someone will take care of you. "

After saying that, he took little Jack by the hand and led him to the table. During this time, he did not say a single word to Ji Xuanyi and the other two, as if these three people did not exist at all. Yun Zhongjian came close to Ji Xuanyi and said, " What's going on? Why is he ignoring me? "

Ji Xuanyi shook his head and said, " I don't know. Maybe it's because there are no clues? It skipped too many steps, so it got stuck and ignored us? "

Yun Zhongjian nodded with sudden enlightenment and said, " It is indeed possible that this is the case. "

Ji Xuan glanced at the little fox, then at the fox orc. After confirming that he had no ill will towards the little fox, he said, " Since it has been delivered, let's go. "

In addition to the hole they fell into, there are several other passages in this underground room. This fox seems to be resisting the orcs, and I guess it set up its residence like this for safety reasons. Shouldn't it be able to find any way out?

Ji Xuanyi was just about to take Qi Qin and Yun Zhongjian out when there was a sudden sound. Little Jack jumped down from the chair that Eddie had brought to him, ran to Ji Xuanyi and hugged him.

Ji Xuan was stunned for a moment, and suddenly remembered that when he handed the little fox to Eddie, the task was not completed.

What happened? Was the mission stuck because some stages were skipped? Or was it that Yunzhongjian's luck was unexpected again, and this was not actually a mission objective and could not be believed?

Ji Xuanyi suddenly became alert, touched the little fox's head, and looked again, only to find that the fox orc Eddie was looking at him coldly.

This is not because there was a bug in the mission that he ignored Ji Xuanyi and the other two. His original setting was to hate humans.

This was very normal, because he had received many hints before going ashore and had a full understanding of the background of this continent, so Ji Xuanyi was not surprised at all by the sudden malice shown.

Of course, Eddie would not do anything to the little fox. The little fox was not only an orc, but also a member of the same tribe. He would not hurt the little fox no matter what. Don't underestimate the power of the European Emperor. He was indeed the target of the mission and the one who could deliver the little fox.

However, because some procedures were skipped in the middle, although Ji Xuanyi believed in Eddie because of the fox father, Eddie did not believe in Ji Xuanyi. Ji Xuanyi's mission reward could not be obtained, so he could not complete it and was stuck in this strange place.

Before Ji Xuanyi opened his mouth, Eddie spoke first: " Little Jack, come back to me. Humans are not trustworthy. I don't know what Jack was thinking. Why would he entrust you to a human? Is he old and stupid? "

It seems that this Eddie is not very old. If little Jack's father were here, he would definitely use sweet words to keep little Jack and coax Ji Xuanyi away. Then he would intentionally or unintentionally deceive little Jack and brainwash him every day. What he said now made little Jack hug Ji Xuanyi even tighter.

But it's also thanks to the setting, otherwise the players would really be fooled away and the mission would not be completed.

Since he had embraced August's thigh, Ji Xuanyi had not suffered such maliciousness for a long time. At that time, he had the desire to make the other party into a scarf, but he resisted it for a long time and said, " I think we should probably talk. "

Chapter 183

Because of the conflicts between humans and orcs in the past , now in the Lost Continent, not only the orcs who succumbed to the evil god , but even the orcs who were bent on resistance were hostile to humans.

The fox orc Eddie didn't think there was anything to talk about with humans. He rejected Ji Xuanyi without hesitation and wanted to come up and take the fox little Jack away by force. Ji Xuanyi didn't dare to stop him. Who knows if he would hate humans more because of his actions ? If a fight broke out , if one of them couldn't control himself and turned the other into a scarf, that would be terrible.

However, the little fox held Ji Xuanyi tightly. No matter how Eddie pulled him , he refused to let go . He made a " weeping " sound in his throat , looking very aggrieved.

Eddie didn't dare to hurt the little fox, nor could he use too much force, so he could only say angrily: " You little brat , why are you so stupid ? How did your people let you out?! "

Ji Xuanyi finally found an opportunity, pulled the little fox closer to his arms, and said, " Of course it's because they all trust me. "

Eddie looked at Ji Xuanyi fiercely and said, " You cunning humans! "

Ji Xuanyi rolled his eyes in his heart and said, " In fact, I did keep my promise and sent little Jack to you. Nothing happened to him, right? "

He was stunned for a moment, showing some hesitation on his face , and then he said: " You just want to use this matter to gain benefits from us! "

Ji Xuanyi nodded generously and said, " Yes! I came here for the benefit. Otherwise, what? I am very familiar with you? Should I help you send your children and take care of your children for nothing? What else would I want if I don't want the benefit? Do you think I am a saint? "

Ji Xuanyi spoke with confidence, and Yun Zhongjian and Qi Qin were stunned and looked at him blankly. Not to mention, the planner probably didn't expect that there would be such an honest player. They were stuck by Ji Xuanyi and looked at him blankly.

Ji Xuan waited for him to react expressionlessly.

After a long while, Eddie snorted coldly and said, " I was right. None of you humans are good people! "

Is there anything new to say? Ji Xuanyi scratched his ears and said, " Yes, yes, I am so mean, so where is the reward? Could it be that you orcs are also people who don't keep your words and turn your face against you after receiving a child? "

Eddie glanced at the little fox Jack who was still hanging on Ji Xuanyi.

Ji Xuanyi patted the little fox's back very considerately, took him off his body, and said to him, " We have arrived at our destination. You don't need to follow me anymore. I believe your father also told you something before we came here. Go, go with your people. "

The little fox looked at him with tears in his eyes, unwilling to let go.

Ji Xuanyi was of course reluctant to part with this little thing. After all, he had been taking care of it for so long. If nothing else had happened, he might have deliberately delayed the time of handing in the task. But in this situation, he really couldn't continue to take care of the little fox.

Ji Xuanyi was reluctant but had no choice but to give up. He hardened his heart, pinched the little fox's paw and handed it to Eddie, saying, " Take good care of this child, otherwise I won't be able to explain to his father. "

Holding the little fox, he heard Ji Xuanyi say this, and his gaze towards him was not as sharp, but he still said: " Hypocritical ..."

Ji Xuanyi: "..."

Hold on, hold on! It's not time to wear a scarf yet!

After handing the little fox to Eddie with his own hands this time, Ji Xuanyi was prompted by the system to lose his beloved little fox Jack, and the task was completed.

Ji Xuanyi remembered that the last link of this task chain was a mysterious reward. What was the reward?

Ji Xuanyi took out the parchment and turned to the completed column. He saw that the original four words mysterious reward on it had disappeared and were replaced by " random store " .

What the hell is this?

Before Ji Xuan could figure it out, he heard Eddie say: " Compared to those humans who are full of lies, you are surprisingly honest. Although our fox tribe is famous for our wit, we are not little ones who will break promises casually. people. "

Sitting back at the table, letting the little fox eat first, he said to Ji Xuan: " I am a businessman. Originally, I only sell things to orcs. But since you have protected our fox cubs, it seems only natural to open the store to you. "

Eddie said to himself, " But I won't open the shop completely to you. I'll just give you one item to buy every week. The type depends on my mood. It's up to you whether you buy it or not. "

As if he was afraid that Ji Xuanyi would feel that he had lost out, Eddie emphasized: " The goods I have are what everyone in the Lost Continent is vying to buy! "

Ji Xuanyi raised his eyebrows. This is quite confident. Could it be that he is selling some high-level equipment or materials?

It won't be easy to find this next time. Yunzhongjian's luck won't work every time. It's better to do it today than to wait for a better day. Ji Xuanyi said directly: " Can you sell me something today? "

Eddie looked at him and said slowly, " Of course. "

Then, Eddie casually reached into his pocket, took out a white stone the size of a fingernail, and placed it on the table.

Ji Xuanyi walked over curiously to take a look and said, " What is this? "

The other two people also poked their heads over curiously.

Eddie said, " Flash Stone, a one-time item. After use, it emits a strong light that can make all objects within a five-meter radius lose sight for five seconds. The advantage is that it is unexpected, but the disadvantage is that it cannot distinguish between friend and foe . One hundred gold coins, do you want it? "

 " One hundred gold coins?! " Yun Zhongjian, who had just heard that it was very useful and worth buying, couldn't help but shout out, " It's just such a small thing, it's too expensive! "

It is indeed very expensive, but the nature of this item is almost unique. Currently, the items that can be purchased in stores and trading houses are basically reinforcement items, or food and medicine. There are almost no channels to obtain this kind of unconventional small item unless it is a special mission.

One hundred gold coins was not an unaffordable price for Ji Xuanyi, and this little thing might even play an unexpected role in a critical moment.

Furthermore, if this fox's random shop only sells small props like this, then this mission is really worthwhile, and can even be said to be a big profit!

Ji Xuan said without hesitation: " Sell! "

Eddie smiled and pushed the shining stone over. As soon as Ji Xuanyi took out the bag of gold coins, the fox said, " I don't want your human currency. I only accept the demon coins from the Lost Continent. "

Ji Xuan was stunned for a moment. He didn't expect that the fox's random store would only accept demon gold coins. It seems that after the event is over and the Lost Continent is conquered, demon gold coins will probably still be the universal currency of this map.

Because he didn't know the production channel of the demon gold coins in the future, Ji Xuanyi hesitated for a moment, but finally took out the one hundred gold coins.

This kind of small prop has a minimal effect in keyboard online games, but in holographic online games, the role it can play is huge. It may even instantly reverse the situation in a small-scale group battle.

Ji Xuanyi put away the shining stone, and Eddie stretched out his hand towards a passage in the underground room and said, " This is the closest road to the ground. Let's go. "

After hearing this, Ji Xuan immediately said, " No rush. "

Eddie looked at him suspiciously.

Ji Xuanyi said: " I was just lucky to find you this time. It won't be easy to buy things from you next time. Do you have any contact information? "

Eddie smacked his lips and said, " I don't have any contact information, but you don't have to find me. "

" This shop is actually a means of livelihood for our tribe. I will inform others that as long as you meet fox orcs, you can buy items from them, " said Eddie, warning: " Our information is connected. Don't think about buying from this fox orc and then buying from another orc. There is only one item per week. If you are discovered, you will be kicked off our customer list. "

Of course Ji Xuanyi would not do such a thing, but in order to make people feel at ease, Ji Xuanyi nodded.

Eddie stretched out his claws toward the passage again and said, " Alright, alright, let's go! "

Ji Xuan glanced at him and said slowly, " No hurry. "

Gave him a fierce look.

Ji Xuanyi had finally found someone he could communicate with in the Lost Continent, so how could he just let him go? Although he was going back to the Elemental Continent, the activity was the focus after all, and he still had to find out some news.

Ji Xuanyi looked at him and said, " I want to ask you a question about the current situation of the Lost Continent. "

Eddie looked at Ji Xuanyi defensively and said, " I have nothing to say! "

Ji Xuanyi pretended not to hear and said, " What is the current situation of the Lost Continent? I heard that some of you orcs have joined the evil god, and some are still resisting. But judging from the situation at this dock, the current situation of the latter does not seem to be ideal? "

The fox orc stared at Ji Xuanyi without responding.

Ji Xuan looked at him for a while and said, " You should be able to guess the purpose of our coming to this continent. It is nothing more than to drive out the evil god and return. Although we just learned about the orcs, we can put aside the past conflicts and contradictions for the time being. At least our goals are the same now. Even if there will be conflicts due to the division of interests in the end, no matter what, humans are the former inhabitants of the Lost Continent and are qualified to fight with you. The evil god is just an invader. Before we decide the winner, we must drive the invader out first. "

Ji Xuanyi knew that if he said that everyone should work together to achieve a well-off life in peace, most people would still think he was hypocritical. He would have to waste a lot of time talking nonsense to him, and it might not make sense. It would be better to just explain the

interests clearly. Even if they were enemies , they had to be ranked first. Get rid of the most annoying one first, and then deal with the second most annoying one. After all, this was the truth and the statement that was least likely to be refuted.

As expected, Eddie fell silent. After a long while, he said, " You are a strange human. Although what you said is true, I'm sorry that you are not qualified to negotiate with the entire orc tribe. " He looked up at Ji Xuanyi, the contempt and disgust on his face disappeared, and he looked serious.

Eddie said, " Human, cooperation between the two races cannot be achieved simply by agreement between you and me. I know you have three great magicians. At least the three of them must gather together to negotiate with our leader. "

Ji Xuanyi didn't think that completing a mission could affect the entire world line, but now at least a channel has been opened up, which is actually pretty good. He nodded and said, " I understand. "

" There is one more thing I need to correct you about, " Eddie said, " The orcs did not succumb to the evil god ..."

He looked at Ji Xuanyi with burning eyes and said, " The orcs will not surrender. They have been infected by the evil god's magic circle and have become irrational now. "

So that's how it is. No wonder the paper calls all the orcs who have surrendered to the evil god violent orcs, and those elite monsters seem to be completely irrational. It seems that all orcs who can communicate should be classified as rebellious orcs.

It seems to be true what Jack's father said about them being too far away from the Lost Continent and not knowing much about the situation here, otherwise he would not have said that no matter what the fox orcs' stance was, the little fox could be handed over. What if Ji Xuanyi encountered a violent orc from the fox tribe and threw the little fox far away? Wouldn't that be the end of it!

Ji Xuan was still terrified when he heard this. He recalled something and said, " We saw a corpse on the ground that had resisted the orcs. Was that your companion? You seemed to have some plan, right? Did you come here for this, too? "

Ji Xuanyi asked questions one after another. Eddie looked at him and said stiffly: " I'm sorry. Although I have changed my mind about you a little, this matter has nothing to do with you. Thank you for sending the little fox here. We have already said what we need to say. It's time for you to leave, right? "

Ji Xuanyi could see that he was very reluctant about this topic. It seemed that this was not a task that could be triggered right now, so he didn't force it and said, " Okay, bye then. "

After Ji Xuanyi finished speaking, he was about to leave when the little fox came running over and grabbed the corner of his clothes.

Ji Xuanyi thought the little fox was reluctant to leave him again, and was about to comfort him, when the little fox rustled out two handfuls of dried fruits and meat from his pocket and carefully placed them in Ji Xuanyi's palm. With his ears tucked behind his head, he looked at him tearfully and said, " Brother, I will miss you. "

If it wasn't for the possibility of affecting future cooperation with the Orcs, Ji Xuanyi would have taken the little fox away on the spot!

It's a pity that he couldn't. Ji Xuanyi sighed, touched the little fox's head, and said, " Thank you. "

After saying this, without looking at the pitiful gaze of the little fox anymore, Ji Xuan hardened his heart and took Qi Qin and Yun Zhongjian towards the cave entrance that the fox had pointed out to them before.

Just as Ji Xuanyi and his companions were about to enter the passage, the fox beastman Eddie suddenly said, " Wait. "

Ji Xuan was stunned for a moment, turned around and said, " What's wrong? "

Eddie said, " Go this way. "

Then he pointed to another passage.

Ji Xuanyi raised his eyebrows.

Eddie smiled and said, " This passage is the closest to the ground. I just lied to you. That road will take at least until dawn to get to the ground, and it goes in the opposite direction of the dock. "

Ji Xuanyi: "..."

He just said that this fox was surprisingly honest. Don't you fox beastmen feel uncomfortable if you don't lie?

Ji Xuanyi led the two of them in a different way without saying a word. Before they even got out, he asked again, " Aren't you afraid that I'm still lying to you? "

Ji Xuanyi was too lazy to pay attention to him and said, " You can lie if you want. "

After saying that, he led the two people behind him and walked in carelessly.

The game "Domain" is real in its authenticity. Although the players will only see a small number of clues to the mission, which may even be traces after the end of the event, the plot will still be played out step by step when the players cannot see it.

After Ji Xuanyi and the other two left, the little fox Jack tugged at Eddie's hand and said,

" Brother is a good human being, let's not lie to him, okay? "

Eddie looked at him, couldn't help laughing, and said, " I don't want to lie to a guy who has the same reaction whether he's lying or not! "

After entering the passage, the atmosphere between Ji Xuanyi and the other two was also very strange. Qi Qin kept praising Ji Xuanyi for his courage and carefulness, and for being able to have a difficult conversation with him. However, Yun Zhongjian couldn't help but ask Ji Xuanyi: " What if that fox deceives us again? What if this road is the longer one? "

Ji Xuanyi glanced at Yun Zhongjian and said coldly, " If this road is long, we won't get out until daybreak anyway, so we can turn back and make it into a scarf. "

Yunzhongjian: "..."

Ji Xuanyi is not the kind of person who would not care about being deceived. He forgives the little fox because he is cute. But you are a big fox now, and you still dare to deceive him. You will become a Weibo in minutes!

Fortunately, the big fox Eddie did not seek death like that. This time he did not lie, and Ji Xuanyi and the others were back on the ground not long after. However, it was already dark by then, and the three of them could only rely on the light provided by the players in the dark, groping in the dark while looking at the parchment, and walking towards the dock.

When he didn't need Yun Zhongjian's help to trigger the mission, his luck worked normally. The three of them walked straight back to the three main city strongholds at the dock without encountering any monsters.

Yun Zhongjian didn't need Ji Xuanyi and the others to send him off, and he happily returned to the Youyue City stronghold, while Ji Xuanyi and Qi Qin returned to the Fanxing City stronghold. It was already past seven o'clock, and Xu Chu hadn't logged off yet. He knew that Ji Xuanyi was going to send the little fox away today, so he had been waiting for him to come back in the camp, hoping that he would fail in his mission! But when he came back, he found that the little tail behind the other party was gone, and Xu Chu suddenly felt lost.

Ji Xuanyi looked at him with disdain and said, "Can you do it?"

Xu Chu said in a low voice: "I should have masturbated more while he was around."

Ji Xuanyi said: "Go raise one yourself offline."

Xu Chu shook his head and said, "Little foxes are still the cutest."

Not only Xu Chu, but everyone else also expressed regret over the little fox's departure. Even Xue Piao Renjian kept staring at Ji Xuanyi. As soon as Ji Xuanyi looked at him, he turned his head back.

After all, the little fox had done the dangerous thing of luring away the enemy on behalf of Xue Piaore. Although Xue Piaore had no concept of cute things, he still remembered the little fox in his heart.

"There are so many people who like the little fox." Qi Qin couldn't help but say.

Although Ji Xuanyi's attention was taken away a lot, he actually liked it very much ...

Ji Xuan glanced at him and said, "There will be opportunities in the future."

Qi Qin was stunned and said, "Really?"

Ji Xuan nodded.

With the plot setting of Lost Continent, after expelling the evil god, it is impossible for humans to fight with orcs again. It is estimated that things will return to their original state, with humans and orcs forming an alliance to govern the continent together. However, it is hard to say whether they will live together or be clearly separated and keep their distance from each other. It may also end in a divided ending.

But no matter what, since the orcs are here, there will be orc-related tasks. The Elemental Continent tasks include helping people cook and do laundry. The Lost Continent tasks may also involve helping orcs take care of their children. There are simply too many opportunities to pet the furry creatures.

After Ji Xuanyi finished explaining, Qi Qin also breathed a sigh of relief and said happily: "That's good!"

This way, I can completely put aside my plan to keep a pet at home, and just go online when I want to pet my furry friend! Qi Qin thought.

Completely unaware, Ji Xuanyi had never considered having a pet at all.

No matter what, the thing that Ji Xuanyi was most worried about was finally solved. Tomorrow Ji Xuanyi can die peacefully and return to the Elemental Continent.

For this reason, Ji Xuanyi planned to log off and go to bed early.

He is not the kind of player who dies often. Dying once is very stressful for him. He should rest early and recharge his energy!

Elite monsters were constantly spawning outside the simple base. Jian Xi Xin Jiu saw Ji Xuanyi was about to log off and said quickly, "Don't go. Give me a hand and do some work before you log off. We can still gain experience by killing monsters here!"

Ji Xuan glanced at him and said speechlessly, "Am I sick? I am about to die but I am still trying to gain experience?"

The death system in the game does not just completely deduct one level, but after deducting one level, the experience bar will be reset to zero. In other words, any experience that exceeds the level but does not meet the upgrade standard will also disappear. Ji Xuanyi is now level 69, with an extra one-third of experience. It is painful enough to die once, and now he is still asked to grind. I am afraid he has really lost his mind.

Jian Xi Xin Jiu had just remembered it, and after being scolded, he became silent. Ji Xuan called Qi Qin and they both logged off. It was a rare occasion that they fell asleep on time.

Ji Xuanyi had to go to school the next morning and would not be back until noon. During lunch, he received another harassing call. Ji Xuanyi did not answer the call and hung up directly. At about one o'clock in the afternoon, two people slowly got online.

Xiaoxiao Yuxia sent a private message at the right time, asking about the situation over there, and said that the players from the three major gangs in Fanxing City who had stayed at the resurrection point on the beach were ready and could go to the resurrection point for support at any time.

Jianxi Xinjiu had already informed Xiaoxiao Yuxia yesterday that Ji Xuanyi was the only one going back. Although Xiaoxiao Yuxia felt unsafe and a little guilty, when she heard that Ji Xuanyi was very persistent, she didn't say anything more. She just contacted the elite troops on the seaside overnight and asked them to protect Ji Xuanyi.

After Ji Xuanyi checked in with Xiao Xiaoyuxia, he sat on a small stool made by players like an old Buddha, and the others surrounded him and asked about his well-being.

After all, Ji Xuanyi was going to die soon, so everyone wanted him to spend the last two or three hours happily.

The others were just polite and courteous, but Xu Chu, the bastard, squeezed in front of Ji Xuanyi with tears in his eyes and said, "Yi, what do you want to eat? What do you want to drink? If you have any unfulfilled wishes before you leave, tell Brother Xu and he will definitely get them done for you!"

Ji Xuanyi: "..."

He said he felt that these people were weird, and so this is what was going on!

Ji Xuan kicked Xu Chu to the ground with an expressionless face and said, "Heh, my biggest regret is that you didn't die before me. Do you want to satisfy me?"

Xu Chu didn't say a word, just rolled over and ran away.

As soon as Ji Xuan raised his chin towards his back, Qi Qin immediately rushed forward, grabbed Xu Chu by the back of the neck and dragged him back.

Xu Chu was held by Qi Qin like a mentally retarded person. He shrank his neck and hands and looked at Ji Xuanyi timidly.

" Haha, Brother Xu? " Ji Xuan said with a smile, " Are you still going to play tricks on me, Brother Ji? "

Xu Chu quickly said obediently: " No more naughtiness! "

Only then did Ji Xuanyi let Qi Qin let him go.

Everyone looked at each other, pretending nothing had happened, and scattered like birds and beasts, going about their business.

Ji Xuanyi was still acting as his boss, but Xu Chu didn't dare to provoke him. He walked out while muttering to himself that he didn't have any bodyguards who could beat Qi Qin, ready to support the monster-clearing battle outside.

Xu Chu had only walked halfway when he suddenly felt someone was looking at him. The gaze was so intense that he couldn't ignore it even if he wanted to. He had to turn his head and saw Zhao Chen leaning against the fence, looking at him mockingly.

This fence should not have been here. Although the three main cities have their own boundaries, in fact there is no real separation in between. However, the relationship between Sun City and Star City is too tense. Both sides are very wary of whether the other side will suddenly stab them, so in the end they built this fence. Anyone who wants to cross the boundary has to climb over it. It is very obvious, and once seen, they are on guard, and there is no need to worry about being attacked.

If it was Jian Xi Xin Jiu who was here, seeing Zhao Chen looking at him like this, his first reaction would definitely be to pick up a stone from the ground and throw it at him! He would run away after throwing it, never looking back, let alone talking to him. But Xu Chu was different. When Zhao Chen looked at him like this, only one sentence would come to Xu Chu's mind! The fun is coming!

Xu Chu's face was filled with excitement as he ran towards Zhao Chen happily.

Zhaochen thought he would probably be ignored: "..."

I don't know why, but I suddenly felt a chill on my back ...

But the other person has already taken the bait out of respect, he can't just turn around and leave!

Zhaochen took a deep breath and continued to look at Xu Chu with contempt.

Xuchu walked up to him, as if he hadn't noticed Zhaochen's look at all, and said, " Hey, isn't this Deputy Gang Leader Zhaochen ? Oh, sorry, isn't this Gang Leader Zhaochen? So, are you spying on Xuan Xiaoyi again? Her boyfriend is here, be careful to get beaten! "

When Zhaochen heard the word boyfriend, his cheeks twitched, and then he sneered: " You still have the mind to mock me, don't you know what kind of life you are living? "

Xu Chu: " Uh ... what kind of life am I living? "

Xu Chu asked this question sincerely. He really didn't understand what Zhaochen meant. What happened to him?

Zhao Chen laughed in anger and said, " What he did to you just now, you don't care at all? He humiliated you in front of others, you don't feel angry at all? "

Xu Chu: "..."

Xuchu showed an expression of sudden enlightenment. Zhaochen's expression just relaxed, and Xuchu said: " So you are here to poach people again! "

Zhaochen: "..."

Zhaochen felt that he might be seriously ill and wasted his time talking to someone like Xuchu. He still remembered vividly how Xu Chu had tricked him last time. If it weren't for the unity of the players in Day City at that time, he might have been killed in the encirclement and suppression of Ji Xuanyi.

Zhaochen turned around expressionlessly and wanted to go back. Xuchu said quickly: "Le -- Chief Zhaochen! Don't leave so quickly! Let's talk for a while. I still have no intention of betraying you! Really! I am not satisfied with Ji Xuanyi. We have something to discuss. Don't just leave like this!"

Zhaochen didn't want to pay any attention to this person at all. No matter what Xu Chu shouted behind him, he didn't want to look back.

Seeing that the other party was so determined, Xu Chu gave up the plan to make fun of Zhao Chen. He sighed and said, "This guy is too stingy. Did Ji Xuanyi always look for friends in trash cans before?"

Mi Yin and Xue Piao Renjian saw Xu Chu and Zhao Chen talking when they passed by just now. Worried that Xu Chu might suffer a loss if these two noobs started fighting, they hurried over here. However, Zhao Chen suddenly left for some reason when they were halfway there. When the two of them got closer, they heard what Xu Chu said.

Mi Yin was a little unhappy about this. Although Ji Xuanyi did pick up a lot of junk from the trash can, he was also a diamond drill. How could Xu Chu use a map cannon!

Mi Yin immediately said: "That's not necessarily true, don't you still have me?"

Xu Chu looked back and realized why Mi Yin and Xue Piao Renjian came over. He smiled and said, "Of course, what I just said definitely doesn't include you!"

Mi Yin's expression eased slightly, and then she heard Xu Chu say, "After all, that little idiot Ji Xuanyi didn't even consider you a friend at that time."

Miyin: "..."

Why did it feel like someone had stabbed me all of a sudden?!

Mi Yin looked at Xu Chu expressionlessly and said, "Do you know? If it was you who was friends with Zhao Chen instead of Ji Xuanyi, you would have been betrayed a thousand times." Xu Chu raised his eyebrows and said, "Oh? What do you mean?"

Mi Yin said: "After all, even someone as upright as me will occasionally have the desire to betray you."

The smile on Xu Chu's face froze.

Without waiting for Xuchu to move, Miyin immediately shouted loudly: "Ji Xuanyi! Xuchu just called you a little idiot!"

Xu Chu: "..."

"Can't you give me a chance to apologize?!" Xu Chu shouted.

"You can go ask Ji Xuanyi if he will give you a chance to apologize." Mi Yin shrugged timidly, and Xu Chu turned around and ran away.

After a while, Xu Chu was taken back by Qi Qin and beaten up by Ji Xuan.

When Xu Chu was being taught a lesson by Ji Xuanyi, he didn't realize that he had missed an opportunity.

He thought Zhaochen had learned his lesson enough and was just annoying people out of boredom. He didn't expect that this person had not given up yet.

Zhaochen no longer hopes to reconcile with Ji Xuanyi. In his opinion, Ji Xuanyi is as stubborn as he was before, and probably nothing can change him.

Then just stand on the opposite side completely, he won't hold back anymore.

After Zhaochen returned to the Sun City base, he called the executives and said, " I have talked to the people in Star City, but they have no intention of letting us go. It is very likely that they will take action against us after the cooperation phase ends. "

When Zhaochen was still in Zuo'an, his wise character, which contrasted with Zuo'an, was deeply rooted in people's hearts. This executive was an old man in Bancheng at that time. He believed in Zhaochen's words without a doubt. He immediately frowned and looked in the direction of Fanxing City.

Zhao Chen said to him expressionlessly, The opportunity " will come when we attack the boss later. There's no need to be too obvious. After all, although they already have plans to attack us, it's not in our right to act first. We just need to muddy the situation as much as possible. I'll go deal with the person at the center of Star City. As long as we can send him back to the Elemental Continent during the chaos, things will be much easier. "

The executive glanced at Zhaochen and said politely, " Um, boss, can you do it alone? "

So, is there any dish?

Zhao Chen heard this, smiled and said: " Did you know? In addition to orange weapons, this game also has a kind of weapon called a divine weapon. "

Chapter 184

Artifacts not only have superior properties , but often have some special effects that can be called cheats. During a battle , the difference in strength between the two players can almost be ignored.

If you have a magic weapon in your hand, it will be just as Zhaochen said , whether you are a bad player or not will not be that important.

Upon hearing this , a look of shock appeared on the face of Bancheng's senior executives. He also didn't know when Zhaochen had gotten such an awesome thing as a divine weapon.

Zhaochen did not tell him , but said: " Just know that I have it. Try to cooperate with me when fighting the BOSS . We have missed too many opportunities. We can only succeed this time , not fail! "

The Bancheng executive shut his mouth , nodded vigorously, and without Zhaochen giving any more instructions, he ran away to contact people.

Ji Xuanyi was discussing the matter of the BOSS and had no idea that the people in Yori City were preparing to cause trouble again.

This sudden discussion was thanks to the Ze, Yu and Sishui trio. When the three of them were chatting and looking forward to conquering the entire Lost Continent in the future, they talked about the issue of troop replenishment.

As we all know, although the players have now set foot on the Lost Continent , in fact they have no resurrection point in the Lost Continent. Whenever they die, they will return to the Elemental Continent.

" If this continues when we advance the front line later, wouldn't that be really disappointing? " Qingfeng Bufu said.

Ze Yu Sishui said disapprovingly: " When we were advancing the front line in the later stage, we had already built a teleportation array. Are you still afraid of this? Didn't we say at the time that the teleportation array was built to facilitate the replenishment of troops? "

Qing Feng Bu Fu said: " You may have forgotten the pain of not wearing the mold! "

Ze Yu Sishui was stunned for a moment before he reacted.

If there is only one teleportation array connecting the two continents, then there will be a huge crowd when replenishing troops, not to mention that some players will die directly and have to return to the battlefield again, which may result in deaths on the spot!

Short-term activities are fine, such as the original dungeon activities. If you squeeze in, it can be said to cultivate sentiment, but the Lost Continent Strategy is obviously a long-term activity, and it will most likely encounter urgent emergencies. If you squeeze in at this time, the official will probably be criticized, right?

Moreover, if the reinforcements can only come from one place after each death, it will be fine at the beginning of the battle, but what if they push the front line to the center of the continent or farther from the coast in the future? By the time the reinforcements are sent out and rush to the front line, it will be too late!

Ze Yu Sishui hesitated and said, " Maybe they will open a few more teleportation arrays? "

Qing Feng Bu Fu glanced at him and said, " If the teleportation array is so easy to open, why don't they just install a few more in the Elemental Continent? Besides, the official slogan is that it's real. If there is no teleportation array, it would take half a month to travel by boat to arrange it in the two continents, and it's fine, but they are also crazy about arranging it within the continent. Isn't that contradicting themselves? "

Ze Yu Sishui's face wrinkled and he said, " If that's the case, then we can only open the resurrection point in the Lost Continent before we advance the front line. If players can use the resurrection point in the Lost Continent, the pressure on the teleportation array will be reduced a lot. "

Qingfeng Bufu nodded, then was stunned.

Ze Yu Sishui seemed to have thought of something as well and was stunned.

It was rare for these two people to focus on the real business. Ming Shao was listening to their discussion when suddenly both of them stopped talking. He asked, " What's wrong? "

Qingfeng Bufu turned his head away and said, " Damn it, how come no one has thought of this! "

Ming Shao: "... Huh? Which one? "

Ze Yu Sishui had already climbed up from the ground and ran towards Ji Xuanyi quickly.

When Ze Yu Si Shui came over, Xu Chu had just been taught a lesson by Ji Xuan. She looked listless and was fanning Ji Xuan, just like a little maid.

"Xiao Ji! Xiao Ji!" Ze Yu Si Shui ran over and greeted Xu Chu stupidly when he saw him. "The deputy gang leader is here too. Are you guys playing some weird role-playing game?" Xu Chu glanced at him dimly.

Ji Xuanyi sat on a small stool and said slowly: "If you have something to say, please stand up and report. If you don't, please leave the court."

Ze Yu Si Shui: "..."

Ze Yu Sishui was silent for a moment, and almost forgot what he was going to say. Fortunately, Qingfeng Bufu and Ming Shao also followed behind, and Qingfeng Bufu quickly said: "Xiao Ji! Resurrection point!"

Ji Xuanyi was stunned for a moment, and didn't react. He said, "What? What happened to the resurrection point?"

Didn't he receive Xiaoxiao Yuxia's private message?

Qing Feng Bu Fu said excitedly: "It's not the resurrection point of the Elemental Continent, it's the resurrection point of the Lost Continent!"

Ji Xuan was stunned for a moment, then immediately reacted.

No wonder he always felt something was strange since he decided to return to the Elemental Continent yesterday, as if something had not been considered and something was going to go wrong. It turned out to be here!

As a strategy map for the later stages of the activity, and even the main map for the later stages of the game, Lost Continent will definitely have resurrection points open. In order to make it easier for players to attack the map, the map will be opened before the official strategy begins. the resurrection point of the Lost Continent will be opened between the time period that Ji Xuanyi and his team are in now and the start of the third phase of the activity, "Conquer the Lost Continent."

As far as Ji Xuanyi could guess, there were two suitable times to open the resurrection point. One was of course after the three great magicians gathered and established the teleportation array. The other was earlier than that, which was after Ji Xuanyi and his team killed the final BOSS at the dock, the stone giant.

The possibility of these two nodes is actually the first one that is higher. However, when the Elemental Continent is escorting the Great Magician, the players on the Lost Continent cannot just sit there and wait. There must be another mission. In other words, it is very likely a dual-line mission. Where there is a mission, there is a risk of death. But for players who have experienced the stage BOSS, should they be teleported back to the origin after death?

Taking this into consideration, the possibility of opening a resurrection point at a second time point is not low.

This happened to affect Ji Xuanyi's plan – Ji Xuanyi's return to the Element Continent depends on the fact that the resurrection point of the Lost Continent is not open, and Ji Xuanyi can only return to the Element Continent after his death! But if the resurrection point is opened after the BOSS is killed, Ji Xuanyi will never be able to return even if he dies ten thousand times.

Ji Xuan was so shocked that he broke out in a cold sweat and said, "So that's how it is! Fortunately you guys reminded me, otherwise I almost died in vain!"

The others also understood and said with lingering fear: "How terrible!"

It's not that Ji Xuanyi's death at one level is scary, but Ji Xuanyi after his death at one level will probably be scary ...

Ji Xuanyi frowned and said, " In that case, the safest way is to go back before the boss falls? How about we go now? "

Xu Chu couldn't help but say, " That's too early. We don't know how strong the boss is yet. He might need a commander. I think you can leave when the boss's health drops to 10%. "

Ji Xuanyi thought for a moment and said, " That's fine, but in that case, someone has to finish me off, right? Relying on the boss doesn't seem very reliable. Who of you will do it? "

Xu Chu immediately raised his hands straight up.

Everyone looked at him, and Ji Xuanyi said with a half-smile: " Are you trying to take advantage of this opportunity to take revenge? "

Xu Chu didn't blush when he was exposed. He spread his hands and said, " If you don't want to, find someone else. "

Everyone looked at Qi Qin again.

There are many scenes in TV dramas where a man personally sends his or her loved one off for the last time. As Ji Xuanyi's boyfriend, wouldn't you give it a try?

Qi Qin: "..."

Qi Qin immediately looked at Ji Xuanyi with tears in his eyes and said, " No, I can't do it! "

Ji Xuanyi didn't count on him in the first place, so he simply said, " Then let's go to Xue Piao Renjian. If Qi Qin wants to stop them out of reflex, Xue Piao Renjian can at least struggle a bit. Forget about the others. I'm afraid that if I don't die, you guys will die first. "

This wave of bragging about her boyfriend made everyone look uncomfortable, but Ji Xuanyi did not say anything wrong. If Qi Qin really got anxious, he would send them all away reflexively. Others might not be willing to do such dangerous work, but as the former number one in the world, although Xue Piao Renjian was clearly aware of the gap between himself and Qi Qin, he was still looking forward to fighting with the opponent again, especially the opponent who showed no mercy, so after a private chat with Ji Xuan, he agreed immediately.

When everyone saw that the people had been selected, they scattered like birds and beasts, fearing that they would get into trouble again. Even Xu Chu took advantage of the chaos to run away.

Ji Xuan took a look at the fan thrown by Xu Chu and was about to ask Qi Qin to catch the man, but Xue Piao Renjian and Mi Yin happened to come over to familiarize themselves with the situation in advance. Ji Xuan's eyes lit up and he stuffed the fan into Mi Yin's hand without any hesitation.

Miyin: "..."

Xue Piao Renjian silently took the fan from his hand, stood beside him and started fanning Ji Xuan.

At about two o'clock in the afternoon, the assassin sent out by Jianxi Xinjiu sent back the information.

At the place where the stone giant was, the violent orcs had stopped repairing the stone giant and began to line up instead. The countdown for the stone giant's awakening was only ten minutes left.

Jian Xi Xinjiu's expression was stern, and he immediately asked everyone to start looking for their positions. They had already arranged their positions and teams to deal with the stone giant, and were just waiting for the final decisive battle!

The players from Day City glanced at Star City. They were also the elite troops of half the city, but they felt like they were just a group of scattered people.

" This contrast ..."

Someone was complaining in a low voice, and the player next to him bumped into him. It turned out to be Zhaochen walking over, and the man quickly shut his mouth.

Zhaochen walked over, glanced at the player who had just complained, and didn't say anything. I don't know if he didn't hear it clearly or just didn't care at all.

As the assassin who was exploring the way ahead started counting down, the moment the stone giant officially started moving, everyone noticed a slight tremor in the ground beneath their feet, and the expressions on their faces became much more solemn.

This BOSS is quite fierce!

In fact, the stone giant is not only huge in size, but also very fast. Only three minutes after the start, the figure of the stone giant appeared in front of everyone and was rushing towards them at a rapid speed.

Jian Xi Xin Jiu originally thought that they would face the stone giant first, but he did not expect that the violent orcs led by the stone giant moved faster and approached them almost instantly. Jian Xi Xin Jiu immediately said, " The stone giant troops stay where they are! The small monster-clearing teams move to meet the enemy . After pulling the monsters, immediately move to the sides of the road to make room for the large troops in the middle! "

The players from Star City immediately obeyed the order, and the players from Phantom Moon City also went up to help take on the monsters. The players from Sun City also moved, but did not go to help clear the monsters. Instead, they quietly stood in the middle of the large team, apparently wanting to help fight the BOSS .

When the leaders of Fanxing City saw the action of Youri City, almost all of them subconsciously looked towards Zhaochen of Youri City.

Zhaochen was not surprised at all that he would receive attention. He glanced at Ji Xuanyi, but got no response. He then turned to Jian Xi Xinjiu , shrugged , and said, " Am I so untrustworthy? "

Although no one could hear clearly what he said due to the distance, everyone basically understood what he meant and suddenly they were unwilling to even give him any expression. Do you have any credibility? Don't you have any idea in your head ?

But after all, the BOSS is already in front of them, and no one has the energy to continue paying attention to him. After all, the manpower of Fanxing City is almost ten times that of Yangri City. No matter how hard they try, there is no room for Zhaochen to do anything wrong.

Almost everyone, including Ji Xuanyi, thought so. The stone giant was the focus of their attention now.

Due to the limit on the number of people, the monsters were not completely lured away, but the remaining few just played a decorative role around the BOSS , with basically no other impact. Those who could carry the monsters carried the monsters, those who could output output, and

those who could heal others healed others. In addition, the Sun City did not make any trouble, but was fighting monsters seriously. For a while, the tactics of pushing the BOSS made before went very smoothly.

Just as Ji Xuanyi said, although the BOSS is very strong, its strength is controlled within the range that they can deal with.

However, in Ji Xuanyi's opinion, the strength of this BOSS was actually a bit beyond his expectations. He was speculating whether the strength of this BOSS was adjusted according to the strength of the players. After all, with the current strength, they could only barely cope with it. If they switched to players from other servers, the possibility of failure was still quite high. However, before Ji Xuanyi could finish his thoughts, the BOSS 's health had just dropped by 70% under the siege of the crowd, and the originally orderly battle atmosphere suddenly became chaotic.

This BOSS is stronger than the dungeon BOSS but weaker than the world BOSS , so although the three main cities have arranged more than one T to carry monsters and attract aggro, the positioning is not as particular as that of the real world BOSS .

Because there are so many people, the positioning can only be said to be as reasonable as possible, but there are also many misalignments for convenience. For example, in order to heal the T and DPS in front , the priest stands further forward than the mage and archer, and the melee players are crowded together, so even if they stand apart, the output is not that satisfying.

Facing the BOSS 's AOE skills, this situation is actually quite strenuous, but fortunately the priests have strong healing power, so the situation is not that bad.

However, just when the BOSS's health was reduced to zero and its attack power increased, chaos suddenly occurred in the area close to the BOSS !

" Fuck! Someone pushed me on purpose! "

The person who shouted this was a priest. He originally wanted to squeeze to the front to heal people, but who knew that he was pushed directly into the attack range of the BOSS and almost had half of his blood knocked out.

After this shout, the same sound was soon heard in other places. Basically, they were all weak and fragile magic and agility professions, whose positions were disrupted without any resistance. But when they turned around to look for them, they couldn't tell who was who because there were too many players.

Originally this situation would not be a big problem, but the problem was that it was not so easy for them to deal with this BOSS . The priests were basically concentrating on healing the people, and once they were harassed, there were immediate casualties.

Jian Xi Xin Jiu was immediately anxious. Only a fool would not know who was taking advantage of the situation! The Sun City was too shameless!

Ji Xuanyi also immediately realized that it was the people from Youri City who were causing trouble, but he thought more deeply. Although this level of trouble from Youri City was disgusting, after the reduction in personnel to a certain extent, the pressure on the priests was reduced and this kind of harassment would not have much effect, and the BOSS could still be

successfully defeated. What he was afraid of now was another situation – Ji Xuanyi almost immediately looked in the direction of Jianxi Xinjiu and Liutian.

Unfortunately, these two people were obviously not the type to understand what Ji Xuanyi was thinking. Almost without any particular order, they both shouted at the same time: " Fuck you! You bastards from Day City, do you have any shame! "

Ji Xuanyi immediately let out a long sigh.

Fell into a trap!

As expected, the scene immediately became more chaotic. The players from Day City who were just dodging and attacking secretly at the beginning now didn't care about anything at all. They pushed the players from Star City hard and shouted loudly: " What do you mean?! What do you mean?! Are you putting the blame on Day City again?! "

" Everyone knows that you guys in Star City have something against us. Are we responsible for everything? Do you have evidence and you are just accusing me?! "

" You said it was us who did it? If we don't do it, wouldn't it be unfair to you? I wanted to do the mission well, but now that you said so, if I don't do it, I'll just fight for my reputation. So what if you have more people? Sun City is never afraid of you! "

New and old grudges came up together, and the two groups immediately became a mess. Although because of the activity, people on both sides did not want to return to the living point, and the so-called fight did not really involve the use of skills, but just pushing each other, but the BOSS found an opportunity and killed a lot of people in a short time , causing heavy losses to the players!

Jian Xi Xin Jiu had not expected that the people of Dayo City could take advantage of the situation so much. Just shouting would cause a commotion. He was stunned. After Xu Chu had taught Liu Tian a lesson, he squeezed in front of Jian Xi Xin Jiu, raised his head and slapped him on the back of the head, cursing: " Are you an idiot? Don't you think it's not chaotic enough? There are so many of us, isn't it convenient to quietly clear them out?! What the hell are you shouting for? Fuck! "

Jian Xi Xin Jiu couldn't think of so much, and immediately looked at Xu Chu with some grievance. Xu Chu scolded: " It's no use pretending to be pitiful! Go and stabilize the situation quickly! I really don't want to fail here! "

Upon hearing this, Jian Xi Xinjiu hurriedly squeezed forward, and Xu Chu followed behind him. No one realized that Zhaochen's target was Ji Xuanyi! At this time, in order to control Qi Qin's conditioned reflex, Qi Qin was arranged to the front row of the melee. Jian Xi Xin Jiu, Xu Chu, Liu Tian, and Ze Yu Si Shui were all trying their best to stabilize the situation. Ji Xuanyi stayed behind as an auxiliary, with only Xue Piao Renjian by his side, ready to send him off.

Ji Xuan took a look at the situation ahead, and didn't think about what Zhao Chen was trying to do. After all, he was already going to die, and he had subconsciously ruled out the possibility that he was the target. He thought Zhao Chen was trying to disrupt the progress of the event, so he said to Xue Piao Renjian, " You can also go ahead and help. "

Xue Piaorjian frowned and looked at Ji Xuanyi hesitantly .

Ji Xuan said, " The boss 's health is still over 60%. It's still early. We can stabilize it first and come back later. "

Since Ji Xuanyi said so, Xue Piao Renjian responded, turned around and squeezed forward. Just as Xue Piao Renjian's back slowly disappeared from Ji Xuanyi's sight, Zhao Chen, who had been staring at Ji Xuanyi from the beginning and quietly squeezed to Ji Xuanyi's side when everyone's attention was focused on the BOSS , smiled.

The knight's artifact, the Spear of Annihilation.

Before Zhaochen went out to sea, in order to collect as many demon gold coins as possible and to quickly upgrade his level as possible, he accidentally discovered a hidden task while frantically clearing tasks.

He was very quiet during that period of time because he was fully focused on completing the hidden mission. Zhaochen was not stupid, on the contrary, he was very smart. When he was not involved with Ji Xuanyi, he was barely considered a normal person. After spending some time, he successfully obtained the knight's artifact. It was at this time that he had the idea of becoming a complete enemy of Ji Xuanyi.

The incident with Xu Chu made him understand Ji Xuanyi's stubbornness. Although he still did not give up trying to persuade Ji Xuanyi, he also vaguely thought in his heart that even if he could not make Ji Xuanyi change his mind, it would not be a bad idea to destroy him directly? It's just that his own abilities are limited, so even though this mentality appeared, he never really wanted to implement it until he got the artifact.

Zhaochen is not a combat-type player. His combat ability is probably only enough to compete with Xuchu, a rookie. Not to mention meeting Qi Qin, even if he fights Ji Xuanyi in a one-on-one duel, he can't kill the opponent . What's more, there are so many players gathered in Fanxing City and Ji Xuanyi can get support anytime and anywhere. For Zhaochen, wanting to kill Ji Xuanyi is nothing but a daydream.

But now it's different. Although the effect of the Spear of Annihilation is not as powerful as the Assassin's Dagger that can kill the player instantly, it has another effect – that is, prohibiting healing.

This healing ban is not a time-limited ban. Instead, once a player is hit, as long as the player does not die, this healing ban state will exist permanently. In other words, a player attacked by the Spear of Annihilation will never be able to recover health until he dies once, at which point the healing ban DEBUFF on the player will disappear.

The limitation of this special effect is that only one player can obtain this effect at the same time. That is to say, if Zhao Chen uses the healing ban special effect on Ji Xuanyi, then when he uses this gun to attack other players next time, the special effect will not be triggered again. Unless Ji Xuanyi dies and the healing ban disappears, it can be given to another person again.

If used in a team battle, the special effects of this artifact can be said to be useless. As long as the player who is banned from healing retreats to the back and does not participate in the battle, as long as he is still alive, this gun is just an ordinary weapon with more prominent attributes.

But if this weapon is used against a specific person, it would be very scary.

Permanent healing ban is basically a devastating blow to a player's gaming experience.

Zhaochen does not necessarily need to kill the opponent. As long as he attacks once, the attacked person must die once if he wants to continue playing the game freely. Even if he commits suicide , he has to die once. Zhaochen, who is holding a gun, only needs to find an

opportunity to sneak attack the opponent again after the opponent dies. Even if he cannot kill the opponent, the opponent can only continue to die.

It not only deals a blow to the gaming experience, but also to the hearts of the targeted players. After being plotted against, they can only destroy the levels they have raised themselves time and again. This can cause enough frustration. Not only will they quit the game, but there is a high possibility that they will directly develop a dislike for the concept of the game.

Zhaochen felt that if he wanted to destroy Ji Xuanyi, using this magical weapon would be the most appropriate method!

Sometimes he even couldn't help thinking that since he happened to get this weapon at this critical juncture, maybe God also agreed with his idea!

However, this time he obviously did not just want to stab Ji Xuanyi secretly and run away, otherwise there would be no need to create the current chaotic situation. His goal was to kill Ji Xuanyi directly . The healing ban of this gun was only an auxiliary function to prevent others from helping Ji Xuanyi.

There is no one around Ji Xuanyi now. Tianxia Dyi is not here, Xue Piao Renjian is not here, Mi Yin is not here, Jian Xi Xinjiu is not here. Other people are no longer a big deal in his eyes. He feels that as long as he can kill Ji Xuanyi here, it doesn't matter even if other people in Fanxing City attack him later.

It was just right that he died and returned to the Elemental Continent, so he could chase after Ji Xuanyi and shoot him again. The Elemental Continent was different from the Lost Continent where there were crises everywhere. After returning to the Elemental Continent, as long as he was not besieged by the Starry City, he would be safe no matter where he went. He could use the characteristics of the knight's long legs to fight a guerrilla war with Ji Xuanyi. Anyway, as long as he could attack the opponent unexpectedly, even if it was just a scratch, it would be no different from killing the opponent once. He could be free and happy, and force Ji Xuanyi to surrender little by little, just like what Ji Xuanyi did to him.

As Zhaochen thought about it, he became excited. He took out the prepared artifact from his backpack, ignored the trembling of his fingertips, and held it tightly.

Ji Xuanyi had his back to him, less than three meters away from him!

Zhaochen swallowed his saliva and moved towards Ji Xuanyi little by little.

Finally! He was within striking distance of the opponent!

Zhaochen gritted his teeth and just raised his arm when Ji Xuanyi suddenly turned his head sideways and made a dodging motion!

" Fuck! "

This word was uttered by two people at the same time.

Zhao Chen was cursing Ji Xuanyi for some reason having eyes on his back and actually discovering him in advance, causing him to have to stab out the gun before he was ready, but the angle was different from what he had expected and the shot went astray!

Ji Xuanyi cursed because his intuitive prediction was triggered, and he subconsciously dodged the direction of the sight behind him, but he didn't expect that the one who attacked him was Zhao Chen, a fool and a rookie, with such uncoordinated limbs that he looked to the left and stabbed to the right! As a result, he reacted in advance and dodged, but he was still stabbed!

At that time, Ji Xuanyi had a desire to pin Zhaochen to the ground and beat him up, but his reason told him that he was a warlock now, and if he wanted to pin Zhaochen, the knight, to the ground and beat him up, he still needed help from others!

Ji Xuanyi turned around and ran without saying a word. Zhao Chen didn't expect that he actually stabbed Ji Xuanyi by accident. After a moment of hesitation, a twisted smile appeared on his face and he chased after Ji Xuanyi.

Ji Xuanyi immediately informed other players that the person chasing him was from Your City causing trouble, but because the battlefield was too chaotic, the players from Fanxing City were unable to react in time to stop Zhaochen. The knight's agility was higher than that of the warlock, and Zhaochen quickly caught up with Ji Xuanyi and stabbed him with a second shot. Although Ji Xuanyi did not expect Zhaochen to be so weak the first time and failed to dodge, it does not mean that he will be attacked by someone like Zhaochen the second time. He dodged immediately. Zhaochen was furious and attacked again immediately. However, it would be a miracle if Ji Xuanyi could survive this unskilled attack!

To be honest, Ji Xuanyi has seldom participated in fights recently. This was probably the reason for his mistakes in dealing with Zhao Chen. Even the most skilled players would lose their skills if they did not participate in battles for a long time. Zhao Chen's attacks could be used as rehabilitation. After dodging twice, Ji Xuanyi had no desire to escape. He looked at Zhao Chen expressionlessly, showing off his moves while saying, " If you can kill me today, I won't play this game anymore. "

Zhaochen: "... Fuck! Ji Xuanyi, don't be so arrogant! "

Zhao Chen was so angry at Ji Xuanyi's remarks that he almost died on the spot. What made him even more angry was that the other party was telling the truth! Judging from the current situation , it would be difficult for him to kill Ji Xuanyi!

But Ji Xuanyi is just a sorcerer!

Zhaochen had a vague idea of his own cooking skills, but how could he admit it? In a rage, he wanted to summon a horse and kick someone with it!

Ji Xuanyi acted decisively and slapped Zhaochen in the face with a paralyzed fist, then kicked him to the ground. When he was about to punch him, he thought about his strength attribute and expressionlessly changed his fist to a slap, and slapped Zhaochen twice, which stunned him.

Ji Xuanyi smiled contemptuously and said, " Stupid, what can you do if I'm arrogant? You're just a loser. "

After saying that, Ji Xuanyi muttered again, " You chased me for more than ten meters . Wow, this is the shame of my life. To be honest, if you wanted to humiliate me, congratulations, you did it. "

Zhaochen was almost so angry that he was kicked offline by the security system, and the veins on his head were popping out!

Ji Xuanyi seized the time and slapped him a few more times while Zhaochen was unable to move. When the paralysis time was over and Zhaochen began to frantically summon his mount again, Ji Xuanyi calmly took out the flashing stone he had bought from the fox Eddie last night.

" It's only one hundred gold. That's a bargain for you. " After Ji Xuanyi finished speaking, he threw the flashing stone to the ground. A strong light came on and a scream was heard.

Zhaochen and everyone within five meters of him lost their vision!

Before Zhaochen could react, the familiar slap in the face sounded again!

" Fuck !" Before Zhaochen could finish his words, the second slap came!

Although Zhaochen had tried his best to use the Turtle Fist to force Ji Xuanyi back, Ji Xuanyi didn't just have hands, and using the staff to hit him could also cause physical damage! In addition to being hit, Zhaochen's random attacks could only hit other players around him, and he didn't even touch the corner of Ji Xuanyi's clothes!

Now that the game has developed to the mid-stage, the skills of each profession have been exposed. Although there are few warlocks, their skills make many people very afraid and they keep them in mind. Zhao Chen has set Ji Xuanyi as his target, so of course he will not fail to understand him.

He knew that Ji Xuanyi had only one strong control. After the effect of this control ended, it would be his chance when Ji Xuanyi was off guard!

Zhaochen endured Ji Xuanyi's beating with great difficulty. The moment he finally regained his sight, he could not help laughing and raised his spear towards Ji Xuanyi – but the next second, his smile froze.

After such a long time, not to mention Qi Qin, Liu Tian also reacted, not to mention Ji Xuanyi also released a massive □□ ! Qi Qin had already received the news and rushed over here aggressively!

When Zhaochen opened his eyes, what he saw was not Ji Xuanyi who had no control skills and was full of flaws, but Qi Qin with a fierce look in his eyes.

Zhaochen, have a safe journey?

Chapter 185

Those players who were causing trouble in Day City did not really want to directly ruin this mission . After all, they were also the beneficiaries of this mission . They did not understand Zhaochen's obsession with Ji Xuanyi. They cooperated with Zhaochen's actions just to do as Zhaochen said , to get rid of the person who posed the greatest threat in Fanxing City without anyone knowing.

When Qi Qin and his men suddenly retreated, the players in Day City knew that Zhaochen had succeeded , and they all kept quiet , not allowing the situation to escalate any further.

However, things did not develop as they expected . Zhaochen overestimated the artifact and underestimated his own ability. He was beaten up by Ji Xuanyi, a warlock , even though he was holding the artifact , and then he was faced with Qi Qin.

Although both sides have magical weapons in their hands, strictly speaking, Qi Qin's Sword of Ares's special effects are not as powerful as the Spear of Annihilation, but the gap in strength is there, and Zhao Chen was almost pinned to the ground and beaten!

At this time, Qi Qin certainly would not think that Zhaochen was the activity commander of the Day City , and perhaps he needed to spare his life , so he directly sent Zhaochen back to the resurrection point without any delay.

Zhaochen subconsciously wanted to resist at first, but after being beaten twice, he suddenly realized that he was just a rookie and the opponent was someone that even Xue Piao Renjian could not beat. So he gave up resisting and just looked at Ji Xuanyi with a crazy look.

Just as Ji Xuanyi was about to scold him, Zhao Chen laughed and said, " Kill me! It doesn't matter if you kill me! Ji Xuanyi! You have to die with me, too, hahahaha—— "

Before Zhaochen finished laughing, his blood turned into a streak of white light and flew away . Everyone who had gathered around him realized what was happening and looked at Ji Xuanyi. Is Zhaochen dreaming? Why should Ji Xuanyi die with him? Oh, it seems that Ji Xuanyi is going to die again next time ... Could it be that Zhaochen overheard their conversation? No, if Zhaochen knew that Ji Xuanyi was going to die next, why would he come out and jump around? Everyone was confused, but Ji Xuanyi reacted immediately and looked at the BUFF list under his avatar.

[Mark of Death] : Permanently prohibits healing.

Ji Xuanyi was stunned for a moment, then he slapped his thigh and cursed: " Fuck! What a loss! "

Everyone looked at him.

Ji Xuanyi said with a dark face: " I was wondering how he had the guts to come and trouble me alone. It turns out that he has the Knight's artifact, which seems to have a permanent healing ban. No wonder he was so sure that I would die once! "

Xu Chu also reacted, slapped his thigh, and said regretfully: " Fuck! That's a huge loss! "

If I had known earlier, I would have kept Zhaochen here and tried to get the artifact!

Everyone finally realized that they had just missed the divine weapon! They immediately cried out in regret!

Seeing the crowd's excitement, Mi Yin couldn't help but ask with a frown: " Are you robbers? Will your account be blocked if you steal weapons directly? "

Wasn't the last time that the guy who was itching to be hammered banned because he cheated Yunzhongjian's weapons? Although it also had something to do with him being a repeat offender.

Xu Chu said, " Of course cheaters will be banned, but it is normal for artifacts to drop after being killed in PVP . Otherwise, apart from rich people like us who spend money to buy them, will the artifacts only stay in the hands of one account? "

Mi Yin is just an arena player. When Xu Chuyi said that, he was choked. It seemed that what the other party said made sense. After all, it is a game. PVP itself is a way of playing the game. It is different from pure fraud like asking for a hammer just for the sake of skin.

Xu Chu put Mi Yin aside, touched his chin, and said, " It's not too bad. After all, we didn't suffer much loss. Besides Ji Xuanyi who was about to die and got shot, a few of the scattered troops returned. But the intelligence now is much more important than this. Anyway, now we know that Zhaochen has the artifact in his hands. Let's think of a way to get it when we get a chance! "

Everyone responded in unison, especially Liu Tian who was the happiest. If Jian Xi Xin Jiu, who was commanding in the front, heard the news, he would probably be very happy as well. After all, artifacts can only exert the strongest combat power in the hands of the corresponding professions. If they really got the knight artifact from Zhao Chen, they could only distribute it to the knights in the team.

I don't know why Liu Tian is so happy. Just think about it and you will know that the possibility of getting Jian Xi Xin Jiu must be higher. We have all seen the consequences of a noob getting a magic weapon!

Ji Xuanyi was also speechless. He was about to die, but Zhaochen suddenly appeared and offered his life, which made him a little confused.

At this moment, Xu Chu suddenly thought of something and shouted, " Hey! Did you tell Xiao Xiaoyuxia about Zhao Chen's return? Didn't he send someone to wait for Ji Xuanyi over there? We can easily capture him! "

Everyone finally reacted, but it had been a while since Zhaochen died. It was probably too late to contact Xiaoxiao Yuxia, and Xiaoxiao Yuxia then contact the people at the beach.

Xu Chu could only sigh regretfully and said, " Forget it, forget it. With Ji Xuanyi here, there will definitely be a next time. "

Ji Xuanyi: "..."

What on earth did this person take him for?

At this moment, Xue Piaore, who had been silent all the time, suddenly pointed a gun at Ji Xuanyi.

This action was so sensitive at this time that everyone's first reaction almost became whether Xue Piaore was a high-level undercover agent. Fortunately, Xue Piaore did not actually launch a serious attack, and the gun he handed over was also light.

Not to mention Qi Qin, even Ji Xuanyi dodged it, and then looked at Xue Piao Renjian whose weapon was held by Qi Qin with some surprise.

Xue Piao Renjian looked back at the situation of the giant stone statue of BOSS and said to Ji Xuan: " It's time. "

Ji Xuan was stunned for a moment, then he looked at the BOSS , and then he suddenly realized.

While they were fighting, the BOSS 's health had already dropped by 40%. It looked like nothing special would happen next, so Ji Xuanyi had to go back to the Elemental Continent.

Before Ji Xuanyi could say anything, Xu Chu had already revealed a sad expression and said to Ji Xuanyi: " Yi, it's time to get going ..."

Ji Xuanyi: "..."

Ji Xuanyi beat Xu Chu violently, then said to Xue Piao Renjian: " I understand, let's go somewhere else. "

Xue Piao Renjian nodded and followed him. Qi Qin was stunned and couldn't help but shouting: " Xuan Yi! "

Ji Xuanyi turned around and glanced at him, and said, " Listen carefully and help Xuchu and the others complete the activity. Don't lose your temper. "

Finally, Ji Xuanyi smiled softly and whispered, " Be obedient. "

Qi Qin was stunned and blushed a little.

Xu Chu finally recovered from Ji Xuanyi's beating. Seeing this, he wanted to speak again, but Liu Tian, who looked horrified, covered his mouth in time and said, " Is living so painful for you?!"

Xu Chu: "..."

" Oh, by the way, " Ji Xuanyi, who was about to leave, suddenly stopped and looked at Xu Chu who was restrained by Liu Tian, and said: " Um, Xu Chu ..."

Liu Tian immediately became alert and said, " He didn't say anything! "

Xu Chu: "..."

Ji Xuanyi: "..."

Ji Xuanyi was speechless and said, " Am I a cruel person? I just want to borrow something from Xu Chu! "

Everyone, including Liu Tian, complained, "You are so cruel!" But since Ji Xuanyi said so, Liu Tian had no choice but to let Xu Chu go.

Without Ji Xuanyi opening his mouth, Xu Chu knew what he wanted to borrow, so he took out the Assassin's dagger from his backpack and put it in Ji Xuanyi's hand.

As soon as the assassin's artifact came out, Mi Yin and Ze Yu Sishui's eyes widened, but no one cared about their thoughts. The two magic professions ignored the real assassins here and passed the Assassin's dagger back and forth.

After Ji Xuanyi got the artifact, he carefully checked whether the CD was still there, then nodded to Xu Chu and said, " Thank you. "

Xu Chu raised his eyebrows and said, " Don't lose it. It's very expensive. "

Ji Xuanyi said calmly: " It doesn't matter. I'll just work for you if I lose the world. "

Xu Chu immediately changed his expression and said, " Please throw it away! "

Ji Xuanyi: "..."

How obsessed are you with hiring Qi Qin as your bodyguard?

Without further ado, Ji Xuanyi finally left with Xue Piao Renjian. A moment later, everyone saw that Ji Xuanyi's level in the friend list had dropped from sixty-nine to sixty-eight. Qi Qin pursed his lips tightly.

Xu Chu sighed, patted Qi Qin's shoulder, and said sadly: " My condolences! Didn't Ji Xuanyi say that you should listen to my instructions carefully – um! "

Liu Tian looked at Qi Qin and Ji Xuan's identical expressions, and with sweat on his forehead, he grabbed Xu Chuyi and said, " Well, you guys can chat slowly, we're going back to help the boss ! "

After saying that, he took Xu Chu and ran away without looking back.

Everyone could see that Qi Qin was in a bad mood, so they all found excuses to slip away, leaving Qi Qin alone, standing there quietly.

Of course he was unhappy. Ji Xuanyi had returned to the Elemental Continent. If he didn't log off, he would not be able to see him for a long time. Moreover, when Sun City was making small

moves last time, he had made harsh remarks. He clearly said that he would not let Zhaochen hurt Ji Xuanyi again, but in the end he didn't do it ... He was so useless!

Qi Qin stood there alone, angry with himself. After a while, Xue Piao Renjian, who had seen Ji Xuanyi off, came back alone. When he saw that Qi Qin was the only one left there, he was stunned for a long time before he looked around and walked over.

However, before Xue Piao Renjian could stand still, Qi Qin looked up at him and said, " Let's fight? "

He needed to vent some of his emotions.

When Xue Piao Renjian heard this, his eyes lit up and he agreed without hesitation: " Okay! " , who said she had left but was actually hiding in the distance : "..."

Brother, shouldn't we cherish our lives?

When Ji Xuanyi was beaten by Qi Qin in Xue Piao Renjian, he had already returned to the Elemental Continent and met up with the elite cavalry troops of Fanxing City that Xiao Xiao Yuxia had arranged at the resurrection point. He also sent messages to both sides of the two continents to report his safety.

The knight captain who stayed at the resurrection point to pick up Ji Xuanyi was called Fengchui. She was a management girl in the mortal world. Although she was a female player, she was not bad at it. She was considered to be one of the stronger fighters in the mortal world. Ji Xuanyi had commanded some battles, so he had some impression of her. Xuchu once asked if the two characters " Caodong " were not written after the girl's name for fear of being vulgar. As a result, the girl who looked very shy smiled and said, because the ,No " ID Fengchuipidouliang was taken by someone else. "

Ji Xuanyi at that time: "..."

Have girls now become like this?

However, Xu Chu was impressed by this girl Feng Chui and tried several times to poach her from the mortal world. However, this girl Feng Chui's eyes seemed a little unfriendly. It seemed that she had a crush on the bald man Xiao Xiao Yu Xia, so she ignored Xu Chu, which made Xu Chu angry for a long time.

At this moment, this girl Fengchui was sent by Xiaoxiao Yuxia to fulfill the task of assisting Ji Xuanyi. I think she is very fond of him.

Ji Xuanyi knew that this girl was very straightforward, so he asked directly as soon as he left the resurrection point: " Did you see a knight? "

Feng Chui immediately asked, " Zhao Chen from Day City? "

Ji Xuan nodded.

Feng Chui looked unhappy and said, " I saw him, but I didn't pay attention and let him run away. "

After all, Ji Xuanyi did not inform them that Zhaochen had returned, and Feng Chui and their mission was to pick up Ji Xuanyi. It was impossible for them to just start killing people as soon as they appeared at the resurrection point. At the very least, they had to see the person clearly first.

However, in just this short moment, and as everyone was not prepared for a fight, Zhaochen simply mounted his horse and rode away.

Although the sun had set on the city of Yaori, Zhaochen was still the gang leader after all. Fengchui and the others on his horse would definitely not be able to outrun him, and they could only watch them escape.

Ji Xuanyi was shocked and said, " It seems that we are not destined to be together. Forget it, let's go back to Fanxing City first and meet Xiaoxiao Yuxia first. "

When Fengchui heard the sound of the rain, he became more energetic and said, s go'Let " without further delay ! "

Ji Xuan smacked his lips and casually climbed onto a player's horse.

They were originally heading directly towards Star City. About six or seven minutes after they set out, Ji Xuanyi suddenly thought of something and said, " Wait a minute, let me down first. " The player who was acting as Ji Xuan's scooter driver immediately stopped and helped him get off the horse. Feng Chui rode over and asked, " What's wrong? "

Ji Xuanyi didn't say what it was, but just said, " Can you wait here for me for a while? "

Feng Chui thought for a moment and said, " They can wait here, I have to go with you. Xiao Xiao said that nothing can happen to you, I have to ensure your safety. "

Ji Xuanyi hesitated for a moment, but nodded and said, " Let them wait here. Come with me, don't ride a horse. "

Although Feng Chui didn't know what Ji Xuanyi wanted to do, he still gave everyone a warning. Then, he and Ji Xuanyi avoided the main road and went into the bushes.

In just five minutes, Ji Xuanyi found the person he was looking for.

Feng Chui followed behind Ji Xuanyi and was stunned for a moment when he saw the familiar figure. Then he lowered his voice and said, " Zhaochen? Why is he here?! "

Feng Chui thought that this person would go directly to Day City after escaping, so why would he appear on the roadside leading to Star City now?

Ji Xuanyi smiled and said, " If you knew how he got back to the resurrection point, you wouldn't ask this question. "

Zhaochen's target had been Ji Xuanyi from the beginning. Now that he had obtained the artifact, how could he be satisfied with just letting Ji Xuanyi die once? He knew that with Ji Xuanyi's personality, he would definitely not be able to tolerate the annoying DEBUFF on his body , and would most likely return to the resurrection point soon. After Ji Xuanyi returned to the resurrection point, whether he wanted to participate in the second stage of the activities or prepare to deal with the person who pretended to be him, the first thing he would do was to return to Fanxing City and meet up with Xiaoxiao Yuxia.

So after escaping from Feng Chui and others, Zhao Chen secretly took a detour to the bushes on the side of the road leading to Fanxing City, and ambushed there, waiting for Ji Xuanyi to pass by and then launching a surprise attack!

As long as he gets hit once, he can just run away. Anyway, those soldiers from Star City can't catch up with him!

It can be said that there was actually no big problem with Zhaochen's plan, but he did not expect that Ji Xuanyi, who had experienced countless times of being chased and hunted , had actually figured out where was suitable for an ambush as soon as he arrived at the beach. As soon as he set out on the road, Ji Xuanyi suddenly remembered this matter, and with the wind

he went around to the back of the ambush point. Sure enough, he caught Zhaochen who was sticking his butt out and preparing to ambush!

In order to prevent the latter from having a chance to escape, Ji Xuanyi did not bring a large group of people, but instead prepared an assassination here !

Feng Chui also immediately realized Ji Xuanyi's thoughts. He held his breath and watched quietly as Ji Xuanyi gently parted the grass and reached towards Zhaochen's back – no, isn't Ji Xuanyi a sorcerer!

Just as Feng Chui reacted, Ji Xuanyi had already taken out the Assassin's dagger from his backpack.

Although Feng Chui's strength is enough to defeat Zhao Chen, he is not a master like Qi Qin after all. If Zhao Chen wants to escape, he will have many opportunities. Given the equipment gap, no one can do anything. Only Assassin's dagger can send the opponent directly to the resurrection point. It's a pity about the seven-day CD . Ji Xuanyi originally planned to use it on the little jerk who pretended to be him, but it would be quite satisfying to kill Zhao Chen and vent his anger.

But then again, it seems that the Assassin's dagger can only kill the enemy once? He has brought all the elite troops of Star City out. Why not let them go back now? Wait until everyone is in place before taking action? But now he has already walked behind the enemy. If he goes back, he will be discovered, right? Then he will alert the enemy!

Just when Ji Xuanyi was hesitating, Zhaochen got caught in the grass on the ground in his armor when he squatted down. He felt a little itchy and moved subconsciously, turned his head, and then saw Ji Xuanyi standing behind him, holding a dagger with a hesitant look on his face! To be honest, at that moment, Zhaochen felt like he was having a heart attack and was about to be kicked offline by the security system. Not only was Ji Xuanyi's appearance so unnoticed, but also because Ji Xuanyi's action reminded Zhaochen of the miserable memory of being pressed down and rubbed until he was kicked out of the game ...

Zhaochen's breathing finally calmed down before he was disconnected. He took a breath and the fear of the other party instantly filled his mind. He completely forgot that he came to ambush Ji Xuanyi and turned around and wanted to run!

Ji Xuanyi did not expect that this man would suddenly turn around, and his movement was actually a beat slower than his. Just as Zhaochen was about to run away, the sound of a sharp weapon cutting through the air suddenly rang out. A familiar silver spear weighing at least 50 kilograms flew past Ji Xuanyi's face and directly hit Zhaochen's shoulder, knocking him to the ground!

Ji Xuanyi was no longer stunned at this time, and immediately pounced on him and slashed him with a knife. However, Zhao Chen did not have the life-saving equipment that had a low probability of being triggered like Ji Xuanyi, so he simply turned into a white light and flew away! Ji Xuanyi finally reacted at this time, put away the Assassin's dagger, turned around and looked at the girl Fengchui who had empty hands and a curious look on her face.

Judging from that move just now, this girl is indeed an expert. She might be a javelin thrower offline ...

Ji Xuanyi secretly complained in his heart, while walking towards the girl, he said: " We didn't arrange the manpower properly, and we only killed him once, which was too easy for him. Do you have your weapon? I'll help you find Xu Chu to reimburse you later. "

Feng Chui waved his hand quickly, reached into his backpack to take something out, and said, " It's not a good piece of equipment. I have a spare one. "

After saying that, he took out another gun. It looked much more beautiful than the previous one. It was obvious that it was a weapon that the girl collected. When Feng Chui took it out to use, an expression of obvious distress appeared on her face.

Ji Xuanyi didn't quite understand what the outsider was thinking, he just silently remembered this feeling and said: " Okay, let's go, this time we can go back with peace of mind. "

The ambush has been discovered once. Even if Zhaochen, who has returned to the resurrection point, is an idiot, he will not continue to chase them and launch a sneak attack this time.

Feng Chui curiously asked Ji Xuanyi about the Assassin's dagger. Ji Xuanyi did not hide it from her and told her everything. The two of them had a very pleasant chat.

If Feng Chui hadn't suddenly asked Ji Xuanyi to praise her more in front of Xiao Xiao Yuxia before logging off, Ji Xuanyi would have had a more comfortable time in the next few days.

Ji Xuanyi found it a bit incomprehensible when he thought that Feng Chui, a girl with both good looks and strength, actually liked Xiao Xiao Yu Xia, who was almost bald. After all, if it was just for Xiao Xiao Yu Xia's position as the leader of one of the three major gangs, Xu Chu had extended an olive branch to her, and the girl rejected it without hesitation.

That's Xu Chu, the Xu Chu whose family owns a mine!

After thinking about it, the only explanation is true love. After all, everyone has different tastes in this world. Maybe she just likes Xiao Xiao Yu Xia's seriousness and responsibility!

From the beach to Star City, Ji Xuanyi didn't mind walking for a few more days. After all, after defeating the Lost Continent's boss , Xiao Xiao Yu Xia said that they hadn't finished their preparations yet, which meant they still had a lot of time. But Feng Chui missed Xiao Xiao Yu Xia so much that he was eager to go home, so he finished the four-day journey in three days. When Ji Xuanyi arrived at Star City, he almost fell asleep on the horse's back ...

Feng Chui was not vague. After entering the city, he took Ji Xuanyi directly to the inner city stronghold. On the way, he also took Ji Xuanyi to take a look at the progress of their ship repair. Then he met up with Xiao Xiaoyuxia.

In fact, Ji Xuanyi has always been a little skeptical whether Feng Chui really likes Xiao Xiao Yu Xia. However, when he saw the look in his eyes when he saw Xiao Xiao Yu Xia and the stars in his eyes, he understood that it was true love!

However, Xiaoxiao Yuxia didn't seem to have any particular feelings for the girl for the time being. After a round of greetings and thanks, he sent the girl out to work, and pulled Ji Xuanyi to sit down at the conference table, asking about her well-being.

Ji Xuanyi was so disgusted that he originally wanted to push Xiao Xiaoyuxia aside, but he looked up unconsciously and saw the empty conference table.

Usually, when they gathered at the inner city stronghold, this table would be very lively. Liu Tian, Jing Yunhan, and Xu Chu, these three people could put on a show, Jian Xi Xin Jiu would add to

the chaos, and the occasional appearance of the Ze Yu Si Shui trio would always make a lot of noise, which would annoy Ji Xuanyi to the point of being extremely annoyed.

But now, there are only Ji Xuanyi and Xiao Xiaoyuxia sitting here – and when Ji Xuanyi was not back, Xiao Xiaoyuxia could only sit at this table alone.

Did you miss these people when the rain was falling?

Ji Xuanyi sighed, letting Xiao Xiaoyu grab him, and whispered, " I'm sorry to bother you for the past half month. "

Xiao Xiao Yuxia was stunned for a moment, then laughed and said, " It's not a problem.

Actually, the activities here are not that intense. I feel quite relaxed. "

Ji Xuan looked at him for a while, then said slowly: " It's raining heavily, and you seem to have a bald spot on the front of your head. "

Xiaoxiao Yuxia's face changed drastically and she reached out to touch it in horror!

Ji Xuanyi couldn't help laughing and said, " I was kidding you! "

Xiaoxiao Rain: "..."

The warm atmosphere just now disappeared, Xiao Xiaoyu looked at Ji Xuanyi expressionlessly and said: " Goodbye, our friendship is over. "

Ji Xuanyi coughed dryly and said, " Stop talking nonsense and get down to business. I came back after being demoted. I'm not here to tell you a joke. "

Xiao Xiao Yu Xia didn't bother to say that this person was the first to complain, and directly asked: " Do you want to join us in the second stage of the activities? "

Ji Xuan was stunned for a moment and said, " What do you mean? "

Xiao Xiao Yuxia frowned and said, " Although the progress here is a bit slow, in fact, it will be ready to finish in about three days. In other words, after three days, I must set out to host the second phase of the event. "

" If you also want to participate in the second phase of the event, you only have three days left. You definitely won't have enough time to slowly find the guy pretending to be you and get rid of him. After all, we all know that he is an expert. At this time, we can only use drastic measures. I don't recommend you to do this. After all, being too proactive means that there are considerable risks. "

Ji Xuanyi looked at him quietly without saying anything.

Xiao Xiaoyu's expression eased, and he said, " If you don't go with me to the Lost Continent, then you can slow down a bit and follow the clues. You will eventually find it. I will leave some more elite troops in Star City for you to command. If there are not enough people, you can use the scattered soldiers to fill in. "

At this point, Xiao Xiaoyuxia's face showed some hesitation again. He said, " Although I recommend you to do the latter emotionally, my reason tells me that the impact on the event will probably be greater than I thought. If you can successfully solve the problem with the former method, our action may be smoother. "

Ji Xuanyi understood what he meant, thought about it, and said, " The second method is too slow , it's not my style, and Qi Qin is still waiting for me in the Lost Continent. If I can't go there as soon as possible, he might be very sad. "

Xiao Xiao Yu Xia was a little soured by this sudden dog food, showing a toothache expression, and said: " Okay, but I have to remind you that if you move too much, you may lose your vest directly. You have so many enemies, which will affect the game experience. "

Ji Xuan glanced at him, smiled, and said, " It doesn't matter if it falls off. "

Xiaoxiao Yuxia raised her eyebrows.

Ji Xuanyi said: " I feel like I have more friends than enemies now, so I don't have to be so afraid anymore. What do you think? "

Xiaoxiao Yuxia looked at him for a while, smiled, and said, " What a coincidence, I think so too. "

If Ji Xuanyi really got caught, would they let his enemies do anything to him? Of course it was impossible!

Although Xiaoxiao Yuxia is cunning and smooth-talking, it does not mean that he is disloyal. If someone wants to pick on Ji Xuanyi, he certainly will not allow it. Just like Ji Xuanyi said, let it go!

After saying that, Ji Xuanyi sighed again and said, " If I'm not mistaken, as long as we catch that guy, it will be impossible for me not to be exposed ..."

Xiao Xiao Yu Xia didn't understand and said, " What do you mean? Will he expose you on the forum? "

Ji Xuanyi shook his head and said without further ado, " Let's take advantage of the last three days to resolve this matter. Do you know what that person has been doing recently? "

Xiao Xiao Yuxia nodded after hearing this and said, " I have been keeping an eye on him since this incident happened. The places where he kills people are not fixed. Sometimes he kills in the main city, sometimes in the wild map. However, he has not appeared near Star City yet. The place he goes most often is Sun City. If it weren't for your name, I almost thought he was from our city ..."

In fact, some players in the Day City have already speculated this, saying that Mu Xuanyi is a player from the Star City and deliberately went to the Day City to disgust people. However, some people also said that they heard that Mu Xuanyi killed more bad guys, and maybe it's because your Day City is too chaotic.

However, this statement was overturned after someone in Youyue City was also harmed. After all, the Buddha in Youyue City was famous far and wide . Even if there were bad people in Youyue City, there would not be more than in Fanxing City. If Mu Xuanyi caught the bad guys and killed them , why did he kill everyone in Youyue City and not go to your Fanxing City?

Therefore, the saying that Mu Xuanyi is from Fanxing City is very common now, but there is no evidence, and the power of Fanxing City is there, so everyone just talks about it verbally, and no one dares to come and ask for an explanation, resulting in a development like in a TV drama where Xiao Xiaoyuxia has to hand over Mu Xuanyi.

" But what these people said is not wrong, " Xiao Xiaoyuxia was still in the mood to joke at this time, and said: " Mu Xuanyi is indeed in our Fanxing City, hahahaha! "

Ji Xuanyi: "..."

Ji Xuanyi was too lazy to pay attention to him and said, " That guy is obviously coming for me. It doesn't matter if he's exposed. There's no need to search the whole map for him. It might even lead to loss of manpower. I should just spread the word and lure him to me. "

Xiaoxiao Yuxia actually thought so too, but after all, it was Ji Xuanyi's business, so Ji Xuanyi had to make the decision himself.

Xiaoxiao Yuxia asked: " What news are you going to release? "

Ji Xuan glanced at him and said calmly, " Just tell the truth, it will be fine once Mu Xuan returns to Star City. "

Xiao Xiao Yuxia was stunned for a moment and said, " Back? "

Ji Xuan nodded: " Yes. "

Xiaoxiao Yuxia originally planned to release the news that a player in Fanxing City was also killed by Mu Xuanyi . Since the other party was specifically impersonating Ji Xuanyi, whether a third person appeared under the name of Ji Xuanyi or Ji Xuanyi himself appeared, that person would rush over to take a look.

After all, it is better to have less trouble than more. This not only protects Ji Xuanyi's vest to the greatest extent, but also effectively completes their plan.

But Ji Xuanyi said that he wanted to make it clear that Maki Xuanyi had " returned " . As long as the people who got the news were attentive, they could actually associate it with the voyage half a month ago. Although many people were sent out by Fanxing City, not many came back, and they were stuck at this critical juncture. Not to mention whether other people in the Lost Continent had noticed Ji Xuanyi's absence, just the few people who went to pick up Ji Xuanyi before would be able to react after a little thought.

Xiao Xiao Yu Xia said tactfully: " Isn't this revealing too much information? Revealing your identity is just one possibility. Don't give up on yourself. "

After saying that, Xiao Xiao Yu Xia quickly added: " Of course I don't mean to be afraid of trouble, I just mean –"

 " I know what you mean, " Ji Xuanyi said calmly, " but I just want to release this news, no need to change it. "

 " That person came here to target me, and he knows my current situation very well, otherwise he wouldn't have just let Fanxing City go. He also has concerns . He knew that I was in Fanxing City and that the activities were carried out overseas. The reason he was late in getting the news was because I suddenly came back, so I had to inform him like this. "

 " At least I have to let that daring person know how angry I am now, right? "

Chapter 186

Xiao Xiaoyu felt chilled just by seeing Ji Xuanyi's expression . From Ji Xuanyi's tone , he seemed to know that person! Hiss – I hope the scene won't be too brutal!

Fortunately, Ji Xuanyi's frightening expression only lasted for a moment, and he quickly subsided . He said to Xiao Xiaoyu as usual, " By the way, besides this matter , I have another situation to tell you. "

"Another situation?" Xiao Xiaoyu was stunned for a moment and said, "What situation?" It feels like there's nothing else to pay attention to now except the person pretending to be Ji Xuanyi and the second phase of the event?

Ji Xuan looked at Xiao Xiao Yuxia and said, "Zhao Chen has also returned to the Elemental Continent."

"Ah?" Xiao Xiaoyu was stunned.

Ji Xuanyi then recounted what had happened before, emphasizing: "This man is carrying a knight's divine weapon, a divine weapon!"

Xiaoxiao Rain: "..."

He thought that Ji Xuanyi had singled out this matter because of the provocation of the other party, wanting revenge, but it turned out that he was going for the artifact after all this time? You were not this kind of person before, Ji Xuanyi!

it was a bit uneasy that the artifact was not in his hands, but it was in the hands of the enemy. Even if Zhaochen did not provoke Ji Xuanyi, Ji Xuanyi and the others would target him after learning the news.

"But according to what you said, he should have gone back to Day City?" Xiao Xiao Yuxia frowned and said, "This is a bit difficult to deal with. With the event and the person impersonating you, you don't have the time to bother him, right?"

Ji Xuanyi thought for a moment and said, "Do you think if the news that Mu Xuanyi is in Fanxing City is leaked, Zhaochen might take the opportunity to attack the city?"

Ji Xuanyi has enough enemies. If Zhaochen summons everyone to attack Fanxing City at that time, it is still possible that a hundred people will respond to his call.

Xiao Xiao Yu thought about it, shook her head, and said, "No matter how many enemies you have, they are not as many as this. After all, you have only been killed a few times in a game without a penalty for losing levels. Besides, the event is about to start, so most players won't focus on seeking revenge."

In fact, what Xiaoxiao Yuxia wanted to say most was that although Zhaochen was an annoying guy, judging from his previous behavior, he didn't seem to want to fight to the death with Ji Xuan, and the possibility of him bringing people to kill him directly was still very low.

Ji Xuanyi didn't tell Xiaoxiao Yuxia that Zhaochen had changed his attitude towards him, but it didn't matter. If Zhaochen really came to attack, Fanxing City would not be afraid of him, and it would be a good opportunity to snatch the artifact.

However, they cannot take the initiative to attack for the time being. Firstly, it would not look good to do this just for a magic weapon. Secondly, there are too many things to do. Zhaochen can only be put aside for the time being. After these things are settled, Ji Xuanyi will definitely get rid of this person.

Xiao Xiao Yu Xia said: "Anyway, first catch the person who pretended to be you. Are you sure you want to directly disclose the news that 'Mu Xuanyi is back'?"

Ji Xuanyi nodded without hesitation.

Xiao Xiao Yu Xia sighed and said, "Okay, since it's your own decision, I'll have someone send a message."

Ji Xuanyi said to him: "Thank you very much."

Xiao Xiao Yuxia was chatting with others in private, and said helplessly: " It's really rare that I have to make you owe me a favor! "

Xiaoxiao Yuxia's movements were indeed very fast. Ji Xuanyi wandered around Fanxing City for an entire afternoon. When he logged off at night, he saw a lot of news about the appearance of Zhen Mu Xuanyi in the forum .

Xuanyi was not there. Qi Qin cried out in grievance. He wondered how Xue Piao Renjian , who had been pressed to the ground by him for eight hundred times, would feel when seeing him like this.

It will probably be mostly silence ...

After Ji Xuanyi finished his meal, with Qi Qin still hanging on his body, he sat in front of the computer and opened the game forum.

All the previous posts denouncing Mu Xuanyi have disappeared, and instead, there are various posts arguing about whether there is a real Mu Xuanyi or a fake one, and who is the real and fake Mu Xuanyi between the two Mu Xuanyis.

But no matter what attitude everyone holds, everyone's focus is indeed on Starry City.

The final answer to the mystery of the real and fake Mu Xuanyi must be revealed in the Starry City.

In fact, when the news just spread and Ji Xuanyi had not yet gone offline, many people had already started to move to Fanxing City.

The name Mu Xuanyi also caused a sensation at the time. When the plot of the true and false Monkey King came out, everyone who had contact with Mu Xuanyi, whether they were enemies or fans, wanted to witness the final outcome with their own eyes.

When Ji Xuanyi logged in the next day, he found out that a large number of onlookers had come to Fanxing City one after another. However, basically all the players from Yangri City were thrown out of Fanxing City with good reason, and only some players from Youyue City were let in.

" Although there aren't too many people, for a game server, it's still quite impressive ... "

Xiao Xiao Yuxia sighed, patted Ji Xuanyi on the shoulder, and said, " Brother, you still have a great influence, Ji Xuanyi is awesome! "

Ji Xuan looked at him expressionlessly.

Everyone would feel embarrassed when thinking back on the childish things they did in the past, and Ji Xuanyi was no exception, but he just didn't show it. To be honest, in his heart, this kind of influence might as well not exist.

Xiaoxiao Yuxia couldn't understand Ji Xuanyi's feelings at all, and was still happy. Ji Xuanyi suddenly asked him: " When and where was the last time the person who pretended to be me appeared? "

Xiao Xiao Yuxia was stunned for a moment, then said, " It was the day before you came back. It seemed that a player from Dayo City was killed in the outdoor map over in the Death Swamp . "

That player didn't even see clearly who killed him. If that faker hadn't specifically clicked on that player's name on the map channel, he might still be confused now, " Xiao Xiao Yu touched his chin and said, " It's a bit tricky. If he really comes to Star City and Tian Xia is gone, can you deal with him? "

Xiao Xiao Yu Xia said with some worry: " After all, you also said that the person you guessed was just a guess. If this person is not who you think he is, then he is just an ordinary enemy. Then it's screwed. Should I send some people to protect you closely? "

What Xiao Xiao Yu Xia said was not without reason. Ji Xuan thought about it and said, " The day after tomorrow. If that person hasn't come tomorrow, send someone to guard my place the day after tomorrow. "

" I do understand what you mean, " Xiao Xiao Yu Xia asked doubtfully, " It would take two days to rush here from the Death Swamp, but why the day after tomorrow? Wouldn't it be better to send someone to watch over you tomorrow? "

Ji Xuanyi didn't say anything.

If what he guessed was correct, that person would be so scared that he would rush to Fanxing City immediately when he found out that Ji Xuanyi had directly revealed his identity. Even without a horse, an assassin could arrive in less than two days by traveling day and night. But if it was not that person, the message sent by Ji Xuanyi would not be so important, and of course he would not have to travel day and night. Perhaps in order to prove that he was the real Mu Xuanyi, he would continue to kill people on time along the way, and would most likely arrive the day after tomorrow. At that time, Ji Xuanyi would need the protection of Xiao Xiao Yuxia's men.

" By the way, there is one more thing. " Ji Xuanyi suddenly spoke.

Xiaoxiao Yuxia looked back at him and said, " What's the matter? "

Ji Xuan looked at him for a while and said, " If you see me these two days and feel that there is something wrong with me, talk to me in private. "

Xiao Xiaoyu looked at Ji Xuanyi in confusion, not understanding what he meant.

Ji Xuanyi said: " Of course, if you don't feel the same, just pretend I didn't say anything today. "

Xiaoxiao Rain: "..."

Xiao Xiao Yu was silent for a moment, then said very sincerely: " I think something is wrong with you right now. "

Ji Xuan rolled his eyes at him and went offline immediately.

When Qi Qin was not around, he actually wasn't very willing to play games alone.

After Ji Xuan logged off, he found that Qi Qin had also logged off early and was already sitting next to his game cabin waiting for him.

Ji Xuanyi said helplessly: " Is the Lost Continent so idle? "

Qi Qin helped Ji Xuanyi out of the game room and said honestly, " It's not that I'm idle. There are new activity tasks these two days. They say that we should go to find and help the orcs who may resist, and try to expand the base. But it's not difficult. "

In addition, there are a large number of people in Fanxing City, and without Zhaochen, Yaori City is as quiet as a chicken. Youyue City is an ally, and the activities went very smoothly. Xue Piao Renjian and Mi Yin are enough for most things, and Qi Qin was basically not needed.

Qi Qin didn't want to go on the mission. When he was doing the mission alone, he would always think of Ji Xuanyi. He logged off early because Xu Chu couldn't bear to see his frustrated look of an abandoned dog, so she kicked him off.

Ji Xuanyi listened quietly, and when he finished, he asked, " Is there anything else? "

Qi Qin was about to shake his head, but suddenly stopped and said, " I don't know if this counts, but Xuchu said that Youyue City is weird. The old western doctor always looks at us with strange eyes. Xuchu seems very angry and even had an argument with Ye Linyu yesterday. " Ji Xuanyi didn't take it seriously when he heard it, and said, " Xu Chu is just a jerk, let him be. " As Qi Qin was talking, he leaned over to Ji Xuanyi and asked, " What happened to Xuanyi? " Ji Xuanyi shook his head and told him everything. The two of them leaned against each other and the atmosphere was very warm.

Ji Xuanyi and Qi Qin leaned against each other for a while and felt a little hungry. Just as he was about to ask Qi Qin to cook, the latter suddenly asked: " Is the person who pretended to be Xuanyi someone Xuanyi knows in real life? "

Ji Xuan was stunned for a moment. He did not expect Qi Qin to suddenly say such a thing. He asked in surprise: " How did you know? "

Qi Qin looked at him and said, " Didn't Xuan Yi say that he would tell me everything you didn't tell me after this matter was resolved? "

But in fact, what Qi Qin didn't know about Ji Xuanyi seemed to be only the things about Ji Xuan's family.

Ji Xuanyi seldom does meaningless things. Since he made such a promise at this critical juncture, it proves that the person in front of him must have some relationship with Ji Xuanyi.

" Is he Xuanyi's relative? Or a friend? " Qi Qin asked.

Ji Xuanyi couldn't help laughing and said, " I thought you were stupid, how come you suddenly became smart? "

Qi Qin looked at him helplessly.

Qi Qin is indeed a little silly, but as long as it is related to Ji Xuanyi, he will concentrate on thinking, so of course he is smart.

However, Ji Xuanyi's attitude clearly meant that he wanted to avoid talking about it. Seeing Qi Qin staring at him and not letting him go, Ji Xuanyi said helplessly: " It's still unclear whether that person did it, so there's no point in telling you now. "

Qi Qin still looked at him quietly.

Ji Xuanyi said: " Don't worry, whether it's that guy or not, I will tell you everything after this matter is over. You know, I have never lied to you. "

Ji Xuanyi just looked back at him, and Qi Qin couldn't bear it anymore. He had to compromise and ran to cook silently.

Before the three major gangs formed an alliance, Xiaoxiao Yuxia was actually a rather leisurely deputy gang leader, managing only a hundred people every day. Occasionally he would go out to the streets to recruit new members to join the gang, and he also had time to think about some little ideas. He was a perfect deputy gang leader, wise, alert, and amiable.

But after the three major gangs formed an alliance, since the other four were either hands-off bosses or simply incompetent, the burden on Xiao Xiao Yuxia's shoulders suddenly became heavier. Let alone being a perfect deputy gang leader, he felt that it was difficult to be a human being. His head was almost bald like a light bulb!

It was drizzling today, and I went online early.

Monitor the movements of the person pretending to be Ji Xuanyi, check the progress of the second phase of the event, find undercover agents to inquire about the current situation in Day City and whether there are any unusual movements, resolve some frictions among players in the guild, and contact the leader of the Sanren Gang to determine whether there are any changes in the power of the Sanren Gang ...

" Xiaoxiao~ "

The girl's voice was completely different from her natural voice. It was so coquettish that Xiao Xiaoyu shuddered. She looked up and saw Feng Chui, a top master in the world, who was suspected to be a javelin thrower offline, looking at her lovingly.

Xiaoxiao Rain: "..."

Although Fengchui is good-looking and good at playing games, Xiaoxiao Yuxia really has no plans to fall in love for the time being. Apart from work and games, he no longer has time for girls!

Xiao Xiaoyu swallowed her saliva and said, " Well ..."

" No, you don't have to say it! " If Ji Xuanyi was here, he would be shocked. Feng Chui was completely different from the one who met him. She looked at Xiao Xiao Yu hesitantly and said sadly: " I already know your answer, and I have already told you my answer. I will not give up! "

Xiaoxiao Rain: "..."

So what exactly did this girl like about him?

Xiao Xiao Yuxia was speechless for a while, then said: " Ah, that's not what I meant. I was asking why you came to see me. Is there anything? "

Feng Chui only reacted after hearing this and said quickly: " Oh, there is something going on. "

" Didn't a lot of people suddenly come to Fanxing City recently because of Mu Xuanyi's incident? There was a group of people ..."

" What the hell? " Xiao Xiao Yuxia asked with a puzzled look on her face: " A group of people? A tour group? "

Fengchui nodded and said, " It was a group of people who came from Youyue City. But because there were too many of them, we didn't dare let them in. However, they were very persistent, so we just waited outside the city gate. After all, they were allies, so we came to ask whether we should let them in or not. "

Xiao Xiaoyu just frowned when Feng Chui added, " Oh, by the way, the girl leading them said she knew Ji Xuanyi. "

Xiao Xiao Yuxia was stunned for a moment and said, " Do you know Ji Xuanyi? What's his name? "

The wind remembered this very clearly and said, " It's called a little flower. "

Xiao Xiao Yu Xia had no impression of this name, but since he said at this juncture that he knew Ji Xuanyi, he must be someone who knew Ji Xuanyi's identity, and he came from Youyue City. In any case, he should not be an enemy . He nodded and said, " Let them in. "

In fact, Yiduo Xiaohua and the others reported Ji Xuanyi's name as a last resort. They were all die-hard fans of Mu Xuanyi, and although they were indignant about the appearance of the fake Mu Xuanyi, there was nothing they could do. They could only discuss it indignantly in private.

But this time the opportunity came. When they heard that the real and fake Mu Xuanyi would meet in Fanxing City, not only would the real Mu Xuanyi come forward to deal with the fake one, but they would also have the chance to see Mu Xuanyi's true face. Yiduo Xiaohua and the others were immediately excited and ran directly to Fanxing City from Youyue City without saying a word!

Unexpectedly, due to the tense relationship between Fanxing City and Yangri City, they could not let people into the city easily. What's more, they were a whole gang and were stopped outside.

Just when everyone was at a loss, a little flower remembered that Ji Xuanyi had once represented Fanxing City to go to Youyue City to discuss something with Ye Linyu. It seemed that he was at least a manager of Fanxing City, so there should be someone who knew him. So, she tried every possible means and told Fengchui that she knew Ji Xuanyi. Unexpectedly, she was accidentally let in.

" And there's the Lost Continent ... "

Feng Chui had just finished speaking when Xiao Xiao Yu Xia stopped him and asked, " Wait, what's going on in the Lost Continent? "

Besides, if something happened in the Lost Continent, we can't just tell Feng Chui. After all, Jian Xi Xin Jiu should directly notify Xiao Xiao Yu Xia through private messaging!

Feng Chui was also quite helpless, and said: " Because it's not a big deal, we in the Lost Continent also have fans of Mu Xuanyi. I heard that the resurrection point was opened, but he refused to come back, so he stole a small boat and tried to row back ... "

Xiaoxiao Rain: "..."

That's a real fan! It's okay to steal a boat and row it back!

Feng Chui said, " The people under Meng Tanggu secretly talked to me about this matter. It seems that the leader of Jianxi Xinjiu Gang doesn't want to intervene. I thought about it and decided to just tell Xiaoxiao directly. "

Xiao Xiao Yu Xia smacked his lips, thinking that he really wanted to manage this discipline, but since he was so persistent that he had to row back, he must be a die-hard fan of Ji Xuanyi. How could he do that? He could only say, " Forget it. Let Jian Xi Xin Jiu take care of Meng Tang Gu's affairs. I don't bother to care about them. "

Fengchui did not doubt him and said, " That's all ... Oh, yes, there is one more thing! "

Xiao Xiao Yuxia sighed and said, " What else is going on? Could it be that someone else has transferred to another server to watch the fun? "

In fact, maybe there really is one! But that is not something Xiaoxiao Yuxia can control, so Fengchui certainly won't say such nonsense to him.

" It's not this, " Feng Chui said, " It's Yugui. Hasn't she been keeping an eye on the event? She said it seemed to be almost finished, but based on the situation, she couldn't tell whether it would be finished today or tomorrow. She wanted you to go over and take a look ... "

Xiaoxiaoyuxia: "... Why doesn't she chat with me privately? "

When Feng Chui heard this, he glanced at Xiao Xiao Yuxia and his cheeks turned red.

Xiaoxiaoyuxia: "... Okay, I got it. "

Maybe she was taking revenge for not telling her the news of Ji Xuanyi's return as soon as possible. Ji Xuanyi had not been online for the past two days, and Yugui had not been able to see him. For this, she had a great resentment towards Xiaoxiao Yuxia, so she found some lame excuses to give Fengchui the opportunity to come and hang around in front of Xiaoxiao Yuxia. However, it is indeed necessary for Xiaoxiao Yuxia to go and check out what Gui said. After all, the second phase of the activity is about their cooperation rather than cooperating with them, so it is still necessary to find the exact time. In case they don't wait for them to leave on their own, they can only organize the staff while rushing on the road. Not to mention the embarrassment, the workload will definitely be much greater. Xiaoxiao Yuxia also wants the hair, so there must be no mistakes in this regard.

Xiaoxiao Yuxia stood up immediately and prepared to take a look at the place where the ship was built and the goods were stored. Fengchui immediately followed behind him.

Xiaoxiao Yuxia looked back at her and said awkwardly: " You don't have to go. "

" Ah? " Feng Chui looked at him blankly.

Xiaoxiao Yuxia had no choice but to make up an excuse: " Please help keep an eye on the group of people coming from Youyue City at the city gate. We don't know their backgrounds yet. They just know Ji Xuanyi. Zhaochen also knows Ji Xuanyi. "

Feng Chui finally reacted and looked at Xiao Xiao Yu reluctantly before responding and leaving first.

Xiaoxiao Yuxia didn't breathe a sigh of relief until he could no longer see the figure blown by the wind. He had always thought that he was good at getting along with everyone, but he didn't expect that he was so bad at dealing with girls. It was terrible.

Xiaoxiao Yuxia sorted out her mood and went to the gathering point.

Walking on the road, one can visibly see that there are more players around, especially a lot of unfamiliar faces, which makes Xiaoxiao Yuxia feel a little uneasy.

But there is no way, sooner or later, Ji Xuanyi's alias will be revealed eventually. Even if it's not in these two days, something will happen one day in the future. Not to mention anything else, Guang Zhaochen is still there.

To be honest, now is a good time to expose the truth. After all, large-scale activities are now open and most of people's attention is on the activities. Although Ji Xuanyi is a figure, he is not as fun as the games. If the effect of distracting attention is good enough, perhaps this time there won't even be much ripples.

Xiaoxiao Yuxia thought about it and felt that she should discuss it with Ji Xuanyi. It would be best if she could create something artificially during the event. Just like the previous events, if a writer posted a message, the effect would definitely be very good!

As Xiaoxiao thought about it in the rain, she couldn't help but silently applaud herself for her cleverness.

At this moment, Xiao Xiaoyu looked up and saw Ji Xuanyi walking out from the corner. He thought to himself, isn't this just what he wants?

Xiaoxiao Yuxia immediately went up to him and called out, " Ji Xuanyi! "

When Ji Xuan turned the corner, he seemed not to notice the rain. He turned his head when he was called, looked at him blankly, and then smiled: " It's you! "

Ever since Ji Xuanyi came back alone and left Qi Qin in the Lost Continent, Xiao Xiaoyuxia rarely saw him smile. Now seeing that he seemed quite happy, he couldn't help but ask curiously: " What's wrong? What good thing happened? Why are you smiling so happily? " Ji Xuanyi curled his lips and said, " If nothing unexpected happens, the guy pretending to be me should show up today. Aren't we happy enough to be able to solve this matter? "

Xiao Xiaoyu responded, and seeing that the other party was in a really good mood, she smiled and couldn't help saying: " I thought you would be very angry. You went up and got off after a while yesterday, and you had a gloomy face the whole time. When I saw your expression, I couldn't help but feel scared when I talked to you. "

The smile on Ji Xuanyi's face froze for a moment, and he said dryly: " Yes, is that so? I don't think I'm that angry ..."

Xiaoxiaoyuxia: "... Ah? "

Ji Xuan glanced at Xiao Xiaoyu and said with a smile: " Nothing, nothing. What are you planning to do? "

Xiao Xiao Yuxia talked about the event, and seeing that Ji Xuanyi looked absent-minded, she said, " Are you still worried about the guy pretending to be you? "

 " Huh? " Ji Xuan was distracted and didn't react for a moment.

Xiao Xiaoyu looked Ji Xuan up and down and said, " I just felt something was wrong with you. I don't think I've ever seen you wear this outfit before. "

Seeing that he was looking at him carefully, Ji Xuanyi simply turned around on the spot to let him see clearly, and then explained: " I just bought it today when I went online. It's assassin equipment. After all, it's not the real Mu Xuanyi. Even if I am the real one, it's not convincing to wear a warlock appearance. I bought a set of assassin equipment to show off. "

Xiao Xiao Yu Xia couldn't help but sighed, " You think too much. I thought that with your personality, you would just use the warlock to beat the other party up. "

When Ji Xuan heard the word "beat up", his face stiffened again, and then he laughed dryly: " That's what I was planning to do. Assassin's equipment has no attributes when worn by a warlock. I'll go up and show off first, and then change it off. Hahahaha ..."

Xiaoxiao Rain: "..."

No, he had been feeling something was strange since a while ago, and now this strange feeling had reached its peak – Ji Xuanyi would actually laugh " hahahaha " with such rich emotions? !

Xiao Xiao Yu couldn't help looking at Ji Xuanyi in bewilderment, and after a long while she said, " Well, Ji Xuanyi, why are you acting weird today? Are you okay? Did the world upset you? "

Ji Xuanyi paused for a moment, then calmed down a bit, smacking his lips and saying, " No, I'm not unhappy. Didn't I tell you that I was able to catch the person who pretended to be me, so I'm a little happy. "

Xiaoxiao Yuxia still felt that something was wrong, and suddenly something flashed through her mind.

[" If you see me these days and feel that there is something wrong with me, talk to me in private chat. "]

Xiaoxiao Rain: "..."

Now the situation is definitely " wrong " , right?

Xiao Xiao Yuxia glanced at Ji Xuanyi, opened her chat interface, and was ready to have a private chat with Ji Xuanyi. However, as soon as she opened the friend list, she froze.

Although there was indeed a Ji Xuanyi standing in front of him, could anyone tell him why the Ji Xuanyi in his friend list was not online at all? !

Xiaoxiao Rain: "..."

Xiao Xiaoyu swallowed his saliva and felt like he was about to pee from fright, but he was not kicked off the line by the security system. It can only be said that his mental strength is too strong!

What the fuck is this a third-rate ghost story!!! Why would someone who is not online appear in the game!!! It's like he is a completely different person!!!

Can he just log off now?! Will the other party follow him home?! No way! Why would a ghost who turned into Ji Xuanyi haunt him?! No matter how you look at it, it should be haunting Qi Qin! If the ghost wanted to haunt him, could it at least turn into Jing Yunhan?!

Xiaoxiao Yuxia had completely forgotten that he was the first to greet the " Ji Xuanyi " in front of him . If it weren't for that greeting, the other party might not have even seen him!

Just when Xiao Xiao Yu Xia didn't know whether to find an excuse to run away or to log off directly, the " Ji Xuanyi " on the other side moved. He came over with a smile, put his hand on Xiao Xiao Yu Xia's shoulder, and said: " Anyway, I have nothing to do now. Aren't you going to check on the progress? I'll go with you? "

Xiao Xiaoyu was sweating so much that she said quickly, " No, no, it's harmful to your health! "
" Ji Xuanyi " : " What? "

Xiao Xiao Yuxia finally reacted, coughed, and laughed dryly: " I mean ... I won't go over for the time being, uh, I have other things to do! "

" Ji Xuanyi " heard this, smiled and said: " Other things, what is it? I'll go with you! "

Xiao Xiao Yuxia almost knelt down before this man, thinking to herself, "Can't you just let me go? What hatred and grudge!"

Just when Xiao Xiao Yuxia was feeling terrible, that " Ji Xuanyi " finally noticed something. He was stunned for a moment, then moved closer to look at Xiao Xiao Yuxia.

Xiaoxiao looked back at him without daring to utter a word in the heavy rain.

Ji Xuanyi suddenly grinned and said, " Haha , you found out?! "

Xiao Xiao Yu took a deep breath and was so scared that she almost vomited. She immediately pushed " Ji Xuanyi " away and turned around and ran away, shouting: " No! I didn't find anything! "

How could " Ji Xuanyi " just let him go like that? He immediately chased after him and laughed, t let'I can ,Well !?It took you so long to realize that you are also his friend !How funny " I .you get away 'll just kill you here – eh? "

Xiao Xiaoyuxia, who had been running around in fear, suddenly stopped and looked at " Ji Xuanyi " .

Ji Xuanyi was stunned for a moment, then showed an expression of trying not to laugh, and said: are you trying to prove ,No way " that you are indeed his friend? "

Xiao Xiaoyu swallowed his saliva. He was an ordinary player, and because he had wasted a lot of time managing the guild, he could be considered a rookie now. Although he knew after calming down that the person in front of him was not a ghost or something like that, he was most likely the one pretending to be Ji Xuanyi, which meant he was a master.

Thinking of this, Xiao Xiao Yuxia couldn't help but want to complain. How did Ji Xuanyi offend this person? How much hatred does he have? Did he deliberately have plastic surgery to impersonate Ji Xuanyi? ! This is too much!

But no matter what, it is certain that Xiaoxiao Yuxia cannot beat this man, and the reason why he stopped is indeed the same as what the other party said.

That's right, he really didn't recognize him at first. If Ji Xuanyi wasn't online, he might have to chat with Ji Xuanyi privately before he could react. But he absolutely wouldn't allow others to say that he was not Ji Xuanyi's friend! Is this how you identify friends?! This routine is only suitable for testing Qi Qin, okay!

It was not easy for Ji Xuanyi to meet this group of people. How could he be easily rejected by such people and be grouped into the group of Zuo An and Zhao Chen? Xiao Xiao Yuxia would never tolerate such a thing!

Even if he is a wimp, even if he is going to die, in order to defend his dignity and to prove his friendship with Ji Xuanyi, he must stand firm today!

Xiao Xiao Yuxia stared at the man intently and said, " It is not up to you to decide whether Ji Xuanyi and I are friends. If you want to kill me, then go ahead ! Ji Xuanyi will help me get revenge! "

“ Ji Xuanyi ” : “...”

According to the script he had rehearsed in his mind, " Ji Xuanyi " should now be very arrogant and say to Xiao Xiao Yuxia, "Do you think Ji Xuanyi can still help you get revenge now?! He is just a powerless sorcerer now, even if he comes, he can only die with you! Are you desperate?! Hahaha —— something like that."

But that's the problem.

Ji Xuanyi opened his mouth and found sadly that he didn't dare to say that ...

His legs will definitely be broken!

Chapter 187

Xiao Xiao Yuxia didn't expect that she accidentally brought up Ji Xuanyi's words and actually choked the other party . The fake Ji Xuanyi's face turned blue and red, and then red and white. After holding it in for a long time , he sneered and said, " Okay, then you just wait for him to avenge you! "

After saying that , he took out a dagger from his backpack and rushed to Xiaoxiao Yuxia in an instant!

Xiao Xiao Yuxia had never had such a serious fight with a master in her life . She was so scared that her heart almost jumped out of her throat. Her hands holding the sword were shaking. She didn't even remember the moves of a swordsman fighting an assassin. She could only swing the sword randomly.

Regardless of how much damage was done , the posture of the turtle punch looked quite powerful.

However, it is unlikely that a master can be killed with random punches in a game . " Ji Xuanyi " smiled contemptuously and teleported behind Xiao Xiaoyuxia . Xiao Xiaoyuxia was anxious and didn't care about anything else . He used a heavy slash and jumped far away . " Ji Xuanyi " was very agile , and he followed Xiao Xiaoyuxia before she could turn around, and started slashing with his knife without saying a word.

Xiaoxiao Yuxia had only seen others being beaten by people like Qi Qinxue Piao Renjian or Mi Yin, without any ability to fight back . He felt quite happy at that time, but when it was his turn to be beaten, he felt cold in his heart and watched his health bar drop. How could he not feel hopeless!

Just when Xiao Xiao really thought that he was going to die here today, a delicate shout suddenly came from behind him.

" Let Xiaoxiao go! "

Xiaoxiao Yuxia reacted immediately, rolled on the ground and hid to the side of the road. The next second, a black horse came galloping at lightning speed and ran over the place where Xiaoxiao Yuxia was just now!

Xiao Xiao Yuxia dodged in advance, and the black horse did not hurt him, but raised its hoof high towards the fake Ji Xuanyi who had been circling behind Xiao Xiao Yuxia!

The person who came was none other than Feng Chui, who was sent to the city gate by Xiao Xiao Yu Xia before! She did not leave, but sent a message to the guard player at the city gate and then turned back halfway, just in time to save Xiao Xiao Yu Xia's life!

" Ji Xuanyi " probably didn't expect that a Cheng Yaojin would suddenly appear halfway. He was stunned for a moment, frowned, and directly entered the strong hiding state.

Feng Chui heaved a sigh of relief, thinking that he had run away when he saw that the situation was bad. He turned his horse's head and headed towards Xiao Xiao Yu Xia. Just as he showed a little smile on his face, he heard Xiao Xiao Yu Xia exclaim: " Be careful! "

In the game "Domain", although strength is the determining factor in most player battles, there are occasionally cases of professional restraint. The most obvious one, in addition to the restraint of assassins on magic professions, is probably the restraint of knights on assassin professions.

Generally speaking, Fengchui's judgment is actually not wrong. When an assassin fails to kill with a burst attack and his skill cycle falls into a weak period, and the target is not dead yet, and there is also an extra troublemaker knight, the assassin at this time, if he has any brains, will run away first, because there is no chance of winning, and saving his life is still the most important thing.

But Feng Chui didn't expect that the assassin would play by his own rules. Even after using his last life-saving trick of hiding, he still didn't leave, but turned around and continued his sneak attack!

If this person was not a master, Feng Chui would definitely think he was crazy.

However, when Feng Chui rescued Xiao Xiao Yu Xia, he could tell from the other party's agile movements that this was not an ordinary player, so when Xiao Xiao Yu Xia reminded him, Feng Chui immediately became fully alert and fired a shot behind him!

But let alone a hundred thousand points of spirit, even if it was a million points of spirit, Feng Chui never thought that the assassin behind her actually had a face similar to Ji Xuanyi's! She was stunned for a moment, and then kicked off the horse by the fake Ji Xuanyi!

After Feng Chui rolled off his horse, that " Ji Xuanyi " pounced on him again and continued to attack him. This time Feng Chui reacted quickly and dodged immediately, and the two of them started fighting.

Feng Chui is a girl, especially a very beautiful one. Although she often fights in the game, no one, even the players in the Sun City, would be so merciless as to kick her off her horse!

It's not that girls can't be treated like this, it's mainly because the rolling posture is too ugly and extremely embarrassing. It would be okay at other times, but it happened in front of Xiao Xiao Yu Xia. The girl was heartbroken and completely enraged, and for a moment she burst out with unprecedented strength.

For a knight, fighting against an assassin who was stronger than himself without a horse, he should have no chance of winning. However, he was forced to draw due to the wind!

However, this kind of explosive fighting power could not be maintained for a long time. After a while, Feng Chui was left with only a little blood. She pretended to want to get on the horse, but when " Ji Xuanyi " gave up the attack and wanted to come up to interfere with her, she rushed straight towards Xiao Xiaoyu.

Xiaoxiao Yuxia was afraid of causing more trouble, so she didn't go up to help. When she saw Fengchui suddenly running to her side, she thought he wanted her to help. Just as she was about to grab her weapon, she heard Fengchui anxiously say, " I can still hold on for a while. Did you call for help? "

Xiao Xiaoyu was startled, then immediately frowned and said, " No—— "

It had been raining for more than six days, so of course there was no such thing as standing aside and watching his teammates being beaten and forgetting to call for help. He didn't call for help just because of one thing.

The " Ji Xuanyi " in front of him has a face exactly like the real Ji Xuanyi. If he calls someone over, Ji Xuanyi will have no way to explain himself!

In fact, even if the drizzling rain did not alarm anyone, the sudden fight in the inner city attracted curious glances from passers-by.

It can only be said that fortunately Ji Xuanyi is not as famous as Xiao Xiao Yuxia and the others. Although the players of Fanxing City feel that the assassin who fought with Xiao Xiao Yuxia looks a little familiar, they can't quite remember who he is or what his name is. Occasionally, there are people who have a deeper impression of Ji Xuanyi, but they don't know Ji Xuanyi's profession and don't doubt this assassin " Ji Xuanyi " .

But even so, there were still quite a few players who stopped to watch. Although they didn't know what the grudge between Xiao Xiao Yuxia and the assassin was that would lead to a fight in the street, Xiao Xiao Yuxia was one of the leading figures in Fanxing City after all. If Xiao Xiao Yuxia needed help, they would just need to shout and everyone would come forward to help.

But this enthusiasm made Xiaoxiao Yuxia feel a little headache.

After Fengchui spoke to Xiaoxiao in the rain, he realized what was going on. The person in front of them was definitely not Ji Xuanyi, but they looked exactly the same. They knew that he was not Ji Xuanyi, but others did not know. Once they called for help, the situation would most likely go in a direction that they could not control at all.

Feng Chui was shocked and turned around to meet the fake Ji Xuanyi again.

The opponent's offensive was getting faster and faster, and Feng Chui was totally unable to resist it. The enthusiasm she had before had faded away, and she was almost pinned to the ground. It didn't matter if she lost a level, because she had plenty of time anyway, so she could just practice back. But it was different for Xiaoxiao Yuxia. He lost a level, and the time he needed to practice back would be at least two or three times that of others!

Feng Chui frowned suddenly. She couldn't think too much about the current situation. No matter how important Ji Xuan was, in Feng Chui's eyes, he was not as important as Xiao Xiao Yu Xia! When the wind blew away only the last trace of blood, she looked at Xiaoxiao Yuxia who couldn't bear it anymore and had to rush over to make trouble, and whispered: "Xiaoxiao, I'm sorry!"

Xiao Xiaoyu was stunned. Before she understood what she meant, she heard Feng Chui shouting loudly, "Mu Xuanyi is here!"

Xiaoxiao Yuxia and the onlookers were all shocked. Before they could react, the players who had rushed to Fanxing City to see the real Mu Xuanyi immediately crowded towards the place where the voice came from. There were so many people that they dispersed the surrounding onlookers!

"Fuck!"

As soon as Xiao Xiaoyuxia shouted this, she was immediately drowned out by the crowd.

Everyone was asking: "Mu Xuanyi? Where is Mu Xuanyi?!"

"Where is Mu Xuan?"

"Make way! Make way! I'm a die-hard fan of Mu Xuanyi! Mu Xuanyi, please sign my name! Please take a screenshot as a souvenir!"

"That's not right. Is there only one here? Is it the real Mu Xuanyi or the fake one? Have you figured it out?"

"No matter whether it's true or not, just squeeze in first!"

Maybe he was angry and humiliated because his identity was exposed, but the fake Ji Xuanyi clicked his tongue impatiently. The dagger that he originally intended to blow past Feng Chui's back stabbed directly into Feng Chui's back, sending the poor girl right back to the resurrection point.

Xiaoxiao was already dazed by the crowd in the rain and didn't see anything. He only received a secret message from Fengchui, telling him to run quickly.

Xiao Xiaoyu gritted his teeth. Although Feng Chui meant well, he really couldn't run away in this situation. Not to mention helping Ji Xuanyi conceal his identity, he had to at least stabilize the chaotic situation!

But thinking is one thing and doing is another. The onlookers were so enthusiastic that even though Xiao Xiao Yuxia was a heavily armored swordsman, he was squeezed so hard that he

felt dizzy and was pushed out of the crowd. Even when he shouted on the map, no one listened. Instead, there were people who were watching the fun and had the mentality of sharing good things. They directly announced their coordinates on the map and in the world, indicating that Mu Xuanyi had appeared in Fanxing City, but it was not known whether this Mu Xuanyi was real or fake.

As soon as one person posted it, more people would immediately copy it. For a while, the news about Mu Xuanyi's appearance was flooding everyone's chat box.

Xiao Xiao Yuxia stared at her chat bar in amazement, feeling terrible.

This matter is a bit too much! The original script was not written like this!

Xiao Xiao Yuxia can only hope that the guy pretending to be Ji Xuanyi can understand better and hide himself! After all, didn't he hide himself well every time he killed someone before? He was not caught with a single screenshot, so he probably didn't want to be exposed, right?

Xiaoxiao Yuxia had a very beautiful thought. In fact, the fake Ji Xuanyi really didn't want to reveal his face. But he had used invisibility again when he was fighting with Fengchui just now, and the CD had not yet arrived. Now he couldn't hide even if he wanted to, and he couldn't cover his face. The crowd surrounded him, and he couldn't leave. He was trapped by the crowd!

" What should we do in this situation ..." " Ji Xuanyi " murmured.

If you can't hide, why not just not hide?

" Ji Xuanyi " smacked his lips, feeling that it was about time, and simply spread his hands, smiled at the players who surrounded him, and said: " Wow, I've been caught, yes, I am Mu Xuanyi! "

The players around him didn't expect him to admit it so readily. They all exclaimed in surprise. Some of them wanted to come up immediately, and some clever ones wanted to take screenshots directly.

But before they could actually take the screenshot, " Ji Xuanyi " said with a smile: " Don't take the screenshot, I will hunt you down until you quit, okay? "

Those who had heard of Ji Xuanyi's bad reputation immediately put their hands down, but some people didn't take it seriously at all. He just took a screenshot, what's the big deal? Even if it was a big deal, how could you find him?

" Ji Xuanyi " certainly knew that there were such guys, but he didn't care too much. He had ways to deal with these people.

" I heard there are some of my fans here? Come on, let's go to a spacious place, sign autographs and shake hands, hahahahahahaha ... "

" Wait a minute, we don't know yet whether this person is the real Mu Xuanyi or the fake Mu Xuanyi! Where is the other Mu Xuanyi? Why hasn't he come yet? " someone suddenly shouted in the crowd.

After hearing this, the crowd that was so noisy just now suddenly became quiet. Everyone looked at each other, not knowing what to do.

But " Ji Xuanyi " just smiled and said, " Believe it or not, come or not. "

After saying that, this person actually led the crowd directly to the square. No one dared to say whether this person was real or fake. Even those who had doubts in their hearts had to follow him in order not to fall behind.

What the fuck is going on!

Xiao Xiao Yu Xia, who was being pushed by the crowd to the square, thought in disbelief, this fake guy still thinks he is the master of Star City? ! Who are you? Did you ask Xiao Xiao Yu Xia before holding a fan meeting in Star City? ! Did you ask the real owner Ji Xuan Yi? !

Seeing that the truth could no longer be hidden, Xiaoxiao Yuxia gritted his teeth and started mobilizing manpower.

No matter what happens next, it is better to call people first than to be at a loss when the time comes!

After arriving at the inner square of Fanxing City, the impostor really pretended to hold a fan meeting, and the players who came for Ji Xuanyi also crowded into the inner city.

Xiao Xiao Yuxia didn't dare to show his head out. Who knew if this lunatic would suddenly turn his attention to himself again? Now everyone thought that he was the real Mu Xuanyi.

Moreover, because Xiao Xiao Yuxia had specially screened and did not let any of Ji Xuanyi's enemies into the city, most of the people present were actually Ji Xuanyi's fans. If that fake made a cry, Xiao Xiao Yuxia might even be buried!

It makes me so frustrated just thinking about it, Ji Xuanyi, why the hell aren't you online yet? Just when Xiaoxiao Yu was secretly mobilizing people to surround the inner city square, they learned that Mu Xuanyi had appeared. Yiduoxiaohua and his group followed the coordinates refreshed in the chat channel and rushed to the inner city square of Fanxing City.

There were simply too many people on the street, not to mention Ji Xuanyi's fans, there were also many passers-by who had no idea what was going on. Seeing that everyone was going in the same direction, they all wanted to join in the fun and crowded over there. The girls from the Mu Fans Club gathered together and took a lot of effort to get into the Inner City Square, where they could see a sea of black backs of heads from afar.

Girls who chase stars have seen everything, and the girls in the Mu Fan Club will never admit defeat!

The girls pushed and shoved each other and squeezed their way into the crowd. After half an hour, they finally managed to squeeze to the front row and could vaguely see the figure in the center of the square.

" Why does this figure look familiar? " Red Wine hissed and could n't help but say.

A small flower nodded hesitantly and said, " It does look familiar! "

Xiaoxiao thought for a long time and said, " I have seen him before, not long ago. Could it be that he has appeared in Youyue City before? "

" It's hard to say, " said a little flower, " It's hard to tell whether this person is real or fake! "

In order to see the front of the figure clearly, the girls put in all their strength and started moving towards the front.

But the crowd was so crowded that it was difficult to squeeze in from the back, let alone to the front. No one was willing to give up their seat!

Just when Yiduo Xiaohua and the others were trying desperately to see the front side, Xiaoxiao Yuxia finally gathered all the people. At the same time, the protagonist of the incident, the real Ji Xuanyi, finally came online!

When Xiaoxiao Yuxia saw the friend online reminder, she almost cried on the spot.

Ji Xuanyi! You are finally here! Please solve this matter quickly!

Because Qi Qin didn't want to go online too early today, Ji Xuanyi simply stayed at home with him for the whole morning, and only went online around noon. As a result, as soon as he came online, his screen was flooded with messages like "It's raining".

Because what happened today was so bizarre, so terrifying, and so beyond expectations, the most reliable Xiao Xiao Yuxia spoke incoherently and couldn't grasp the main point at all. Ji Xuan was stunned and it took him a long time to understand.

If it was just a guess before, Xiao Xiaoyuxia's words completely confirmed Ji Xuanyi's idea. The person who impersonated him was none other than the person he expected.

Ji Xuanyi looked at the chat channel and was absent-minded for a moment.

Seeing that Ji Xuanyi had already learned about the situation and didn't seem to be too worried about being impersonated, Xiao Xiaoyu asked cautiously, " Well, Ji Xuanyi, that guy really looks exactly like you, almost like you were carved from the same mold. It shouldn't be plastic surgery, right? Otherwise, this person's obsession is too great. I even suspect that you killed his entire family! "

The corner of Ji Xuanyi's mouth twitched, and he lowered his head and replied: " It's not plastic surgery. "

After thinking for a while, Ji Xuan said: " You should still remember the twin brothers in the PVE group, Ritian and Yutian, right? "

Xiao Xiao Yuxia took a breath and said, " No way?! "

Ji Xuanyi said calmly: " That's it, it's just so ridiculous. Yes, he is my younger brother, Ji Xuanling. "

This is also the reason why Ji Xuanyi always disapproves of the two brothers Ritian and Yuetian. Others look at them as something special, but he treats them like ordinary people, because he himself is a twin, and he really doesn't like it when others look at him and Ji Xuanling as if they were animals in a zoo, so he won't look at Ritian and Yuetian that way either. When he first met Qi Qin and found that the other party had a completely different personality from the Qi Qin in his memory, he thought that the other party might be a twin, and did not think of using a dead body to reincarnate because he had a similar experience.

There was also the puppet on the ship when they went out to sea. Because of his preconceived impression, he unconsciously thought of them as twins, which led to a misunderstanding. Otherwise, when he saw two people who looked exactly the same, Ji Xuanyi should have guessed that they were puppets or some kind of alchemical props.

Ji Xuanyi said: " Did that guy scare you? "

Xiao Xiao Yuxia was silent for a moment, but did not answer the question. Instead, she asked: " Why, why do you call me Ji Xuanling? "

Ji Xuanyi: "..."

By the way, many people have asked this question before!

Ji Xuanyi had explained this many times before, but this seemed to be the first time since he separated from Ji Xuanling? So he had some patience and explained: " At first he was called Ji Xuaner, but later he was not happy with it, so he changed it. "

Xiao Xiao Yu Xia was confused and said, " Is zero to two better? It sounds too weird. I feel like I have something to discuss with Jian Xi Xin Jiu! "

Ji Xuanyi: "... So it's Ji Xuanling, not Ji Xuanling! "

Xiaoxiao was still sighing in the rain, and Ji Xuanyi could not bear it any longer, so he said, " Don't worry about such unimportant things. The important thing is where he is now, I have to go find him! "

Xiao Xiao Yuxia immediately imagined a scene of a quarrel between brothers, and said quickly: " No, no, Ji Xuanyi, your brother seems to be quite good at fighting, and you are a warlock now. If you can't beat him, you will just die if you come here. I have already arranged my people, give me some ideas, and I will help you take him down! "

Ji Xuanyi said speechlessly: " Thank you, but no need, there will be no fight. Where is it? "

Xiao Xiao Yu Xia saw that his tone didn't seem serious, and knew that she couldn't stop him, so she could only say obediently: " It's in the inner city square. I'll ask Feng Chui to pick you up. Just stay where you are. "

Fengchui girl has a horse, so she can walk much faster than Ji Xuanyi himself.

Ji Xuanyi didn't say much. He responded and formed the Fengchui team. After a while, he saw Fengchui coming to him.

The resurrection point where Fengchui died was not far from where Ji Xuan logged off , and he could get there in two steps.

Having just finished fighting with Ji Xuanling, Feng Chui still felt something was wrong when he saw Ji Xuanyi for the first time. He looked Ji Xuanyi up and down from a distance for a long time, looked at the name in the team list, and then looked at the parchment. After confirming that the man in front of him was indeed Ji Xuanyi, he mounted his horse and walked over.

As soon as Ji Xuan saw Feng Chui's expression, he knew what was going on. He grabbed Feng Chui's hand and climbed onto the horse, saying, " Did he kill you? "

Feng Chui had a strange expression on his face, and after a long while he said, " Nothing, it's me ... I'm sorry. "

Ji Xuanyi raised his eyebrows and said, " What's wrong? "

Fengchui whispered, " I have revealed your identity. "

Although Feng Chui's IQ was a bit low when facing Xiao Xiao Yu Xia, she was actually not stupid. When Xiao Xiao Yu Xia asked them to help spread the news, Feng Chui almost understood that the real Mu Xuanyi should be inside Fanxing City, most likely a high-level person. Coupled with the word " return " in the news and the timing of spreading the news, Feng Chui almost immediately reacted that Ji Xuanyi was Mu Xuanyi.

This was also the reason why, after seeing Ji Xuanling, who had the same face as Ji Xuanyi, she was stunned for a moment and then attacked him without hesitation.

An assassin with this face, and he is not Ji Xuanyi, then he can only be the person pretending to be Ji Xuanyi.

Although for Feng Chui, there is indeed no one more important than Xiao Xiao Yu Xia in this game, but Ji Xuanyi is also an acquaintance. It is indeed not very kind for her to do this, and she must apologize. If Ji Xuanyi wants to blame her, he can beat her or scold her.

Ji Xuanyi understood what she meant, said " Oh " , and said nothing more.

Feng Chui couldn't help but turn his head to look at him and said, ' What does" oh ' mean? " Ji Xuanyi said calmly, "" Oh ' means ' oh ' . Mu Xuanyi's identity will be exposed sooner or later . Even if Ji Xuanling doesn't show up, I will eventually meet someone who can recognize me. "

" I did what happened before, and I made the enemy. I can't hide from it. Things that need to be solved must be solved, " Ji Xuanyi smiled gently and said, " You have to take responsibility for what you did, no matter if it's right or wrong. What's more, I have friends behind me now, so I'm not afraid of anything. It doesn't matter if it's grudges or hatreds. Let these things go together. "

The wind was stunned for a moment.

Escaping is a very simple thing. Although Mu Xuanyi caused a big stir at the beginning, in the game world, everything changes very quickly. As long as Ji Xuanyi continues to play the game quietly, in two or three years, no one will remember him. No one will remember the hatred in the game for that long.

But it is difficult to solve everything, not to mention that many innocent passers-by were harmed by what Ji Xuanyi did. Whether he is prepared to continue his mistake or to apologize sincerely, it is not an easy thing.

But this person told her so calmly that he didn't care whether the horse fell or not, because he would still have to deal with these things in the end.

This is actually a natural thing, but because most people would not make this choice, Feng Chui couldn't help but feel some affection and admiration for it.

Feng Chui couldn't help but say, " If I hadn't met Xiao Xiao first, maybe I would have liked you. " Ji Xuanyi: "..."

Ji Xuanyi silently moved a little further away from the wind and said, " You should continue to like Xiao Xiao Yu Xia. I already have a boyfriend who is better at fighting than you. You have no chance. "

The wind blows: "... Okay! "

Just as Ji Xuanyi and Feng Chui were rushing towards the inner city square, a group of people including Yiduoxiaohua who had been struggling in the crowded crowd finally moved to the front. As a swordsman, Red Wine was the first to squeeze in, but there were too many people around, so Red Wine had to follow the example of other swordsmen and stick his weapon into the ground, then stand firmly holding his weapon . After making sure that the other girls behind him had also come over with their arms around her shoulders, Red Wine breathed a sigh of relief, raised his head, and looked towards the center of the square.

It would be fine if he didn't look, but once he looked, Red Wine was stunned, with his mouth open stupidly, staring blankly at the person in the middle of the square.

A little flower was a frail priest. She was pushed hard by another swordsman girl behind her and barely squeezed to the front. When she saw the stunned Red Wine, she asked curiously, " What's wrong? "

Red Wine turned his head around stupidly, staring at a small flower for a long time before revealing an expression that looked like he was about to cry. He pointed to the center of the square and said, " He, he ..."

A little flower quickly looked towards the man and was also stunned on the spot, saying in shock: " How could it be – how could it be him?! "

Xiaoxiao also squeezed to the front, wondering why Hongjiu and a small flower were stunned. She turned her head and said in surprise: " What the hell?! He is Mu Xuanyi?! He is not the Ji who went to Youyue City to help us last time – Uh! "

A little flower reacted quickly and covered Xiaoxiao's mouth. She looked around cautiously and said, " Shh! Things are still uncertain. Don't reveal his name. "

Xiaoxiao understood and nodded quickly.

A little flower finally let her go. Just as she was about to talk to Red Wine, she saw the dazed Red Wine suddenly turn around and hug her. He cried out , " Why is it him! Why is it him! I was mean to him, I choked him, I even disliked him – ah ah ah! He must hate me, he hates me so much. He treated me like that last time. What should I do, Xiaohua? What should I do! "

A little flower was also confused. When Hongjiu asked her what to do, she herself didn't know what to do! How did her friend suddenly become an idol? ! When she first met Ji Xuanyi, she told him about Mu Xuanyi's deeds and wanted to get him to join her –

A little flower's face suddenly turned red. How embarrassing! Ahhhhhh!!!

The two girls hugged each other, one was crying loudly, and the other was screaming silently, both of them were like crazy.

Xiaoxiao had not been in contact with Ji Xuanyi for a long time, and there was no situation like the one between a small flower and red wine. After discovering that Ji Xuanyi might be the person around her, she immediately became excited!

She had close contact with her idol! ! The idol even helped her! ! !

Xiaoxiao was certainly not as shy as the other two who were speechless. She immediately stretched out her hands, danced and waved them, and shouted to " Ji Xuanyi " who was not far away : " Mu Xuanyi! Mu Xuanyi! We are here! "

A Little Flower and Red Wine immediately wanted to stop her, but Xiaoxiao had already shouted, and " Ji Xuanyi " had also heard it. The two girls could only blush and look back at each other.

" Ji Xuanyi " in the middle of the square heard someone calling him, and it was a girl's voice. He immediately turned around to be polite, glanced at Xiaoxiao and the other two, and threw them a coquettish look before turning back.

Xiaoxiao and Yiduoxiaohua were both stunned, and they didn't react until " Ji Xuanyi " turned his head away.

 " What 's going on? " Xiaoxiao blinked and looked at a small flower in a strange way: " Why do I feel that he is weird? And he doesn't recognize us? "

Hongjiu's expression was also very strange. She said, " Although I didn't have a good relationship with him before, I remember that he shouldn't be such a stingy person. Why didn't he even say hello to us? "

A small flower also said: " This is so strange, it doesn't feel like Ji Xuanyi at all, it's like another person wearing his skin ..."

The three of them looked at each other, all of them looking at a loss.

In the end, Xiaoxiao was the first to react and opened the notification bar. If a friend came online, the reminder time would be recorded here.

Xiaoxiao was stunned after reading it. She looked at the other two with an indescribable expression and said, " Ji Xuanyi came online ten minutes ago! "

The news that Mu Xuanyi appeared in Fanxing City was released more than an hour ago! The three girls were frightened as if they had fallen into an ice cellar. It was as if they had seen a ghost in broad daylight!

Hongjiu said in panic: " What's going on? They are not the same person? Then, is this person here the real Mu Xuanyi, or is the one we added as a friend the real Mu Xuanyi?! "

A little flower immediately said: " The one in our friend list is the real one! This person just appeared out of nowhere! "

Xiaoxiao also nodded and said, " The rumor that Mu Xuanyi was in the second server appeared a long time ago. If Ji Xuanyi wanted to deceive people, he would have deceived us long ago. This guy just appeared at this time, it doesn't seem real at all. Ji Xuanyi is Mu Xuanyi, but he played a warlock, and this Mu Xuanyi is someone else pretending to be Ji Xuanyi! Otherwise, how could he look exactly like Ji Xuanyi?! "

Xiaoxiao's words were too convoluted, and Red Wine and a Little Flower were confused. But there was no doubt that Ji Xuanyi was Mu Xuanyi, and the Mu Xuanyi in front of them was a fake!

" We must expose him! We can't let him tarnish Mu Xuanyi's name anymore! " Xiaoxiao said seriously.

Chapter 188

It was certain that they would expose the fake in front of them , but before that, did Ji Xuanyi know about this? Should they contact each other first?

The three girls looked at each other and began to give way to each other.

" Come on, come on! " A small flower was pushed to the red wine.

Hongjiu immediately said with caution: " No! Ji Xuanyi must be fed up with me. What if I send him a private message and he doesn't reply? I ... I am not going to live anymore ... "

A little flower was helpless . Although her relationship with Ji Xuanyi was better than that with red wine, she didn't know how to talk to the other person who suddenly changed his identity! A little flower had no choice but to look at Xiaoxiao . Xiaoxiao was probably the only one here who was not so at a loss about Ji Xuanyi's sudden additional identity.

Xiaoxiao looked at the other two people's gazes and had to nod. However, she was also very nervous and prepared herself mentally for a long time before she talked to Ji Xuanyi in private and told him everything that happened in the inner city square.

Xiaoxiao swallowed nervously and said, " Um , you ... do you know about this? "

Ji Xuanyi: "... You don't need to say ' you ' . Just speak normally . I am indeed Mu Xuanyi . The one in the square is not me either . Don't worry about it. I'll be there soon. "

Ji Xuanling's personality is almost completely opposite to Ji Xuanyi's . Although Ji Xuanyi has a bad temper, he is often soft-hearted towards girls. Ji Xuanling seems to be smiling all day long, but he will not be soft-hearted towards people who provoke him. You can see this from how he treated Feng Chui before.

The fighting power of Yiduoxiaohua and others is not as good as the wind. If they make Ji Xuanling angry, something might happen.

Xiaoxiao quickly relayed Ji Xuanyi's words to the other two. A little flower showed some hesitation, and before she could say anything, Hongjiu said, " Master Mu Xuanyi must be worried that something bad will happen to us! "

Red Wine was touched and said: " He is so considerate! "

A little flower: "..."

You change so quickly, my friend! If it was just Ji Xuanyi who said this, Hongjiu would definitely think that the other party was fussy, but now he has become considerate!

A little flower couldn't help but sigh.

The human heart is hard to predict!

The three girls were originally filled with righteous indignation, but since the real owner had said not to interfere, they could not intervene. They could only stare at the other party with wide eyes, and try to inform the real Ji Xuanyi of the information as soon as the fake Ji Xuanyi in front of them showed any unusual movements.

Originally, it was fine. Although Ji Xuanling pretended to be Mu Xuanyi, he was just pretending to communicate with Ji Xuanyi's fans, shaking hands, chatting, and bragging. But after a long time, Ji Xuanling went too far.

The questions asked by Ji Xuanyi's male fans are basically about whether you killed someone , how you killed him , or what assassins need to pay attention to when fighting other professions, and what routines are there.

Ji Xuanling admitted everything about the former, regardless of whether he knew him or not.

Yes, it was me, Mu Xuanyi who did it. However, the latter was vague and unclear in his words. When the fans wanted to ask more questions, they were squeezed away by others and it was too late.

With Ji Xuanyi's instructions in front, Hongjiu and others had no way to step forward. They could only watch Ji Xuanling taking the blame for Ji Xuanyi and having a lot of fun.

Actually, forget it. Ji Xuanyi doesn't mind taking this little blame anyway. The most unbearable thing for the three girls is still to come!

A swordswoman girl pushed aside the others and excitedly squeezed to the front row. She looked at Ji Xuanling with a red face and almost trembling as she asked, " Mu, Mu Xuanyi, I want to ask you, do you have a partner? If not, what kind of girls do you like?! "

As soon as this question was asked, there was a burst of exclamations from the crowd, and most of them were girls' voices.

Everyone has a desire to admire the strong, not to mention that the other person is her idol.

How many girls among the onlookers dare to say that they don't like Mu Xuanyi at all?

Everyone pricked up their ears, opened their eyes wide, and stared at the person in the middle of the square.

Xiaoxiao Yuxia was mixed in the crowd, and couldn't help thinking, fortunately Qi Qin didn't come back, otherwise who knows what would happen ...

Even though Yiduo Xiaohua and the other two knew that the person on the field was not the real Mu Xuanyi, they subconsciously leaned forward, wanting to hear clearly what the other party was saying.

Ji Xuanling touched his chin, thought about this question for a while, and said sincerely: " Sorry, I don't like girls. "

Everyone was in an uproar, even Xiaoxiao Yuxia was stunned for a moment.

What's going on? Did Ji Xuanyi's brother also know about Ji Xuanyi and Qi Qin's affair? It looked like he was planning to help them make it public?!

Facts have proved that Xiaoxiao Yuxia was thinking too much. Ji Xuanling certainly had no feelings for Qi Qin, let alone making them public. He did not try to break up the couple because he was afraid that Ji Xuanyi would break up with him directly. Of course, the answer at the moment had nothing to do with Qi Qin.

Ji Xuanling showed a dreamy smile and said, " The person I like is my lovely younger brother. He is sensible, well-behaved, and lovable. Whenever I see him, I can't help but hold him in my arms, touch his head, and give him a kiss ..." "

Everyone: "..."

Everyone was petrified, and Xiao Xiao Yuxia almost vomited blood!

Ji Xuanyi, your brother's acting is a bit too fucking much!

Xiaoxiao Yuxia certainly wouldn't believe what Ji Xuanling said. How could he be talking about that grumpy old man Ji Xuanyi? He gave you a kiss and didn't slap you two! And the so-called well-behaved and sensible you mentioned wasn't you! If you were really well-behaved and sensible, you wouldn't be here!

Ji Xuanling is either suffering from a paranoid illness or a mental illness!

However, only a few people knew the truth of the matter. Most people were shocked. The news that Mu Xuanyi was actually an orthopedic expert kept echoing in everyone's minds .

" Don't believe him, he's a liar! He's not the real Mu Xuanyi! " Hongjiu couldn't stand it anymore, even if Ji Xuanyi had told her not to care in advance, she couldn't stand it anymore! She screamed.

A little flower reacted immediately and wanted to cover her mouth, but it was too late. Not only Ji Xuanling, but even the onlookers around them were looking in their direction.

But thanks to Hongjiu's voice, everyone finally realized that the man in the middle of the square might just be Mu Xuanyi! There are two real and fake Mu Xuanyi in Fanxing City, and the other one has not come out yet!

Everyone's enthusiasm immediately faded and they all looked at Ji Xuanling with suspicion.

Ji Xuanling didn't get angry but laughed instead and walked towards the red wine.

Regardless of whether he was the real Mu Xuanyi, his strength was there and no one dared to provoke him. Wherever he approached, the players immediately dispersed, leaving only Hongjiu and the other two.

Red Wine then realized belatedly that he was panicking and quietly clenched the hand of a small flower.

A little flower swallowed her saliva, pulled the red wine behind her, and mustered up the courage to look at the man who had the same face as Ji Xuanyi.

Ji Xuanling raised his eyebrows and said, " I am fake? Why do you dare to say that I am fake? " A little flower took a deep breath and said, " Because we know the real one. "

Ji Xuanling's eyes moved slightly, but his face darkened. He said, " Is it his friend again? Why does he have so many friends? You guys are so annoying. Can't you just leave him alone? "

Ji Xuanling muttered in a low voice: " It's obvious that we two only need each other, and it's enough to have me, right? Why do you still have to focus on others? "

A little flower gasped and immediately imagined the plot.

It turns out that Ji Xuanyi and the man in front of him are twin brothers. The elder brother is a normal person who is domineering, cool and arrogant, while the younger brother is a gloomy and paranoid brother-con. He just wants his brother to have eyes for only him, so he doesn't hesitate to pretend to be his brother and kill everyone who catches his attention – Oh my god!!! It's actually kind of cute?!

A little flower was in a trance, Xiaoxiao pushed the two people away and shouted: " Be careful! " A little flower then realized that Ji Xuanling had already taken out his weapon and was looking at them expressionlessly.

Although the plot of the orthopedic forbidden section is very cute, it is really hard to accept that the person who was killed turned out to be me! Please give up this setting! In this harmonious world, orthopedics will have no future!

A little flower subconsciously shouted out all the words she was thinking. Seeing that Ji Xuanling's face had turned black with anger, she finally came to her senses and hurriedly ran to Xiaoxiao's side!

Seeing this, Hongjiu quickly stood in front of Xiaohua and Xiaoxiao. Although she was also very new, she was a swordsman after all, which meant she had an advantage over magic professions against assassins. With the support of Xiaohua and Xiaoxiao, she could at least stand and take the beating. If she let the opponent attack Xiaohua and Xiaoxiao directly, all three of them would be dead!

Ji Xuanling was hit hard by the words " orthopedics has no future ". Seeing that the three were ready for a fight, he simply sneered and rushed towards them, causing a burst of exclamations. But the exclamation was an exclamation, and no one dared to help. After all, no matter whether this person was really Mu Xuanyi or not, being targeted would definitely not end well! Although the girl was pitiful, her own gaming experience was more important after all!

Xiaoxiao Yuxia was not familiar with Yiduo Xiaohua and the others. Although there were people from the three major gangs deployed around them, they did not dare to act rashly and alert the enemy. The other members of the Wood Support Club brought by Yiduo Xiaohua and the others were weak and of low level. If they rushed up, they would only cause trouble or seek death.

Yiduo Xiaohua immediately ordered them to stay on the spot and could only anxiously watch Hongjiu on the field being beaten unilaterally.

It's not that no one said that Mu Xuanyi was too ruthless to the girls, but someone immediately said: " Don't dream, that's Mu Xuanyi, who can't he be so ruthless to! "

It has to be said that Ji Xuanyi's image is actually like this in most people's eyes. He punched the Nanshan Nursing Home and kicked the Beihai Kindergarten. No matter whether it was a man or a woman, no matter whether they were good or not, anyone who was caught would be beaten.

If Ji Xuanyi knew that this was how he was viewed by others, he would vomit blood on the spot ...

Just when the three people from Hongjiu were being beaten and the others were worried, and Xiaoxiao Yuxia was unsure whether to call for help, Ji Xuanyi and Fengchui finally arrived at the inner city square.

This time, Ji Xuan didn't let Feng Chui help him when he got off the horse, for fear that the other party would say: " Okay, I like you now! "

He was very careful to stay away from the wind, and slid off the horse's back. He was choked by the shock when he landed .

Wind Blows: "..."

Fengchu rolled his eyes, lowered his head and chatted privately with Xiaoxiao Yu, indicating that he had successfully completed the task he had assigned to him.

Ji Xuanyi looked up at the crowd surrounding the square and exclaimed, " So many people? " Feng Chui couldn't help but laugh and said, " Don't you know how much attention you are getting? "

Ji Xuan glanced at her and said calmly, " I knew it before. I would go online every day and see how many people cursed me in private chats. "

In "Domain", you cannot have private chats without adding friends. Although this reduces the possibility of conflicts between players and the probability of players being harassed, Ji Xuanyi is a little confused about his situation .

Apart from Xu Chu and the others who were flooding the private chat channel, Ji Xuanyi hadn't seen anyone else. He always had the illusion that he was just an ordinary novice player.

 " I have to go in. " Ji Xuan said.

Generally speaking, Qi Qin could have taken him up directly under such circumstances, but Qi Qin was left behind in the Lost Continent by him, and now he was in a bit of a dilemma.

Fengchui looked at him, closed the private chat, climbed back on the horse, and said, " Come on, let's ride in. "

Ji Xuan raised his eyebrows and mounted the horse as he was told. He then pulled the reins in the wind and the black horse neighed loudly and raised its hooves. The people in front heard the sound and subconsciously dodged away.

Fengchui laughed and shouted, " Please move aside, my horse is out of control! "

The players didn't have time to think about how a knight's horse could not be controlled. The holographic game's images were completely real. The horse and the hoof were all aimed at the face! Before everyone could react, they had already made way. By the time the players reacted and were about to curse, Feng Chui and Ji Xuanyi had already made their way to the front.

However, this method is only useful in the periphery. When going deeper, in addition to the fact that there are more strength-based professions, most people are not so afraid of horses, and the crowd is really squeezed to the limit and there is no room for others. When they reached the

front halfway, Feng Chui had no choice but to dismount and protect Ji Xuanyi as they squeezed forward.

Ji Xuanyi missed Qi Qin again.

If the person here was Qi Qin, even if he didn't go up, he would probably be able to push the person in front of him away with brute force.

If Feng Chui knew what Ji Xuanyi was thinking, he would probably just spit at him and turn around and leave!

Going to the back, Feng Chui could not squeeze in anymore. After all, she was just a manager in the mortal world. The equipment on her body could only be considered good, not top-notch. Moreover, she was a knight, and her strength attribute was limited. She also had to protect Ji Xuanyi. It was already very good for her to be able to stand firm, but it was impossible for her to squeeze forward anymore.

But now we are not far from the front . We can vaguely see what is happening in the middle of the square through the gaps between people's heads. It seems like a fight has broken out?

Ji Xuanyi frowned, patted the shoulder of a player in front of him, and said, " Excuse me, I want to go to the front, can you give way? "

The player was just stretching his head to look at the situation in the middle of the square, when he was suddenly tapped on the shoulder and asked this kind of thing. He immediately turned his head impatiently and said, " Who are you? Why should I give you – damn! "

The player stopped talking abruptly. He stared at Ji Xuanyi with wide eyes, rubbed his eyes vigorously, stretched his neck to look at Ji Xuanling in the middle of the square, and looked back and forth several times. Suddenly he understood something and almost jumped over. He didn't dare to argue with Ji Xuanyi anymore. He quickly gave up his seat and was very flattering. He almost bowed and knelt, saying repeatedly: " Please, please, please! "

Ji Xuanyi: "..."

Feng Chui couldn't help but say, " That's a bit exaggerated, brother. "

The player quickly said, " It's not an exaggeration! I knew the guy in it was fake, but damn, he looks too much like me! "

Ji Xuanyi said nothing, continued walking forward, and patted the shoulder of the person in front of him: " Sorry, please make way. "

The person in front also turned his head impatiently, and then repeated the reaction of the previous person, and quickly gave up his seat to Ji Xuanyi.

Ji Xuanyi just kept giving way to others and moved directly to the first row.

The person in the first row squeezed to the front with great effort. Needless to say, Ji Xuanyi's die-hard fan, who originally felt a little weird about Ji Xuanling's performance, almost knelt on the spot the moment he saw Ji Xuanyi. He was trembling so much that he could not speak clearly. He could only swallow his saliva and watched Ji Xuanyi walk to the middle of the inner city square.

Because of the crowded crowd and unclear vision, except for the line where Ji Xuanyi was walking, other people around had no idea that Ji Xuanyi had appeared. When they first saw someone walking out of the crowd, they thought that person was risking his life. It was not until

they saw that Ji Xuanyi and Ji Xuanling had the same face that everyone gasped and realized that the other protagonist of this scene had finally arrived!

But these two Mu Xuanyi look too much alike, are they twin brothers?! Wait, could the story that Mu Xuanyi just told be – Holy shit! This is too exciting!

The crowd, who were originally just watching spectators, instantly became gossipy!

Although Ji Xuanling was a little embarrassed by what the red wine said, in fact, he still didn't really want to send these three girls back to the resurrection point. After all, if Ji Xuanyi really wanted to get serious with him, one leg might not be enough ...

This is also the reason why Hongjiu was able to be beaten by Ji Xuanling for such a long time with the support of Xiaoxiao and a little flower.

Ji Xuanling just hoped that Ji Xuanyi could come out soon.

Thinking of this, Ji Xuanling couldn't help but be distracted, and his hands unconsciously moved faster. Before he could react, he used a stealing move that could directly send Red Wine back to the resurrection point .

" Be careful with the red wine! "

A small flower immediately spoke out a reminder, but whether it was red wine or Ji Xuanling, it was too late to react at this time, and they both exclaimed " Fuck " at the same time.

Just when one of them thought he was going back to the resurrection point and the other thought he was going to the hospital, Ji Xuanling suddenly froze in place.

At the same time, a familiar voice sounded from behind him: " It's almost over. "

The three of them turned around at the same time and saw Ji Xuanyi with surprise. They immediately ran to Ji Xuanyi, looking at him with flushed faces, but they were too excited to speak a word.

Ji Xuanyi glanced at them, then quietly walked in front of them, facing Ji Xuanling, and blocked the three of them behind him.

The exclamations and uproars of the surrounding onlookers had no effect on the few people in the square. After the paralysis effect wore off, Ji Xuanling stood up and looked at Ji Xuanyi.

Ji Xuanling looked at him expressionlessly.

The visual stimulation brought by the two mirror-like people standing face to face was indescribable. If it weren't for the three people named Hongjiu standing behind Ji Xuanyi, also wearing sorcerer's robes, after watching them for so long, even the onlookers would probably not be able to tell who was who.

Ji Xuanling smiled, played with his dagger, and walked towards Ji Xuanyi.

A small flower immediately warned Ji Xuanyi from behind: he has ,Be careful of him !Xiao Ji " and has always wanted to lock you up in a small ,been secretly in love with you for a long time He is a .dark room and not allow you to make friends sadistic man with an overwhelming desire for control ! He is a perverted brother! "

Ji Xuanyi: "..."

Ji Xuanyi was speechless for a moment. He could only look on with a wooden face as Ji Xuanling walked towards him.

" Long time no see, brother. " Ji Xuanling said with a smile.

Ji Xuanyi glanced at him coldly and said, " Do you want to die? "

Ji Xuanling looked up at him and said with a smile: " It's been many years since we last met. Do you think I'm still the useless guy who could only hug your thigh and cry? "

The tense atmosphere between the two people made the surrounding players dare not make a sound, and a small flower was also scared.

Although it seems that Ji Xuanyi is not afraid of Ji Xuanling in real life, this is a game after all. Ji Xuanyi is just a warlock, while Ji Xuanling is an assassin. They are natural enemies! If Ji Xuanling wants to do something to Ji Xuanyi, he will have no way to resist!

We can't let Ji Xuanyi fall into the hands of his brother. Orthopedics has no future!

Just when all Mu Xuanyi's fans didn't know whether they should step forward to stop all this, and a little flower gritted her teeth, ready to risk her life to block Ji Xuanyi, Ji Xuanling sneered and moved suddenly!

Ji Xuanling knelt on the ground with a plop, hugged Ji Xuanyi's thighs, cried out " Wow " , and said: " Yes, I am still the same me, wuaaaaa, brother, I miss you so much! "

Onlookers: "..."

The three girls behind Ji Xuanyi: "..."

Is this how the script is written?!

Where is the gloomy and paranoid brother?! Where is the dark room play ?! What is going on?!

Ji Xuanling's turn came so quickly that everyone was shocked. They had no idea what had happened or what kind of family Ji Xuanyi came from.

How could his brother be so cowardly? !

But no matter what, one thing is certain, such a cowardly person is definitely not Mu Xuanyi!

The one wearing the warlock equipment is the real one!

Everyone was stunned, but Ji Xuanyi had long been accustomed to Ji Xuanling's routine. He grabbed the other person's face and lifted his head up, saying expressionlessly: " Answer my question, do you want to die? "

Ji Xuanling sobbed for a while and said aggrievedly: " Oh, I don't want to. "

Ji Xuanyi's eyes were grim: " Don't want to? Then what were you doing before? "

Ji Xuanling's eyes flickered, and after a long while he said, " I miss you, but you ignore me, what can I do ..."

Ji Xuanyi certainly didn't believe this reason, but Ji Xuanling didn't say it, it must be because the current situation was not easy to say, Ji Xuanyi's eyes softened slightly, and said: " You returned to China? "

Ji Xuanling was still being pinched by him, and he didn't ask him to leave. He shook his head and said, " No ..."

Ji Xuanyi blinked.

Because "Domain" was first released overseas and the progress in China is slower than overseas, in order to prevent spoilers from overseas players, this game cannot be accessed from overseas to the domestic server. The official also prohibits the disclosure of information about this game to servers with lagging progress. Once discovered, there is a risk of being banned, so guides are rarely revealed. In order to take care of the feelings of other players, players who occasionally travel between the two countries will not deliberately spoil the game.

But if Ji Xuanling didn't come back, how did he get into the game? And Ji Xuanling suddenly appeared. This account is now at the average level of the second server. How can he find time to level up? Ji Xuanling doesn't have the European Emperor physique like Yun Zhongjian. From childhood to adulthood, his luck is even worse than Ji Xuanyi.

Ji Xuanyi couldn't help but ask, " What's the matter with your account? "

Ji Xuanling looked at Ji Xuanyi with a complicated look , but because half of his face was grabbed, he did not look too bitter or resentful. He whispered, " I just ... abused my power ..." He spoke in a low voice, and no one could hear it except him and Ji Xuanyi.

Ji Xuanyi's eyes widened and he instantly understood what he meant.

He glanced at Ji Xuanyi's expression and quickly explained, " This isn't considered cheating. The equipment levels are all average. I'm just an ordinary player. I just skipped the upgrade process! "

Ji Xuanling's voice became lower and lower until it was almost inaudible. He looked at Ji Xuanyi pitifully and whispered, " Can I get up first? "

Ji Xuanyi said coldly: " No. "

Not only did Ji Xuanling create an account for himself out of thin air, even if Ji Xuanling had something to tell him, Ji Xuanyi had not forgotten what this person had done before, impersonating him and putting the blame on him. It seemed that Ji Xuanyi had been away for too long and Ji Xuanling had forgotten his style.

In fact, Ji Xuanling certainly hadn't forgotten. If he had really forgotten, he wouldn't have backed down so quickly. Seeing that Ji Xuanyi refused to forgive him, he could only hug the thigh in his hand a little tighter and said coquettishly, " I'm sorry, I'm sorry. I will fix the problem, 嘿嘿..."

Ji Xuanyi said coldly: " Is it over after the problem is solved? "

Ji Xuanling froze and looked up at him.

Ji Xuanyi said: " Didn't you tell me that your legs had grown back? "

Ji Xuanling: "... qaq ! I was just kidding! "

Ji Xuanyi chuckled and said, " I took it seriously. "

Ji Xuanling gave up struggling, lay on the ground, and said: " There is no other way, brother. I can't come back, so you can just kill me here . Look, we both look the same. Is there any difference between killing me and killing yourself? "

If possible, Ji Xuanyi really wanted to kill this guy , but he was just a warlock now, with no output, so it was not a good idea to let others do it for him. After all, they had the same face, and Ji Xuanling being beaten up would be like being beaten up himself. Ji Xuanyi imagined it, kicked Ji Xuanling in disgust, and said, " Get up, disperse the crowd first, and talk later. "

Ji Xuanling was stunned for a moment when he heard that, then he quickly got up and looked at Ji Xuanyi in surprise.

Ji Xuanyi had changed so much. He hadn't changed from always hanging up the phone before, so he didn't react. In fact, if it was the old Ji Xuanyi, not to mention giving him a chance to talk properly, he would have pinned him to the ground and beaten him up as soon as they met, and then it would have been Bai's turn at the resurrection point. He might even have flown abroad to find him for a real-life PK , and then sent him to the hospital .

But this Ji Xuanyi is too nice now! He just pinched his face in the game and then acted like he was going to get over it?! Is he dreaming?!

Seeing Ji Xuanling looking at him stupidly, Ji Xuanyi frowned and asked impatiently: " What are you doing? "

Ji Xuanling was stunned for a moment, then burst into tears and said, " Why weren't you like this when you were a child?! It would have been great if brother had been so gentle from the beginning! "

Ji Xuanyi: "..."

Ji Xuanyi kicked him to the ground, and when Ji Xuanling was still dumbfounded, he stepped on his chest, raised his hand and punched him, and said coldly: " Are you satisfied? If you are, get up and solve the problem. "

Ji Xuanling stared at Ji Xuanyi in amazement. After a long while, he got up and cried, typing on the map with tears in his eyes: " I am not the real Mu Xuanyi . I am a fake. I will compensate those I killed before. Everyone, go away. The real Mu Xuanyi will be unhappy! "

Ji Xuanling posted this news several times on the map channel and the world channel, causing an uproar. Many of Ji Xuanyi's fans said, "See! We said you found the wrong one, didn't we? This is fake, Xilai has already said it, and you still don't believe it!"

Those who suspected that Ji Xuanyi staged this drama himself to whitewash himself remained silent and pretended that they had never paid attention to this matter.

However, although Ji Xuanling's statement satisfied the curiosity of some spectators, for the players surrounding the inner city square of Fanxing City, this sentence was far from enough!

[Mu Xuanyi] Since it's not the real Mu Xuanyi, what's the ID of the real Mu Xuanyi ? ! Why does the fake Mu Xuanyi look exactly like Mu Xuanyi himself? ! Are you brothers? When Mu Xuanyi was killing everyone in the keyboard online game , did you take turns logging in? Is Mu Xuanyi one person or two people? !

Most importantly, is the story about the brothers who are orthopedic surgeons that Fake Wood Genichi told true or false? ! Why does it seem like the relationship between the two of you doesn't seem to be that good? !

The onlookers blinked their eyes full of curiosity and stared at the two brothers in the middle of the inner city square, wishing to find out everything about their life stories.

The real and fake Mu Xuanyi is already a hot topic, and now they have become twin brothers!

Wow, even novels don't dare to write like this, can you explain the matter clearly?

However, Ji Xuanyi misunderstood the players who were still waiting to leave. His eyes darkened and his face looked unhappy. He glanced at the people around him and said, " I know scale event-this is a large ,After all .s not the right time yet'it ,m sorry'but I ,what you want to ask I will explain all the grievances and ,When the event is over .that concerns the entire server hatreds about the ID Mu Xuanyi here and give everyone an explanation. "

" At that time, Star City will no longer prohibit certain players from entering. Everyone can come to me and seek revenge. When everything is over, the name Mu Xuanyi will not appear again. Everyone can rest assured. "

Everyone was stunned, and couldn't help but shout silently in their hearts – this is not the question we should ask!!! What is the relationship between you and your brother!!! There is no future in orthopedics!!!

The crowd was excited, but Mu Xuanyi was right in front of them, and no one dared to offend him. What if Mu Xuanyi got angry and joined forces with his brother to kill those who spoke again and again ? What would they do then ?

So everyone just showed excited expressions and didn't dare to speak out.

As a result, Ji Xuanyi misunderstood again and thought that everyone was happy with his decision, so he couldn't help but breathe a sigh of relief.

But it was not a good idea for people to keep surrounding them and not leave. Finally, Xiaoxiao Yuxia couldn't stand it anymore and sent out the elite members of the three gangs that had been transferred here before to disperse the players.

Ji Xuanling followed behind Ji Xuanyi like a little wife without making a sound.

The development of the matter was far different from what Xiao Xiaoyu had imagined. He looked at Ji Xuanling with his mouth open, unable to react for a long time.

Not only him, Yiduo Xiaohua and the other two haven't reacted yet.

They couldn't understand how Ji Xuanling, who had been chasing them like a mad dog and wanted to kill them, suddenly turned into a rabbit. They thought the two brothers were going to have a shocking battle!

However, it is obvious that the status between Ji Xuanyi and Ji Xuanling had been fixed a long time ago. Even though Ji Xuanyi is a sorcerer now, Ji Xuanling dare not attack Ji Xuanyi at all.

When Ji Xuan saw Xiao Xiao Yu staring at Ji Xuan Ling, he pulled the latter to the front and said, " My brother, Ji Xuan Ling. "

Xiao Xiaoyu was stunned: " Ah? "

Ji Xuanling glanced at him and sneered with disdain .

Then he was beaten up on the spot by Ji Xuanyi!

The author has something to say: When Ji Xuanyi noticed that something was wrong with Qi Qin, he contacted the official because the official was originally his company. As a result, it was too long and I forgot while writing. I just fixed the bug and don't worry too much.

Chapter 189

Ji Xuanling's ability to commit suicide really amazed Xiao Xiaoyuxia . In just the short distance from the inner city square to the inner city stronghold, Ji Xuanling was beaten up three times by Ji Xuanyi!

And Xiaoxiao Yuxia can testify for Ji Xuanyi that it is not because Ji Xuanyi left Qi Qin that his temper became bad again , it is really because Ji Xuanling deserves a beating! Xiaoxiao Yuxia suspects that Ji Xuanyi's temper may be caused by Ji Xuanling. Maybe Ji Xuanyi was actually very well-behaved when he was a child!

However, Xiaoxiao Yuxia was just thinking about such things and didn't have the courage to say them. It was unknown whether Ji Xuanyi was well-behaved when he was a child, but Ji Xuanyi's temper was definitely not good now.

Because there were not enough horses , the group walked for nearly half an hour before arriving at the place. Before entering the door, Ji Xuanling was beaten up again for talking nonsense. Xiao Xiaoyuxia hurriedly said, " Okay, that's enough . What if you beat the child later? Let's go in. "

Ji Xuanyi glanced at Ji Xuanling coldly and walked into the stronghold . Ji Xuanling had just been beaten , and he followed him like a lackey , sighing repeatedly in the rain.

Because it happened suddenly , they still haven't reacted until now. They followed a little flower to the inner city stronghold of Fanxing City in a daze. Only then did they realize that with their identities, it seemed inappropriate for them to follow in .

The three girls looked at each other, not knowing what to do.

They came to Fanxing City for Mu Xuanyi. Now that they have met him and the problem has been resolved, it seems there is no point in staying any longer?

Xiao Xiao Yuxia glanced at them and understood what they were thinking. She smiled gently and said to them, " You are from Youyue City, right? Our two families have formed an alliance and we are all friends. I won't be polite. Don't you know what to do now? "

When Xiaoxiao Yuxia wants to get close to people, most people will be very receptive to him, let alone three little girls who are a little confused about the situation for a moment. After hearing this, they hesitated for a moment and then nodded.

Xiao Xiao Yu Xia smiled and said, " Excuse me, the event will start in the next two days. If you rush back now, it will be difficult for you to catch up. It is better for you to follow our people from Fanxing City and meet up with the Youyue City troops when you reach the beach. "

The three girls were stunned, because the second stage of the activity needed a lot of manpower, and Youyue City didn't have any particularly outstanding gangs except the Dancing Gang, so the Mu Fan Club was also put on the list to go to sea because of the relationship between Ji Xuanyi and the old Western doctor. However, due to the sudden incident of the real and fake Mu Xuanyi, Yiduo Xiaohua and the others couldn't take care of much and had to put the activity aside for the time being. After arriving in Fanxing City, they were indeed worried for a while because they might not be able to make it back.

Unexpectedly, Xiaoxiao Yuxia was willing to give them a ride.

This event is of vital importance to each main city and cannot be taken lightly. Players from other main cities will certainly not be allowed to participate when sending gifts to each other. Xiaoxiao Yuxia's move can be said to be giving them full trust.

The three girls all looked at Xiao Xiao Yu with gratitude, and a little flower said: " Is it really possible? Thank you so much! "

Xiao Xiao Yu Xia smiled and said, " It's nothing. We are all friends. It's only natural. Feng Chui, take Xiao Hua and the others for a stroll in Star City. You have come from far away . I guess you haven't seen the scenery here yet, right? "

Fengchui understood what Xiaoxiaoyuxia meant, smiled at the girls, and took them away affectionately.

Xiaoxiao let out a breath in the rain. It seemed that Yiduo Xiaohua and the others should know Ji Xuanyi, but they only knew Ji Xuanyi's identity now. It seemed that Ji Xuanyi's relationship with them was not that good. When Ji Xuanyi came back, he didn't even bring Qi Qin with him. Ji

Xuanyi would definitely not want too many people to hear the conversation between him and his brother. It would be better to send the girls away.

But then again, there are not too few girls in the Mu Fan Club, and most of them are priests.

Xiaoxiao Yuxia is willing to take them with her. In addition to bringing them closer to Youyue City, it will also add more strength to the escort mission of Fanxing City.

After Fengchui and the girls walked away , Xiaoxiao Yuxia ran into the meeting room. Ji Xuanyi and his brother were sitting at either end, looking at each other.

The atmosphere seemed a little frozen, and the intrusion of the drizzling rain seemed to make the air circulate a little. Ji Xuanling breathed a sigh of relief, and Ji Xuanyi looked at him silently.

Xiaoxiao Yuxia was not polite and asked curiously: " Where were you talking about? "

Ji Xuanyi and Ji Xuanling glanced at him and said at the same time: " I haven't started talking yet. "

The strange sense of synchronization made Xiao Xiaoyuxia confused for a moment, and she forgot the solemn atmosphere when she entered the room just now. She said stupidly: " Ah, then, then you guys start? Just pretend I don't exist! "

Ji Xuan looked at him, then looked away and said to Ji Xuanling: " You have seen my current situation. I am living a good life. I have friends and a partner. I am free. Don't try to persuade me to go home. I will not go back. "

Ji Xuanling certainly knew that Ji Xuanyi was living a very happy life now, but he always felt a little unwilling. Of course, it was not because Ji Xuanyi had a boyfriend and that his career in orthopedics was blocked. Although he did care about this a little, his unwillingness came more from Ji Xuanyi, or in other words, he felt unwilling on behalf of Ji Xuanyi.

Their family business is very large. Although Ji Xuanyi and he are twins, Ji Xuanyi was chosen from the beginning to be trained to be the heir. Ji Xuanyi has lived up to this expectation. He is very good in all aspects – except for his violent temper, but this is exactly the same as their father, so in fact this cannot be regarded as a shortcoming.

However, of course it is impossible for a person to know everything when he is born. As Ji Xuanyi's younger brother, Ji Xuanling has seen Ji Xuanyi's efforts. Although Ji Xuanyi left home due to certain conflicts, Ji Xuanling always felt that Ji Xuanyi should not be like this. With his talents, he should not be willing to be an ordinary person and live a mediocre life just because of those conflicts.

He still wants Ji Xuanyi to go back.

Ji Xuanling looked at Ji Xuanyi and said, " I know what your situation is now, but brother, you have suffered so much since you were a child, and you gave up everything just because you had a quarrel with the old man. Is it worth it? "

Ji Xuanyi glanced at Ji Xuanling and said, " It's worth it. "

Ji Xuanling couldn't help but frowned and said, " Brother, think it over before you answer. This is something that many people would never get even if they prayed for it their entire lives. Are you crazy?! "

Ji Xuanyi gave him a cold look and said, " What did you say? "

Ji Xuanling immediately changed his words and said, "... I'm crazy, I'm crazy! "

Ji Xuanling's desire to survive was so strong that Ji Xuanyi did not pursue the matter. He just looked at him for a while and said, " You suddenly came to me, it was not just a whim, right? What did that guy say to you? "

Ji Xuanling was stunned and looked at Ji Xuanyi timidly.

Ji Xuanyi knew this look too well. Ji Xuanling was very tough. Although he was often beaten, he would not show this look in most cases. He would only look at Ji Xuanyi like this when he thought he was going to be beaten up.

And the times when Ji Xuanyi beat him hard were usually when the other party took his things without permission.

But Ji Xuanyi had already left home a long time ago, so what else could be taken away?

Ji Xuan thought about it and understood, and said, " He finally gave up on me and decided to give up on me? "

Ji Xuanling couldn't help but shudder and shouted: " Brother—— "

Ji Xuanling thought that Ji Xuanyi would explode and take his anger out on him right then and there, but in fact, Ji Xuanyi was not as angry as he imagined. He looked to be in a complicated mood , feeling disappointed, relieved, and even a little happy.

After a long silence, Ji Xuanyi finally said calmly: " I finally came to terms with it. It wasn't easy. He didn't make the wrong choice. You should work hard in the future. "

Ji Xuanling was stunned and said in a lost voice: " Brother, what do you mean?! "

In fact, if Ji Xuanyi had not quarreled with his father in high school, the person who went abroad should have been Ji Xuanyi. However, Ji Xuanyi stayed in the country and it was Ji Xuanling who went abroad. In fact, at that time, it was already a test of him by Ji's father.

Of course Ji Xuanyi was angry about this at that time, which made Ji's father feel that Ji Xuanyi still wanted to fight, so although he left Ji Xuanling abroad, he did not give up on Ji Xuanyi completely, but kept trying to contact him and let him go home – until Qi Qin appeared, Ji Xuanyi completely calmed down, no matter what happened in the virtual world or in real life, it could not cause waves in his heart anymore.

At this time, Ji's father was completely sure that Ji Xuanyi really had no intention of coming back, and he had completely given up what he should have obtained.

Fortunately, there is Ji Xuanling as a backup option. Although he is not as good as Ji Xuanyi, Ji Xuanling is indeed an excellent heir. So after Ji's father made sure that Ji Xuanyi would not come back, he told Ji Xuanling that from now on, he would be the person that the Ji family would focus on training, and they would give up Ji Xuanyi.

But what Ji's father didn't expect was that Ji Xuanling actually didn't have any big ambitions. Although he was equally outstanding, when Ji Xuanyi was still around, his dream was to be a parasite under the protection of his brother. Although he listened to them obediently and went to study abroad in college, he was still waiting for Ji Xuanyi to come back in his heart. When Ji's father said this, Ji Xuanling was stunned and he hurried to find Ji Xuanyi.

Ji Xuanling couldn't sit still any longer, and he didn't worry about getting beaten anymore, so he stood up from his seat, pushed Xiao Xiaoyuxia away, sat down next to Ji Xuanyi, and said coquettishly, " Brother! You can't do this, I can't do it, come back, I promise I won't cause you any more trouble, and I won't make you angry again! "

Ji Xuan tilted his head and glanced at him with a complicated expression .

He and Ji Xuanling grew up together, so of course he knew each other's personality. Ji Xuanyi was like their father, he kept his word, always remained calm and was a decision maker, while Ji Xuanling was more like their mother, he did not have any big ambitions and just wanted to live a peaceful and stable life.

Ji Xuanyi was indeed selfish for just walking away this time. He left everything to Ji Xuanling, but he could not explain the reason to Ji Xuanling. Perhaps it was best for Ji Xuanling not to know anything.

Ji Xuanyi whispered, " Don't talk nonsense. I'm very happy now and I won't go back at all. Even if I do go back, he has already informed you of his decision. Do you think he will change his mind? "

Ji Xuanling was stunned.

Ji Xuanyi himself is a very stubborn person, he will not change his decision once he makes it, but their father is even more stubborn than Ji Xuanyi. Since he has said that he has given up on Ji Xuanyi, he will not regret it. Even if Ji Xuanyi is outstanding and outstanding, and kneels on the ground begging to go back, he will not change his decision.

This is also why they would call Ji Xuanyi at the beginning, but later on, basically only Ji Xuanling called.

Ji Xuanling certainly understood this and gradually became dispirited.

Ji Xuanyi sighed softly and said, " Don't think too much about it. Just do what you need to do. Didn't you just say that? This is something that many people envy but cannot get. Since I have made room for you, just sit down and enjoy yourself. "

Ji Xuanling was still somewhat reluctant, and hummed as he leaned towards Ji Xuanyi.

Ji Xuanyi was getting a little impatient, so he slapped him on the forehead and said, " Are you done yet? "

Ji Xuanling was startled and quickly sat up straight, looking at Ji Xuanyi pitifully.

Ji Xuanyi lowered his eyes and said, " Given that guy's personality, since he has decided to give up, he probably won't bother to embarrass me anymore and will just treat me as a stranger. Don't tell him about you coming to see me. "

Hearing this, Ji Xuanling showed a guilty expression again.

Ji Xuanyi: "..."

Ji Xuanyi said speechlessly: " What are you doing? "

" It's not that I don't want to tell him, but ..." Ji Xuanling glanced at Xiao Xiao Yuxia and said very tactfully: " When I got this account, I told them that I would not do anything and just come in to see the scenery. In the end, I couldn't help it and killed so many people. "

Ji Xuanyi: "..."

Ji Xuanling said expressionlessly: " Fuck! "

Ji Xuanling said with a guilty conscience: " I probably, should, maybe, have been monitored the entire time? If the old man wants to see it, he can probably just call it up. "

Ji Xuanyi was really convinced. Why was this news only told to him now?

Seeing Ji Xuanyi staring at him, Ji Xuanling calmly moved his butt to a position farther away from Ji Xuanyi and laughed dryly: " Didn't you say that they won't care about you? It doesn't matter if they just take a look! "

Ji Xuanyi looked at him gloomily.

Ji Xuanling coughed dryly and changed the subject: " Ahem, since you have decided not to go back, I can't do anything about it. After all, you have taken care of me so much since I was a child. I will take over your job. Just do whatever you want! "

After saying that, Ji Xuanling looked at Ji Xuanyi tremblingly, and then added in a low voice: " But it is true that I miss you. If I have time, can I go to see you? Not in the game, but in reality. " Ji Xuanyi is a person who is soft-hearted and does not take hard words. After Ji Xuanling said this, the expression on his face softened a little. However, after Ji Xuanling finished speaking, Ji Xuanyi smiled and said, " Of course, if you are free, come whenever you want. "

The premise is that you have time.

There is a difference between training from childhood and becoming a monk halfway. Ji Xuanling wants to make up for all the things that Ji Xuanyi learned from childhood to college. I wonder how long it will take – is there time? It will take at least three to five years!

Ji Xuanling didn't know that he was once again despised by Ji Xuanyi. When he heard the other party's promise, he laughed and said happily: " Brother, you are the best to me! "

Xiaoxiao Yuxia was sitting next to them. He had no idea what Ji Xuanyi and Ji Xuanling were talking about. When he heard this sentence, he was stunned.

Did Ji Xuanling only have Ji Xuanyi as his brother?! He was beaten four times in a row on the first day they met. Is this the best for him?! Although Ji Xuanling himself deserved a beating, this was too Stockholm!

Xiaoxiao Yuxia was amazed at the way the two brothers got along with each other, but from the sound of their conversation, it seemed like Ji Xuanyi had a big family behind him. It was only because of a quarrel with his father that Ji Xuanyi gave up everything he had and moved out alone.

Although Xiao Xiao Yuxia also felt that what Ji Xuanling said was right, and Ji Xuanyi's family background was something many people envied, this was Ji Xuanyi's own life after all. Xiao Xiao Yuxia had no right to persuade him and could only help him more in the future.

But then again, Ji Xuanyi himself doesn't have a big problem with this kind of plot, but will Tianxia, as Ji Xuanyi's boyfriend, be embarrassed? I heard that Tianxia's family is also quite rich, so which one is more powerful, Tianxia's family or Ji Xuanyi's family?

Xiaoxiao Yuxia was lost in deep thought. The two brothers here didn't want to continue talking about family matters, and instead started talking about the situation in the game.

I will apologize and compensate those people " I killed before , and I will also make it clear that I am not Mu Xuanyi, " Ji Xuanling glanced at Ji Xuanyi and said, " Is that all? "

Ji Xuanyi was about to nod, but suddenly stopped and said, " Can you ask them for this account? Just treat it as an ordinary player. Your identity is different. If you don't reveal any game-related information, it shouldn't be a big deal. "

Ji Xuanling was stunned, and said with some joy: " Brother, do you want to take me to play with you?! "

Ji Xuan glanced at him and smiled, " No. "

Ji Xuanling: "..."

However, Ji Xuanling himself was not as obsessed with games as Ji Xuanyi. He preferred real-life entertainment activities. Although he felt a little sad about being rejected, he also felt a little relieved.

Ji Xuanling knew that Ji Xuanyi must have other reasons for asking him to do so, so he had no choice but to ask, " What do you want me to do? "

Ji Xuan glanced at him, nodded, and said, " Although you have clarified the matter, the influence of the black pot cannot be completely removed by just one sentence from you. Can you help me do something as compensation? "

Ji Xuanling certainly had no objection, and immediately patted his chest and agreed, saying: " What is it? Brother, just tell me, I promise to get it done for you! "

Ji Xuanyi touched his chin and said, " There is a man in Dayo City named Zhaochen ..."

Xiaoxiao Yuxia widened her eyes.

Is this even possible?!

In fact, yes you can.

After Ji Xuanyi and Ji Xuanling finished talking, the other party tried to stay with Ji Xuanyi for a while, but was forcibly driven away by Ji Xuanyi. He could only leave Fanxing City with grievance to clean up the mess he had made before. Oh, by the way, he also had to help Ji Xuanyi deal with Zhaochen.

Xiaoxiao Yuxia really couldn't help but sigh at how awesome Ji Xuanyi was. He could even come up with this idea. Zhaochen was so obsessed with Ji Xuanyi, I wonder how scared he would be after seeing Ji Xuanling. What's more, Ji Xuanling was an assassin. Maybe Zhaochen would dream back to the keyboard online game and relive the nightmare of being killed by Ji Xuanyi and forced to quit the server!

However, after Ji Xuanling left, Ji Xuanyi seemed a lot more relaxed. It wasn't just because Zhaochen had someone to help him solve the problem, the most important thing was that with the confirmation of Ji Xuanling's news, he had finally gotten rid of that messy family.

No one would be watching him anymore, he was finally completely free!

After Ji Xuanling left, Ji Xuan's steps became lighter. Xiao Xiao looked at him in confusion and said, " Are you okay? "

 " It's okay! " Ji Xuan said with a smile.

This smile was so bright that Xiaoxiao Yuxia almost suspected for a moment that the person who just walked out was Ji Xuanyi, and the one in front of him was actually Ji Xuanling!

 " Oh, right, " Ji Xuanyi suddenly remembered something and said, " There shouldn't be anything to do today, right? "

Xiao Xiaoyu was stunned for a moment, then he realized that he was supposed to go to the inner city to check on the progress of their activity preparations, but he was interrupted by Ji Xuanling and forgot about the important matter.

But I guess there shouldn't be any big problem. Someone is watching over there. If the progress is almost completed, someone will send him a message.

There were still many things to do, including evacuating the other players who had come to Fanxing City to find out the real Mu Xuanyi, clarifying the facts for Ji Xuanyi, and the promise that Ji Xuanyi had made in the inner city square. Xiaoxiao Yuxia stopped trying to be brave and looked at Ji Xuanyi eagerly: " There are still a lot of things to do ..."

Ji Xuan nodded and said, " Then you continue to be busy! "

Xiaoxiaoyuxia: "..... ??? "

Is this what the script says?!

Ji Xuan smiled and said, " The burden on me has finally been lifted. I promised to tell the world everything. "

The matter of the real and fake Mu Xuanyi had caused a big stir, and Qi Qin probably knew about it. He might have already logged off, waiting for him to come back and tell him the story!

Ji Xuanyi patted Xiao Xiaoyu's shoulder and said, " The second stage has begun. Contact me when you are ready to go online. I'm going to log off first. Goodbye. Come on, you can do it! "

Xiao Xiao Yuxia was stunned by Ji Xuanyi's actions. Before she could stop him, she saw a flash of white light in front of her eyes, and Ji Xuanyi disappeared.

" Ji Xuanyi wasn't like this before! Who ... who did he learn this from?! " Xiao Xiaoyu couldn't help but say, " We must keep him and Xu Chu apart in the future! "

Xu Chu from the Lost Continent: " A-choo! "

The author has something to say: Yes, I have become shorter
I fixed a bug in the previous chapter . When Ji Xuanyi noticed something was wrong with Qi Qin, he contacted the official because the official was originally his company. But it was too long, and I forgot about it while writing ...

Chapter 190

The incident of the real and fake Mu Xuanyi came to an end . Everyone knew that the Mu Xuanyi who suddenly appeared before was actually the younger brother of the real Mu Xuanyi. They also knew that Mu Xuanyi was indeed in the Starry City of the second server. Many of Mu Xuanyi's enemies were ready to set off to the Starry City of the second server to seek revenge on him.

However, people from the three major gangs in Fanxing City spread the news that Mu Xuanyi would give everyone an explanation after the end of this large-scale event . Before that, anyone coming to Fanxing City would be turned away . If they forced their way in, they would be regarded as enemies of the three major gangs . When the time came, the three major gangs would take tough measures, and they would not be able to say that they did not give prior warning.

Many people expressed their dissatisfaction with the three major gangs in Fanxing City on the second server because of this statement , but the three major gangs obviously did not take it to heart. If you are dissatisfied, then you can do it. If you have the guts , then come and fight

against us . If you don't have the guts, then just shut up and wait for someone to come out and give you an explanation.

The forces of the three major gangs are not so easy to mess with , so even if they are really dissatisfied with them for sheltering Mu Xuanyi , no one is willing to really stand up and go against them.

Some assassins did consider sneaking into Star City , but even if two or three assassins sneaked in, they would be outnumbered, let alone breaking through the possible guards of Star City. Even if they really faced Mu Xuanyi, they might not survive. What's more, none of them actually knew Mu Xuanyi's exact appearance and ID .

That's right, no one knows what Mu Xuanyi looks like now . Although some players took screenshots when the real and fake Mu Xuanyi were confronting each other, after they went offline, the screenshots they saved in the game disappeared inexplicably and they couldn't find them no matter how hard they looked. In the end, they were unable to post Mu Xuanyi's appearance online.

Many people hold different opinions on this matter. Although Mu Xuanyi is a cancer, it is a matter of the game after all. Posting other people's photos will definitely affect the three-dimensional life. If Mu Xuanyi is a liar and robber, it can be barely accepted. He just played the game to a point of cancer. It is better to separate the second and third dimensions.

In the end, the matter of the screenshots was left unresolved, but a small group of people said that posting or not is one thing, and the disappearance of the screenshots is another. The power behind Mu Xuanyi might be much greater than everyone imagined.

Another incident also seemed to prove this inference from the side. Those people who had been dancing wildly on the forum and had been killed by the fake Mu Xuanyi , that is , Mu Xuanyi's younger brother , suddenly changed their tone. Even if they were singled out by someone with ulterior motives and wanted to help criticize Ji Xuanyi, these people also said that the matter was over, the fake Mu Xuanyi had already apologized, and there was no need to pursue it further.

The contrast between the attitudes of this group of people before and after was too drastic, and no one knew whether they were coerced or bribed. However, those people with bad intentions had no choice but to let the matter gradually fade away.

When Ji Xuanyi left Xiao Xiaoyu and went offline, Qi Qin was actually already preparing to cook at home.

Ji Xuanyi climbed out of the game cabin and heard the noise from the kitchen. Because the problem that had been weighing on him was solved, Ji Xuanyi felt a lot more relaxed. He ran into the kitchen quickly and lightly, which scared Qi Qin.

" Xuanyi? Shouldn't you have something to do today? Why did you get off work so early? " Qi Qin hugged Ji Xuanyi.

" You got off work quite early today, " Ji Xuan said with a smile, " I won't say any more. Just cook. After dinner, I'll tell you about what's going on at home. "

Qi Qin originally felt relaxed because of Ji Xuanyi's smile, and after Ji Xuanyi's words, Qi Qin became even happier.

Ji Xuanyi has always had a lot of things in his mind, and he always looks very worried . He only smiles occasionally when he is in the game or when he is with everyone. In most cases, Ji Xuanyi's brows are always frowned.

Qi Qin always wanted to know what kind of thing Ji Xuanyi was carrying, and wanted to help him and solve it all, but Ji Xuanyi never said anything. Even if Qi Qin asked, he just refused and evaded the question.

Qi Qin was actually very upset about this matter. Now that Ji Xuanyi said that everything was resolved and he felt relieved, he was even happier than Ji Xuanyi.

The two of them ate quickly, took a shower, snuggled up on the sofa, turned on an unimportant TV, and whispered to each other under the warm light.

Ji Xuanyi's life experience is not much different from what Qi Qin had thought. From what Qi's father said at the time and Ji Xuanyi's own temperament, it can be seen that he is not a simple person. Ji's father has been training Ji Xuanyi to be a decision maker from the beginning.

If that accident had not happened, Ji Xuanyi would probably have really grown up to be a cold-hearted, absolutely rational person, just as his father had arranged. The crowded affairs would have forced him to give up the games he once liked, and his temper might have become many times more irritable than when Qi Qinggang first met him.

Ji Xuanyi leaned on Qi Qin's shoulder and murmured, " It's scary just to think about it. If it really becomes like that, wouldn't it be no different from a psychopath? "

From what we can see now, although Ji Xuanyi's father also has a bad temper, he is definitely the type of person who will not cross the line. If it were Ji Xuanyi without games, friends, and Qi Qin, even if he made a rational decision, if he couldn't control his emotions, he would probably destroy the family business.

After listening to this, Qi Qin kissed Ji Xuanyi's forehead and said, " Xuanyi is exaggerating. Even without me, Xuanyi would not become that kind of person. "

Qi Qin felt that even before he appeared, Ji Xuanyi actually had many shining points. Although he seemed to have a bad temper, Ji Xuanyi was actually a very gentle person. This could be seen from what happened with Gui. The crazy Mu Xuanyi at the beginning actually did a lot of things that could be called punishing evil and eliminating evil, otherwise how could he have so many fans?

Ji Xuanyi didn't think he had ever done anything good. When Qi Qin said that, he thought that the other party was just coaxing him. He just smiled and didn't respond.

" But what exactly was that accident? " Qi Qin asked, " Xuan Yi had a quarrel with his family and moved out. Is it that serious? "

When Ji Xuan heard this, he looked up at Qi Qin and whispered, " Yes. "

That was when he was in high school. Ji Xuanyi had just been stabbed in the back by Zuo An and Zhao Chen. He was in a state of collapse. Then, another piece of bad news came from the Ji family.

Ji Xuanyi and Ji Xuanling's mother passed away.

In fact, Ji Xuanyi's mother had been seriously ill before that, but Ji's father did not tell Ji Xuanyi. He felt that this would be something that would distract Ji Xuanyi, so the news came out very suddenly.

Ji Xuanyi was still in a state of anger at being betrayed at the time, and was ready to retaliate. When he received the news, he was completely stunned. It took him a long time to react, and he hurriedly packed up and returned to Ji's house. At that time, Ji Xuanling and Ji Xuanyi were not studying together, and he was even farther away from home, so he didn't know about this. After the two returned home, they only made it to Ji's mother's funeral.

Ji Xuanling, as the second son who had always been left alone, cried like an idiot at that time, but Ji Xuanyi went straight to find Ji's father.

Ji Xuanyi knew that his parents' relationship was not that good. Only in front of the stupid Ji Xuanling would they pretend to be harmonious. But this situation was too much. Ji Xuanyi angrily asked why he didn't tell him about this in advance, so that he didn't even see his mother for the last time.

Father Ji said very calmly that there was no chance of curing Mother Ji's illness, and there was no point in telling you in advance except to distract you and make you obsessed. It would be enough for you to come back for the formality during the funeral.

Although Ji Xuanyi's personality is similar to that of Ji's father, he is actually as soft-hearted as Ji's mother. At the time, he felt that Ji's father was unreasonable and had a big quarrel with him. The two hot-tempered people almost started fighting on the spot.

Fortunately, they were not the only two people in the Ji family. Ji Xuanling and others rushed over and separated the two people. When Ji Xuanling was a child, he had also seen Ji Xuanyi and Ji's father confront each other, but this time it was obviously very serious, which scared Ji Xuanling enough.

In Ji Xuanling's world, Ji's father is just an ordinary father. Although he has a bad temper, he also gives Ji Xuanling a lot of sense of security. His feelings for Ji's father are not as shallow as those of Ji Xuanyi, who cannot get much fatherly love because he is the heir.

Ji Xuanyi still remembered that night, Ji Xuanling hugged him and cried like an idiot, begging him not to have conflicts with Ji's father anymore. Ji's mother had passed away, and they were both his last relatives. He didn't want to see Ji Xuanyi and Ji's father quarreling so fiercely. This silly guy was totally unaware of the undercurrents between Ji's father and Ji's mother. Because he was so spoiled, in his world, there was no such thing as Ji's father ignoring Ji's mother. When he said this, Ji Xuanyi almost couldn't help but break his legs.

But Ji Xuanyi's weakness was here. Ji Xuanling did nothing wrong. What could he do? He was easily stabbed by Zhaochen in the front, and of course he couldn't bear to reject his stupid brother in the back.

"Because he didn't want to conflict with his family and didn't want to see such a cold father again, did Xuanyi move out directly?" Qi Qin said, and then felt something was wrong.

Although this incident was enough to make Ji Xuanyi leave the Ji family and live outside alone, it was too exaggerated to cut off all ties with the Ji family directly.

It's not just because the idiot Ji Xuanling is still there, Ji Xuanyi himself has a rationality quite similar to his father. Anger is one thing, but giving up one's own interests because of it will only make relatives sad and enemies happy. Although Ji's father may not feel "happy" because of this, giving up the power in his hands is equivalent to giving up the opportunity to confront Ji's father in the future. Ji Xuanyi is not that stupid.

As expected, Ji Xuanyi shook his head, his expression became very complicated , and said: " Of course it's not because of this. "

After Ji Xuanling hugged Ji Xuanyi and cried until his eyes were swollen, Ji Xuanyi gave up and reached a superficial reconciliation with Ji's father in silence the next day. Ji Xuanling was so happy that he ate two more bowls of rice and filled himself up. Because of this stupid thing, the atmosphere between Ji Xuanyi and Ji's father was barely eased.

If Ji Xuanyi had not run to Ji's mother's room out of guilt that day, the conflict between him and Ji's father would probably have been gradually forgotten because of Ji Xuanling. After all, Ji's mother had left, and time would dilute the memory, so when he thought about it later, he would not be so angry about it.

But that night, after Ji Xuanling fell asleep hugging Ji Xuanyi's quilt, Ji Xuanyi was awakened by the cold. Somehow, looking at his silly brother, Ji Xuanyi thought of his mother again, so he sneaked into her room.

Ji Xuanyi originally just wanted to miss his mother here, apologize to her, and ask her to forgive him for not coming back in time to see her for the last time, but he accidentally found the diary that Ji's mother hid in the bed.

There was no emotional foundation between Ji's father and Ji's mother. They were in a family marriage, but later on, the Ji family became increasingly powerful and suppressed Ji's mother's family. In addition, their relationship was average, so the two families interacted less frequently. When Ji Xuanyi and Ji Xuanling were young, they could still see relatives from Ji's mother's family, but later there was no news of them at all.

Ji Xuanyi only knew that the relationship between his parents was not good, but he found out how bad it was after he opened his mother's diary.

Ji Xuanyi originally thought that his father was just a little cold towards his mother, and in fact he still treated her as his wife. But it was obvious from his mother's diary that this was not the case. To Ji's father, Mother Ji is indeed his wife, but the word "wife" is just a symbol in his father's eyes, which is used to show to others, including his own two sons. He actually has many lovers outside. Although he knows that illegitimate children are not only a scandal but also not conducive to the development of the Ji family, he did not cause any death, nor did he have a mistress to embarrass his original wife. But in fact, Ji's father has never concealed this matter from Ji's mother.

If Ji's mother was a cold-hearted person like Ji's father, perhaps this incident would not have much impact on her, but Ji's mother was a very soft woman. She was kind and affectionate towards everything. This kind of emotion was greatly reflected in Ji Xuanling, and it also affected a part of Ji Xuanyi's heart. This was a good thing, but after meeting Ji's father, it turned into a disaster.

Although there was no emotional foundation, Ji's mother tried to love Ji's father after marriage, but she failed and was greatly hurt by Ji's father, including but not limited to his chaotic relationships between men and women. Only Ji Xuanyi and his two brothers were the last pillars of her life.

Although her illness was a tragedy caused by force majeure, Ji's father's actions also indirectly contributed to her eventual departure.

This was the first time Ji Xuanyi knew about this incident, and it caused an indescribable shock to his three views at that time. He had just experienced Zhaochen's betrayal, and what Ji's father did was tantamount to another betrayal. Ji Xuanyi was completely enraged.

His mind told him that he could stay, and after gaining enough power, replace Ji's father and give him the heaviest revenge, but the sentimentality in his character that came from Ji's mother made him feel resistant and disgusted about staying.

Ji Xuanyi finally chose not to stay.

That night, after leaving Ji's mother's room, he kicked open Ji's father's door and pulled up the half-sleeping Ji's father like a wounded young leopard, and the two of them had a fight.

Ji's father was in his prime at that time, and Ji Xuanyi was just in high school. He was a head shorter than Qi Qin. Although Qi Qin inflicted a lot of injuries on Ji's father while he was still asleep, his own condition did not get much better afterwards, and they both ended up being admitted to the hospital.

In fact, Ji's father has always admired Ji Xuanyi's temper which is exactly the same as his own, but it was too much for him to hit him without any explanation. He immediately got really angry and prepared to teach Ji Xuanyi a good lesson. However, what he didn't expect was that Ji Xuanyi had left on his own initiative before that and said that he would never come back.

Ji's father didn't know that Ji Xuanyi knew that he had let Ji's mother down. If he knew, he might show some apology in order to make Ji Xuanyi change his mind. Ji Xuanyi understood Ji's father's style of doing things, so he didn't intend to tell this matter.

Ji's father is an absolutely rational and ruthless dictator, but he is also a father. His father's role is not very good, but not bad either. In the process of getting along with each other from childhood to adulthood, Ji Xuanyi can feel that he actually has feelings for the two brothers.

Although not much, it is true. And this little bit of affection makes Ji Xuanyi unable to completely harden his heart to target the other party. On the contrary, if a man like Ji's father, who has always been strong, shows weakness towards Ji Xuanyi, Ji Xuanyi clearly knows that he will most likely be soft-hearted.

So he did not intend to give the other party this opportunity. He would rather let the other party feel that he was unreasonable and making trouble for no reason. At least in this situation, Ji's father would not look at Ji Xuanyi well. His arrogance would make Ji Xuanyi never bow to him in his life.

After Ji Xuanyi left, his father did not stop him or ask him to come back at first. It was not until his senior year of high school, when his father was planning to send Ji Xuanyi abroad after graduation, that Ji Xuanyi had no intention of obeying his wishes.

At this time, Ji's father realized that something was wrong. He knew that with Ji Xuanyi's character, a hard approach would only result in both sides being destroyed. Only a gentle policy could achieve his desired goal, so he sent Ji Xuanling.

Ji Xuanyi did not tell Ji Xuanling the contents of Ji's mother's diary. Ji Xuanyi could not control the nausea, and Ji Xuanling would probably collapse directly. After all, Ji's father still meant a lot to him. Ji Xuanyi also believed that he did not have the ability to take Ji Xuanling with him to run away. Not to mention whether Ji's father would let them go after both of his sons ran away, the Ji family's business could not fall into the hands of other people. What's more, the conditions of

the Ji family were indeed enviable. It might be best for him if the other party stayed in the Ji family and continued to live his life foolishly.

But thinking so in the heart is one thing, and the anger after seeing that idiot Ji Xuanling running to help Ji's father to lobby is another thing. Ji Xuanyi was in a state of volcano about to erupt, and Ji Xuanling came up to him just to seek death. At that time, Ji Xuanyi pressed him to the ground and beat him up without any explanation – a real beating in the real world, which directly broke Ji Xuanling's leg, and then he was taken back by Ji's family.

When Ji's father saw that Ji Xuanling had returned so miserably with failure, he understood Ji Xuanyi's current condition.

He felt that Ji Xuanyi might need to calm down, but he didn't consider that this might be something that Ji Xuanyi would never be able to calm down.

Mu Xuanyi suddenly appeared after that. In addition to taking revenge on Zhaochen, he also had a certain intention of venting his anger.

Ji Xuanyi's state of mind was actually very contradictory. He wanted to cut off all ties with the Ji family, but he knew very well that Ji's father would not let him go. He wanted to take revenge on Ji's father, but he resisted returning to that family from the bottom of his heart. What's more, he was not sure whether he could really take revenge on this guy.

"The thought of revenge only appeared in my mind when I was angry. In fact, if I calm down and think about it, I may not be able to retaliate against him at all." Ji Xuanyi said in a low voice.

It's not that Ji Xuanyi has no ability. As long as he surrenders temporarily and inherits Ji's father's position, he can do whatever he wants. Ji Xuanyi can't take revenge on him because of his feelings.

Father Ji's attitude towards Mother Ji is unfair, and he is a scumbag. However, as a father in the lives of Ji Xuanyi and Ji Xuanling, he is not a bad person. Ji Xuanling, who is kept in the dark, even likes him very much.

Such emotions are really too complicated, and it is difficult to sort out. It is almost the case that even a judge cannot judge family affairs. Ji Xuanyi is his son, and with his teaching and the support of resources, he has become the person he is today. Even if he has resentment towards him because of Ji's mother, what right does Ji Xuanyi have to retaliate against him? After calming down, Ji Xuanyi could only refuse everything his father gave him, stay away from him and never go back.

Ji Xuanyi frowned when he said this. Maybe he didn't know it himself, but Qi Qin saw sadness in his eyes.

This is probably a question that will never have an answer in the world.

Qi Qin couldn't help but hug him tightly and whispered: "Does Xuanyi want to forgive him? Maybe he should apologize to Xuanyi's mother."

Ji Xuan half closed his eyes and said, "I don't want to forgive him, and my mother probably doesn't want to hear his hypocritical apology."

Of course, Ji Xuanyi would not do anything to his mother just because his mother did not receive love from his father. His mother is not the only one in his life.

" Think about it, he did something wrong, and the only punishment I could give him was the few punches I threw at him that night a few years ago ..." Ji Xuanyi murmured, " If only I had been taller and stronger, maybe if I had won the fight, I would feel a little better now? "

Although it was inappropriate, Ji Xuanyi's idea was really cute, and Qi Qin couldn't help but smile.

Ji Xuanyi pushed him away in dissatisfaction and said, " No matter what, I have finally achieved my goal. "

Ji's father no longer contacted him, which was almost tacit approval of his departure. From now on, Ji's father would no longer ask him to go home, nor would he make things difficult for him on the path he wanted to take in the future. He could completely get rid of that person.

Ji Xuanyi exhaled and whispered, " I am free. "

The author has something to say: I don't know if anyone would think that Ji Xuanyi was too weak in dealing with this kind of thing, but things between family members are like this, especially when you have feelings for them in your heart and you are trying to balance them, even if you know who is right or wrong, you can't do anything about it, alas ...

I have finally finished writing about the three-dimensional things. I will continue with the game activities tomorrow and the arena is coming!

Chapter 191

Ji Xuanling had just left Fanxing City to clean up the mess he left behind and to help Ji Xuanyi find trouble with Zhaochen. The next day, Ji Xuanyi and the others were also ready to leave Fanxing City.

We finally packed up everything and prepared to set off , dragging the ship loaded with countless materials and supplies.

The other two main cities also finished their preparation phase at about the same time, but what was different between Star City and the other two main cities was that in both Moon City and Sun City , the announcement of their departure was made by the Great Magician in the Mage Tower on the map channel, allowing the leading players to go there to report the situation themselves , while in Star City, the announcement was made by Ram, the apprentice who ran errands for August on a daily basis.

The awesome scene when August left the city was still imprinted in the minds of many players. This bug -like event at sea also spread on the forum. Even the players who didn't catch up at the time almost knew about it, so everyone was mentally prepared for the possibility of not seeing August in the second stage . There was no chaos inside Starry City because of this. Xiaoxiao Yuxia, like the leaders of the other two main cities, registered the names of various gangs with Ram.

The escort is divided into two stages . The first is on land , which is the stage from the main city to the seaside . In this stage, many monsters will be refreshed to intercept . The format is similar to the first world mission , but it is simpler . There is no limit on the number of people in this

stage. Anyone who wants to participate can come and participate . The experience and material rewards are very rich.

The one logging in under the rain is the second stage, which is the participating guild at sea. The ships built in the main city are completely different from the ships found by the players themselves. The ships in the three main cities are of the same standard . Except for the different appearances designed with the theme elements of each main city, their internal configurations and sizes are exactly the same.

In other words, the ship of Star City is slightly smaller than the ship that went out to sea for the first time. The players of Star City who have seen the physical body of August's private ship basically didn't have much impression of the ship made this time, while the players of Sun City and Dark Moon City were all stunned.

In addition to the people who need to get on board, a large amount of space needs to be left on the ship to store resources. So although the ship is very large, the number of people available to players is only half of that on August's ship, which is three hundred people.

However, there were already many elite players sent out in the first wave from Star City, and some had to be left behind to defend the city, so three hundred people were neither too many nor too few for them. However, Sun City was considering whether there were other channels, tasks or something else that could expand the capacity of the ship and squeeze more people on board.

It was unknown whether the plan of Day City would succeed in the end, because the main force was small in number and there was no need to worry too much about the speed of the individual soldiers during the march, so it only took Ji Xuanyi and his men four days to reach the seaside. By then, the other two main cities closer to the coast had also arrived, and with the individual soldiers who escorted the ships and materials along the way, the coast was bustling with activity. from the farthest Star City hurried over, and the three parties immediately began communicating. August didn't come, so Irene and the great magician Nibel of Day City could only communicate with August's errand boy Ram. Irene was fine, but Nibel's expression was very ugly.

Ji Xuanyi vaguely knew the character of the great magician of Day City from the forum. He heard that he was even more difficult to deal with than August. He didn't know if Ram could handle it.

However, since the official has made it clear that August can be taken away, there must be a solution to the current situation. Let them make a fuss if they want. No matter what happens, there will always be a mission to be completed in the end. Ji Xuanyi threw them aside without hesitation.

After finally reaching the destination, they could breathe a sigh of relief. Xiao Xiao Yu couldn't help but grab a handful of hair on his head and found that no hair had fallen out. Then he sighed and said, " I don't know if we can rest for a day. The other two main cities have time to sort out the people. Our side is still a mess, with people mixed together. If some random people take advantage of the situation and go up, one or two is fine, but too many will affect our combat effectiveness and mobility. "

Ji Xuanyi heard this and said, " It shouldn't be too rushed. After all, the geographical location of Fanxing City is not advantageous. If the authorities don't take this into consideration, it would seem like they are targeting us and we would be scolded. "

Xiaoxiao Yuxia also felt that what he said made sense, and her expression relaxed a little, saying, " It would be great if that were true. "

Facts have proved that Ji Xuanyi was indeed not wrong. He soon told Xiao Xiao Yuxia the news. The departure time was set for 10 o'clock tomorrow morning, and the rest of the time could be used to rest and prepare for going to sea.

Xiaoxiao Yuxia finally breathed a sigh of relief, grabbed Fengchui and Yugui, and started counting the number of people together.

Yu Gui finally met Ji Xuanyi when she set out. She was an assassin, and although she was not delicate and weak, she had no advantage in the crowded crowd, not to mention that she was alone.

She actually received the news when Ji Xuanyi and Ji Xuanling were confronting each other, but was drowned out by the crowd. After everyone dispersed, a dazed Yu Gui also went to the inner city stronghold to find them, but she was a step too late because Ji Xuan had already gone offline.

They finally met, and Qi Qin was not around. Yu Gui had no worries and was as happy as a little bird, chirping around Ji Xuanyi.

Ji Xuanyi has been in a good mood recently and doesn't find her annoying. However, Xiaoxiao Yuxia always takes her away to do work.

Yugui struggled for a while, but found that he could not get away from Xiaoxiao Yuxia, so he had to follow her. However, before leaving, he asked one more question, saying: " All the people from the three main cities are gathered here, right? How come I don't see Zhaochen? I was going to kill him. "

Yu Gui didn't know that Ji Xuanling had gone to help Ji Xuanyi deal with Zhaochen, so he couldn't help but worry a little bit whether Zhaochen had hidden himself again, preparing to set a trap and attack them secretly.

Ji Xuan glanced at her and said, " You don't have to do anything. He won't appear again. "

The day after Ji Xuanling left Fanxing City, that is, not long after Ji Xuanyi and his companions set out, he found Zhaochen in Yaori City. At that time, the other party was still thinking about how to trick Ji Xuanyi and his companions on the road, but he was directly sent to the resurrection point by Ji Xuanling.

But Ji Xuanling is not Ji Xuanyi after all, and he is still a little lacking in the skill of blocking others from taking turns. Zhaochen had also experienced the time when he was killed by Ji Xuanyi and was forced to surrender. He was so cunning that he actually escaped. Ji Xuanling only found him again yesterday, so there is still some time to waste. However, with Ji Xuanling around, Zhaochen definitely doesn't have the ability to bother Ji Xuanyi again.

Yugui didn't know the inside story and didn't understand what he heard, but seeing that Ji Xuanyi didn't want to say more and was very sure that the other party would never appear again, he obediently followed Xiaoxiao Yuxia away.

They still have a lot to do.

The three of them were busy for half a day under the drizzle and finally managed to get everyone sorted. The next day, everyone boarded the boat and prepared to go out to sea. The players who had never been out to sea were all very excited and were clinging to the side walls, unwilling to come down. Ji Xuanyi, on the other hand, had experience and didn't feel anything. After making sure that the three ships were large enough and that he would not suffer from seasickness like he did before, Ji Xuanyi returned to his room and lay down waiting for the activity to begin.

But being alone is a bit lonely ... It would be great if Qi Qin was here too.

Ji Xuanyi missed her boyfriend again.

When Ji Xuanyi returned to the sea, the people on the Lost Continent were not idle either.

When Zhaochen was still around, the friendship between Fanxing City and Youyue City was as solid as iron. Everyone was on guard against the possibility that Yaori City would suddenly go crazy and do something. But as soon as Zhaochen left, the friendship between Fanxing City and Youyue City seemed to have suddenly turned into plastic.

For example, today, Qi Qin was originally planning to come online to do a task and then log off, but when the interface for logging off appeared, he was grabbed by Jian Xi Xinjiu in panic.

Qi Qin was stunned and asked, " What's wrong? "

Jian Xixinjiu's eyes widened and he shouted, " Oh no! Xuchu and the old western doctor are fighting! "

Qi Qin: "..."

Qi Qin was confused and asked: " Ah? Why did Xu Chu quarrel with the old western doctor? "

Jian Xi Xin Jiu said hurriedly: " Xu Chu originally wanted to pinch Ye Linyu, but Ye Linyu was not there, so the old western doctor came out and said a few words, and then he and the old western doctor started to quarrel! "

Qi Qin was even more confused and said, " Then you just pull them apart? "

Old Western Doctor and Xu Chu are a priest and a mage respectively. Even if Jian Xi Xin Jiu is not a swordsman, his strength as a knight is definitely enough. He can just pull them apart with one hand each!

Jian Xixinjiu covered his face and said, " No, there is no chance. Others told me about this. If I show up, Xuchu will definitely force me to help him beat up the old western doctor! "

If Jian Xi Xin Jiu doesn't beat him, he will be in trouble in the future!

The last conflict with Xu Chu caused the reputation of Jianxi Xinjiu to be damaged, and he was almost wrongly accused of being gay with Xiaoxiao Yuxia. Jianxi Xinjiu would never dare to offend Xu Chu again.

But he couldn't really go up and beat up the old western doctor. It would be fine if Xu Chu just stood up on his own, but if he joined in, that would really become a contradiction. Although Youyue City couldn't do anything to Fanxing City with its power, Emperor Ou Yunzhongjian was their man. Who knew if he would need their help in the future!

Jian Xi Xinjiu was in a dilemma. Normally, he would have gone to find Ji Xuanyi, but now that Ji Xuanyi was not here, he could only settle for the second best and go to find Qi Qin. At least Qi Qin would not submit to Xu Chu's tyranny.

After Qi Qin understood what he meant, he nodded and agreed, saying, "I see. Go and do what you have to do. They are in the camp in Youyue City, right? I'll go take a look."

Seeing that Qi Qin agreed to take action, Jian Xixinjiu finally breathed a sigh of relief and repeatedly reminded him: "Don't make things worse, it won't be good for Ji Xuan to clean up the mess as soon as he comes back."

The last sentence really touched Qi Qin. Qi Qin's expression became stern and he said, "Don't worry!"

Then he strode towards the Youyue City stronghold.

When Qi Qin arrived at the scene, the old western doctor and Xu Chu were huddled together. They both knew that they couldn't really fight, so they didn't use any skills and just fought hand-to-hand.

The melee between the two magic skills was really too funny, even worse than a fight between primary school students. The onlookers basically dispersed after taking a look at who was fighting. Both Old Western Doctor and Xu Chu were familiar faces to the players of Youyue City and Youri City, and very difficult faces at that. Compared with the difficulties that might be encountered in the future, it was better not to watch this excitement.

So when Qi Qin went there, he was surrounded by only Ze Yu Sishui's trio and Yun Zhongjian. Ze Yu Sishui and Qingfeng Bufu were watching the fun and cheering Xu Chu on. Yun Zhongjian and Ming Shao were so anxious that they scratched their heads and were at a loss as to what to do.

"Fuck you, you bunch of sinister villains from Youyue City! What you're talking about cooperation? That's a lie! If I don't fucking react, are you going to continue like this?!" Xu Chu angrily kicked the old western doctor in the crotch.

"Fuck, you use this kind of trick in a fight, and you have the nerve to call me a sinister villain?!" The old western doctor clamped Xu Chu's legs in time, his face full of shock and anger. He felt a little guilty just now, but now he is gone, and shouted: "You are also an adult, okay? I heard that you are also a rich man, and you are willing to cooperate with anyone with your heart and soul. Haven't you discovered that you will not be left without your territory in the future?"

Xu Chu wasn't going to listen to any of this and started scratching the old western doctor madly. Several people around him stepped forward to try to stop them, but to little avail.

Qi Qin was so confused that his head was full of black lines. Although he didn't know what happened, he still went forward and pushed aside the people around him. He grabbed the old western doctor and Xu Chu one by one and separated the two. Then he threw the old western doctor to Yun Zhongjian and dragged Xu Chu to the middle of Ze Yu Sishui and the other two, and said: "What are you doing? Why are you fighting?"

If the relationship between the two groups and Ji Xuanyi could be distinguished, then they would have nothing to say when facing Qi Qin. After all, in most cases, they didn't communicate much with Qi Qin, and the other party only talked to Ji Xuanyi, so after he appeared, the faces of both sides were not very good.

Ji Xuanyi was not around, Xu Chu felt that Qi Qin and the old western doctor seemed to have a good relationship, and the old western doctor also felt that Qi Qin and Xu Chu had a good

relationship. No one thought that this person was here to help them, and the scene calmed down briefly because of this.

But thinking about it, he was still right. Xu Chu immediately said angrily: " Ask them! Shit! Ji Xuanyi and the others have already left, and they almost ruined everything! "

As soon as Qi Qin heard Ji Xuanyi's name, he immediately became serious and looked at the old Western doctor and the others with a frown.

The old western doctor was guilty after all. He was not like Ye Linyu, who cheated people without blinking an eye. In fact, he was still very honest. When Xu Chuyi said that, he coughed dryly and said, " Misunderstanding, misunderstanding. In fact, we just found out not long ago and are not sure. Our leader was planning to tell you about it in the next two days. "

Xu Chu was not Liu Tian, so of course he would not believe it. He rolled his eyes and said, " You are kidding me! "

The old western doctor had a wooden face and began to curse Ye Linyu in his heart. But there was nothing he could do. He had chosen to join the Dancing Gang in the first place. No matter how much of a jerk Ye Linyu was, he had to accept it. He had no choice but to bite the bullet and said, " It doesn't matter whether we know it earlier or later. Our agreement is still there. We have kept the evidence and will not go back on our word. We will still get the base in Star City that we should get. "

Xu Chu frowned and was about to speak, but the old western doctor had already sensed that the situation was not good, and immediately said, " No matter what you say to me now, it's useless. Our gang leader is not here, so my words don't count. Wait until he comes online and then talk to him. "

Before Xu Chu could say anything, the old western doctor immediately added: " You can fight if you want. I'll be there to cheer you on! "

Xu Chu: "..."

While Xu Chu was stunned, the old Western doctor pulled up Yun Zhongjian, and the two of them ran away.

Everyone looked at each other in bewilderment. After a long while, Xu Chu finally came to his senses and cursed angrily: " Fuck! I was wondering why he always looked at us with such a guilty conscience before, and even went to the trouble to deceive Ye Linyu. That bastard was so flawless. If I hadn't been lucky enough to discover this, I don't know how long this would have been kept secret! "

Qi Qin then realized belatedly that the reason why Xu Chu had suddenly quarreled with Ye Linyu and the quarrel was so fierce was actually because of this.

Xu Chu discovered that something was wrong with the old western doctor and guessed that Youyue City was hiding something from them, so he pretended to be angry and ran to confront Ye Linyu. As a result, Ye Linyu pushed Xu Chu back without any hesitation. This made Xu Chu wonder if he was too suspicious. Unexpectedly, he accidentally turned out the fragments of the nautical chart two days ago and discovered the secret.

Qi Qin asked in confusion: " Secret? What secret? "

Xu Chu glanced at the Youyue City camp unhappily and said, " The back of the sea chart is a map of the Lost Continent, which is divided into many areas. Just as we guessed before we set

out, after the Lost Continent is conquered, it will most likely be a PVP stronghold. By then, we will probably have reached the maximum level. According to the nature of online games, the daily PVP after reaching the maximum level should revolve around these strongholds. If we lag behind in occupying the points at the beginning, it will still have a great impact on the future."

Qi Qin frowned. He didn't feel anything about this kind of daily routine, but Ji Xuanyi should also care about this?

Qi Qin thought for a moment and said, "After all, Youyue City has signed an agreement with us before, so it is unlikely that they will go back on their word. But how do you know that they knew about this long ago and didn't tell us?"

Xu Chu was shocked and said, "Of course it's not just because of the expression on that lame old western doctor's face."

In fact, when Qi Qin was slacking off, Xu Chu had been paying attention to the situation of the people sent out from the three main cities to complete the tasks, in case one of the main cities discovered unknown information and they fell behind. As he expected, Xu Chu did find the clues. The players from Starry City and Sun City were rather chaotic when they went out on quests, because at this stage they were only asked to help resist the orcs and moderately expand their strongholds. There was actually no precise goal. However, it was completely different in Phantom Moon City. Although their actions seemed to be very chaotic under Ye Linyu's control, Xu Chu still keenly discovered the problem.

Unlike the other two main cities that were nearby for convenience, players leaving Youyue City would almost always go a little further out.

Of course, this doesn't mean that the players of Star City will not go out. They will certainly explore unknown areas. After all, the refresh is random. But when they go out for a day, most of the day is spent in places they have been to, and only a small part of the time is spent looking outside.

The players of Youyue City, on the other hand, were just the opposite. They only spent a small part of their time searching for places they had been to before – to be precise, this period of time could not be considered searching at all, it was more like traveling. In other words, unlike the players of Fanxing City who were like headless flies, they had a goal.

Xu Chu frowned and said, "They are exploring the characteristics of the area. In this case, even if the area is still divided into 4 and 6, we know nothing about their 4 points, but they know our 6 points very well. The stronghold cannot remain unchanged. There will definitely be a battle for it later. We will suffer a great loss!"

Qi Qin was stunned. He never thought that it was just a piece of information, but Xu Chu could think of so many things. Moreover, what the other party was doing seemed to be the same as what Xu Chu thought.

Perhaps only Ji Xuanyi here could understand Xu Chu, anyway, the others were all stunned.

Qi Qin said hesitantly : "Then, what should we do? "

Xu Chu sighed and said, "Youyue City should be thinking of picking up leaks. If they can, they will. If they can't, forget it. Besides, this kind of information will only have some influence in the early stage when everyone is unfamiliar with it. It will be useless in the later stage. After I tell

them that I know about this, they should not do anything else. But after Ye Linyu comes online later, I still have to talk to him. "

" What to talk about? " Qi Qin asked.

" Of course it's map sharing. He's already done what he wants, so why doesn't he let me get involved? Even if there's no competition between our two main cities, it's good to leave those people from Day City a little further behind ! "

After Xu Chu finished speaking, his face was still very ugly, and he muttered: " If only Ji Xuanyi was here, Ye Linyu would definitely not dare to do anything, and why would he cause me so much trouble now? "

But although Xu Chu said so, he was actually only slightly angry because of Youyue City's covert actions. Most of it was because he had really kept it a secret and was only discovered by luck. He felt a little embarrassed ...

After all, to be honest, the old western doctor was right. No one would be so sincere in cooperation. Even Fanxing City was plotting against Youyue City, so how could Youyue City not plot against Fanxing City? If Xu Chu was in Youyue City, he estimated that he would probably take advantage of Ji Xuanyi's absence to cause trouble. He only regretted that he did not react earlier.

Xu Xiaochu! Cheer up! Ji Xuanyi and Xiaoxiao Yuxia are not here. If you are alone, something will go wrong. From now on, you will not only miss Chu, but also fail to keep your promise!

Xu Chu encouraged himself and said to Qi Qin in a heroic and confident manner: " Tianxia, don't log off early in the next few days! "

Qi Qin was stunned and said, " Ah? What are you going to do? "

Xu Chu sneered: " What are you doing? Are you trying to get the Lin Yu sack? "

Chapter 192

The sack was not finally made.

Although Ji Xuanyi told Qi Qin to follow Xu Chu's instructions and complete the task before leaving , putting on a sack does not count as part of the task! After hearing Xu Chu's words, Qi Qin righteously rejected him.

Even though Ye Linyu is a bitch, he is also a partner of Fanxing City . How can we just put him in a sack without saying anything?

In the end, Qi Qin only promised Xu Chu that he would come out to help boost the other party's momentum when they were negotiating with Ye Linyu. If Ye Linyu dared to trick Xu Chu , Qi Qin would teach him a lesson.

Although Xu Chu was unwilling, he knew that this was the only way out under the current circumstances , so the matter of putting the sack on him was left unresolved.

Ye Linyu is completely different from the old Western doctor. The latter will feel guilty when being exposed, but the former can smile calmly and lie with his eyes open even if you throw evidence in his face.

Xu Chu didn't waste any more time talking to him and directly asked for the map sharing. They should keep the places that Youyue City had explored before , and Fanxing City should choose another place . Furthermore, people from Youyue City were not allowed to interfere.

In fact, Ye Linyu only had half hope for the success of this little trick , and he did not react much when he was exposed . If Xu Chu said that Youyue City had to give up one more point as compensation, Ye Linyu might have argued with him , but the other party probably anticipated his difficulty and only asked not to explore the places they had explored. Ye Linyu could accept this condition and nodded in agreement.

Ye Linyu and Xu Chu added a few new conditions to the agreement. Qi Qin couldn't understand what they were saying and almost fell asleep while standing . As soon as Xu Chu said with satisfaction that the matter was over and they could leave, Qi Qin immediately hurriedly logged off and waited for Ji Xuanyi to leave.

Most of the rebellious orcs that spawn in the Lost Continent and need help are injured or besieged by violent orcs, and some have lost things and need help finding them. The goal of this task seems to be to improve their favorability with the rebellious orcs, but after several days, there has been no change in their attitude towards players.

However, some people did happen to meet people with relatively high AI and could communicate with them. However, the attitude of these people was the same as that of the fox that Ji Xuanyi met at the beginning. Ordinary players had no right to negotiate with the orcs, even if you helped the orcs. If you wanted to discuss cooperation, the three magicians from the three main cities had to come in person.

Xu Chu was very angry at Ji Xuanyi's attitude, but he couldn't beat him up, so he could only wait obediently for Ji Xuanyi and his group to arrive.

Although Ji Xuanyi and Qi Qin don't have much time to spend together online, they can still spend time together offline, and they even have a feeling of being reunited after a short separation.

The situation faced by the players the second time they went out to sea was not much different from the first time, and was even a little simpler. After all, the more difficult monsters had already been killed once when they passed by for the first time, and it was a bit too much to refresh them a second time in a short period of time. Therefore, the monsters encountered by the second wave of players were quite easy to deal with. In addition, Ji Xuan had experience early on and told Xiaoxiao that after the rain, the other party would be on guard, and many oolong incidents would not occur.

Ji Xuanyi originally wanted to go to the supply island he passed by on his first voyage to say hello to the fox father, but this time the direction of the voyage was in charge, and the supplies were more than enough, so in the end he passed by the supply island and headed straight for the Lost Continent.

Because there was no help from the cheaters, the players were slow in completing the tasks and clearing monsters. This voyage took about twenty days. When the three large ships docked one by one, the players who had been doing the same task on land for more than twenty days almost cried with excitement!

Finally this phase is over!!!

They came down from the ship in a mighty and orderly manner, carrying supplies. The players who had drifted on the sea for more than 20 days swarmed out from another exit like mice just out of a cage. The scene was extremely chaotic.

Although Ji Xuanyi had the protection of two force-based professions, Xiaoxiao Yuxia and Fengchui, with everyone working together, he could only be squeezed out dizzy like a boat that had lost control. Fortunately, Qi Qin had already been waiting at the place closest to the exit. After seeing Ji Xuanyi with his sharp eyes, he immediately reached out and pulled the other party to his side, protected him tightly, and squeezed into an open area.

Ji Xuanyi breathed a sigh of relief, hugged Qi Qin tightly, and said, " Long time no see. "

Qi Qin was stunned for a moment, then he smiled and said, " Thank you for your hard work. " The two of them missed each other so many times during this period of time, and now that they finally met, they looked at each other lovingly.

However, at times like this, there are always people who don't have long eyes to mess things up. Xu Chu was sitting on Liu Tian's horse. When he saw Ji Xuanyi, he immediately rushed over. He didn't care about Qi Qin's dark face and said in a sobbing voice: " You are finally back! You don't know how badly I was betrayed by that big bastard Ye Linyu! "

Ji Xuanyi actually knew about it. Every time Qi Qin went offline, he would tell Ji Xuanyi what happened that day. Ji Xuanyi had originally intended to comfort Xu Chu, but this guy really couldn't read the atmosphere, so let alone comfort him, it was lucky that he wasn't beaten to death!

Ji Xuan had a wooden face, kicked Xu Chu away, and said, " That's because you're stupid. " Xu Chu: " qaq ! "

Others also squeezed over, and the few opportunities for Ji Xuanyi and Qi Qin to be alone were gone in an instant. Ji Xuanyi let out a long sigh.

chattering with Xiaoxiao Yuxia, Jianxi Xinjiu, Ze Yushishui and the other two all ran over and surrounded Ji Xuanyi, who they hadn't seen for a long time, to ask about his well-being.

However, Ji Xuanyi had no emotion in his heart and just wanted to beat someone up.

Ze Yu Sishui and Qing Feng Bufu used the intuition of small animals to sense Ji Xuanyi's condition and retreated immediately. However, Jian Xi Xinjiu was completely unaware that Ji Xuanyi's anger was gradually rising, and he kept threatening Ji Xuanyi.

If Jian Xi Xinjiu hadn't accidentally asked a question that Ji Xuanyi almost forgot, he would have really been hammered.

Jian Xi Xin Jiu asked, " Where is that idiot Zhao Chen? Didn't he return to the Elemental Continent with you? Where is he? Has he been dealt with by you? "

Ji Xuanyi and Xiao Xiaoyuxia showed a look of realization at the same time. Xiao Xiaoyuxia frowned and muttered, " Fuck, I was too busy at sea, how could I have forgotten this! "

Ji Xuanyi opened his friend list. Ji Xuanling was not online at this time, and he didn't know what was going on with him.

Did he forget to tell Ji Xuanling that he actually wanted the artifact in Zhao Chen's hand?

Ji Xuanyi was shocked and prepared to go offline to contact Ji Xuanling.

Xiaoxiao Yuxia had already told everyone about how Ji Xuanyi got rid of Ji Xuanling's help in dealing with Zhaochen. She also explained Ji Xuanling's identity. Everyone was stunned by the confrontation between the real and fake Mu Xuanyi.

Although someone had already posted on the forum, it was still not as exciting as the oral account by someone present there.

" Ji Xuanyi also has twins. Wow, what a pity! How come I didn't see them! " Xu Chu was so regretful that his intestines almost turned green: " If I had known, I would have strongly requested to go back! Ji Xuanyi, when will you call your brother over to show him to us! " The others also nodded, and it seemed that they really wanted to see two Ji Xuanyi appear at the same time.

Ji Xuan glanced at him and said, " Don't even think about it. He's busy with something. Once Zhaochen is dealt with, he won't be online anymore. "

Everyone immediately showed an expression of regret. Apart from Xu Chu, Qi Qin's feelings were the strongest.

Ji Xuan glanced at Qi Qin coldly, and seeing that he immediately lowered his head in fear, he let him go and said to the others: " Don't block it. What's the situation here? Get everyone together. We're all here. It's time to open the teleportation array! "

Xiao Xiao Yuxia finally realized that because they hadn't seen everyone for so long, they were so busy reminiscing about the past that the people who had gotten off the boat hadn't even gotten ready yet! He immediately grabbed Xu Chu and Jian Xixinjiu, and the three of them left in a tug-of-war.

Seeing that someone was getting busy, the others felt embarrassed to just sit there and do nothing, so they said goodbye to Ji Xuan and went to help.

The current player base is different from when Ji Xuanyi left. After the death of the stone giant, the last aura of the evil god in this place has almost dissipated. In addition to helping to resist the orcs, they have actually been expanding their territory. Although the area they occupy now is not large for the entire Lost Continent, it is more than enough to accommodate these players coming from the Elemental Continent.

Most of the players who got off the ship have dispersed, and this area is not so crowded anymore. Only some people are still busy preparing supplies for the three great magicians.

Ji Xuanyi took Qi Qincha to the place where they gathered. He wanted to see what August and the other two magicians were doing. If possible, it would be even better if he could witness the establishment of the teleportation array with his own eyes.

Unexpectedly, before Ji Xuanyi could get close to them, he heard the system prompt sound.

[System Announcement] : Congratulations to all players for completing the second phase of the [Our goal is the sea of stars!] event. The teleportation array will be established soon. In 30 minutes, all players will be forced to log off to update the Lost Continent version. This update will take 12 hours. Players who have not completed online tasks should hurry up.

The system announcement was repeated several times in a row, and the players were suddenly excited and started to discuss it. The words of Xiaoxiao Yuxia and others were ignored.

There's nothing we can do about it. We'll be forced to log off soon. What's the point of you saying this now?

It's raining heavily and we have to let them do what they want. If you want to log off early, then go ahead. If you don't want to log off early, that's fine too, just don't make too much noise.

In fact, not many people logged off early, and forced logging off did not have any impact on the game. I don't know what the situation here will be like after the update. It was the last half hour, and everyone went crazy inexplicably. Soon, the situation was a little out of control.

Ji Xuanyi was helpless, it was not like he had never seen such a situation before, but there was a difference between the out-of-control keyboard online game and the holographic online game. At least this place would not look like a mental hospital.

While everyone was still not able to react, Ji Xuanyi hurriedly took Qi Qin to find August and the other two great magicians in the main city. The three of them gathered together, and except for Irene who was smiling, the expressions of the other two did not look very good.

Ji Xuanyi could see that August really disliked the great magician Nibel from Day City, and the latter felt the same.

August was still wearing the exquisite robe prepared for him by Mrs. Harman today, but Nibel's robe was more exquisite and shining than his. In comparison, Irene looked more like someone from a village. For this reason, Nibel's face showed a bit of arrogance, as if he had surpassed the other two.

Of course August would ignore him. After all, his clothes were made by his daughter. In his heart, they were the best clothes in the world. Nibel was like a nouveau riche. How could he compare to him?

Before Ji Xuan approached, he thought the three magicians were discussing the counterattack on the lost continent and the construction of a teleportation array. But after he got closer, he was speechless. Nibel and August were just quarreling like elementary school students, and Irene was trying to mediate.

Nibel glanced at August, sneered, and said disdainfully: " Where is your dignity as a great magician? Just to have a slightly larger piece of land after coming here, you actually became a pioneer and ran here in person? Tsk, don't ever say that I am a great magician of the same level as you, it's shameful! "

August laughed instead of getting angry, and sneered: " Then just be reserved! If I'm not mistaken, Day City now has the smallest area. You can't even turn around, you are like a stink bug, huddled in a small shack! "

" you! "

Nibel was furious and was about to draw his staff, but suddenly he remembered that he couldn't fight here, so he had to grab August's beard. The old man August was quite agile and dodged it. Seeing this, Irene rushed in and stopped him.

August was pleased to see Nibel so angry, and said arrogantly: " And I didn't come here early for the territory, someone invited me. Of course, you don't understand, no one invited you, right? "

Not to mention Nibel, even Irene, the great and approachable magician, was not invited — after all, no player had ever thought of letting her come out together!

Irene was also hit by a bullet and said helplessly: " Come on, you two, stop it. Don't forget that we are in a cooperative relationship this time. Don't be so hostile as soon as you meet. It would be unrestrained to fight by pulling each other's beards! "

snorted and stopped talking after hearing this . Nibel sneered and said, " Our partnership is about to end. Once the teleportation array that requires the three of us to work together is completed, we will become competitors. "

August didn't bite him at all, and Irene shook her head helplessly.

When Ji Xuan saw that they had almost finished talking, he took Qi Qin and walked up to greet the three of them.

Of course August smiled as soon as he saw him, and Irene also nodded and smiled at Ji Xuan. Only Nibel snorted coldly and did not look at Ji Xuan well.

Ji Xuanyi had no intention of getting along well with the people of Day City. He looked at the remaining time and said without further ado, " We have previously come into contact with the rebellious orcs on the Lost Continent. They are a considerable force. Perhaps we can cooperate with them and clean up the Lost Continent together. "

August thought for a moment and said, " Of course. It's a good thing to get help from the orcs. "

Ji Xuanyi then told August about the orcs' request to negotiate with the three great magicians. This time, August showed some hesitation on his face, but it only took a moment for the hesitation to disappear. He said, " Of course I agree, but I don't know about the other two. "

Ji Xuan looked at Irene, who smiled and nodded at him. She turned to the reluctant Nibel and said, " It's okay if Nibel doesn't want to. August and I can only sign an agreement with the orcs on behalf of Youyue City and Fanxing City. I think they won't refuse even if there is one less main city. "

Nibel immediately became angry when he heard this. It would be of no benefit to him if Sun City was left out! He said quickly, " Oh, I didn't say that Sun City disagrees. It is certainly a good thing to form an alliance with the orcs, but the conditions need to be discussed in detail. "

August was too lazy to pay attention to him and said, " That's all for the future. If we want to cooperate, we should at least let them see our strength. Have you brought all the supplies? We need to build the magic circle first. "

Ram, who had been waiting nearby, immediately stepped forward and said, " The magic circle has been set up, and we are just waiting for the three great magicians to start the transmission. "

While the players were going crazy and the great magicians were arguing, the diligent people had already set up a magic circle with a diameter of about 20 meters on an open space at the dock, drove away the onlookers, and stood guard, waiting for August and others to go and start the teleportation.

August nodded and said to the other two: " Now that everything is ready, let's go. "

Seeing that the other two also agreed, Ram immediately walked to the front to lead the way. As soon as August took a step, Nibel immediately walked side by side with him, determined not to lag behind August by even a millimeter.

Irene smiled helplessly and followed the two slowly.

When Ji Xuan saw that the guards surrounding the three great magicians had no intention of driving him and Qi Qin away, he immediately followed them, wanting to see what was going on. The most awesome scene that players have ever seen was the battle against the evil god's clone, when several high-level magicians attacked together with all kinds of special effects flashing. However, Ji Xuanyi had never seen what it was like when three great magicians attacked together to activate teleportation, so he was definitely curious.

After a while, everyone arrived near the magic circle. The surrounding players were driven away, but everyone was curious about what it would be like to open a teleportation array. They all crowded in places where they were not in charge, stretching their necks to look inside. The guards' AI was not that high, and when they saw that there was no one in the area they were responsible for, they ignored it.

Although Ji Xuanyi disliked the noise of the crowd, in fact, his actions were no different from those of everyone else. He was all curiously watching the actions of the three great magicians. August and the other two people discussed something, then dispersed and each took a direction in the magic circle, holding out three magic wands.

Qi Qin glanced at the time, was stunned for a moment, and poked Ji Xuanyi.

Ji Xuanyi was watching the action with bated breath, so he waved his hand away impatiently and said, "What are you doing! "

Qi Qin poked him again, not wanting to give up. Ji Xuan thought to himself that if this guy couldn't come up with an answer, he would be beaten! So he turned his head, glared at him, and said, "If you have something to say, say it now! "

Qi Qin pointed to the direction of the time display in his sight and said, "It seems to be too late."
"

Ji Xuan was stunned for a moment, and looked up, only to find that there were only a few seconds left before he was forced to log off!

The other players didn't know yet, they were all concentrating on watching the scene, waiting for the upcoming big scene. As a result, as soon as the three of them opened their mouths, their staffs shook, and everyone's eyes went dark. When they regained their vision, they were already offline ...

Ji Xuanyi, who was lying in the game cabin: "..."

What the hell! Stupid officials!

In fact, Ji Xuanyi was not the only one who thought this way. Other players also felt the same way. They wailed in the game forums and were envied by other players.

Server 2 has already finished the second stage and is about to start the formal attack on the Lost Continent, while the fastest servers in other servers are only halfway through the second stage, and the three great magicians are still drifting on the sea.

Many players came to the players on the second server to ask for strategies for the levels they might face next. But in fact, except for a small number of players who actually participated, most people had nothing to tell them. What's more, the strategies were basically in the hands of Ji Xuanyi and others, so it would definitely be Xiao Xiao Yuxia and others who would come forward to publish the strategies in the end.

Anyway, after entering the maintenance phase, the earliest to go online would be tomorrow morning. Ji Xuanyi simply called Ji Xuanling directly, wanting to inform him to remember to find a way to get the artifact while dealing with Zhaochen.

Ji Xuanling was probably still sleeping, and he was still a little confused when he answered the phone. He muttered in a daze for a long time, until Ji Xuanyi ruthlessly told him that the phone bill was too expensive and he would hang up if he continued to talk, then Ji Xuanling calmed down and waited obediently for Ji Xuanyi's instructions.

"Killing Zhaochen is not entirely the most important thing," Ji Xuan said, "What's in his hand——"

"There is a knight's artifact." Ji Xuanling continued.

Ji Xuanyi was stunned for a moment and said, "You know?"

Over the phone, Ji Xuanling hugged the quilt and laughed, saying, "I've already got it. It was a while ago. I wanted to send it to you directly, but you're at sea and the mail doesn't seem to be working. I'll send it to you when the teleportation array arrives."

Ji Xuanyi didn't expect Ji Xuanling to be so considerate and actually got the artifact. He asked in surprise, "Zhaochen wouldn't hand over the artifact so easily, right? How did you get it? Where is Zhaochen? Is he dead or alive now?"

Chapter 193

setting for kill drops in the game "Domain". After all, although almost all officials have banned offline transactions, equipment can indeed be traded for RMB. If there is a drop setting, the situation in the game is likely to change.

After all, killing and robbing in the game is not illegal. It is fine if it is a mission-based gameplay, but once the practice of killing players to steal equipment becomes a trend, the gaming experience of most players will become very bad.

However, it is not the official intention that a piece of equipment that only exists in the entire server will always be equipped on a certain player. Therefore, the setting in the game is that although it is not dropped by killing, it is not against the rules to obtain it by other means except for fraud and theft.

In other words, in addition to purchasing it with money, you can also get the weapon during a fight if you have the ability.

But everyone knows that this is difficult. After all, equipment can be put into the backpack at any time. When two parties are wrestling, if you are strong and the other party feels that he cannot beat you, he can put the equipment directly into the bag to keep it. You will not be able to take it out at that time. But if you are not as strong as the other party and the other party thinks you can beat him, you still want to snatch the equipment, which is tantamount to giving away your head.

This setting is actually stuck in a very delicate spot. It is hard to say whether it is good or bad, but the situations that the official wants to avoid can basically be avoided. The weak will not be easily robbed, and the possibility of the circulation of artifacts is guaranteed to a certain extent.

Of course, the official has naturally taken other factors into consideration, such as the possibility of psychological warfare and threatening the other party to hand over equipment, but this is the player's own business. As long as it does not involve real life, the official will not interfere.

Ji Xuanling was originally a half-official, so he knew these rules better than anyone else. It is impossible to spend money, as that would be a bargain for him. However, it is certainly impossible to threaten Zhaochen with other things. Neither the command of Yuri City nor his own rank seem to be particularly important to Zhaochen. His only obsession now is probably to drag Ji Xuanyi to death with him.

Of course, Ji Xuanling would not sell out Ji Xuanyi. In fact, it could be said that it was an accident that he got Zhaochen's artifact. After all, he didn't know that Zhaochen was holding a divine weapon at that time. Ji Xuanyi just asked him to help deal with the other party.

Just as Xiaoxiao Yuxia had guessed, Zhaochen was stunned when he met Ji Xuanling. He was in a state of "who is this?". He was cut one level by Ji Xuanling while standing still. He only reacted after returning to the resurrection point. Although he didn't know why " Ji Xuanyi " suddenly turned into an assassin, he still subconsciously started to run for his life.

It was here that Ji Xuanling let the other party run away.

However, although Ji Xuanling only killed Zhaochen at the beginning, in fact Zhaochen's level was not very high. Because of this, Ji Xuanling didn't take the other party seriously. As a result, he searched for Zhaochen for three days. During those three days, Ji Xuanling did not dare to contact Ji Xuanyi, for fear that he really let Zhaochen run away, and then Ji Xuanyi would really ignore him. Fortunately, on the fourth day, Ji Xuanling finally found Zhaochen's trace.

" That guy is too difficult to deal with, " Ji Xuanling complained, " I originally thought he would go back to the base in Bancheng and let others protect him, but I never saw him. Later I realized that he might not be able to command others at his level. "

In addition to his inability to command others, it was probably because Zhaochen's final plan failed again and he lost the support of the people. Ji Xuanyi guessed so without interrupting Ji Xuanling.

Ji Xuanling said: " I finally found him in the wild area. I didn't know what he was doing. He was in a daze. I started to chop him and then I remembered to run. "

Zhaochen's horse was still very fast, and Ji Xuanling almost caught up with him. However, just when Zhaochen was about to get rid of Ji Xuanling, suddenly a man appeared on Zhaochen's way of escape. When Zhaochen saw that man, his expression could be described as terrified. Seeing that he was distracted, Ji Xuanling jumped up to hit him and accidentally attacked Zhaochen's hand holding the weapon. Zhaochen was probably too frightened and the Spear of Annihilation fell directly from his hand.

Ji Xuanling was not ignorant of the value of the equipment. It was a good thing at first glance. Zhaochen dropped it himself, so how could he not pick it up? After picking it up, he found that it was actually a magical weapon. Ji Xuanling didn't know who the person Zhaochen was facing was, and why it had such a big impact on him. However, since Zhaochen didn't react, don't blame him for taking advantage of the situation.

This time Ji Xuanling didn't let him escape. He directly pressed him to the resurrection point and it was Bai's turn.

" At first he didn't react much, but then, for some reason, he suddenly became very excited, pointing at the man standing next to him and asking me why I only killed him and not that man. Compared to that guy, do I think he made the biggest mistake? "

Ji Xuanyi's heart moved, as if he had thought of something, but he didn't say it out loud. He just asked: " Then, how did you answer? "

Ji Xuanling shrugged and said, " He said so. What can I do? Of course I have to say he is right. Otherwise, how can I pretend to be you if the conversation continues? If I am exposed, I will have no deterrent effect at all. "

Ji Xuanyi was somewhat speechless and asked, " What happened next? "

Ji Xuanling said: " Then that man pointed at Zhaochen and laughed. Zhaochen, that idiot, actually had the nerve to look at me as if I were a heartless man. I went up to him and stabbed him— "

Ji Xuanyi: "..."

Really ruthless, well done!

Ji Xuanling was speechless, " Then Zhaochen glanced at me and the person next to him, and then he went offline. I watched him for a week, but he didn't come back. I guess he didn't plan to come back. This guy is really weird. He didn't even ask about the artifact. He didn't even curse me for robbing him. He just kept talking about all kinds of nonsense that I couldn't understand. "

Ji Xuanyi probably understood and said, " It doesn't matter. You did a good job and achieved your goal. That's enough. "

Ji Xuanling laughed happily when he heard this and said, " It's fine as long as you think it's fine. But who is that guy who showed up later? He also looked at me with a strange expression, as if he knew you and Zhaochen! "

Ji Xuanyi lowered his eyes and said, " If I'm not mistaken, he should be an enemy as well. "

Ji Xuanling smiled and said, " Then I guess you've already had your revenge? That guy seems to have been gang-raped, and his equipment is pretty outdated. I don't know why he suddenly came up again. Maybe he'll continue playing. Do you want me to help you keep an eye on him? "

Ji Xuanyi shook his head and said, " No need. Zhaochen is not online, and he probably won't be online. Although he has a grudge against me, his grudge against Zhaochen is huge, and I am nothing. Zhaochen is dead , and he probably has fulfilled his wish. I just don't know how he suddenly came back and ran into Zhaochen. "

However, Ji Xuanling said that Zhaochen was in a daze in that place from the beginning. It was possible that Zhaochen was the first one to be contacted. No one knew what exactly happened between the two of them.

Ji Xuanyi had no intention of pursuing any further matters related to Zhaochen. It was enough for him to make sure that this person would not appear and disturb him again in the future.

Ji Xuanyi said: " The teleportation array will be opened tomorrow. I will wait for you at the teleportation point for a few days. "

Ji Xuanling said that he would hand the things over to him in person. Thinking that everything had been resolved and that this might be the last time the two brothers met in a short period of time, Ji Xuanyi was still willing to waste some time for Ji Xuanling.

Ji Xuanling smiled and said on the other end of the phone: " No need to wait, I was already at the beach when I had this plan, and my account has been parked there for several days. I will come to find you when the server opens tomorrow! "

My younger brother is still as well-behaved as ever.

Ji Xuanyi raised his eyebrows and said, " Okay, see you tomorrow. "

Ji Xuanling recalled the time when he and Ji Xuanyi were together as children, and his smile became even happier. He said, " See you tomorrow! "

After saying that, Ji Xuanling remembered something and said a little embarrassedly: " Brother, can you give me a goodnight kiss? It must be with a ringing sound! "

Ji Xuanyi: "..."

Ji Xuan glanced at Qi Qin who was sitting next to him and staring at him hung up the phone silently.

I'm sorry, Ou Doudou, your brother is a married man now, so a casual kiss is impossible, let alone a kiss with a ring! Kiss yourself in front of the mirror!

Ji Xuanling: "... qaq ! "

Ji Xuanyi had no intention of telling anyone else that Ji Xuanling had come back to find him.

After all, Xiaoxiao Yuxia was the only one who had met Ji Xuanling, but others would surely rush over to watch, and the situation would be very chaotic by then.

I have to say that Ji Xuanyi is really foresighted.

Because the teleportation array plot was triggered at five o'clock in the afternoon, the server was opened at five in the morning after the update. Ji Xuanyi and Qi Qin did not rush for that hour, and got up at six o'clock as usual, packed up and went online.

Qi Qin knew that they got up very early every day and most people were still sleeping at this time, so he didn't expect to see a dense sea of people in the dim sky after logging into the game

...

The time in the game is synchronized with the real world. In the darkness, the players themselves will emit a faint light. After Ji Xuanyi and Qi Qin came online, they saw rows of players with a faint glow all over their bodies. They were crowded together, and the situation was very scary, as if they had accidentally walked into some strange horror movie.

Ji Xuanyi was very familiar with this kind of scene of scrambling to open the server, but Qi Qin couldn't help but mutter: " Everyone is working so hard. "

Ji Xuan took a look at his friend list. Except for Xu Chu, almost everyone was rushing to log on to the server. Ji Xuanling was also there. Without saying a word, he formed a group with him, and then rejected Xiao Xiaoyuxia and others one by one, and chose an open place to wait for others.

The current dock is completely different from when they went offline yesterday. It has been renovated inside and out. The previous simple fence has been torn down, and a simple business site has been built using wood and stones combined with magic circles. It looks like a place to station troops.

The official time for serious missions is actually after eight o'clock. In order to take into account the players' work and rest time, limited-time activities are also adjusted to after ten o'clock.

According to the official settings, everyone is resting between midnight and early morning, so

now there are not many around except for sporadic puppet guards, and it is crowded with players.

The teleportation array opened by August and the other two was based on the magic array they had laid out with materials before, forming a huge light blue column of light pointing to the sky, but it dispersed into tiny stars about ten meters above the ground, which was very beautiful. The light at the bottom did not reveal the magic array, nor was it dazzling. From time to time, a few players were spit out, and some players disappeared from it.

Generally, the appearance of such new things would arouse people's curiosity. However, Ji Xuanyi rarely saw any mentally retarded players going in and out of the teleportation array. It seemed that either the teleportation had a CD , or the teleportation fee was relatively expensive. Qi Qin watched from the side for a long time, and also had an expression that showed he wanted to go over and give it a try. Just as Ji Xuanyi was about to let him go and play, he saw a familiar figure walking out of the teleportation array. It was Ji Xuanling!

Qi Qin's eyes widened the moment he saw Ji Xuanling. He looked at his brother who was walking towards him, and quickly turned to look at Ji Xuanyi. He repeated this several times before he held Ji Xuanyi's hand with lingering fear and stayed close to him, fearing that he might have accidentally recognized the wrong person.

Ji Xuanyi found it funny and took him a few steps until they met Ji Xuanling.

Before Ji Xuanling got closer, he had already set his sights on Qi Qin, who was clinging closely to his brother, and was very picky about this person.

You are as strong as a big bear, yet you have the nerve to act like a little bird. Do you have any shame?

Ji Xuanling criticized the other party in his heart, and shamelessly felt that he and Ji Xuanyi looked more compatible when standing together.

If Ji Xuanyi knew what this man was thinking, he would inevitably beat him up again.

Ji Xuanling knew Ji Xuanyi's character very well, so he didn't say what he was thinking. Instead, he ran forward and hugged Ji Xuanyi's other arm as if to show his support, and said sweetly: " Brother, I miss you so much! "

If it wasn't for the darkness, no one could see each other's appearance clearly. Ji Xuanyi and Ji Xuanling would definitely be watched if they were together like this. However, the sky was about to dawn, and the cover of darkness would not last long. Ji Xuanyi kicked Ji Xuanling away without saying a word and said, " Take out your things, you can leave. "

Ji Xuanling: "..."

Are you so heartless?!

Ji Xuanling didn't know what he was thinking. He glared at Qi Qin, then slowly took out the Spear of Annihilation and handed it to Ji Xuanyi.

Although Qi Qin had been bullied many times by Ji Xuan's family, he had developed resistance to their slightly fierce looks, so he didn't feel much when facing Ji Xuanling's eyes. But this was the first time they met, and he didn't understand why the other party had such great hostility towards him, and showed a trace of confusion.

Ji Xuan put away his equipment, nodded to Ji Xuanling, and said, " Okay, you can leave now. Study hard. Your family will depend on you in the future. "

Ji Xuanling's eyes moved slightly when he heard this, as if he wanted to say something, but in the end he didn't say it. He just looked at Ji Xuan for a while, showed a nonchalant smile, and said: " Brother, I have a question for you. "

As he said this, he also glanced at Qi Qin beside him.

Ji Xuanyi thought he was going to ask about the relationship between him and Qi Qin, and was about to refuse when he heard the other party say, " I don't know when we will meet next time. I asked you whether you agree to answer me or not. "

After that, Ji Xuanling quickly approached Ji Xuanyi, winked at him, waved his hand, and said, " Brother, don't you really want to consider orthopedics? "

Ji Xuanyi: "..."

Qi Qin: "..."

As soon as a hint of murderous intent appeared in Ji Xuanyi's eyes, Ji Xuanling quickly turned into a white light and escaped for his life.

Ji Xuanyi couldn't take a plane to catch him and beat him up, so he could only curse this guy inwardly and told him not to run into him next time he came online. Then he looked at Qi Qin on the side.

The two looked at each other for a long while. Just when Ji Xuanyi thought Qi Qin would be angry, the latter asked stupidly: " What does orthopedics mean? "

Ji Xuanyi: "..."

Ji Xuanyi said calmly: " It's the place where he treats bone diseases. He asked me if I would consider breaking his leg again. "

When Qi Qin heard about breaking a leg, he felt a sour taste in his mouth. He shuddered and asked with lingering fear: " Is he provoking Xuan Yi? "

Ji Xuan nodded without saying anything.

Isn't this a provocation? It's just asking for a fight!

Qi Qin sighed and said, " No wonder he went offline so quickly. But Xuanyi is my younger brother after all, so we can't hurt him. "

Ji Xuanyi agreed perfunctorily, thinking to himself, if you knew what he meant, he would probably want me to beat him to death.

Not long after Ji Xuanling went offline, it was dawn. Players continued to come in from the Elemental Continent through the teleportation array. The small dock was crowded like a can of sardines. Ji Xuanyi and Qi Qin quickly retreated to a more open place and contacted Xiao Xiaoyuxia and others, asking them to control the situation on the Elemental Continent.

In fact, before Ji Xuanyi spoke, Xiao Xiaoyuxia had already begun issuing orders to the group of people on the coast of the Elemental Continent.

It's easier to deal with the larger independent gangs, after all, they will have to follow the three major gangs in future activities. If they don't obey now, they may not have the chance to obey in the future. The troublesome ones are the small gangs with very few members and very fragmented. There is basically no channel to notify them, or even if they are notified, they don't take it seriously.

They play games for no apparent purpose and just do whatever they want without any worries. It's very troublesome, but you can't say they are wrong. You can only watch the place getting more and more crowded.

Xiao Xiao Yuxia had no choice in the end and could only follow them. She took her men to meet up with Ji Xuanyi and the others and went directly to find August who was being guarded by the guards.

After August received the news from Ji Xuanyi and Xiao Xiaoyuxia, he said that since the support had arrived, there was no need to wait any longer and let's prepare to go!

Xiaoxiao Yuxia had never expected that he would go to the battle as soon as he was told. While he was distracted, the third phase of the activity mission started.

[Capture the Lost Continent] : 0/48

Sun City: 0

Youyue City: 0

Star City: 0

Activity goal: Everything is ready, the east wind has arrived, the evil god has been sealed, and what remains on the Lost Continent is only his remaining power, but the remnants of the defeated army should not be underestimated. When encountering an enemy that cannot be defeated, you still need to seek cooperation! Clearing the enemy and returning to the mainland will be a protracted battle, and I hope all adventurers can persevere!

As soon as the activity interface popped up, everyone in August's room was stunned.

But they were confused, but the individual players outside were not. Although some of them didn't even know what to do, they still rushed out of the camp together with the others, shouting and howling, and headed towards the area outside which was guarded by the violent orcs in crisis.

Sword washing new wine: "..."

Ji Xuanyi: "..."

Xiao Xiao Yu wiped his face with difficulty and said, "It doesn't matter. We are all scattered people anyway, and we have a teleportation array. It doesn't matter if we die..."

In fact, it was almost like that. Liu Tian called Xu Chu online, and when they gathered together to plan the attack route, those scattered people were chased and killed by monsters again, crying and howling. Many people lost levels. Fortunately, the resurrection point was nearby, so they did not suffer the tragic situation of being buried by monsters at the resurrection point. However, after this incident, the scattered people settled down, stayed in the camp obediently, and no longer ran around.

Xiaoxiao Yuxia breathed a sigh of relief, and together with Xu Chu, she drew a winding line on the complete blueprint copied by the players.

Both Fanxing City and Youyue City knew what the separate counting of the three main cities on the activity interface meant. Now that Yueyang City did not have Zhaochen, it was a question whether it could keep up with the pace. However, it was also clear that they would not cause trouble for Fanxing City again. Ji Xuanyi and the others simply threw Yueyang City aside and ignored it completely.

" At this stage, there is actually no point in discussing this with Youyue City. The three main cities will definitely go their separate ways. Youyue City and Yueri City will automatically avoid us, " Xiaoxiao Yuxia couldn't help but sighed, " This is how Yueri City was treated back then. I never thought we would have such a day. "

Ji Xuanyi and Xu Chu ignored him and carefully observed the strongholds on the map.

After piecing together the map of the Lost Continent with Youyue City, everyone was able to see clearly what the Lost Continent on the map looked like.

A solid vertical line divides the Lost Continent into two parts . The part farther from the dock is blurry and not very clear, while the other part is very clear. Many small outposts are drawn with dotted lines. A casual count shows that there are exactly forty-eight pieces.

pvp activity base they need to fight for next .

Xu Chu had already settled a lawsuit with Youyue City regarding the distribution of bases. Now he just had to follow the route to capture the bases one by one, but what about the other half of the map marked with a solid line? It seemed that there was no intention for players to peek in, or was it a mysterious area with unopened gameplay?

Xiao Xiao Yuxia frowned and thought for a long time, then said, " Could this mean that our mission at this stage only takes up half of the land? The other half will be taken up in the next event? "

Chapter 194

After Xu Chu heard what Xiao Xiao Yuxia said , he was speechless and said, " An evil god has fought from level one to the maximum level, and has launched five or six activities . After reaching the maximum level, he wants to launch another one. You really look down on the official planning, don't you? How is it possible! "

Xiao Xiao Yuxia smacked her lips and said unhappily, If you can do it " , go ahead . What do you think is going on? "

Xu Chu's guess is that this area might be a new way to play , such as a battle royale mode, or it might be a place prepared for daily life after reaching the maximum level.

Xiao Xiao Yuxia rejected it immediately and said, " This is half of a continent! The PVP base is divided into 48 pieces, which only occupies half of the map. The other half is a battle royale? You calculated the battle royale activity for half a year, right? "

Xu Chu knew that his inference was wrong , but how could he give in in front of Xiao Xiao Yu Xia? He immediately stiffened his neck and said, " It will take another half a month to go out to sea . What's wrong with escaping for half a year? What's wrong?! "

Seeing that the two were about to fight , Ji Xuanyi said helplessly: " Have you forgotten a force? "

Xu Chu and Xiao Xiao Yuxia turned around at the same time and looked at Ji Xuanyi. couldn't help but smile when he thought of something , and said, " There are not only humans on this continent , there is another indigenous people. "

Xu Chu was stunned for a moment, and immediately said: " Resist the orcs! "

Ji Xuan nodded and said, " The rebellious orcs I met before said that they wanted to discuss the alliance with the three great magicians. If we really want to take back the Lost Continent, they will definitely take half of it. "

Xiao Xiao Yuxia was a little reluctant to say this , and said: " It's half a continent, is it possible not to form an alliance? "

Xu Chu looked at him speechlessly and said, " Brother, they have already marked out their positions. Do you think it is possible that they will not form an alliance? Moreover, the evil god is gone, and only its minions are left. You have no idea how difficult it is to defeat them. Although it is certainly possible to defeat them by using a large number of people, look at this area! "

The dock where they were located was basically a tiny area in a stronghold. Even with the land that Xu Chu and his men later occupied on the Lost Continent, it still hadn't filled up a stronghold. There were a total of forty-eight such strongholds!

 " If we really continue to grind at the pace we are currently at, it will take us more than half a year to take down all 48 strongholds! "

The game is updated so quickly. If you say that a season is four to six months, that's fine, but how can players spend more than half a year on an activity? Isn't that crazy? It's so boring!

 " It's impossible, " Xu Chu said, " Even if the authorities gave me this option, I don't want to waste so much time on it. "

Xiao Xiao Yu Xia knew that Xu Chu was right after hearing this, so she could only sigh and said, " Okay, let's do this. "

Ji Xuan said, " The great magicians of the three main cities are still together now. After we set out, the three main cities will go their separate ways. It will be difficult to gather together for a meeting. Go and discuss with the other two main cities and postpone the departure for a day. No matter what, we must first reach an agreement with the rebellious orcs. "

Xiao Xiao Yu Xia heard this and couldn't help but say, " It's easy to contact the other two main cities, but how do you contact the orcs? "

Ji Xuan glanced at him, smiled, and said, " For this, we have to go to Youyue City first! "

Ji Xuan definitely didn't go to Youyue City to find Ye Linyu, and of course not to chat with the old western doctor. Yun Zhongjian was his target – he had truly seen the power of the European Emperor, so when encountering such a thing, of course he had to ask Yun Zhongjian for help. There were more players coming from Youyue City's teleportation point than from Fanxing City, but the stronghold set up by Youyue City was only so big, and it was crowded with people.

Fortunately, most people were very calm. As soon as Ye Linyu said that there were too many people, some people immediately went back from the teleportation point very consciously.

But even so, the camp in Youyue City was still very crowded, and Ji Xuanyi took a lot of effort to find Yunzhongjian.

With Yun Zhongjian leading the way, Ji Xuanyi easily found the fox Eddie in a cave again.

Eddie didn't seem surprised that Ji Xuanyi came again, but said calmly: " How is it? Are you ready to negotiate? "

Ji Xuan looked around him and found that the little fox was gone. He guessed that it was sent away by Eddie. The last time it appeared here was because it had a mission to complete

against the orcs. Now that the little fox was sent away, it was still here. Judging from the nature of the game's plot setting, it should be here specifically to ambush them.

Although I don't know why the rebellious orcs suddenly changed from hating humans to their current attitude, it can be seen that the rebellious orcs now also want to cooperate with humans. Ji Xuanyi smiled and said, "Yes, our three great magicians have arrived at the dock and are ready to negotiate an alliance with the rebellious orcs at any time."

Eddie breathed a sigh of relief, and said, "Then let's meet at seven tonight. Our leader will come to negotiate. Humans, I hope you won't let us down."

Ji Xuan nodded and said, "Definitely not."

The goals of both parties were the same, and it was possible that because of the previous rescue of the rebellious orcs, the orcs' hostility towards humans had decreased, so the alliance negotiations could be said to be a natural and smooth process. Except for the sudden event of welcoming the orc leader at night, nothing else happened.

The players did not see the negotiation stage. Instead, they surrounded the meeting place and stretched their necks to look inside the room. However, the window of the room was not even open, so it was obvious that they would not gain anything.

But within an hour, they filed out of the room again. Irene was fine and still smiling, but August's expression was a little subtle, and Nibel looked at the orc leader with some dissatisfaction.

The leader was a white tiger, fury and cute, but given his level and health bar, no player would dare to provoke him. He glanced at the players surrounding him, then looked back at the three great magicians in the main cities, nodded at them, and left again surrounded by the orcs.

Immediately afterwards, they announced that they would give half of the Lost Continent to the indigenous orcs, and the orcs would become friends with humans who would help each other, and in the following battles, the resistance orcs would also send troops to assist humans and conquer the Lost Continent together.

The players were all excited and talked about it. Some thought it was normal. Orcs were the indigenous people, so it was good to make friends with them. It was also reasonable to give up half of such a large area. But some people held the same idea as before the rain. They thought that the players could take the land by themselves, so why should they give up half to the orcs. But no matter how much you complain, from the players' point of view, this is the plot of the game after all. The decision has already been made, and there is no point in you, the players, objecting!

After some discussion, everyone dispersed in disappointment.

Ji Xuan looked at the time and was about to log off, but before he could call up the offline interface, he was stopped by one of August's puppets.

"Master Ji Xuan, Master August wants to discuss something with you."

Ji Xuan thought about it and guessed that it was related to the orcs at this critical juncture. He didn't know what it was, so he nodded and followed him.

The other two great magicians had already returned to their own main city base. August did not return to his room, but waited for Ji Xuanyi under a big tree.

In the night, surrounded by tiny fireflies, huge dark green trees were vaguely visible, and below them stood the hunched-over great magician, who looked small but actually possessed

enormous power. The contrast between the two was actually quite artistic, but Ji Xuan had only one thought after seeing it.

It's not easy for this tree to survive the previous logging and fencing activities!

Ji Xuanyi was distracted and came to August.

August smiled at him and said, " Did you hear what those people said? "

Ji Xuan was stunned for a moment before he realized from his expression that he was referring to what the players had just said : " There is no need to leave room for the orcs . "

This setting is quite interesting. I wonder if it is the key word that triggers the plot, or if it is a fixed plot. If the players don't say it, someone will say it for them ...

Ji Xuanyi had unknowingly missed the point, but August continued, " They don't know what happened between orcs and humans on this continent in the past. Although I can't really say who was right and who was wrong, I have to say that we do have a connection with the orcs. Irene originally advised me to tell everyone about what happened back then, but telling someone about something that is unclear, other than creating disputes, has no meaning. "

What August said was not wrong. If this was not a game but the real world, whether people felt that humans owed orcs or that orcs owed humans, it was not a good situation. It would be better to say nothing. Even if some people felt that orcs were not needed, it could not be denied that orcs contributed to the conquest of the Lost Continent. Most of the rest of the people felt that humans and orcs were friends, and it was natural for the indigenous people to occupy half of the continent.

As for the orcs, humans have a natural attitude, so they won't make things too difficult for them. Although August is an eccentric wizard who is unsympathetic and only knows how to study magic, he is the symbol of Starry City after all, so this is understandable.

Ji Xuanyi didn't say anything, just nodded.

August walked a little closer and said with a smile: " Orcs have always been hostile to humans. I didn't expect this negotiation to be so easy. I guess I should thank you for that. "

Ji Xuanyi was stunned, thinking, isn't this the result of other players' efforts? He has been drifting on the sea during this stage of helping the orcs, and has not participated in it at all. What does it have to do with him?

August winked at him and said, " The orc leader told me that a little fox sent back by humans told him that the right and wrong of the past are not important. Humans and orcs need to look forward and work together to create a better future so that everyone will be happier. "

Ji Xuan was stunned for a moment before he realized that these were the words he used to coax the little fox. He didn't expect that they would be brought up at this time. Awesome ...

Fortunately, I pretended to be cool at that time. If I had said the wrong thing, would there have been more twists and turns in the process?

Ji Xuanyi was still frightened, but under August's gaze, he still responded: " The little fox is very well behaved. "

August also nodded. He also liked the little fox very much when he was on the boat.

August looked up at the bright moon in the sky and said confidently, " The operation to recapture the lost continent will surely succeed, but you also know how big this continent is. Even with the help of the orcs, this will be a protracted battle – you have to hold on! "

Ji Xuanyi finally understood what the reason was. In addition to praising him, the planner also used this as an excuse to tell them that this was a long-term mission and it might take a long time, so they should be mentally prepared!

Ji Xuanyi had expected this. After all, it was an activity to expand the territory. The area was so large that it would take at least one and a half months to attack one stronghold. Moreover, one day would definitely not be enough. This activity would take at least two or three months.

And as expected, this will be the last activity before reaching the maximum level. In other words, most of the players who started playing when the server was launched will reach the maximum level in this activity. After all, the daily maximum level quests will probably follow soon after. If only a few players reach the maximum level by then, what's the point? A large number of players must be allowed to reach the maximum level before the quests are released.

This does take into account the feelings of most people, but people like Ji Xuanyi who are at the top of the pyramid are at a disadvantage. I don't know whether there will be any compensation in the event.

After August and Ji Xuanyi finished their conversation, they asked the puppet to send him back to the base.

Ji Xuanyi thought about it and decided to tell Xiaoxiao Yuxia and the others about August's announcement. Except for Liu Tian and Jian Xi Xinjiu who felt it was a bit scary, Xiaoxiao Yuxia and Xu Chu had already prepared themselves mentally.

The next morning, a large wave of green-named soldiers who were resisting the orcs appeared outside the stronghold. All they needed to do was to have a conversation with the orc commander from three main cities. If they answered the questions to their satisfaction, they could take the soldiers away and help them with the next activity.

What could be considered a pleasant surprise was that the little fox Jack also appeared in the team with a large group of foxes. As soon as Xiaoxiao Yuxia brought their team to the gathering point in Fanxing City, the little fox jumped into Ji Xuanyi's arms like a little bird just returning to its nest, and was fondled by Ji Xuanyi and others.

After the head count was completed and the assembly was over, the three main cities were divided into three lines and each set out to capture the stronghold.

This activity was relatively simple. Most of the time was spent on clearing monsters. There were only a few tasks, and apart from gathering and moving forward, there was a relatively high degree of freedom. After the first wave of people left the dock, space was vacated, and the following players were teleported over immediately. Almost everyone in the continent came out in droves, and the speed of clearing monsters was much faster than Ji Xuanyi had imagined.

To be honest, the side quests in the middle of this event were quite interesting, but fighting monsters was a completely exhausting part. Fortunately, there were a large number of players, and people kept coming from the Elemental Continent to fill in. Players who were tired of killing monsters could take a rest at any time, or even go back to the Elemental Continent to relax, so they were able to persevere.

Nothing strange happened, and the Sun City stopped causing trouble. Two months later, the Lost Continent was successfully taken over.

Of the forty-eight strongholds, Fanxing City occupied almost half of them. As they had discussed with Youyue City, they had never run into Youyue City during their advance.

However, the troops of Youri City, which knew nothing, encountered Fanxing City frequently not long after the beginning.

However, the Day City, which had neither money nor people, certainly would not be foolish enough to go against the Star City. After Zhaochen left, the executives of Xinban City held a meeting and nominated a relatively stable player – the most important thing was that he had no enemies - as the gang leader. This new gang leader was average in other aspects and was very quick to escape and show cowardice. He ran away quickly without waiting for Ji Xuanyi and the others to react and start beating him.

The people from the Day City had also encountered the Youyue City. They originally wanted to take advantage of the Youyue City, but the Youyue City was no longer the same as it used to be. They drove the Day City away on their own without the help of the Star City, and later on, they occupied many of the strongholds.

When it came time for the last three main cities to settle their territories, Star City occupied twenty-eight strongholds on the left, Youyue City occupied fifteen strongholds on the right, and Sun City was stuck between Youyue City and Star City, and gained five strongholds sporadically like picking up leaks – they were not even connected, but were squeezed into three petals by the other two main cities.

I wonder if the Day City, which was once the first main city, ever thought that there would be a day when it would fall into this state.

But in the final analysis, it was Zuo An and Zhao Chen who caused the current situation, and no one else can be blamed.

Although Ji Xuanyi dropped a level because of Ji Xuanling, he still reached the maximum level halfway through the event and obtained the last skill of the warlock profession.

Speaking of which, Ji Xuanyi had actually seen this skill from August, but he only heard it once and didn't take it seriously until he reached the maximum level before he suddenly realized it.

The warlock's level 70 skill is [Puppetry].

Although August said that the method of making puppets was learned from a sorcerer, the puppetry that Ji Xuanyi acquired was not exactly the same as August's.

of the player's [Puppetry] is not to summon puppets, but to control enemy players – this skill has a CD of one minute and lasts for seven seconds, but the success rate after release is only 50%. Moreover, because it is to control the enemy , it is impossible to make very precise movements. Ji Xuanyi tried it with Ze Yu Si Shui and found that if he moved at a normal reaction speed, Ze Yu Si Shui would stumble like a drunk.

Ji Xuanyi had to concentrate on controlling his opponent according to specific rules in order to barely perform a normal routine. At this time, Ji Xuanyi himself would be in sync with Ze Yu Sishui's reaction speed. In other words, not only would Ze Yu Sishui react very slowly under his control, but his own movements would also become crooked.

This skill can be said to be very characteristic of a warlock. The strong ones are very strong, and the weak ones are extremely weak.

A powerful character can use this skill to control two bodies at the same time, turning one person into two. Although the strength of both units will be reduced, it is still very effective when used when the enemy is caught off guard.

When a noob uses this skill, the scene becomes chaotic. The success rate of a sneak attack is almost zero. Moreover, once the opponent's teammates react, seven seconds is enough for him to die several times!

Even Ji Xuanyi, after first acquiring this skill, needed to practice for a while before he could use it.

During that period, Qi Qin and others were making puppets every day to help Ji Xuanyi practice new skills.

The Conquer Lost Continent event is not only a warm-up for starting the daily max-level tasks, but is also a way for players to reach the max level faster. Players like Ji Xuanyi who have gained enough experience in advance and reached the max level halfway through the task will also receive corresponding compensation when they complete the next stage of the task.

Not to mention the materials, the experience that the players at the maximum level should have gained will be directly converted into tokens. After the subsequent daily rewards are opened, they can be randomly converted into any currency for purchasing rewards. Of course, they can also be directly converted into existing gold coins or demon gold coins – but any player with experience as an online player will not do this, as they don't know the conversion ratio. Who knows how valuable the newly opened currency will be? Of course, they will wait until that time to make the conversion.

There were even players who ran back to the Elemental Continent to upgrade in order to obtain more tokens, and then came back to participate in the mission. However, according to Ji Xuanyi's calculations, the time wasted was very wasted, and it would be better for them to stay in the Lost Continent. However, not many people were willing to listen to Xiao Xiaoyu's advice, so he just let them go.

On the day when the activity mission of occupying the Lost Continent ended, the three great magicians from the three main cities signed a friendly treaty on behalf of humans and orcs. However, it was only on the Lost Continent, and the orcs were still not allowed to go to the Elemental Continent. However, the orcs' strength has not yet recovered, so they have no intention of doing so.

After the signing ceremony ended in front of the players, the game entered maintenance mode again.

Because it involves major world line changes, this maintenance lasted for three days. Everyone flooded the game forum with updates, and everyone was looking forward to the new maps, new tasks, new daily routines, and the proper gameplay after reaching the maximum level that would be available after the update.

Apart from Ji Xuanyi and his friends, the most excited people were Xue Piao Renjian and Mi Yin. These two arena players spent more than half a year upgrading, participating in activities, and running quests in order to play in the arena in the holographic online game. They were even often involved in disputes over the guild's main city. If the two had not met again later, Mi Yin would have fought in the wild every day and almost forgot how to cooperate with others in the arena!

Ji Xuanyi was also looking forward to the arena. He was really tired of playing outdoor PVP . There were too many quests and the like, but the arena was full of excitement and surprises.

The most important point is that the warlock profession was almost born for the arena. Only now does he finally have the opportunity to show his skills. How can Ji Xuanyi not be looking forward to it!

Chapter 195

For players , maintenance time is always long, but no matter how hard it is to bear, they will eventually wait for the dawn of server opening!

The Domain after reaching the maximum level! New tasks , new daily routines, new equipment, and new gameplay!

Generally speaking , the length of maintenance time depends on the magnitude of the changes in the game world. Almost all players have secretly simulated in their minds how much change three days will bring , but the moment after going back online, everyone realized that their imagination was indeed too poor.

When they conquered the Lost Continent , it was still a wasteland, and the few buildings that were built by the evil god were reduced to ruins in the battle . Although they divided their territories after the war , in fact, their territories were still barren when they gathered for the last time.

Xiaoxiao Yuxia once speculated with horror whether the official would make rebuilding the city the next activity , but after the three-day maintenance time was announced , no one had this idea anymore.

This official update must have been a direct update of the city , otherwise it wouldn't have taken so long – but to be honest , no one thought that such a huge change would occur after this update!

The official did not announce the update content before the maintenance . All players were full of curiosity and anticipation for the upcoming new gameplay, but Mi Yin and Xue Piao Renjian had much simpler ideas.

What daily life, what equipment , it doesn't matter! What matters is the Arena! The Arena!!! And the Arena!!!

Mi Yin had nothing to do during this period, so he waited in the game cabin early, just waiting to rush into the game as soon as the server was opened.

But it is obvious that there are many players who have the same idea as Mi Yin. After the server was opened, Mi Yin was squeezed out of the game three times before he finally succeeded in climbing back into the game.

There were also huge crowds of people in the game, including where Mi Yin was standing. As soon as he came online, he was squeezed into a standing position. Fortunately, there was a tree nearby. Mi Yin teleported and hung himself on the tree. Then he found that there were three assassins hanging on the tree besides him ...

Mi Yin's face was filled with black lines on his forehead, but soon he ignored these insignificant things and was attracted by the scenery in front of him.

The place where he was located was the base camp among the twenty-eight strongholds selected by Xiaoxiao Yuxia and others. It was close to the coast and the orc territory, making it

easy to defend but difficult to attack. But this was only a geographical advantage. In fact, before they went offline, there was nothing here except weeds and dead trees.

And now, a high white stone wall has been built here. The enchantments engraved on it are exactly the same as those on the outer walls of Star City. There are many buildings inside. The most conspicuous one is the Merit Exchange Center, which seems to be the place where special game coins are exchanged for pvp rewards . It is already crowded with crazy players. If Mi Yin had not been too lazy before and failed to save many universal tokens during the event, he would definitely have squeezed in to take a look.

other common places selling groceries have also been refreshed, even including postmen and transportation points. Each has its own shop, with both humans and orcs. The items sold seem to be different from those on the Elemental Continent. Players are crowded here to think and talk, and it is very lively and bustling.

Mi Yin looked at the crowd of heads moving under her feet, spreading out over a hundred meters, and swallowed.

After a fierce battle, Mi Yin finally squeezed out of the terrifying sea of people and came to a slightly more open area. He didn't know what happened to Xue Piao Renjian, who had originally agreed to go online with him, and hadn't come up yet. He had no choice but to observe the situation here first.

The tall wall is not actually meant to protect the entire stronghold, but only covers a part of the area of the stronghold. It seems to be just to enclose the trading activity area. After Mi Yin ran out of the crowded place with players, he went out of the wall.

The scenery outside didn't change much, except that it looked a little fresher without the black mist. Mi Yin noticed something hidden in the vegetation. Some items that were not there before logging off seemed to have been refreshed in the distance . They must be the daily task items for the maximum level.

However, if there are any tasks, they have to wait for Xue Piao Renjian to come up and do them together. What's more, Mi Yin is still in the dark about everything, so she just took a look and had no intention of going forward to inquire. But while waiting, she discovered another thing. The players coming out of the trading activity area all seemed to be heading in the same direction in a hurry, with excited expressions on their faces.

Mi Yin stopped someone curiously and asked, " Where are you going? "

The player was a swordsman with a good temper. He didn't get angry after being stopped. He looked at Mi Yin and said with a smile: " You just came online, right? Don't you know what to do now? "

Mi Yin nodded.

The player said, " If you haven't reached the maximum level yet, you should go back to the Elemental Continent to level up first. The daily tasks that are available this time can only be completed after you reach the maximum level. "

Mi Yin replied: " I have reached the maximum level. "

Although it was very reluctant, Mi Yin still reached the maximum level in the last few settlements of the event tasks.

The player said " Oh " and explained: " I just came online not long ago, and I haven't figured out the daily PVE yet. But everyone who comes here is here for the daily PVP . If you want to take the quest, you have to go to the innermost part of the trading activity area. "

As he spoke, the man tiptoed and pointed at the vast crowd where Mi Yin had just come out: " It's the most crowded place with the most people. There is one person, but he is too short, and seems to be buried. "

" The mission is pretty simple. It's just about collecting supplies and talking to people. It's a points system. Once you have enough points, you can come back and hand in the mission. " Mi Yin suddenly realized, and then said: " I see there are a lot of supplies nearby, wouldn't it be better to do the mission nearby? Why do you all want to run over there? "

" Because that's the base of Daylight City. Even though it's a little far , we can kill people from Daylight City. It's so boring to just pick up items in PVP ! " The player said excitedly, " Killing people also counts. Picking up items counts as points, talking to them counts as five points, and killing people counts as ten points! "

Seeing Mi Yin's eyes suddenly widen, the player obviously knew what he was thinking and laughed: " You must have been squeezed out by the crowd as soon as you came online, right? Why do you look like you don't know anything? "

Only then did Mi Yin realize that there was a person in the crowded crowd who was specifically responsible for answering players' questions after they reached the maximum level.

, death in ordinary battles will no longer cause a level drop unless they are killed by other players . Players who are not at the maximum level will still follow the previous death rules, but when a maximum level player kills a player who is not at the maximum level, the player who is not at the maximum level will not be dropped in level. This is to protect the player's gaming experience and also to unlock the shackles of the PVP gaming mode after reaching the maximum level .

For example, the group of players that Mi Yin saw just now, they all went there to fight, this is the daily routine of PVP . Players who don't like fighting can also use the other two methods to complete the task, but it takes a little more time.

" However, picking up supplies and talking can only be done within the base of your own main city . The only way to gain points is to kill enemy players, which allows you to complete the mission in the base of the enemy main city. "

This setting forces the weak main city to become tough. After all, there is not enough territory, and the time for refreshing supplies cannot keep up with the speed at which players pick up materials. Only some people can complete tasks through peaceful means, while others must complete their daily tasks through fighting. In contrast, the strong main city has enough land, and players have a simple and convenient way to complete tasks, so they are less enthusiastic about fighting. In contrast, the confrontation between forces can be maintained in a relatively balanced state.

This design is quite interesting, but the effect may not be very obvious in the initial stage of opening. After all, players have been waiting for an entire upgrade period and finally reached the maximum level. They don't have to worry about the penalty for downgrading . They will

definitely want to kill as many people as possible when doing their daily tasks . This can be seen from the fact that so many people are running towards the Day City stronghold.

The player also invited him enthusiastically: " Brother, do you want to come too? This is calculated based on the final kill, but it is shared by the team. When we get there, we can call for a healer and finish the task in minutes. After finishing it, there are still rewards for killing more people. Although not much, the rewards at this stage have just been released. If you get more, you can get the full-level equipment earlier. It's worth it even if it's just to kill time! "

Mi Yin was actually a little tempted after listening to this, but still refused. Firstly, he still had to wait for Xue Piao Renjian, and secondly, he was heading for the arena. Too much fighting in the wild would affect his feel, prediction, and coordination. If he really wanted to complete the mission, apart from cooperating with Xue Piao Renjian to kill people , he would probably just pick up things and have conversations.

Mi Yin said, " No, you go first. Didn't you just say there's an explanation in the activity area about what happens after reaching the maximum level? I want to squeeze back and take a look first. "

The player shrugged and said, " Okay, but I don't recommend you to squeeze back now. It only talks about some common sense questions and is not particularly useful. If you have time, I actually recommend you go to the area between the human base and the orc territory. "

Mi Yin was stunned and asked, " What do you mean? "

The man said, " I haven't been there yet, so I don't know exactly what it is like. But I heard from others that the one in the base is just a daily PVP mission, and all the other newly opened gameplay is in that large mixed activity area. "

Mi Yin's eyes lit up and she said, " Is the arena over there too? "

The player then realized that Mi Yin was actually a pure arena player, and said with some amusement: " I told you I don't know, I haven't been there, but if the arena is open, it should be over there. "

Mi Yin quickly said, " Thank you. "

" It's alright! " The man waved his hand and said, " I'm going to do my daily PVP work first . I've long since gotten fed up with those guys in Day City. Brother, add me as your friend and we'll talk next time! "

Mi Yin smiled and did not refuse. The player reported his ID and hurriedly followed the others to run towards the Sun City, fearing that he would miss the fight.

I won't tell you how confused that player was when he found out that his new friend was actually the big shot Mi Yin. Mi Yin originally wanted to continue waiting for Snow Piao Renjian, but think about it, if a single main city stronghold was so crowded, what would the situation be like in the large activity area that included players from the three main cities?

The server has just been opened for a short time, and it is not the most crowded time. If they wait a little longer for Snow Piao Renjian, neither of them will be able to get in. It would be better for him to explore the way alone first. He can tell the other party about it when Snow Piao Renjian comes online.

Thinking of this, Mi Yin changed direction and headed towards the dividing line between the human stronghold and the orc territory.

Although the territory is divided by a thin line on the map, in fact, due to the friendly relationship between the two sides, no buildings have been built in the middle to clearly mark the boundaries. In other words, the area represented by that line is actually very vast and is a mixed area of humans and orcs.

When signing the agreement, Ji Xuanyi also said to Mi Yin that maybe in the future the game would have new racial identities for players to choose from. Mi Yin thought it was a bit ridiculous at the time, but when he saw the scene of the mixed area, he thought it was possible.

Humans and orcs mixed together should have been a relatively harmonious picture, but because there are only humans in the players, the proportion is a bit unbalanced and it looks weird. It seems that we really need some orc players.

But this is not the point. What makes Mi Yin relieved is that the closest city to the mixed activity area is Starry City. Players from Sun City and Youyue City have to spend some effort to get here. After the players of Starry City go online and get the news, they probably rush to attack Sun City. So now the activity area is not crowded, and Mi Yin can walk in easily.

The activity area is stretched along the boundary line between the two tribes' territories, spanning the entire continent, and is divided into the upper, middle and lower areas. There is no difference between the activity blocks. It is estimated that the official meaning is that the three main cities are divided into strongholds horizontally, and then each main city has a way to enter the activity area without conflicting with the other two main cities.

However, the official probably did not expect that the gap between the three main cities of the server would be so big. The Star City took the territory upright, and the entrances to the three districts are all Star City's territories. It is possible that a piece will be given to Youyue City in the future, and there is no need to think about Sun City. It is believed that the activity area will span the Star City stronghold. There is always a chance to reach the destination while dying.

The streets in the activity area are wide and have all kinds of things. Mi Yin also saw some non-routine tasks, but he didn't know what they were for. However, this was not his goal, so he hurriedly walked past the person who seemed to want to say something.

The arena competition organized by the orcs, the bulletin board for publishing daily PVE tasks, the place to accept bounty tasks, the place to sign up for group battles, the place to exchange merits, the place to exchange materials, the trading house ...

Mi Yin quickly browsed through them one by one. Except for stopping for a while at the one-on-one arena and the team battle area, she basically just took a quick look and left.

Arena ... where is the arena?

Mi Yin walked around the activity area in distress, but couldn't find the sign for the arena, and her face wrinkled.

At this moment, Xue Piao Renjian came online. Mi Yin immediately chatted with him and asked him to come to the mixed activity area. It was obvious that Xue Piao Renjian was also tested by the crowd in the stronghold. It took him a long time to reply with a "1". It was unknown whether he had managed to break free.

Mi Yin waited for a while, but Xue Piao Renjian had not arrived yet, but the players had already reacted. Players from Star City, Youyue City and Sun City all began to pour into the mixed activity area. Although the place was large enough, the maximum-level players on this server

were basically online at the same time period, and the crowd was still crowding together at a speed visible to the naked eye.

After a while, Mi Yin vaguely saw snow falling on the earth, but today they had no chance to look for the figure that might represent the entrance to the arena among the crowd that was almost squeezing people out.

Ji Xuanyi was thinking about going online on time to experience the new update, but Qi Qin happened to have diarrhea at this time. Because the symptoms were really serious, Ji Xuanyi was worried that something was wrong with him, so he did not go online to play the game, but stayed to take care of him. When Qi Qin recovered and the two went online again, the game was already crowded with people, like a tourist attraction during the Golden Week, and nothing could be seen.

Ji Xuanyi and Qi Qin had no choice but to retreat and give the opportunity to the crazy players. They were not in a hurry at the moment and could wait until the number of players returned to normal before completing the mission.

Seeing that Ji Xuanyi gave up on being the first to experience the new gameplay, Qi Qin thought that he could go out and play with Ji Xuanyi offline again in the next two days. However, after Ji Xuanyi squeezed out of the crowd, he took him directly towards the pier.

Qi Qin walked for a while before coming to his senses and said, "Xuan Yi, are you going back to the Elemental Continent? "

Ji Xuan nodded. He was chatting privately with Xiao Xiao in the rain: " Didn't I go back earlier because of Ji Xuanling's matter? At that time, I thought that some things should be resolved. "

Qi Qin was stunned and asked, " What's the matter? "

" Mu Xuanyi's matter. " Ji Xuanyi said lightly.

When he returned to Fanxing City, many of Mu Xuanyi's enemies came to him, but they were all stopped outside the city by Xiao Xiao Yu Xia. But could they be stopped for a while? Could they be stopped forever? Sooner or later, they would come again. Instead of waiting for them to come up with some plan and then cooperate to attack him, it would be better to take action first and solve the problem before they unite.

Ji Xuanyi said that he would propose a solution to this matter in Fanxing City after the event. At that time, no matter whether they were Mu Xuanyi's enemies, friends or fans, they could all come and seek revenge or complain.

Although Feng Chui even said because of this incident that if Xiao Xiao Yuxia had not been there before, he might have fallen in love with Ji Xuanyi, but in fact Ji Xuanyi was not that straightforward. He chose to make this move at this time period because he wanted to use the new gameplay to screen out some people who might not care so much about the revenge of being killed.

With so many new ways of playing waiting to be experienced, unless most people really hold a grudge, they will not travel thousands of miles from the Lost Continent back to the Elemental Continent to find Ji Xuanyi in the Starry City.

And when Ji Xuanyi has resolved the matter in Fanxing City, those who did not go will have no excuse to make things difficult for him. After all, it's not like they haven't given you opportunities to cause trouble. If you don't go, who can you blame?

Xiao Xiao Yuxia did not go to the activity area. He was doing his daily PVP work . After receiving Ji Xuanyi's private message, he called people to the forum and the map channel in the game. The world channel announced that Mu Xuanyi would resolve the incident of the year in Fanxing City.

Qi Qin couldn't help but feel a little uneasy when he heard this. How was Ji Xuanyi going to solve those problems? Could it be that he had to pay back a life for a life? How could he let others kill him back just as he had killed them in the first place?

Qi Qin felt distressed when he thought about it, and immediately said to Ji Xuan that if this was the method, he could die in Ji Xuan's place.

Ji Xuan looked at him, and was touched, angry, and amused. He said, " I didn't know that this is how I am in your mind. "

Qi Qin was stunned for a moment, then realized that Ji Xuanyi really didn't seem like someone who would do such a thing, and immediately asked curiously: " What is Xuanyi going to do? "

Ji Xuanyi touched his chin and said, " Of course I will use you, but not to let you die for me, but to fight for me. "

Ji Xuanyi said seriously, It was indeed my fault for killing people " indiscriminately in the beginning . I will sincerely apologize to anyone who comes to me this time who is an innocent victim. If they ask for compensation, I will agree as long as it is not too excessive. But a ridiculous statement like one life for another is definitely not possible. "

Games are actually much freer than real life, but apart from some selective issues, games also have their own rules. The most well-known one is that strength is the most important and being bad is a sin.

If you can beat them, fight; if you can't, run away. If you don't want to run, you can just lie on the ground and complain, but there is absolutely no reason for you to be worse than the other person and let him stand and kill you back after being killed once.

If you want revenge, fight back. If you can't win, just keep it to yourself. This is the rule of the game.

The reason why Ji Xuanyi apologized was not only because he didn't want to worry about these things anymore and wanted to solve the problem once and for all, but the main reason was that Ji Xuanyi himself felt that he had indeed gone too far. Otherwise, with Qi Qin, Xiao Xiao Yuxia and the others around, no one could actually do anything to him.

Ji Xuanyi said, " If there are people who really don't want to forgive what happened in the past and want to seek revenge on me, that's fine, but it's definitely impossible for me to stand there and let them kill me . I can only rely on my own ability. "

Qi Qin was stunned. Just when he was about to ask how this was going to be settled, he saw Ji Xuanyi smile slyly and said, " I am now a support. I can't fight. I can only let my bound DPS do it. It doesn't matter if you lose or I lose. I will stand still and let him kill me . I will never dodge or fight back. If you win, then let them get out. You can't even beat my bound DPS , and you still want to seek revenge on me. What are you dreaming about! "

Qi Qin stared at Ji Xuanyi blankly for a while, then couldn't help laughing and said, " Xuanyi is smart, I was overthinking it! "

Chapter 196

In fact, before the news of Xiao Xiao Yuxia was released , some persistent enemies of Ji Xuanyi had already posted on the forum to denounce Ji Xuanyi, questioning why the other party said he wanted to solve the problem but there was no movement , and whether he wanted to escape again.

However, this post did not attract other people's attention at all. Firstly, Ji Xuanyi has been doing too much posting in recent times, and no one has the desire to click on it . Secondly, the event just ended, and the server hasn't even been opened yet , and you jumped out in such a hurry. Aren't you crazy?

Someone joked that the person might have thought that Mu Xuanyi was an official staff member, and that he could use an announcement to inform you when to go to Star City after maintenance.

Although it was a joke, it subtly hits the nail on the head.

It would take some time for Ji Xuanyi and Qi Qin to get back to Fanxing City . The same would be true for the other players who were heading for Mu Xuanyi . It might even take them longer than them , so Ji Xuanyi was not in a hurry and even had time to joke around with the other people on the way.

After the new maximum-level daily tasks came out , everyone became excited and spent more and more time in the game, except for two people – Mi Yin and Xue Piao Renjian.

These two people are full-time PV arena players . Mi Yin logged in at the opening time just to check out the arena. As a result, after the players gradually dispersed that day, Mi Yin and Xue Piao Renjian walked around the mixed activity area together . Not to mention the arena sign, they didn't even find anything related to the arena!

The two were very discouraged and haven't been playing games very diligently recently.

At first, Ji Xuanyi thought that it was possible that Mi Yin and Xue Piao Renjian were in too much of a hurry and missed the arena. Although the possibility was very small, if there were too many people and the vision was affected, Mi Yin might have made a mistake.

But not long after, the official update announcement came out, and there was indeed no mention of words like the arena, which made Mi Yin and Xue Piao Renjian very disappointed. In fact, it was not just them, but other players who were looking forward to the arena were also disappointed. Many people frantically gave feedback through official channels and requested the opening of the arena, but the officials of "Domain" were not good at other things, but their skills in crashing to death were simply first-class. You can give us your feedback, but I will remain unmoved.

Ji Xuanyi wanted to call Ji Xuanling to ask about the internal situation, but this action was tantamount to cheating to some extent, so Ji Xuanyi gave up. Arena gameplay is available in almost every game, and the official is estimated to just delay for a while, and it will be opened eventually.

Three days later, Ji Xuanyi and Qi Qin arrived at Fanxing City.

Although all the maximum-level players have already fled to the Lost Continent, there has been a steady stream of new players entering the "Domain". After all, Star City is a main city that can

be entered at level 40. In addition, there are many idle people who come to see Mu Xuanyi's excitement. When Ji Xuanyi came back, there were still quite a few players in the city.

Ji Xuanyi jumped lightly from the knight's horse and paid him 150 gold coins for the fare. Qi Qin also got off another knight's horse. The horse's hind legs were trembling under the weight of the swordsman, and the knight's face turned green with heartache.

Although there is still no inter-city transportation, the business of the knights who specialize in leading people to make money has become better because of this, especially after the opening of another continent map. The seamless map requires players to travel long distances to reach their destinations. It's okay for those with long legs, but those with short legs really can't survive without knights.

As soon as Ji Xuanyi and Qi Qin came out of the teleportation array, they met a knight soliciting customers. They simply took a taxi back, each riding a horse .

Fortunately, Qi Qin was wearing light armor. You know, most knights don't pull swordsmen, and swordsmen have short legs, so they have a lot of complaints. Fortunately, he and Ji Xuanyi ran a long distance, gave a lot of gold coins, and his weight was not too excessive, so the knight agreed to send him back, but he charged a little more.

Ji Xuanyi gave another 200 gold coins to the knight who had carried Qi Qin all the way, and then took Qi Qin to the inner city of Fanxing City.

Xiaoxiao Yuxia stayed in the Lost Continent to do her daily work and did not come back. Xu Chu, on the other hand, dragged the reluctant Liu Tian back just to watch the fun. After all, Ji Xuanyi could not command the people from the three major gangs, so Xu Chu's presence was still necessary.

The location was still in the inner city square. Liu Tian's horses were fast, and Xu Chu set out later but arrived earlier than them. In order to watch the excitement, even the battle array was set up in a short time.

Commander Xu Chu built a small platform in the center of the square and prepared a simple loudspeaker, obviously for Ji Xuanyi to give a speech. He came to watch the fun and moved a small stool to sit aside, and even prepared some melon seeds.

As soon as Ji Xuanyi arrived at the small square, he was pulled aside by the people from the three major gangs and walked into the square through the small path that the members of the three major gangs had tried hard to maintain.

To be honest, the number of people this time was still a lot less than last time. After all, the maximum level daily tasks had just been opened, and many spectators were attracted to them. However, no matter how few people there were, it was like a meeting or a lecture, and Ji Xuanyi was really struggling.

Ji Xuanyi originally wanted to go directly to Xu Chu and beat him up, but Xu Chu had anticipated this and arranged for someone to lead him directly to the stage before leaving.

Xu Chu felt that with so many eyes watching him from below, Ji Xuanyi would feel too embarrassed to run down and beat him up before running back up again, right?

Facts have proved that Xu Chu has underestimated Ji Xuanyi. Ji Xuanyi stood on the small platform, glanced at the simple loudspeaker on the wooden table, then glanced at Xu Chu who was sitting in the audience with a smile on his face. He sneered, jumped down from the platform, grabbed the other party and started beating him up.

The onlookers were terrified and talked a lot about it.
It really is Mu Xuanyi. He is so cruel that he even beats his own people. How scary!
Look at the strength, look at the technique! Who said Mu Xuanyi has changed? Isn't he the same as before? Is it really possible to succeed in seeking revenge against him?
The discussions of the onlookers were drowned out by Xu Chu's screams. Ji Xuan handed the dying Xu Chu to the trembling Liu Tian and glanced around indifferently.
Perhaps his enemies still remembered how brutal Ji Xuanyi was back then, and no one dared to speak out. The crowd also gradually quieted down under his gaze.
Xuchu climbed up from Liutian's body and reminded him weakly, " The speaker is up there. "
Ji Xuanyi glanced at him, not wanting to pay attention to him, and directly opened the map channel and said in the map channel: " I am Mu Xuanyi, the one who killed you without any grudges. "

" The first to tease is the one who is mean. It doesn't matter what my reason was at that time. It was indeed my fault first. Today I am here to apologize to all those who were innocently caught in the crossfire. If you feel that I am not sincere enough, you can come to me to get gold coins or materials, and we will be even from now on. If you don't want gold coins or materials, but just want to get my kills, just fight a one-on-one match with my bound DPS . If you win, I will stand and kill you. I can kill you with or without losing your level . I promise that I will not cause trouble for you again in the future. "

Ji Xuanyi said calmly, " As for those guys who were not innocent in the first place like Wu Jian, they should not join in the fun. It is much easier to kill people and quit the game than other games, don't you think? "

Ji Xuanyi originally just wanted to deter those guys who wanted to fish in troubled waters, but he didn't expect that after he sent out the message, a large number of idiot players followed behind him and said: " Mu Xuanyi is right! "

 " That's right! "

 " Yes, yes, yes! "

Ji Xuanyi: "..."

Ji Xuanyi looked at the messed-up map channel speechlessly. It was only after Xu Chu mobilized the players from the three major guilds to help copy Ji Xuanyi's speech that others could see clearly what Ji Xuanyi had said.

Ji Xuanyi chose to speak on the map channel, which actually exposed his ID as well. Many players in Fanxing City who knew him were lamenting that Ji Xuanyi was actually Mu Xuanyi. It had been so long and no news had leaked out. However, after so many close contacts, Mu Xuanyi didn't seem to be as vicious as the legend said!

However, the spectators will recognize him, and his enemies will also remember the ID Ji Xuanyi . But it doesn't matter, Ji Xuanyi will not hide anymore.

Ji Xuanyi thought that after he finished speaking, everyone should get their money or make appointments to fight, and everything could be arranged in a day or two. However, what he didn't expect was that after he finished speaking, the inner city square was still quiet and no one showed any intention of standing up.

What's going on? Could it be that all the people here today are just spectators? In fact, none of the enemies are here? Ji Xuanyi was confused.

Xu Chu approached him and said, "Dude, you think things are too simple. You've been known for so long, and everyone thinks you're crazy. You say you don't care, but except for the old players of Star City, who the hell dares to believe you? Now that it's out, think about it. If you regret it, what if you kill all the people who came up to you to take things? "

Ji Xuanyi knew that he had a bad reputation, but he never thought it would be this bad. He said with a frown, "Has my reputation become this bad? "

Xu Chu and Liu Tian nodded repeatedly.

Ji Xuanyi said helplessly: "Okay, then you send someone to lead the way, maybe you can motivate those who are waiting and watching."

Xu Chu had already prepared for this little trick. Without Ji Xuanyi's instructions, as soon as the private chat continued, members of the three major gangs immediately stood up and said indignantly that Ji Xuanyi had tried to kill him once somewhere, causing him to fail the mission and run again for more than half an hour, and asked him to pay for the game card money. The corner of Ji Xuanyi's mouth twitched, and he said to Xu Chu: "Are you sure this is the person you called? Why does he say it so clearly? "

"Because what he said is true. There are also people in the three major gangs who were killed by you," Xu Chu said, and looked at Ji Xuanyi in surprise: "Wait, you don't remember?" Ji Xuanyi: "..."

He remembered shit. What he said just now about letting those not-innocent people deal with it themselves was just talk. If Yugui wasn't too special, he couldn't even remember Wujian, so how could he remember others!

Xu Chu: "..."

Now we can only hope that Ji Xuanyi's notoriety can intimidate those people, otherwise if they all come up to ask for money for the card, we will lose a lot of money!

Fortunately, what Ji Xuanyi did at the beginning was indeed unforgettable. After the members of the three major gangs took the gold coins equivalent to the point cards and left, some people did come out, but not too many. It seemed that those people were still a little worried that Ji Xuanyi would recognize them and kill them directly. After all, this is a game with penalties for demotion, and you can't die easily.

Xu Chu is still in charge of distributing the money, and Ji Xuan will just have to pay him back in one lump sum when he gets back.

Seeing that the situation was gradually getting back to normal, Ji Xuanyi heaved a sigh of relief. Just as he was about to pick up Xu Chu's small stool and sit for a while, someone suddenly called out, "Mu Xuanyi, wait a minute!"

Ji Xuanyi had no choice but to put down the stool and turned around to look at the man. He was a swordsman with good-looking equipment. He looked at Ji Xuanyi coldly and said, "I was once fighting with an enemy and you intervened. I was sent back to the resurrection point and then buried for a whole day. My lover in the game was also taken away."

Ji Xuanyi: "..."

It sounds like this hatred is quite deep ...

The man said in a deep voice: " I don't need compensation, but I will definitely kill you back for the time you killed me ! I want to fight your bound output in a one-on-one duel. If I lose, I will never mention this matter again from now on. "

To be honest, this guy is quite miserable. Just because of his bad luck, he stood in Ji Xuanyi's way and lost his partner. Now he has to fight Qi Qin alone. Ji Xuanyi almost wanted to persuade this guy to take the money and leave, so as not to cause himself trouble.

However, if these words came out of his mouth, they would most likely be misunderstood as either a provocation or a sign of guilt, and the other party would definitely not listen.

Ji Xuan thought about it and had no choice but to nod in agreement.

Qi Qin did not notice Ji Xuanyi's hesitation . In his opinion, if he lost, Ji Xuanyi would have to pay with his life, so he showed no mercy when fighting. In just a few moves, he pinned the man to the ground, leaving only a trace of blood on his body.

Seeing Qi Qin's skills, several players who had originally planned to stand up silently shrank back and ran to Xu Chu to collect the gold coins.

The player who was knocked down by Qi Qin looked pale. After he stood up , he looked at Ji Xuanyi with a complicated expression and said, " I know I can't beat your assassin. I thought your bound output would be weaker than your original one, but I didn't expect him to be so strong. I am not as skilled as him. I won't come to you again. "

Ji Xuanyi knew that it would be useless for him to say anything now, so he could only look at him for a long time before saying, " I'm sorry, I was ..."

The man shook his head and said, " I can't blame you entirely. Maybe breaking up early is a good thing. You left so abruptly. Maybe you didn't like me anymore ... It can be regarded as helping me see people's hearts more clearly. "

There is always a sense of frustration when losing in a game. That person didn't want to say any more to Ji Xuanyi and just left after he finished speaking. But thanks to him, Qi Qinliang showed his skill and all those who had wanted to give it a try gave up. No one came up to ask Ji Xuanyi to pay for his life afterwards. Some people took the money and left, while others realized that they might not have the chance to take revenge and just left.

It was already evening when everything was over. Qi Qin leaned drowsily on Ji Xuanyi's shoulder, Xu Chu bit the end of a charcoal pencil and settled the accounts. Except for Liu Tian who stayed with them, the players from the other three gangs all dispersed.

Ji Xuanyi and Qi Qin were whispering something when the system prompt sound suddenly rang.

Ji Xuanyi frowned, opened it and saw that it was Mi Yin.

This guy has been very depressed these past two days. He should have been offline by now.

Why is he suddenly online again?

Ji Xuan took a closer look at the secret chat and was stunned.

[Miyin] : Ji Xuanyi! Go offline and read the official announcement! The arena is not closed, they are planning to hold a competition for all regions and servers!!!

While Ji Xuanyi was still in a daze, Xu Chu next to him threw away the charcoal pencil and notebook without saying a word, turned into a white light and went offline. Ji Xuanyi immediately realized that the other party probably also received the message and went offline to read the announcement.

But why are you so excited about the arena match? It's as if you can make it ...

Ji Xuanyi was speechless for a moment, took a look at Xu Chu's notebook, handed the gold coins to Liu Tian, and went offline with Qi Qin.

Ji Xuan took a look at the announcement on the official website and sighed, this is indeed the news that made Mi Yin so excited that she went online again.

The official has been slow to open the arena, not for any other reason, but because they are waiting for the progress of several other servers. You know, the progress of Ji Xuanyi's server is the fastest in the entire region and the other servers have not caught up at all. The official intends to make a big arena competition in the first season since the server was opened. Of course, it is impossible to open only one server, Server 2, so for the time being, only the full-level daily tasks and faction tasks are open.

The official plans to build a map with interconnected servers to hold the first arena competition. All players who have reached the maximum level in all regions and servers can form a team to sign up and participate. In addition to cash rewards, the champion player will also receive a large amount of game coins and material rewards, and can also specify an artifact that has not yet been released on this server!

For other players, these rewards are generous, but for Ji Xuanyi, these rewards are secondary. Getting first place is the most important thing. Like Mi Yinxue Piao Renjian, he is also looking forward to this arena competition!

But to be honest, bringing Qi Qin to participate in the competition feels like cheating, not to mention that they both have magical weapons in their hands, and he even has a resurrection skill. Isn't it too unfair to other players?

Ji Xuanyi continued to scroll down to check the rules of this competition.

As expected, the official had also thought of what Ji Xuanyi had thought of. Artifacts, which were like cheating devices, were prohibited from being used in this arena competition. To be precise, the equipment used in this arena competition was not obtained by the players themselves, but equipment of a unified standard, with only attributes that could be selected arbitrarily. In other words, it only depended on the strength of the players themselves, and in terms of equipment, everyone started from the same starting line.

Ji Xuan nodded with satisfaction when he saw this. There was no other way. If everyone could bring their own equipment in, Qi Qin would kill one person with two swords, and he would have no chance at all. That would be boring. This official setting was quite annoying to him.

Perhaps because they were worried that most players of average strength would feel uneasy about this, the official later explained that this rule only applies to this arena match, and after the match, the normal arena play in the game still depends on the player's own equipment.

Ji Xuanyi scrolled down again. Because several servers still needed a few days to complete the event, although the announcement was released, there were still five days before the competition officially began. During these five days, players could look for teammates in advance. Five days later, registration for the three types of arena competitions would be carried out. When registering for the two-on-two competition, the team must have at least three people, the three-on-three competition requires a team of five people, and the five-on-five competition requires a team of eight people.

The registration phase will start five days later and last for three days. The audition phase will begin three days later. All successfully registered arena teams can find and participate in the competition in the Lost Continent Mixed Activity Area of this server.

The auditions adopt a points system. After fifteen days, the top 25 teams in the entire region and server can enter the knockout stage. Except for the first place in each number of teams who will enter the semi-finals as the seeded team, the remaining 24 teams will be reduced to only three groups after three rounds of knockout matches, and will compete with the seeded teams for the championship, runner-up and third place.

In other words, although the first place winner can get an artifact, in fact there are three champions in 2v2 , 3v3 , and 5v5 . If someone is really awesome, he can actually get three artifacts.

Even if you don't use them yourself, the price of the three artifacts can buy a house directly. You can imagine how crazy the upcoming auditions will be. It is estimated that a large number of anonymous masters will jump out for this reward.

Ji Xuanyi was not worried that his opponent might be too strong. After all, with Qi Qin here, the competition would only be interesting if the opponent was strong enough!

Ji Xuanyi was excitedly thinking about signing up. Qi Qin saw through his plan and said, " Xuanyi, do you want to participate? "

Ji Xuan glanced at him and said in a good mood: " Of course, why would I watch this thing if I don't participate? "

Moreover, this is the first match of this game. It is estimated that not only the masters, but probably all the players who have reached the maximum level will want to join in the fun. Ji Xuanyi feels that his mentality is quite normal.

Qi Qin looked at him cautiously, hesitated for a moment, and finally asked his question: " But Xuanyi, doesn't it say that there must be three people in the team to register? We ... seem to have only two people? "

Ji Xuanyi: "..."

Ji Xuan was confused. Yes, there were only two of them. Although the number of people was enough for a 2v2 match, the number of people who registered was not enough!

But at this critical juncture, who can I ask for help?

Ji Xuanyi and Qi Qin looked at each other.

This is a very serious problem. If we just randomly pick someone to make up the number of players, what if there is a situation later that requires all three of them to play? Wouldn't that be a disaster? Moreover, they will definitely play in the arena for a long time this time, and we can't let the friends who come to help make up the number of players have no chance to participate in the whole process! If we want to find someone, we can't just pick someone who is more capable, because there may be times when they need cooperation.

Speaking of strength, the first person that comes to mind is Xue Piao Renjian, but the opponent is definitely bound to Mi Yin, and the four of them cannot be separated, so they can only be passed , but if we go down in order of strength, there is only Jian Xi Xin Jiu.

Qi Qin asked: " What does Xuanyi think of the new wine for sword washing? "

Chapter 197

Ji Xuanyi felt that Jian Xi Xin Jiu was not very good ...

Although it seems that he is the only one left if we look further down , there is still a certain gap between Jian Xi Xinjiu's strength and Ji Xuanyi and Qi Qin, and problems may easily arise in their cooperation.

Ji Xuanyi thought for a moment and said, " The old western doctor is actually quite good , and he is a serious treatment. "

The current positioning of the priest is still more inclined towards blood bottles. He does not have many offensive skills, so the skill requirements are slightly lower , and the old Western doctor is not bad either.

Upon hearing this, Qi Qin said to Ji Xuan with some concern: " But the old western doctor is from Youyue City ..."

Ji Xuanyi shook his head and said, " There is no distinction between camps in the arena. It is purely a matter of personal victory or defeat. This does not matter. However, if Ye Linyu is here , it is hard to say whether the old Western doctor will be interfered with by him. "

The two discussed for a while but could not come to any conclusion , so they decided to wait and see the situation after going online tomorrow.

When Ji Xuanyi and Qi Qin came online the next day, before they had time to look for others , they immediately received private messages from other people , including Mi Yinxue Piao Renjian , Jian Xi Xinjiu , Ze Yu Shishui , and three people from Introduction to Art who they hadn't met for a long time. Even noob players like Xu Chu and Liu Tian were chatting with them! Everyone is fighting for the same thing , the arena competition.

However, it was not for a two-on-two match. After all, everyone knew that Ji Xuanyi and Qi Qin would never break up, and the people who contacted them were basically looking for three-on-three and five-on-five matches.

However, Ji Xuanyi was not considering participating in such a competition with too many people for the time being , so he directly refused and instead asked them about the two-on-two fight.

Mi Yin and Xue Piao Renjian would most likely meet Ji Xuanyi and the others in the end. When Mi Yin heard him ask this, she smiled and said, " Why, are you gathering intelligence in advance? "

Ji Xuanyi smiled and said, " Yes, we are still short of one person in the team. Let's see who you have chosen and then choose someone according to the configuration. "

Mi Yin would of course not take Ji Xuanyi's words seriously. There was no configuration problem in a two-on-two match. Apart from the professions that were not very balanced in themselves, it all depended on the players' strength and cooperation. This should also be a type of match with relatively less pressure in this competition. After all, most of the participants in 2v2 were two friends with a good relationship, and configuration was not a priority .

Mi Yin generously told Ji Xuanyi about herself and her teammates from Xue Piao Renjian: " We contacted the old Western doctor last night, and he has agreed to go out with us. "

Mi Yin also knew that Ye Linyu would most likely interfere, so as soon as she got the news, she immediately contacted the old Western doctor, leaving no chance for Ye Linyu to interfere – and of course, she also left Ji Xuanyi behind.

Ji Xuanyi was stunned for a moment, and before he could reply, Mi Yin immediately reacted and said, " You don't want to find him too, do you? "

Most of them are in the DPS profession. As a rare nurse with good strength, the old Western doctor became very popular. Not to mention Ji Xuanyi, other people had also talked to the old Western doctor in secret. Every time, the old Western doctor would bring up Mi Yin and Xue Piao Renjian to refuse them. He was tired of being rejected.

Ji Xuanyi didn't say anything, just sent out a string of ellipsis, the meaning of which was self-evident. Mi Yin couldn't help but burst into laughter and said, " I didn't expect you to have this day, Xuan Xiaoyi. You're one step behind me! "

Ji Xuanyi really missed a step and forgot about Mi Yin and Xue Piao Renjian.

These two people have been immersed in the arena for many years and are very familiar with the most basic configurations. They also know the importance of treatment in the team. In fact, before the news of the arena competition was released, the two of them were planning to hook up with the old Western doctor. Ji Xuanyi was indeed a step slow in this matter, so it was normal that he did not catch up.

Mi Yin was still bragging: " Actually you can't say we were one step slower, we were many steps slower. We've already chosen our team name! "

Ji Xuanyi rolled his eyes in his heart and replied with a sneer: " What's it called? Romance of the Three Kingdoms? "

Mi Yin is from Fanxing City, Xue Piao Renjian is from Yaori City, and Lao Xiyi is from Youyue City. The name Romance of the Three Kingdoms is really correct!

Mi Yin stopped talking when she heard this. Although their name was not this, in fact, " Romance of the Three Kingdoms " had also been proposed by the old Western doctor as a backup option, but it was rejected by Mi Yin and Xue Piao Renjian, and the old Western doctor even got angry about it.

Since the old Western doctor already had a team, Ji Xuanyi would not consider him. He could only settle for the second best and contact Jianxi Xinjiu instead.

Although Jian Xi Xinjiu is a little weaker, he is already a first-rate master in Fanxing City. The only relatively talented Ze Yu Sishui does not study the techniques well and is still a second-rate player. Apart from him, there is really no one else and they can only make do with their efforts. However, Ji Xuanyi felt that it was just barely acceptable, but others did not think so. When Ji Xuanyi was chatting privately about Jianxi Xinjiu, the other party told him that he had formed a deputy gang leader team with Xiaoxiao Yuxia and Xu Chu.

Ji Xuanyi: "..."

Ji Xuanyi couldn't help but curse: " You are fucking sick, you are a shitty deputy gang leader! No matter how you look at it, you should form a gang leader team with Liu Tian Jing Yunhan, right?! "

Jian Xi Xin Jiu replied very aggrievedly: " I can't do anything about it. Liu Tian and Jing Yun Han are too weak ... It's not that I dislike them. I didn't think they could pass the auditions and just play casually. But they are both very ambitious. "

This is true. It was not Jianxi Xinjiu that abandoned Liutian and Jing Yunhan, but Liutian and Jing Yunhan who abandoned Jianxi Xinjiu. What these two people said was that Jianxi Xinjiu was so fucking useless that it couldn't even help us!

Ji Xuanyi: "..."

There is nothing wrong with this sentence. The two of them have positioned themselves very accurately. At least they know that they are being led, and they also know that Jian Xi Xin Jiu can't lead them ... But who the hell can lead them! If this competition is like swimming, the strength and intelligence of these two people are probably two weights tied to their teammates. Ji Xuanyi suspects that even Qi Qin may not be able to float. Unless the official staff is cheating, who can lead them!

It's already very kind of Jianxi Xinjiu not to look down on these two who are holding it back, but now they look down on others!

Jian Xi Xin Jiu didn't feel much, and said, " But to be honest, the people they found are indeed better than me, and they are convinced by me, so I came to find Xu Chu and the others. "

Ji Xuan was stunned. Someone who was better than Jian Xi Xin Jiu and could convince the other party sincerely would have a good chance of passing the audition. How could he be willing to bring Liu Tian and Jing Yunhan?

Ji Xuanyi had a bad feeling in his heart and immediately replied: " Who are they looking for? "

Jian Xi Xin Jiu replied: " The super European emperor from Yun Zhongjian in Youyue City! "

Ji Xuanyi: "..."

grass!

Jian Xi Xin Jiu said sincerely: " If they go to cling to other people's thighs, I may still be dissatisfied, but Yun Zhongjian, I can't afford to offend him. I really can't compare to the power of the European Emperor. If we talk about who else in our service can lead them, it is probably only Yun Zhongjian. "

Ji Xuanyi didn't respond for a long time. It was because Yunzhongjian was supposed to be his last option, but he didn't expect that Liutian and Jing Yunhan would take him away in advance ... There was nothing that could be done about it. After all, Yun Zhongjian's personality made it so that he would never refuse anyone. Ji Xuanyi and Qi Qin were really slow. Even if it wasn't Liu Tian and Jing Yunhan, it would have been someone else.

Ji Xuanyi could only sigh and said, " Is there no other capable person left alone on this server? "

Qi Qin couldn't help Ji Xuanyi anymore. There must be people left alone, but he didn't expect that everyone would act so quickly after the announcement. Those who were capable were either picking others or had been picked by others. It was not easy to find them.

Ji Xuanyi counted the people on his fingers and found that the only people he knew who didn't know the news were Ye Linyu, Gui and Secret Lover Xiaoxiao Yuxiafengchui.

Not to mention Ye Linyu, he can't fight at all, and Ji Xuanyi is always wary of him, which can be fatal in the arena. Yugui's assassin doesn't have much skills either, he can just be an

undercover and sneak in, and it will be very tough if they really fight. Feng Chui is good, but he is only one level worse than Jian Xi Xin Jiu.

Ji Xuanyi contacted Feng Chui with his last hope, but Feng Chui had already teamed up with two other people from the three major gangs and was unable to join the team.

" What the hell, " Ji Xuanyi couldn't help but say, " I didn't even fight. Did I die right at the stage of looking for teammates? "

Qi Qin glanced at Ji Xuanyi and reminded him in a low voice: " There is actually another person, who is very powerful, alone, and may be able to cooperate very well with Xuanyi. "

Ji Xuanyi was stunned for a moment and looked at him thoughtfully.

Qi Qin blinked and said, " How is my younger brother? He is quite strong, and his rapport with Xuan Yi is definitely better than the two of us. "

This is because Qi Qin has not yet figured out what orthopedics means. If he knew what orthopedics is, he probably wouldn't have mentioned this matter to Ji Xuanyi.

However, this proposal is quite interesting. If Ji Xuanling can participate in the competition, the combination of three of them will still be very powerful. I just don't know if Ji Xuanling is eligible to participate since his current status is semi-official.

Ji Xuanyi thought about it and asked Qi Qin to wait for him for a while, and then he went offline to contact Ji Xuanling.

Ji Xuanling seemed to be busy with something. When he received Ji Xuanyi's call, his tone was also hurried. After a moment, he realized it and adjusted himself. He said in a sweet voice: " Brother, what do you want to talk to me about? "

Ji Xuanyi was used to the other party's coquettishness, so without any nonsense, he told the other party directly about the arena competition.

" Arena? " Ji Xuanling's voice on the phone was a little hesitant . After a moment's silence, he said, " I may not be able to participate. "

One could tell that the other party was actually very reluctant to leave. It was not easy to get the chance to fight alongside Ji Xuanyi. Ji Xuanling really wanted to participate, but there was no way. The things he was doing right now were too important and he really couldn't spare the time. Ji Xuanyi could only sigh and said, " Okay, I'll take a look. You should take care of yourself even if you are busy. Don't get too tired. "

" Of course I have to take care of my health! " Ji Xuanling immediately said seriously: " I have to work hard for my brother's future! "

Ji Xuanyi couldn't help but laugh when he heard this, " You don't need to work hard for my future. "

No matter how hard Ji Xuanling works, he is working for the Ji family. Since they have already cut off all ties, his father will no longer care about him, and certainly will not allow Ji Xuanling to control him.

Ji Xuanling followed suit and said, " Yes, it's useful, brother, don't worry, I will do everything you don't want to do! "

Ji Xuanyi thought he was talking about inheriting the Ji family, so he just smiled and let it go. He then gave him a few more words of advice, telling him that if he didn't listen, he would be beaten

when they met again. He scolded Ji Xuanling so much that he could only say " yes " before hanging up the phone and climbed back into the game with worry.

Qi Qin was still waiting for him. Seeing him coming up, he asked, " How is it? Did your brother agree? "

Ji Xuanyi shook his head and said, " He has been busy recently and has no time. "

Qi Qin showed a regretful expression and looked at Ji Xuanyi with some worry. He knew that Ji Xuanyi really wanted to participate in this competition, but now he couldn't even find his teammates. He didn't know if Ji Xuanyi would be upset because of this.

Ji Xuanyi thought it over, waved his hand, and said, " If you can't find anyone you know, forget it. Just call for help on the forum or the world channel. "

When there was no chat system in Green Forest City, they still wrote handwritten flyers to recruit people to open up the new city. That's how they got to know Ze Yu Shishui, Qing Feng Bu Fu and Ming Shao. It's much more convenient now. It should be pretty fast to just shout in the world, but it takes some time to select people, and then they need to get to know each other. After Ji Xuanyi finished speaking, Qi Qin nodded.

There are many players in a server. Although the level may limit some masters, there are still powerful ones among the rest. Although Wan Ge Naizhi in the Star City had bad luck, he was able to kill Mi Yin by sneak attack. You know, players at this stage of Jian Xi Xin Jiu, even if their profession is a knight who is a natural nemesis of assassins, can only run away when facing Mi Yin at that time.

The two of them discussed it and started to advertise on the world channel, and soon people came to them.

The world channel has been filled with advertisements for recruiting teammates since the official announcement. The reason why Ji Xuanyi's news received a response so quickly was mainly because of his pseudonym. After Ji Xuanyi's ID was exposed yesterday, it immediately spread all over the world channel and game forums. Before, when Ji Xuanyi didn't say anything, no one dared to make any movement. Now that Ji Xuanyi's name appeared in the world, a large number of players immediately began to add him as a friend frantically without even seeing what he said.

For the first time, Ji Xuanyi felt that the setting of this game that only friends can have private chats was too annoying. His vision was suddenly filled with pop-up windows requesting friends, which made Ji Xuanyi dizzy.

With so many people, even if Ji Xuan filled up his friend list, it would not be enough!

Ji Xuanyi realized that he was mentally retarded, and finally cleared all the application messages. After setting no reminders, he said on the world channel: " Sorry, I forgot to add friends before talking. Let's talk in the forum. "

After saying that, without caring whether those people saw it clearly or not, he took Qi Qin offline to post.

The post was edited very quickly, and because the name Mu Xuanyi was popular, there was no need to worry about it being forgotten. Ji Xuanyi said that there was no need to add himself as a friend, as the destinations were all mixed activity areas in the Lost Continent, and interested players could just go to the registration point in the mixed activity area to find them directly.

After saying that, Ji Xuanyi hurriedly climbed back online and took Qi Qin to the Lost Continent – it would take at least three to four days to get from Star City to the Lost Continent, which means that if nothing unexpected happens, including the three days for registration, they will only have four days at most to choose teammates, and they might have to make do, which is not what Ji Xuanyi wants to see.

Qi Qin had logged in and out of the computer several times today and couldn't tell the difference between online and offline. He could only follow Ji Xuanyi closely.

When the two were about to leave the inner city to the traffic point, a familiar face suddenly appeared in Qi Qin's sight. He didn't react at once, and subconsciously raised his hand and said to the man: " Yutian? "

It was the younger brother of the twin commanders whom they had met when they had opened up a 25-person dungeon before, the swordsman commander Yue Tian.

Yue Tian didn't know if he didn't hear clearly or what, he walked forward for a while before realizing someone was calling him. He turned around and saw that it was Qi Qin and Ji Xuanyi. He immediately smiled and said, " It's you! "

Ji Xuanyi didn't want to waste time reminiscing about the past, but Qi Qin had already called him over and Yue Tian also came over, so Ji Xuanyi could only stop where he was and look at him.

The last time he saw Yuetian and Ritian, Ji Xuanyi always felt that something was strange and wrong, but when he met Yuetian alone today, that weird feeling was gone, and Yuetian seemed to have forgotten what happened before, and he didn't look sneaky. Ji Xuanyi looked at him a few more times but didn't say anything.

Qi Qin looked at Yuetian curiously and asked, " What's going on? Aren't you twins always inseparable? Why are you alone? Where's Yuetian? "

When Yuetian heard this, he sighed bitterly and complained, " My brother caught a cold from the air conditioning last night and couldn't get up. He was sent to the hospital early this morning. I'm helping— "

Yuetian bit his tongue and quickly looked at Qi Qin. Qi Qin looked at him blankly without reacting.

Yuetian let out a barely perceptible sigh of relief and said with a dry laugh, " I just came here to level up. You have to be at the maximum level to participate in the official arena event. My brother has reached the maximum level, but I haven't. "

Qi Qin always felt that something was wrong, but he couldn't hear it, so he just nodded stupidly. Ji Xuanyi looked at Yue Tian meaningfully and said, " What did you say just now? I don't think I heard it clearly? "

Suntian was sweating profusely, and he looked very guilty. It took him a long time to say, " What did I say? I said ... I said my brother has a cold. "

Ji Xuanyi said " Oh " and said calmly: " You are my younger brother, right? Your two names are so similar, I can't remember them clearly. "

Yuetian looked at Ji Xuanyi nervously for a while, and when he saw that he had no intention of asking more questions, he wanted to leave immediately. However, Qi Qin, the idiot, didn't notice that Yuetian was not right at all, and stupidly grabbed him and said, " I caught a cold from using

the air conditioner once before, and it was Xuanyi who went to the hospital to take care of me. You should be careful about this kind of thing. Don't be greedy for coolness at night, and make sure to turn off the air conditioner before going to bed."

Ritian nodded randomly and was about to say that it was time to leave, but Qi Qin continued, "But if someone in your family is sick, you should put the game aside. You shouldn't be far from reaching the maximum level, right? I think you can go to the hospital to take care of Ritian first, and then come back to play together when he gets better. The atmosphere in the hospital is not suitable for staying alone, it will make you feel uncomfortable."

Yue Tian really wanted to say to Qi Qin, "Brother, I understand what you said. I was sent by that guy! Can you stop for a while? I can't hold on any longer!"

Ji Xuanyi's gaze was too intimidating. Although he was a PVE player, the twin brothers also knew that Ji Xuanyi was Mu Xuanyi and the things Mu Xuanyi had done in the past. Ji Xuanyi's gaze was even more terrifying now! Yuetian felt that he would be seen through in an instant, and he wanted to run away right now, the farther away from Ji Xuanyi the better ! Seeing Yue Tian's guilty conscience, Ji Xuanyi smiled. Seeing Qi Qin had finished speaking, he immediately continued without waiting for Yue Tian to speak: "Don't you two only play PVE ? Why are you trying to get involved in the arena as well? Is that okay? "

Yue Tian almost knelt down to Ji Xuanyi on the spot. You said this too quickly! But this question is better than the previous one. Yue Tian wiped the non-existent sweat from his forehead and said dryly: "For entertainment, everyone goes to the arena. There are not many people in the dungeon team. Besides, it's boring to play the same game all the time. We don't expect to become famous. We just go to cushion the bottom, roll over, wipe the floor, etc. "

Ji Xuan glanced at him but smiled without saying anything.

Yue Tiandong looked around for a while and whispered, "Well, I'm in a hurry to level up. Although I'm only halfway to gain experience, it takes a long time to complete the task. I'm afraid I won't be able to catch up if I go back. If you're all right, I can go first? "

Ji Xuanyi shook his head at Ri Tian with a very malicious look when he saw the expression on his face that he was about to escape successfully, and said: "I still have something to ask you."

Yue Tian: "..."

Yuetian cursed a thousand times in his heart, but he didn't have the courage to speak out loud, so he could only say: "What's the matter? Ask! "

As long as you don't ask questions that he can't answer, he will tell you everything he knows! Please don't look for him next time!

But it was obvious that Ji Xuanyi would not fulfill his wish. He said meaningfully: "You should know that I am also a twin."

Yuetian shuddered, looked at him in horror, and shook his head repeatedly: "No, I don't know!" Ji Xuanyi pretended not to hear and continued, "I am a warlock now, and my brother plays an assassin, but I used to be an assassin too, and now this game doesn't allow you to open a sub-account, so I kind of miss it. Do you understand what I mean? "

Yuetian looked at him with tears in his eyes and said, "Brother, please let me go. I don't understand anything. Really! "

Chapter 198

Yuetian was so frightened by Ji Xuanyi that he wanted to log off immediately , but he was also worried that Ji Xuanyi really knew something. If he logged off, the other party would go all out and report him directly . He could only look at Ji Xuanyi tremblingly like a quail.

But Yue Tian was totally overthinking. Ji Xuanyi would never do such a thing that would harm others and not benefit himself . He just looked at Yue Tian and said, " I already know . You are the older brother, right? How did you do it? "

Qi Qin, who was standing by, hadn't reacted yet and stupidly corrected him: " Xuan Yi, Yue Tian is the younger brother, and Ri Tian is the older brother. "

Ji Xuanyi ignored him and looked straight at " the Yuetian " in front of him. " Yuetian " swallowed , looked around , winked at Ji Xuanyi , and stealthily took him into a remote alley. After making sure that no one would suddenly come here , " Yuetian " immediately fell down and said: " Oh my god , you have discovered this ... That's right, I am not Yuetian , I am Ritian. "

Qi Qin was stunned and said in confusion: " What? You are Ritian? Isn't it ... Ritian is the younger brother and the swordsman? Ritian ... I, am I confused? Ritian is the swordsman? "

Ji Xuan glanced at him and said to Ri Tian earnestly: It " wasn't us who discovered it, it was me who discovered it. "

Ritian: "..."

Ritian was speechless for a moment, then explained to Qi Qin: " No, you remembered correctly, Ritian is a priest, and Yuetian is a swordsman, but I am Ritian, but my account is Yuetian's, which means I am on Yuetian's account. "

Qi Qin opened his mouth wide, and it seemed that he would not be able to react for a while. Ritian had to put him aside and look at Ji Xuanyi who was obviously more sober.

Without Ritian's explanation, Ji Xuanyi had almost guessed the reason. The login password of this game account is the player's DNA in the game cabin . This recognition system can actually distinguish most people. After all, even the DNA of twins actually has slight differences. But some twins are too similar and become special cases – such as Ritian in front of him and his younger brother Yuetian.

Ji Xuanyi showed a thoughtful expression and said, you discovered this ,As expected " bug after the dungeon activity ended, right? "

At that time, he felt that there was something subtly wrong with the twin brothers, but he couldn't tell what was wrong. Now that he thought about it, in addition to the fact that they acted too guilty, it was actually because the two people's reactions were different.

In the past, when Ji Xuanyi called two people's names, their reactions were corresponding to their identities, but those few times when Ji Xuanyi met them, he called out " Ri Tian Yue Tian " , and the first one to turn around was the swordsman, followed by the priest.

The contrast in these small details was so subtle that except for Ji Xuanyi and Xu Chu, who remembered the two people's corresponding professions and identities very clearly, no one else

noticed anything wrong. Even the two people who noticed it did not realize where the problem lay – until today when they met Ritian on the Ritian ship alone.

Without his brother to cover him, when he was alone, Ritian's flaws were too obvious. Ji Xuanyi saw it at a glance that the "Yuetian" in front of him was not right. In addition, the other party had probably not been suspected for such a long time, so he relaxed a lot and even said something nonsense. If Ji Xuanyi couldn't see the problem anymore, he should stop hanging out with Xu Chu and Xiao Xiaoyuxia in the future and just go and play with Liu Tian Jing Yunhan directly.

Ji Xuanyi noticed all of this, so Ritian basically stopped resisting and told everything in detail. The dungeon activity was really demanding, and he and Yuetian were both the main and deputy commanders. It was okay during the initial development, but leading other players in the later stages was really a life worse than death. During that period, the two of them dreamed of playing dungeons, and their heads were almost bald. Naturally, they didn't get a good rest. The two people's game cabins were placed side by side. That morning, Ritian got up in a daze, entered the game cabin in a daze, and climbed online in a daze – then he found that he had become a priest. He was stunned for a long time before he realized that this was his brother's account.

"Originally, Yuetian wanted to report the bug to the official, but we had a quarrel in the past two days. He was not convinced about the relationship between the main and deputy commanders and the professions, so he suggested that the two of us switch accounts and play for a while." Yuetian said helplessly.

As a result, they became addicted to the game. It is certainly more interesting to be able to log in with two accounts than with only one. What's more, they can help each other with tasks. If one person is not available, the other can take over, just like today. It is very convenient. The twins gradually gave up reporting the bug.
idea.

Seeing Ji Xuanyi's subtle expression, Ri Tian quickly said, "Actually, this is not a big deal. After all, we didn't cheat, didn't affect the balance of the game, and didn't advertise it!"

He looked at Ji Xuanyi's expression, his voice gradually lowered, and he whispered: "If it really doesn't work, we won't change it in the future. It doesn't matter if we report it now..."

Ji Xuan glanced at him, smiled, and said, "I know what you mean. You two really didn't affect anyone else. It doesn't matter whether you report it or not. I'm just curious and want to know what you are hiding from me. Now that I know, I won't embarrass you."

Ritian stared at Ji Xuanyi in disbelief and said, "You won't report us?"

Ji Xuanyi said indifferently, "Why should I report you? The setting of Domain allows players to have only one account in order to enhance the sense of immersion. However, I think this setting is not very useful for the sense of immersion and it also affects the fun of the game. However, since the official setting has been made, there is nothing to object to. However, the existence of this extremely low probability bug is not a big problem."

After knowing that he would not be reported, Ritian relaxed and his mind became clear. After listening to Ji Xuanyi's high-sounding speech, he reacted belatedly, looked at him suspiciously, and said, "That's not right. You just said that you also have a twin brother..."

It sounds so nice, I'm afraid you might want to do that yourself!

Seeing his intention exposed, Ji Xuan coughed twice and said, " It's fine for us to just know about this matter, don't spread it to anyone else. "

Ritian: "..."

It's true! Ritian was speechless, okay? It seems that all his worries and fears just now were in vain, right?

Seeing Ri Tian's expression of seeing a ghost, Ji Xuan kindly reminded him: " There is still a difference between you and your brother. When the two of you are together, you can confuse people a little. If you are alone, there are too many flaws. I suggest that you try not to appear alone in the future, especially in front of people who are not so familiar with the two of you, but can remember the difference between the two of you. The former may confuse you out of habit, but the latter can see it at a glance. "

Ritian said dryly: " No, you are the only one who discovered this after all this time. "

Ji Xuanyi said disapprovingly: " You don't often act alone. At least don't show up alone in front of Xu Chu, the deputy gang leader of Tama Jianghu. He will see through it. "

After receiving his instructions, Ritian sighed helplessly and said, " I understand. Thank you. I will pay attention to it. "

Ji Xuanyi raised his eyebrows and said, " Aren't you going to help Yuetian level up? Go ahead. We are still short of half a tube of experience. If you don't hurry up, it will be very difficult. "

Ritian finally reacted and ran away in a hurry.

Qi Qin only then reacted to what Ri Tian said, and said to Ji Xuan in disbelief: " Did they switch numbers? How did they do that? "

Ji Xuanyi: "..."

Ji Xuanyi looked at the silly guy speechlessly and said, " We have already talked about this topic. Let's change it. "

Qi Qin was stunned for a moment, and began to rack his brains to think of the next topic, but his head was still dizzy and he couldn't think of it for a long time. He could only say stupidly: " Then when are we leaving? Aren't we in a hurry? "

They still have to pick people.

Ji Xuanyi curled his lips and said, " No hurry, I'll go offline and talk to Ji Xuanling about something. If everything goes well, we won't be in a hurry and the forum post can be removed. "

Qi Qin: " Huh? "

Time flies, and in a blink of an eye it is time to register. The mixed activity area of Lost Continent is bustling and crowded.

Xu Chu, under the double protection of Xiao Xiao Yu Xia and Jian Xi Xin Jiu, said incomprehensibly: " The mixed activity area has three divisions, spanning the entire Lost Continent. Even if the width is not enough, the length is definitely enough. How can it be so crowded! "

Xiaoxiao Yuxia glanced at him and asked, " Why are you here? "

Xu Chu was stunned for a moment before he reacted and said, " This place is close! "

Xiaoxiao Yuxia also said: " That's right, the central area takes half a day longer to travel compared to the upper and lower areas, so of course everyone comes to the lower area. There are not many people in the central and upper areas, so how can it not be crowded here! "

Xu Chu's face turned black, and he said, " What the hell, this map is so big, and there's not even a teleportation array! "

The official is really wronged. When there was no seamless large map, everyone was looking forward to the sense of immersion that the seamless large map would bring. Teleportation arrays were even more unnecessary. But after it was made, they started to complain about it being troublesome. You players are too fickle!

Xiao Xiao Yu Xia sighed and said, " What's the point of you saying this now? Don't you have a mine at home? If you are unhappy, buy the game and modify it. We will support you wholeheartedly! "

Jian Xi Xin Jiu had been distracted, but he immediately perked up after hearing this. He stood in front of Xu Chu and said, " Brother, let's have a good relationship! If you buy the game, can you find a date for me? As long as he's a handsome boy, that'll be fine! "

Xu Chu: "..."

Xu Chu looked at the man speechlessly and said, " Wake up, my friend. Even though I have a mine at home, I can't afford this game. Otherwise, why would I pretend to be a rich man and play it here? You might as well ask Ji Xuanyi for help instead of asking me for help. "

Jian Xixinjiu didn't understand and muttered, " Ask Ji Xuanyi? What's the point of asking Ji Xuanyi? He won't let me play with him at all! "

Xiaoxiao Yuxia could vaguely hear what was going on, and was about to ask Xuchu when the latter stretched out his arm and said, " I lose! It's so crowded here, and I don't know what the situation will be like at the registration office. I'm afraid they will have to form a human wall? Let's go, let's go to the central area to register. We have three days, so we only have to walk half a day longer. That's enough! "

Xiao Xiaoyu was interrupted and lost what she was thinking about. She could only sigh helplessly and said, " Okay, let's go to the central area. "

However, the group had already squeezed to the middle of the lower area, and it was not easy to squeeze out. Xiaoxiao Yuxia and Jianxi Xinjiu, the two men in armor, were not to be blamed, and Xu Chu was squeezed between the two and cried out in pain.

Regardless of how these three people struggled in the crowd, there were actually other people in Star City who had anticipated this event due to their rich experience and went to the central area early. This team was composed of three players from the three main cities – Romance of the Three Kingdoms!

Miyin: "..."

Snowfall: "..."

The old western doctor looked at the two people's faces and said, " Don't you think this name is awesome? "

Xue Piao Renjian looked at him in silence, and Mi Yin said coldly: " I don't think so. "

The old western doctor said resentfully: " Is it my illusion? I always feel that you are paying less and less attention to me. You are completely different from when you asked me to join your

gang. I knew that you men are all like this. You use sweet words to coax me before you get what I want, but after you get what I want, you treat me like nothing and ignore me ..."

Snowfall: "..."

Xue Piao Renjian looked at Mi Yin silently again.

There were so many flaws in the old western doctor's words that Mi Yin spent a long time looking for them and said, " You men ' ? "

The old western doctor readily changed his words and said, " We men. "

Mi Yin nodded and said, " It's not your illusion. "

Old Western doctor: "..."

Xue Piao Renjian cast an admiring look at Mi Yin.

The old western doctor was depressed and silent. He hadn't signed up yet, so he had a chance to regret it, but he didn't have the nerve to do so. These were Mi Yin and Xue Piao Renjian! Two super awesome masters. How could he kick them out when he couldn't even hold their thighs!

Thinking that these were two great people who could help him win the first trophy, the old Western doctor immediately became energetic again, walked up to the two of them and started talking.

Mi Yin and Xue Piao Renjian almost simultaneously showed expressions of despair.

But soon, the old Western doctor's chattering stopped temporarily. They had already arrived at the registration office and saw three other acquaintances.

Ji Xuanyi, Qi Qin, and Ji Xuanyi's brother Ji Xuanling were talking to the arena to sign up. When the old western doctor saw them, he immediately raised his hand and called out, " Ji Xuanyi! What a coincidence, you are here too? "

Ji Xuanyi and Ji Xuanling turned around at the same time, shocking the old western doctor. He had been helping Ye Linyu in the Lost Continent. Although he had heard about Mu Xuanyi's incident, he had never seen Ji Xuanling. He was confused and said stupidly, " The maximum level skill of a warlock is the invisible clone technique?! "

Ji Xuanyi: "..."

Ji Xuanling was in a playful mood and stood behind Ji Xuanyi with an expressionless face, trying to imitate him and play a trick on the old western doctor. However, the old western doctor was also a shrewd man and saw through it immediately. He said, " Fuck, these are twins, awesome! Let me see! "

Ji Xuan left Ji Xuanling to be studied by the old Western doctor, and said hello to Mi Yin and Xue Piao Renjian. He was also very experienced in the arena, and when he saw the scene, he knew that the lower area would be extremely crowded, so he came directly to the middle area. In fact, to be on the safe side, they were planning to go to the upper area, but later they thought about it and decided to come to the middle area. Now it seems that this decision was very correct, and they saved some distance.

Mi Yin looked at Ji Xuan Ling curiously. Although he had not gone back to see Ji Xuan Ling's big confession, he had heard that he was a master and an assassin. Now, at first glance, except that his expression looked much more approachable, it was like seeing the old Ji Xuan Yi. He couldn't help but feel a little moved and said, " Is this your brother? "

Ji Xuan nodded and said, " I couldn't find anyone to fill the gap, so I had to call him over. "

Mi Yin looked over with some envy, and her old habit came back. She said, " Can you lend it to me to play in the arena someday? I haven't tried the dual assassin configuration yet. "

" Wake up, the arena mode of this game has just been launched, you haven't tried any configurations, okay? " Ji Xuanyi ruthlessly complained: " And your regular teammate is still next to you, and you are discussing kicking him out and finding someone else, isn't that too bad? "

Mi Yin then realized what was happening and looked at Xue Piao Renjian. Xue Piao Renjian looked back at him calmly. Mi Yin then turned around and said to Ji Xuan: " It doesn't matter. Xue Piao is used to it, right? "

Xue Piao Renjian nodded silently. Qi Qin looked at Mi Yin and then at Ji Xuanyi, and said in a low voice: " Even worse. "

Snowfall: "... Yeah. "

Everyone looked at him in surprise. The old western doctor said to Ji Xuan uncertainly: " Did he just say 'hmm'?! "

Xue Piao Renjian said nothing, but everyone's expressions became subtle. Ji Xuanyi said to Mi Yin, " Give up. My brother has a lot of things to do and doesn't have that much time to play games. Find someone else. "

Mi Yin then responded with regret, but he did not give up completely. After all, Ji Xuanyi said that his brother did not have time, but didn't his brother come to accompany him to play in the arena? This delay was nearly a month, so he thought there was still time, but Ji Xuanyi was not willing to let him go. He would wait until Ji Xuanling was alone and then go up to try to hook up. While Mi Yin was thinking about it, Ji Xuanyi had already taken Ji Xuanling back from the old Western doctor and completed the registration there.

Mi Yin still remembered that Ji Xuanyi had laughed at their team name, so she immediately approached him and asked, " What's your team name? "

Ji Xuanyi could see what he was thinking, so he said calmly, " Just fight casually. "

Mi Yin was stunned for a moment before realizing that " Just Play " was their team name.

There are many participants. Generally speaking, there is a high probability that this name will overlap with others, and the arena team names are not allowed to be duplicated. It seems that Ji Xuanyi and his team came early and left the other players behind, probably also with the intention of occupying the name.

Mi Yin thought of this and didn't bother to greet Ji Xuan. She immediately walked over to sign up. The faction struggle in the second server was still very fierce. Before, she met players from Star City who said they wanted to block the way for players from Day City to sign up. It seemed that the name of their mixed team shouldn't be so easy to have the same name as Ji Xuan . Before Mi Yin could finish thinking, he smiled at him kindly and said, " Sorry, adventurer, your team's name [Three Cities Alliance] has been taken by someone else. Please change it. "

Miyin: "..."

This name is indeed a bit rustic, but he and Xue Piao Renjian are both bad at naming, and this is a relatively normal name that the old western doctor came up with. After these words were spoken, Ji Xuanyi and Qi Qin showed no expression, while Ji Xuanling laughed as if he had let out a leak.

He had made a mistake before. Ji Xuan was indeed the cutest one. His brother was nothing like him! Mi Yin thought silently and typed in the second alternate team name given by the old western doctor that was not too weird.

: " Sorry, adventurer, your team's name [World Peace] has been taken by someone else. Please change it. "

Ji Xuanling said with a sigh, " What a pity! This name is too appropriate for this team. How come it's been taken again? "

Miyin: "..."

Is this God's will?!

Mi Yin entered their last alternative team name with an expression as if she was about to cry. This time there was no prompt for duplicate names, and she helped them complete the registration procedures.

Mi Yin walked to Xue Piao Renjian with a pale face, praying silently in his heart that Ji Xuanyi would not ask him what his team name was.

However, who is Ji Xuanyi? Of course, he would not miss this opportunity. He immediately asked: " Mi Yin, what is the name of your team? "

Miyin: "..."

The old western doctor said seriously: " If [Three Cities Alliance] and [World Peace] don't work, then we only have one backup team name. "

Ji Xuanling asked curiously: " What's the team name? "

The old western doctor said excitedly: " Romance of the Three Kingdoms! Isn't it awesome?! " It's so awesome! Mi Yin shamefully took Xue Piao away from the world, and the old western doctor with his short legs could only chase after him, looking very miserable.

Ji Xuanyi couldn't help but smile, which made Qi Qin and Ji Xuanling's hearts melt. He said, " We've finished signing up, so let's go quickly. There aren't too many people here yet. People in the lower area will react by then. If they get squeezed in here by the crowd, they'll be in trouble. "

The two had no objection and followed Ji Xuan without saying a word. Sure enough, not long after, players from the lower zone began to come to the middle zone one after another, and soon the area was crowded again.

Xu Chu and the other two were still walking towards the central area. No one knew what they would think when they saw the scene in front of them after arriving.

Although the registration period lasted for three days, there were new players who reached the maximum level every day and wanted to participate in this competition, so after three days, there were still people who wanted to register. However, the time was set and they closed the registration channel on time. Some players who had just reached the maximum level cried and begged for the registration to be reopened. However, although they looked like human beings, they were actually just a program. They were unmoved by the players' cries and left on their own.

The registration phase has officially ended, and tomorrow, the arena will be open!

Chapter 199

"The other side has a warlock?" the priest asked nervously, "He's a bit of a counter to me."

The knight waved his hand and said, "Who knows what level of warlock he is. If he's a weak one, we can just fight one against two. Don't panic."

The pastor whispered, "What if it's awesome?"

The knight said with a frown: "If you are awesome, just shoot directly. Don't talk about you. What can't he defeat?"

It's not like they haven't been taught a lesson by warlocks before.

The one standing on the platform shouted loudly: "For honor! The competition begins!"

The wooden fence separating the two teams from the center field collapsed instantly. The priest took the knight's hand and jumped onto the horse. The two of them rushed towards the opponent who had just entered the field like arrows.

Since the official start of the arena competition, knights and priests can be said to be the most mainstream combination. Knights have high attack and high mobility. When the wind is favorable, they can directly kill their opponents. When the wind is unfavorable, they can only escape from their opponents and eat dust. If the priest and knight cooperate well, and they can get on and off the horse smoothly in battle, they can ignore the priest's mobility shortcomings and turn the opponent into a baby bottle that they carry with them.

This configuration will leave the opponent helpless in most cases, and there are only three situations where it is likely to fail. The first is that the opponent has the same configuration but the knight is stronger. The second is that the opponent's configuration is a knight and an assassin combination with tacit cooperation. The third is that the opponent has a good warlock. For this team that dominates the game, the chance of winning this battle is only 50%. If the opponent's warlock is bad, they can win. If the opponent's warlock is not bad, they can surrender directly.

"If we win this one, we won't play today, God bless you!" the knight said nervously, "It's a loser, loser, loser, loser, loser..."

However, he is just an ordinary knight after all. He was taught a lesson by a hidden professional warlock before, and he might even be an African knight. God is not so willing to bless him.

While Qi Qin was estimating when the opponent would be able to enter Ji Xuanyi's skill range, he whispered to Ji Xuanyi: "What is the knight on the opposite side mumbling? What is the color machine?"

Ji Xuanyi pulled the corner of his mouth and said, "Maybe he is praying."

As soon as he finished speaking, the knight carrying his priest on horseback rushed into Ji Xuanyi's attack range. Ji Xuanyi immediately raised his staff towards the two of them.

The timing when Ji Xuanyi raised his staff was too perfect. The knight's pupils shrank and he immediately realized that God did not bless him.

You know, most magic professions, not just warlocks, but also priests and mages, are ranged professions that take the initiative to attack the enemy. They usually take action against the

enemy before the battle begins , trying to inflict the greatest damage before the opponent gets close.

Under this mechanism, priests and mages are fine. Even if their skills are thrown too early or the distance is too far , causing damage attenuation, the CD will end quickly and will not affect the battle situation. You can even use the method of observing the skill damage to visually estimate the optimal attack range.

Warlocks are different, almost every skill they have can decide the outcome of a battle, and their CD is relatively long. When they are not strong enough, it is easy for them to use their skills too early, turning the situation into 1v2 . Not to mention the noob warlocks, basically no one will take them as human beings during a battle, while warlocks with a little bit of strength have figured out how to measure distance using the healing reduction skills without CD . But no matter what, these people will aim their staffs at their opponents before the battle begins.

However, this warlock only started to move after he entered the best attack range – the knight was no weakling, and could even be said to be experienced in battle. He knew the distances that many magic professions could not measure with the naked eye, so he was very sure that the opponent had indeed prepared for battle the moment he entered the attack range.

To call it a coincidence is too much of a coincidence. This warlock is definitely not a simple person!

The knight felt bitter in his heart, but he immediately reined in his horse when a faint light flashed from the front of Ji Xuanyi's staff, causing the horse to raise its front end, creating a displacement difference. If Ji Xuanyi's attack was predicted with his previous speed, he could have avoided it perfectly –

Just as the knight finished his thought, he was instantly frozen in place. It was the warlock's paralysis skill!

Ji Xuanyi did predict his movements, but he did not predict his subsequent displacement, but predicted his evasive action!

Just when the knight was feeling helpless, Qi Qin had already leaped over his head with a heavy slash, and then pressed down heavily!

As the knight was knocked to the ground, the knight's horse neighed, shook off the man on its back, and fled without looking back. The priest on the horse also fell to the ground with the knight.

The strength of this priest is average. The main reason he teams up with a knight whose strength far exceeds his own is because the two of them are a couple. Therefore, after Qi Qin launched his skills, he had no time to dodge and suffered damage together with the knight.

Fortunately, everyone in this arena match had the same level of equipment, Qi Qin's skill damage was not that incredible, and the health of both of them was not lost that much. The situation of being at a disadvantage at the beginning did not make the priest lose his fighting spirit. The saying that if the enemy is a powerful warlock, he should surrender directly is just talk. The priest immediately began to move awkwardly and tried to heal her boyfriend.

However, as Ji Xuanyi was a support, he certainly would not let her complete her action. After instantly reducing the knight's healing to half of the priest's healing amount, he immediately

gave the priest a CD reversal skill. Before the priest could react, he lost control of his body in the next moment!

The warlock's maximum level skill, puppetry!

Qi Qin didn't lose a drop of blood. In the current situation, the opponent's skills were useless.

After Ji Xuanyi successfully controlled the opponent, he controlled the opponent's body crookedly and ran out of the field.

Seeing the two assistants running out like drunks, Qi Qin gave an apologetic smile to the knight lying on the ground unable to move, and said: " Sorry, keep working hard in the next game. "

Then, he launched an ordinary storm-like attack on the opponent – no skills, all basic attacks , but the speed of his attacks made the damage of these basic attacks added up to be higher than that of his skills!

As soon as Ji Xuanyi's paralysis skill wore off, the knight only had half of his health left! You know, everyone's equipment is of the same level, this damage is too terrible!

The knight was secretly frightened and got up, trying to summon his horse to run away, but how could Qi Qin let him succeed? Although the knight was slightly faster than the swordsman when not on a horse, Qi Qin was wearing light armor with increased agility. He kicked the knight to the ground with one kick and beat him up.

At this time, Ji Xuanyi's puppetry was over. The priest stretched out his short legs and tried to run towards the knight. Ji Xuanyi did not stop him. He slowed him down slowly. The opponent's speed, which was not very fast to begin with, suddenly became almost like crawling ...

Before the priest could get to the distance where he could heal the knight, the knight had already been hacked to death by Qi Qin.

The pastor almost cried. She glanced at Ji Xuanyi and Qi Qin who were approaching her, raised her hands quickly, and shouted, " We admit defeat, we admit defeat! "

A loud announcement was made on the platform: " The Blue Team admits defeat, the Red Team wins! Please leave through the exit! "

The exit was just behind the narrow space where both sides were blocked before the battle began. As soon as the words fell, the knight was resurrected at the exit . He looked at Ji Xuanyi and Qi Qin with a complicated expression, took his girlfriend's hand, and left through the exit.

Ji Xuanyi took out a booklet that was distributed after the arena was opened, checked their current points, nodded, and walked out with Qi Qin.

Outside was the bustling arena hall. The building was so large and accommodated so many people that if it weren't for the roof, it would even look like a small map. But even so, the hall was still a bit crowded. The players' enthusiasm for the arena could be said to have exceeded many people's expectations. The hall was filled with the voices of players discussing battle routines and configurations.

They stand inside the small guardrail and talk to the players. There are two doors on each side, an exit and an entrance. It is the same setting as the Green Forest City copy. Although they all enter from the same entrance, there are actually many different spaces. After the players enter, they can fight with the team randomly matched according to their points.

When Ji Xuanyi and Qi Qin came out, there were people queuing out of the same entrance. Some were excited, discussing the situation of the previous game and joking with their

teammates, while some were extremely depressed. Both of them had gloomy faces and did not speak. The winner and loser could be seen at a glance. Ji Xuanyi couldn't help but sigh, what a diverse range of people!

In order to give players the opportunity to participate in three types of competitions at the same time, these three types of competitions are held separately. The ones currently being held are 2v2 , and 3v3 will be held after fifteen days . All in all, this arena carnival may last nearly three months. Ji Xuanyi suspects that some players may never want to touch the arena again after persisting for these three months.

Ji Xuanyi and Qi Qin tidied themselves up briefly and prepared to sign up for the next battle. In comparison, the other players who had to rest for a long time after the battle seemed very lazy. Ji Xuanyi had just lined up to talk to someone when he heard someone shouting, " Fuck! Little Ji! "

Ji Xuan turned around and saw that it was Ze Yu Sishui and the other two. The one who shouted just now was Ze Yu Sishui. Ming Shao and Qingfeng Bufu must have just had a fight and looked very exhausted.

Ji Xuanyi and Qi Qin had been playing for five or six hours, except for lunch, and had not lost a single game. They figured they had earned enough points for today, so they thought it would be okay to take a break. So they led Qi Qin out of the team and said to Ze Yu Sishui, " You guys are here too? How was the game? "

Speaking of this, Ming Shao and Qingfeng Bufu, who seemed to have just lost a game, forced themselves to fight with a little spirit.

Ze Yu Sishui smiled and said, " Not bad, the winning rate is 50%! "

The point system in the arena rewards more when you win and deducts less when you lose. If you can maintain a half-win rate, you can keep the points rising, which is considered a relatively impressive situation among ordinary players.

This was almost within Ji Xuanyi's expectations, but with a winning rate of only 50%, there was still some distance to go before he could pass the auditions.

Ji Xuanyi said: " We still need to work harder. "

Hearing this, the three of them all fell in anger. Ze Yusi said, " We want to try our best. Xiao Ji, don't you see how many people there are? If there is only one second server to pick 25 teams, we can still work hard. Xiao Ji, do you know how many people and how many masters there are in the whole area and server? "

This round of auditions is not a competition within the server, but rather a mix of registered players in the game. In other words, players from Server 2 may be matched with players from other servers when matching opponents – and Server 2 is only one of the ten servers currently, so the probability of matching with players from the other nine servers is much higher than that of matching with players from this server.

Ze Yu Sishui almost hugged Ji Xuanyi's thighs and cried out loud, complaining: " You don't know, as soon as we got up, we were pushed to the ground by those big guys, rubbed, and then rubbed down, up and down ... Look at how Master Ming and Qingfeng were beaten! "

Ming Shao and Qing Feng Bu Fu very appropriately raised their gloomy faces to show Ji Xuan.
Ji Xuanyi: "..."

Ze Yu Sishui sobbed and said, " We don't expect to make it into the top 25, so let's just think of it as earning crystal coins. "

Crystal coins are rewards for winning an arena battle. With a certain amount of gold coins or demon coins, they can be used to redeem equipment sold in the arena store. Originally, they were supposed to be available in ordinary arenas, but officials later said that in order to thank and give back to players for their support, auditions could also produce such tokens.

Ji Xuanyi deeply suspected that this method was no different from other merchants' behavior of raising prices first and then giving discounts.

However, it is not bad that Ze Yu Sishui and the others have this idea. At least they will not be like other players who fight desperately for a place in the competition. They will not feel a huge blow after losing, as if they have lost their parents. Playing games is supposed to be a happy thing. It is not good to be too obsessed with winning and losing and lose sight of the main goal. Ze Yu Si Shui said: " But we still have to work hard. After all, the later we get, the harder it will be to win. We don't have much time left to earn coins. In the blink of an eye, half of the fifteen days have passed. Once the elimination round begins, there will be nothing for us to do. The three of us can probably only be spectators ... "

Just as Ze Yu Sishui said, today is the seventh day since the auditions began. Recalling the huge crowds on the first day, Ji Xuanyi still felt a lingering fear. At that time, he and Qi Qin were both relatively calm people. The most excited teams in Fanxing City were probably Mi Yin, Xue Piao Renjian and Lao Xiyi's team. Seeing that the situation was not good that day, Ji Xuanyi and Qi Qin were ready to stay outside and slowly look for opportunities to go in. Mi Yin directly asked Xue Piao Renjian to throw herself in, and then relying on the assassin's agility and various teleportations, she became the first team to line up to enter.

I don't know what the other people are doing now.

On the third day, Ze, Yu and Sishui's trio had already prepared themselves mentally to be spectators, so they became very inactive, taking a long rest after each battle. However, they did find out a lot of news about the arena.

" There are quite a few teams in our Star City that have a chance to qualify, " Ze Yu Si Shui said, " Let's not talk about Mi Yin and Xue Piao Ren Jian. In addition to the old-school configuration of assassins and knights, the knight priest is also a dominant combination. Coupled with their own strength, I think they can compete for the seeded team. And you, Xiao Ji, how is your winning rate? "

Ji Xuanyi thought about it and said modestly: " It's just average. "

Ze Yu Sishui immediately said, " Come on, it's not like I haven't seen a warlock before ... "

There are not many people who can play the warlock to the maximum level, and some of them are novices. But this does not prevent those masters from letting other players see the horror of the warlock. Once the arena is opened, no one dares to underestimate the hidden profession of the warlock.

However, in the beginning, they were boasting a lot, and some rookie warlocks took advantage of the power of others to scare off many people. After playing more in the later period, everyone realized that the warlock was a profession with such a clear watershed. When they were on the field, they were either suppressing or being suppressed, and it was rare for the two sides to be

evenly matched . However, this also made many players who just gave up when they saw that their configuration could not win and wanted to save time to earn coins very helpless.

For teams with warlocks, you have to fight to see if you can win. I can only say that fortunately, they were all crushing games, so it didn't take much time.

Ze Yu Sishui felt his legs go weak when he thought of the horror of being dominated by a warlock. Ji Xuanyi certainly couldn't be a rookie warlock, so how could his winning rate be just average!

Ze Yu Sishui said silently: " Then Xiao Ji and Tianxia are the second team, and the third ..."

Ji Xuan was stunned for a moment and said, " What about the third one? "

Counting on fingers, there are only so many masters in Fanxing City. Apart from the two of them and Mi Yin's team, the next one is Jianxi Xinjiu. Although Jianxi Xinjiu's combat effectiveness is okay, it is still some distance away from qualifying for the knockout round. In addition, they bring along Xu Chu and Xiaoxiao Yuxia, two useless people, so it is impossible for them to be ranked third, right?

Ze Yu Sishui also had a complicated expression when he said this : " The third team is the leader of Liu Tian and the leader of Chen Shi, Jing Yunhan ..."

Ji Xuanyi: "..."

Qi Qin: "..."

Qi Qin was completely stunned. He knew how weak Liu Tian and Jing Yunhan were, and he also knew the intensity of the battle in this competition. When comparing the two, how the hell was this possible? ! Did the sow climb a tree? !

Thinking of who their teammates were, Ji Xuanyi immediately reacted and said with mixed feelings: " Could Yunzhongjian's luck have such a big impact? "

Ji Xuanyi had thought that Yun Zhongjian's luck in the arena could at most cause the opponent's skills to deviate, or their positioning to go wrong and collide with his sword. This level of luck could only increase Jing Yunhan and Liu Tian's winning rate to 30%, which was the ordinary level of ordinary players. Although it didn't seem very good, when comparing the combat effectiveness of Jing Yunhan and Liu Tian, one could tell that this winning rate was already incredible!

But it was obvious that Ji Xuanyi underestimated Yun Zhongjian.

Ze Yu Sishui said in a tone of telling a ghost story: " Do you know? Emperor Yun Ou didn't just use those messy little tricks to help Jing Yunhan and Liu Tian Gang Leader gain points. In addition to positioning errors and skill deviations, the most terrifying thing is that as long as the team is facing them, one of them will definitely be offline strangely ..."

Ji Xuanyi: "... I see. "

Although Jing Yunhan and Liu Tian are stupid, they are very proud. They will brag about their winning rate, but will never say how their winning rate came about. The reason why Ze Yu Sishui knows this is because they themselves have been ranked with Liu Tian and Yun Zhongjian.

Swordsman and knight are a weird combination. Unless the two players have a good understanding with each other, they can basically not play any general cooperation. Ze Yu Sishui and the others had no intention of playing it safe at that time. They wanted to fight for

victory, so they had a secret chat with Liu Tian and said that they would not hold back. Liu Tian also said, contrary to his usual behavior, don't hold back, fight with your strongest strength! When Ze Yu Sishui and Ming Shao heard Liu Tian say this, they rushed forward immediately. Just when Ze Yu Sishui was facing Yun Zhongjian and was planning to use his high mobility to outsmart the opponent, his eyes suddenly went dark and he was disconnected on the spot! Young Master Ming said sadly, " Then I started to make mistakes frequently. Although I tried my best to kill the leader , I still died at the hands of the European Emperor! "

Qi Qin squeezed towards Ji Xuanyi in fear and said, " It sounds a bit scary! "

" It's more than horrible! It's simply unbelievable and horrible! " Ze Yu Sishui shouted, " I originally thought it was a network problem, but later Mi Yin and the others also lost to Yun Ou Huang and were disconnected! Only then did I realize that the power of Yun Ou Huang is so terrifying! "

Ji Xuanyi: "..."

It's ok even though it's so scary.

However, Ji Xuanyi felt that masters like Mi Yin and Xue Piao Renjian, even if they made frequent mistakes in a 1v2 match, would not be likely to lose to a combination of Yun Zhongjian and Liutian or Jing Yunhan.

In fact, this is indeed the case. The game that Mi Yin and his team lost was because Mi Yin brought the Old Western Doctor into the game, and then Mi Yin went offline, leaving only the Old Western Doctor. Although the Old Western Doctor was also very sharp, he was a priest after all. He was tortured for a long time by the rookie tactics of Liu Tian and Yun Zhongjian, and finally he surrendered when he couldn't bear it anymore. That's how he lost the game. But this is also terrible.

Ze Yu Sishui said: " I think this team has a real chance of making it into the top 25. They won't get the seeded spot, but with Yun Ouhuang's luck, they might get in at 25th place. "

Ji Xuan nodded. Ze Yu Sishui was right. If they were to face Yun Zhongjian's team in the knockout round, they would have to use the Assassin Swordsman configuration. If they used the Warlock Swordsman and Qi Qin was offline, then it would be a disaster ...

Ji Xuanyi assessed the situation and said, " How are the others? "

Ze Yu Sishui reacted for a moment before realizing that the other people Ji Xuanyi was referring to might be Jian Xi Xinjiu and the others, and his expression suddenly became strange.

Ji Xuanyi: " ? What's wrong? "

Ze Yu Sishui said slowly: " As for Gang Leader Jian Xi ... they may still be waiting for Deputy Gang Leader Xu Chu to come online. "

Ji Xuanyi: "..."

The author has something to say: Xu Chu: Gugugugu

Chapter 200

The name of Gechu is so famous that it makes all the teammates tremble with fear!

Xiaoxiao Yuxia and Jianxi Xinjiu are so unlucky. Why do they want to team up with Xu Chu?

Ze Yu Sishui said helplessly: " The deputy gang leader was always very punctual in the previous Lost Continent activities . Gang Leader Xiaoxiao and Gang Leader Jianxi probably forgot about it for a moment, or they thought he had changed his nature. "

Who knew that Xuchu didn't postpone it when he lost the continent, but kept it all until now! But think about it , I can actually understand Xu Chu. After all, he is a rich man who always spends money on others . This time, due to the restrictions of the event rules, money is useless. Forcing Mi Yin and Xue Piao Renjian to take him is just self-consolation. Even if they enter the knockout stage, it will only be a shame . This event is really meaningless to him.

That was why he decided to team up with Xiao Xiao Yu Xia Jian Xi Xin Jiu instead of spending money to hire an expert to help him gain points.

But once Xu Chu relaxes , his bad nature will emerge. He will be beaten by others if he queues up online anyway , and the gaming experience is rubbish , so why come up?

Ji Xuanyi thought for a moment and said, " Jian Xi Xin Jiu and Xiao Xiao Yu Xia can also queue up , right? Isn't this 22 ? They can wait for Xu Chu to come online before they fight Xu Chu's share. "

Ze Yu Sishui shook his head and said, " I heard that Gang Leader Jian Xi and Deputy Gang Leader Xiao Xiao have participated in too many battles , and Deputy Gang Leader Xu Chu has participated in too few battles, so they are not allowed to sign up. "

The reason why 2v2 battles require three players is, firstly, to prevent unexpected situations , and secondly, because of the configuration restraint factors in the game, giving players more room for configuration choices when facing the enemy. However, if it is simply set up like this, it is easy for two people's fixed configuration to score points crazily, and the strength of the third person in the team does not match the team's combat effectiveness. Therefore, the assessment standard of combat rate has emerged to balance the actual level of the three-person team.

When the participation rate of a player in a team drops below 25%, a warning will be issued to the participating players, informing them that the team's current data is not sufficient to participate in the knockout rounds. When the participation rate of a player drops below 15%, the player will be refused to sign up for the battle.

Xiaoxiao Yuxia and Jianxi Xinjiu had already squeezed Xuchu's pitifully low battle rate down to 15%, so they could only helplessly wait for Xuchu to come online.

When Ji Xuan heard this, he couldn't help but shook his head and said, " It's not easy to swipe a coin. "

Ze Yu Sishui simply shouldn't feel too deeply, and immediately received: " Who said it wasn't! Some people are going crazy for brushing coins. "

After saying that, he looked around and saw that no one was paying attention to this side. Then he sneaked up to Ji Xuanyi and said, " Xiao Ji, do you know? Someone on the forum is studying the tricks of double row. "

Ji Xuanyi frowned: " Double row? "

Qingfeng Bufu explained: " It means two teams that have agreed in advance line up together, and then there is a probability that they will line up together. If this probability can be increased, you can admit defeat once and I can admit defeat once, so that we can earn coins efficiently. " If this strategy can be successfully implemented, then in the time it takes other players to fight one round, they can play ten rounds, which can have a huge impact on the balance.

" It is indeed possible that people will line up together at the same time, " Ji Xuanyi said with some disapproval, " but it is not realistic to rely on such a low-probability event to earn coins, right? "

That's indeed the case. This method actually became popular when keyboard online games were still mainstream. However, it gradually disappeared after the officials of those keyboard online games changed the queuing mechanism. Not to mention how many people were queuing per second in this competition and how low the probability of being queued together was, I think with the lessons learned from other games, "Domain" should not be unprepared.

Ze Yu Si Shui shrugged and said, " I guess the situation is not good. It seems that one-on-one platooning is not possible. They are now planning to find a few more teams and line up together. "

Ji Xuanyi shook his head and said, " It would be better to practice more techniques instead of just using this skill. "

Ze Yu Sishui puffed out his chest proudly: " People who don't practice martial arts don't think so much! "

Ming Shao and Qing Feng Bu Fu looked down on him. You didn't practice your skills but you are showing off! If you were more sharp, you could help them get more points!

Ze Yu Sishui pretended not to notice his companion's gaze and joked to Ji Xuanyi: " Xiao Ji, I think we can also try to line up together. Maybe we can really line up together, and then we can put you and Tianxia in the top 25. In this way, we can also have a share in your victory! "

Ji Xuan glanced at him and said, " You don't need to be the backup. Just fight when you are in line. "

Do he and the world still need Ze Yu Si Shui and other guys to give in?

Ze Yu Sishui laughed dryly and said, " I was just kidding, don't take it seriously. I don't want to be in the queue with you. I'm going to swipe some coins! "

Ji Xuanyi smiled and said, " Then keep going, it's enough to rest for a while, I'm going to continue queuing with Tianxia. "

Seeing how energetic he was, Ze Yu Si Shui also became active and said, " We've had a good rest too! Let's go and continue to earn coins! "

Ji Xuan nodded, said goodbye to Ze Yu Si Shui, and was about to leave when Ze Yu Si Shui suddenly remembered something and said, " Xiao Ji, although I didn't say hello, I have seen you two times before. Why didn't I see your brother? Aren't you a team of three? It's always you and Tian Xia who play together. Wouldn't your brother's participation rate be insufficient? "

When Ji Xuan heard this, he suddenly smiled, glanced at him, and said, " Since we are still in the queue, then our participation rate must be high enough. You said you only saw me and Tianxia? "

Ze Yu nodded like a chick pecking at rice.

Ji Xuan narrowed his eyes and smiled, saying, " My brother and I are twins, how do you know that it was me you saw? "

Ze Yu Sishui was stunned for a moment, opened his mouth wide, and looked at Ji Xuanyi stupidly.

After Ji Xuan played a trick on Ze Yu Sishui, his mood improved. He ignored him and left with Qi Qin to queue.

Qing Feng Bu Fu pushed Ze Yu Si Shui and said, " Hey, son, are you ready to line up? It's your turn and your old father's! "

The " old father " calmly gave Qingfeng Bufu a slap on the head, sent him back to the queue, and said to Ze Yu Sishui: " What's wrong with you? "

Ze Yu Sishui looked at him in confusion, shook his head after a long while, and said, " I always feel like something is weird ..."

Ze Yu Sishui thought for a long time but couldn't figure it out. He had to throw the fleeting thought aside, and re-energized himself and said with full energy: " Let's go! Keep on earning coins! If you don't have enough skills, you can make up for it with equipment. In order to dominate the arena after the game, work hard, young man! "

Young Master Ming: "..."

Ming Shao felt that he would never be able to understand Ze Yu Sishui in his lifetime, so he reluctantly led her to find Qingfeng Bufu.

In the next round, Ze Yu Sishui and his friends were not paired with Ji Xuan. Ze Yu Sishui was a little nervous about this, fearing that his bad luck would come true and he would be laughed at by Qingfeng Bufu.

However, things are unpredictable. Less than half an hour after Qingfeng Bufu had mocked Ze Yu Sishui, his luck suddenly improved. After winning five games in a row, Ze Yu Sishui and others were unlucky enough to be matched with the king bomb configuration of Mi Yin and Xue Piao Renjian.

" It's such a beast! I didn't expect Mi Yin to be such a beast! I'm going to stop being a fan! " Ze Yu Sishui covered her face and cried.

He and Ming Shao arranged the game. After entering, he saw Mi Yin and the other two and was about to say hello and chat, but before he could open his mouth, Xue Piao Renjian rushed over with Mi Yin and kicked him three times in a row. Mi Yin got off the horse and burst out. Ze Yu Sishui was sent out without even using his invisibility, and his head was hit so hard that it enlarged three times.

Qingfeng caressed Ze Yushishui's big head lovingly and said, " Miyin and Xuepiaorenjian are trying to score points, right? Time means points, so where do they have the time to chat with you? I can't even see clearly if it's you. It's not normal to give away a set, okay? "

When Ze Yu Sishui heard this, he angrily buried his face in Qingfeng Bufu's sleeve and blew his nose. Although players normally wouldn't have snot in their noses in a holographic online game, the snorting noise still made Qingfeng Bufu blush, and he hurried over there to change his equipment.

Young Master Ming said calmly, " Everything will turn around when it reaches its extreme. We have already started five times. It is normal to lose badly in one. The next one should be fine. "

Ze Yu Sishui looked up at Ming Shao and said pitifully: " Really? "

Ming Shao nodded and said, " Really? After all, we encountered the combination of Mi Yin and Xue Piao Renjian. This can be said to be the most unfortunate thing in the arena. As the saying goes, it will rebound after hitting the bottom. There will definitely be a turnaround in the next game. Hurry up and line up with Qing Feng Bu Fu. Don't waste time. "

Ze Yu Sishui thought about it and it made sense. There could be no more unfortunate thing in the world than queuing up with Mi Yin and Xue Piao Renjian in the arena. So he agreed and went to find Qing Feng Bufu to queue up.

Five minutes later.

Ze Yu Si Shui: "... qaq ! Young Master Ming you are such a big liar! "

It's true that they have hit bottom and rebounded, but they didn't hit bottom at all in the last game. It's not the most unlucky thing to be matched with Mi Yin and Xue Piao Renjian in the arena. The most unlucky thing is that they were matched with Mi Yin and Xue Piao Renjian in the last game, and Ji Xuanyi and Qi Qin in the next game!!!

Ze Yu Sishui sniffed and lowered his head to chat with Ji Xuanyi, but found that he couldn't chat in the arena, so he could only shout at the top of his voice: " Xiao Ji! We will retreat directly at the beginning! Please don't fight us! "

After a few seconds, Qi Qin's voice came from behind the opposite fence: " Not good! Xuan Yi said we have to fight with our true strength! "

Qing Feng Bu Fu looked at Ze Yu Si Shui in horror and said, " How did you get beaten last time? Tell me quickly, I need to be mentally prepared, otherwise I'll have a heart attack! "

Ze Yu Si Shui: "..."

Ze Yu Sishui ignored Qing Feng Bu Fu and knelt down across the fence in front of Ji Xuan Yi and Qi Qin, crying, " Boss, please let us go. We really can't beat them! "

However, the distance was too far , so Ji Xuanyi and the others really didn't see Ze Yu Sishui's begging for mercy. Qi Qin very honestly relayed Ji Xuanyi's words and said, " No need to say more, just fight seriously! "

Seeing that he couldn't move the other party, Ze Yu Sishui stopped struggling, stood up resignedly, and said to Qingfeng: " We can only fight ..."

Qingfeng Bufu looked at the blurry figure opposite him, and was too embarrassed to ask if the other side didn't see your begging for mercy like a tiger descending from a mountain. After all, he couldn't ask Ze Yu Sishui to kneel down and make a sound for Ji Xuanyi and the others to hear, so he could only comfort him: " It's okay, maybe you can still fight? Besides, even if you lose, you will lose quickly, just grit your teeth and close your eyes, and it will be over, don't panic. "

Ze Yu Sishui looked at Qing Feng Bu Fu silently. Just as he was about to say something, someone on the platform shouted at the top of his voice: " For honor! The competition begins! " The fences on both sides collapsed at the same time, and Ji Xuanyi and Qi Qin rushed out immediately.

For Ji Xuanyi and Qi Qin, this fence was a restriction. Once it collapsed, it would be time to attack. But for Ze Yu Sishui and Qingfeng Bufu, this fence was no different from a shelter. The moment it collapsed, both of them exclaimed " Oh shit! "

Qingfeng Bufu saw Ji Xuanyi and Qi Qin coming over, and hurriedly looked at Ze Yu Sishui. They were so busy being nervous that they hadn't even discussed how to fight! As a result, Qingfeng Bufu turned his head and found that there was no one beside him ... Ze Yusihui disappeared into the air and whispered in Qingfeng Bufu's ear: " Brother, hold on for now. I'll come out to support you when the time comes! "

Qing Feng Bu Fu: "... You're kidding!

Qingfeng Bu Fu Ma Mu said: " What if the time is not right? "

As expected, Ze Yu Sishui said regretfully: " Brother, if the time is not right, you should die first! "

Qing Feng Bu Fu cursed: " Get lost! I don't have a child like you! "

When Ze Yu Sishui heard this, he quickly left, leaving Qingfeng alone to deal with the combination of Ji Xuanyi and Qi Qin.

Qingfeng Bufu almost cried out loud. He despised Ze Yu Sishui in his heart and silently decided that he would never play in the arena with someone who could become invisible. He then took difficult steps with his short legs, trying to avoid Ji Xuanyi and Qi Qin.

In most games, mages are set up as turret professions with high aggression, fragile skin, and short legs. However, in "Domain", except for the warlock who is very extreme, other professions are relatively balanced, including the mage profession, which has the advantage of high attack while also bringing some slight control and life-saving skills.

The mage's full-level skill is not an earth-shattering ultimate move, but a somewhat funny-looking displacement skill called Positive and Negative Poles.

The positive and negative polarity skills can be used twice per CD . When the mage releases this skill on himself and the enemy at the same time, once the enemy gets close, the mage will be passively bounced away. When it is applied to himself and his teammates, the effect is completely opposite, and the two people can be sucked closer.

Each time the skill is used, the effect lasts for five seconds, which adds up to ten seconds. However, each CD can only be used three times in total. However, it is enough . When used against the enemy, it can cancel the enemy 's three pursuit attacks. When used against a friendly unit, it is equivalent to ten seconds of acceleration. It can be said to be a life-saving skill. At least it is more than enough for a short-legged melee fighter like a swordsman.

However, its shortcomings are also obvious. First, it cannot target ranged and agile professions and is naturally countered by assassins. Second, if it encounters two melee characters chasing it at the same time, it will be consumed very quickly and it is very likely to be killed while firing. However, this skill is extremely useful in saving lives when teammates are healers. As we all know, a profession like the mage, which deals explosive damage, can put tremendous pressure on the opponent for every extra second of life. In the hands of an expert, it can be said to be a magical skill.

However, regardless of whether Qingfeng Bufu is worthy of the title of master, just talking about the configuration of Ji Xuanyi and Qi Qin, it can be said that with Ji Xuanyi, the warlock, he is almost the natural nemesis of Qingfeng Bufu. After all, although the warlock is an auxiliary, he is also a long-range one. There is no need for Qi Qin to get close to him. Ji Xuanyi can control him from a distance first , and then Qi Qin can come up and beat him up.

After Qingfeng Bufu ran out of the fence, he immediately put on a damage reduction shield to prevent Ji Xuanyi and Qi Qin from suddenly beating him up. Even if he was controlled first, with the damage reduction shield on his body, and Qi Qin's equipment was average, he could definitely withstand Ji Xuanyi's control chain. The warlock's skills have a very long CD , and there is a skill vacuum period after the control chain. After the control ends, he can go to the positive and negative poles, and then he can walk away from Qi Qin while attacking them. You know, although Ji Xuanyi is a support, he doesn't have much healing ability, so you don't have to worry about not being able to kill people if you slowly consume their energy.

However, this tactic only went through Qingfeng Bufu's mind for a short while. After all, he had seen Qi Qin's attack methods. Saying that a shield could withstand Ji Xuanyi's control chain was just a guess in the best direction. If possible, it would be best not to be touched.

At this time, Ze Yu Si Shui is needed. If the opponent can entangle Ji Xuanyi, then Qing Feng Bu Fu can boldly attack Qi Qin. The skill of positive and negative poles can also be saved for use later to save his life.

Qingfeng Bufu thought so and began to wink at the air frantically – there was no other way. Although they were teammates, he could not see Ze Yu Sishui after he became invisible. He could not directly shout out the tactics. He could only hope that Ze Yu Sishui and he had a mother-son connection and could sense what he was thinking!

After seeing that Qingfeng Bufu had put a shield on himself, Ji Xuanyi and Qi Qin were no longer in a hurry to go up. Everyone's equipment level was the same. Qingfeng Bufu's shield was as fragile as paper when Qi Qin used his equipment outside. But with his current equipment, even if Qi Qin wanted to break the opponent's shield, it would take a certain amount of time, and every second of control time was very precious. There was no need to waste it. It would be better to wait for the time to end and then go up and beat him up.

Qingfeng Bufu saw that Ji Xuanyi and Qi Qin's actions were similar and knew what they meant. His pace immediately slowed down and he couldn't help but hesitate for a moment.

The other party obviously didn't want to attack his shield, so should he go to them and attack them while they weren't attacking, or wait for Ze Yu Sishui to disrupt Ji Xuanyi and the others' vision and hearing before charging in? The former might be a trap, and the latter ...

Qingfeng Bufu thought of what Ze Yu Sishui said at the beginning when he was invisible, as well as the other party's fear of death. He always felt that he could not wait for the other party to make the first move!

Qingfeng Bufu gritted his teeth. As the saying goes, one cannot gain a tiger cub without risking it. While his shield had only four seconds left, he turned around and ran towards Ji Xuanyi and the others.

" You still have some awareness, " Ji Xuanyi whispered to Qi Qin, " You haven't lost any health yet, but you've activated your skills and are only thinking about running. You're definitely losing, just like letting a skill go on cooldown, especially in a no-brainer game. No matter what the reason is, if you can't delay the cooldown , you can only go after activating your skills. Both sides don't have healers, and each side only has one chance. The side that only thinks about saving its life will definitely lose. "

When Qi Qin saw that Ji Xuanyi also gave comments on his kung fu, he knew that he did not intend to make things too difficult for Ze Yu Sishui and Qingfeng Bufu. Although everyone had the same equipment, the difference in strength was there after all. The possibility of Ze Yu Sishui and Qingfeng Bufu winning was still too low.

Although Qingfeng Bufu was conscious, his reaction was still slow. When he ran over, his shield was already running out of time. Rather than saying that he attacked Ji Xuanyi and the others without them noticing, it would be more like saying that he delivered a takeaway to their door and waited for Ji Xuanyi and the others to take the kills.

Ji Xuanyi looked at the distance between himself and Qingfeng Bufu, took a step forward and raised his staff.

Just when Ji Xuanyi was about to control Qingfeng Bufu on the spot and end the battle, his expression suddenly changed. He abruptly retracted his staff, spun around, and hit the air behind him heavily.

Although the damage of this attack is limited, the assassin's invisibility will be broken if he suffers any damage, even if it is only a little bit. The air fluctuates and Ze Yu Sishui appears from it, but the momentum of his skills does not decrease, and he rushes straight towards Ji Xuanyi!

Although Ji Xuanyi turned around, his reaction was a beat too slow. Ze Yu Shishui's skill Stealing Kill almost brushed past his waist. Although the damage was not enough, it actually benefited from the back bonus, reducing Ji Xuanyi's blood by one-fifth!

Ze Yu Sishui is indeed a talented player identified by Ji Xuanyi. Although Qingfeng Bufu's movement of running over was very reckless and he failed to communicate with him at all, the moment Ji Xuanyi focused his attention on Qingfeng Bufu, he keenly sensed the opportunity and launched an attack at the moment Ji Xuanyi released his skill!

Although Ji Xuanyi relied on his intuitive prediction to interrupt the action in time, saving a few tenths of a second to release the skill and knocking Ze Yu Sishui out of the air, this action did not mean that he still had spare strength or a misjudgment, but that he had realized that it was too late to avoid the damage, and only by turning around and hitting this magic wand would he not lose.

This is where Ze Yu Si Shui's talent lies! If this person wasn't so salty, he might be the next Mi Yin!

But unfortunately, there is no "if" in the world. The salted fish Ze Yu Si Shui could only seize the opportunity at that moment, but he could not keep up with the subsequent attacks. After being hit by Ji Xuanyi, he was immediately beaten by Qi Qin. The tacit understanding between Ji Xuanyi and Qi Qin made him give up the entanglement with Ze Yu Si Shui in an instant. He turned around and controlled Qing Feng Bu Fu, who seemed to be in a good situation and was standing in place to read the thunder.

Qingfengbufu: "..."

The out-of-control thunder began to expand on Qingfeng Bufu's staff, and an expression of despair appeared on Qingfeng Bufu's face!

Chapter 201

Ze Yu Sishui and Qing Feng walked out of the exit covered in dust . Ming Shao immediately went up to them and said, " Lost again? What configuration did you get? Review the game. " Ze Yu Sishui stared at Ming Shao for a long time , then burst into tears. While crying, she hit Ming Shao and cursed him: " Bounce back , you liar ! "

Ming Shao: " ??? "

Qingfeng Bufu touched his hair and face and found that his afro and black ash had been refreshed . Only then did he have time to tell Ming Shao what had just happened.

Ming Shao was stunned and it took him a long time to react. Ze Yu Si Shui cried and said, " Today is a bad day. Let's go. We can fight again tomorrow. "

Young Master Ming said speechlessly: " No, shouldn't we hurry up and continue to queue up now? You even took pictures of Ji Xuanyi and the others , so what are you afraid of ? You will definitely win the next one , trigger ..."

Ze Yu Sishui looked at Ming Shao viciously , as if to say, "If you dare to mention the word " bottoming out " again , I will eat you alive."

Ming Shao saw that Ze Yu Sishui was really traumatized by the beating from Qi Qin and couldn't fight anymore. He could only sigh and compromise.

Ze Yu Sishui and his group logged off, but Ji Xuanyi and Qi Qin were still queuing. There were a lot of people participating in this competition , including many experts. There must be more than one team of guys like Mi Yin, and they would fight tooth and nail without any regard for relatives. Although Ji Xuanyi felt that he and Qi Qin could definitely make it into the top 25 based on their strength, there was a possibility that someone might be lucky and more diligent than them and squeeze them out, so he didn't dare to relax at all.

Qi Qin also understood what Ji Xuanyi meant. After all, in order to take care of his mental state, they logged off on time at 8 o'clock every day. In fact, they played three to four hours less than other players. It was always a good idea to seize the opportunity when they could go online.

Ji Xuanyi was explaining to Qi Qin how to play some special configurations. Halfway through, he informed them to line up, and the two of them walked into the arena from the entrance.

Before the game starts, both sides will be informed of the enemy 's team name, ID name, and profession. Most people only look at the last item, and Ji Xuanyi is the same. If Qi Qin hadn't reminded him in the previous game with Ze Yu Sishui, Ji Xuanyi probably wouldn't have seen it. This time, the opponent's configuration was an assassin and a knight. Because he had met Ze Yu Sishui and Qing Feng Bu Fu before, Ji Xuanyi couldn't help but pay a little attention to this relatively unmainstream and familiar configuration, and couldn't help but take a closer look at the IDs of the two people on the opposite team .

Qi Qin and Ji Xuanyi were thinking the same thing, and subconsciously moved closer to Ji Xuanyi and said, " Xuanyi, are Mi Yin and Xue Piao Renjian on the other side? "

Ji Xuanyi didn't say anything, but frowned and stared at the battle list hanging next to the fence.

Qi Qin was startled and thought he was really facing Mi Yin and the others. He quickly leaned over, only to find that the names on the signs belonged to two strangers he didn't know.

Qi Qin was stunned for a moment and said, " What's wrong, Xuanyi? Do you know these two people? "

When Ji Xuan heard this, he finally withdrew his gaze, glanced at Qi Qin, and said, " I don't know. "

Qi Qin: " Ah? "

Ji Xuanyi explained in a good-tempered manner: " The knight opposite is called ' Candy Box ' . I also knew someone with this name before, but this name is neither popular nor obscure. I don't know if it is the person I knew before or if it is a duplicate name, so I said I don't know. "

Qi Qin said " Oh " , then thought of something and asked cautiously: " Is it someone Xuan Yi knew at that time? "

Ji Xuanyi knew what " that time " Qi Qin was talking about , so he smiled and said, " What else? Since I was called Mu Xuanyi, I can count the number of people I know on one hand. "

Ji Xuanyi had never mentioned the name " Candy Box " to Qi Qin . It was probably someone he knew when Ji Xuanyi was still the gang leader.

" Candy Box was also a senior executive in the gang before, but her relationship with me was average. When the gang was disbanded, it was not considered a betrayal. It can only be said that she left with someone who had a better relationship with her. She didn't say anything strange to me, " Ji Xuan smiled at Qi Qin and said, " I can only consider her a semi-acquaintance. Even if the person opposite is really her, I don't know if she still remembers me. "

Qi Qin worriedly asked, " Will you forget Xuan Yi? Didn't Xuan Yi kill her at that time? "

Ji Xuanyi shook his head and said, " She left with her friends, but she didn't go along with Zuo An Zhao Chen. I didn't have the time to find trouble with them one by one at that time, so it's more likely that she didn't remember me. "

After saying that, Ji Xuanyi smiled again and said, " I don't even know if the person on the other side is her. Even if it is, it doesn't matter. She has a good personality and probably won't talk much to me. I'll just play normally. "

Only then did Qi Qin nod.

Ji Xuanyi originally didn't think that the man opposite him must be the " Candy Box " in the gang . It was not until the competition started and the fence was lowered that the knight on the opposite side did not use his high mobility to rush out and catch them by surprise, but stood there the whole time. Ji Xuanyi couldn't help but sigh in his heart.

What kind of luck is this today? I just ran into Ze and Yu Sishui, and then I met an old acquaintance from such a long time ago. Judging from his reaction, if he is not trying to trick them, then he really has something to say to him.

Qi Qin obviously noticed that the other party's attitude was wrong, and looked at Ji Xuanyi hesitantly.

Ji Xuanyi raised his chin towards the man opposite him and said, " Don't let your guard down. It's a trap. "

Only then did Qi Qin become alert again.

But it was obvious that Candy Box, a girl with a relatively good temper, had no such intention. She didn't even let her fellow assassin get on the horse. She just pulled the reins and made the horse turn around a few times on the spot, indicating that she had no intention of starting a war.

What Ji Xuan pursued in the arena was the thrill of battle, not to launch a sneak attack, and of course he would not take advantage of others. Seeing that Candy Box had no intention of fighting, he naturally would not attack first. Instead, he stopped at a distance where he could barely see the other person's face, and looked at the other person quietly, meaning that if he had anything to say, he should say it quickly and don't waste time.

Candy Box also understood what Ji Xuanyi meant. She hesitated for a moment, glanced at the assassin girl who was evasive, and finally got off the horse. She held the assassin's hand and said from a distance: " Is it Mu Xuanyi? "

Ji Xuanyi sighed in his heart and replied, " It's me. "

Candy Box glanced at the assassin beside him again before continuing, " Long time no see. I'm Candy Box. I was in the same gang with you, but later left. Do you still remember me? "

Ji Xuanyi said: " If I didn't remember you, I wouldn't be standing here talking to you now. "

When Candy Box heard this, his expression did not relax. Instead, he sighed imperceptibly and said, " I'm sorry that I didn't stay to help you at that time. Xie Feng Shu Yu is also here, and she also wants to apologize to you. "

After saying that, she pulled the assassin girl and pushed her to the front. It seemed that she was the Xie Feng Shu Yu mentioned by Candy Box. However, Qi Qin remembered that the other name on the sign was not Xie Feng Shu Yu. It seemed that the other party had changed her ID .

Ji Xuanyi remembered Xie Feng Shu Yu. She was a good friend of Candy Box. She also left his gang at that time. But now it seems that Xie Feng Shu Yu is not very old. She was probably young and ignorant when she played the game. She left at the instigation of Zhao Chen. But she did not join Zuo'an with Zhao Chen, so she did not seem too stupid.

After Xie Feng Shu Yu was pushed out by the candy box, his entire face flushed red. He didn't dare to look at Ji Xuan Yi at all. After a long while, he raised his head and said in a mosquito-like voice: " Yes, I'm sorry ... I didn't expect to meet you here. Although I don't have the face to ask you for forgiveness now, I was indeed the one who did the stupid thing back then ..."

Xie Feng Shuyu's words were halting, and I think she was very embarrassed. At her age, she is not willing to admit defeat, and apologizing is indeed a difficult thing to do.

But no matter how messy her apology was, when she and Candy Box came to talk to Ji Xuanyi, Ji Xuanyi had actually forgiven her.

Ji Xuanyi knew very well how much adolescents cared about their reputation. Not to mention what happened in the past, Ji Xuanyi admitted that she was also at fault. Even if it was all Xie Feng Shu Yu's fault, there was no need for her to take the blame. After all, she had changed her ID , and Candy Box was a more popular name, so there was a possibility that she had the same name as him. She just needed to pretend that she didn't know Ji Xuanyi at all and play the arena normally. Ji Xuanyi believed that the feeling of guilt would not bother her for long.

But she came down to apologize. Besides, although she was instigated to leave, she did not surrender to the enemy to deal with Ji Xuanyi. Ji Xuanyi was willing to believe her sincerity.

Xie Feng Shu Yu stuttered for a while, and finally managed to speak smoothly. He mustered up the courage to look at Ji Xuanyi and said, " I'm sorry! I was really stupid at that time. They all

encouraged me, and I got excited and followed them to quit the gang. But when I calmed down and thought about it, I realized that you are not as bad as they said! "

Ji Xuanyi's eyes moved and looked at her.

Xie Feng Shu Yu's eyes were almost filled with tears. She said, " Everyone has their own shortcomings. You are indeed autocratic and have a bad temper, but you also have many advantages. For example, you take special care of us gang members, you are loyal, you are tough on the outside but soft on the inside, you are responsible, you are the first to rush into bad things and leave all the good things to us ... Compared with your advantages, your shortcomings actually only make you more impressive. We don't dislike you at all! "

Xie Feng Shu Yu wiped his eyes and whispered, " I have wanted to say these to you for a long time after I calmed down. You are really a very good person and a very good gang leader. We were idiots back then. Don't believe what those people say. There are people in the gang who hate you, but there are more people who like you, so ..."

" I understand. " Ji Xuanyi said in a low voice.

Xiefeng Shuyu was stunned for a moment and looked up at him.

Ji Xuanyi smiled at her and said, " Thank you for telling me this. I don't blame you. I am living a happy life now and everything is fine. "

Tears were streaming down her cheeks again. She sniffed, feeling guilty and embarrassed. She smiled timidly and said, " That's good. You are doing well. That's good ..."

Qi Qin and Candy Box couldn't help but smile. Candy Box hugged Xie Feng Shu Yu and said, " Now you can rest assured. "

Xie Feng Shuyu rubbed her eyes and nodded. She had wanted to apologize to Ji Xuanyi for a long time, but guilt, shame and timidity had always prevented her from looking for him. She always felt that she would be ignored without hesitation. She had planned to continue like this, but ended up meeting him in the auditions in the arena.

At first, Xie Feng Shu Yu couldn't believe it. She pulled Candy Box and looked at it for a long time. Candy Box had no impression of Ji Xuanyi anymore. Xie Feng Shu Yu pulled her and helped her recall for a long time before she remembered. The two of them struggled for a long time, which led to the current apology.

" You are still as good as before. If we were not in a different server, I would definitely go to play with you, " Xie Feng Shu Yu exhaled and said, " I know you are very strong. Tangguo and I cannot beat you this time, so we won't waste your time. We will retreat first. You guys keep working hard. "

After saying that, Xie Feng Shu Yu wanted to raise her hands in surrender, but Ji Xuanyi quickly stopped her and said, " Wait a minute, you're going to retreat before we even start fighting? "

Xie Feng Shu Yu was stunned for a moment, and looked at Ji Xuan Yi in confusion, then said in disbelief: " Are you going to beat me up again to vent your anger? "

Ji Xuanyi: "..."

You say he is so great, but is this how you think of him?!

Just when Xie Feng Shu Yu was struggling to agree, Ji Xuan Yi said speechlessly: " Who do you think I am ... It's just that we may encounter the Assassin Knight configuration in the later stage, and there is no decent person to practice with until now, so I want to fight with you. "

Although just as Xie Feng Shu Yu said, these two girls definitely couldn't beat Ji Xuan Yi and the others, and they couldn't compare with Mi Yin and the others, but Ji Xuan Yi remembered that Xie Feng Shu Yu's skills were pretty good, and she had a good understanding with Candy Box. Maybe he could see some strange combination moves from them.

Xie Feng Xi Yu reacted after a little thought. Although they knew that they had a chance of not being able to make it into the top 25, they did not play with the intention of earning coins alone. They had also learned some information about the contestants. When Ji Xuan mentioned the assassin and knight combinations one by one, she immediately remembered that Mi Yin and Xue Piao Renjian, two masters among masters, also participated in this competition, and it seemed that they were aiming for the first place.

Ji Xuanyi is indeed very strong, but he is playing a warlock instead of his most comfortable assassin. In addition, the quality of his teammates is not very clear. It is still difficult for him to win against Mi Yin and Xue Piao Renjian. It is normal to want to practice with the same configuration now.

Xie Feng Xi Yu nodded and said, " Then let's have a serious fight ... If we are on the same server, we can serve as your sparring partners. "

Ji Xuanyi smiled and shook his head. It would be fine for the low-profile combination of Xiefengxiyu and Candy Box to have a fight to see if there were any new moves. However, frequent contact would easily form a fixed rhythm, and they might be caught off guard by Mi Yin and Xue Piao Renjian. Besides, in order to gain points, they didn't have the time to contact each other.

Just as Candy Box climbed onto the horse, Xifengxiyu suddenly seemed to remember something and said to Ji Xuan: " Oh, there is something I almost forgot to tell you. "

Ji Xuanyi asked: " What's the matter? "

Xiefengxiyu said hesitantly : " Do you still remember the madman? "

The madman that Xiefengxiyu mentioned is called Fengmo. Because he is as stupid and immature as his name, everyone calls him a madman. He also left Ji Xuanyi's gang, but like Xiefengxiyu, he did not go to Zuo'an. Instead, he set up a new gang and was retaliated by Ji Xuanyi. However, compared with Zhaochen, the madman's choice was not so heartbreaking, so Ji Xuanyi did not do anything extreme. He killed some of their gang members for a while and stopped when the madman's gang was half-crippled.

Ji Xuanyi nodded when he heard this. Feng Mo had a good relationship with Ji Xuanyi and was very powerful, so of course he remembered him.

Xie Feng Shu Yu said, " Crazy is also participating in this arena competition, and with his strength, he can probably make it to the knockout rounds. When you pay attention to Mi Yin and Xue Piao Ren Jian, you can also pay attention to him. He is playing an archer now, but I don't know what his team configuration is, but he will definitely target you after he notices you, so be careful. "

Ji Xuan frowned when he heard this.

The strength of the player Fengmo is not just strong. Like Ze Yu Sishui, he is an intuitive growth-type player. He was quite powerful in the beginning. After not seeing him for a few years, he

must have improved a lot. After all, this person is different from Ze Yu Sishui. He has never been a slacker and always plays games very seriously.

And just like Xie Feng Shu Yu said, if Feng Mo meets Ji Xuan Yi, he will definitely target him madly. He is a very extreme guy. It's good that he has a good relationship with Ji Xuan Yi, but at the same time, he really hates Ji Xuan Yi.

It seems complicated to say , but it is actually very simple. This is the brain circuit of the chuunibyou. He has a good relationship with Ji Xuanyi because of Ji Xuanyi's strengths, and he also hates Ji Xuanyi's shortcomings from the bottom of his heart, so after leaving, he established his own gang instead of joining Zuo'an.

However, Ji Xuanyi's action of threatening to kill his gang later must have made this guy hate him even more, and he was completely unwilling to be friends with Ji Xuanyi.

If he really met this guy, Ji Xuanyi would be scratching his head a little.

It is indeed a good thing to know this news in advance. Ji Xuanyi is not very good at inquiring for information. He originally planned to ask Xiao Xiao Yuxia after his points were stabilized .

However, Xiao Xiao Yuxia may not notice Feng Mo. Fortunately, he encountered slanting wind and sparse rain.

Ji Xuan nodded and said, " Thank you, I understand. I will pay attention to it. "

Xie Feng Shu Yu finally felt relieved, took Candy Box's hand, climbed onto the other's horse, and said to Ji Xuan from a distance : " There's nothing else to do, let's get started. "

Ji Xuanyi nodded slightly, and the candy box immediately mounted the horse and ran away.

Ji Xuanyi originally thought that Candy Box would move slightly to avoid his skills. Although horses are not as flexible as humans, it is still easy to miss if the prediction is not accurate.

However, Ji Xuanyi's guess was wrong. Candy Box did not use movement to get close to them, but let the horse run wild and ran as fast as possible outside Ji Xuanyi's attack range.

Ji Xuan was stunned for a moment, and before he could react to what she meant, he saw her pull Xie Feng Shu Yu from behind the horse with her backhand, and using the force to swing Xie Feng Shu Yu towards Ji Xuan and the others.

If you do this kind of action in real life, your arms will be dislocated constantly, but there is no such concern in the game .

Xie Feng Shu Yu flew towards Ji Xuan Yi like a cannonball, holding a dagger. Her speed was much faster than if she ran over on foot. This move was so sudden that Ji Xuan Yi could hardly react. Qi Qin pulled him aside and raised the giant sword towards Xie Feng Shu Yu.

The physics system in this game is quite good. If Xie Feng Shu Yu fell at this speed, he would probably be cut in half by Qi Qin's sword in real life. However, as a fragile assassin in the game, he could probably be directly resurrected. Ji Xuanyi was sighing that this tactic was unexpected enough, but when he felt a little powerless afterwards, Xie Feng Shu Yu, who was about to reach Qi Qin, suddenly disappeared into thin air!

Qi Qin was stunned, and Ji Xuanyi reacted immediately. He jumped on the ground without looking back and dodged the attack from the candy box that had somehow gotten behind Ji Xuanyi while their attention was all on the flying man Xie Feng Shuyu.

When Candy Box missed the first attack, he immediately ordered the horse to raise its hooves high and was about to step on Ji Xuanyi. However, it was too stupid to use such a slow attack to deal with the warlock head-on. Ji Xuanyi raised his staff in an instant and was about to paralyze

Candy Box. Unexpectedly, at this moment, Xiefeng Shuyu, who had disappeared somewhere just now, suddenly appeared in front of Ji Xuanyi. While stabbing Ji Xuanyi's chest with a dagger, he helped Candy Box block the paralysis skill!

When Ji Xuan saw that the skill missed, he was about to roll away, but suddenly he found that his body was paralyzed and he couldn't move. His pupils shrank immediately, and he watched the candy box complete the pre-swing of the trampling skill, and the two horse hooves stepped down on him fiercely!

The slash of blows just now has reduced Ji Xuanyi's health by about one third. If the knight's three stages of trampling can all be completed, Ji Xuanyi can say goodbye directly!

All this happened in a flash. If Ji Xuanyi was really taken away by one move, it would be no different from being killed instantly. It would be too embarrassing to tell others about this kind of thing. The two girls had not expected that the routine they had researched would be so useful. Both of them couldn't help but reveal smiles of impending victory on their faces.

However, at this moment when she was so close to victory, a huge sword suddenly appeared in front of Candy Box. Before she could react, she was knocked off the horse. The horse, without control, was forced to stop trampling and stopped helplessly.

Ji Xuanyi, who regained consciousness earlier than Xie Feng Shu Yu, got up from the ground, scratched his nose and wondered, " I'm just a fucking support. You guys are beating me like this. You really don't treat my teammates as human beings. "

Author's comments: Qi Qin: Before he could react, Xuan Yi was pinned to the ground ...

Chapter 202

The skill that paralyzed Ji Xuanyi was the assassin's new full-level skill , Poison Blade.

In addition to considerable damage, this skill also has a paralysis effect. However, it cannot be compared with a profession like the Warlock that specializes in support . When launched from the front, the effect lasts only 1.5 seconds, and when launched from the back, the duration will be increased to three seconds. Although it is only about half the duration of the Warlock's paralysis skill , its damage is much higher than that of the steal . For a first-class assassin , if there is no one to disturb him, these three seconds are almost enough for him to kill a fragile enemy .

Ji Xuanyi knew this skill, but he was not prepared, because most of his assassin opponents were killed before they could use this skill.

Of course, not every time they move so fast, for example, the last time Ze Yu Sishui made a sneak attack , he even successfully attacked Ji Xuanyi , but he used Stealth Kill instead of Poison Blade . There was only one reason for this – because the CD of the latter was too long . In the arena battle , especially 2v2, if you don't bring a healer, it is almost impossible to use this skill twice in a battle.

this skill which has both attack and control on a warlock . Not to mention that the warlock has longer control time, if the skills are used at the same time , the assassin actually loses two seconds. Even if Ji Xuanyi fails to control the assassin who used the skill on him, there is still Qi Qin next to him!

With a master like Qi Qin around, if Ji Xuanyi was a priest, it would be fine to control the milk and do DPS . But Ji Xuanyi is a warlock, and his healing support is not that great. If there are other ways to deal with him, the best way is to directly control Qi Qin and attack Qi Qin, because the latter is a much greater threat than Ji Xuanyi.

Ji Xuanyi was also used to this way of thinking, so he did not guard against Xifeng Shuyu's actions. He never expected that the two girls, because they were not familiar with Qi Qin and failed to change their perception of Ji Xuanyi in time, put all their skills on him alone. He must have been beaten up by Qi Qin!

After knocking Candy Box off the horse, Qi Qin did not continue to chase her, but instead took advantage of the fact that Xiefeng Shuyu was still under control and grabbed her to attack her. The assassin's whereabouts are strange. Although Qi Qin is a swordsman with added agility, he is still a swordsman. It is not so easy to catch the assassin. It still requires a certain amount of luck. Now Xie Feng Shu Yu is unable to move. Of course, it is better to deal with her first and then attack the candy box that cannot be invisible.

The assassin has very little health, which is comparable to the most fragile mage among the magic professions. He does not have the hard damage reduction that the mage has. He can be said to be the most fragile profession among the seven professions. Although Qi Qin's equipment is not very good, her output is not low. The candy box that wanted to support her was blocked by Ji Xuanyi's skill with a CD limit . The paralysis effect had just passed, and Xiefeng Shuyu was only left with a thin layer of blood!

Xie Feng Shu Yu immediately activated the teleportation. With the reset, she could survive for a while longer. However, the reality is never as good as imagined. As soon as Xie Feng Shu Yu raised her head, Qi Qin predicted her teleportation target point based on her line of sight, and slapped her with a sword, clearing Xie Feng Shu Yu's health bar.

In the 2v2 arena, it is not uncommon for a teammate to die first and only one person to turn the tables. To be precise, if the teammate is strong enough, this happens quite often. But when Candy Box saw this situation, he knew he had no chance, so he could only raise his hands helplessly and said, " Okay, you win. "

Ji Xuanyi said curiously, " This routine of yours is quite interesting. How did you come up with it? "

It's not that he hasn't had the thought of being embarrassed before. For example, when they were doing activities or competing in teams, it was common for strength-type professions to throw magic-type professions or agility-type professions. Qi Qin had done this more than once. However, combat was different. He had never seen a situation where a teammate was thrown out directly.

When Candy Box heard this topic, he couldn't help but smile and said, " You may have thought of it by watching TV series. "

This is the difference between "Domain" as a holographic online game and a keyboard online game. There are only two types of cooperation between teammates in keyboard online games. One is a multi-skill MMORPG online game, which is about finding the connection point between the skills of two professions. Once found, and the cooperation is tacit, it can often form a situation where 1 plus 1 is greater than 2. With more connection points, fewer conflicts, and

coordinated attack attributes, these two professions can be called standard. When they cooperate tacitly, the fight is very smooth. It can be said that they can kill gods and Buddhas , leaving the enemy helpless.

MOBA games with fewer skills . The cooperation in this type of game tests more the strategic tacit understanding of teammates. Although there is still some connection between skills, the situations that require two players to be bound together are relatively rare.

Holographic online games are different from both of these situations. Because it is a holographic online game, players are not limited to attacking according to skills. For example, players like Qi Qin can catch up with the damage of skills with ordinary attacks. Correspondingly, the coordination routines are also diverse and very free. Whether it is strategy, skill connection, or wonderful playing methods invented by players themselves, they can all work.

This is also the reason why there are not many skills in the game and CD gaps are easy to appear. In addition to experiencing the realism of the game, the freedom of combat is also one of the selling points of holographic online games. If all the skills are arranged, there is no need to consider the CD gap at all, and you only need to play step by step. Then, except for the game experience, there is actually not much difference between holographic online games and keyboard online games.

Although more and more players are playing the game "Domain" now, most people, including Ji Xuanyi, still have the concept of combat stuck in the era of keyboard online games. Only a small number of people have grasped the real gameplay of this game. The airdrop attack of Xiefeng Shuyu and Candy Box is very much like this.

Although the tactics brought by the two girls were still crude, it had to be said that they gave Ji Xuanyi a great inspiration. It seemed that Mi Yin and Xue Piao Renjian should have experienced the same thing in such frequent battles. I just didn't know if they had developed any refreshing routines.

Ji Xuanyi's expression became eager to try, and he could not help but said: " To be honest, once you came up with this tactic, I couldn't wait to see more of this kind of fighting style. I hope that among the top 25 people, there are also people who can use new angles to fight. "

In this case, winning or losing is not that important. The most important thing about playing games is to fully experience the freshness and happiness brought by a game!

Candy Box couldn't help laughing and said, " You are still the same as before. Xiaoyu can't talk now, otherwise she would be very happy. "

Ji Xuanyi also laughed and said, " Some people say that I have changed a lot, and some people say that I have not changed at all. It seems that my changes are going in a good direction. "

Candy Box nodded seriously and said, " If you were 50% cute and 50% hateful before, then now you are at least 80% cute. If it were you now, I would definitely be happy to make friends with you. "

Before Ji Xuanyi could reply, Qi Qin had already cleared his throat, stood in front of him, and said to Candy Box: " We are not in the same server, let's talk about making friends later, we still have time to rush to earn points, thank you for playing with us, let's stop here for now. "

Candy Box was stunned for a moment, and subconsciously looked at Ji Xuanyi behind Qi Qin. Ji Xuanyi showed him a helpless expression. Candy Box immediately realized something,

looked at the two of them with strange eyes, covered his mouth and smiled, and said: " Okay, okay, I won't bother you anymore, referee, we admit defeat! "

After receiving the surrender signal from the candy box, he immediately raised his hands and shouted loudly: " Red team surrenders, Blue team wins, please leave from the exit. "

The slanting wind and sparse rain were immediately refreshed inside the fence, and Candy Box and Ji Xuanyi also walked towards the two exits respectively.

Before leaving, Xie Feng Shu Yu suddenly shouted, " Boss! I'll come and play with you when the server transfer starts! "

Ji Xuanyi was stunned, before he could react, the two girls waved at him and left. Ji Xuanyi raised his head helplessly, and saw Qi Qin looking at him dimly.

Those dark eyes seemed to be complaining, why is it that Xuanyi is liked by so many people wherever he goes? Every day, I am worried that Ji Xuanyi will be snatched away, and it's uncomfortable ...

Ji Xuanyi laughed, took his hand, and said softly: " What are you still looking at? It's time to go, Brother Qi? "

Qi Qin's face suddenly turned red , and his mind became a little unclear. He no longer remembered to explain to Ji Xuanyi about his good popularity. He was foolishly led back to the arena hall.

As it was getting closer to dinner time, there were fewer people in the hall. Qi Qin was not sure whether to continue queuing, so he looked down at Ji Xuanyi.

Ji Xuan said: " Let's stop here for today, and work harder tomorrow. "

After that, he took out the booklet recording the scores, looked at it, and said, " This score should be stable . I heard that in three days the official website will start to update the names and participants of the top 25 teams in real time. We will see the situation then. "

Qi Qin nodded and said, " Then I'll go offline and cook ..."

Seeing Qi Qin turning around to leave, Ji Xuanyi quickly grabbed him and said, " I just said I don't want to play today, not that I want to go offline to eat! "

Qi Qin looked at him in confusion and said, " Then what are we going to do? "

Ji Xuanyi smiled and said, " You are trying to use a trick. "

Qi Qin: "..... ? "

Ji Xuanyi's idea was actually quite normal. Before the arena, most players had not really realized the correct way to fight in this game. Even if they occasionally used routines that would never be used in keyboard online games in daily life or tasks, they had never thought that they could do so in a serious battle.

But this arena competition was broadcast live in the entire game. When a team like Xiefeng Shuyu and Candy Box appeared, everyone would react. When Ji Xuanyi thought about it, he began to doubt whether the official had specially organized this arena competition just to make players understand this truth.

But no matter what the official reason is, Ji Xuanyi is definitely unwilling to fall behind. Now that he has discovered this, of course he must make good use of it!

Qi Qin was silent for a moment after hearing this, then looked at Ji Xuanyi and said, " But for a combination like ours, what kind of fighting style should we research? "

Qi Qin and Ji Xuanyi have almost reached their limits in terms of personal abilities, but the aspect of coordination is very puzzling. The warlock's skills are more than enough to cooperate with teammates, and it is not so easy to develop more routines.

Ji Xuanyi thought about it for a while and felt puzzled. In fact, neither the Warlock nor the Swordsman can be considered as the professions that take the initiative to attack, because their legs are short and they are easy to be led astray, and the Warlock is not aggressive. If Ji Xuanyi was thrown out by Qi Qin like Xie Feng Shu Yu, he would probably be left behind and killed by the opponent. These two professions are more inclined to strike back and cause damage by breaking the enemy's routines.

The most important point is that combo skills are something that can only be thought of when inspiration strikes. For example, as Candy Box said, watching TV dramas, it is definitely useless to just stand there and think about it.

Ji Xuan thought about it and could only put the matter aside for the time being. They didn't have much time to waste now. Besides, the traditional fighting method was also a fighting method. If he couldn't think of it, he couldn't force it. It would be really stupid to make things worse.

Qi Qin, however, saw Ji Xuanyi frowning and proposed an idea, saying: " Xuanyi, how about I teach you a set of sword techniques? If we cooperate with each other, maybe we can double our power! "

Ji Xuan glanced at him coldly and said, " Swordsmanship? Do I have physical attacks? "

Qi Qin: " Uh ..."

In fact, he was just talking. After all, at Ji Xuanyi's age, the best he could do with sword skills was to practice in the park. It would be difficult to use it in combat.

The two of them wanted to talk to each other, so they had to log off to eat. Qi Qin asked cautiously, "Since they couldn't think of a trick, do they still want to continue to earn points in the evening?"

Ji Xuan waved his hands one by one and said very calmly: " I won't brush it if I can't think of anything. Anyway, I already have a lot of points. Let's just leave it at that and take a rest today! "

Ji Xuanyi and Qi Qin took a day off from their busy schedule, and began to queue up diligently to brush their points the next day.

Three days later, which was the tenth day after the arena qualifiers began, the official website released an update table of the top 25. Players who did not make it into the top 25 can also search to view their scores and rankings in the entire region and server to decide whether they need to work harder or just give up and start earning coins.

On this day, the arena hall was unusually empty, as most players were offline. The players who flocked to the official website to check the rankings almost overwhelmed the website. Ji Xuanyi also suppressed his impatience and refreshed the page more than ten times before he was able to squeeze in. Fortunately, his and Qi Qin's names were listed on the homepage of the official website, and they were one of the twenty-five teams. He did not need to refresh the page more than ten times to search for his ranking.

Ji Xuanyi and Qi Qin's winning rate is still very high. Except for various unexpected events or mistakes caused by fatigue, the team's winning rate basically remains at 80%. But even so, the two are only ranked fifth.

There are two familiar teams in the top 25, which are Mi Yin, Xue Piao Renjian and Lao Xiyi's team predicted by Ze Yu Sishui, and the inexplicable team led by Yun Zhongjian ...

Mi Yin and Xue Piao Renjian actually have a slightly lower winning rate than Ji Xuanyi and the others, but the two of them are really too hardworking. They were queuing when Ji Xuanyi and Qi Qin were queuing, they were queuing when Ji Xuanyi and Qi Qin were eating, and they were still queuing when Ji Xuanyi and Qi Qin were sleeping!

Even though his winning rate was only over 70%, he was still one place ahead of Ji Xuanyi and the other two, that is, fourth place.

Qi Qin said puzzledly: " Although it is Mi Yin and Xue Piao Renjian, this seems a bit unfair. Isn't their winning rate lower than ours? "

Ji Xuan looked at him and said, " It's not unfair. Probability is not the only criterion for testing strength. After all, if you only play one game, the winning rate is still 100%. The advantage of the point system is that it combines all the factors that can be considered. Mi Yin and his team have played many more games than us, and they can still maintain a winning rate similar to ours. The most obvious point is that they make fewer mistakes due to fatigue than us. They still maintain a plus point state for wins and losses, plus they have played more games, so their points are higher than ours. This is normal. "

Qi Qin was confused and it took him a long time to say, " So, it also tests endurance? "

Ji Xuan nodded and said, " Although 2v2 is a bit redundant, if both sides bring healers, the possibility of a bladder game is much higher than 3v3 and 5v5 . At that time, whoever has better patience and a lower error rate is more likely to win, right? However, there are people who are not strong enough but have patience, but they don't have the ability to keep their points rising. Instead, they get less and less, and naturally get eliminated. "

Qi Qin nodded, thinking that what Ji Xuanyi said made sense.

 " What about Yun Zhongjian and Jing Yunhan Liutian ..." Qi Qin couldn't help but ask: " They really destroyed the balance, right? "

Yun Zhongjian's team was hanging precariously at the end of the 25th place, but no matter what, it did squeeze out a team that was originally strong enough to be in this position.

Ji Xuanyi: " Uh ..."

Ji Xuan wiped the sweat off his face and refreshed the interface. He found that the 25th place instantly became another team. He said happily: " Look, they just fell down! "

Qi Qin: "..."

Qi Qin came over suspiciously and refreshed the interface again. The three people from Yun Zhongjian showed up again at the 25th place and immediately looked at Ji Xuanyi accusingly. Although Yun Zhongjian and his team's position is not very stable , judging from Yun Ouhuang's skills, when the final calculation is made on the last day, the three of them will definitely be in the 25th place!

Ji Xuanyi had no choice but to clear his throat and said, " There's a saying that luck is also a form of strength! "

Besides, Yun Zhongjian's European Emperor skill is a passive skill, and he himself doesn't know what's going on. Even if the game officials intend to intervene, they don't know where to start!

Qi Qin was still muttering in a low voice, Yun Zhongjian's luck was too incredible, it was simply cheating!

Ji Xuan thought to himself, other people probably think you are cheating, but you actually have some self-awareness!

The effect of Yunzhongjian's luck is actually somewhat limited. Moreover, there is no healer in the team, and they are all rookies. Even if they make it into the top 25, they will probably be doomed once they are targeted. However, being able to go in and play around is something worth bragging about. Liutian and Jing Yunhan might even be able to fly to the sky.

As the two were talking, Qi Qin's phone suddenly began to vibrate wildly, he picked it up and saw that the game group was flooded with messages again. Ji Xuan took a quick glance and it seemed that the guy Xiao Xiao Yu Xia was calling on the group to say that the three teams in the second server were all from Fanxing City and everyone should unite or something like that. This is all bullshit. How can we unite in such a competitive situation? Those who can beat you can beat you, and those who can't beat you can't beat you. Can we still give in? The official competition is an elimination competition, not a points competition. Can you wake up a little! But speaking of it, Ji Xuanyi did try to contact Mi Yin and Xue Piao Renjian during this period. It was not for the competition, but to explore their routines, or to get some routine suggestions or inspiration from them. However, because these two people were completely obsessed with the arena and had no time to reply to private chats, Ji Xuanyi's messages fell into oblivion.

Putting all the thoughts aside, Ji Xuan started to look for the old friend mentioned by Xifengxiyu and Candy Box in the top 25 and became obsessed with it.

The madman was very powerful, and he would only become stronger after a few years. Ji Xuanyi felt that since he had made it into the top 25, there was no way the other party wouldn't be in the top 25. If the other party had read the official website, he would have noticed him. Even if he was addicted to the game and didn't know the name Ji Xuanyi, the ID " Mu Xuanyi " belonging to Ji Xuanling in Ji Xuanyi's team would have attracted his attention. If Ji Xuanyi didn't figure out the other party's configuration in advance, he would easily suffer a loss in the arena.

However, it seems that Fengmo has finally gotten over his middle school years and changed his ID . Ji Xuanyi searched for a long time but couldn't find his name. If we only look at the archer profession, five of the twenty-five teams have archers, and one team has two archers.

Ji Xuan looked for a long time before he could barely narrow down the scope to two teams. One was the seventh-ranked double archers and mage, and the other was the first-ranked archer, swordsman, and warlock combination. The other three teams were ranked outside the top fifteen, and they didn't seem to match Fengmo's strength, so they were eliminated by Ji Xuan. Needless to say, the first place of these two teams, Ji Xuanyi felt that Fengmo had the strength and patience to do so, while the one that ranked seventh had a configuration that was too weird. However, with such a weird configuration, it was able to maintain the seventh place. It seemed that all three of them must be masters. Given Fengmo's personality, it was possible for him to form such a team.

Chapter 203

" In fact, no matter who his teammates are , the archer profession alone is already very difficult to beat. " Ji Xuan said.

Especially for Qi Qin, the archer is a long-range and agile profession , and its mobility is only weaker than the knight among the seven professions. Even the assassin is only flexible in a small range and cannot compare with the archer in moving over a longer distance.

However, Qi Qin is a miserable short-legged swordsman who is naturally nemesis of archers. Madman is a master of that level . If the two of them fight one-on-one, given the game settings, even if Qi Qin is a master of that level, he probably won't be able to touch a hair of Madman. Qi Qin was helpless when he heard this . In real life, people who could outrun him were at least athletes. However, all the values in the game were based on attributes . Ji Xuanyi was right . If he used his two legs to chase, he would definitely not be able to catch up with that madman . He could not add all his attributes to agility . Not to mention whether a swordsman with full agility could catch up with the archer , he had no strength and probably could not even lift the sword.

Ji Xuanyi touched his chin and said, " In short, it's better to defend against both teams , and we also need to think of ways to deal with archers. "

As the two were talking, the Yunzhongjian team had been up and down in the 25th place for eight hundred times. At the same time , the points of the other 24 teams also moved slowly, some rising, some falling. It seemed that after looking at the rankings, they went back to work to earn points. There were only five days left before the official competition began.

Ji Xuan saw that the sixth-place team's points had climbed up one level, and they were about to squeeze into the fifth position with them. He quickly turned off the computer and pulled Qi Qin into the game.

There are still five days left, and they can't rest easy with their current ranking. If they go down, they might be squeezed out by Yun Zhongjian's gang. That would be really troublesome. Ji Xuanyi can't stand the stimulation and might turn evil again and kill these three people.

In the next five days, all the teams that had hopes of entering the official competition were queuing up desperately, but the ordinary players who had no hope gradually became indifferent. The arena hall was a little emptier. In addition to the players who wanted to show their talents in the game and desperately brushed coins, there were also many cloud pvp players who had found their favorite teams on the list and started chasing stars in advance .

There are ten servers, and on average each server has about two or three teams that will be selected. There are also a few teams that are not on the list for the time being but are also quite strong and have the potential to qualify for the official competition if they work hard. These players are almost all famous in their respective servers. If they can participate in competitions that will be broadcast live in the game and their performance is good enough, I think they can attract a large number of fans.

This arena match was watched by everyone in the game. Everyone supported the team on their own server, and among these teams, they had their favorite professions and configurations. Even if the professions and configurations were the same, wouldn't they still have the looks?

There was always something to chase after. Although Ji Xuanyi didn't quite understand the high

point of chasing stars, everyone looked very happy, so Ji Xuanyi didn't care. He just chased after them, as long as it didn't affect him.

However, Ji Xuanyi was almost the only one who thought this way about fan culture. Among the three teams that made it into the top 25 on the second server, the Yunzhongjian team was the least famous, and its members were not very handsome. Most importantly, they didn't seem to be that strong either. They were always ranked around 25th, and not many people paid attention to them.

The situation on the other hand is completely different for Mi Yin and Xue Piao Renjian. The former two are okay, as they have participated in many competitions, and Xue Piao Renjian has even participated in offline competitions. They are used to the attitudes of fans, including their fans. Both of them can deal with them calmly. But for Lao Xiyi, a complete newcomer, the impact of fans is really too strong.

You know, Mi Yin and Xue Piao Renjian are different from guys like Ji Xuanyi who kill people to gain fans. They don't have many fanatical fans normally, but once there is a competition, these two people still have a large circle of passers-by fans. People know them wherever they go, and a group of people rush to cheer for them, encourage and praise them, and even praise the old Western doctor to the sky.

The old western doctor was completely out of control. He could hardly walk close to the ground. Whenever a girl came up to him, he would talk to her in a very shameless manner. He wasted a lot of time in the queue and was distracted when entering the venue. The points of Mi Yin's team almost plummeted to tenth place. It took a lot of effort to stabilize it, and then slowly climbed back up.

Ji Xuan knew just by thinking about it that the old western doctor was so arrogant that he must have been severely beaten before he could recover.

Ji Xuanyi initially felt that it was very slow to announce the list ten days after the official auditions began, which made the players feel unstable. Now he realizes that the official is still thinking long-term. He finally understands what real instability is.

Except for Yun Zhongjian and his team who had been fluctuating in the 25th place, the scores of other teams basically showed large fluctuations. Mi Yin and his team were not the only team whose scores plummeted. Two teams that were ranked in the top ten when the list was announced on the first day might have been under too much pressure and simply disappeared. When Ji Xuan looked at the rankings, Qi Qin searched curiously and found that one of the two teams had dropped to more than 30 places, and the other was even worse, directly out of the top 100. Seeing that the auditions would end soon, they would most likely not be able to come back.

Ji Xuanyi said, "Isn't it also the same reason why the list is announced two-thirds of the way through the competition? After all, the official competition is a live broadcast of the entire game, and the ability to withstand pressure is also a kind of strength. If you don't have good mental quality, it's better to fall behind now than to make a fool of yourself in front of so many people during the live broadcast, and be scolded if you lose."

Upon hearing this, Qi Qin suddenly became nervous.

Ji Xuan glanced at him and said with a smile: "What's wrong? Are you timid too?"

Qi Qin calmed down and said, "No, I'm quite courageous."

Ji Xuanyi smiled and said, "Don't be afraid, no matter where you are, I will be with you." Qi Qin looked at Ji Xuanyi and felt warm in his heart. He nodded somewhat embarrassedly. Ji Xuanyi and Qi Qin were relatively stable on the list. Except for not having played too many games, after Mi Yin and the others stabilized and returned to fourth place, they still maintained fifth place. The points also rose steadily without any fluctuation. For this reason, Ji Xuanyi felt that the old Western doctor was too inexperienced to actually lose his composure. It didn't matter if Ji Xuanyi didn't understand other people, but the old Western doctor's double-facedness should not be a big deal to him.

Ji Xuanyi had absolutely no understanding of what kind of situation the old Western doctor was facing.

Ji Xuanyi's fans are not as many as Mi Yin and the others, but their quality is top notch, including black fans, red fans, and brainless fans. In addition, as soon as the list was announced, he inexplicably gained a group of fans. Now Guang is not far behind in terms of quantity. The reason why he can stay out of this is entirely because Ji Xuanyi's reputation is too fierce. Although he has fans, no one dares to come up and talk to him ...

That's the notorious Mu Xuanyi! If you disturb him, he will be upset and kill you to the point of quitting the server. What should you do? This game has a penalty for losing a level! With this mentality, fans silently follow Ji Xuanyi's every move, but never dare to show up, for fear of being killed directly.

Mi Yin is famous for her good temper, Xue Piao Renjian is even more taciturn, and the old Western doctor is completely unable to help, so who else can they bother if not them?

If he knew the truth, Ji Xuanyi would probably stick to his brutal path even more.

Regardless of other things, and whether the contestants were affected by the sudden emergence of the fan circle, time passed quietly, and in the blink of an eye, the auditions were over.

Because of the old doctor's mistakes, the points of the Miyin team dropped slightly. Ji Xuanyi and Qi Qin finally surpassed them at the last minute and became the fourth place. In addition to the first place team that Ji Xuanyi had been paying attention to, which might be the team led by Feng Mo, the second and third places were two teams from the third and fourth servers respectively. The second place was the king configuration of Cavalry and Priest, and the third place was the king configuration of Sword Cavalry and Priest ...

The configuration of Sword Cavalry and Priest is very stable. The only drawback is that it is time-consuming to play, and their winning rate is not particularly high. It seems that it is achieved through the number of matches. I think most of the players take turns to rest, and they play in the arena except for eating and sleeping.

This high-intensity battle was most likely aimed at getting a seeded spot that would allow the team to advance directly to the semi-finals – in fact, the points for the top three teams were indeed very close, but the team ultimately failed.

Such a high-intensity war of attrition makes it impossible for them to continue to hold on until the end of the game. If they really get the first seed team spot, they can make adjustments while other players are in the knockout stage and face the semi-finals in the best condition.

But their plan failed. Although there were still three days of rest and preparation after the auditions, it was still too difficult to readjust in such a short time. The team would definitely be affected in the official competition. Not to mention that their strength would be greatly reduced, there would definitely be mistakes. In a battle between such carefully selected masters, a single mistake could determine the outcome. Although they are now ranked third, which is a very good ranking, they might be eliminated by the teams ranked in the twenties.

I hope they don't meet the Yunzhongjian team, Ji Xuan thought. Although the tactical mistakes were their own problem, this team has tried their best. It would be too painful if they were eliminated by the three guys from Yunzhongjian. Probably no matter who replaces them, they will be upset.

Another team that Ji Xuanyi had been paying attention to, which was suspected to be the team that Fengmo was in, also climbed from seventh place to sixth place, but there was still a little gap between them and Mi Yin and the others. After all, with their weird configuration, this kind of points was already remarkable. Ji Xuanyi was thinking in his mind that he should pay more attention to them.

Although this configuration is weird, it is a formidable enemy for Qi Qin . Even if he is not crazy, if he is not eliminated by other teams and instead fights with Ji Xuanyi and the others, it will be very difficult for him.

Ji Xuanyi didn't pay much attention to other teams. Yun Zhongjian and his team successfully ranked 25th.

After the official competition list was announced, official personnel immediately contacted the captains of each team and said that the draw would be broadcast live at 10 o'clock tomorrow morning. Except for the seeded teams, the remaining 24 teams will draw lots during the live broadcast to decide who their opponents will be and when the game will be played.

Ji Xuanyi was supposed to go to school tomorrow morning, but after thinking about it, he decided to skip it. He was going to do chores anyway , and he didn't lack those credits. Games were more important.

The entire competition will be live broadcasted within the game. In response to this, many players said that the official is again trying to cheat players out of their card money. However, the official also has its own reasons for not broadcasting it to the public. First, there are some technical difficulties, which may result in poor live broadcast effects and signal interruptions. Second, all players in the holographic online game appear in their true appearance. Some players don't care, but some players are unwilling to show up in real life. In order to protect the privacy of the players, it was decided to only broadcast the game live.

No matter what the official says, in fact, players have no right to object, and this live broadcast is relatively convenient. Any green name in the entire game map can open a channel for players to watch the live broadcast, including the ones in the dungeon. Players can freely choose whether to do tasks or watch live broadcasts after entering the game, or watch live broadcasts while doing tasks. There is no such thing as cheating on point cards!

" Oh—— " Ze Yu Sishui made an exaggerated expression and said, " It's clearly a scam to get your point card! "

Ming Shao said calmly: " I heard that people who speak ill of the authorities will have a lower chance of getting special drops and discovering hidden tasks. "

Ze Yu Sishui immediately covered his mouth and looked left and right nervously.

Qingfeng Bufu rolled his eyes and thought about it. It seemed that he had said a lot of bad things about the official. No wonder his luck was so bad. He quickly ran to the side of Yunzhongjian and began to absorb good luck like crazy.

Seeing this, Ze Yu Sishui hurriedly followed suit and started to inhale. Yun Zhongjian, the good old man, stood there looking at them kindly, and let them inhale with a smile.

Ji Xuanyi: "..."

Ever since Yun Zhongjian brought Liu Tian and Jing Yunhan to the official competition, this European emperor has become famous in Fanxing City. People in Fanxing City know Liu Tian and Jing Yunhan as well as they know Xu Chuge. These two people can make it to the official competition where there are so many masters. Doesn't that mean that from now on, Ge Chu will arrive an hour early for every appointment and never be late again!

After understanding this equation, the players in Fanxing City looked at Yun Zhongjian as if he were a god descending to earth. They were trying to suck his luck away to an excessive degree! All the players from Fanxing City who entered the official competition were here, and there were many other players watching around. Fortunately, Xiaoxiao Yuxia and the others thought that all the players who entered the official competition this time were from Fanxing City and needed to be well protected, so they organized people from the three major gangs to stop those excited players. However, the people from Youyue City and Yueri City seemed to think so too. In addition to Ye Linyu who brought people to squeeze in with Ji Xuanyi and the others, the newly appointed commander of Yueri City also sent a small group of people.

At first, Xiaoxiao Yuxia thought that the people from the Dayo City were here to cause trouble, and a fight almost broke out. After the captives explained that Xue Piao Renjian was still a registered resident of Dayo City, so they were here to help symbolically, the misunderstanding was cleared up.

Without Zuo An and Zhao Chen, Ji Xuanyi had no ill will towards the players of Yaori City, so he let them stay.

However, although those players who were watching the fun failed to cause any physical harm to Ji Xuanyi and his team, their excited gazes, as if they were looking at monkeys in a zoo, left everyone speechless.

Xu Chu kicked away Liu Tian who had been showing off in front of him, walked over and asked: " Didn't you say that the lottery will be live today? Where are we going to draw? Why are you still here? "

Mi Yin shook her head and said puzzledly: " I don't know. The official notification told us that the draw will be held today, but it didn't say where or who to find ..."

After Mi Yin finished speaking, she looked at Ji Xuanyi.

Ji Xuanyi said: " Me too, I didn't receive any news, otherwise I wouldn't be standing here now. " Not to mention Yunzhongjian and the others.

Ji Xuan looked at the time and it was already 9:20. He said, " No, I'll go offline and call the authorities. "

Let Ji Xuanling see what is going on.

Everyone thought about it and were about to let Ji Xuan go offline when a cry of surprise suddenly came from the group of players in the distance who were blocked by the three major gangs. Then the players in that place suddenly broke through the protective circle of the three major gangs and squeezed in.

At first, Ji Xuanyi thought that some players with strength professions who were eager to watch the fun were secretly working hard to break the defense line. Just as he was preparing to guard against players rushing in, he saw those players who broke through the defense circle screaming and falling to the ground one by one. It was not like they had rushed in on their own, but rather like they were squeezed out.

Just as everyone was wondering, they saw two rows of guards walking around the players lying on the ground with expressionless faces and coming towards Ji Xuanyi and the others. After a while, they surrounded them tightly.

Just as Ji Xuanyi frowned, a small girl poked her head out from the gap and said with an apologetic smile, "Sorry, sorry, I'm the official staff of this competition. I'm here to take a few players to the draw site. Let me see, the fourth place is [Play Randomly], the fifth place is [Romance of the Three Kingdoms], and the twenty-fifth place is [European Emperor Invincible], right? Please follow me, the three captains, the team members can watch if they want, but other players are not allowed to enter the scene! "

Everyone looked at each other and finally realized that for this game, the staff actually came to them to draw lots.

Ji Xuanyi didn't think too much about it, and walked out first, saying, "I am the captain of [Random Fight], Ji Xuanyi."

The staff member glanced at him, smiled at him friendly, took out a booklet, wrote down his name, and looked at everyone else.

Liu Tian quickly stood up and said, "I am the captain of [European Emperor Invincible], Liu Tian!"

The staff nodded and just as he wrote down his name, Liu Tian glanced at Yun Zhongjian and asked with a guilty conscience: "Well, does the captain have to draw the lot? Can the team members do it for us?"

The staff member smiled good-naturedly, then rejected him coldly: "I'm sorry, the rule is that the captain draws lots, and there's nothing I can do about it."

Liu Tian immediately showed a look of disappointment.

Although he is very aggressive, he will not throw a tantrum at the official staff. Now he can only complain secretly. If he had known there was this link, he would not have competed to be the captain before. It would have been much better to let Yun Zhongjian come. With his bad luck, he doesn't know what lot he will draw. He will not leave in the first game, right?

The more Liu Tian thought about it, the more frightened he became. His face turned green, but no one cared about him. Mi Yin stepped forward and said, "I am ... the captain of the remaining team, Mi Yin."

The name Romance of the Three Kingdoms is so rustic and awkward. This is only the case with Mi Yin and Xue Piao Renjian. If it were Ji Xuanyi, the old western doctor would probably be beaten to death.

The staff member was quite considerate of Mi Yin and didn't say anything. Moreover, after hearing Mi Yin introduce herself, he looked at her with a somewhat excited expression. The other person's gaze was too intense, and Mi Yin said awkwardly: "What's wrong?" The staff member said excitedly: "You are Mi Yin! Mi Yin looks like this! I have also organized competitions for you before, but you never participated in offline competitions. Today is the first time we meet. Hello, hello!"

As he said this, he stretched out his hand towards Mi Yin, and Mi Yin shook it back.

The staff member said happily: "It's rare for Miyin to team up with Xuepiaorenjian again. We have been waiting for a long time!"

After she finished speaking, she looked at Mi Yin and Xue Piao Renjian with a strange look, unable to hide the smile on her face, and said excitedly: "Come on! I believe you can get first place!"

This gaze was too familiar to Mi Yin. What the hell, all the official staff were his and Xue Piao Renjian's? ?

Mi Yin's hair stood up, she laughed dryly and said quickly, "It's getting late, let's go."

The staff member smiled and led the way to the front, while the guards separated other irrelevant personnel and protected Ji Xuanyi and the others as they followed.

The place for the draw was still in the arena hall. After the auditions, it was officially cleared out and used as the venue for subsequent competitions. Although the outside was crowded with players watching the fun, the inside was empty. Ji Xuanyi and others were fortunate enough to see how the group of players were squeezed down.

In fact, all of these official guards have their strength attributes adjusted to infinitely high, and the staff just forget to fight back after entering the guards' protective circle. Anyway, there is no chance of death in the game, and the players will not be hurt. At most, they will be squeezed hard and fly out due to the force. Moreover, most of the players will try their best to get out of the way when they realize that someone is forcing a way out from behind, after all, it is unreasonable.

Soon, Ji Xuanyi and his team arrived at the competition hall. A very stylish-looking black box was placed in the middle of the empty hall.

Chapter 204

"No, other people use transparent boxes for drawing lots. What's going on with this black box? It looks like there's some shady deal ..." Mi Yin couldn't help but complain with a frown on his face.

Because it was his idol who asked the question, the staff member was not angry and explained with a smile: "It's not that we really want to black box or anything, but this time the lottery is not held at the official competition venue to accommodate some players who want to watch, but on each team's own server. But for the sake of randomness and fairness, there can only be one box, so we can only put up a symbolic live broadcast screen outside. In fact, although everyone is in a different hall from the same server, the inside of the box is connected to a universal channel. You can think of the opening of the box as a small teleportation point. One end is the

real box with lottery paper inside , and the other end is connected to the ten box openings of ten regions and servers. "

Qi Qin asked curiously, " So when we put our hands in , they will be transported to the real box? "

The staff member smiled even sweeter and said, " Yes , that's right . In addition to preventing unnecessary misunderstandings from uninformed players, the black box can also provide some visual protection for everyone . Although there will be no blood, it is actually quite exciting to see your hand disappear from where it should be! "

Mi Yin: "... Thank you so much to the authorities! "

The staff member winked at Mi Yin and said, " You're welcome! "

After explaining the function of the black box to a few people , the staff raised his hand and two electronic screens appeared on the box. The picture on one screen was from top to bottom, facing the dark box mouth, and the other larger screen was made up of ten small pictures, which were the pictures of the arena halls in the ten servers.

ID appeared above their head on the screen , and the team names were filled in the box below their names.

Mi Yin and Xue Piao Renjian's faces turned green.

This is so fucking embarrassing!

Mi Yin said in despair, " If the other team laughs at our names during the game, I will not perform well. "

The old western doctor who was greeting the players in front of the camera looked over with a questioning look on his face, while Xue Piao Renjian silently reached out his hand and patted Mi Yin's shoulder comfortingly.

The staff's eyes lit up with excitement!

It was the first time that Qi Qin saw his face appear on TV. He shyly hid behind Ji Xuanyi, but was pulled out by the other party. He had to lower his head shyly. Liu Tian and Jing Yunhan were obviously very proud before, but when they appeared on TV, they were too nervous to say a word.

Ji Xuanyi didn't pay much attention to them, but looked for the guy who might be Fengmo on the screen. After all, his ID had been exposed, and Fengmo would definitely react when he saw him.

But Ji Xuanyi was still disappointed. There were too many players, and everyone had a different expression on their face. The camera and the screen were not in the same position. Even if there was someone in the image with the wrong line of sight, it would not look intuitive and could not be distinguished.

Ji Xuanyi could only tell that the knight with a very ugly face on the screen of the fourth server should be the third place in this audition. He was in poor condition, and no matter who they drew, it would be quite stressful for them.

It was already past nine forty, and Ji Xuanyi had thought that they had been slow enough, but he had not expected that the contestant from server ten would not rush into the scene until nine fifty, and he did not know what had happened to him.

The staff member looked at the time and said, " It's fifty-five. I'm going to start the live broadcast. Everyone can tidy up their appearance. "

The old western doctor who had been flirting with the camera for a long time: "..... ??? What? Has the live broadcast been closed? "

The staff member smiled calmly and said, " It's on now. If you want to see the comments, we can play it for you. "

Although that was what they said, before everyone spoke, the staff had already turned on the barrage. When everyone looked up, they saw that the barrage was filling the screen: " That old western doctor in the second server is so funny! "

" Did he do something secretly before the live broadcast? "

" How did Miyin choose his teammates? The taciturn Xue Piao Renjian and the chattering old western doctor? Doesn't that make him look schizophrenic? "

Followed by a row of " Same question! ", " Add one! ", " Add two! ", " Add 10086 ! " .

The old western doctor continued to flirt with the camera without a care in the world. The staff ignored him and said to the others, " The order is decided by everyone. Those who want to draw first will draw first, and those who want to draw later will draw later. It all depends on luck. The authorities will not interfere in any way. But it is best not to have two people drawing at the same time. "

Qi Qin thought of something and said fearfully: " Will two hands that are inserted from different servers at the same time grow together?! "

Ji Xuanyi couldn't help but look at him a few more times, thinking that this guy might have watched a lot of horror movies by himself when he wasn't living with him.

The staff couldn't help laughing when they heard this and said, " No, it's not related to safety. It's just that if two people draw together, they will touch each other's hands. In order to ensure the physical and mental health of the players and not to scare them or have psychological trauma from such things, we warn everyone in advance. "

Everyone showed an expression of sudden enlightenment, except Liu Tian who still looked pale. Ever since he knew that he had to use his lousy hand to draw the lottery, things have become like this. As soon as the staff said " it depends on luck " , he wished he could travel through time and return to the day of registration so that he could beat up himself and Jing Yunhan who were competing for the captaincy, and then register Yun Zhongjian's name.

However, time cannot be reversed, and it is just a thought.

Liu Tian gritted his teeth and thought, let it be a bad hand. Anyway, they didn't really think they could get first place. The sooner they were eliminated, the easier it would be. They were not afraid at all!

After all the players understood the rules, the staff of the ten servers checked the progress and said to the players they were responsible for: " Everyone can go up and draw lots now. If you see that other players have gone up before you, please wait a moment. "

As soon as the staff here finished speaking, while other players were still hesitating, Liu Tian rushed up very decisively.

Although his movements were fast, his momentum was far lacking. He didn't even dare to look at the camera for six days. He was acting like a thief, sneaking around. Those who knew him

knew he went there to draw lots, while those who didn't thought he went there to steal something!

Seeing that some players had already gone up, the staff member happily explained, " The one going up to draw the lot now is the 25th player from this round of qualifiers, the captain of server 2 team [European Emperor Invincible] Liu Tian. I hope their luck can really bless them and they can draw an opponent of similar strength! "

Liu Tian was already extremely nervous. He thought to himself that none of the first 24 teams were as strong as theirs, and he reached his hand into the black box with trembling hands.

After a cool touch, Liu Tian felt a pile of round glass balls. They were the same in size and feel, and there were no prints on the surface.

Liu Tian was anxious and stirred it for a long time until the players in the barrage began to get impatient and asked why it was not ready yet. Then he took one out at random as if frightened. Liu Tian held the cold little ball in his hand and hurried back to Jing Yunhan and Yun Zhongjian. He opened his palm and saw a number " 1 " embedded in two transparent glass beads the size of two knuckles .

Liu Tian looked at the staff in confusion, and the staff member smiled and explained, " It means the first match. The next team that draws 1 will play the first elimination match with you on the first day of the official match. "

Six days: "..."

Jing Yunhan almost fought with Liu Tian!

The first game of the first day. Your hands are not just stinky, they're hands that have just been used to dig coal!

Generally speaking, the better numbers in the match draw are in the later half, the slightly worse are in the earlier matches, the next better are in the last few matches, and the worst are in the first match.

There was no other reason. The players who played in the first match had the least information and had no time to adjust their condition. It could be said that this was the match where they performed the worst and were most likely to make mistakes. However, if they played well, they could also bring some pressure to the players behind them . But it was obvious that the Liutian team could not bring pressure to anyone ...

I didn't even know who my opponent was and I got the worst match. Liu Tian's luck was really bad.

Jing Yunhan almost knelt down in front of the staff. He really wanted to ask if he could let Liu Tian draw again, but thinking about it, it was not very likely. He could only pray that Liu Tian's luck would not be so bad and would stop there!

Yun Zhongjian didn't think there was anything wrong. He just came up to join in the fun and show his face. Seeing Jing Yunhan's performance, he couldn't help but ask curiously: " What do you mean by bad luck? "

Jing Yunhan pointed at the second-place team in the three servers on the screen with his dying breath. The first-place team was the seeded team, which was just there for the formality and did not participate in the draw. The second-place team was the strongest team in the entire venue. Jing Yunhan said weakly: " The other team that drew 1 is them. This is really bad ..."

Liu Tian was so frightened that he covered Jing Yunhan's mouth, and then immediately shifted the blame and said, " If they really win, it's your bad luck, it has nothing to do with me! "

How could Jing Yunhan admit it? The two of them immediately started scratching each other, causing a burst of laughter in the barrage.

Although the result was not very good, after six days took the lead, other teams went up to draw lots one after another. The later the teams went up, the faster they went up. There was almost two teams going up on stage at the same time. After some courtesy to each other, they finally got the numbers and came down.

Qi Qin didn't know what was going on, but he seemed to have a mysterious enthusiasm for the lottery activity. He kept urging Ji Xuanyi to go up in a low voice. He only quieted down after being kicked, but he was still looking at the black box above with an enthusiastic gaze.

Although Ji Xuanyi was extremely annoyed by him, he stood firmly where he was. He waited until everyone had drawn their lots, and only he and the third place winner from the fourth server who had a particularly high chance of losing had not drawn their lots, before he walked up slowly.

There is no need to wait any longer. The third place has completely given up on themselves, and they will definitely not draw first.

The draw was coming to an end, and other teams had already determined their opponents. Now there were only two numbers left in the box, No. 1 and No. 8. Ji Xuanyi and Qi Qin definitely had no chance of meeting the third place, so Ji Xuanyi felt a little regretful.

It's not that he thinks the third place team is so powerful and it will be fun to play against them, but Ji Xuanyi feels that if he loses to them, it will be fair to the hardworking third place team.

After all, at the moment, they still have a 50% chance of drawing the Yunzhongjian team. If they go on the court and find that the opponents are three noobs and they lose inexplicably, it would be too frustrating.

When Ji Xuanyi came on stage, Liu Tian and others were already in despair. They didn't know that they might still have a 50% chance of winning. In their opinion, Ji Xuanyi's strength was needless to say, and they would definitely not be able to beat him. But even so, they were still fourth, and the third place would definitely be stronger. No matter who drew number 1 next , they were all dead!

Team No. 8 was also very nervous. This team ranked 22nd, and its points were far behind the third and fourth places. Although they also held out hope for a Jedi counterattack, they knew their own strength and the possibility was too small. The despair in their hearts was not much different from that of Liu Tian and the others.

One is ranked 22nd and the other is ranked 25th. In Ji Xuanyi's opinion, there is actually no difference. However, he still hopes to draw Liu Tian's team and leave the 22nd place for the third place. The actual gap is there, so there is still a possibility of winning.

Ji Xuanyi thought about it and reached into the box. He hesitated for a moment among the two remaining balls, grabbed the one on the left and took it out.

Ever since Ji Xuanyi came out, the barrage of comments has never stopped. Many people are crazy about Ji Xuanyi's looks. It's not that he is so handsome, but the main reason is that the people in this room are all ordinary game players with varying looks. In comparison, Ji Xuanyi's

handsome looks are like a fairy from heaven. Even Mu Xuanyi's reputation for being a villain can't stop the girls' love of beauty.

There were also male players who said sourly that Ji Xuanyi was a cancer, and who knows what kind of scumbag he would be in real life. They were immediately scolded and driven away by Ji Xuanyi's fans.

However, as soon as Ji Xuan took out the numbers one by one, the barrage of comments immediately became serious, and everyone was analyzing whether he had drawn number one or number eight.

Ji Xuanyi's fans still hope that he can draw number eight. After all, it would be a huge loss to be the first to play in the competition. Although number one looks weaker, number eight is not strong either. I believe Ji Xuanyi will definitely win.

However, things did not go as they wished. When Ji Xuanyi opened his palm, the number embedded in the glass bead was a bright "1".

Liu Tian and Jing Yunhan immediately burst into wails. Their desperate looks changed the direction of the wails in the barrage, and laughter and joy merged into one.

Ji Xuanyi threw the numbered ball, smiled at Liu Tian and the others, and walked down from the stage. The knight captain of the third team walked up with a frown and took down the remaining number eight ball.

It's funny to say that three out of the four teams looked as if they had lost all hope in life.

As soon as Ji Xuanyi came back, Liu Tian and Jing Yunhan ran over to look at him with tears in their eyes, without saying anything. Ji Xuanyi raised his eyebrows and said, " You know what? Your expressions can easily arouse my desire to abuse you . "

Six days: "..."

Jing Yunhan: "..."

The two of them ran away in a hurry, fearing that Ji Xuanyi would pin them to the ground and rub them before the game started.

Although they were divided into 25 teams, in fact each server was like a small group, and there were connections between the teams. Their goal was not only to win honors for themselves and bring glory to their servers, but also to become celebrities in their servers. Ji Xuanyi and his team started a civil war right away, which was a big loss. Fortunately, there were more than one server involved in the civil war, so Xiao Xiao Yuxia would not find it so difficult to accept.

The discussion of the draw results by the players in each server was also part of the live broadcast. After seeing Ji Xuanyi and the others looked at each other's numbers and then stopped talking, the staff member whispered again, " Originally, there was a segment where the opponents would swear at each other, but since everyone has no stage experience, this segment might look really stupid, so it was removed. "

Mi Yin pointed at Xue Piao Ren Jian and said to the staff, " Please thank the person who removed this link for me. "

The staff member smiled and said, " Of course! "

After the players finished their discussion, everyone went on stage to talk about the competitive philosophy of this game, shouted a few very shameful slogans, and ended the live broadcast.

At the end of the live broadcast, the staff said that the official competition will start in three days. At that time, all players participating in the competition will be transferred to another server specially set up for the competition, instead of queuing on the original server, so players do not have to come to the arena lobby early in the morning to queue up and squeeze with the crowd. As soon as this was said, some players immediately expressed their dissatisfaction. It's fine if the online matches are broadcast offline, but the online broadcast can only be watched live? The arena is so exciting, but if you don't watch it live, the experience will be reduced by half! You officials have put so much effort into organizing the competition, but you just deal with it like this? They can't enter the venue to watch the game because they can't get a ranking?

The staff immediately gave an answer to this question. The players' request for watching the game on site could actually be met, and they had already been prepared for it.

There are only two maps on the dedicated server for arena competitions, one is the waiting hall and the other is the arena. Three thousand seats are set up around the arena map that will not affect the battle. Tickets will be sold to players the day before the official competition begins, and players who buy tickets can enter the venue to watch the game.

There are only 3,000 places not because there is room for so many people, but because you can't see the action on the field clearly from any further away .

Before the player could question the ticket purchase settings, the staff said in advance: " The ticket price is one crystal coin. "

The players who originally wanted to post barrages to criticize the official suddenly became quiet.

Crystal coins are the currency of the arena. You can get dozens of them by winning a game. It can be said that anyone who has reached the maximum level and has entered the arena will have a crystal coin. The official has made such a setting, and it is obvious that there is only one meaning. Only pvp players who really want to watch the game and have entered the arena are eligible to get one of the 3,000 places. Other players who may not understand the battle at all and don't understand anything but have to join in the fun will be manually filtered out.

Many PVP players applauded, but many others disagreed, especially those who joined late and have not yet reached the maximum level. They said the official was too unfriendly to them. Old players are human, but are they not? Are there no one who likes PVP ?

However, such words were completely ignored. After all, it is first come first served, and it is normal for old players to have more benefits than new players. If you only care about the feelings of new players, wouldn't it be a waste of others' support for the game for so long?

However, some people still complain that there are too few seats, and it might turn into a scalper's carnival. But the official also stated that the tickets purchased this time are rare bound props in the game, and whoever sells them can see them, so there is no need to worry about this kind of thing.

After the live broadcast ended, Ji Xuanyi and his friends were about to leave, but the staff stopped them and took out a dozen tickets as wide as two fingers from his pocket.

Ji Xuan suddenly showed an understanding expression and said, " Friends and relatives tickets? "

The staff nodded and said with a smile, " Each team will have six tickets, which means two tickets for each person. You don't need to choose between being a mother or a wife, okay? " The staff's joke successfully amused everyone – except Ji Xuanyi and Qi Qin, everyone here is single!

As the staff handed out the tickets to them, they said, " These are the tickets closest to the stadium. I still don't recommend giving them to mothers. After all, what mother wouldn't feel bad watching her child get beaten up close? Oh, by the way, these tickets are not bound. They will only be bound if you fill in your name. It doesn't matter if you use them to make extra money. This is a benefit for the players. "

Everyone was upset, but the staff smiled and said, " Okay, I'll be waiting for you here in three days and take you to the dedicated server for the competition. That's all for today. Bye. "

Everyone said goodbye to her, but she did not leave after saying goodbye. Instead, she looked straight at Xue Piao Renjian and Mi Yin.

Miyin: "..."

Suddenly I had a very bad feeling about what was going on!

Just when Mi Yin was about to complain to the staff if they made any unreasonable demands on him, the staff smiled shyly and said, " This is my personal wish. It's okay to refuse. But Mi Yin, can you call Xue Piao Renjian by his name? "

Miyin: "..... ? "

I don't know what it means, but it's much more normal than other requirements!

Mi Yin secretly breathed a sigh of relief and said to Xue Piao Renjian: " Xue Piao! "

Xue Piaorjian glanced at him and hummed softly .

The staff member immediately held his face, put on an auntie smile, and ran away with his feet turned inward .

Everyone: "..."

What kind of strange creature is powder?

Chapter 205

Yuxia was so heartbroken about the fact that Ji Xuanyi drew Liu Tian's team !

Although Ji Xuanyi and his team were not the only ones who drew the internal strife lottery, the 21st and 23rd place teams from the four servers also met each other, but Xiao Xiao Yuxia felt at a disadvantage no matter how she thought about it.

Although Liutian and his team were the last , they had Yunzhongjian, a European emperor, in their team, so who knows how far they could go in the end! It was really a loss to meet Ji Xuanyi and his team in the first round!

But since they have met, there is no other way . If one of the two teams must be given up, Xiaoxiao Yuxia will definitely choose Ji Xuanyi and his team . For this reason, Xiaoxiao Yuxia privately called Liu Tian and his team and told them that they must lose to Ji Xuanyi, as Ji Xuanyi and Qi Qin are much more stable than them.

After hearing this, Liu Tian was speechless and cursed: " Xiao Xiao Yu Xia, are you an idiot? I really want to win, but can I beat us?! "

Xiaoxiao Yuxia suddenly realized that she was indeed worrying too much , so she waved her hand and sent Liutian and the others away.

Apart from Ji Xuanyi and the unlucky Liu Tian , Mi Yin and his team had pretty good luck , having drawn the 17th place . This team was composed of archers, cavalry and priests , and a long-range bombing-style turret attack, but for Mi Yin and his team of assassins, cavalry and priests , it was completely meaningless, and it could be said that they were naturally unequaled. In addition, there is a certain gap between the strength of the 17th place team and Mi Yin and the others, so there is basically no suspense about the outcome . After the drawing of lots, the expression of the 17th place team is as if they are ready to go home and sleep after the game. However, even in this kind of battle without suspense, Mi Yin put in his 120,000% spirit to deal with it. He and Xue Piao Renjian had been practicing cooperation. In comparison, Ji Xuanyi and the others were much more relaxed.

For Ji Xuanyi, if he wanted to beat Liu Tian and the others, he could do it with one hand.

Training specifically for this would not make them look diligent, but rather stupid. In contrast, he would rather walk around Liu Tian and the others and scare them whenever he had time.

Thanks to Ji Xuanyi, the two rookies Liu Tian and Jing Yunhan did not look any better in the past three days. Until the three teams returned to the arena hall to gather again and saw the staff member again, Liu Tian and Jing Yunhan still looked pale and frightened.

The staff looked at them curiously and said, " Are you two okay? If you are not feeling well, we suggest you give up the competition and go to the hospital first. The competition is not as important as your health. "

Liu Tian and Jing Yunhan glanced at Ji Xuanyi and shook their heads at the staff.

The staff shrugged and said, " Okay. "

Anyway, if the physical condition of the two people is really not right, the security system will automatically kick them offline. Since the security system did not respond, it is most likely that the two people are nervous.

Because they were going to another server together, Ji Xuanyi called Ji Xuanling up this time. The two of them stood together, which attracted a few more glances from the staff. Ji Xuanling didn't care and smiled at the staff, which made the other party feel a little embarrassed.

There were ten people present, so there should have been some noise, but everyone, including the noisiest old Western doctor, took the game very seriously, so it was very quiet. The staff member checked the number of people smoothly, and after finding that no one was missing, he invited everyone to walk into an extra passage in the competition hall.

The passage was not long, and two minutes later, everyone arrived at the competition waiting area. As soon as they confirmed that the cross-server was completed, Ji Xuanling hurriedly logged off and ran away, scaring the staff, who thought something had happened to him.

Ji Xuanyi immediately explained: " My brother has important things to do in real life, but he doesn't want to drag us down and give up this game, so he's offline now. If there's a game next time that requires him to be online, I'll go find him. "

The staff member looked at Ji Xuanyi hesitantly and said, " Isn't this too hasty? "

Ji Xuanyi understood what she meant and immediately said, " I won't waste too much of your time, I promise. "

The staff still had concerns . After all, the live broadcast process was already arranged. If it took too much time, it would cause dissatisfaction among the players. But it must be said that twins, especially good-looking twins, have a built-in buff in terms of gaining favor . Although they knew there were risks, the staff still hoped to help Ji Xuanyi and the others try.

The staff member stood there for a long time with an embarrassed look on his face, and then frowned and checked the battle record of Mu Xuanyi's account. After hesitating for a long time, he finally nodded, sighed, and said to Ji Xuanyi: " I understand, but I need to remind you that this is your own choice, and you need to bear the corresponding consequences yourself. We only have ten minutes to wait for the absent player to come online. After ten minutes, either change the configuration to play, or it will be counted as a forfeit. Can you accept this? "

Ji Xuanyi knew that it was not easy for the other party to agree, so he smiled at her, nodded and said, " I understand, thank you. "

The staff member also laughed and said, " Then please follow me. The seats for the second server are over here. "

The waiting area for the competition is quite large, and the internal area is divided into ten sections, corresponding to ten zones. In addition to the live broadcast screen of the competition venue on the large wall in the front, there are also small live broadcast screens on the seats in each zone.

The seats in each zone are arranged according to the number of teams and players. In front of each team's seat is a small table filled with unlimited snacks and drinks. Because it is too modern, players who have integrated the Western fantasy background into the game vaguely feel like they have traveled through time ...

When Ji Xuanyi and his friends entered, many contestants had already arrived. Everyone was sitting in their own seats, and when they saw newcomers coming in, they turned their eyes over. Because everyone was not familiar with each other and were all rivals, even if they saw people they knew, such as Mi Yin, Xue Piao Renjian and Ji Xuanyi, no one would come up to say hello or chat. The waiting area was very quiet and the atmosphere could not even be described as awkward, but rather weird.

The old western doctor and Yun Zhongjian had never seen such a scene before and felt a little uneasy. However, Ji Xuanyi didn't care much and found a place to sit, intending not to move until the game started.

However, Ji Xuanyi's expectations rarely seemed to come true. Everyone, led by Ji Xuanyi, had just sat down in their seats when suddenly a man in the nearby server area stood up.

Everyone subconsciously looked towards that person, but that person didn't care at all. With a gloomy face, he walked towards the second server step by step.

Everyone was stunned for a moment, and Liu Tian asked in panic: " Who is that? Is he here to cause trouble for us? Mi Yin, is he the opponent you drew? "

Mi Yin and his friends' opponents were indeed players from the same server.

But Mi Yin shook his head. He looked at the man for a while, frowned and whispered, " That man seems to be from the seed team, the archer named Potian. "

"The seeded team?" Liu Tian was even more panicked: "Isn't that the first place? They were just spectators in the early stages. Doesn't the knockout round have anything to do with them? Why did they come to our side? Do they think you and Ji Xuanyi are a threat to them and are planning to cause trouble for you?"

Mi Yin said speechlessly: "Why do you keep saying that people are causing trouble for us? How much have you offended them? Couldn't they just happen to pass by us?"

Although judging from Potian's expression, the possibility of him just passing by is a little low ... Liu Tian was about to say something, but Ji Xuanyi said calmly: "No need to discuss, I know this person, he came to see me."

Everyone was stunned, but Ji Xuanyi had already looked directly at Potian and stood up. An archer, a master, and most importantly, he has that middle school mentality. It would be fine if they were looking at him through the screen, but if he couldn't recognize Ji Xuanyi face to face, then his previous role as gang leader would have been in vain.

As expected, in front of everyone's surprised gaze, Potian stopped in front of Ji Xuanyi, looked at him fiercely for a long time, sneered, and said: "You have come to this day?"

"Long time no see," Ji Xuanyi said calmly, completely different from Potian's malicious tone: You may be a little "late to say this, it would have been better if you had said it to me two years earlier."

Potian was shocked and said, "I am not interested in what you are like. If you ask me, Mu Xuanyi was pretty good two years ago, but now you are playing a support ... I can only say that choosing a warlock is a bit ambitious. If you played a priest, I would laugh my head off."

Everyone: "..."

Emmm ... what's going on with this person's brain circuit?

Ji Xuanyi was also speechless. He activated his hidden middle school soul and was able to barely understand what Potian meant.

In the past, Potian was only a bit immature in his words and mentality, for example, he said to Ji Xuanyi that I like your strengths and hate your weaknesses, so I am both your friend and your enemy. But in most cases, he was still a normal person in his actions, except for the time when he left after being instigated by Zhaochen. But there was nothing he could do about it, after all, a girl like Xiefeng Shuyu also fell into his trap.

And now Potian would actually make a provocative move before the war. The first sentence he said when he arrived was not even about how Ji Xuanyi had killed half of his gang, but about playing damage and supporting ... I guess his middle school immaturity has regressed to the point where the strong are respected, and playing supporting means having no self-respect.

Ji Xuanyi didn't know what to say for a moment. He was silent for a long time. After a long time, he slowly said: "You know what? After you changed your name, I thought your Chuunibyou had been cured, but it turned out to be worse?"

Potian sneered and said, "But you are you. I believe you are qualified to be my opponent. Since you have chosen the warlock, you should have your own ability to play it well!"

Ji Xuanyi: "..."

This person didn't listen to what he was saying at all!

But the last sentence seemed to be praising himself? Ji Xuan smacked his lips and said, "Thank you."

Everyone: "..."

No, the conversation between these two people is totally irrelevant. What on earth are they talking about! ?

Potian said grimly: " Don't get carried away. Soon, I will let you know how I have changed over this period of time! Before that, you must not lose to others! "

After saying that, Potian glanced coldly at Yun Zhongjian and others sitting next to him. However, after the problem of his second-year syndrome was exposed, even Jing Yunhan looked at him with dead fish eyes. The intimidating look was of no use at all!

Ji Xuanyi said woodenly: " Don't worry about this. I will never lose to them no matter who I lose to. "

Liu Tian didn't react and straightened his back subconsciously. When Ji Xuanyi's gaze swept over him, he collapsed again.

Well, it's really unlikely that Ji Xuanyi would lose to them.

Potian sneered and said proudly: " You trampled on my gang and humiliated me before . This time, I will get it back with interest! "

Potian finally talked about something that Ji Xuanyi was more concerned about. However, Ji Xuanyi had lost the desire to talk to him. He nodded perfunctorily and said, " I know. You can go now. "

Although Potian was a serious case of Chuunibyou, he was not a fool. He could tell that Ji Xuanyi was being perfunctory. He immediately said angrily, " Mu Xuanyi, you are trying to evade me like this. I won't leave! "

Ji Xuanyi immediately sat back in his seat, found a comfortable position, and said to him calmly like a landlord: " Okay, then you stand here. "

Potian: "..."

Potian's expression changed several times and he walked back angrily. Except for a few people, everyone else in the waiting area began to whisper.

Mi Yin was somewhat speechless and said: " What's going on with this Potian? Why is he so weird? "

Ji Xuanyi explained: " This guy used to have a serious case of Chuunibyou, but fortunately, in the game, it's quite interesting, and it's not like he can't communicate. But it seems that the holographic online game seems to have made his Chuunibyou even worse ... He really wasn't like this before. "

Everyone sighed.

Although the other party was a chuunibyou, Mi Yin was still very interested in masters and asked Ji Xuanyi several questions about Potian. Since it was boring to wait for someone anyway, Ji Xuanyi answered them one by one.

Mi Yin said in surprise: " He was called Feng Mo before? Was he from your gang? He seems to be a master now, why didn't I hear his name before? "

Ji Xuanyi said, " Because he was only at the level of Jian Xi Xin Jiu at that time, not as good as the best, but better than the worst. It's normal that you haven't heard of him, but this guy is very

talented and has improved very quickly. I didn't expect him to be so good now and get a place in the seeded team. When I heard that he participated in the competition, I thought he was a member of the sixth-place bow and arrow team. "

Mi Yin showed an expression of realization.

However, no matter how powerful Potian is, it is impossible for him to get first place by himself. His teammates should not be ordinary people either.

Everyone couldn't help but lean over to take a look at the situation on the first server. Apart from Potian who stood up straight with a fearless look, his two teammates had their faces covered and their heads lowered, looking as if they had lost all hope in life.

Potian's immature declaration to Ji Xuanyi was really too loud. All the players in the waiting area heard it. It was probably broadcast live. The two of them were too embarrassed to face anyone ...

Liu Tian smacked his lips and said, " I thought the person teaming up with him would be some god-like person. Isn't this normal? "

Mi Yin said calmly: " This incident tells us that we can't just look at strength when choosing teammates. "

Everyone nodded in agreement.

Although Ji Xuanyi was still a little concerned about Potian, the other party's symptoms of chuunibyou were so serious that he couldn't help but feel a little headache. Forget it, even if he met Potian, it would definitely be after the knockout rounds. He would think about it then.

Everyone sat in the waiting area for about ten minutes, and contestants from other regions and servers came in one after another. Soon, everyone was there. A staff member that Ji Xuanyi and the others had never seen before also walked up to the podium and explained the rules and schedule of the competition to everyone.

The rules of the game are very simple, best of three, and the victory conditions are the same as in the normal arena in the game. However, one thing to note is that not only the victory conditions are the same, but also the penalty mechanism is the same. That is to say, if the player accidentally disconnects during the battle, or any other situation occurs, the schedule will still continue and there will be no chance to start over.

Liu Tian suddenly clenched his fist.

Staff: "..... ? "

Ji Xuan glanced at Liu Tian indifferently, and the latter immediately became as quiet as a chicken.

The staff member continued hesitantly : " So before entering the venue, please make sure your network is normal. If any unexpected situation occurs, the official will not be responsible. "

As soon as the staff said this, some people immediately started to get restless and wanted to go offline to check whether their network cables and power supplies were really plugged in.

The staff member immediately smiled and said, " Please rest assured, we will make time to check for you before the game starts. You don't have to worry now. After you understand the rules, I will explain the schedule to you. "

Including today, the knockout round will last for four days. Since it is already afternoon, only groups one and two will be played this afternoon. Groups three and four will be played tomorrow

morning, and groups five and six will be played in the afternoon. And so on. On the morning of the fourth day, groups nine and ten will be played, and the afternoon will be used for the draw for the second round of knockout matches.

One person raised his hand and asked, " Are there no games tonight? "

The staff member smiled and said, " Yes, because the nighttime factor may affect the performance of some players, so the night time is used to let the players outside as spectators revel. "

Because this is a pvp feast, the mixed activity areas of all regions and servers will refresh the arena every night of the competition. The victorious players can get certain rewards, and there are also activities to give flowers to your favorite team . If the team that gives flowers wins, the player who gives flowers can also get certain rewards.

The staff member said: " Because the first game is in the afternoon, and if you want to give flowers tonight, you can only give them to the team that will play tomorrow, so this time we will open the flower donation channel to all the teams in this afternoon's game. The flower donation channel will be closed in half an hour. Players who are watching the live broadcast, please hurry up. "

Because they were worried about affecting the players' mentality, there was no barrage on the big screen this time, so Ji Xuanyi and the others had no way of knowing how crazy the players outside were.

This kind of activity is always so exciting.

The staff continued to explain the schedule. Basically, there would be a day of rest after the 24-to-12 teams, and another day of rest after the 12-to-6 teams, and so on until the semi-finals.

The teams that failed and withdrew could also receive the gift packs of gold coins and materials distributed in the game, but only the top three could compete for the cash rewards and artifact rewards.

After explaining the rules, the staff invited the two teams for the first game to come on stage to register. Liu Tian and Jing Yunhan were so nervous that they could hardly walk, and they went up, one on each side of Yun Zhongjian.

I think the staff member who was in charge of the second server had informed the others. The person in charge of registration saw that only Ji Xuanyi and his team came up and said nothing. He smiled and handed two forms and pens to Liu Tian and Ji Xuanyi respectively, saying: " Please ask the captains of the two teams to write down the configurations for the first game on the paper. "

Ji Xuanyi quickly filled out the form without changing his expression , but Liu Tian and Jing Yunhan beside him were pushing and shoving each other. One said, " You're so good, you go! " and the other said, " You're the captain, you go! " One said, " I'm a loser! " and the other said, " I'm even worse than you! I'm the worst in the world! " They were arguing with each other and having a lot of fun.

Everyone leaned their heads out to watch the fun, and some cast curious glances towards Server 2. You know, this first game was a civil war within Server 2, so what was going on? Mi Yin raised her head and half covered her face, and said to the old western doctor: " You can't completely ignore the ability when choosing teammates! "

The old Western doctor nodded in agreement.

The two people on the stage still couldn't decide who was worse, and finally had to resort to rock-paper-scissors under the mediation of Yun Zhongjian. It seemed that the six days of bad luck had not yet passed. With a sad face, he filled in his own name and Yun Zhongjian's, and handed in the form with a grief-stricken look.

The staff member took a look and said, "The fourth place team from server two, [Random Fight], sent out the combination of Swordsman Tianxiadiyi and Assassin Mu Xuanyi. The twenty-fifth place team from server two, [European Emperor Invincible], sent out the combination of Swordsman Yunzhongjian and Knight Liutian."

After he finished speaking, the two teams' rosters appeared on the big screen.

The staff smiled at both parties and said, "You still have 20 minutes to check your equipment and call your teammates online. Please hurry up."

As soon as the staff member finished speaking, Liu Tian quickly logged off, followed by Ji Xuanyi. After a while, Liu Tian climbed back up and saw that Ji Xuanyi was gone. He couldn't help but ask in surprise, "Where is he?"

"here."

As he spoke, an assassin slowly walked in from the entrance.

Chapter 206

Because Ji Xuanling would occasionally appear in front of everyone in Star City , everyone knew that the one wearing the warlock equipment was Ji Xuanyi, and the one wearing the assassin equipment was Ji Xuanling.

Liu Tian looked at the person who walked in from the entrance , was stunned for a moment, and said: "Ji Xuanyi ... no, Ji Xuanling?"

Ji Xuanling nodded and said, "It's me. I'll play with you guys in the next round."

Liu Tian was stunned for a moment , then he realized that Ji Xuan had seen through his team's ultimate move , so he sent his brother and Qi Qin to the field together. In this way, no matter who was offline, the remaining one could kill them both in one go .

Liu Tian's face suddenly fell. Although he had never seen it with his own eyes , he had heard that Ji Xuanling was also a master and extremely brutal . Just to lure Ji Xuanyi out , he had killed many people single-handedly !

However, Liutian and the others were accustomed to Ji Xuanling's appearance , but other players were not . Ji Xuanling had never appeared in the two live broadcasts, and no one knew that he and Ji Xuanyi were twins . They thought that Ji Xuanyi had changed his account. They all stood up in surprise, and Potian shouted: "What's going on?! How can he have two accounts?!"

The staff member immediately explained: "It's like this . The two members of the [Random Play] team, the warlock Ji Xuanyi and the assassin Mu Xuanyi are twin brothers. The one who just came up to fill in the form is the elder brother Ji Xuanyi, and the one who is online now is

the younger brother Mu Xuanyi, so it's not that one person has two accounts, but two people have two accounts."

Everyone: "..."

Disbelief was written all over everyone's face.

The staff had no choice but to cut out a short clip of the video of Ji Xuanyi and Mu Xuanyi following another staff member across servers and released it. The two people really did look exactly the same and were indeed two different people, which made everyone sit back in disbelief.

The one whose worldview was most impacted was Potian. When he first saw the two IDs of Ji Xuanyi and Mu Xuanyi in Ji Xuanyi's team , although he knew that the warlock Ji Xuanyi was himself because of Xiefeng Shuyu's news, he always thought that Ji Xuanyi and Mu Xuanyi, who used his previous ID , would be in a relationship or rivals who loved and hated each other . But it turned out that they were brothers?! Or twin brothers?

Potian was a little bit incredulous for a moment, but he couldn't help but feel a little envious.

Damn, twins are such a fashionable setting ...

If Ji Xuanyi knew what Potian was thinking, he would definitely wake this chuunibyou up, to prevent him from setting himself up as a schizophrenic.

Yun Zhongjian always felt that something was strange. He stared at Ji Xuanling for a long time and asked, " Then, what about Ji Xuanyi? Is he not online? "

Ji Xuanling said calmly, " Well, our father is bedridden and can't take care of himself, so my brother and I can only take turns going online, and one of us has to spare to take care of him. " This reason ... Yun Zhongjian couldn't help but say: " Is it okay? I think compared to the game, dad is more important, right? "

Ji Xuanling sneered, looked at Yun Zhongjian, and said: " What? You can't win and want to persuade him to retreat verbally? "

Ji Xuanling and Yun Zhongjian were not familiar with each other, let alone having a good or bad relationship. He did not need to be cautious when talking to Yun Zhongjian and could say whatever he wanted to offend him.

Yun Zhongjian felt a little embarrassed and said quickly, " That's not what I meant ..."

Ji Xuanling said coldly: " Then there is no need to say more. I know better than you whether my father is important or not. "

Yun Zhongjian had no choice but to shut his mouth. Liu Tian and Jing Yunhan were so frightened by Ji Xuanling's murderous aura, which was no less than Ji Xuanyi's, that they trembled with fear and did not dare to express any opinions to him.

You know, Ji Xuanyi is familiar with them, and he is calm and stable most of the time. He rarely shows such a fierce look. When you first see this aura on Ji Xuanling, it's like the former Ji Xuanyi suddenly comes back, which is super scary!

Other players were also whispering about how this Mu Xuanyi looked much more ferocious than his brother. Even the players on the same server were so disrespectful to him. His brother had been so nice to those people before. Why did it feel inconsistent with the rumors? Could it be that this Mu Xuanyi was the real Mu Xuanyi?

Others didn't know, but Potian felt a little familiar with Ji Xuanling. This Mu Xuanyi seemed to be the same Mu Xuanyi from before ... But that wasn't right. Wasn't the Mu Xuanyi from before Ji Xuanyi now? Could it be that the two brothers had the same personality and he had an illusion? Just as he was thinking, Ji Xuanling turned his head and saw Potian, and gave him a provocative smile, which instantly made Potian throw away all the normal logic in his mind. He only thought, fuck! Mu Xuanyi's brother is so annoying, just like his brother!

Ji Xuanling's arrogant look, as if he wanted to beat up everyone present, frightened the staff. After all, players were a factor they could not control. If they really made a fuss, they could only ask their superiors to kick them off the line, which would not be a good thing.

The staff member laughed dryly and said, " Are the players on both sides ready? "

Ji Xuanling took long steps and walked to Qi Qin.

Qi Qin pursed his lips and looked at him twice more. Ji Xuanling didn't even raise his eyes and lazily cursed: " What the hell are you looking at? "

Qi Qin withdrew his gaze aggrievedly, stared at his toes, and said nothing.

Liu Tian was in danger of being attacked by a knife, so there was no way to dodge. Ji Xuanyi was not there, so he had to look at Ji Xuanling. Ji Xuanling seemed to be used to others asking for his opinion, and said, " I'm ready. "

When Liu Tian heard this, he immediately responded like a bug: " We are also fine! "

The staff member checked the time and said with a smile: " The two teams please enter from the left and right channels respectively. "

Going left or right won't have any impact, it will just distinguish the two teams with red and blue respectively.

Ji Xuanling took Qi Qin to the left without saying a word, and Liu Tian and the others also walked to the right.

Seeing that the game was finally on track, the staff also breathed a sigh of relief. It was finally over. Let's finish the game quickly and let the twin brother replace the younger brother so that their father can see the younger brother's ugly face.

After both teams entered the field, there would be one minute of preparation time. During this minute, Qi Qin kept looking at Ji Xuanling, lowering his head to look at his toes, looking at Ji Xuanling, and lowering his head to look at his toes. However, Ji Xuanling ignored him and looked far away at the other side of the fence.

Although Liu Tian and Yun Zhongjian are both very weak, it does not mean that this battle is really easy. With Yun Zhongjian, a bug -like guy, around, he may need to use strength and skills far beyond his normal combat level to barely reach a normal combat level.

This is very strenuous and tests the feel of the hand for most of the better players. In fact, if it is a duel between masters, it would be fine. But in this situation, Ji Xuanling has no desire to fight. If possible, he would like to push this battle to Qi Qin and log off.

However, this account was put online just in case. In a meaningless battle, I can only fight with my nose held high.

The arena for the official competition was different from that for the auditions. In addition to the battle field, there were several circles of seats around it, which were provided for players who had purchased tickets to watch the game live. However, due to concerns about affecting the

players on the field, the surrounding audiences were unilaterally blocked from images and sounds. Although Ji Xuanling and the others couldn't see it, the surrounding area was actually filled with enthusiastic audience players, and many of them were cheering them on.

Xiaoxiao Yuxia and the others were also able to get in because of their friends and relatives tickets and sat in the first row. Except for Ye Linyu, everyone else was cheering for Ji Xuanyi, which made Ye Linyu very depressed.

However, in the eyes of the people on the field, there was nothing around them, and everything was no different from playing in the arena at ordinary times, except that they knew that their battle might be being broadcast live.

Six days of tension made people sweat like pigs, but the preparation time passed quickly. As soon as the countdown ended, with the roar from the platform, the fences on both sides collapsed at the same time, and Qi Qin strode out of them. At the same time, Ji Xuanling disappeared into the air in an instant!

Liu Tian's brain was almost broken. When he saw Ji Xuanling disappear from the spot, he immediately shouted in surprise: "He's offline! "

Yunzhongjian: "..."

Yun Zhongjian coughed dryly and reminded quietly: "He is an assassin..."

Liu Tian realized that he had made a big fool of himself, and was immediately ashamed and angry. However, this did make him sober up a little. With a shout, Liu Tian mounted his horse and rushed towards Qi Qin, the only person he could see.

Except for the players who knew nothing about PVP , everyone else was stunned when they saw this action.

Are you so fierce, brother?

You know, in the arena, positioning is very important. A good positioning can not only effectively support teammates, but also allow you to quickly escape from the fight with the enemy when you are in a disadvantageous situation, giving yourself and your teammates a chance to breathe. However, the consequences of positioning errors are very serious. It would be fine if the opponent fails to seize the opportunity, but once you are targeted, your teammates cannot provide support, and you cannot escape, so you are likely to die on the spot.

Because of the importance of positioning, players should be able to learn this technique when they are a little familiar with the arena. Although it is still possible that the positioning will change during the game, at least there will be no disconnection at the beginning.

As for Liu Tian and his team's sword-riding configuration, the difference in mobility between the two sides is too great, so they need to be cautious in their opening positioning. Although Liu Tian, as a knight, can come and go freely, the Ji Xuanling on the opposite side is an assassin with extremely high burst and is elusive. If Liu Tian loses contact with Yun Zhongjian, it will be easy for him to not come back.

In fact, although Yun Zhongjian had taken his first steps , he was left behind the moment Liu Tian moved, and he couldn't even catch the dust left behind by Liu Tian's horse.

The most terrifying thing is that neither Yun Zhongjian nor Liu Tian felt that there was anything wrong, because they had fought their way up in this confused manner, and had no idea what positions or skills were. They just fought randomly, winning and losing as they should.

Although Qi Qin didn't quite understand the overall arrangements, he knew after fighting many times that most enemies would not be like Liu Tian and Yun Zhongjian. He was speechless. He and Yun Zhongjian were quite far apart , and the two swordsmen would have to run for at least ten more seconds if they were to meet. In order to save trouble, Qi Qin made a prompt decision and confronted Liu Tian.

At this time, the audience sitting outside the arena were discussing the play style of the 25th player. Was the player named Liu Tian too nervous or was he just so strong that he was not afraid? You know, the opposing team was ranked fourth in the entire region and server. In most cases, when facing such an opponent, the first reaction should be to play slowly and steadily , right? But this knight was so good that he abandoned his teammates in a flash.

Everyone was talking about it. Xiao Xiaoyuxia and others who knew the truth could not even lift their heads. After all, he was from Fanxing City, the second server, and was even the leader of one of the three major gangs, Tamajianghu. It was too embarrassing!

Xu Chu smacked his lips, took out a piece of cloth from his backpack, lay down on the seat, covered his face with the cloth, reached out and took out two earplugs, put them in his ears, and said, " I won't sleep, I'll just close my eyes and rest. Call me when the idiot is done. I can't bear to watch anymore. "

Everyone: "..."

They almost knew what would happen next. As expected, as soon as Liu Tian came into contact with Qi Qin, he was knocked off his horse by a sword and then pinned to the ground and beaten. just said in his seat " , Although we are ranked 25th, we have surpassed so many people in the entire region and server. There must be some plan! " was like a duck with its neck strangled. He stared at the field with his eyes wide open and couldn't utter a word for a long time.

The scene of Liu Tian being beaten was so brutal that the audience fell silent. Xiao Xiaoyu subconsciously wanted to look at Xu Chu, but when she turned around, she found that his seat was empty.

Xiaoxiao Rain: "..."

Didn't you say you were resting your eyes?! You finally got a first-row ticket and it's going to be wasted?!

However, Xiao Xiaoyuxia didn't have the time to complain about Xu Chu. Just when he turned his head to look at Xu Chu, Ji Xuanling had instantly appeared behind Yun Zhongjian, and the audience outside the venue immediately exclaimed.

Fortunately, this place is soundproof, otherwise this shout would be equivalent to reminding Yun Zhongjian in disguise! Xiao Xiaoyu couldn't help but think.

In fact, Xiao Xiaoyu was really overthinking it. There was no need for the audience to remind her that Yun Zhongjian had already discovered Ji Xuanling by accident.

Assassins rarely show up in battle. In most cases, they appear just a moment before launching an attack. When Ji Xuanling appeared, it was obvious that even the posture of holding the dagger was hastily adjusted. He was not in a state of launching an attack at all.

In fact, the real situation was that when Ji Xuanling was sneaking behind Yun Zhongjian and walking close to him, Yun Zhongjian suddenly raised his sword – Ji Xuanling could clearly tell that it was just an unintentional raise of his hand! However, he had just taken a step forward and

could not take it back. Even if he held his breath, the cloth armor on his body still caught on the sword!

Yun Zhongjian was not a fool. He immediately realized what the weak force coming from the sword was. He made a horizontal attack behind himself and directly brought Ji Xuanling out of the invisible state!

Yun Zhongjian stared blankly at Ji Xuanling, who was hung up by him: "..."

Ji Xuanling: "..."

Fuck! Is this the way to play this game?!

Ji Xuanling immediately launched an attack towards Yunzhongjian without saying a word. Although he and Qi Qin were not disconnected at the beginning, no one could tell when Yun Zhongjian's curse would come true. He walked past Yun Zhongjian at such a close distance just now to buy himself some time. After all, he might die in the next second, so he had to relieve some pressure on Qi Qin!

Ji Xuanling's movements were fast, accurate, and ruthless. If his movements six days ago were a textbook failure, then Ji Xuanling's movements were completely textbook assassin's attack techniques. Many players who had studied PVP , especially assassins, had their eyes lit up after seeing Ji Xuanling's strike.

Ji Xuanling's stealth kill move is not just an ordinary use of skills. In fact, actions that rely purely on skills are slightly slower than actions that fully use attributes. Most PVP masters are aware of this. For some professions, such as mages and swordsmen, this little trick is not of much use. After all, their agility is not high, and there is no way to speed up the reading time through their own actions.

But for agile professions such as assassins and archers, the small movements of players when using skills can actually play a significant role in battle, especially the speed of attack. After all, professions such as assassins are very fragile, and the main purpose of attacking is to prevent the opponent from attacking you while attacking the opponent. The meanings of these two are actually equally important.

The speed of Ji Xuanling's sword was so fast that the assassin players could almost imagine the surprised expression on Yun Zhongjian's face when he put away the sword. How could they not be excited!

However, things did not develop as they had imagined. After Ji Xuanling quickly used that stealth killing move , before the tip of the dagger touched Yun Zhongjian's back, he immediately interrupted the action, retracted the dagger, instantly moved to the other side of Yun Zhongjian, and launched another attack!

Ji Xuanling's skill connection can be said to have reached the extreme. At least most of the knowledgeable players sitting in the audience said that even if they were not wearing the universal equipment on Ji Xuanling, but other full-sensitivity equipment, they would not be able to perform the movements made by Ji Xuanling in such a short time. Some people even noticed that the reason why Ji Xuanling's speed was so fast was that he actually made an action to interrupt the backswing at the last second after the teleportation, which made the attack after the teleportation so smooth.

Of course, after all, he was ranked fourth in the audition, and they were just spectators ...

There were cheers from the stands, some for the tricks, some for the fun, but everyone was thinking the same thing – Mu Xuanyi, you are so awesome, why don't you fight Yunzhongjian? ! That's right, Ji Xuanling has launched two attacks since he appeared, but the second attack still did not hit Yun Zhongjian. Instead, he gave up the attack again and teleported for the second time!

Everyone knows that with all the skill effects, the assassin's teleport skill can only be used twice. If he wants to teleport again, he can only use the precious reset. Ji Xuanling used up both teleports in a short time. Next, he can either reset or retreat. But if he retreats now, Yun Zhongjian won't even lose blood. If he resets, what should he do during the next skill gap? Should he use his head to hit?

Everyone in the stands was watching anxiously, with some conspiracy theorists even saying that people on both sides of the field were from the second server. Was it possible that Ji Xuanling had already colluded with Yun Zhongjian and the others and was deliberately showing off his skills to attract fans?

However, this guess was immediately criticized. For a master like Ji Xuanling, does he need to suck the powder? Does he need to show off his skills? If the game goes on normally, the match will be absolutely exciting. Only the powder will pounce on him, and he won't deliberately suck it! The person being scolded could only mutter quietly: " Then why didn't he attack Yunzhongjian? Could it be that there was some agreement in the previous life that he would only be allowed to strike three times in this life? "

Everyone: "..."

It's really strange. Ji Xuanling has made so many offensive moves, why doesn't he really continue fighting?

Ji Xuanling didn't know what the people in the stands were discussing. If he knew, he would definitely curse out loud!

He wanted to attack Yun Zhongjian as well! But once the dagger got close to Yun Zhongjian, his intuition would give him a strong warning. If the dagger hit him, Yun Zhongjian's sword would hit him in the face in the next second!

His intuition was never wrong, so he immediately interrupted the attack and teleported. At the same time, he also saw Yun Zhongjian making a " sweeping " motion in a daze – if he hadn't run just now, he would have been hit!

Just when Ji Xuanling adjusted his mentality and prepared to launch a second attack, his intuition screamed again: he was about to be caught!

In fact, the attack power of the sweeping attack is not that high, and taking it directly will not have that big of an impact on the overall situation. With the experience from last time, Ji Xuanling originally planned to withstand the attack and deal the damage this time, but when he glanced, he saw Yun Zhongjian's hand reaching out to him.

Ji Xuanling: "..."

It is normal to engage in fighting and pulling each other, even in games. People with greater strength always have the advantage. This is why there are so many people with the swordsman profession. In fact, during a fight, swordsmen can of course give up their weapons and grab the enemy with their hands directly, but doing so will on the one hand lose the attribute bonus of the

weapon in hand, and on the other hand, there is no way to attack without a weapon. Moreover, agility-type professions and magic-type professions, one is as slippery as oil on the body and cannot be caught, and the other is so far away that it cannot be reached at all, so few people will make a move to grab someone.

Ji Xuanling could also see that Yun Zhongjian's action was just an unconscious behavior, but if he was caught, Yun Zhongjian would be holding a weapon in his other hand!

So he had to give up the second attack and teleport again – damn, this battle was so tiring!

Chapter 207

Ji Xuanling dodged around Yun Zhongjian like a flea . He thrust the dagger out ten thousand times, but failed to stab Yun Zhongjian once. Finally, his teleportation function ran out , so he had to quickly run away from Yun Zhongjian. After escaping the battle, he entered stealth mode again and no one knew where he had gone.

There was an uproar in the audience , and no one knew what was happening on the field. Normally, this kind of competition would make the audience excited , but in the end, instead of getting their blood boiling, their minds were confused!

Everyone looked at each other in bewilderment. Someone complained, " The difference in strength between people in this game is huge. The arena games should have two commentators to explain it to us . Otherwise , we won't understand it! "

Someone else said: " Come on, don't do that. You really don't deserve to be a commentator . What should I do if I can't understand the commentary? "

Everyone: "..."

This is true . The freedom of holographic online games is too high , and there are many different combat strategies . Not to mention that the pvp of the game has just developed , it is impossible to find an all-round player who can do commentary . Even if you really find one, he or she may not be able to understand the intentions of the players on the field.

Everyone shook their heads and sighed.

In fact , it was not only the spectators outside the arena who were paying attention to the situation, but also the other 23 teams in the waiting area. Including the players of the seeded teams , everyone was watching the big screen intently, not wanting to miss a single minute. Not only because one of the two teams currently fighting may become their opponent in the future, but also because there are too many routines now, the opponent's battle is very likely to inspire the fighting methods of players of the same profession.

However, everyone in the waiting area was also confused. Except for Mi Yin and the others who vaguely sensed something, the others only saw that the assassin Mu Xuanyi was indeed very strong and was an opponent they should be wary of. As for what was happening on the field, they didn't understand it at all.

" It's a beautiful fight, but the swordsman didn't even lose any health, what was he doing? " The Warlock of the Seed Team muttered, and said, " Potian, don't you know that assassin? Can you tell what he wants to do? "

The knight of the seed team said speechlessly: " Wake up, Potian knows the warlock brother, this is his younger brother, how can he know what others want to do? Right, Potian—— "

The knight's words came to an abrupt halt, because the moment he turned his head, both of them saw the solemnity on Potian's face, and the hint of excitement in his eyes.

The knight and the warlock looked at each other, their expressions became serious, and they immediately said to Potian: " What? Do you know the move that the assassin used? Is it his special move? "

Potian nodded solemnly, then shook his head and said, " I did see it, but it wasn't Mu Xuanyi's move, it was Yun Zhongjian's. "

Potian spoke in a loud voice, and everyone in the waiting area instantly turned their eyes in his direction, even Mi Yin and Xue Piao Renjian!

Mi Yin was extremely surprised. After Ji Xuanyi's explanation, he knew that this Sky-breaking Archer was very powerful, but he never expected that this person was so powerful that he could even see through Yunzhongjian's details? !

Just when everyone was extremely surprised and eager to know the truth, Potian nodded firmly and said: " Yes, there is no mistake, this is it! "

Everyone pricked up their ears.

Po Tian looked around at everyone and said slowly, " This is a stand-in attack! "

Everyone: "..."

Potian's teammates: "..."

If they were not defeated, the two of them would have pinned Potian to the ground and beat him up!

Stand-in attacks your sister! !!!

Everyone turned away their ears with numb expressions and sat back in their seats. A few words were written on everyone's face – " Don't talk to Chuunibyou! "

Potian's two teammates lowered their heads, wishing they could find a crack in the ground to crawl into. It was so damn embarrassing!

What is wrong with this world?! Can't there be a normal master? Is it possible that the prerequisite for becoming a master is to have some personality defects? For example, bad temper? Not talkative? Or a severe case of chuunibyou? ? ?

Mi Yin also retracted her gaze speechlessly, thinking that he was really stupid. Ji Xuanyi had already told him that Potian was in the late stage of Chuunibyou and there was no hope of recovery, but he was still stupid enough to believe what that guy said. He was really sick.

Mi Yin was just thinking about it when she saw Xue Piao Renjian frowning and asking very sincerely: " What is a stand attack? "

Xue Piao Renjian's voice was not small either. Potian's two teammates had to use all their strength to cover Potian's mouth and press him down on his seat, preventing him from getting up to explain to Xue Piao Renjian. But it was obvious that Xue Piao Renjian would not give up just like that. He looked at Mi Yin seriously.

From the fact that Xue Piao Renjian was even willing to speak, it can be seen that he was really curious about what kind of arena routine this was that he had never seen before, and he had really never watched this cartoon.

Mi Yin: "... go back and think about it yourself . "

Snowfall: "..."

Xue Piao Renjian had no choice but to nod.

The current situation on the field is that Liu Tian was finally beaten to death by Qi Qin as expected, lying on the ground unable to move, while Ji Xuanling is still alive, just losing some blood and entering invisible state. Although it is still two to one, the scene on the field looks more like Qi Qin and Yun Zhongjian, two swordsmen, are preparing for a duel.

The enemy 's teammates were already dead. In a two-on-one situation, the strategy was to kill them while they were weak! Moreover, the health of the two people on Ji Xuanyi's side was not seriously damaged. The best situation was that before Yun Zhongjian could come to his senses, the two of them would rush over and beat him to death with clubs!

But what is difficult to understand is that Qi Qin did not seem to have this plan. Although Yun Zhongjian looked at him warily, he did not make any move, and did not even take a step towards Yun Zhongjian.

Everyone looked at the scene on the field with confusion, saying it was so hard to understand. Yun Zhongjian was also at a loss, not knowing what to do next.

At this moment, the players sitting in the audience seats in the distance suddenly found that Yun Zhongjian in the picture was stunned for a moment. He didn't know whether he wanted to make way or something. He suddenly raised one foot and wanted to walk back. But just as he raised his foot and was about to land, Qi Qinka suddenly rushed towards Yun Zhongjian at this critical moment.

The swordsman's sprint made a very loud noise, and with the bonus of his equipment and physique, he looked extremely powerful. What's more, Yun Zhongjian was a little afraid of his opponent Qi Qin, and he panicked all of a sudden. However, before he could react, his raised heel was suddenly hooked by a subtle but very deadly force, and Yun Zhongjian immediately lost his balance and fell backwards like a clumsy turtle!

At this moment, Ji Xuanling suddenly appeared from thin air and appeared behind Yun Zhongjian! The movement in his hand was exactly the assassin's ultimate move , the poisonous blade! This stab was real, no matter what buffs Yun Zhongjian had , he would not be able to escape the inevitable death!

Everything happened in a flash, and the players in the audience were a beat slow to react and exclaimed in unison!

In the eyes of the onlookers, this scene probably just seemed like Yun Zhongjian was moving and lost his balance because of being frightened, and Ji Xuanling happened to seize this flaw of his opponent, or it might just be a coincidence that he appeared behind Yun Zhongjian so perfectly.

But in fact, all of this, starting from Yun Zhongjian's sudden action, was planned by Ji Xuanling. I have to say that it is a pity that the official did not make the assassin's stealth state visible to the audience, but considering the possible impact on the battle situation, such a setting seems to be necessary.

After Ji Xuanling finished delaying his teleportation CD , he did not wait any longer and immediately launched an attack on Yun Zhongjian.

It was impossible to wait for Yun Zhongjian to reveal his flaws, and given the opponent's attributes, even if he did reveal a flaw, it was unknown whether it was a real flaw or a sting operation. From the details that had already happened, we could only judge Yun Zhongjian's luck or intuition for the time being. It was effective for direct attacks, but what if we used Yun Zhongjian's intuition to create a force majeure flaw? This world still had to be scientific. No matter how powerful metaphysics was, could it really allow Yun Zhongjian to fly to the sky? From this, Ji Xuanling instantly thought of a little trick to launch an attack!

In this attack, Ji Xuanling used teleportation twice in total. In addition to the one time when he appeared behind Yun Zhongjian, the other time was used to connect two actions in an instant. Ji Xuanling's first attack was aimed at Yun Zhongjian's legs. Yun Zhongjian reacted as expected, but it was too late for him to bend down, so he could only dodge. However, the moment he raised his foot, Ji Xuanling immediately teleported, lying on the ground, and kicked Yun Zhongjian's heel heavily – although this amount of force was just like tickling to a strength-based profession, it was enough.

In addition, after Qi Qin saw Yun Zhongjian's actions, he realized that this was an opportunity, and that it was possible that Ji Xuanling had done something and he actively cooperated. It can be said that this small attack was done perfectly!

But Ji Xuanling couldn't help but sigh, with this level of operation difficulty, they really were treating Yun Zhongjian as a boss !

Not only the coordination and connection of skill actions, but also the changing actions during teleportation, or even directly interrupting one's own body's instinctive reaction to teleport, are things that many players simply cannot do in battle, let alone use as smoothly as Ji Xuanling! I have to say, it is a pity for the audience that they didn't get to see Ji Xuanling's operation when he was invisible!

But no matter what, Yun Zhongjian had been tricked. If he wanted to react when he fell, Mi Yin and Xue Piao Renjian might be able to do it, but Yun Zhongjian definitely couldn't! Ji Xuanling was full of confidence. This attack would definitely succeed. With the help of Qi Qin who was rushing over, the battle was over!

The poisonous blade was activated, and the dagger in Ji Xuanling's hand was less than two centimeters away from Yun Zhongjian's back!

At this moment, Ji Xuanling suddenly disappeared from the audience's sight again!
audience: "....."

What the hell is this! Wouldn't it be over if I stabbed it with the knife? What are you doing now? The moment on the field had passed. Although Yun Zhongjian fell flat on his face, he was intact and did not lose any blood. The audience complained loudly, what on earth was Ji Xuanling doing? He teleported – what? He did not appear on the field? Wasn't he teleporting? That would be even more ridiculous. He turned on the strong invisibility at this time. What on earth was he thinking!

Just as the audience was half angry and half jokingly cursing Ji Xuanling for cheating them out of their ticket money, someone suddenly said, " What's going on? Look, is Ji Xuanling's head portrait on the screen gray? "

There are two huge screens in the audience seats that broadcast the players' health and buffs in real time . When they die, their health will just be depleted. Why does the avatar turn gray directly?

The audience suddenly fell silent. After a long while, someone asked, " Um ... is he offline? " Everyone was shocked!

Ji Xuan came online with an expressionless face, slowly walked down from the table where he had filled out the form and reported, and returned to his seat in the second server.

During the trip, all the contestants in the waiting area had their eyes on him. The scene was very quiet and no one dared to speak.

What can I say? This is so damn unlucky! I don't know why my teammates refused to attack at the beginning, and when it came to a match point that could be said to be a sure win, my teammates were directly disconnected! The sure win situation of two against one turned into a 1v1 duel with an uncertain outcome!

This operation is really amazing. It feels like no one has ever been able to learn it since the beginning of gaming competitions! Awesome, I admire you so much.

Ji Xuanyi sat down in his seat under everyone's admiring and complicated gazes. Mi Yin approached him tremblingly and asked, " Are you okay? Your brother didn't mean it. This is Yunzhongjian, you know! "

Ji Xuanyi said: " I'm fine. "

Mi Yin added: " Actually, you don't have to force it. This has nothing to do with you. Although some people will definitely laugh at you, you have to think about it. Anyway, they are laughing at your brother, not you— "

Mi Yin's next words were swallowed by him because he saw Ji Xuanyi's ferocious eyes.

Miyin: "..."

To be honest, I haven't seen him for a long time, and I actually miss Ji Xuanyi's eyes a little bit.

Mi Yin trembled and said, " You, what's wrong with you? "

He remembered that Ji Xuanyi and his brother didn't have such a good relationship! Why did Ji Xuanyi look like he was smiling at himself instead of his brother?

Ji Xuanyi pulled the corners of his mouth with some difficulty, revealing a twisted smile, and said: " Nothing, my dad pooped on the bed, I can't accept it. "

Miyin: "..."

Is Ji Xuanyi's father so miserable?

After Ji Xuanling went offline, Ji Xuanyi came back and sat in his seat watching Qi Qin and Yun Zhongjian play the endgame. Although for the sake of the players' mentality, the barrage of comments was not synchronized with the audience's, but you can imagine that everyone is either scolding Ji Xuanling for his sharp operation being useless, or laughing at Ji Xuanling for his bad luck.

Fortunately, the official did not release the barrage, otherwise Ji Xuanyi was really afraid that he would not be able to control himself and directly kill Yun Zhongjian and the other two here.

Thinking of this, Ji Xuanyi also took the time to glance at Jing Yunhan who was sitting next to him. The latter had already exerted the crisis instinct of a rookie animal. He shrank into his chair and dared not show his head, for fear that he would be pulled out by Ji Xuanyi to vent his anger.

While Ji Xuanyi was secretly angry, Yun Zhongjian and Qi Qin had already started fighting on the field.

Qi Qin's condition was obviously better than Ji Xuanling's. After all, he was a swordsman with a lot of blood. He didn't have so many concerns when fighting with Yun Zhongjian , nor did he worry about being caught by the opponent and unable to escape. Yun Zhongjian's luck was a passive skill after all, and of course it was not as powerful as Qi Qin's active skills. He could only give some reactions when Qi Qin attacked, but he had no way to take the initiative to attack.

Occasionally, he would make a few swipes, but they were all blocked by Qi Qin.

The battle between the two people, especially Qi Qin's attacks which were so smooth and almost too fast to be seen, instantly ignited the atmosphere on the field!

This match now doesn't even look like an arena in a game, but a duel between two swordsmen in a real western fantasy setting! The contest of strength and speed, plus the sound of weapons colliding, if Yun Zhongjian hadn't been completely pinned to the ground and beaten, it could be said to be a perfect, tense and exciting battle!

But unfortunately, Yun Zhongjian really had no power to fight back against Qi Qin. After all, Qi Qin had pushed his skills to the limit with the profession of swordsman. No matter how lucky he was, it was no longer a big deal to him. This battle was no suspense at all, so the tension could only be removed, making it an exciting battle!

Originally, as a swordsman with high health and defense, Yun Zhongjian should have been able to hold out against Qi Qin for a while longer. However, after being beaten for a while, he lost all desire to fight and quickly raised his hands in surrender, ending the battle.

Both sides left the field. Although the audience felt a little tired because they had been whetted in the previous rounds and were suddenly put on hold , they had to admit that the battle was still very exciting. As long as Ji Xuanling was not so unlucky in the next round, they were still looking forward to it.

Yun Zhongjian and Liu Tian, the two beaten men, returned to their seats listlessly like eggplants hit by frost. They were baptized by Ji Xuanyi's murderous gaze and were scared and confused. Fortunately, Ji Xuanyi did not really attack them. However, after Qi Qin came back, he excitedly wanted to find Ji Xuanyi to take credit, but was kicked and felt very aggrieved.

In the second game, Ji Xuanyi's side still had Qi Qin and Ji Xuanling on the field, while Yun Zhongjian replaced Liu Tian with Jing Yunhan, who was very unwilling to play.

He was terrified just by looking at Ji Xuanyi's eyes, not to mention that he had to go on stage and get beaten up himself! He even said that Liu Tian had already been beaten up, so it was no big deal to get beaten up again. He, who had never been beaten up before, would be at a disadvantage if he got beaten up.

Liu Tian didn't bother to argue with this guy about how stupid his algorithm was. Without saying anything, he kicked him out and said, " If you keep talking nonsense, I'll beat you up! "

Liu Tian may not be able to beat others, but he is definitely capable of beating Jing Yunhan, a guy with a completely uncoordinated body!

Jing Yunhan had no choice but to register with a feeling of grievance and go on stage to be beaten.

In the first battle, without Ji Xuanling's cover, it was completely Qi Qin fighting two against one. The performance of Jing Yunhan after he came on the court was no worse than Liu Tian, which made everyone clearly know the outcome of this game.

After all, they are the fourth to last pair, so there must be a gap in strength. Although they did not expect the gap to be so big , from the very beginning, more people supported Ji Xuanyi and his side.

The result of this match was pretty much what everyone had imagined. After Yun Zhongjian lost the desire to win, that strange attribute on his body disappeared. Neither Ji Xuanling nor Qi Qin were offline, and the two of them could be said to have crushed the past directly. However, although Ji Xuanling displayed his various skills and micro-operations to the fullest in this battle, he was just bullying a weak opponent after all, and it wasn't very satisfying to watch. The same was true for Qi Qin, and the response was not as high as in the previous match.

But no matter what, Liu Tian and Jing Yunhan were beaten once each, and Yun Ouhuang was beaten twice, but they finally managed to get through this game that they were not supposed to play in the first place. When the staff announced that their team was eliminated, these three people were so happy that they cried, and everyone almost thought that they were not eliminated, but they won the championship!

The comments on the comments were also filled with laughter and tears at the true personalities of these three people, but the number of fans increased inadvertently. Everyone said that even if they couldn't win the game, they still wanted to get to know them and hug their thighs in the game.

Ji Xuanyi and Ji Xuanling appeared alternately, and after registering for advancement, they returned to their seats. Although they won, the expressions on their faces were not good, but at least they had passed the first round of eliminations, and Ji Xuanyi was somewhat relaxed.

The second round was between the 14th and 16th place teams. The number of battles and the winning rate between these two teams were relatively close, so they could be said to be opponents of equal strength. Moreover, their configuration was one archer cavalry and priest, and the other was mage cavalry and priest. Not to mention their similar positioning, Ji Xuanyi's team's first game did not bring them any help at all.

The two teams had no other choice. In order to play it safe , in the first game they both sent out a cavalry and priest configuration that could pursue when advancing and escape when retreating. They played very cautiously, hitting the enemy and then running away. After making contact with the enemy, they hit the enemy and then ran away. The two sides chased each other and were exhausted.

The audience was equally tired. They couldn't even tell whether they were watching a gaming competition or an equestrian competition ...

When the game was halfway through, someone couldn't help but curse. His health wasn't even below 70% and he just ran away. I've seen cowardly playing styles, but I've never seen anyone as cowardly as this!

But there was nothing that could be done about it. Both teams had the possibility of winning and neither of them had any intention of giving up. No side dared to take a risk, so of course they played as conservatively as possible, which made the battle extremely boring.

In the end, the equestrian competition was forced to end after twenty minutes because the competition time was up, and the 14th place with higher damage won.

This time, not only the players on the field, but also the audience and staff breathed a sigh of relief.

Fortunately, the 16th-place team that lost the second game finally gave up their conservative style of play and switched to a bow-cavalry configuration to fight against the 14th-place cavalry-priest configuration. Finally, when the cavalry-priest lost the opportunity to attack due to being too cautious, they counterattacked directly and won two games in a row, winning the qualification for the second round.

Chapter 208

Although the first game lasted a full twenty minutes and was quite boring , the 16th-place team, having lost the first game, was able to let go in the second and third games and defeated their opponents brilliantly and quickly.

The situation of coming back from a 1-2 deficit actually occurs quite frequently in the game , but since it was the first match after all, the audience was still very excited about it. Naturally, that night , the forum also had a row of posts with tactical analysis, replay commentary , and even predictions for tomorrow's game results.

Although the people who write these posts may not necessarily be as good as those who play in the competition, everyone has a mouth and it is their right to express their opinions. The objectivity and accuracy of their comments is a matter of opinion.

Most people spent a lot of time and effort on the second round of the competition, and because the first round was really hard to understand , they could only gloss over it . There were also all kinds of unfounded speculations that made people's brains hurt.

Apart from the players themselves , these posts were extremely popular and stayed on the first page of the forum for a long time . Ji Xuanling, who also paid attention to the competition during his busy schedule , naturally saw these posts.

Although Ji Xuanling's assassin ID is Mu Xuanyi, everyone knows that the real Mu Xuanyi is actually Ji Xuanyi, so they simply and rudely call Ji Xuanling with the Mu Xuanyi ID Mu Xuanyi's brother.

At least when he first saw the title of a post , Ji Xuanling felt smug. Look! Everyone mentioned him!

Then he found out, what were everyone talking about?

" Is Mu Xuanyi's brother stupid? "

" Mu Xuanyi's brother is too unlucky, isn't he? "

" I feel like Mu Xuanyi's brother is just a playboy. He doesn't look like a serious person at first glance! "

Ji Xuanling: "..... ??? "

Ji Xuanling ran to ask Ji Xuanyi in a bewildered manner, but was hung up on. If he had been there, he would have probably not escaped a beating.

Ji Xuanling: " Meow meow meow???" "

what did he do wrong???

Ji Xuanling had to take the blame for no reason and felt very aggrieved, but he couldn't do anything to his brother, so he had to turn his grief and anger into strength and get down to business. After the game ended and the official night carnival began, Ji Xuanyi went to the mixed activity area and gave flowers to the eight teams that would be competing tomorrow. The two games tomorrow morning will be between the ninth place from server nine and the eighteenth place from server five, and between the second place from server three and the tenth place from server six. The two games in the afternoon will be between the nineteenth place from server ten and the twentieth place from server seven, and between Mi Yin's team and the seventeenth place from server one.

Apart from the first match in the afternoon , Ji Xuanyi had no hesitation for the other three matches. Not to mention Mi Yin and the others, they were completely beaten. The remaining two groups also had a huge gap in strength. Let's forget about the first match in the morning. The team ranked second in the second match was not like the third team, who got there by hard work. In addition to their strong configuration, the combat effectiveness of the players was also very high. Ji Xuanyi estimated that except for the third place team which had not yet recovered, only the top six would have a chance to compete with them, and their opponents were ranked tenth, so there was no way they could compete with them.

However, although Ji Xuanyi is not optimistic about the tenth team, he also hopes that they can burst out their strongest combat power when facing strong enemies and play the game excitingly. Who knows if a miracle will happen?

Although other players did not learn anything from Ji Xuanyi and his team's battle, Mi Yin and his team did relax. It was not for any other reason, but mainly because Ji Xuanyi and his team had really pushed their bottom line in this battle. No matter how bad their performance was, it would not be worse than Liu Tian and Jing Yunhan. Although he was already a veteran, as a player from the second server, Mi Yin was still a little relaxed.

Even though it was Mi Yin and his friends' turn to compete tomorrow, these three did not train overnight. Instead, they ate, drank, played and strolled around in the mixed activity area with Xiao Xiao Yu Xia and the others.

" The closer it is to the competition, the more you need to maintain your usual state, focusing on conserving your energy and supplemented by practicing coordination. If your daily routine and rest schedule suddenly change the day before, it will be easy to lose your touch and make mistakes the next day. " Mi Yin calmly imparted his competition secrets, and the others listened and nodded seriously.

Ji Xuanyi said speechlessly: " Why are you nodding your heads? You are not playing any game. "

Because it was a night activity, Ji Xuanyi did not bring Qi Qin with him. Instead, he left Qi Qin to sleep offline and climbed up himself. Although he was a little sleepy due to his daily routine, the surroundings were very lively, with fireworks and bright lights. The atmosphere like a temple fair made him barely stay alert.

" That's not what I meant, " Xiao Xiao Yu Xia said with a smile, " Although we are not very good at the moment, with brothers like you who can make it to the official competition, we are sure that we will also make rapid progress and make it to the official competition of the second competition! Right, Ze Yu Si Shui? "

Ze Yu Sishui was a talented player acknowledged by Ji Xuanyi himself, so he was very excited watching the game. Thinking that if he had practiced well, he would have had a chance to play, he immediately became excited and insisted on dragging Ming Shao and Qingfeng Bufu to practice with him, which annoyed the two of them. Now, when he heard Xiao Xiaoyuxia's words, he nodded hurriedly.

Ji Xuanyi couldn't tell whether he really wanted to change or was just a flash in the pan, so he didn't bother to pay any attention to him.

Among the group of people, apart from the three people from Yun Zhongjian who lost the game and looked a little listless, Xu Chu was the most listless. Not only was he listless, he even sighed and looked like he was deeply regretful.

Ji Xuanyi was surprised and asked, " Liutian lost the game and was beaten up by Tianxia, but he didn't celebrate by throwing money around? "

Xiao Xiao Yu Xia said woodenly: " He was regretting that he went to bed too quickly and didn't have time to see Liu Tian being beaten. "

Ji Xuanyi: "..... ??? "

You people in this world are so weird!

Miyin felt a little regretful that they could only meet contestants from other servers during the competition, otherwise they could consult each other before the competition.

Ji Xuan said expressionlessly that this request was really weird. For someone like him, he didn't want to see Potian's face at any time other than during the game.

Mi Yin recalled the scene when Po Tian said that Yun Zhongjian used a substitute to attack. He had to admit that what Ji Xuanyi said made a lot of sense. He didn't want to see Po Tian at any other time ...

Apart from that, the lively mixed activity area still made everyone have a lot of fun. Considering that there was a competition tomorrow, everyone dispersed as the night deepened.

The next morning, everyone gathered and started the third round. This match was quite exciting. Both sides went back and forth, but the 18th place player was the first to show a flaw and lost the first game. After losing the first game, the 18th place player's mentality collapsed, and he lost consecutive games and was eliminated.

The fourth round was even more exaggerated. The second-place team basically played like a practice match. They easily put together a rider-priest combination and didn't even make any substitutions. Instead, they used the same configuration and players for two games and easily crushed the opponent. Although the enemy was also quite strong and even made it into the top ten, the gap was there. After being defeated in the first game, they directly gave up the second game, which made Ji Xuanyi very regretful.

After all, they were a team that made it into the top ten. Ji Xuanyi thought they would have some killer moves , but it seemed that their mentality was affected. Not only did they fail to perform to

their potential as Ji Xuanyi expected, they even failed to fully utilize their own fighting power. However, this was also because the second place was indeed very strong. As a high-end knight player, Xue Piao Renjian looked at the second place players very seriously and seemed quite interested in them.

The old western doctor was frightened by the second place's fierce fighting style, and couldn't help but whisper to Xue Piao Renjian: " Well, big brother, if the two of us fight them, who will win? "

When Xue Piao Renjian heard this, he frowned, but remained silent and said nothing.

The old western doctor was shocked. What does this mean? Could it be that he can't beat him? That's not right! Isn't Xue Piao Renjian known as the best master? How come he can't beat the second place? That's not how the script is written! The gameplay of the holographic online game is a little different, but it shouldn't have such a big impact!

The old western doctor was a novice after all, and he immediately became uneasy. Perhaps because his face looked really bad, Mi Yin couldn't help but say, " Don't think of them as too fierce. If you get scared before the fight, you won't be able to show your strength. In fact, they only look powerful, and most of them are outshined by their opponents. Don't panic. "

Of course, Mi Yin's words were not sincere. They were mainly meant to appease the old Western doctor. The second place's overwhelming success was indeed due to the factor of being highlighted, but most of the reason was their own outstanding performance. Mi Yin said this only because she hoped that the old Western doctor would not give herself too much psychological burden to avoid performing poorly.

But unfortunately, Mi Yin's words were heard by the two teammates who stayed in the waiting area of the two teams. Although the tenth place was angry, the strength of Mi Yin and his team was there. According to their level, they could indeed look down on them. He had nothing to say, so he had to keep a gloomy face and pretend that he didn't hear what Mi Yin said.

But the people who stayed behind from the other team were not so nice. They were the second place, and although Mi Yin was well-known, she only ranked fifth in the audition. Even if they didn't think they were good, they didn't have the qualifications to talk about it, right? He snorted coldly and said, " You backward players in the keyboard online game world, please don't talk big here. Your apprentice who pushed you off the first place didn't dare to speak, how dare you say that our strength was set off by others? "

Mi Yin choked and felt very embarrassed. He didn't expect that his words would be heard by his teammates. He felt even more embarrassed than Qing Feng Bu Fu. He was just about to apologize when he heard Xue Piao Renjian say in a low voice: " I win. "

Mi Yin was stunned for a moment. The second-place player also looked over here and said unhappily, " What do you mean? "

Xue Piao Renjian looked up at him and said in a calm and matter-of-fact tone, as if he was saying that people need to breathe, something that everyone knows: " Knight and priest, two against two, I don't know, one-on-one, I win. "

Xue Piao Renjian's words were so concise that only Mi Yin realized what he meant instantly. She immediately held the man down and tried to cover his mouth.

It's not that Xue Piao Renjian offended anyone, it's mainly because he was the one who spoke the wrong thing first, and he hasn't even had time to apologize yet. Saying this is really too hateful!

However, it was no use covering it up now, the words had already been said, and the man knew what it meant after a slight reaction. He immediately stood up and glared at Xue Piao Renjian, as if he wanted to go out and practice with the other person.

Xue Piaorjian also pushed Mi Yin away, slowly stood up, and looked at the man indifferently. After all, Xue Piao Renjian was once the invincible number one in the keyboard online game. He had an aura and most importantly, he was taller than that person, so he suppressed him in one fell swoop.

Of course, that person was able to get to the second place not entirely relying on his teammates. He definitely had the strength, but even though he said that Xue Piao Renjian was the number one in the outdated keyboard online game, he still recognized the other party's strength in his heart. If Mi Yin had not said before that Xue Piao Renjian would not lose in a one-on-one duel with his teammates, he would not have said anything except a few jealous remarks in his heart.

But because Mi Yin first said that their strength was highlighted, if he gave in now, wouldn't it be the same as admitting what he said?

So even though he had already lost in terms of momentum, and was a little worried that he might not be able to beat Xue Piao Renjian if he really went out to practice, that person still stood there with his neck stiff, looking like he was determined to fight them to the end.

The two hadn't even drawn their weapons yet, and the staff panicked. "You two are fighting. Are the live audience watching the game or you? This is a mess!" They hurried over to stop the fight, and after some persuasion, Mi Yin apologized and tried her best to hold down Xue Piao Renjian, the matter was finally resolved.

However, everything in the waiting area was broadcast live, and it was estimated that it had been seen clearly by the onlookers. It is possible that tonight's post, in addition to the review and prediction, will also include the private situations between the two teams, such as whether they have arranged to fight or something like that.

Mi Yin knew that her and Xue Piao Renjian's two IDs were well-known in the online gaming community. Plus, the second-placed ID also had a lot of fans. She guessed that the fans had started fighting before their real owners had done anything. Just thinking about it made her head hurt ...

Ji Xuanyi knew what he was thinking at a glance, patted Mi Yin's shoulder comfortingly, and said: "Don't worry, he is from the third server, and you are from the second server. The number of fans of both of you is probably about the same, so there is no way you can quarrel with each other. At most, you will curse each other offline, and nothing will happen. "

Mi Yinsheng was hopeless: "That's bad enough. "

Because of an unintentional conflict with the second-place team, she didn't pay much attention to the game in the morning. However, in the afternoon, Mi Yin adjusted her mindset. They had their game in the second half, and although the pressure was not great, she couldn't relax too much. It would be ridiculous if she failed.

The battle between the 19th and 20th place was pretty standard, using some relatively common tactics, such as archers targeting swordsmen, assassins targeting priests and so on. The fight was quite balanced, but in the eyes of Ji Xuanyi and the others it was uninteresting. It can only be said that these two teams had a solid foundation in the most basic elements, so they can be considered masters, but not outstanding.

Such battles are actually very intense and exciting, and the audience is generally very enthusiastic. But because their next match is between Mi Yin and Xue Piao Renjian, everyone is more looking forward to the later matches and is not so concerned about this match. They just hope that they can finish quickly so that Mi Yin and the others can play.

Many people know the names of Mi Yin and Xue Piao Renjian, and there are also many veteran gamers who grew up watching their teaching videos. Everyone has also watched many competitions, but this is a holographic online game after all, which is completely different from keyboard online games. Everyone is looking forward to their new performances, and tickets for this game were almost snapped up!

The enemy was ranked 17th in the server, and was equipped with a long-range turret-style archer priest, which was basically completely defeated by Mi Yin's assassin cavalry priest. No matter whether Mi Yin brought out the assassin cavalry, assassin priest, or cavalry priest, the opponent had no way to deal with them.

When the players were registered, the captain of the 17th place team almost scratched his head, which made everyone laugh.

This is also the case when there is no other way. When faced with a complete counter in configuration, one can basically only hope that one's own combat power is far ahead of the opponent and is completely on a different level, only then can one win more stably. Otherwise, it is very dangerous.

But the current situation is that Mi Yin and Xue Piao Renjian have left them far behind, and are basically beating them with their feet. Not to mention scratching his head, even if he vomits blood on the spot, there is absolutely no way he can find a configuration that has a winning rate. In the end, the three of them in this team could only get together and draw lots, and whoever drew the lot would go. Everyone was speechless.

In the last game, Mi Yin and his team sent out Xue Piao Renjian and Lao Xiyi, while the opponent sent out an archer and a mage – there was nothing they could do, they were just unlucky.

If it was a bow priest or a magic priest, they would definitely not be able to win, but with the priest around, they could at least survive for a while. But when they drew lots, they got a team of melee fighters, which means they only have a limited chance of being on this field.

Mi Yin and his team's strategy for selecting people is also very simple. There is no pressure in this battle, so they sent Xue Piao Renjian to lead the old western doctor. One purpose is to let the old western doctor get familiar with the feeling, and the other is to let the old western doctor gain some confidence.

Because as an assassin, Mi Yin is not as oppressive as the knight Xue Piao Renjian, and his fighting requires more skills, and he may need the help of Lao Xiyi. However, in the first game, Lao Xiyi is probably not in good shape, and he needs Xue Piao Renjian's strength to give him some confidence so that he can adapt in the second game and cooperate with Mi Yin.

After becoming familiar with the competition field, the old Western doctor will be able to slowly display his abilities and will not suffer psychological trauma due to setbacks in his first competition.

It can be said that Mi Yin had quite a few apprentices in the past. Although Xue Piao Renjian is the only one with him now, he has also accumulated quite a few skills in training newcomers. The old western doctor was not stupid, so he naturally saw how Mi Yin took care of him. To be honest, he had never had the chance to participate in such high-end competitions. It was thanks to Ji Xuanyi that he met the two great players Xue Piao Renjian and Mi Yin, and only then did he have the opportunity to curry favor with them. And the big shots took such good care of him that the old western doctor was embarrassed to say it, but he was actually very touched in his heart.

If it was Xue Piao Renjian and Mi Yin's request, the old Western doctor thought to himself that even if it meant taking Ye Linyu's sack, he would definitely do his best to help!

In the audience seats outside the venue.

Ye Linyu: "A-choo -- !!! "

The sneeze came too suddenly. Ye Linyu was confused because he had been eliminated. Liu Tian, who was also sitting in the audience, said very seriously: "It must be that idiot Xu Chu who cursed you behind your back!"

Ye Linyu: "..."

Xu Chu: "???"

When the battle started, the old Western doctor's first reaction was to get on the horse of Snow Piao Renjian. This is the fighting style of the knight and the priest. The knight uses the horse to give the priest an almost impossible mobility, turning the opponent into a portable milk bottle that will never be targeted by the enemy.

But the old Western doctor had just climbed halfway when Xue Piao Renjian lifted his leg and knocked him down.

Old Western doctor: "???"

Xue Piao Renjian glanced at him indifferently, kicked the horse's belly, and ran away. The old western doctor was filled with shame and was completely confused!

The players in the audience were also confused. No, it was fine for a player like Liu Tian to kick his short-legged teammate, but how could Xue Piao Renjian make such a mistake?!

In fact, it was certainly not Xue Piao Renjian who made any mistake. He had his reasons for refusing to give the old Western doctor a ride.

Mi Yin's idea was of course good, letting the old Western doctor feel the atmosphere of being crushed, but in fact, with Xue Piao Renjian around, the old Western doctor could probably feel nothing but the bumps on his horse's back, and he couldn't even see what his opponent looked like. After all, in Xue Piao Renjian's view, opponents of this level could be easily defeated one by one, and he didn't even need to put down the bottle to replenish blood.

Instead of just carrying the old Western doctor on his back and letting fate decide the atmosphere, it would be better to just throw him down. Anyway, whether he dies or not, the battle is won.

Mi Yin saw at a glance what Xue Piao Renjian's actions meant and what he was thinking, and immediately couldn't help but hold his forehead with his hand.

This approach is certainly more beneficial to the old Western doctor, although there is also the possibility of scaring him directly, but given the old Western doctor's personality, he won't recover too quickly. Mi Yin is concerned about another thing.

Just like what he said before that upset the two teams, Xue Piao Renjian's current actions were to blatantly treat his opponents as sparring partners. This was very easy to offend people, and if he wasn't careful he would end up being hated.

Mi Yin was afraid that his opponents would see that Xue Piao Renjian did not take them seriously, but he never expected that this time he was the one who was overthinking.

When the seventeenth person saw that Xue Piao Renjian had lost his teammate, he didn't care why and immediately rushed towards the old western doctor with joy. It was like a person who had been hungry for three days seeing a barbecue dinner. His eyes were almost shining, and Mi Yin was stunned!

Ji Xuanyi said slowly, " After all, this is a team that can decide its lineup by drawing lots. Their mentality is really good. "

Chapter 209

The opponent was as excited as if he had seen meat , but the old Western doctor who was the meat was not happy at all!

Xue Piao Renjian didn't even help him restrain an enemy , but rode away on his horse and just watched him get beaten with his eyes open!

The enemy 's configuration is archers and mages , which can be said to be the most annoying profession for the priest after the assassin knight. Both are ranged , and their arms are longer than him. There is no way to escape , and he can only use pure movement and damage reduction to avoid damage. He can barely survive alone, but when two people come together, does Xue Piao Renjian think he is a god? ? ?

In order not to miss this opportunity , the enemy archer accelerated and arrived in front of him in the blink of an eye . The old western doctor screamed , turned around and ran!

If the old doctor was a little nervous before going on stage , he no longer felt that way . Is there anything more important than staying alive? And this was a live broadcast . If he could show his sharpness , fans would flock to him!

With this thought in mind, the old western doctor was chased by archers and mages and shot at with electric lightning . He managed to survive with a row of arrows on his back!

Xue Piao Renjian watched for a while and made sure that the old western doctor had adapted to the frequency of battles and would not be affected by the live broadcast. Then he let out a low shout, mounted his horse and rushed forward, knocking the mage flying directly. Then he killed the archer with one blow and saved the old western doctor who was left with only a bloody skin.

It was not until the victory announcement was made that the old western doctor lay down on the ground with a sense of relief. He looked at Xue Piao Renjian with resentment and said, " You bastard, you almost killed me! "

Snowfall: "..."

What nonsense is this person talking about!

Just when Xue Piao Renjian was hesitating whether to just fight three at once and kill the guy in front of him, the old western doctor sighed sincerely and said unwillingly: " I finally managed to escape those two guys for so long, and now you have stolen all the limelight. I am so angry! "

When Xue Piao Renjian heard this, his expression changed. He didn't know who he was thinking of. He silently gave up the idea of killing the old western doctor. He bent down and stretched out his hand to him, saying, " Keep fighting. There's a chance. "

The old western doctor looked at Xue Piaore Renjian who spoke to him with a flattered look on his face. It took him a long time to come back to his senses. He hurriedly climbed onto Xue Piaore Renjian's horse, and the two of them went off together.

In the second game, Xue Piao Renjian was replaced by Mi Yin, while the opponent still drew lots to enter the game.

The archers and mages who were hit by Xue Piao Renjian turned pale and muttered something in a low voice.

Qi Qin leaned close to Ji Xuanyi's ear with some curiosity and asked quietly: " What are they whispering about? "

Ji Xuan said expressionlessly: " Don't hit me, don't hit me, don't hit me. "

Qi Qin was surprised and asked, " Xuan Yi can hear this? "

Ji Xuan glanced at him and said calmly, " I can't hear it, but it's probably this sentence. "

In fact, Ji Xuanyi's guess was not wrong. The atmosphere when the 17th team was drawing lots had already made Mi Yin begin to not know what to say.

 " Relax, " the old western doctor comforted him with the look of an experienced person: " Just protect me and don't let me die in the middle of the battle. Just cooperate with me to fight a wave of enemies . "

Mi Yin: "... This is a bit difficult. "

You fucking pastor are just a milk bottle, what the hell is the point of beating him !

The old Western doctor didn't care and went on the field in a heroic and high-spirited manner.

The archer and mage on the opposing side were extremely unlucky and drew the lottery lot again. The two of them were carried onto the field by their priest teammates with unbelievable expressions on their faces, and they could only bite the bullet and face the combination of the old Western doctor and Mi Yin.

When Mi Yin plays in the arena, he will not be as bold as Xue Piao Renjian to directly sell out his teammates. He basically plays with all his strength. Once the opponents realize that Mi Yin is determined to play the game seriously at the beginning, they almost know their own ending. for the two DPS on the opposite side to kill the old Western doctor without any restrictions , depending on how the old Western doctor's skills are used. But without the support of a priest, it only takes Mi Yin less than a minute to kill a DPS , and the remaining DPS has almost no chance of killing the priest alone.

The only possibility for the seventeenth place to win the game is to cooperate to catch a wave of Mi Yin and directly kill the DPS , so that the priest and the old Western doctor who have no power to resist can be at their mercy. But unfortunately, Mi Yin is the most difficult assassin profession to catch, especially since he is Mi Yin. The only possibility of winning has been suppressed to the lowest. Although these two people still have fighting spirit, it is just a desire to show off and basically has not considered winning.

Mi Yin actually quite likes this opponent. If possible, he would like to see this team continue to appear in subsequent competitions. There are many masters, but such a good mentality is really rare. But unfortunately, the competition is so ruthless, and the 17th place was finally eliminated. The only consolation is that even though they were eliminated, they did not feel frustrated about it, and they were even quite happy.

After the game, the team secretly went to ask for Mi Yin and Xue Piao Renjian's autographs, saying that they were already very satisfied. At the beginning, they didn't even think they could make it to the official competition and show their faces for a round. They were even beaten by their two former idols. This was an experience that most people would never get in their lifetime! The second day's competition was over. When everyone was walking around the mixed activity area at night, the old western doctor complained to Ji Xuanyi, " What kind of people are these? They are so happy after being beaten. They ran away happily. Do they have a problem with their brains? "

Ji Xuanyi looked at him strangely. Although the old Western doctor's train of thought was strange, he thought that the other party would appreciate that team very much. Why did he feel that the old Western doctor's reaction was completely opposite to what he imagined?

Ye Linyu had an expression as if he saw through everything. He looked at the old western doctor with a smile. The old western doctor curled his lips and trotted in between Mi Yin and Xue Piao Renjian, separating the two of them. The players who were watching quietly around them couldn't help but sigh with regret.

When Ye Linyu saw him running away, he smiled and said to Ji Xuan, " The old western doctor is an idiot. He must be holding a grudge against me because they only asked Mi Yin and Xue Piao Renjian for autographs and left him aside. Just forget about it in a few days. "

Ji Xuanyi: "..."

Is that so? The old western doctor is surprisingly knowledgeable ...

Mi Yin and the others' match was over, and there was basically no other match that Ji Xuanyi particularly cared about. The only one on the third day that Ji Xuanyi would pay more attention to was probably the third place. Ji Xuanyi had a good impression of them, and this time their opponent was the 22nd place, which was not too strong. It seemed that this team would not be eliminated so early.

On the last day of the competition, what Xuan Yi was most concerned about was probably the sixth-placed weird team of archers. The name of this team was also quite strange, called "One Arrow Breaks the East Wind". I don't know what drove these three players who were definitely top masters to get together and form such a non-mainstream configuration.

" I know a little bit about this. " Mi Yin said.

Intelligence work means how much you know about your opponent, which, to some extent, also affects the outcome of the battle. So if Mi Yin has time, he will still inquire about the opponents he cares about. And it is obvious that the Yijianpo Dongfeng team is indeed worthy of vigilance.

"It seems that the three people in this team know each other in real life. There are rumors that they are friends from the same archery club."

Mi Yin was halfway through her speech when the old western doctor interrupted her and asked, "Wait a minute, are they from the same archery club? Why is there a magician in there?"

Mi Yin said helplessly: "It's useless to ask me about this kind of thing. Even if someone chooses to be a mage, what can I do? However, their fighting style will definitely be affected by real life to some extent – no, there are too many things that can be done in the game, maybe more than just real life."

Ji Xuan nodded and said, "Maybe some of the made-up tricks in TV dramas will be used." He has suffered similar losses before.

The old western doctor frowned and said, "Not really. Games should also be scientific. Those in TV dramas are all fake!"

Mi Yin shrugged and said, "There are still people like Tianxia in the world. How do you know they can't do it? And if they didn't have any hidden skills, would they be ranked like this now? There aren't any strong professions in archery, not even priests."

The old western doctor's expression suddenly became twisted.

With a freak like Qi Qin in front, it's hard to say what kind of person is hidden in that team! Time passed quickly, and just as Ji Xuanyi had expected, in the third day's competition, the third place team made a mistake in a game that was clearly a sure win. Fortunately, due to the difference in strength, their opponents did not catch on to the mistake, and an ordinary must-win game turned out to be extremely thrilling. The audience outside the venue became excited because of the rare and intense competition, but only the third place team himself knew the bitter meaning of it.

Fortunately, we won in the end, otherwise this match would probably have become the comeback match with the biggest ranking gap in this competition.

In fact, the last game where the ranking gap was overturned happened just in the round before them. The seventh place in the fifth server, who was drawn to the seventh game, lost to the thirteenth place in the eighth server, which caused an uproar in the audience. If the third place lost again in this round, the audience would probably think that there was some curse in today's game.

But fortunately they won. Ji Xuanyi saw that the expression on the face of the third-place knight captain was a little relieved. In tomorrow's half-day competition, there is a match between the 21st and 23rd place. No matter which team advances, it will not pose much threat to the others. However, this may be an opportunity for the exhausted third-place team. If they can draw this team in the second round of draw, maybe they can get another round.

The top six match is not far from the semi-finals. The third-place team at that time may really be able to recover. Although there are many top players in this competition, if they can fully demonstrate their strength, it is not completely impossible for them to enter the semi-finals.

The fourth day of competition arrived amidst everyone's eager anticipation. The first round in the morning was between the sixth place player who had been guessing for a long time, Ji Xuanyi, and his opponent, who used the bow technique of Breaking the East Wind with One Arrow, and the eleventh place player from the third server.

Although there is a gap of five places between them in the rankings, the higher the ranking, the smaller the gap in player strength. The eleventh-placed team is almost in the top ten, and its strength should not be underestimated.

Moreover, the configuration of the eleventh place is the same as Mi Yin and his team, which is a combination of assassins, knights and priests. When facing archers and mages, this configuration can be said to be invincible. Even if there is a certain gap in the strength of the two sides, it is estimated that it is compensated by the configuration. If Ji Xuanyi had not had mysterious confidence in this strange team of archers, he would even feel that this game was at a disadvantage.

No matter what, the players were all very interested in this game, but the audience, after three days of competition, was a little overwhelmed.

This is also the reason why it was said that the best spot in the draw is in the middle or later part rather than at the end.

But for the competition, it is of course a good thing. After all, you have seen all the previous games clearly and obtained the most intelligence and information. It not only lays the foundation for subsequent games, but also allows you to learn many lessons from your opponents' battles. But the competition is not just about what happens on the field. In fact, for the participating teams, winning is of course important, but letting the audience know themselves is equally important.

In this day and age, not to mention how much benefit the fan effect can bring to the players, even if it is just to satisfy their vanity it is good!

However, in extremely long matches, the audience's energy is limited. They have been excited time and time again in the previous matches. Unless the following matches are particularly exciting, it is difficult to mobilize their senses. Once a mistake occurs, it is easy to remember it very clearly, and they may be scolded until the next game.

In this regard, being the last to appear is a big disadvantage, but it is also possible that some players do not care about these and just want to win, so it does not have much impact.

But it was obvious that the members of Yijianpodongfeng did not completely ignore the audience's opinions. They even deliberately unified the color of their equipment when they appeared on the stage. The arrogant mage even wore a flower on his head to stand out, but was beaten up by two teammates.

However, even if they were concerned about this aspect, it didn't seem to affect their mentality at all when they appeared on the last day. The three of them were very confident in themselves, as if they were sure that they would catch the audience's attention.

"They look pretty awesome ..." The old western doctor couldn't help but say, "Based on the team's configuration, they are clearly at a disadvantage, right? Their opponents look pretty normal."

Mi Yin smiled and said, "If they didn't have confidence in themselves, they wouldn't have formed such a team."

That's true. Most people, even experts, will be extremely careful when choosing teammates and configurations. Those who can form such a team are either bold or have absolute confidence in themselves, and their ranking in the auditions has indeed proved this point.

It was not until the game started that Ji Xuanyi and his team finally understood where their confidence came from. This team was indeed a formidable opponent.

Archers have many attack skills. In addition to the most basic powerful shot, there are also rain of arrows, tracking arrows, explosive arrows, and expelling arrows. Each of them is a skill that can cause huge damage. Like mages, they are positioned similar to turrets. The only difference is that they are faster and not easy to be caught at close range.

But correspondingly, there is a shortcoming that mages do not have, that is, their attacks are all physical attacks. Unlike mages, there is basically no way to be completely resisted after being hit. There will definitely be penetrating damage, and the amount of damage is determined by the level of magic defense. Once the archer's skills are blocked, there will be no damage at all. Moreover, their shooting speed is actually slower than the speed of magic, so it is easier to dodge.

This is also one of the reasons why knights and assassins are not very afraid of archers. If you can dodge the attack, dodge it. If you can't dodge it, you can try to directly hit it. Once you can block high-damage and long CD skills such as explosive arrows, you will basically make a fortune.

Basically everyone thought that the configuration of "One Arrow Breaks the East Wind" was a disadvantageous situation, but they were soon slapped in the face.

Not only was the double archer configuration not chased away by the knight-priest configuration, it didn't even let the enemy's knights get close to them!

The players who said "One Arrow Breaks the East Wind" are indeed people who play with bows and arrows in real life. When they use the skill, they put three arrows on the bow every time!

And they can continuously attack the enemy while moving .

In this game, the archer's skills do not have any particularly obvious special effects. Arrows fly over one after another continuously, and the enemy's ability limitations prevent them from shooting down all the arrows at once. No one knows whether there are any skill arrows with powerful attack power hidden among the arrows that slip through the net!

The eleventh-place knight certainly wanted to rush over and kill the two archers directly, but as soon as he moved, the two archers not only followed him, but even more arrows flew towards him. If he dared to chase them, he would have to put the priest down and heal him within three seconds. In the meantime, he could not move, and the priest would also take damage. The opponent would also take the opportunity to run away, and he would not even have any chance to pursue them except standing still and trying his best to resist the damage!

After a while, the eleventh-place knight and priest were blasted in the face by the skills of the two archers, and their bodies were pierced like hedgehogs!

the archers who shot the arrow that broke the east wind put three arrows on the bowstring and kept firing, everyone exclaimed in amazement at their archery skills. Perhaps they were addicted to performing, one of the archers grabbed a handful of arrows from the quiver behind him, put them one by one on the bowstring, and shot them out together.

This time, not only the spectators, but also the qualified contestants in the waiting area shouted, especially Potian, who was also an archer. His eyes were shining and he was extremely excited. The mage team member who stayed in the waiting area after Yijianpodongfeng also showed a proud expression.

Qi Qin said in bewilderment: " This is too amazing, aren't they afraid of not being able to shoot accurately? "

Ji Xuan took a look at him and said, " I guess there is a rain of arrows mixed in with his arrows. " The skill of Arrow Rain is that before the archer shoots the arrow, it is also a single arrow that will split into dozens or hundreds of arrows in mid-air. It looks very powerful, but in fact the damage is limited, and the aiming requirement is not high. The reason why the archer was so confident and not afraid of missing the target, other than this reason and the other party getting too proud of himself, Ji Xuanyi really couldn't think of any other possibility.

Soon, facts proved that Ji Xuanyi was right. After the archer shot out his arrows, one of them suddenly exploded, forming a rain of arrows. The visual effect was comparable to a special effects movie, which made the audience excited. However, the players in the waiting area realized that the technique was not as good as the previous displacement attack , and they calmed down a little.

Finally, the opponent's knight couldn't stand this kind of humiliation any more, so he chose to sprint, and fell under the rain of arrows together with his priest. He finished the game vigorously with a single arrow breaking the east wind, stole the limelight, and made the old Western doctor feel jealous.

In the second game, the eleventh-place team learned from their mistakes and replaced the opponent with an assassin who was not as strong as the knight but was more agile and suitable for sneak attacks and not easy to be caught.

According to their thinking, if the assassin becomes invisible from the beginning, the archers will be wary of him. Even if the priest is left alone, the archers will not dare to attack freely and must save their skills to deal with the assassin. In this way, if they want to take care of both sides, it will be easy to take care of neither. Once the assassin seizes the opportunity and gets rid of one of them, the single archer, no matter how good he is at using the bow, will not be a match for two people.

However, ideas are full and reality is very skinny. After the assassin came on the field and became invisible, the two archers ignored him at all, but rushed up and started to beat the priest. The assassin was invisible and hadn't touched them yet, and the priest was left with only blood on his face!

At this time, the assassin finally arrived and appeared behind one of the archers. In order to protect his teammates, he didn't care about whether to keep any skills or not. He used his ultimate skill, Poison Blade, to stab one of them in the back at the beginning.

Logically speaking, the survival of teammates is the top priority, and the remaining person should at least change his target, so that his priest teammate will have a chance to catch his breath.

Who knew that the other person didn't react to save his teammate at all, but just moved away from him, and while moving, he finished off the priest and killed him!

He didn't expect that the opponent's action of selling out his teammates would be so smooth and without hesitation. His teammate was already dead. The assassin had no choice but to attack the archer he controlled, wanting to kill two people with his own strength. But at this moment, the archer who had already moved away directly used an explosive arrow to blow him and his teammate up!

Chapter 210

The explosive arrow was basically the same skill as the first warrior of the elves that Qi Qin had met before. It caused explosive damage, but it also did n't distinguish between friend and foe . Not to mention teammates, even the player who used the skill would be hit if he got too close! Not to mention the archer's teammate , who was right in the center of the explosive arrow just like the assassin! Not only the assassin himself was hit, but also the spectators outside the venue and the players in the waiting area could n't help but sigh in their hearts – " This is too fucking cruel! "

My teammates are in the middle, so I attacked without hesitation!

I can only say that this team deserves to be the one that made it to sixth place with such a weird configuration, and they are people who can accomplish great things!

Not to mention the opponent's assassin, an archer on Yijianpo Dongfeng's side was also blown away by his teammate's skill . The assassin who flew with him could even hear the archer's curse , who was only left with a trace of blood after being shot away by his teammate after a series of operations by him . Something like " taking revenge on personal gain "... It sounded like these two people had a conflict.

Just when the assassin was thinking that he would definitely not win and whether he should incite rebellion , the archer next to him drew out an arrow , aimed at him , and used the explosive arrow again.

At such a close distance, the archer was left with only bloody skin , and was definitely dead. He was directly killed by his own explosive arrow. The assassin was also blown to bloody skin by two consecutive explosive arrows and was easily taken away by the remaining archer.

This tactic of selling out teammates and being willing to be sold out and die together with the enemy shocked all the audience, and the players who came to their senses were all excited! Wonderful! This kind of battle is really wonderful!

This battle, which combines the plot that the masses love to watch, immediately captured everyone's heart. Turning the tide! Selling out teammates! Diing together! It can be said to be the most exciting and eye-catching battle among the 24 to 12 battles!

This wave of fans has made Lao Xiyi so jealous that he has no place to be jealous. After all, the other party is really good, and he can't sell out his teammates ... It's not that he is afraid of being beaten by Xue Piao Renjian and Mi Yin, but mainly because there is no profit from selling teammates. If he really dares to do so, he will probably be scolded until next year.

I didn't expect to see such a wonderful game on the last day. The audience was extremely excited, but on the other hand, the two teams in the last round were also extremely unlucky.

They were ranked 21st and 23rd respectively. With the rankings shown here, basically everyone felt that there was nothing to watch compared with the previous teams. When they were competing, everyone was basically still discussing the previous round of games. Even after they finished the competition, everyone was still discussing the previous game.

It can be said that they are the most miserable group of people in this round of competition except Ji Xuanling.

The last match of the 24 to 12 was played quietly, calmly and without any attention. The 21st place won. After a break at noon, the draw for the 12 to 6 will be held in the afternoon.

When Ji Xuanyi logged off to have lunch at noon, he took a look at the current support level of each team in the forum. As expected, the support level of Yijianpodongfeng's team soared instantly, second only to the first place and Miyinxuepiaorenjian's sentimental configuration, ranking third among the twelve teams, while Ji Xuanyi's team was barely ranked sixth. It is estimated that part of the reason was because of the bonus of Mu Xuanyi's name. Seeing this, Ji Xuanyi almost couldn't help but go online and beat up Yun Zhongjian and others!

Qi Qin prepared a very sumptuous lunch and comforted Ji Xuanyi. Only then did the two of them go online again in the afternoon.

The live broadcast of the draw in the afternoon once again opened the barrage system to the participating players. After all, those who remained were the winners, and there were not many people who would criticize them. Moreover, after a round of competition, their mentality was much better than before, so the possibility of being affected was not great.

When the draw was taking place, most people looked a little nervous. After all, half of the people had already been eliminated, and the remaining ones were basically experts. If they made a mistake in the draw and met the top six, they would basically be doomed. Apart from those who had absolute confidence in themselves and did not care much about winning or losing, there were also many teams with stronger strength who frowned.

It's only the 6th out of 12. If you draw an opponent who is equally strong or even has little chance of winning, you will lose directly if you are unlucky. If you are lucky, you will probably have to reveal all your cards, which is really too disadvantageous. If possible, I still hope to draw an opponent who I can deal with.

Among the crowd, the most desperate one is probably the 21st place. After all, almost everyone wants to draw them, and their only hope of advancing is the 20th place, which also starts with the word "2". The two teams still have a chance to fight, but it is hard to say who will win.

These two teams with more than 20 members are basically each other's hope, and it is rare for the captains of the two teams to reach a consensus.

Ji Xuanyi glanced at the knight captain who was in third place. His eyes were almost shining when he looked at the captains who were in twentieth and twenty-first place, just like a hungry wolf seeing two sheep. Ji Xuanyi could even imagine what he was thinking at the moment – either of these two teams would be fine, God bless him, and let him draw these two teams! The captains of the two teams who were treated like sheep were surprisingly calm. After all, most of the captains at the draw looked at them in this way, so they just got used to it ...

Because of the experience from last time, everyone did not delay this time and went up one by one to draw lots. After Ji Xuanyi returned to Qi Qin, he opened his palm and saw the number inlaid in the transparent glass bead on the palm of his hand.

3 .

No matter what, it's always better than the last time, it just depends on who his opponent is. Ji Xuanyi thought about it and looked up. Mi Yin inherited Ji Xuanyi's bad luck from the previous game and drew number 1 , while the second place drew number 4, and Yijianpo Dongfeng and the others drew number 2 – very good , they basically avoided all the strong enemies, and it seemed that no one would be eliminated midway, and they could still meet them when the six were reduced to three.

Ji Xuanyi looked around and found that most of the other numbers had appeared, but he didn't see the 3 in his opponent's hand .

Ji Xuanyi frowned, but was lightly bumped by Qi Qin.

" What for? " Ji Xuanyi said somewhat unhappily.

Qi Qin swallowed and looked in one direction. Ji Xuanyi followed suit and was stunned.

The captain of the knight who was in third place was looking at the ball in his hand with a grim expression. When he saw Ji Xuanyi's gaze turning to him, he frowned. After a long time, he let out a light breath, opened his hand and showed it to Ji Xuanyi. The red number " 3" flashed by, and the knight withdrew his hand and stopped talking.

They also knew that with their current strength, they would only have a chance to advance if they faced the two teams outside the top 20. When facing a strong enemy like Ji Xuanyi, they would have to be cautious even when fighting at their peak, as the outcome would be unpredictable. And fighting them in the current situation would basically be disastrous.

This team is also unlucky, Ji Xuan thought. The initial plan was disrupted and they finally saw hope, but it hit them again.

But even if Ji Xuanyi still hopes that this team can continue to move forward, it doesn't mean that he will give in or let the team go. They still have to play the way they should.

When you meet an opponent who deserves respect, you should give them your all.

After the draw, there was a day's break and the competition to top 6 started on the third day.

The first game on the morning of the third day was Mi Yin's match.

Mi Yin's luck was usually average, but suddenly got better during the competition. Although she drew a bad round, her opponent was lucky enough to draw the twentieth place, and the 21st place was drawn by the second place.

Except for the silly old Western doctor, the expressions of the four teams were not very good. Not to mention the bottom two, they were desperate when they drew anyone except the opponent. The reason why the second place was not very happy seemed to be because they wanted to fight with stronger opponents, especially Mi Yin and others with whom they had conflicts before.

Ji Xuanyi guessed that if the four teams exchanged their opponents, it might be possible to create a situation where everyone was happy.

However, Ji Xuanyi was overthinking this. Although Mi Yin and the others were not very happy about being ranked 20th, they would definitely not be willing to be ranked 2nd.

Because of the old Western doctor, Mi Yin originally hoped to proceed step by step. It would be best if they could draw a team that was a little stronger than the 17th place, but not so strong that they would have a hard time playing against it. No matter if it was the 8th, 9th, 12th or 13th

place, they would all be suitable. Even the 16th place would be fine. Basically, nearly half of the 11 opponents were teams they thought were suitable.

But it was just such a coincidence that she was drawn to be the twentieth place. Mi Yin could only comfort herself that fortunately she was not in the top six. After all, if she had drawn Ji Xuanyi or the second or sixth place, with the old Western doctor's current strength, they might not necessarily win.

Xue Piao Renjian said that if they fight alone, they will definitely win , but if they fight with the old western doctor, it won't be good ...

Old Western doctor: " Hello! "

Mi Yin quickly comforted him, " Of course, we still have time. At least we can advance in this match. You can adapt to the atmosphere. We will seize the time to practice for two more days. Even if we face Ji Xuanyi and the others, we still have a great chance of winning! "

The old western doctor just showed a skeptical expression, and Ji Xuanyi said beside him: " Don't believe what he said to comfort you. "

Miyin: "..."

Old Western doctor: "..."

The old western doctor almost cried on the spot when he saw Ji Xuan.

But the fact is indeed like this. Although the old Western doctor is very sharp, it is his first time to participate in this kind of competition. Not to mention his performance, his strength is actually quite different from the real top masters. With the support of Mi Yin and Xue Piao Renjian, it is easy for him to get a ranking, but it is still a bit of a drag to get the first place. However, if they can survive this competition and participate in the next one with the original configuration, the possibility of taking the first place will become much greater.

There is not much to say about the two rounds of competition in the morning, as they were all expected outcomes. The old Western doctor was finally able to provide support to Mi Yin and the others normally, and the arrow that broke the east wind in the second round was a show for the ninth place team, without any mistakes – after all, the enemy didn't even get close to them.

The first match in the afternoon was between Ji Xuanyi and his team and the third place.

The third place Li Yuexishan's configuration is swordsman, knight, and priest. No matter which one, it is a tricky configuration for the assassin profession.

These three either have high health, high defense, or both, and they can all take care of each other in pairs. A profession like assassin basically cannot make a kill , and there is a great possibility that all the skills will be tricked out, and then directly killed.

Ji Xuanyi knew this clearly, so he did not underestimate his opponents just because they were in poor condition, but instead deployed swordsmen and warlocks very seriously.

In this game, many players chose warlocks as their teammates because of their skills, but basically, those who win win very easily, and those who lose lose very badly. Everyone has discovered that warlocks are very dependent on skills, and a warlock who knows how to play and a warlock who doesn't know how to play are basically two different professions.

A good warlock can only get a higher score. If teammates are not sharp enough, they are just auxiliary after all and can do nothing about the battle situation. But if teammates are sharp

enough, they can exert power far beyond that of one person, as can be seen from the fact that there is a warlock in the first seed team.

In fact, there were only Ji Xuanyi and his team, and Potian's team, in the top 25 teams, with two warlocks. It could be said that Ji Xuanyi's game was the first appearance of a warlock player in this arena competition!

This kind of hidden profession in daily life is particularly cohesive. There are many warlock players among the supporters of Ji Xuanyi and his team. They all come to support them just because there is a warlock in the team. Of course, if Ji Xuanyi and his team are unfortunately eliminated, these supporters will flock to Potian and his team.

This is true for all professions, and Ji Xuanyi has long been aware of this. Warlocks have been frustrated for so long, and they should really be able to hold their heads high when the arena comes out. Everyone's expectations are understandable.

Ji Xuanyi sent out swordsmen, while Li Yuexishan sent out sword cavalry.

A game without a nurse means that it is a complete competition of strength. Ji Xuanyi could see that after drawing them, he realized that this game was not easy to play. The opponents had actually let go of winning or losing and just wanted to prove themselves with their strength. If they could win, they would continue to play. If they could not win, there was no need to regret not having the most satisfying configuration.

Although it was a bit unlucky, this team is still good.

Personnel from both sides were on standby at their respective birth points. After the countdown ended, with shouts, the fences broke and both sides cautiously walked out from them – it's not that they didn't want to rush, it's just that three of the four people had short legs and the only one with long legs couldn't rush. If the short legs rushed forward, they would expose their flaws. Both sides had no healing, and they might just die on the spot, which was too embarrassing.

After the two sides approached a distance where they could support each other, the knight of Li Yuexishan jumped up on his horse and rushed directly towards Ji Xuanyi behind Qi Qin!

There was no priest in this match. The two opponent's DPS were as fierce as wolves and tigers, ready to rush forward and kill one of them at any time. Ji Xuanyi, as the only squishy one, was of course the primary target, so he stood ten meters behind Qi Qin.

When the knight on the opposite side rushed over, he wanted to break through Qi Qin's defense line and was just within Ji Xuanyi's attack range. It was actually a good opportunity to attack first, but Ji Xuanyi took a look at the swordsman who was rushing towards Qi Qin with great momentum, and did not use his skills on the knight, but turned around and ran away.

Qi Qin raised his heavy sword and tried to stop the knight.

The knight was actually a little dazed. Ji Xuanyi's action of turning around and running was really beyond their expectations, which directly disrupted their offensive pace. However, they had already anticipated Qi Qin's defensive action. The knight did not give Qi Qin any chance to attack him. Instead, he jumped off his horse, abandoned his mount, and pounced directly towards Ji Xuanyi.

Everyone in the audience and waiting area was shocked. This was the first time they saw a knight abandon his horse in battle. They were all a little confused. Only Xue Piao Renjian nodded silently.

The old western doctor immediately asked: " What does this mean? He got off the horse by himself? "

Xue Piao Renjian glanced at him and ignored him. Mi Yin explained helplessly, " Besides attacking, the knight's horse basically has only one function, which is to give them the opportunity to get closer or farther away from the target. But just now, if the knight had stayed on the horse, he would have been stopped by Tianxia and lost the chance to catch Ji Xuanyi. At this time, jumping the horse can increase the displacement, and then a straight stab can reach Ji Xuanyi who is still a certain distance away from him. "

In fact, most people can think of this theory, but in actual combat, it is impossible for most knights to abandon their mounts so decisively. Even if they do it, they will inevitably hesitate and miss the opportunity to fight. By then, Ji Xuanyi will not be able to catch up, and will be beaten by Qi Qin. It is better not to get off the horse at all.

The old western doctor suddenly realized what was going on. Seeing that the knight had indeed caught up with Ji Xuanyi, he couldn't help but get nervous for Ji Xuanyi and asked, " What should we do now?! He has already caught up with us, why doesn't Ji Xuanyi control him! "

This time, Mi Yin frowned and couldn't say anything.

He didn't understand what Ji Xuanyi was trying to do. In fact, in his opinion, the time when the knight jumped over the horse was a very good opportunity for battle, but Ji Xuanyi gave up without hesitation.

Mi Yin believed that Ji Xuanyi would definitely be able to see what she could see. The reason why he didn't take action might be that he had concerns or was planning for greater benefits. Sure enough, the next second he realized why Ji Xuanyi gave up the attack at the beginning. At the moment when the knight caught up with Ji Xuanyi, the swordsman also faced Qi Qin head-on. Both of them were swordsmen, and this man was not weak. Although Qi Qin had the upper hand, it was not an overwhelming advantage. If Ji Xuanyi had not run away but controlled the knight, then in order not to waste the CD of this skill and want to obtain the maximum benefit, Qi Qin's only choice would be to attack the knight with all his strength.

But it is not so easy to drain the health of strength professions, especially when Qi Qin's equipment attributes have added a lot of agility. You know, he fought for six days like hitting a sandbag, and he also wasted a minute or two!

In other words, the five seconds that Ji Xuanyi controlled the knight were not enough for Qi Qin to cause fatal damage to the opponent. At the same time, the knight's teammate, the swordsman, would come to support. Not only would Ji Xuanyi not benefit from his skills, but after the paralysis was lifted, Qi Qin would be attacked from both sides .

Mi Yin believed that with Qi Qin's ability, he would not be besieged to death so easily, but Ji Xuanyi was nearby. As long as the swordsman and the knight kept their skills, they could switch their targets instantly. And at that time, Ji Xuanyi might have used up all his skills such as CD reversing in order to assist Qi Qin. Caught off guard, he was very likely to die instantly.

Even if Ji Xuanyi could perfect his positioning and skill coordination, he would still be passively drawn into the opponent's offensive rhythm. Once the offensive rhythm was no longer in his hands, the battle would become extremely difficult. Even if he did not die, he would be suppressed for twenty minutes, which was very uncomfortable.

The great opportunity to attack that everyone saw was actually a plan that Li Yuexishan had thought of from the beginning. He used the knight as bait to lure Ji Xuanyi to attack actively, and then turned the tables and killed him . In the lightning-fast battle, it could be said to be a perfect plan!

But even such a plan was seen through by Ji Xuanyi at a glance and he decisively gave up, which made Mi Yin couldn't help but smile bitterly.

It's not that he would fall for this trick or that he is not as good as Ji Xuanyi. After all, the configuration is different and the coping methods are also different. He and Xue Piao Renjian have a tacit understanding in cooperation. Even if such a situation occurs, he is 100% sure of getting away unscathed, and he is at least 30% sure of taking advantage of the flaw and killing the other person. What made him smile bitterly was that Ji Xuanyi was so powerful that he saw through everything without even the slightest hesitation at the moment of fighting. If they meet in the competition later, it seems that it will be very difficult to beat them.

Mi Yin sighed quietly, and hearing the old western doctor's nervousness, she asked hurriedly, "What happened? What happened? Are Ji Xuanyi and the others in trouble? "

Mi Yin shook her head and said, " Ji Xuanyi is so powerful. If things go wrong, there will be another disconnection. Otherwise, they will definitely win this game. "

The old western doctor was stunned and said in confusion: " But Ji Xuanyi has been caught up by that knight? "

Isn't this a death rhythm?

Mi Yin said: " Look carefully. As a priest, you should avoid harm. You know better than me. " Upon hearing this, the old Western doctor quickly looked towards the screen.

As expected, although Ji Xuanyi had been caught up by the knight, he did not die on the spot. Instead, his blood volume decreased at an incredibly slow speed.

It was impossible to completely avoid damage. Even the most powerful assistant could only avoid the enemy's skills with high damage and selectively take some insignificant damage. However, what Ji Xuanyi did was even more exaggerated. He not only avoided skills, but also avoided all the damage that could be avoided! The flirtatious movement was the first time that everyone present had ever seen it!

Not only the contestants in the waiting area, but even the audience who knew nothing about it noticed this level of movement. They were all extremely surprised, and from time to time someone followed Ji Xuanyi's movements and shouted out!

Some people even said that Ji Xuanyi is worthy of being the elder brother and is even more awesome than his unlucky younger brother!

I don't know how Ji Xuan felt when he heard this ...

Chapter 211

But no matter how coquettishly he moves , a warlock is not a priest, and his shortcomings in healing are too obvious. Even though Ji Xuanyi's blood loss frequency has been compressed to the extreme by him , he still can't heal him. If he is chased by the knight like this, he will die sooner or later .

" Why doesn't he use his skills? He should save them for the New Year! " The old western doctor was anxious and shouted, " Control that knight! Buy some more time for Tianxia! " As soon as the old western doctor finished speaking, the knight seemed to be tired of such inefficient attack . He suddenly moved away from Ji Xuanyi, whistled, and summoned the horses to prepare to mount!

Once the knight gets back on his horse, the pressure on Ji Xuanyi will become even greater!

" Control him! Aaaahhh!!! " the old western doctor could not help but shout out , attracting the attention of the contestants in the waiting area.

In fact, it was not just the old western doctor who was shouting this sentence , as well as waves in the audience . Everyone was cheering wildly , fearing that Ji Xuan would make a mistake and fall under the knight's horse's hooves.

However, Ji Xuanyi was so calm that he didn't even pay attention to the knight getting on his horse . He just moved forward without blinking and continued to avoid damage with his godly movement.

However, a knight with a horse and a knight without a horse are two different professions after all, and the threat is greatly increased. When Ji Xuanyi was half blood, he finally used his first skill after entering the field , damage reduction, in order to withstand the trampling that could not be avoided.

The old western doctor's heart tightened, and he said, " I've already used one skill, so there's no need to hold back on the rest, right? "

However, the old Western doctor was still too young. After enduring the trampling, Ji Xuanyi ran away again and had no intention of controlling his opponent at all.

Just like the old western doctor, the audience was really scratching their heads. What on earth did Ji Xuanyi want to do? You can't show off your skills at this time! Everyone knows that you are very powerful. Please be more willing to survive, use your skills, and stay alive!

" What on earth is he waiting for? " the old western doctor yelled frantically.

Mi Yin also kept frowning. His understanding of supports was only at the level of an ordinary player, not to mention a hidden profession like the Warlock. Without a large amount of normal-level game data as a basis, he was not quite sure what kind of strength this profession should display in the arena. In addition, the person playing the Warlock was Ji Xuanyi, so he was even more confused about what the other party was doing.

While the old western doctor was wailing, Mi Yin was actually wondering what Ji Xuanyi was trying to do. What was his plan for holding back his skills? What was his profit?

There is a joking saying among arena players that the earlier you use a skill , the earlier its cooldown will be. Although this saying also depends on the situation, it is actually a reminder to players with average skills not to lose their lives just to hold back on using skills. Some skills are indeed very important and can directly reverse the situation and determine victory or defeat at a critical moment. But you must know that if it is to save your life, no matter how important the skill is, you have to use it. After all, a dead person has no DPS , and only a living person can output. It would be stupid to use skills directly to the resurrection point.

Ji Xuanyi's current actions are basically textbook-like and will be used as a negative example for novices. Moreover, Mi Yin has no idea what the point of him holding back on this skill is. In most

cases, there are only two ways to fight against swordsmen and warlocks. One is when the enemy attacks the swordsman, then the warlock uses skills to assist. The other is when the enemy targets the warlock, then the warlock uses skills to delay time, giving the swordsman a chance to defeat them one by one.

So , is Ji Xuanyi thinking –

Mi Yin reacted suddenly and immediately shifted her gaze away from Ji Xuanyi who was in danger and looked towards Qi Qin and the enemy swordsman.

Due to equipment limitations, Qi Qin's output ability became weaker. Although he suppressed the enemy , the speed at which the opponent's blood volume decreased was actually very limited. In this situation, it can be said that not only Ji Xuanyi was delaying time for Qi Qin, but also the enemy swordsman was delaying time for the knight.

Just as Mi Yin expected, Ji Xuanyi did not move away from Qi Qin, but kept circling around Qi Qin's combat range. Even without realizing it, Ji Xuanyi had adjusted his perspective to face Qi Qin and their battle field, while the knight was passively turned with his back to him!

The warlock has long arms and the knight has long legs, but no matter how long the legs are, they cannot outrun the skill judgment. What's more, if something really happens on the swordsman's side, the knight needs to turn around first!

Mi Yin knew very well how precious the time was when responding to teammates. It was very likely that a difference of just a few tenths of a second would cause his teammates to die in front of him. Ji Xuanyi's advance preparations had been so obvious. If Mi Yin didn't know what Ji Xuanyi was thinking, he would have played in the arena for so long in vain!

Mi Yin held his breath and stared at the enemy swordsman's health. Forty percent, thirty-eight percent, thirty-five percent, thirty-two percent – now is the best time!

Almost at the same moment when Mi Yin shouted in her heart, Ji Xuanyi brought the knight to a very bad perspective while moving. At the same time, he suddenly bypassed the opponent, raised his staff, and used the skill paralysis on the swordsman who was fighting with Qi Qin! At the same time, Qi Qin also burst out!

Qi Qin's damage was not high before, in addition to reasons such as equipment and skills, it was also related to the enemy 's occasional parry. Now the enemy has completely lost its ability to resist. In an instant, the swordsman's blood volume dropped directly to 22%, and because of paralysis, he was unable to communicate with his teammates. After seeing Ji Xuanyi's actions, the knight even habitually chased the opponent for two seconds before reacting!

At this time, the swordsman's health had dropped to 10%! The knight turned around and went back to rescue, but it was too late! Ji Xuanyi was so hateful that he put a debuff of CD setback on the knight who was about to dismount and use the direct stab skill to move , causing the latter to almost spit out blood while rushing to rescue!

Skill displacement is definitely faster than horse displacement. This knight was able to think of this in such an emergency when there could not be any room for misjudgment, and he dismounted and charged forward directly. He can be said to be an expert among experts, but Ji Xuanyi was so ruthless that he even expected that the opponent would do this. Not too early or too late, he controlled the opponent's CD at the moment the opponent dismounted , making it impossible for the opponent to get back on the horse or charge forward!

A knight was forced to lose his mobility, drew his gun and looked around in confusion. The knight was probably so confused that he only had one sentence left in his mind: Who am I? Ji Xuanyi was able to seize such a fatal but momentary opportunity, and this knight had no other hope of winning.

He took two steps towards his swordsman teammate with his short legs in a daze, and saw that the opponent's health bar could no longer hold up and had reached the bottom. He also collapsed like a mountain.

His teammates were dead, and his cooldown was only a second and a half away. Qi Qin, who had lost almost no health, had already turned and came towards him. Knowing that his chance of winning was actually close to zero, the knight didn't want to waste time, so he sighed and raised his hand – "I give up."

The shouts of "The Blue Team surrenders, the Red Team wins!" defined the outcome of this match, and whether inside or outside the field, or even in the waiting area, everyone fell into a strange silence.

It's over? ? ? Huh? ? ? What happened? ! The players in the audience area were confused. What on earth was going on? ! They were watching Ji Xuanyi's thrilling and exciting show of skills in the last second, how come the opponent surrendered after losing a few people in the next second? ! They clearly remembered that the health of the swordsman was barely within the safe line that could be maintained. What happened? !

The duration of silence was directly proportional to the degree of surprise of the crowd. After more than ten seconds, cheers like waves of the sea were heard from the audience!

It was so unexpected and so fast! Although they didn't even know what happened, it was just too awesome!!! Ji Xuanyi is awesome!!!

Although the audience didn't know the killing points and key points in this battle, Ji Xuanyi and his men were able to kill the opponent in a flash, which must have caught the opponent off guard. That's awesome!

However, the audience who do not seek to understand the details are only a small minority after all. Most people are complaining that the official has not released a commentary system. Even if there is no commentary, replays will be fine. I don't know if it will be possible to see a more reliable replay after going offline today.

After all, the players in the waiting area are at a different level than the players in the audience. Although the players in the audience basically didn't understand much, many of the players in the waiting area could see everything clearly.

The only two warlocks in this game, who were also Po Tian's teammates, said with a smile and a sigh: "He is indeed a powerful person. Even if he plays a warlock, he is still a top expert. Although I will not use the same method to break such a game, I have to say that if it is this routine, I will not do better than him."

Potian immediately sneered and said, "Of course, he is destined to be defeated by me, how could he be on the same level as my little brother?"

Warlock: "... Excuse me, what did you say? "

Potian: "He is destined to—"

"Not this one," the sorcerer said expressionlessly, "but the next one. Who is your little brother?"

Potian said as a matter of course: "You!"

Warlock: "..."

The warlock suddenly jumped up, but was pinned down by the knight who was prepared. Lian Sheng comforted him, "This is a stupid chuunibyou, a stupid chuunibyou, don't bother with him!"

Warlock: "&#* # \$..."

On this side, the old Western doctor, who also didn't understand, looked at Mi Yin and Xue Piao Renjian with tears in his eyes.

Snowfall: "..."

The old western doctor looked at Mi Yin with tears in his eyes.

Mi Yin sighed helplessly and said, "I have always known that Ji Xuanyi is very powerful, but to be honest, I only knew him during his Mu Xuanyi period and never had the opportunity to play in the arena with him, so I didn't know he was so powerful."

Needless to say, the opening layout of the swordsman and the knight was cracked by Ji Xuanyi, but in the following situation, he and Qi Qin were still in a passive situation. After all, the opponent had two DPS and he was just a support.

Double DPS will definitely control the offensive rhythm, and in the case of one DPS with one auxiliary, they will mostly passively wait until the offensive rhythm of the double DPS is disrupted, or when they enter a state of fatigue, and then take the opportunity to counterattack. But the Warlock is different as an auxiliary, it is an offensive auxiliary profession, it cannot delay for too long like the ordinary lineup of one auxiliary and one output, it can only take the initiative, but if it cannot take the initiative and cannot actively control the offensive rhythm, it actually means falling into a disadvantageous situation.

But if Ji Xuan breaks the opponent's routine and directly counterattacks, then although the rhythm is in their hands, their shortcomings are also obvious. The swordsman and the knight both have high blood and high defense. No matter who they attack, the other side will provide support, making the game stalemate. It is actually hard to say who will drag whom to death. So Ji Xuanyi, who had seen through all of this in advance, gave up this idea and took a path that was more risky but where the outcome was determined.

"They say the risk is greater, but in fact, maybe Ji Xuanyi doesn't think there is any risk at all," Mi Yin said, "From the look on his face, maybe he thinks this plan is perfect and has a 100% chance of success."

The old western doctor was confused and asked, "What the hell?"

Mi Yin explained: "Ji Xuanyi has been planning the final killing point from the beginning."

He held back his skills, stalled for time, and adjusted his movements while letting the enemy get used to his concealment and lose vigilance against his skills. Everyone saw that when Ji Xuanyi finally controlled the swordsman, the knight didn't even have two seconds to react!

With this knight's skills and abilities, it is basically impossible for him to make such a low-level mistake, but he made it anyway because Ji Xuanyi spent too long diverting his attention. No

matter who it is, when Ji Xuanyi has been moving around for such a long time without using any skills and then suddenly uses them, they will not be able to react.

Ji Xuanyi took Qi Qin's displacement weakness into consideration, so he decided to target the swordsman for the kill. However, due to the knight's strong mobility, no one could stop them from providing support. If they rashly controlled the swordsman without being sure of winning, it would be easy for the knight and the swordsman to attack Qi Qin together. After Ji Xuanyi used his powerful skills, his support ability was too weak and he was extremely easy to fall into a passive position.

So we have to find a killing point, a killing point that is big enough for Qi Qin to crush the swordsman to death before the knight can even react !

" It's the 32 percent blood line. " Mi Yin said.

For a team with a healer, they need to communicate with their own healer when the health line is below 50%, but for a double DPS lineup, when there is no obvious outbreak that needs to be dismantled, basically they just need to notify teammates when the health line is below 30%.

This notification has a greater reminder meaning, relatively speaking, it has a smaller meaning of asking for help. It can basically be translated as: my health line is low, I may not win in a one-on-one fight, please see if you can help me. If you are sure you can win, then you don't need to worry about me. If the situation is a little risky, please look for me to help you.

be prepared to take over the low-health enemies when they might die .

In Ji Xuanyi's situation, once the swordsman gave the knight a reminder, he would definitely be on high alert and might even turn around to support his teammates.

But spending such a long time paralyzing the enemy was not what Ji Xuanyi wanted to see no matter what the situation was.

Therefore, Ji Xuanyi specifically set the killing point at the 32% blood line, also taking advantage of the habit of high-level players who like to squeeze time – 32%, it is a bit early to remind at this time, and it would be just right to call out at 31.

The swordsman thought the same, so after being paralyzed, he had no chance to speak.

" The Card Knight's vault at the end also brought his ability to seize opportunities to the extreme. " Mi Yin said.

The knight's operation was very good. The connection between the vaulting horse and the straight stabbing skills was a matter of a split second. If one wanted to control him in the middle, the available time was only about 0.1 second. One minute earlier or later would result in failure. In addition to observation, intuition and touch were more important. If an ordinary person could seize this opportunity, he could probably brag about it for the rest of his life, but Ji Xuanyi's expression was as if he had played a low-end audition match. He was very calm. It seemed that this was not a rare thing for him.

This was truly terrifying. If this was a controllable ability for Ji Xuanyi, Mi Yin couldn't help but imagine ten thousand scenes of herself being caught and beaten by Ji Xuanyi.

" This battle plan is not complicated , but the risks are also very obvious and very high. If we want to realize all the subsequent plans, the most important point is whether Ji Xuanyi can really hold back his skills and ensure that he will not die under the pursuit of the knights, " Mi Yin pursed her lips and said, " This plan basically puts all the risks on Ji Xuanyi alone. "

Because of this shortcoming, this game is basically impossible to replicate, because apart from Ji Xuanyi, it is difficult to find a second warlock who can survive so stably under the pursuit of a master knight without even wasting a single skill.

Mi Yin believed that given Ji Xuanyi's character, since he could come up with such a countermeasure, he must have absolute confidence that he could complete this action. From the expression on Ji Xuanyi's face, it could be seen that he did not feel surprised or fortunate about his victory at all.

Mi Yin has encountered many powerful enemies along the way, and he was full of excitement every time. But this time, he felt a sense of crisis for the first time. With Ji Xuanyi and Qi Qin teaming up like this, can he and Xue Piao Renjian really defeat them?

This sense of crisis was so rare that Mi Yin was not worried at all. She even felt vaguely happy. Being first is not Mi Yin's goal in the arena, fighting against strong opponents is.

Seeing a smile on Mi Yin's face as she spoke, the old western doctor said speechlessly: "Brother, I'm a little scared of you."

Mi Yin glanced at him, suddenly came to her senses, and said, "Just in case, you have to step up your training."

Old Western doctor: "..."

Meow meow meow?

The cheers from the audience went on for a long time, but because of the official protection settings, Ji Xuanyi and Qi Qin didn't hear any of it. However, after they returned to the waiting area, the admiring or vigilant looks from the players made them realize that they had played well in the previous game.

Mi Yin smiled at the two of them, but that smile still showed a hint of fighting intent. Xue Piao Renjian did the same, staring at the two of them. The old Western doctor looked left and right, trying to minimize his presence.

Potian stood up slowly from the chair with an evil and crazy smile on his face – and then was pushed back down with a "thump" by his teammate the knight. Because of the collision of his buttocks and the seat, the evil and crazy smile on his face became distorted. It was his other warlock teammate who walked towards Ji Xuanyi and the others.

He originally had some admiration for Ji Xuanyi, but after being provoked by Po Tianyi, he became a little dissatisfied.

Why? Ji Xuanyi is his rival, and he is his younger brother. Is Potian's eyes used to vent his anger?!

"You are very good," the warlock stood in front of Ji Xuanyi, with a faint smile on his face, and said lightly: "But for the game, this tactic is a bit too risky and arrogant. You should also understand the meaning of the word 'support'. Even if you are an offensive support, you should not put your team in danger for the sake of showing off. The most important thing is to win stably."

Ji Xuan looked up at him, but ignored him and walked away with Qi Qin.

Warlock: "..."

Seeing that the opponent was about to explode, the knight held Potian with one hand and picked him up with the other hand, and ran away, saying: "You haven't read enough novels, the

middle school syndrome says you are the younger brother, can't you fight for it! And you still do this kind of cannon fodder, aren't you stupid! "

Warlock: "&#* # \$..."

Ji Xuanyi and Qi Qin did not return to their seats, but went directly to the stage to register for the second battle.

At this time, Li Yuexishan's team members also came out from the other side. The expressions on the faces of the swordsmen and knights were very gloomy. Although they had made mental preparations, failure was still difficult for most people to accept.

Their priest teammates in the waiting area looked even less happy than them.

Those involved are often confused, while bystanders can see things more clearly. Although they roughly understood the opponent's tactics, there were many details that the swordsmen and knights could not notice in such an urgent situation. Only their priest teammates, who were sitting in the waiting area watching the screen, could see everything.

Therefore, they understood how slim their chances of winning were.

The three of them regrouped to discuss how to fight next. Although their voices were too quiet so not many people could hear them, you could tell from their expressions that the three of them were sighing repeatedly, without any sign of excitement at having come up with a solution.

Soon, the preparation time for the players ended, and after some discussion, the three of them sent the priest and the knight to the stage.

Seeing this configuration, everyone knows that Li Yuexishan has given up winning this game and sent out a priest, probably just hoping that the opponent can show himself in this arena one last time.

Chapter 212

In the game "Domain" , the position of the priest is still a blood bottle. When facing the warlock, a profession with a large proportion of healing reduction, he is basically beaten.

To put it bluntly , it's like a father beating his son.

Just like when a rookie warlock faces all players, in a battle with a high-end warlock, the priest is no different from air . The whole game is basically 2v1 , and the warlock doesn't even need to waste any skills on the priest.

You can breastfeed while standing , but if you can't breastfeed me, I lose.

if the enemy warlock was a little weak, but it was Ji Xuanyi who was so abnormal that he could calculate a game from the beginning to the end, move around without needing damage reduction skills, and most importantly, grasp the point accurately . He could even catch a knight with smooth skill connection in 0.1 second!

It is not easy for a warlock like this to catch a priest . This time he can't even heal even if he stands there.

And Li Yuexishan actually sent a priest to the field . Everyone could see that they didn't seem to plan on winning.

In fact, this is indeed the case . The reason why Li Yuexishan is still in poor condition is mainly because they consumed too much energy in the auditions in order to impact the seed team , and the one who consumed the most energy was the priest in the team.

Just like what everyone thought, the captain knight of Li Yuexishan sent out the priest because the possibility of winning was too small , so it was better to let teammates come out and show their faces. But at the same time, this was also the priest's own request.

The knight and swordsman's style of play is the most targeted strategy they can use against the warlock and swordsman combination. Since it has failed, why not let him go on the field and give it a try? Maybe there will be some hope.

The Cavaliers captain didn't think there was any hope, but since his teammates said so, he had no choice but to believe it.

Facing the knowing looks of most of the players in the waiting area, the Knight Captain had an ugly expression on his face, but the priest frowned and looked at Ji Xuanyi and Qi Qin seriously and cautiously.

In his opinion, in this situation, no matter who it is, they will probably want to ridicule their opponent, but it doesn't matter, he will tell this powerful warlock about his determination. However, the scene was completely different from what the pastor had imagined. Ji Xuan only glanced at him, nodded politely, said nothing, and quietly went to fill out the form.

If the people in the waiting area could see the barrage, they would find that Ji Xuanyi's fans were screaming together, looking like they were about to develop into a cult.

Fortunately, no one could see it, and they just sighed in their hearts that Mu Xuanyi's temper was actually better than the rumors said ...

No one likes an opponent who takes advantage of someone's misfortune. Facing Ji Xuanyi's team, except for Potian who has infinite self-confidence, probably no one thinks they can win. After registration was completed, both sides entered the competition venue again.

The interval between the two games was not too short, but the audience was still immersed in the unexpected kill in the previous game . When they saw Ji Xuanyi and Qi Qin enter the field, cheers like a landslide and tsunami broke out again outside the venue.

When the audience saw Li Yue Xishan's configuration, they were confused.

Looking at the configuration of this team, most people thought that although they had already lost one game, if they wanted to win, they could only use sword cavalry in the second game. However, they did not expect that the opponent was so stubborn and directly used cavalry priests. Have they not yet discovered how awesome Ji Xuanyi is from the previous battle? Everyone was talking about it, and a few people noticed that Li Yuexishan might not think he would win, but it was not nice to say such things, so even though they saw it, everyone basically remained silent and silently cheered for them in their hearts.

There is no time to think about too many routines, so Li Yuexishan's playing style for this game is relatively simple. The most popular and basic method of Cavalry and Priest now is to use the high mobility of the knight, fight once and run away, put down the priest to restore the health to the safety line, and then come back to fight again.

Everyone has seen this style of play in the second game of the 24-to-12 match. When the enemy has a priest, there is almost no killing point in this style of play, it just creates damage.

But when the enemy does not have a priest, as long as you run fast enough, you can kill the opponent.

But the question is, with the warlock here, can they escape?

This is also the problem that Li Yuexishan is worried about. If they can avoid Ji Xuanyi's control skills, then this wave will be stable until Ji Xuanyi's CD is restored , but if they can't, it may be a direct gg .

Because the mobility of the two men lies in the knights' horses, whether they can dodge depends entirely on the knights' abilities. As the captain, the knight was sweating in his palms. Although he kept telling himself that the outcome of this game was not that important, nervousness was something that could not be controlled. In addition, he had not fully recovered yet, so the Knight's hands began to shake.

The priest looked at him, sighed softly, and said, " Captain, we have come this far, and the opponent is such a strong enemy . Even if we lose, it is not a loss. "

Ji Xuanyi and his team ranked fourth, and were a strong contender for the first place in this competition. The third place was eliminated when the twelve were reduced to six, which of course was not a good thing to hear, but since they were their opponents, others would only say that there was nothing they could do about it. No one would think that it was because they were too bad or made mistakes in their performance.

The knight looked at him, smiled helplessly, and said, " You're right. It's not easy to make it this far. Losing to them is better than losing to those who have no reputation at all. But we still feel unwilling to accept it. We have tried so hard ..."

The pastor said: " There is nothing we can do about it. "

The knight nodded and said, " There's nothing we can do about it. "

" I wonder if we would have had a chance of winning if it were our heyday? " The moment the countdown ended, the Knight couldn't help but say: " Maybe we'll have to wait until the next game to know the result. "

The barrier between the two teams collapsed amidst their shouts. The knight carrying the priest took the lead and rushed towards Ji Xuanyi and his men, roaring. Qi Qin stepped forward and met the knight's horse hooves with his heavy sword. Ji Xuanyi looked at them calmly, and when the knight raised his hooves and there was no escape, he raised his staff. At the same time, the priest on the knight's horse also moved!

" What does he want to do?! " There were exclamations of varying degrees in the audience.

Although the knight's horse can carry people and the knight himself can continue to use skills while carrying people, other professions do not have an immediate output setting. In other words, when other professions get on the knight's horse and gain mobility that does not belong to them, they will correspondingly lose the ability to use skills. They can only use their skills again after dismounting.

Why did the priest suddenly move? He couldn't use his skills at this time!

Then, everyone noticed that the priest didn't even raise his staff, and he didn't seem to be using any skills. Did he want to dismount early to prepare for the response?

Amidst everyone's various speculations, Ji Xuanyi's brows were deeply furrowed.

He understood what the priest wanted to do, but the skill was already ready on his staff and there was no chance to change it!

Amid everyone's speculation, the priest half-curled his legs from his horse, opened his arms with all his might, and pounced towards Ji Xuanyi, directly blocking the knight in Ji Xuanyi's attack path, and used his own body to replace the knight to receive the paralysis skill!

No one expected the plot to develop like this, and everyone was stunned! The audience was strangely quiet for a moment, and then there was a burst of screams, and everyone had goose bumps!

This is how the game is played! Of course this is how the game is played!

Isn't this what teammates mean by watching out for each other?

I don't know how the audience reacted, but the knight who escaped from Ji Xuanyi's hands looked at his companions protecting him. Even though it was just a game, his eyes also felt sore. Without saying a word, he shook off Qi Qin, grabbed the hand of the stiff and immobile priest, pulled him back onto his horse, let the other party lean on his back, and launched an attack on Qi Qin again!

This is a war of attrition. As long as they don't lose manpower and slowly wear down Qi Qin's blood, they still have hope of victory!

When everyone suddenly realized something, Ji Xuanyi was secretly cursing himself for being careless.

In fact, he had experienced this kind of situation of blocking skills for teammates once during the auditions, when he fought against Xie Feng Shu Yu and the others. However, the action of blocking skills in that battle was not a decisive factor, so he did not take it seriously. He did not expect to make the same mistake again this time.

But we are all human, and it is not realistic to say that we never make mistakes. Ji Xuanyi's mistake is actually not a mistake at all.

After pulling back the priest, the knight attacked Qi Qin again. Although Qi Qin did not suffer much damage with his skills, he instead lost a lot of blood from the knight. However, if Ji Xuanyi's paralysis was blocked every time, Qi Qin's blood would be depleted so slowly.

Everyone thought that Li Yueishan was going to lose. If Ji Xuanyi and his team failed under this circumstance, all their previous performances would have been wasted and they would have become stepping stones for the opponent.

This wave of fighters was basically useless. In order to allow Qi Qin to survive a little longer, Ji Xuan used all his skills, then changed to a safer position, frowned and watched the fight between the two sides calmly.

After a while, the knight's health dropped by 50%, while Qi Qin's health was still 90%.

Because he had not fought Qi Qin head-on in the previous game, the knight couldn't help but sigh in his heart at how difficult the opponent was, but now it was time to retreat.

The knight raised his horse's hoof, left Qi Qin, turned around and ran away.

Qi Qin subconsciously wanted to chase after him, but was stopped by Ji Xuanyi.

As a swordsman, Qi Qin is definitely unable to catch up with the opponent. At most, he can hit the opponent twice more, but there is no point in that. This battle will definitely result in a kill , and the damage that can be healed is meaningless. Instead of wasting energy and skills to chase the opponent, it is better to adjust on the spot.

Hearing Ji Xuanyi's shout, Qi Qin stopped, frowned, and watched the two opponents run away . When they were at a distance where they could react, the knight put down the priest who had recovered his ability to move on his horse, and in a few moves he restored the blood that Qi Qin had worked so hard to lose.

Qi Qin: "..."

So angry!

When Ji Xuan saw that the other person's expression was really ugly, he used his healing skills to soothe him.

To be honest, if it weren't for the skill special effects, Qi Qin wouldn't have noticed that the other party was healing him.

Of course, it's not like he's tired of living and wants to die. It's impossible for him to say such words. Qi Qin smiled at Ji Xuan and faced the two enemies again.

The two men from Li Yuexishan also readjusted their formation and rushed up again.

Next, Ji Xuanyi saw how difficult this priest was. He was counting the CD of Ji Xuanyi's skills in his mind and rushing forward. Even if Ji Xuanyi made a fake move, once this guy determined that Ji Xuanyi had a skill in hand, he would protect his own DPS desperately . Once, Qi Qin was pushed into a corner. When the opponent rushed up to block Ji Xuanyi's skill, he simply ignored the knight and kicked the priest, knocking the man away. Even so, the priest crawled back tenaciously, held on to Ji Xuanyi, and refused to give way.

Ji Xuanyi: "..."

It's fucked up too.

In fact, the knight was no match for Qi Qin. In a one-on-one fight, Qi Qin could defeat him with just one hand. However, the two men from Li Yuexishan attacked and ran away, and after repeating this several times, they actually reduced Qi Qin's health to 50%, and they saw the dawn of victory.

Everyone in the audience cried out in surprise. No one had expected that the other party would be able to see hope again when they had made their last throw of the dice and were even close to giving up!

The two people from Li Yue Xi Shan were also like this. They were filled with hope and their eyes lit up. As long as they maintained the current rhythm, Ji Xuan Yi would not be able to do anything to them. If they continued like this, victory was only a matter of time. If they could not think of a way to deal with this routine in the next game, they could even advance again! !

With full of hope, the knight rushed towards Qi Qin again, while the priest was on horseback, observing Ji Xuanyi's movements.

Although according to the CD , Ji Xuanyi should still be a while away from being paralyzed, he still needs to try hard to keep a close eye on the opponent.

Ji Xuanyi seemed to understand what he was thinking and glanced at him indifferently.

This warlock has a really good mentality, no wonder he is so strong, the priest thought silently in his heart, his teammate's health has dropped by 50%, he has no way to deal with it, even his special moves have been cracked by him time and time again, but he is not nervous at all?

Just as the knight and Qi Qin were fighting, Ji Xuanyi raised his staff again and made a move to control the person.

This is a fake move, the priest immediately thought in his mind. Ji Xuanyi had done this move many times before to deceive him. Now Ji Xuanyi's paralysis CD has not yet expired, so it is absolutely impossible for him to control his teammates.

Thinking of this, the pastor sat on his horse without moving, just looking at Ji Xuanyi, and Ji Xuanyi was also looking at him.

At the moment the skill flew out of the front end of the staff, Ji Xuanyi suddenly smiled at him. The priest was stunned, and immediately realized something was wrong! Something was wrong! This skill—

Because the knight trusted his teammates, he did not make any evasive moves and was hit hard. He was instantly fixed in place and could not move!

This is not a fake move! Ji Xuanyi's skill CD is ready! How could it be? !

These thoughts flashed through the pastor's mind for a moment, but at the moment, the answers to these questions were meaningless!

The priest immediately jumped off the horse, which had stopped following his master's movements, and wanted to start healing his teammates.

The knight, who had no ability to resist at all, was as fragile as a piece of paper in front of Qi Qin. If he couldn't be protected at this time, the game would be over!

Of course the priest understood that his healing amount would be wasted by half by Ji Xuanyi's healing reduction, but it didn't matter. Before going on the field, he had changed all of his equipment attributes to healing. Even if it was cut in half, he was confident that he could let his teammates hold on until the paralysis time was over!

Just as these thoughts flashed through the priest's mind, and he had even pointed his staff at his teammates, he suddenly felt something was wrong with him.

It's as if my body is no longer under my control!

Just as he thought of this, the priest found that his staff had changed direction and was now aimed at the enemy swordsman, and even started healing!

This is not right! Seeing Qi Qin's health starting to recover, the priest screamed in his heart that enemies cannot heal each other!

" I discovered that the hidden profession of Warlock still has certain advantages. "

Ji Xuanyi's voice suddenly rang in his ears, and the pastor was surprised to find that his sight had passively shifted. He saw Ji Xuanyi not far away , and the other party was also looking at him. To be precise, all of Ji Xuanyi's movements were exactly the same as his!

" For example, most people don't know enough about the warlock's skills, or even if they do, they haven't developed the habit of being on guard. Even when I pretend that I only have a paralysis skill, you will be easily fooled. "

Ji Xuanyi spoke slowly as he healed Qi Qin to full health, nodded with satisfaction, and turned the priest's gaze again. As a joke, he controlled the other party to face his own body, and then asked the other party to heal his full health.

The whole audience was in an uproar!

The priest's heart was filled with despair, and he and all the players in the audience and waiting area silently recited the warlock's other two decisive skill effects at the same time.

CD speed up, and puppet control!

How could he forget this!

CD time of the enemy , the warlock's CD -related skills can also reduce his own CD time. His so-called CD memory is useless. The opponent can control the CD of his own skills at any time and use them among the mess of skills. He has no way to deal with them at all. The previous actions were just to let them let down their guard and make them more easily fooled! And now he finally understood why the other party remained calm and his expression remained unchanged even after his teammate's health dropped by 50%.

I don't worry about the treatment at all, because you brought your own nurse! The so-called enemy 's nurse is your own nurse, he is not afraid at all!

Everyone in the audience suddenly realized what was going on. Damn! Because there were too few warlocks and most of them were too weak, they knew that the other party had such a skill, but they had never been prepared. The other party also deliberately did not use it. This was too well hidden!

Except for Potian's team, which had a warlock among their teammates, other teams all showed vigilant expressions.

They really forgot about this matter. After all, the warlock profession is too hidden. Fortunately, Ji Xuanyi used this skill in this game, otherwise they would have been caught off guard and would have been hit!

Ji Xuanyi was also quite helpless. He was planning to use this trump card in the later stage. However, the reason why the third place was third was that, besides being very hardworking, his own strength was also very strong. He was actually forced to use even his big skills. The opponent still had certain strength.

After Ji Xuanyi used the priest's skills to attack himself several times, he was finally willing to get down to business. Controlling the priest's body, the two of them staggered out of the field. The priest was struggling and shouting in his heart, wanting to go back to support his teammates, but the game was set up so that there was no such thing as a strong enough mentality to break free in advance. No matter how much he shouted, he could not turn back, and could not even see his teammates being beaten.

Until the control was released, the priest immediately turned around and ran madly towards the knight, but as a short-legged person, the distance was so long , Qi Qin's damage was so fierce, and his teammates were so fragile, he really had no way out and could only watch his teammates fall under Qi Qin's sword.

Ji Xuanyi said calmly from behind: " Do you want to admit defeat? "

For a moment, the pastor even wanted to refuse to admit defeat in grief and anger, but when he looked up, he saw Qi Qin, whose face still had a murderous look ...

After all, he is just a priest. All his teammates are dead. If he doesn't admit defeat, he will only be beaten. And it's a doubles match.

The pastor thought sadly, raised his hands and said, " I give up. "

After receiving the signal, he shouted: " Blue team surrenders, Red team wins—— "

A tide of cheers immediately resounded throughout the entire venue, but unfortunately Ji Xuanyi and Qi Qin could not hear it. The two of them turned around step by step, walked back to the resurrection point, and returned to the waiting area through the passage.

This time, the vigilance in everyone's eyes when they looked at them was even stronger. No one dared to underestimate them. No one would doubt that this team would be a strong contender for the top spot, and anyone who became their opponent would have to be extremely careful!

Chapter 213

Two contestants from Li Yue Xi Shan walked out of the passage side by side.

After all, this was a game they had played with all their might . After finally seeing hope, they were faced with despair again. Everyone thought they would be frustrated and sad , and might even burst into tears. However, unlike what they had imagined, the expressions on the two people's faces could even be said to be relaxed.

Trying their best to pursue victory and advancement already made them exhausted , but being eliminated, and being eliminated by such a strong opponent , actually made both of them feel relieved.

The swordsman, who had not experienced the last match, still had a heavy expression on his face, but the knight and the priest went over to comfort him, and finally the three of them came to Ji Xuanyi and Qi Qin together.

The knight captain took a step forward and looked at Ji Xuanyi with a smile on his face.

Ji Xuanyi also smiled back.

The knight captain said seriously: " You are very strong. We lost with all our heart . We hope you can continue to win. "

At this point , he smiled and said, " So that others won't think we are so incompetent. "

Ji Xuanyi also laughed and said, " Don't worry. "

The knight captain asked: Will " you participate in the 3v3 or 5v5 game later? "

Ji Xuanyi shook his head and said, " I don't have any teammates , and multiplayer matches are too chaotic. They're not my cup of tea , so I probably won't participate. "

The Knight Captain showed a somewhat regretful expression and said, " Then we'll have to meet again in the next 2v2 match. "

Ji Xuanyi smiled without comment.

The knight captain nodded, turned around and left through the exit with his teammates.

Players eliminated in the battle can choose to stay in the waiting area to watch today's game , or leave midway, and neither decision will be blocked.

But once they fail, the comparison with those qualified players will always be uncomfortable.

Almost all eliminated players will choose to leave on their own to save some face.

After watching Li Yuexishan's team leave, Ji Xuanyi and Qi Qin returned to their seats, facing inquiring gazes from all directions, waiting for the start of the next game.

The fourth round is the last game of the day. After two more games tomorrow morning, the draw for the top six will be held in the afternoon.

The teams in the fourth round were the second and twenty-first place. There was basically no suspense. The former was in high spirits, while the latter had a hard time escaping. After one round of competition, the three players in the twenty-first place were even walking unsteadily. Ji

Xuanyi estimated that they might develop a psychological trauma towards the profession of knight.

After the battle, the staff gave some routine words to encourage everyone, and then dispersed. Ji Xuanyi and the other two walked out with Mi Yin and the others. The old western doctor glanced at Ji Xuanyi and the others and couldn't help but say, " Your game today was quite awesome, brother. I won't say anything more. Mi Yin was having a hard time watching it. How are you going to write the review post for the forum tonight? "

After that, the old western doctor said: " I think why don't you two post a thread yourself, so that people who don't understand it at all won't talk nonsense, and you can also give us novices some popular science knowledge, how great! "

When writing a review post, one must analyze the exciting match points, but it is still a bit embarrassing to always praise oneself, not to mention that now everyone has mixed opinions about the name Mu Xuanyi, and who knows what kind of trouble Ji Xuanyi will get into if he posts himself.

Ji Xuanyi thought about it and refused, saying, " It's too much trouble. I don't have the time. " The old western doctor showed a regretful expression. If the original owner refused, he could only try to get an authoritative figure in the PVP world like Mi Yin to post the message.

Who knew that as soon as the old western doctor turned his eyes away, he found that Mi Yin's expression was not good ...

Was he planning to reject me? The old western doctor was worried. Just as he was about to speak, he heard Mi Yin say in a very complicated voice: " I was careless ..."

Everyone was stunned, not understanding what he meant.

Mi Yin slowly looked at Ji Xuanyi and said, " I forgot to remind Li Yuexishan and the others. " Everyone: "..... ??? "

That very night, Ji Xuanyi finally understood what Mi Yin meant!

"Without reviewing the game, just talking about the friendship between Li Yuexishan and his teammates!"

"Defeated but still honorable, this kind of brotherhood, I'm a fan!"

"Hush up, don't you think the atmosphere among the Liyuexishan team members is weird?"

"No matter what, the priest and the knight are a perfect match, okay!"

Below these messy posts are straight male players denouncing this sinister world.

Ji Xuanyi: "..."

So this is what Mi Yin meant ... That's right, Mi Yin is an experienced person after all, and she is very familiar with this situation.

But then again, even though he was criticized, he also gained a lot of fans and became well-known. Compared with those players who were eliminated quietly, Li Yuexishan's situation is much better. You know, although Mi Yin and Xue Piao Renjian are strong, the influence of combat effectiveness in online games is not known to everyone without world-class competitions. The reason why people recognize them wherever they go is thanks to the publicity of fans in the beginning.

Although Mi Yin and Xue Piao Renjian probably don't care much about the title ...

However, the forum homepage is not full of nonsense posts. The two battles between Ji Xuanyi and his team were still very exciting. There are endless analysis posts, and apart from the forced explanations, there are some that have touched upon some of the tricks.

Many people said that live broadcast alone was not enough. Everything happened in a flash, and the contestants had no time to react. How could they see everything clearly? Almost everyone strongly requested that the official video of the game be released so that everyone can study the tricks of the big guys.

There has been no official response yet, but I think this request will be met.

In addition to the serious analysis posts, there are also a few Ji Xuanyi's fans' posts on the homepage praising Ji Xuanyi to the skies, even short of saying that he can tear apart all DPS with his warlock body .

This kind of post is full of smoke and fog, with haters fighting each other. Ji Xuan was quite happy to see those nonsense boasts, and said modestly: " It's an exaggeration to say that I can tear all the DPS apart by hand. "

Qi Qin: "..."

As long as Xuanyi is happy, that's good.

In the match on the second morning, there was no team that Ji Xuanyi paid special attention to, and the match was played quite normally without too many twists and turns. However, the blood line went up and down several times, which still made the audience very happy. In the end, the twelfth place in server one and the thirteenth place in server eight advanced.

The two teams fought hard to get to this round and had no time to rest. In the afternoon, they once again faced the exciting draw session.

Now, apart from the first seeded team, there are only six teams left, or three groups, which is not even enough to arrange a full day of competition.

Most players thought that the official would change the best-of-three format to best-of-five in this round of games. After all, they have come this far, so they should at least give more chances, right?

But the authorities are much more ruthless than players imagined. 2v2 is only one of the three competition systems in this tournament. Not to mention the top six, even in the semi-finals and finals, there is only a chance of best of three.

Many players regret that they cannot see more of their favorite team, but if they think about it, after the 2v2 game, there are still 3v3 and 5v5 games , and their favorite players will most likely still participate, so they feel a little comforted.

Every time the draw is held, the number of people gets smaller and smaller, and this time is no exception. However, except for two teams ranked outside the top ten, there is no sign of nervousness on the faces of other people.

The captain of the second place kept looking coldly in the direction of Mi Yin and the others. It seemed that he had heard what Mi Yin had said before from the team members. Mi Yin smiled at him embarrassedly, but the other party did not seem to appreciate it. It looked like he really wanted to get the same lot as Mi Yin and the others in this draw and kick them out completely. There are only six teams and three groups left now, so the probability of them meeting each other is quite high.

Mi Yin was not afraid of this. After he apologized again and again, the other party did not appreciate it. He had no choice but to sigh and stop making eye contact with the other party. Ji Xuanyi didn't really want to meet Mi Yin and the others in this round. He had to get into the semi-finals first. Apart from this, he basically had no other requirements for this draw.

After a while, the staff announced that the draw could begin. Layers of indistinct comments began to appear on the big screen. Most of the comments were praying that their favorite team would draw weaker opponents and advance to the top four.

The 10th and 23rd place players were heartbroken when they saw their team's names being swiped wildly on the barrage.

This is too much! What do you mean by a weaker team?! They are experts who can sweep a server in the game, but they are just lucky and have teamed up with experts who are better than them. When they are done, all of you barrage heroes will come out and get beaten ...

As soon as the staff announced the start of the draw, the captain of the second place team walked onto the stage aggressively, grabbed a number two ball at random, and showed the number directly in the direction of Mi Yin and the others.

The atmosphere is so tense ... Ji Xuanyi can even imagine the excitement of the players who are watching the live broadcast.

After the second captain came down, he stared straight at Mi Yin, his eyes full of urging and provocation.

The others who had not yet drawn lots followed him and looked at Mi Yin. It was obvious that they would not go up before Mi Yin went on stage.

Ji Xuan saw that Mi Yin looked a little embarrassed. Anyway, he was not afraid of offending people, so he was about to come out to break the deadlock, but he saw Mi Yin shook her head at him helplessly and said, " I'll go first. "

Ji Xuanyi didn't care and made a " please " gesture to him. Just with this one action, the cult fans of Mu Mimimu appeared in the barrage again, leaving everyone speechless.

Mi Yin glanced at the direction of the second-place team, then reluctantly went on stage and drew a lot.

Their idea was the same as Ji Xuanyi's. As long as they didn't face Ji Xuanyi and the others in this round, Mi Yin really didn't care whether they would meet the second place now.

But things in this world are not always so coincidental. After Mi Yin opened her hand, she found that she did not draw another number 2 ball, but number 3.

The captain of the second place team immediately frowned, looking very dissatisfied with the result, but he didn't say anything. Firstly, there was nothing to say. After all, Mi Yin and the others' rank and popularity were there. If they said too many provocative words, it would only make them look worse. Secondly, the lottery was random in nature. Whether you got it or not was all fate. At worst, you could just play again in the next round. The winner would eventually be determined.

The next person to draw lots was the twelfth person. The captain of this team didn't look very happy and kept muttering something under his breath.

Ball No. 2 and Ball No. 3 are both in the hands of two strong opponents. If he wants to advance more steadily , he can only draw Ball No. 1. In this way, he will have a chance to meet the

thirteenth team with similar strength to them, instead of being beaten by the big guys – although even if he is lucky enough to draw Ball No. 1, he still has to see if the thirteenth team is lucky enough to avoid the other two teams.

The captain reached his hand into the box, muttered something for a long time, then his face became serious and he quickly pulled his hand, which was holding a ball, out of the box.

I don't know if it was because the words "The supernatural cannot save the innocent, and money cannot change fate" that started to appear on the barrage after seeing his actions took effect, but the moment the captain spread out his hands, he became dejected.

Ball number two, he drew the second team in this game – that was a strong opponent whose points were second only to the seeded team. The aggressive movements of the two knights chasing them were still in his mind!

The team ranked twelfth walked down with sad faces, and the team member ranked thirteenth didn't look much better either.

The twelfth place has been arranged, which means that there is no possibility for them to draw the opponent. Although the second place has been selected, they will have to choose an opponent from Ji Xuanyi, Mi Yin, and that team of archers whose configuration is weird but very showy!

Can you choose to die?

Life is so hard!

Just when the thirteenth captain gave up on himself, abandoned the drawing and escaped from reality, the sixth archer captain who had shot down the east wind with one arrow walked up lightly.

Now the second place has an opponent, so it can be said that the chance of encountering a strong enemy is reduced, but one of the only two soft persimmons is gone. It is hard to say whether drawing lots now is good or bad.

But looking at the archer's expression, you can tell that he doesn't care much about this. This non-mainstream team also has great confidence in their abilities, which is normal. After all, their previous games were indeed eye-opening and amazing.

The archer reached into the box, pulled out a number one ball, showed it to everyone, and jumped down.

This made Ji Xuanyi a little uneasy.

Ball No. 1 has fallen into the hands of the archer, which means that there are only two balls left in the box, one is ball No. 3 from Mi Yin's group, and the other is ball No. 1 from the archer's group. The probability of drawing either side is 50%. If you accidentally face Mi Yin and the others here, no matter which team is eliminated, it will be a loss!

Not only Ji Xuanyi and Mi Yin, but also Xiao Xiaoyu who were watching the live broadcast outside the venue were sweating.

Ji Xuanyi was originally waiting for someone else to draw ball number three, but he didn't expect the situation to turn out like this. Now he certainly can't give the initiative to others and expect to draw ball number 13 to be Mi Yin and the others.

Ji Xuanyi frowned, stepped onto the stage before the thirteenth person, and reached into the box.

No matter who chooses, the probability is actually the same, but Ji Xuanyi is always unwilling to put his fate in the hands of others.

Thinking this, Ji Xuanyi pulled his hand out. The moment he saw the numbers in the middle of the transparent crystal ball, he breathed a sigh of relief.

Number one ball, their next opponent is Yijianpo Dongfeng.

At the same time, the thirteenth place's expression also fell.

Now there is only one ball left in the box. Their opponents are two legendary figures, Mi Yin and Xue Piao Renjian – although the opponent of ball number one is not much better. For a moment, the players in ball number 1 couldn't tell whether they should be happy or sad.

Mi Yin also breathed a sigh of relief, but on the one hand they did not have to face Ji Xuanyi, but on the other hand, the enemies they had encountered along the way so far were not particularly strong, and the old Western doctor had not yet been fully trained, yet he had directly entered the top four. It felt like there would be some trouble in the later stages.

I wonder what those teams that were eliminated by Mi Yin and his team are thinking when they know that Mi Yin is actually somewhat disgusted with them for not being strong enough ...

Just like the stage of twelve to six, there was still a day of rest after the draw. While the players were discussing their advancement and even starting to predict the final winner, the official finally responded to the players' demands and edited out the video recordings of the matches starting from the twenty-four to twelve, without missing a single one, and posted them on the official website, which caused a sensation.

During the one-day break, the audience did not have time to rest. In addition to presenting flowers and voting, they watched the game videos frame by frame, trying to learn the strategies of the big guys.

Although everyone later discovered that the tricks of the big guys seemed to be mostly used by the big guys, and it was useless for them to dig them out, everyone still enjoyed it, and even spontaneously formed study groups. Some people also discussed whether it was possible to make props such as microphones and speakers in a game with a Western fantasy background. The official did not provide an explanation, so they organized it themselves.

In order to protect the privacy of the participating players, the faces of all the players were blurred. However, the official was also considerate enough to add the ID, team, health and debuff effects above each person's head. It looks a bit distracting, but if used as a teaching material for studying routines, it doesn't have much impact. However, some big shots in the fandom raised objections to the official, but they were ignored as expected.

During a break, Ji Xuanyi and Qi Qin went online to do their daily tasks. They discovered that some players were sparring with players from the enemy camp in groups of three or four at the front line of the daily PVP base. After discovering that some of the movements were very similar to his own, Ji Xuanyi was speechless.

However, this also shows from the side that this arena competition has a huge impact on the players, and the entire game atmosphere may change as a result.

The game time on the second day was slightly changed. Since there were only three rounds of matches, the competition system was divided into three time periods: morning, noon and evening. Ji Xuanyi and Qi Qin were lucky to draw ball No. 1, which was the morning match.

Both of them were in good spirits at this time. If they had drawn the evening match on the 3rd, Ji Xuanyi really couldn't predict whether Qi Qin would fall asleep on the court during the game. The waiting area originally had 72 seats for 24 teams, but now there are only 18 left. It looks very empty.

But the competition is so cruel. Except for the old Western doctor who felt a little awkward, the other players present were more or less mentally prepared. Mi Yin and Xue Piao Renjian had already gotten used to it and there was not much expression on their faces.

After the routine opening introduction, the staff invited the two teams for the first game to come on stage to register their appearance configurations.

When Ji Xuanyi and Qi Qin walked over, they ran into the three people who had shot the east wind with one arrow. The leader, the archer, smiled at Ji Xuanyi and said, " Although we have been fighting against teams with relatively high rankings along the way, in terms of strength, you two should be the strongest opponents we have encountered so far. "

Ji Xuanyi looked him over and said seriously without any flattery, " You are the same. "

The masters who come out of this weird configuration are definitely not easy to deal with. A team like the third place may not even be their match.

After Ji Xuanyi said this, the archer who was standing further back in Yijianpodongfeng laughed, revealing his two fangs. He looked very cute, completely different from the fierce archer when he was shooting arrows at others.

Ji Xuanyi recognized him.

You know, in the first round of the game, this little tiger-toothed man with an extremely cute smile did not hesitate to attack his teammate – now Ji Xuanyi knew that, that person was his captain – directly!

" You are really interesting, " he looked at Ji Xuanyi with sparkling eyes and said, " I have heard of your name, Mu Xuanyi. To be honest, I really like you. I am very happy to be your opponent this time! "

Hearing this, Ji Xuanyi's first reaction was not to thank him, but to immediately turn around and look at Qi Qin. Sure enough, this guy's face had gloomy and he was looking at the little tiger tooth with hostility .

Looking closely, the other person is really quite cute! Qi Qin thought about it, and a strong sense of crisis rose in his heart.

Ji Xuanyi nudged him helplessly with his elbow, turned to the little tiger-toothed girl and said, " I have a boyfriend. "

This sentence was so sudden that Little Tiger Teeth was stunned and didn't react. He responded blankly at first, and then showed a puzzled expression.

No, why tell Ji Xuanyi that he has a boyfriend? Is being gay so worth showing off now?

In any case, it was rare that the atmosphere between the two teams was so good. Everyone had a friendly exchange with each other and started selecting players.

Ji Xuanyi and the captain of Yijianpo Dongfeng went up to the stage to choose their configuration . Little Tiger Teeth shouted from below the stage: " Ji Xuanyi, your teammate is a swordsman and can't be saved . If you want to beat us, you'd better let your brother play! " Under normal circumstances, Xiao Huya's suggestion is not wrong at all . If you want to play a turret configuration with two archers or an archer and a mage, it is very difficult to bring a swordsman . For the configuration of Ji Xuanyi and his team, the combination with the least pressure is definitely the stabbing combination of Ji Xuanyi and Ji Xuanling.

The captain of the Arrow Breaking the East Wind glared at Xiao Hu Ya, who showed an indifferent expression. Thinking about how Xiao Hu Ya did not hesitate when he shot his captain with an explosive arrow before , it can be known that he is not afraid of the other party at all. The archer captain probably knew that his prestige with Xiao Huya was not high , so he had to retract his gaze and smiled at Ji Xuanyi.

Ji Xuanyi also nodded at him , then smiled at Xiaohuya and said, " Thank you for the reminder , but it's not necessary. "

Of course he would not fight Ji Xuanling 22, but after what Xiao Huya said, it would be a bit strange to abandon the configuration of warlock and assassin and replace it with not so good assassin and swordsman . Ji Xuanyi calmly filled in his name and Qi Qin's ID on the form. Everyone was stunned when they saw it, and many had strange expressions.

Judging from the previous matches, Ji Xuanyi doesn't seem like a conservative person . He wouldn't do something like deliberately giving up a better combination just to avoid information revealed by the enemy, right?

But if this wasn't the reason, what on earth was Ji Xuanyi thinking? Choosing a swordsman and a warlock over two archers was too stubborn!

Although the warlock is a powerful profession and his arms are long enough, it is certainly not impossible for Ji Xuanyi to control the archers with his level. But the problem is that even if Ji Xuanyi really catches the arrow and breaks Dongfeng and the others, Qi Qin will not be able to keep up with the output rhythm.

Facing two archers, because the opponent controls the distance between Qi Qin and Ji Xuanyi, when Ji Xuanyi freezes the person, the most likely positioning must be the archer in front and Ji Xuanyi behind, and Qi Qin is even behind Ji Xuanyi. At this time, if Qi Qin goes forward to attack, not to mention forcing the archer to move, his only displacement skill, heavy slash, is still on CD . Even if it is, how many seconds can he attack if he goes forward?

Even though all archers are fragile, five to eight seconds is definitely not enough for Qi Qin with this equipment to kill any one of them, not to mention that there is another person around to harass Qi Qin or Ji Xuanyi.

At this time, the output is not enough and there is no way to keep up with the subsequent kills . After the opponent escapes, it is not easy to catch him for the second time. Even if you can catch him, it will take a long time for the CD to have the opportunity to cooperate with the second skill.

At the same time, Yijianpodongfeng certainly couldn't just sit idle and do nothing but move around. Everyone had seen the output capabilities of these two people, and even the priest

couldn't heal them. As a warlock, it was basically impossible for Ji Xuanyi to protect himself and Qi Qin from them for so long. It would be a humiliation to use up that little bit of healing. Just like Xiaohuya said, under normal circumstances, when a warlock fights against a swordsman and two archers, the winning rate is infinitely close to zero. If the configuration is changed to a warlock and an assassin, there is actually some possibility of winning. Seeing Ji Xuanyi's choice, Little Tiger Teeth said in disappointment: " Oh, why did you choose like that? You're going to lose. There's no sense of accomplishment in being a swordsman. It's so boring. "

Ji Xuanyi could see what was in the other person's eyes. Xiao Huya also thought that Ji Xuanyi was the kind of guy who had some inexplicable middle school syndrome thinking, and his expression looked a little wrong.

Ji Xuanyi didn't say anything, and said calmly: " This is my boyfriend. "

Everyone: "..."

After a strange silence, Qi Qin covered his face shyly.

After a long while, the deathly silence was broken by the sound of whispers from people who suddenly realized something. However, the atmosphere on the scene was still very strange. Everyone's attention was jumping back and forth between " Ji Xuanyi just announced that he is a gay?! " and " Ji Xuanyi actually announced his relationship with his teammate! " Everyone was stunned and confused.

It's easy to imagine what a crazy scene the barrage is like right now. There must be a lot of Ji Xuanyi's female fans who are heartbroken. Of course, there is another group of female fans who are also heartbroken, but they are probably feeling sorry for Ji Xuanling in the team.

Xiao Huya was also stunned for a moment. His first reaction was, " Why did Ji Xuanyi tell him this? " It was only then that he realized that Ji Xuanyi was answering his question.

He thought too much. Ji Xuanyi certainly wouldn't have such a stupid idea. He was just being stubborn because he wanted to go on stage with his boyfriend.

This reason doesn't seem to be a problem. If Ji Xuanyi wasn't aiming for the championship at all, but was just playing for entertainment, then this configuration wouldn't be considered stubborn. They were just showing off their affection.

Little Tiger Teeth was wondering, Ji Xuan glanced at him, smiled, and said: " Besides, we will win. "

This sentence made Little Tiger Teeth perk up all of a sudden. He looked at Ji Xuanyi with bright eyes and said, " Will you win by fighting with swords against double bows? "

Ji Xuan looked at him and nodded slowly.

Little Tiger Teeth immediately laughed, with a hint of provocation: " Wait and see. "

Ji Xuanyi raised his eyebrows.

The captain of Yijianpodongfeng originally wanted to test Ji Xuanyi and the others with his archery skills in the first match, but when Xiao Huya said this, he knew that if he didn't choose double bows, Xiao Huya would never let him go today. He had no choice but to change his plan and filled in his and Xiao Huya's ID on the form .

Xiao Huya's ID is Guan Qibo, and it is not known whether it is his real name or not. It sounds like he has some chivalrous qualities, which is somewhat inconsistent with his cute image of

Xiao Huya. It feels a bit weird to call him that. Ji Xuanyi discovered that they and the third place player who was eliminated by him in the last round are players from the same server, but judging from their current attitude, there seems to be no connection between the two teams. Without further ado, the two teams completed their registration and, after making sure there were no other issues, they each entered their respective passages and prepared to begin the game.

Unlike the other two matches where there was not much conflict, the two teams in this match were both teams that had outstanding performances in the early stages and received a lot of attention. Although some people said that it was a pity that one of the teams would be eliminated in the top six, it is undeniable that this match will be very exciting. Everyone was worried about their favorite team, and some spectators were in great pain and wished they could split themselves into two people to cheer for both teams at the same time .

Xiaoxiao Yuxia and Yun Zhongjian, who was eliminated in the first round, sat together, looking at the empty venue, their palms sweating.

" Can a swordsman and a warlock really fight against two archers? " Xiao Xiaoyu was too nervous and couldn't help asking: " How do we fight? Can anyone analyze it for me? "

Six days later, Xu Chu, Jing Yunhan, Yun Zhongjian, and Ye Linyu all looked at him quietly.

Xiaoxiao Rain: "..."

We are all a bunch of noobs, is there any point in asking such questions?

There is nothing I can do in the drizzling rain but look towards the gentle breeze.

He is a little bit stronger than him, so Qingfeng Bufu should know something, right?

Who knew that as soon as Xiaoxiao Yuxia's gaze came over, Qingfeng Bufu immediately looked at Ze Yu Shishui.

Zeyu is like water: =□=?

Ze Yu Shishui immediately turned around and looked at Ming Shao.

Ming Shao: " ??? "

Without saying a word, Ming Shao went to see Jian Xi's new wine next to him.

Sword washing new wine: "..."

Jian Xi Xin Jiu was speechless facing these pairs of curious eyes. Not to mention that Yu Gui and the others didn't come because they had something else to do, he would be too embarrassed to go see them even if they came! He could only bite the bullet and say, " From what I know, a swordsman shouldn't be able to beat an archer. Two archers against a swordsman and a warlock is basically a grandfather vs. grandson lineup. "

Everyone immediately showed disappointed expressions.

Xiao Xiao Yuxia sighed and said, " Jian Xi Xin Jiu is still unreliable. It would be better if I could have a private chat with Mi Yin and the others. "

Everyone nodded in agreement.

Sword Washing New Wine: " Meow meow meow? "

However, in fact, even Mi Yin in the waiting area was frowning.

The old western doctor asked worriedly, " Boss, what do you think of this configuration? Is it difficult to fight? "

Mi Yin was silent for a while, shook his head, and said: " It's hard to say. I can't think of how to fight, but Ji Xuanyi may have other ways. "

The old western doctor's face immediately wrinkled into a ball. Even Mi Yin said so. It can be imagined how serious the restraint relationship between the two professions of swordsman and archer is. Can Qi Qin really break the rule that swordsmen can't fight archers? How can Ji Xuanyi help him?

Mi Yin saw that the old western doctor was a little uneasy, so she comforted him, " Don't worry, since Ji Xuanyi chose this lineup, he must have his own ideas. He has never done anything that he is not sure of. "

This is true. Thinking about the expressions of Ji Xuanyi and the others before they entered the passage, they did not seem to be under much pressure. No matter what, they can only believe in the other party's strength now.

" If Ji Xuanyi and his team lose, at worst we can help them win it back, " the old western doctor also figured it out, and said seriously for once, " With our configuration, if we work hard, we should still be able to win, right? Right, big shot? "

The old Western doctor looked at Xue Piaoreanjian, who glanced at him and ignored him. During the countdown, the live camera switched to the scene behind the fences of both sides. The two archers on one side were checking their bows and arrows. Even though these were just game data and there was no possibility of any problems, they brought their offline habits up and looked very professional, causing the audience on the barrage to scream.

Ji Xuanyi and Qi Qin, on the other hand, gathered together for a rare occasion, discussing something in a low voice.

The matches between these two people so far have basically been completed relying on the tacit understanding between the two sides. This is the first time that they have discussed tactics in advance. It seems that this match is indeed difficult to win, and Ji Xuanyi and his team are also ready to take the initiative.

The preparation time is one minute. In the past, everyone felt that one minute was too short and there was no time to prepare anything, except to look at the equipment. But this time, the audience who couldn't wait to see the game felt that today's one minute was too long and they wished it would be over in the blink of an eye.

In fact, the flow of time did not change at all. At the moment the unbearable countdown ended, the fence collapsed amid the crazy cheers of the audience!

The teams on both sides responded immediately!

After discussing for a long time, Ji Xuanyi and Qi Qin, as expected, changed their previous slow style, ran out of the birth point quickly, and began to actively approach the opposite side with all their strength. On the opposite side, the combination of two archers took long steps and rushed towards Ji Xuanyi and his team at the fastest speed. It seemed that they did not want to waste more time, and a quick victory was the best.

The most basic tactic for archers in combat is kite flying. Control the distance between yourself and the enemy . When the enemy cannot reach you, use the difference in skill distance to attack the enemy . Then , when the enemy approaches, calculate your displacement skills and

damage reduction skills to avoid enemy damage and widen the distance between the two sides again while outputting at the same time.

A good archer can take almost no damage throughout the entire battle. Therefore, fighting with an archer is a very frustrating thing. If you have a bad temper, you may be directly knocked offline.

It is still unknown how Ji Xuanyi and the others will respond, but Guan Qibo's handling of their positioning is absolutely first-rate. They are in a position where Ji Xuanyi and Qi Qin absolutely cannot reach them, but they can reach each other while roaming, not one step more or less.

Then they used their top-notch archery skills and positioning to defeat Ji Xuanyi and his group who had rashly chosen the wrong configuration .

When Guan Qibo thought of this, he just put the arrow in his hand on the bowstring, and saw Ji Xuanyi and Qi Qin suddenly start running back.

What's happening?!

Not only Guan Qibo and his captain, but all the players watching the game were stunned.

In a battle with this configuration, Ji Xuanyi and Qi Qin should have chased the two archers to death. Why are they running back?

As we all know, increasing the distance only benefits Guan Qibo and his team, and Ji Xuanyi and his team will not be hurt, and they will definitely have to catch up after increasing the distance! Doing such a thing that harms themselves and benefits others, are these two people crazy? !

To be honest, as the profession with the longest hands in the game "Domain", this was the first time that Guan Qibo was left behind by others, except when he met the same profession on a narrow road. He subconsciously wanted to chase them, but was stopped by his captain.

" Wait a minute! " The captain frowned and said, " That Ji Xuanyi really likes this tactic of taking advantage of the opponent's inertial thinking. He was so active in running towards us before, but now he's retreating. That must be wrong. He must be trying to lure us in and then expose his flaws. Anyway, our attack range is longer, so keeping the distance will only benefit us. Don't worry. "

What the captain said was right. Ji Xuanyi and Qi Qin ran so far away that they would not be hurt unless they flew over. The only ones who would benefit from the distance would be them, not Ji Xuanyi and Qi Qin. Waiting is the best way to deal with it now.

Guan Qibo showed a surprised expression when he came to his senses. Ji Xuanyi was really cunning. This had become a consensus among the contestants who had not been eliminated yet. Now it was best to remain unchanged in the face of ever-changing circumstances.

The two men looked at each other and did not rush to chase Ji Xuanyi and the others. Instead, they walked back and continued to widen the distance between the two teams. No matter what Ji Xuanyi and the others wanted to do, if they couldn't reach it, they couldn't reach it. This was the most important thing.

However, the two teams were getting farther and farther away , and the players in the waiting area and the audience were confused, with all the barrages filled with question marks.

What are these two teams doing? They were pretty normal at the beginning, but why are they all running back to their own homes later? What are you trying to do? Are you going back to count down again?

Some players even couldn't help but complain: " If they run any further, they will be back to the passage of the birth point. Are they going back to the waiting area to compete? "

Guan Qibo and the others definitely couldn't hear such complaints. The two of them were still running back. Guan Qibo even imagined Ji Xuanyi's confused face when he found out that his plan was disrupted. He couldn't help but laugh, revealing two sharp little canine teeth.

At this moment, Guan Qibo's captain suddenly shouted: " Fuck!!! "

Guan Qibo was stunned and immediately turned around to see what happened. The smile on his face had not even disappeared yet, when in the next second, he saw Ji Xuanyi falling from the sky – he was actually flying over!

Imitation of Xie Feng and Shu Yu, who he met in the audition, Qi Qin swung his arms and threw Ji Xuanyi directly over!

This sudden burst of justice from the sky stunned Guan Qibo and his captain. It took them a second to realize that it was Ji Xuanyi who flew over alone. The swordsman did not follow him and was still running slowly towards them from behind. To be precise, this was not an air raid, but an airdrop!

Guan Qibo and the other man immediately stopped their steps to distance themselves from Ji Xuanyi, and instead put arrows on their bows and pulled the bowstrings, intending to kill this reckless sorcerer before Qi Qin arrived.

In fact, facing the attack launched by the enemy , fighting back is not the best way for archers, but the opponent is Ji Xuanyi, and it is hard to say what will happen next. As long as there is a chance to solve the opponent, even if it requires paying a certain price, it must not be let go. Moreover, they were already prepared for Ji Xuanyi's three deadly skills: paralysis, CD control, and puppetry.

the paralysis and control CDs act on one person at the same time, then before the swordsman arrives, the other person can directly burst out and deal a fatal blow to the warlock. Basically, after one set of attacks, Ji Xuanyi will be crippled if not dead.

If Ji Xuanyi used these two skills separately on two people, the control effect would be very limited. Although his life could be saved, the two archers could escape before Qi Qin arrived, and this surprise attack would be useless.

The only skill that requires a little attention is probably the warlock's ultimate skill, Puppetry. A stupid way to use the skill of Puppetry is to attack another person after controlling one person. You know, there is no such thing as a small account in "Domain". Ji Xuanyi cannot be so familiar with the archer's skills, and Guan Qibo and the other's archery skills are not fake. When Ji Xuanyi controls one of them to cause damage to the other, the other person can directly kill Ji Xuanyi's body which cannot move smoothly. At this time, not only Qi Qin did not come over, but Ji Xuanyi himself could not deal much damage.

The only thing that Guan Qibo and his captain were worried about was that Ji Xuanyi would not use their skills, but would control one of them and use his long legs to go towards Qi Qin. Although Qi Qin's hard power was suppressed a lot compared to Ji Xuanyi, everyone could more or less see that this person was really fierce. If they were sent to his side, it would be another matter whether they could escape.

In this situation, it is obviously not wise to send both of them to the door, so he can only make a drastic decision like in the previous game and give up the teammate who has reached Qi Qin. The one who is not controlled will directly kill Ji Xuanyi, and then play the kite flying game with Qi Qin.

No matter what, their chances of winning are very high.

After figuring this out, the two men were not so panicked when facing Ji Xuanyi's sudden attack, and they all aimed their arrows at Ji Xuanyi.

The next second after Ji Xuanyi entered the shooting range of the two people, the two people also entered the range of Ji Xuanyi's skills at the same time. Before Guan Qibo had time to release the bowstring in his hand, he lost control of his body in the next second!

Sure enough, it's puppetry!

Guan Qibo thought about it and immediately looked at his captain.

Given Ji Xuanyi's ability and familiarity with the arena, the possibility of him choosing the first option was slim, and he would most likely be taken with him to give Qi Qin a head.

Although this captain was a wimp and had used despicable means like rock-paper-scissors to snatch the captain's position, after spending such a long time together offline, Guan Qibo also believed in his opponent's abilities. Even if he died, the captain would definitely be able to kill Ji Xuanyi and then kill Qi Qin, thus bringing them victory.

At this moment of sacrificing oneself for the greater good, Guan Qibo even wanted to give his captain some words of encouragement if possible. He didn't know if the other party would be moved to tears. Unfortunately, after being charged, he couldn't even speak. He could only try his best to express himself to the captain with his eyes.

If everything developed as Guan Qibo imagined, the winner of this match would definitely be the one who shot an arrow through the east wind. After all, even for Qi Qin, as a swordsman, it would be too difficult for him to defeat an archer in a duel, not to mention that the distance between the two was so far , and the malice towards the short-legged man was too great.

However, the subsequent development of the matter was completely beyond the expectations of Guan Qibo and his captain!

Ji Xuanyi endured the damage from the arrow shot by the captain, and after controlling Guan Qibo, he smoothly pulled the bowstring and aimed the arrow at the captain.

The two archers were stunned at the same time. Did Ji Xuanyi actually want to control Guan Qibo to fight against another professional archer? ! He has been stubborn since the beginning of selecting the players!

Although Ji Xuanyi's movements suddenly became much smoother, the captain was certain that Ji Xuanyi could not play the archer profession very well. He immediately set his sights on Ji Xuanyi's real body. As long as they could kill Ji Xuanyi's real body before Qi Qin arrived , the game would be won perfectly!

Chapter 215

Warlock is known as a hidden profession . Most people can hardly remember their skills before they encounter an enemy of the warlock profession . Especially since there are so many

warlocks who are not very strong , even if they use powerful skills, they cannot get the expected benefits, so they are more likely to be ignored.

Originally, no one paid much attention to the two warlock players in this competition , until Ji Xuanyi appeared out of nowhere and the third-place team taught everyone a bloody lesson that this warlock was not easy to mess with. Everyone suddenly realized that although there were few people, the two warlock players in this competition were high-end players who could influence the outcome of the battle by themselves and should not be underestimated. As a result, they began to conduct targeted research on the warlock profession.

To understand a profession , in addition to paying attention to the advantages of its skills , the coping methods are also key . Like now , the captain of Yijianpo Dongfeng knows very well that the puppetry used by Ji Xuanyi , although very powerful, is only powerful when one opponent is restricted and his teammates can provide support. If he is alone and his teammates cannot get close , puppetry is actually a very stupid skill.

The most important point is that puppetry does not allow players to possess their opponents, but like a puppeteer holding strings, they need to use another player's body very subjectively.

Moreover, because the effect of this skill is too buggy , the setting also increases the sense of misalignment in controlling two bodies. This is the biggest factor that caused Ji Xuanyi to perform very uncoordinatedly when he used puppetry for the first time facing the third place.

In this case, most warlocks can only control their opponents to complete relatively simple actions, such as game skills that do not require players to control their bodies, or relatively simple displacements.

Actually, it doesn't matter. After all, there is no concept of a small account in this game. No warlock thinks that he can use his opponent's body so well. Puppetry is just a control skill rather than an attack skill for almost all warlocks.

The most dangerous negative impact of this setting is that the warlock who controls the enemy will also feel a sense of dislocation when controlling his own body.

In other words, a warlock who uses puppetry has almost no resistance. In most cases, they can only make the same movements as the player's body that the warlock is controlling, like a mirror image – just like it is difficult for a person to draw a circle with the left hand and a cross with the right hand at the same time, and controlling the enemy while making one's body make different movements is much more difficult than this, and is almost impossible.

The captain of Yijianpodongfeng also thought so after deeply studying the warlock's skills, so he did not pay too much attention to Ji Xuanyi's actions.

Even though the opponent's movements suddenly became much smoother, it was absolutely impossible to control Guan Qibo's body to do anything to change the situation. And Ji Xuanyi's real body in front of him had no possibility of escape, unless the swordsman on Ji Xuan's side flew directly from the sky like him in the next second.

But it is obvious that the swordsman profession only has one major displacement skill, which is a heavy slash, and there is no way to throw himself out, so it is obviously impossible for him to support Ji Xuanyi here.

The captain of the East Wind with One Arrow immediately gave up Guan Qibo who was facing him sideways and began to concentrate on attacking Ji Xuanyi in front of him.

However, it was not until the battle began that the captain, who had shot down the east wind with one arrow, suddenly realized that he seemed to have done something wrong.

His previous inferences about the Warlock profession all had a major premise – " Logically, it should be like this " , but in fact, Ji Xuanyi was really unreasonable ...

In order to win the battle quickly, the captain of Yijianpo Dongfeng directly used the Explosive Arrow with the highest damage on Ji Xuanyi's body. Although the CD of this skill is a bit long, thinking that after dealing with Ji Xuanyi, his only enemy will be a swordsman, even if he uses up all his skills now, there should not be too much pressure later.

However, as soon as his arrow was shot, Ji Xuanyi's real body in front of him immediately reacted. He threw himself forward and rolled hard, avoiding the powerful damage to the center of the arrow. He only suffered a little bit of the explosion's aftermath around it, and lost almost one-sixth of his blood.

This surprised the captain of Yijian Po Dongfeng. You know, even if he didn't use puppetry, it would be very difficult to dodge this arrow. What's more, Ji Xuanyi's control over his body was not as sensitive as before. Could it be that Ji Xuanyi didn't control Guan Qibo? He remembered that puppetry had a 50% chance of failure!

But then, when Ji Xuanyi got up, he was obviously staggering, and his almost unstable movement told him that the other party was indeed under the control of puppetry.

Isn't this a bit too much? Normal people shouldn't have such a strong control over their own bodies!

The captain who shot the arrow that broke the east wind didn't even have time to show his surprise. Another thing that happened at the same time almost horrified him!

A powerful explosive arrow shot out from his side and landed a few steps away from him – it was definitely not aimed at Ji Xuanyi, but at him!

And on this field, the second person who can use explosive arrows is Guan Qibo who is under the control of Ji Xuanyi beside him!

Ji Xuanyi actually controlled Guan Qibo to attack him while he was dodging. Even if it was a game skill that did not require much control ability, this was almost impossible!

Ji Xuanyi and Guan Qibo's actions appeared at the same time, not only the captain of Yijianpo Dongfeng was stunned, but also the players in the waiting area and the audience outside the venue were shocked.

What's going on?! What just happened?! Wasn't Ji Xuanyi controlling Guan Qibo? How come the two of them made different moves at the same time? Did the control fail?! But if the control failed, why would Guan Qibo attack his captain?! Is he addicted to killing his teammates ?!

Obviously, no matter how cruel Guan Qibo is, he would not do such a psychotic behavior. There is only one truth. The players who saw through this were all shocked. They couldn't imagine how Ji Xuanyi could do such a thing. Could it be that he has a dual personality?!

Schizophrenia?! At this time, he can send out his hidden personality to help control others?!

No matter what the reason is, Ji Xuanyi directly turned one person into two people. This is too unfair!

The captain of the "One Arrow Breaks the East Wind" team was as stunned as everyone else, because he knew clearly how difficult this task was. It was not even comparable to drawing a

circle with the left hand and a cross with the right hand. Apart from secretly suspecting that Guan Qibo was not under control at all, he was so shocked that he forgot about attacking Ji Xuanyi!

But he forgot the moves, but Ji Xuanyi would not forget. He controlled Guan Qibo's body again and launched attacks on his captain one after another.

However, even for Ji Xuanyi, it was too difficult to control two bodies at the same time. It was not easy to perform different actions, let alone attacking a person. In addition to using the skills, he also had to pull the bow and string himself. The arrows he shot were basically inaccurate, and there were even arrows that could not get out at all. They flew two or three meters and fell lightly to the ground.

But even so, Ji Xuanyi continued his actions without changing his expression, shooting randomly without considering whether the attack was effective.

Such an attack finally brought the captain of Yijianpodongfeng back to his senses. No matter how powerful Ji Xuanyi was, it was useless. His ultimate goal was to kill the opponent . He couldn't just stand there and let Ji Xuanyi die suddenly.

However, despite saying so, Ji Xuanyi's extraordinary control ability still made the battle situation tricky. The opponent's staggering movements were very timely. Not to mention that he could not resolve most of the attacks, but it did slow down his speed. What's more, his most powerful skill, Explosive Arrow, was on cooldown . On the other hand, Guan Qibo under Ji Xuanyi's control also caused him some obstacles.

Although attacks between teammates do not cause damage except for some specific skills, after Guan Qibo was controlled, his camp was automatically switched to Ji Xuanyi's side. Even ordinary arrows would cause him to lose blood if they hit him. What's more, Ji Xuanyi used skills from time to time. Although the accuracy was not so good, the number was there. Ji Xuanyi only had seven seconds in total and he did not need to save any skills. He had to use them all in a short period of time, so he had to move to avoid damage.

Ji Xuanyi's multitasking caused the captain of Yijianpodongfeng to be affected by the rhythm and was forced to multitask – not only had to try his best to attack Ji Xuanyi who was dodging flexibly, but also had to avoid damage from Guan Qibo. He was immediately in a state of panic. In this situation where you lose your own rhythm, the first key point in combat that will have problems is positioning. When you are fully focused on evasion and attacking at the same time, it is already very difficult to ensure that you do not intersect your skills . It is really too much to take positioning into consideration as well.

Naturally, the captain of Yijianpo Dongfeng also made the same mistake, and at this time, there were only two seconds left before Ji Xuanyi lost control of Guan Qibo.

The captain of the Yijianpodongfeng team certainly couldn't be so incompetent that he didn't even realize that he was in danger. The moment he stepped between the positions of Ji Xuanyi and Guan Qibo, he immediately realized that something was wrong.

Now, including Qi Qin, the positions of the four people on the field have become a straight line. In this straight line, the two people at the two ends are Qi Qin and Guan Qibo, while Ji Xuanyi is in the middle, and the captain is between Guan Qibo and Ji Xuanyi.

The captain of the team that shot the arrow through the east wind first discovered the mistake in his positioning, and then immediately realized another thing!

When Ji Xuanyi was controlling Guan Qibo to use his skills, he did not do it without reservation or calculation.

There was at least one of the archer's signature skills that he hadn't seen.

That's the Expelling Arrow!

This skill does not have much attack power, and its only effect is to repel the enemy , just like the positive and negative poles of the mage's ultimate skill, which increases the distance between oneself and the enemy . However, there are subtle differences between the two. For example, the mage's rebound effect is more inclined to escape, while the archer's expulsion arrow, in addition to increasing the distance, can also cooperate with teammates with short legs to repel the enemy to the teammates' side!

——Isn't that the fucking situation right now!

The captain who shot the arrow through the east wind immediately turned around and wanted to adjust his position. He didn't try to dodge. Even if he just adjusted the direction and made the line not so straight, it would be enough to make Ji Xuanyi's plan fail!

But Ji Xuanyi had been planning for so long, even revealing his trump card, how could he let him get away like this! Before the captain of One Arrow Breaking the East Wind made a move, Ji Xuanyi instantly focused all his attention on Guan Qibo's body, and with a completely different movement and posture from the previous random archery, he accurately pulled the bowstring towards the opponent.

The captain who shot the arrow that broke the east wind was also considered a semi-professional. Just by looking at Ji Xuanyi's expression and posture, one could tell that this arrow would definitely not deviate!

It's so terrible!!!

At this time, Ji Xuanyi's body, because he was not deliberately controlling it, also made the same bow-drawing posture as Guan Qibo's body. It looked like two people, one in front and one behind, sandwiched the captain of Yi Arrow Po Dongfeng in the middle, and shot an unavoidable arrow at him at the same time.

This weird, yet handsome scene made all Ji Xuanyi's fans scream. At this moment, Guan Qibo's hand suddenly loosened under Ji Xuanyi's control, and the expulsion arrow shot out instantly, hitting the captain who had just made a move! Under the effect of the skill, the latter was knocked out without any resistance, and passed by Ji Xuanyi who just stepped aside. After rolling twice on the ground, he fell directly in front of Qi Qin!

The atmosphere on the field suddenly became quiet.

The next second, the captain of the East Wind Shooter raised his head and glanced cautiously at Qi Qin above his head: "..."

Qi Qin lowered his head, raised his sword, and gave him a friendly smile.

The scene is horrific.

At the same time, Ji Xuanyi quickly activated Guan Qibo's accelerated run and brought the latter towards Qi Qin.

At first, Guan Qibo and the others thought that Ji Xuanyi's choice was too stupid, and it would be better to take Guan Qibo alone. Five seconds later, Ji Xuanyi packed them both up and brought them to Qi Qin.

Things in this world are so unpredictable, and slapping in the face comes too quickly ...

But the two men from Yijianpodongfeng were certainly not fools. They had no power to fight back when they fell into Qi Qin's hands. After being beaten by Qi Qin, the captain of Yijianpodongfeng still struggled to put some distance between himself and the opponent.

However, before he could compose himself, Ji Xuanyi brought Guan Qibo in front of Qi Qin. His timing was just right. When Qi Qin just reached Guan Qibo, the puppet technique just ended. Before Guan Qibo could react and move, he was beaten up.

Just when the captain of the team that scored a goal with one arrow breaking the east wind had not made up his mind whether to run away first or save Guan Qibo, Ji Xuanyi had already easily given him a freeze, paralyzing him on the spot.

At this time, Guan Qibo slipped away from Qi Qin again. Qi Qin lost his target and immediately took a few steps to the captain and beat him up again.

Guan Qibo is not the captain. The other party would hesitate about whether to save him, but he has no such concerns . He left the other party behind without saying a word and ran away, faster than a rabbit. His captain almost vomited blood.

He could even imagine what Guan Qibo would say when he pursued the matter later – you are such a loser, just die, but I still have a chance to win if I'm alive!

Fuck you!

While being beaten by Qi Qin, the captain of the "One Arrow Breaks the East Wind" team remembered Guan Qibo bitterly in his heart.

After being paralyzed, the captain was hit by Ji Xuanyi's CD seal . He struggled to run for a distance, but was caught up by Qi Qinzhong and beaten up. The scene was so tragic that the spectators outside the venue dared not open their eyes to watch.

With these continuous blows, Hao Xian didn't kill him directly. Fortunately, the attributes of Qi Qin's equipment were not too high. While taking the beating, the captain also avoided some damage. In the end, he escaped from Qi Qin with low health.

Both archers were at full health fifteen seconds ago, but fifteen seconds later one was at low health and the other was at half health. On Ji Xuanyi's side, except for Ji Xuanyi who was at half health, Qi Qin didn't even lose a trace of blood!

The game so far has really dropped everyone's jaws, from the incredible beginning to the current development that is completely different from all imaginations. No one has ever dared to think that the combination of a swordsman and a warlock can beat two high-end archers like this! How did all this happen?! And the contestant Ji Xuanyi – should we say that he is worthy of being Mu Xuanyi, or should we say that Mu Xuanyi is so awesome?! He always seems to be able to do things that no one expected! Too strong, too strong!

The audience was stunned and excited at the same time, they didn't expect Ji Xuanyi to be so awesome, and they all became his fans. The players who had been devoted to the handsome archer combination before also defected in an instant!

No matter how handsome the archer is, how can he be more handsome than Ji Xuanyi who is so strong that he doesn't even look like a human? ! Now it seems that Mu Xuanyi was not at his peak at that time!

The two archers were unaware that their fans had already defected, and Ji Xuanyi was unaware that he had gained a new group of die-hard fans for no apparent reason. Both sides have now readjusted their positions and returned to their positions at the beginning of the game.

This was not a good situation for Ji Xuanyi and his team. They did not gain any advantage from the current state of the two archers.

Although the two archers were at a disadvantage in the previous engagement, the plan that Ji Xuanyi and his team had painstakingly come up with did not succeed in killing any of the two archers. Even when the health of both archers reached the danger line, the plan was still a failure.

The configuration remains unchanged, and the strong and weak sides will not change. Even if the captain of the East Wind Breaker is now only a bloody skin and will die at the first touch, Ji Xuanyi and his men are still at a disadvantage.

Although Ji Xuanyi's previous move was awesome, apart from his own strength, the more important point was the suddenness and unpredictability of this tactic. The reason why One Arrow Broke the East Wind was because Ji Xuanyi's performance was too surprising and they were unable to react in a moment, which led to mistakes in their response and they were caught and beaten up by Ji Xuanyi and his men.

Now the two archers who had shot the east wind with one arrow had a deep impression of Ji Xuanyi's ability. The same tactics would not work a second time. After all, Guan Qibo and the others were not fools. If the captain had paid more attention to his positioning, or the two of them had attacked Ji Xuanyi more decisively, or even if Ji Xuanyi's luck was not so good and he encountered the 50% failure rate of puppetry, the outcome would have been a miserable defeat for Ji Xuanyi and Qi Qin, and there would have been no possibility of a comeback.

Now that the positions and states of both sides have returned, it is basically the same as if the battle had started again. Ji Xuanyi and his team's cards have been seen once, and the probability of winning has been reduced from infinitesimal to almost zero.

Logically speaking, the plan that Ji Xuanyi and his team had discussed for so long failed, so no matter who it is, they should have shown some frustration. Even if they were not frustrated because they had a good mentality for the game, they should at least show some praise for the captain who escaped from death and ran away with a bloody face, right?

But there was no expression on Ji Xuanyi's face, as if the plan that had made the two archers pay a heavy price was nothing at all – right?

Although they couldn't communicate with each other, the two archers still thought so at the same time, and their hearts were beating fast.

Ji Xuanyi's skills are almost all on cooldown . At this point, can he still come up with any tricks? However, the game is still going on. Staring at each other like this obviously won't change the situation. They might even be complained by the audience for cheating them out of their ticket money. Anyway, the two archers have the upper hand now. Ji Xuanyi and Qi Qin have used up all their available skills. What are they afraid of!

Before the audience could react to what was happening on the field, Guan Qibo suddenly pulled out three arrows from his back and shot them at Ji Xuanyi and Qi Qin.

His action was like a signal, and the captain of the Yijianpo Dongfeng team immediately seemed to be turned on, and began to activate the special skills that attracted fans at the beginning. A steady stream of arrows shot out from their bowstrings, mixed with attacks with skills, and shot towards Ji Xuanyi and Qi Qin like raindrops that drew blood upon contact!

If the battle just now was Ji Xuanyi's show of skills, then the current long-range battle is completely the home court of the two archers!

Once they start archery, they believe that no one can beat them!

The audience outside the venue were obviously used to seeing two archers using this trick to torture people, and they all became excited. Of course, there were also many players who had just climbed up Ji Xuanyi's wall and were in a dilemma. Although the two archers were handsome, they couldn't bear to see their new wall being pierced like a hedgehog! The palms and backs of the hands were all flesh, what should they do!

Chapter 216

However , the players outside the field soon discovered that their worries about Ji Xuanyi and others were unnecessary.

Ji Xuanyi never fights a battle without confidence. The reason why he is so calm is certainly not because he is bluffing , but because from the very beginning, he has not worried about the unique skill of the "One Arrow Breaks the East Wind" combination – with Qi Qin here , is there any need to worry about this avoidable pure physical attack?

Under the shocked gazes of the crowd, Qi Qin swung the greatsword in his hand . When the attacks of the two archers landed on his sword, they were just like toys shot by children. Qi Qin effortlessly waved them away one by one, and Ji Xuanyi, who was standing behind Qi Qin , didn't even lose a drop of blood!

What the hell is this magical skill——

The audience was shocked. This was the first time that the double archers suffered a tactical setback after the start of the game ! It turns out that not only Ji Xuanyi , but also the one called Tianxia Didi Chuunibyou is so awesome!

" No wonder he is Ji Xuanyi's boyfriend , " a female fan muttered in her seat, " Oh no , I'm going to climb over the fan wall, what should I do ..."

She is not alone! At this moment , there are thousands of female fans climbing the wall of fans . Isn't the combination of wisdom and strength too cute?

At this moment, the two archers on the field were also stunned . It was not just this match. It should be said that since they started using this fighting method of bringing offline technology online , it was the first time they encountered someone who could resist their attack so thoroughly!

What is the origin of this number one in the world?! Everyone's equipment attributes are obviously the same, is he cheating?!

In fact, Qi Qin's attributes are really no different from everyone else's except for a slight deviation in the points added. It's just that when it comes to the use of strength and body control skills, these ordinary players are far behind him.

If the double archers barely broke through the limits of ordinary people in terms of " shooting " , then Qi Qin, who can fully control every detail of his body, can be said to be an all-round player. Not only swordsman, but he can also play any agility and strength professions to the extreme. In

fact, if Qi Qin played the archer, Guan Qibo and the others would definitely not be able to compete with him.

Qi Qin's performance surprised everyone. Guan Qibo and the captain of Yijianpodongfeng felt more and more disappointed as the fight went on. They had thought that they had the upper hand all along, but they didn't expect the situation to be like this now.

If Qi Qin can make no mistakes in the next ten minutes, then there will be no casualties at the end of the battle, and the only way to make a calculation is based on the damage. Anyone with eyes can see that Ji Xuanyi and his team are definitely suffering from higher damage now.

In other words, if the stalemate continues, the winner will definitely be Ji Xuanyi and his companions. If Guan Qibo and his companions want to win, they must either kill Ji Xuanyi or at least reduce Qi Qin's health to a level similar to that of the captain of Yijianpo Dongfeng! But in the current situation, no matter which of the two, it would be as difficult as climbing to the sky for the two men who broke the east wind with one arrow!

In an instant, the situation on the field changed drastically, and the advantages and disadvantages changed. The fans who were madly worried about Ji Xuanyi and the others just now started to worry about Yijianpo Dongfeng.

How to fight in this situation? Yijianpo Dongfeng is not a player like Ji Xuanyi who has flipped his cards one after another but never found a trick. They are just an ordinary team of experts who show off their skills. From the first game to the present, the battle plan has not changed. Even the beautiful battle of the round of mutual destruction was based on their excellent archery skills. Now that their most proud method has been cracked, do they still have a chance to turn the tables?

Ji Xuanyi was also thinking about this matter, but in his opinion, the answer should be no.

The two players who shot the arrow that broke the east wind were neither him nor Qi Qin. It was very difficult for an ordinary person to master such a good archery skill. Moreover, although this team was outstanding, they did not have the ability to take first place. Even if they did not meet Ji Xuanyi and his team, they would most likely not be able to beat Mi Yin's team.

This should be the end, Ji Xuan thought.

It was obvious that Guan Qibo and the captain of Yijianpo Dongfeng had no way to deal with this skill that directly destroyed their most basic abilities. Both of them looked very ugly.

If they want to win now, they must take the initiative. It is absolutely impossible for Ji Xuanyi and others to make the first move and reveal their flaws. In fact, Ji Xuanyi and Qi Qin only need to continue to maintain their state and wait for the game time to be over.

But how could it be so easy to implement an active attack? Guan Qibo and the other man struggled for a long time, and all they could do was change the rhythm, or change their position, or use double-teaming tactics.

But all these methods were useless. Qi Qin didn't even mess up his movements and easily deflected all the arrows. When Guan Qibo and his captain fired at both sides from the left and right, Ji Xuanyi also came out to deflect a few non-skilled arrows. The two of them even showed their tacit understanding together. One was mainly on defense while the other checked for omissions. Their movements were so fast that the audience was dazzled, but the two people's hands did not collide or stop once!

No one can say anything except "awesome" ...

Guan Qibo and his partner were speechless as they had inexplicably become tools for their opponents to show off their affection. Although their opponents were indeed so awesome that they were not like normal people, how could they be willing to lose the game like this?

Although Qi Qin could easily block the ordinary attacks of the two as a sleight of hand, the power attached to the skill was not so easy to remove. Guan Qibo noticed that when Qi Qin was resisting skills with lower damage such as rain of arrows, it was obviously more difficult than to pick off ordinary flat attacks . What about other skills?

If all skills were released at once, would it be possible for Qi Qin to be unable to escape? Even if Qi Qin could not be killed , could he be made to lose blood? Or, what if the situation was better than they imagined, and Qi Qin would reveal Ji Xuanyi behind him, giving them a chance to kill him?

This idea is very risky. Using all skills is fatal to any profession, whether in the wild or in the arena. The former may have a chance to escape, but the latter can only be killed and it will be a bladder game. Unless it is certain that the opponent will lose people in this wave of attack, even the most skilled masters must use their skills in a cycle. This is the most basic element. Not keeping any skills is no different from seeking death!

But now they can't care so much, using this plan, they still have a chance to win, without this plan, they can only wait to lose! The same goes for the next one! Now it's a matter of life and death!

Guan Qibo immediately reunited with the captain and informed him of his countermeasures. The latter was hesitant at first, but soon figured it out. They now had only two options: lose, or fight and lose again. Of course, they would only choose the latter.

Isn't it just not keeping any skills? Fight!

Ji Xuanyi smiled when he saw Guan Qibo and the captain of Yijianpo Dongfeng getting together.

" It's going to be a bit tricky next, can you hold on? " Ji Xuan stood behind Qi Qin and patted him on the back.

For a martial artist like Qi Qin, the back area is somewhat sensitive, especially now that he is facing an enemy . If it were someone else who dared to touch him like this, he would probably be dead by now. But when Ji Xuan touched him one by one, he felt as if he had received an electric shock and half of his body was numb, and he almost missed an arrow.

He hastily knocked away the arrow, fearing that Ji Xuanyi would think he was not that powerful. Qi Qin adjusted his state and said, " I haven't used my full strength yet! "

" That's good, " Ji Xuan smiled and said, " I will never accept a result where the time runs out and the outcome is determined by damage. "

As soon as Ji Xuanyi finished speaking, Guan Qibo had already adjusted his tactics. The extra blinding arrows had been completely abandoned. Instead, an arrow with a faint glow was shot out steadily from his hand under Guan Qibo's calm and determined gaze, and flew towards Qi Qin accurately with a sound of breaking through the air!

" Explosive Arrow, " Ji Xuanyi whispered, " It's so powerful on the first hit. Be careful to avoid the explosive damage. "

Qi Qin nodded slightly, and the explosive arrow flew in front of him. At the same time, the second explosive arrow from Captain Yijianpo Dongfeng also flew out again, following the first one!

Ji Xuanyi frowned fiercely.

Ji Xuanyi had not expected that Guan Qibo and his captain would arrange their skills so closely. After all, no matter how powerful a player is, he would be nervous when he does not have skills to cycle. He originally thought that Guan Qibo and his captain would take turns using skills, so that the cycle time could be extended and it would not be so easy to die suddenly if the plan failed. However, he did not expect Guan Qibo to be so decisive and decide to give up all the skills without any hesitation.

However, considering Guan Qibo's performance in previous battles, it seems very normal for him to make such a decision.

Regardless of the effect, at least the momentum is to destroy both sides. Ji Xuanyi didn't know where Qi Qin's bottom line was. Facing such a scene, he actually felt a little unsure.

Ji Xuanyi was very clear about the power of the explosive arrow. When Qi Qin fought against the first warrior of the elves, even though he blocked the arrow, he was almost chiseled into the wall. Although Qi Qin's level has been increased now and the power of the player skill will not be as exaggerated, but as the archer's strongest attack skill, it is definitely not so easy to take on.

What's more, Guan Qibo and the captain of Yijianpo Dongfeng were well prepared and targeted the weaknesses of ordinary people. The two arrows were shot one after the other at the right time. If the first arrow was completely swung away, the second arrow would be stuck at the moment when Qi Qin's old strength was exhausted and new strength had not yet been generated. The skill effect cannot be resolved easily. Qi Qin will definitely suffer the damage of this arrow, and there is no way to avoid it. Even Ji Xuanyi will be affected. If Qi Qin wants to block both arrows, he can only take the aoe damage of these two arrows.

This can be said to be an unsolvable routine. The former is equivalent to destroying Qi Qin's defense line. If all the subsequent skills are connected, the damage will be real. Although the latter will not have as good an effect as the former, as long as it can cause damage, Guan Qibo and their goal will be achieved.

There is still a lot of time left. If they slowly waste their time and be careful not to be caught by Ji Xuanyi again, even if they only use this kind of explosive arrow damage, they will have a chance to catch up with the damage of Ji Xuanyi and the others. As long as they catch up before the time runs out, they can win!

Just when such thoughts appeared in Guan Qibo and others' minds, Qi Qin also responded to their attack.

He raised his sword and made a motion to strike rather than to block.

This sword can certainly swing away the explosive arrow and keep him and Ji Xuanyi from getting hurt, but in such a short time, he absolutely cannot adjust his strength and posture to block the next arrow! When the second arrow explodes him and Ji Xuanyi, it will be the chance for the double archers to kill Ji Xuanyi!

The eyes of the two archers who had shot down the east wind with one arrow lit up at the same time, and they immediately made the movement to draw their bows again – however, before the

subsequent attack left their hands, they immediately realized that they still underestimated Qi Qin!

Although the latter had never taken on the player's explosive arrow skill head-on, he did not dare to underestimate its power. He held the sword with both hands and used all his strength to hit the explosive arrow from the side. The arrow continued to move forward and landed three meters away with a huge explosion. The aftermath almost made the frail Ji Xuan stagger. Generally speaking, although such a great force can completely avoid the damage of the explosive arrow, after launching this attack, it will require even more terrifying strength and speed to adjust the posture in order to deal with the next attack. This has nothing to do with control, but only depends on the size of the force used by Qi Qin for the first time and the attributes of his own equipment. This is why Guan Qibo and the others were certain that Qi Qin would not be able to block the second arrow after blocking the first arrow.

However, what the two men never expected was that after Qi Qin swung away the first arrow, he swung his heavy sword in a quick circle like a discus thrower, and when he returned to the original direction, he just happened to knock out the second arrow. Because of the force brought by the rotation, the force was even greater than that of the first arrow. The second arrow flew directly seven or eight meters away. This time, when it exploded, Ji Xuanyi couldn't even feel a bit of wind!

Guan Qibo and the other man were stunned. Qi Qin's actions were actually not too excessive, and it could even be said that they were actions that ordinary people could do. But at this critical moment, everyone was extremely nervous. Even Ji Xuanyi had not expected this. It was really surprising that Qi Qin could be so bold and careful to think of this response method.

The audience in the stands were also stunned. This battle was much more exciting than they had imagined. Although Qi Qin's moves sounded very simple, they were too handsome when demonstrated by real people in the holographic game. After they came to their senses, there was another wave of cheers from the audience.

Guan Qibo and his captain really began to feel a little frustrated this time. Judging from the strength and cooperation of Ji Xuanyi and Qi Qin, their winning rate was really a bit low. But even so, it was not the time to give up easily.

The two adjusted their mindsets and regrouped. Even if they were destined to lose, they should complete the plan they had decided on in advance first!

With the attitude that winning or losing didn't matter anymore, the two men cooperated and matched each other's rhythm perfectly, shooting arrows one after another, almost turning this attack into a performance. Although every arrow was blocked by Qi Qin and the two archers on the field could not hear any sound from outside, the players in the audience still gave warm cheers and applause to this attack.

Although archers have many skills, there are almost no skills that have greater damage and effect than the explosive arrow. The only troublesome thing is the expulsion arrow carried by the double archers. This kind of arrow cannot be taken head-on, and the knockback effect of the game cannot be resolved. It can be said to be the last hope of breaking the east wind with one arrow.

But even this hope was dodged by Qi Qin without changing his expression, because in most cases it was used at a very close distance, so the speed of the skill of Expelling Arrow was

relatively slow. If it was closer, Qi Qin might not be able to react in time. But at this distance, the skill did not even touch Qi Qin's armor and was dodged directly.

The two archers seemed to have gotten used to failure and were not moved at all by it. They continued with their actions.

Ji Xuanyi followed Qi Qin's movements and calmly dodged the arrows until the two archers had used up all their skills. After they had drawn arrows from the quiver behind them and put them on the bowstrings, but didn't even have the courage to fire a basic attack, he whispered, " Is that enough? "

This is indeed the end. No matter what actions are taken next, it will be just a futile struggle for Yijianpodongfeng.

Before the game started, probably no one would have thought that the outcome would be like this. It was not that the combination of swordsman and warlock was beaten by the two archers, but that the two archers were put at a disadvantage and even so passive that they had no way to deal with their opponents!

Some people in the audience couldn't help but complain, wondering if the two teams, Suibiandada and Yijianpodongfeng, had gotten the script wrong?

But even if the resistance was considered futile, even if defeat was inevitable, Guan Qibo was not the kind of person who would give up.

Qi Qin stepped towards the two of them, Guan Qibo started to attack again, and the captain of Yijianpo Dongfeng was awakened and gritted his teeth to start his final resistance.

Under normal circumstances, this kind of action would actually be considered as an act of deliberately delaying time, but in a game that determines whether or not one is eliminated, it is particularly moving. Everyone saw Yijianpo Dongfeng's unwillingness to give up. Even the most demanding barrage audience did not say anything to ask these two people to admit defeat quickly.

Xiao Xiao Yuxia sighed quietly and said, " But if it were me, I would definitely not accept the situation we are in even though we have a configuration that can crush them. "

Compared to Xiao Xiao Yu Xia, who was a swordsman, Ming Shao's expression was more solemn. He was an archer, and seeing a master of the same profession being pressed to the ground like this, he could not help but empathize with him, and could not help but ask: "

Although the opponents are Ji Xuanyi and Tian Xia Di Yi, such a strong configuration and restraint, is it useless at all? If Yijian Po Dongfeng was not pulled away from the damage at the beginning, would the outcome of this battle be different? "

Before Jian Xi Xin Jiu, the only person qualified to talk, could speak, Xu Chu had already glanced at him and said coldly: " Change? What change do you mean? Yijian Po Dongfeng can't even break through Tianxia's defense. No matter how perfect everything is, the only possible outcome is a draw, right? "

" That's not necessarily true! " After all, there were players of the same profession as him in One Arrow Breaks the East Wind, so Qingfeng Bufu couldn't help but jump out to say a few words for the team: " Tianxia is powerful, but can they maintain this state for a full twenty minutes? If One Arrow Breaks the East Wind hadn't been left behind in damage from the beginning and had attacked aggressively throughout the entire process, Tianxia might have

made mistakes! On the contrary, the archer's movement is not easy to catch up with. If Ji Xuanyi had just accelerated and run away, it would have been Ji Xuanyi who couldn't catch up."

Xu Chu couldn't help but roll his eyes and said, "When discussing strength, mistakes are not taken into account. If that's the case, I think if the two teams make mistakes against each other, they can play for 800 rounds!"

There was nothing wrong with what Xu Chu said, but Qingfeng Bufu still felt that, although the chances of a draw were higher if neither side made any mistakes and no one lost blood, the probability of mistakes was still higher on Ji Xuanyi's side. In other words, in a non-draw situation, Yijianpo Dongfeng's side was more likely to win.

Seeing that the game was still undecided, the friends and family members outside the game were about to start a fight. Xiao Xiao Yu Xia quickly stepped in to act as a peacemaker and said, "How can there be so many ifs and maybes? Are your speculations necessarily correct? Hurry up and watch the game. After the game is over, you can go ask Ji Xuanyi and the others!"

Qingfeng Bufu then remembered that Xuchu was their deputy gang leader and their big money sponsor! How could he dare to talk back? He immediately stopped talking.

As expected, the situation on the field changed again.

As if he wanted to slap Qingfeng Bufu and those who had the same idea as Qingfeng Bufu in the face, Ji Xuanyi did not continue to maintain the situation while gaining the advantage.

Instead, after the skills of both archers were exhausted and he could only use basic attacks to delay time, he stood by Qi Qin again.

No one reacted, not only the audience, but even the two archers who continued their attack. Everyone was thinking, hadn't Ji Xuanyi and his team already won? Why did he stand up again? What else did he want to do to Yijianpo Dongfeng and his team?

What does Ji Xuanyi want?

He wanted a complete victory. Waiting until the time was up to determine the damage and decide the outcome was totally against his character!

Chapter 217

When Ji Xuanyi came out from behind Qi Qin, no one reacted, including the two archers who had shot the arrows at Dongfeng. When Ji Xuanyi knocked away the arrows shot at him and took off into the air with the help of Qi Qin, and flew towards the two again, the two archers were stunned for a second before they reacted and continued to attack.

It was self-evident what Ji Xuanyi wanted to do. Now he only needed to use puppetry to control any one of the two men, which would cause a reduction in the number of people in the team and end the game, but the two archers did not choose to escape.

Although the skills in their hands are useless now, the moment Ji Xuanyi breaks away from Qi Qin is undoubtedly their last chance. Running away now is no different from directly admitting defeat.

The two archers made up their minds and shot arrows faster . Dense arrows flew towards Ji Xuanyi like raindrops.

Ji Xuan waved the staff in his hand without changing his expression, and actually knocked away quite a few arrows . Although he still lost some blood , he still walked to the two archers alive and raised his staff towards them.

This attack was directed at Guan Qibo.

It is obvious that after Ji Xuan controls Guan Qibo, he is absolutely capable of killing the captain who dares not attack Guan Qibo , and then taking Guan Qibo to Qi Qin , killing two birds with one stone. However, if he controls the captain , Guan Qibo will not care so much and is very likely to kill his captain directly and then escape.

Before the skill was used , the benefits had already appeared in Ji Xuanyi's mind, and he pounced towards Guan Qibo without hesitation.

Guan Qibo's pupils shrank, and he was hesitating between continuing to attack Ji Xuanyi and turning around to retreat. Just then, after Ji Xuanyi raised his staff, the slightly lit gem on the front end of the staff suddenly flickered twice and went out, as if a fire had gone out!

Guan Qibo and Ji Xuanyi were both stunned at the same time, and then they realized instantly that Ji Xuanyi was too arrogant and stepped on the 50% probability of failure of puppetry!

Guan Qibo and the captain of Yijianpo Dongfeng were overjoyed. They never expected that the current situation could be turned around!

Ji Xuanyi's relentless pursuit actually gave Yijianpo Dongfeng a last chance. The audience, who had not expected this plot, were all stunned. For a moment, they didn't know whether they should be happy for Guan Qibo and the others or feel sorry for Ji Xuanyi's last unnecessary kill. But no matter what others think, the two people who broke the east wind with one arrow were ecstatic. Even though they had no skills, they tried their best to kill Ji Xuanyi with a normal attack before Qi Qin arrived .

You know, this is not impossible. Warlocks are naturally fragile, and they lost half of their health at the beginning. In addition to the damage they suffered when they flew over just now, if the two people of Yijianpo Dongfeng move quickly and accurately enough, Ji Xuanyi might really be killed on the spot .

The two archers wanted to seize Ji Xuanyi's mistake and kill him directly, but how could Ji Xuanyi just give up like that? To be precise, although the mistake came too suddenly and he himself did not expect it, he never felt that he would lose.

took two steps towards Ji Xuanyi and wanted to cooperate with Guan Qibo in the attack, but he was directly paralyzed.

Ji Xuanyi immediately aimed his staff at Guan Qibo, but Guan Qibo had been paying attention to his movements and did not dare to relax for a moment. He immediately realized the crisis, accelerated instantly, and used the instantly changing position to avoid Ji Xuanyi's CD control skills.

Guan Qibo did not immediately take the opportunity to distance himself from Ji Xuanyi. Firstly, it would waste his output time, and secondly, it was not the time to give up on the captain yet. Guan Qibo gave up moving and wanted to concentrate on attacking Ji Xuanyi, who had lost all his threatening skills.

In his opinion, Ji Xuanyi is now like a lion that has lost its fangs and sharp claws. He has no power to resist and is just waiting for him to take his head and kill him in a desperate counterattack !

As long as Qi Qin doesn't chase after him – Guan Qibo thought, and subconsciously paid attention to Qi Qin's movements.

However, at this moment, before Guan Qibo could see Qi Qin's movements clearly, his eyes suddenly went dark and he was knocked to the ground by a huge force!

It is said to be a huge force, but it is only for archers. In fact, this is just Ji Xuanyi's own weight. For power-based professions such as swordsmen or knights, it is probably not heavier than their weapons, but for archers, it is really a weight that life cannot bear.

Guan Qibo was thrown to the ground, he saw stars and even lost his weapon!

Ji Xuanyi had no skills, so he gave up swinging his staff and rushed towards Guan Qibo, knocking him to the ground! He turned a holographic online game arena into a wrestling scene! The players in the audience were all stunned by this amazing plot, and they all exclaimed, "Is Ji Xuanyi going to develop a close combat gameplay for warlocks? ! How can this game be so messed up ! "

Guan Qibo was also fucking confused. He didn't expect Ji Xuanyi to do such a thing. You know, although archers are weak compared to strength-based professions, they are more than enough to beat warlocks. Ji Xuanyi is a little too bold!

Guan Qibo just reacted and was about to stretch out his hand to teach Ji Xuanyi a lesson, when he saw Ji Xuanyi, who had thrown him to the ground, quickly turned over and got up, then raised his knee and rushed towards his head!

This move could definitely kill someone offline! Guan Qibo had never experienced this before, and of course he didn't have any idea that he wouldn't die from such an injury in the game. He was so scared that he couldn't even run away. As soon as he stood up, Ji Xuanyi's knee hit him directly on the side of his face, and he almost spit out blood!

It's true that the warlock's strength is very weak, but the warlock's weight has nothing to do with the game attributes. Even if the damage from this attack is not much, the physical sensation is not weak at all. Guan Qibo was completely stunned, and the players in the audience couldn't help but shout " Fuck ! "

Just when Guan Qibo had not yet recovered from Ji Xuanyi's heavy blow, Ji Xuanyi had already straightened up again without changing his expression and showed his elbow.

The damage to this kind of hard and protruding joints in a fight is self-evident. Guan Qibo finally came to his senses, and a trace of fear flashed in his eyes .

It's horrible, really horrible!

Guan Qibo probably never dreamed that one day he would be beaten by a warlock in close combat in the game, and he couldn't even get his hands off. The players sitting in the audience probably never dreamed that one day they would be able to see so many standard fighting techniques in a holographic game arena!

For a moment, the only words in the audience were " Wow " and " Awesome " ; everyone had completely forgotten what kind of game this was!

Xiaoxiao Yuxia and others had never seen such a brutal side of Ji Xuanyi before, and they were trembling in fear as they hugged Tuan in the audience.

Ze Yu Sishui hugged Ming Shao in fear and said, " I will never dare to make Xiao Ji angry again! Oh my God, how many times have I escaped death without knowing it in the past! "

Hearing this, Xu Chu's body stiffened instantly. When it comes to courting death, especially in front of Ji Xuanyi, who the hell can compare to him! He should be the one who said what Ze Yu Sishui said!

Everyone in the audience was so frightened by Ji Xuanyi's new side that they dared not even breathe. They thanked Qi Qin in their hearts. If it weren't for him, Ji Xuanyi wouldn't know what he would be like now. Thinking about it, they couldn't help but pray for Qi Qin – could he really survive if he was in love with Ji Xuanyi like this? !

Not only the people in the audience, but also the contestants in the waiting area were shocked. Their mouths were bigger than each other and their jaws were almost dislocated. The team that was assigned to Mi Yin and the second place couldn't help but feel lucky.

Fortunately, it was Mi Yin and the others! If they had met Ji Xuanyi, this kind of loss would have been too tragic!

The old western doctor swallowed his saliva and said to Mi Yin tremblingly: " Master, do you know that Ji Xuanyi is so awesome? "

The smile on Mi Yin's face froze. After a long while, she said, " No, I really don't know about this. "

Otherwise, how could he have the courage to act like a spoiled braggart in front of Ji Xuanyi! The situation on the field became extremely funny. The paralysis time of the captain of Yijianpodongfeng had passed, and he was frightened by Ji Xuanyi's crazy beating of Guan Qibo and dared not go over, let alone use his skills on Ji Xuanyi. He could only watch blankly and didn't even know when Qi Qin caught up with him.

Guan Qibo was beaten so hard by Ji Xuanyi that he cried and gave up resisting. He shouted, " No more fighting! I admit defeat, wuwuwu—— "

This is not a fight in the arena! This is a death sentence!

Guan Qibo had been beaten so badly that he had no concept of winning or losing in his mind. He just wanted to end the beating quickly. He couldn't take it anymore. He just had to lose! But it's no use for Guan Qibo to admit defeat alone. When there are two people alive in the team, if they want to admit defeat, both of them must give up the fight and decide to admit defeat. The captain of Yijianpo Dongfeng hasn't spoken yet!

Seeing this, Qi Qin knew that he didn't need to take action himself, and Ji Xuanyi hadn't lost his temper for a long time. It would be better to hit Guan Qibo to vent his anger than to hold it in and hit him later. So he walked to the side of the captain of Yijianpo Dongfeng and said, " Well, I don't need to kill you, right? Just admit defeat? "

The captain had become a little nervous because of Ji Xuanyi's performance. He was frightened by Qi Qin and looked at him with horror.

If Ji Xuanyi's combat power was put offline, someone would definitely die. If he remembered correctly, the man in front of him was a real man who had the courage to fall in love with Ji Xuanyi. The captain couldn't help but look at him with admiration.

Qi Qin scratched his face, feeling uncomfortable being stared at. Just as he was about to urge the other party to admit defeat, he heard the captain of the "One Arrow Breaking the East Wind" team ask cautiously: " Well, aren't you afraid of domestic violence? "

Qi Qin was stunned for a moment before realizing what he meant, and said hesitantly : " Domestic violence? That shouldn't be the case, although Xuan Yi broke my leg before, but ..."

" You don't have to say anything! " The captain interrupted him, shook his hand solemnly, and said in a deep voice: " Brave man! Awesome! "

Qi Qin: " ??? "

He always felt that the other party seemed to have misunderstood something, but now was not the time to talk about this. Just now, Guan Qibo was still being beaten, and his tears were almost flowing into a stream. If he was knocked off the line on the spot by Ji Xuan's hammer, that would be terrible!

Qi Qin gently reminded: " Look, isn't it time to end this game? "

The captain realized what he meant, glanced at Guan Qibo who was being beaten, and said tentatively: " In fact, we can delay it for a while. "

After all, his relationship with Guan Qibo wasn't that good.

Qi Qin: " ..."

No matter what, the battle ended with Ji Xuanyi and Qi Qin's victory. Everyone was amazed by this wonderful and weird battle. Not only did they have a new understanding of Ji Xuanyi's awesomeness, but they also had deep sympathy for the double archers – so damn pitiful! From the live broadcast, after Guan Qibo admitted defeat, he was helped back to the tunnel by his teammates. His eyes were almost swollen from crying. He was full of vigor and vitality when he entered the game, but he was so weak when he left the game!

But Ji Xuanyi was completely different. When he returned to the waiting area, everyone looked at him as if they saw a brutal boss. They were filled with awe and fear. Even Potian didn't dare to force him anymore and huddled between his two teammates, trembling.

It can be said that this game was unexpected from the beginning to the end, and it was simply the most confusing game of this competition!

No, to be precise, all the games that Ji Xuanyi's team participated in were quite confusing!

After Ji Xuanyi beat Guan Qibo, he was obviously much more relaxed. He even had a smile on his face when he left the field, which was chilling. When choosing the players for the second time, Guan Qibo didn't dare to say anything like "he liked Ji Xuanyi very much". He looked at Ji Xuanyi with fear in his eyes.

Logically speaking, Ji Xuanyi's fighting style has basically been determined. The double archers will not have any effect on the combination of him and Qi Qin, who are one defender and one attacker (?), and if Yijianpodongfeng loses another game, it will basically say goodbye to this stage. It can be said that the only way to select people for the second game is to give up the double archers and switch to bows, which may have some effect.

But the wizard who shot the arrow through the east wind looked at Guan Qibo, who used to look up in the air but now wanted to hide in the ground, and then looked at Ji Xuanyi, who was fiddling with his staff beside him, as if considering whether to give up this weapon. He said

tactfully, " Well, you know, I don't play with archers. At best, I am a second-rate fighter. I won't be of much use on the field. Why don't you just use archers? "

Even though archers are delicate and weak, that is only compared to strength-related professions. They are not that strong compared to magic-related professions. Guan Qibo has been beaten up like this, so if he goes up with a mage, won't he be beaten so badly that he can't even be recognized?

It was scary just thinking about it, and Warlocks were naturally very restrained against the same class, and he couldn't keep up with the Archer's movements. He was afraid that he would be beaten to a pulp by Ji Xuanyi and his boyfriend. No, no, it was too harmful to his body ...

Guan Qibo was not willing to go up and get beaten. His backbone and persistence were no match for Ji Xuanyi's iron fist. If it weren't for the live broadcast and the presence of two teammates, Guan Qibo would have unilaterally announced his withdrawal from the game ...

Ji Xuan looked at the configuration of Yijianpodongfeng and felt that there was no need for an assassin to play, so he simply filled in his and Qi Qin's IDs and said to the three people of Yijianpodongfeng: " Have you made your choice? "

The three of them were startled and shook their heads in unison, just like the elementary school students in front of their class teacher.

Ji Xuanyi said " Oh " and said, " Hurry up. "

The three of them nodded in unison.

In the end, the fairest method was used, rock-paper-scissors, to decide which two of the three people would play.

The mage was still unlucky. He was the first to get the spot, but the second one was taken by Guan Qibo. The moment the result came out, Guan Qibo almost collapsed. He was almost sobbing as he was dragged up by the mage to register, and then sobbing as he was pulled into the passage.

The comments were full of people praying for Guan Qibo, with more than one person sighing: " Little Hu Ya is so pitiful—— "

Of course, these hypocritical guys will turn around and say: " Ji Xuanyi is so damn handsome! " There was basically no suspense in the second match. The archery skills were not as strong as the bow configuration against the swordsmanship. Moreover, one of the two opponents had a mental breakdown, and the other, as he said, had chosen the wrong profession and could only be considered a second-rate combat force. Ji Xuanyi and the other two solved them with almost no effort and without using overly violent means.

Guan Qibo was so moved that he almost cried, especially when the staff announced that Ji Xuanyi and his team had won and Yijianpo Dongfeng was eliminated, he actually had the illusion that he had escaped death.

When the second group went up to prepare, Ji Xuanyi said to Guan Qibo: " You guys fought well. "

This is the truth. Guan Qibo and the other two are all very strong. They made decisive judgments in critical moments. When they cooperated, they made full use of their advantages of proficient archery skills offline. If their opponent was not Ji Xuanyi, but other teams, their performance in this game might not have been more exciting.

But what Ji Xuanyi said sounded very scary to Guan Qibo. It seemed that the other party had not abused him enough and seemed to be still hesitating whether to do it again.

Guan Qibo had heard of Ji Xuanyi's fierce reputation, and what he said about liking Ji Xuanyi was true, but he never expected that Ji Xuanyi himself would be so fierce! It's true that only big guys can make friends with such a big guy, and small shrimps like them really can't stand it. Thinking of this, Guan Qibo couldn't help but look at Mi Yin again.

Although he is a master second only to Xue Piao Renjian, he is so thin and has only bones on his body. I wonder if Ji Xuanyi will show mercy when beating him?

Mi Yin was suddenly surrounded by sympathetic gazes: "..... ??? "

Seeing Guan Qibo looking left and right but refusing to respond to Ji Xuanyi, the captain of Yijianpo Dongfeng was afraid that Ji Xuanyi would go crazy on the spot, and was so scared that he broke out in a cold sweat. He hurriedly said, " Thank you for the compliment. You guys are really awesome. "

Ji Xuanyi smiled, but before he could say anything, the captain who shot the arrows could not help but said to Qi Qin: " Well, I don't know how you did it, blocking our arrows ... At first I thought it might be because you had a bigger advantage with your weapons, but then I was not so sure after seeing your performance. "

If it was just a coincidence, no matter who it was, there would be some uncertainty on their face, not knowing whether it was a failure or a success. However, when Qi Qin blocked their attacks, he was very calm and not panicked at all, as if all the results were within his expectations.

" Is it really that amazing? " The captain of the team that shot the arrows at Dongfeng finally couldn't help asking, " What kind of training can achieve such a level? "

Hearing this question, Qi Qin subconsciously looked at Ji Xuanyi.

Ji Xuanyi looked at the eager eyes of the captain of Yijianpo Dongfeng, and thought, first of all, you have to be born in a world with a martial arts background, and then practice for twenty years. In addition, you may have to look at some metaphysics such as talent . But on the surface, Ji Xuanyi could only say: " This may be a bit difficult for you. This guy grew up in an acrobatic troupe . "

Qi Qin: "..... ??? "

The captain of the "One Arrow Breaks the East Wind" team suddenly showed an expression of sudden enlightenment, and said ashamedly: " Our archery skills are just what we practiced as amateurs, and it turns out that we are still no match for professionals. "

Qi Qin: "..."

Ji Xuanyi nodded seriously and said, " No pain, no gain. You are already very capable now. " This is true. Even if they lose this game, Yijianpodongfeng will not lose too many fans.

Moreover, after the training of this game, if they continue to participate in the next arena competition, their ranking will definitely be higher than now.

The captain of the "One Arrow Breaks the East Wind" smiled and said, " Then I'll borrow your good words. "

Ji Xuanyi shook his head, but the other party showed an embarrassed expression again and said, " Well, your boyfriend grew up in an acrobatic troupe , so ... what about you? "

Ji Xuanyi: "..."

It seems that this captain didn't get beaten and is still quite brave!

Ji Xuanyi didn't say anything, even though he didn't know what to say. However, the captain of Yijianpodongfeng seemed to understand something in the silence. He looked at Ji Xuanyi in horror, then revealed a secretive expression, and said in a trembling voice, " I know, you don't have to say anything! "

Ji Xuanyi: " ??? "

What does he know?

Although he didn't know what the other party meant, it was a good thing not to have to answer questions. Ji Xuan said politely, " The last two games, just stay and watch. "

There weren't many opportunities for experts to fight each other live, so leaving early at this time would be a big loss. Yijianpo Dongfeng had originally planned to stay and watch, but he didn't know what the other team's captain had done wrong, so he quickly said, " I don't want to watch it anymore. Come on, we'll retreat first! No thanks! "

After saying that, he wrapped the two team members and fled away.

Ji Xuanyi didn't understand what the other party meant at first, until he went to the forum in the evening and saw today's hot topics.

"Why is he so awesome! Captain Yijianpo Dongfeng revealed exclusively that Ji Xuanyi is suspected to be the young master of the Blackll Gang !"

Ji Xuanyi: "..."

Chapter 218

If the captain of Yijianpodongfeng had the chance to meet Ze Yu Sishui and the other two , sparks of friendship would definitely emerge.

Ji Xuanyi thought silently, and suddenly felt a desire to capture both groups of people and beat them up.

After the match between Ji Xuanyi and his duo and Yijianpo Dongfeng, there was a break. The match between the second and twelfth place would be held in the afternoon , while the match between Mi Yin and his duo and the thirteenth place would start the next morning.

Although the competition system was not changed to best-of-five to give players more opportunities, it was good enough to extend the competition time so that everyone could rest for a while and face the competition with the best spirit .

The next two games were also exciting, but there was no plot like Ji Xuanyi's comeback against the odds, or even pinning opponents with stronger equipment to the ground. Instead, the twelfth and thirteenth place were crushed and eliminated.

Although the skills displayed by Mi Yin and his team were equally impressive , they were not as exciting as the match between Ji Xuanyi and his team. For two consecutive days, the forum was dominated by the battle between Ji Xuanyi and his team and Yijianpodongfeng . Apart from that , there was the final draw result.

After another day of rest , everyone will face the semi-finals where the top four will compete.

In fact, many players were opposed to the scoring rules of this competition at the beginning , because the points of the auditions could actually, in a certain sense, rank the top 25 teams , making the later games less exciting.

But as the game progressed , everyone finally understood what luck is. It is also a kind of strength , and the points competition can only separate teams that are not on the same level of strength. For teams like Ji Xuanyi and his team that are at the top, points cannot actually be used to measure anything.

At the beginning, some people thought that the champion of this competition would definitely be the first-seeded team , but after looking at the performance of several higher-ranked teams, it seemed that the seeded teams that had not made a move would not be so overwhelming, and it was really hard to say who would be the champion.

The most exciting moment before the semi-finals is the last draw. In this draw, the first seed team that has been watching the game from the sidelines will also participate. After the semi-finals, the two groups of winners will compete for the first and second places in the finals, while the two groups of losers will compete for the third and fourth places.

The draw was held in the afternoon after Mi Yin and the others finished the game. After a day's rest, Potian seemed to have finally forgotten Ji Xuanyi's brutal performance. He was full of energy, staring intently at the three teams around him that might become his opponents. Except for deliberately looking past Ji Xuanyi, he looked like he deserved a beating.

Before their competition, Potian's two teammates were relatively low-key, but now it was their turn to play, and it was time to be high-profile, so they did not stop Potian, allowing him to provoke everyone except Ji Xuanyi with his eyes.

The second place team originally wanted to target Mi Yin and his team, but they were displeased when Potian saw this. Among the four teams present, only their points were the closest to the first place. In their opinion, the first place might not be their opponent. It was too early to be arrogant, so they began to dislike Potian and his team. This time, whether they drew Mi Yin's team or the seeded team, it would be a more acceptable result for them.

As for Ji Xuanyi's team ... the captain of the second place thought about it and still felt that Ji Xuanyi's team was not in a hurry to fight. The opponent had just beaten them so brutally with Yijianpo Dongfeng. If their hands were still warm, they would be screwed.

Ji Xuanyi and Mi Yin's goal was also very clear, that is, they would just meet each other in the final battle. If there was really no way, it didn't matter if they met in the semi-finals. They would just try their best and not let themselves or their opponents down.

The four teams stood together neatly and drew lots under the guidance of the staff.

The barrage of comments was so thick that the live broadcast screen was almost invisible, but everyone was very excited. It was conceivable that when the competition really started the day after tomorrow, the live broadcast room would probably be packed.

This time everyone came forward at will, but everyone tacitly did not move. Instead, the first seeded team came forward to draw lots first, followed by the second place, then Ji Xuanyi, and finally Mi Yin and the other two.

After seeing the glass ball clearly in her hand, Mi Yin breathed a sigh of relief.

This time their opponent was the second-place team, their old enemy with whom they had a conflict early on. The match was the first of the semi-finals, and Ji Xuanyi and his team were of course facing the seeded team, so it was their turn to play in the second semi-final.

This result made everyone happy. The contestants were quite satisfied and the audience was extremely excited.

The friction between these two teams was actually broadcast live, and many people who like to watch the game have been looking forward to a fight between them. However, it is a pity for these masters to be eliminated before entering the semi-finals. Now is the right time, and everyone can give it a try!

The day of the break was the most active day for the audience. Everyone was discussing what the result would be between Mi Yin's team and the second place team. Was it true what Mi Yin and Xue Piao Renjian said, and the other side was not their opponent at all, or were the two just bragging? Was it said that the keyboard online game back then was not as good as the holographic online game, and both the master and the apprentice would be kicked into the loser group?

When facing the first seed team, will Ji Xuanyi's team be able to use their unique tactics to defeat the strong enemy as before? Or will they be defeated by the first seed team directly, no matter how many tricks they have, they will be useless in front of the strong?

After all, everyone is actually more looking forward to the second game. After all, Ji Xuanyi and his team brought too many surprises. What's more, the seed team also has the only other warlock player in this game. The warlock who can get the first place is definitely not an easy player. When he and Ji Xuanyi meet, who will be more sharp?

If the higher-ups hadn't been strict on collective gambling , the forum would have probably been closed directly .

Xiaoxiao Yuxia and others surrounded Ji Xuanyi, Mi Yin and other four people, pinching their shoulders, pounding their legs, very flattering. Xu Chu sat aside and rolled his eyes speechlessly.

" You must cheer up and work hard! " Xiao Xiaoyu knocked on the old doctor's legs with her hands like knives, twisting the frail priest's face: " If we can take the top two places in this competition, we ... our second server will be famous! "

" Did you mean Starry City? " The old western doctor finally found the thorn in Xiao Xiao's rain, and hurriedly kicked the man away, saying: " I am not from your Starry City, go away, go away, and beat Ji Xuanyi! "

Xiaoxiao Yuxia actually wanted to give Ji Xuanyi a massage, but Qi Qin had already taken charge of this job. If he dared to touch Ji Xuanyi, he would probably be beaten to death on the spot by Qi Qin.

Xiao Xiao Yu Xia had no choice but to stand aside awkwardly and said to the two teams: " How do you feel? Can you do it tomorrow? "

Ji Xuanyi didn't say anything, but Mi Yin frowned and said, " Compared with our Assassin Cavalry and Priest configuration, the dual Cavalry and Priest configuration must have a slight advantage. "

Everyone knows the disadvantages of assassins when facing knights. Xiao Xiao Yu Xia originally thought that with Mi Yin's ability, there shouldn't be too much of a problem. But when the other party said this, Xiao Xiao Yu Xia felt a little uneasy and asked: " Is it difficult to fight? " Mi Yin nodded and said, " For an assassin to counterattack a knight, the difference in strength between me and Jian Xi Xin Jiu is enough. The second-place knights are all top masters. Although I think I am not inferior to them and can barely make the professional restraint not so obvious, in the end, I will definitely suffer a loss in a fight. "

Jian Xi Xin Jiu was suddenly hit, but he had nothing to say. After all, Mi Yin was telling the truth. Although he could be regarded as an ordinary sharp player, he was still far behind the real masters. Mi Yin was able to beat him away despite the professional restraint. He really could not compare with the second-place knight.

Mi Yin glanced at Xue Piao Renjian next to him and said, " For tomorrow's game, it's best to use the Cavalry and Priest configuration as much as possible. "

Xue Piao Renjian's expression didn't change much, but the old western doctor almost vomited, he was so nervous that he looked at Mi Yin and said: " Me?! Can I do it?! "

Mi Yin said: " Even if it is impossible, it has to be done. "

The assassin-cavalry configuration is too disadvantageous, while the cavalry-priest configuration is okay. The only drawback may be that the old Western doctor's skills and mentality have not reached that level yet, but no matter what, it is better than Mi Yin playing. The old Western doctor was worried and the pressure suddenly increased.

Mi Yin comforted him: " It's okay, if you lose, I'll play again. "

The old Western doctor must not be allowed to play in the winning or losing game, because his opponent will be too nervous and the possibility of making mistakes is too great.

Sure enough, when the old western doctor heard this, he heaved a sigh of relief and said, half to encourage himself and half to assure himself: " I will definitely try my best. "

Mi Yin smiled, but Xue Piao Renjian didn't say much. Except for the tactical arrangements during the battle, he followed Mi Yin's arrangements on the configuration.

Xiao Xiao Yuxia was panicked by Mi Yin's words, and quickly looked at Ji Xuanyi and asked: " What about you? How are you? "

Ji Xuanyi raised his eyelids and glanced at him, then said, " I don't know. "

This was the truth. After all, the number one had never made a move until now, and the only thing he knew about Potian was his performance in the keyboard online game when the other party was still crazy. As for the overall combat effectiveness of this team, Ji Xuanyi could be said to know nothing. Of course, he was confident in himself, but he would not say so confidently. The specific situation and whether he could win would only be known after the game tomorrow.

Even Ji Xuanyi said so, which made Xiaoxiao Yuxia even more worried.

" I don't think there's a need to be so stressed, " Ze Yu Si Shui couldn't help but say, " Even if Xiao Ji's two teams both lose, they'll at least be third and fourth place! How awesome! What are you guys so worried about! "

Xu Chu said quietly: " Xianyu, please keep quiet. Do you think everyone is as unsuccessful as you? "

Ze Yu Si Shui: "..."

But what Ze Yu Si Shui said was not too wrong. Even if they lost, there were still two teams from their main city in the semi-finals! Thinking of this, Xiao Xiao Yu Xia, who was as lazy and unsuccessful as Ze Yu Si Shui, became happy again.

Xu Chu shook his head and sighed, thinking back to when Xiao Xiao Yu Xia was also the one trying hard to seize power, but now ... tsk tsk tsk tsk.

After all, hair is more important, so this is understandable.

Everyone gathered together for a mobilization meeting for the semi-finals on the second day, but unfortunately only the group of people who were not participating in the competition were very excited. Ji Xuanyi and others were just like usual, without any major emotional fluctuations. Only the old Western doctor was trembling with fear. Ye Linyu tried to comfort him for a long time, but the old Western doctor became so nervous that all new and old grudges came to his mind and he almost beat Ye Linyu.

But fortunately, I managed to calm down.

The next day, after much anticipation from many players, the semi-finals of this competition finally arrived. The first half was a battle between Mi Yin and the second place team. Xiao Xiao Yuxia was so nervous that she almost strangled Xu Chu to death.

When selecting people, the second place was very aggressive, with provocation and sarcasm in his eyes almost overflowing. If they hadn't been concerned about the live broadcast and needed to pay attention to their image, I'm afraid they would have talked trash on the spot.

The old western doctor was usually very smooth-talking and cunning, but now he was cowardly and was almost dragged up there by Xue Piao Renjian. When Mi Yin was registering, he almost wanted to back out and let Mi Yin replace him.

There is nothing that can be done about it. Although they have already gone through three rounds of competition, Mi Yin and the others' luck is not bad, but it is not very good either.

A weak enemy may be a good thing for other teams, but it is a disadvantage for Mi Yin and other newcomers in the team, because basically the opponents are not at the same level as them. The old Western doctor can only get used to the atmosphere but cannot find the feel. In the fourth round, he suddenly encountered the second-ranked strong enemy . As a newcomer, it is normal to be scared and lack confidence in himself.

In this situation, it would be best to encounter an enemy that is not too weak in the third round or the second round, so that the old Western doctor can get his feel for the situation first and understand that the enemy is not as scary as he imagined. He just needs to cooperate well, and then play to his normal level and make a breakthrough appropriately ... But this is just a thought. Now that the situation has come to this point, he can only bite the bullet and let the old Western doctor go.

Mi Yin is confident that with herself, she can have a 70% chance of winning even with a disadvantageous configuration. But no one can say what accidents will happen in the world. If she really hits that 30% chance, Mi Yin doesn't think it's a loss. The old Western doctor is indeed talented. If possible, after this competition, Mi Yin hopes to form a fixed team with the old Western doctor. Not only can they play in the arena together, but they can also participate in the next competition together.

After all, Mi Yin couldn't get first place at the beginning of the competition, so it was necessary for her to experience setbacks.

Thinking of this, the opponent also registered the configuration, and as Mi Yin expected, it was a double knight lineup.

The second place team almost never used a double knight lineup in the first few rounds of the game. Like Mi Yin and the others, the opponents they drew were not very strong and could usually be dealt with by a combination of knights and priests. I guess this time they met Mi Yin and his team, so in addition to being on guard against them, they also wanted to teach them a lesson, so they sent out their strongest lineup at the beginning.

As soon as this configuration came out, Mi Yin almost knew the result of this game, and the expression on her face was a little cold.

Just like Xue Piao Renjian said, his own strength was unquestionable, and he was not afraid of anyone in the knights' civil war, but in a 2v2 , it would be difficult enough with Old Western Doctor. He would even hesitate about the outcome if they were matched with the same equipment, not to mention that the opponent had two knights on the field. Xue Piao Renjian immediately realized that his side had a greater chance of losing.

However, he did not tell this to Lao Xiyi. For Lao Xiyi, a newcomer in the high-end competition in the arena, Xue Piao Renjian and Mi Yin were almost his backbone. If Xue Piao Renjian said he could not beat them, Lao Xiyi, this shameless guy, would most likely surrender on the spot.

Facing the two knights on the other side, Xue Piao Renjian simply stretched out his hand to pull the old doctor onto his horse's back and said, " Hold on tight. "

It was a rare occasion that Xue Piaorenjian spoke to him, and the old Western doctor grabbed the saddle in fear and trepidation.

Time was counting down, and at the moment when the fence collapsed, Xue Piao Renjian whispered, " Speed up your movements. "

The other party's words were so concise and to the point that apart from Mi Yin, few people could immediately understand what Xue Piao Renjian meant. Including the old western doctor who had fought countless battles with them, it took him a while to realize what Xue Piao Renjian meant.

The routine of cooperation between knights and priests has been mentioned many times before. It is to borrow the ability of knights to give priests the mobility that they do not have, turning the opponent into a portable milk bottle, and increasing the chance of survival when fighting the enemy. For the kitchen knife team, especially the short-legged kitchen knife team, this is almost a nightmare configuration. Of course, it is not limited to short legs. For most other configurations, this combination is also very annoying.

But when facing two knights, this combination has big problems.

First of all, it is true that a knight with a priest gives the opponent mobility, but when on horseback, the priest cannot use skills. Fighting on horseback is the characteristic of knights, and if you want the priest to add blood, you must make the opponent dismount and put his feet on the ground.

In other words, in a normal battle, the knight should run away when he runs out of blood, and let the priest on his horse down to replenish his blood. Then, before the enemy catches up, he can pull the priest back on the horse and continue running, or just make a surprise attack. This

rogue tactic of fighting when you can and running away when you can't, and replenishing your blood while running is very troublesome, but when both enemies have the same speed as the knight, this tactic is even difficult to implement.

First, you cannot get rid of the enemy . Second, the moment you put down the priest, not only the priest but you yourself will become the target of the enemy's attack. Last but not least, the damage of the two knights is very explosive. You may not even have a chance to escape and will die on the spot.

When the old western doctor heard Mi Yin's explanation, he almost fainted with his eyes rolled back. But now when he thought about it, he easily understood what Xue Piao Renjian meant. At least for now, Xue Piao Renjian does not want to give up the classic riding and priest style of play and wants to give it a try.

In fact, if the pastor here was not the old Western doctor but Mi Yin, with their tacit cooperation and understanding, it might really be successful.

There is no need to shake off the enemy . Xue Piao Renjian can do two things at once and fight while cooperating with Mi Yin. Mi Yin can also move so quickly that he can get up as soon as he touches the ground and does not waste any time and public CD when healing people . The three factors that need to be worried about are solved one by one. These two people can indeed wear down two top knight opponents.

But traditional Western doctors are at a loss.

It's not that he can't do what Mi Yin can do as a priest, although there is indeed a certain gap in strength between him and Mi Yin, but if it's just these, he can do it.

But not only is his mentality not up to standard, he and Xue Piao Renjian also lack the kind of coordination and sense of rhythm. If their touch is not there and the rhythm is disrupted, the two of them will drag each other down. Not only will the old Western doctor be thrown off his horse, but Xue Piao Renjian might also be unable to fight because of the old Western doctor.

The old western doctor actually wanted to ask timidly, what if he was slow? But Xue Piao Renjian didn't give him a chance. To be more precise, the game didn't give him a chance either. The next second after Xue Piao Renjian said that, the game had already started.

The three knights rode their horses and rushed out from the birth point at the fastest speed. But how fast could the knights be? In the blink of an eye, the three horses had already collided with each other. The old western doctor struggled to hold the saddle tightly to prevent himself from being thrown off. Outside the arena, who could not feel it at all, there was an overwhelming shouting in an instant!

" Snow is falling on earth! Snow is falling on earth!!! "

He was once the strongest, and now, countless people are expecting him to bring a new myth! Xiaoxiao Yuxia was so nervous that she couldn't take her eyes off the camera. Ye Linyu couldn't help but laugh: " The official decision that the outside events won't affect the inside events is really very prescient. If the old western doctor heard this, that coward would probably fall off his horse right then and there. "

But then again, with everyone in the arena shouting Xue Piao Renjian's name in unison, the second place on the opposing team might be so angry that he would die.

Let's not talk about what happened outside the field. After the three knights came into contact inside the field, Xue Piao Renjian, who was carrying a person on horseback, was actually at a

disadvantage. Although the old Western doctor tried his best not to affect him and only dared to grab the saddle when he was about to fall off the horse, the weight was so great that Xue Piao Renjian's horse was still affected a little and was not as flexible as the horses of the two knights on the opposite side.

But even so, Xue Piao Renjian did not lose the upper hand at all when facing one against two. Although the two knights on the opposite side lost blood slower than Xue Piao Renjian on average, in fact, Xue Piao Renjian had already dealt damage equivalent to one and a half knights on the opposite side when facing two enemies on his own , which was extremely terrifying.

It was not until then that the two knights who came in second realized that Xue Piao Renjian was still Xue Piao Renjian, and what he said at the beginning was not false. In a one-on-one fight, the two of them had no chance of winning.

The two men immediately stopped underestimating each other and started to fight the enemy seriously.

Chapter 219

the knight profession in the PVP world can be described as dominating . This can be seen from the fact that 80% of the teams entering the official competition have knight profession. In addition to mobility, the knight's damage is also very explosive.

After Xue Piao Renjian and the two knights from the second team stood together , the health of the three of them was dropping rapidly, especially Xue Piao Renjian who was besieged by the two knights. God knows , he had dodged many enemy attacks, but his blood was still dropping as if he had his period.

Xue Piao Renjian was struggling and maneuvering under the attack of the two knights . The old western doctor was clinging to the saddle with all his might. He was almost thrown into the air, but he did not dare to move or make a sound.

You know , if the person here was not Xue Piao Renjian, but some other ordinary master , he would have died within ten seconds after coming into contact with the opponent! And now at least twenty seconds have passed , and Xue Piao Renjian still has one third of his blood left , which is already very impressive!

The old western doctor held on to the saddle tightly , and took a hard look at the blood line on Xue Piao Renjian during the bumpy ride . He was immediately frightened.

Xue Piao Renjian's health has now dropped by 30% . This can be said to be the most critical moment. If he doesn't react in time , he might die on the spot. However, the opponent has no reaction to this and is still fighting with the two knights of the second team.

The old Western doctor didn't know whether Xue Piao Renjian had made the most common mistake made by an output player, which was not paying attention to his own blood line, or whether he had other plans , but given the current situation, he should really leave. It would be too risky to continue fighting!

The old western doctor held his breath for a while, but couldn't hold it anymore and shouted: " Boss! Aren't you going to withdraw?!"

The old western doctor thought that his voice was loud enough, but Xue Piao Renjian seemed to have become deaf all of a sudden and could not hear anything at all, and continued to attack the enemy knight.

However, at such a close distance, just because Xue Piao Renjian couldn't hear it didn't mean that the two knights on the opposite side couldn't hear it either. The two of them took time out of their busy schedule to look at each other, and immediately increased the frequency of using their skills, continuing to suppress Xue Piao Renjian's health until the opponent had only 5% of his health left. Then they turned their horses' heads at the same time and used the last skill in their hands – flying kick – towards Xue Piao Renjian!

As long as these two kicks kill him, Xue Piao Renjian will definitely die on the spot! The first game will be won smoothly!

The old doctor was in despair. What the hell was going on? He hadn't even had time to use a single skill since he came on the field. Was he going to leave like this? What was wrong with Xue Piao today? Why was he so aggressive? Could it be that he thought he couldn't win anyway, so he let him down and fought alone?

The old western doctor became more and more depressed the more he thought about it, but he was intimidated by Xue Piao Renjian's tyranny and did not dare to take the initiative to get off the horse. He could only grab the saddle, close his eyes, and think about whether he should stand there with dignity and be trampled to death by the two knights on the opposite side, or be a hero and admit defeat.

However, Xue Piao Renjian certainly didn't think as the old Western doctor thought. When he saw the two knights using their final skills on him at the same time, he immediately rode his horse sideways at a very strange angle – such an action would of course slow down his speed, but it happened to avoid the attacks of the two knights.

The two enemy knights had not yet reacted after their kicks missed, and were just thinking about finishing off the opponent when they saw Xue Piao Renjian running away with the old western doctor on his back.

When Xue Piao Renjian was at a disadvantage before, everyone in the audience dared not make a sound for fear of startling him. It was not until Xue Piao Renjian ran away with little health that everyone breathed a sigh of relief. They were all terrified.

This blood line is too dangerous. You know, the key for the Cavalry and Priest combination to win a fight is stability. When the blood volume is low, run away immediately, and fight again when it is full. You know, some professions also have pursuit skills. Although this way of playing is very despicable, it has a high tolerance rate and reduces the possibility of casualties to a minimum. That's why the Cavalry and Priest configuration has such a great chance of winning.

The configuration of Xue Piao Renjian's opponent is equivalent to a double no-CD pursuit. For him, let alone 5%, 50%, or 80%, it is even necessary to fight and run from the very beginning. However, the veteran in the arena Xue Piao Renjian did not do so. With his current health volume, he would be basically finished if the two knights behind him caught up.

The players in the audience all felt the same way, and the voices shouting for Xue Piao Renjian became quieter. Everyone couldn't understand why Xue Piao Renjian couldn't think of something that even players who were slightly familiar with the arena could think of? Could it be

that Xue Piao Renjian's number one position was really limited to keyboard online games, and wouldn't work in holographic online games? !

" Tsk, " Potian sneered in a very provocative way. He was watching the live broadcast in the waiting area, and the reactions of the players in the audience were also recorded in the live broadcast: " This is the difference between ordinary people and masters. Look, those noobs sitting in the audience will have to sit there in the next, next, and next competitions. "

Potian's two teammates immediately covered Potian's mouth in fear – the scene in the waiting area was also being broadcast live, aren't you f*cking afraid of getting beaten? !

Potian struggled and whimpered, but was pressed even harder.

Ji Xuanyi thought for a moment and said, " It wasn't a mistake by Xue Piao Renjian that caused his health bar to drop so low. To be precise, this health bar should have been expected by him from the beginning. "

Although the audience on the scene could not hear what Ji Xuanyi was saying now, the players watching the live broadcast could hear it. In addition to wanting to explain for Xue Piao Renjian, Ji Xuanyi was also a little fed up with the messy and mixed replay posts in the forum after each game.

In previous matches, there were a large number of players in the waiting area, and most of the players watching the live broadcast would only occasionally glance at the screen in the waiting area and gossip about the reactions of each player. Not to mention that most of the players were discussing the enemy tactics after encountering the players who were in the game, and had no time to explain the game to the audience. Even if someone was talking, it would be impossible to hear clearly among so many people.

In this semi-final, excluding the four people on the field, there were only seven people left in the waiting area. No one spoke, so Ji Xuanyi's voice was very clear. In addition, Ji Xuanyi's strength was there, he was very sure of what he saw, and his explanation was fast and clear. The players who were watching the live broadcast became excited immediately, and " Thank you, big guy, we have a serious commentary " replaced " trashy chicken chuunibyou " and filled the entire screen.

However, Ji Xuanyi could not see this. He just continued calmly: " The Cavalry and Priest's stable health line play is indeed very important, especially when facing an opponent with the ability to chase and last hit. But this theory does not apply to the current situation. First, the pursuit ability of the two knights is not limited to last hit, and second, the knight in the Cavalry and Priest is Xue Piao Renjian. "

If it is an ordinary enemy , then stabilizing the blood line is indeed very important, but when the enemies are two top knights, stabilizing the blood line is not only not consolidating the winning rate, but is instead sending yourself into the enemy's mouth.

Firstly, Xue Piao Renjian's horse may not show any effect in a short distance because it has to carry the weight of an extra person, but in a longer distance tug-of-war, he will definitely not be able to outrun the two knights, while the latter can ride their horses all the way to chase Xue Piao Renjian and Old Western Doctor. The blood Xue Piao Renjian gained by putting Old Western Doctor down is probably not as much as the blood they lost. Xue Piao Renjian is too

conservative in protecting his blood, which will cause his output to decrease, and he will not be able to kill in battle .

In this situation, you keep fighting as you go. After a few cycles, the less skilled Old Western Doctor will definitely be killed first, followed by Xue Piao Renjian. This is a relatively good situation. If you are unlucky, or one of Xue Piao Renjian and Old Western Doctor makes a mistake, it is very likely that they will be caught when they first defeat Old Western Doctor, and then be killed in one wave .

Xue Piao Renjian's approach is very unique to him. To be precise, it is not a characteristic but a limitation of the tactics – only Xue Piao Renjian can complete this tactic, and anyone else will be killed directly in the first wave of firefight .

Because Xue Piao Renjian kept fighting from the beginning, even when his health was reduced to 5%, he turned a deaf ear to the old Western doctor's reminder with only one goal – to consume the skills of the two opposing knights.

No knight player can do this.

The opponent is two top knight players, one against two , and there is also a priest on horseback who is holding back. In this case, how can I use up the skills of both opponents! How is it possible!

Obviously, this is what the players watching the live broadcast are thinking.

But Xue Piao Renjian did it, and even dealt damage far higher than the opponent's average level. What the hell is this guy?

Perhaps in Ji Xuanyi's opinion, this was not something that could not be done, so when he was explaining it, he did not exclaim as excitedly as the audience imagined, but continued in a tone as plain as boiled water: " Use the opponent's skills completely and ensure that you do not die in the process, that's enough. It would be better if you can retain a little more blood, so that you have a higher margin of error. If you really can't retain it, there is nothing you can do, you can only do the next move to the extreme. "

" The knights in the second-place team are still very strong, " Ji Xuanyi thought for a moment and said, " Perhaps Xue Piao Renjian underestimated them. Otherwise, if Xue Piao Renjian had just divided a small part of his offensive actions into defense, his health would not be so dangerous. "

However, even if there is a small mistake, if it is a one-on-one duel, I will definitely win.

Xue Piaorjian, who was running away with the old western doctor, was distracted for a moment, then nodded affirmatively to his own thoughts with an expressionless face.

" The two knights will definitely continue to chase Xue Piao Renjian and Lao Xiyi, and Xue Piao Renjian will definitely be caught up, " Ji Xuan said, " but with two knights without skills, Xue Piao Renjian only needs to dodge the damage a little bit, and Lao Xiyi will be able to safely increase his health. "

" play safe " style of fighting while walking, which will most likely lead to being chased and beaten hard by others , Xue Piao Renjian's tactic is risky, but once it succeeds, it is truly stable .

" But this is the only chance, " Ji Xuanyi frowned and said, " After realizing Xue Piao Renjian's tactics, the two knights will save their skills for the next wave. This is why Xue Piao

Renjian tried his best to suppress the opponent's health in the first wave of battle. If he can't reduce the opponent's number in the next wave of battle, he and Lao Xiyi will definitely lose. "The audience watching the live broadcast nodded in sudden enlightenment, and while they were commenting on the barrage "I don't understand the world of masters", they were also mentally dissing those review posters who talked nonsense on the forum.

According to Ji Xuanyi's thinking, the previous matches must be much more exciting than what they saw! It's a pity that there is no commentary that can be understood ...

The audience wrote letters in blood begging Ji Xuan to post a review thread overnight, but the comments were not broadcast at all, so it was useless to ask.

During the time Ji Xuanyi was speaking, Xue Piao Renjian had already seized the opportunity and ran a long distance. The team of double knights just reacted and chased after Xue Piao Renjian.

The expressions on both of their faces were not good. It was obvious that during the pursuit, they, who had no skills, realized Xue Piao Renjian's tactics.

Originally, they were planning to hold back some skills during the battle, if it weren't for the old Western doctor's shout ... The two thought that the old Western doctor was Xue Piao Renjian's teammate and must understand what he meant, so they decided to use their last skill to kill him when the old Western doctor panicked . They never expected that the old Western doctor couldn't keep up with Xue Piao Renjian's rhythm at all!

It's such a pity to be in this position!

The old Western doctor's PVP awareness was not high enough, and he didn't participate in the battle much, so he didn't understand what had just happened. However, for him, it was very good that Xue Piao Renjian was willing to stop and run away first, and he was relieved.

Xue Piaorjian was clearly aware that the two people behind would soon catch up with him, and that running away would only waste the time he had gained previously. So after running for a while, he ruthlessly grabbed the old western doctor by the scruff of the neck and threw him off the horse.

When the old Western doctor was lifted up by Xue Piaore, he was still holding on to the saddle tightly. After being shaken off twice, he realized that it was Xue Piaore who was pulling him. He quickly let go and got off the ground, and began to support Xue Piaore.

The old western doctor's treatment had just landed on Xue Piao Renjian, raising his health to 20%, when the two knights behind him caught up.

Generally speaking, 20% is actually on the killing line, but at this time neither of them has any skills and the damage is limited. It is estimated that even if Xue Piao Renjian still has only 5% of his blood left like before, they will not be able to make a finishing move, not to mention that he now has 20%. They can only watch as the old Western doctor slowly raises Xue Piao Renjian's blood.

One of the knights saw that Xue Piao Renjian's blood volume could not be suppressed, so he immediately turned his fire to the old Western doctor. The old Western doctor was frightened by the opponent's fierce attack, and his movements slowed down for a beat. Fortunately, before the opponent's gun hit him, Xue Piao Renjian kicked him sideways, and the knight himself almost fell off his horse.

The old western doctor breathed a sigh of relief, quickly calmed himself down , and continued to nurse Snow to the Earth.

I was too nervous just now. In fact, if I calm down and think about it, I will understand that it doesn't matter if he is attacked. After all, he is just a feeding bottle. This battle mainly depends on Xue Piao Renjian. As long as Xue Piao Renjian can survive , it doesn't matter whether he dies or not. The most important thing is to replenish Xue Piao Renjian's blood before he dies. Next, the enemy attacked him again, and the old Western doctor just tried his best to dodge. If he couldn't dodge, he would grit his teeth and endure it, throwing his skills at Xue Piao Renjian madly, not caring about his own blood volume.

However, before he could fill the latter's breast with milk, Xue Piao Renjian reached out and lifted him back onto the horse without saying a word.

The old Western doctor was stunned for a moment before he reacted. The opponent's skill cycle had already been completed, but because he was off the horse and Xue Piao Renjian was protecting him intentionally or unintentionally, the opponent was still using the pressure-dividing attack. The moment he got on the horse, the opponent's knight's straight piercing skill just passed him by, and at this time, his own blood volume had actually bottomed out. If Xue Piao Renjian hadn't helped him, the old Western doctor would have been lying on the ground by now. In fact, not long after Xue Piao Renjian was caught up by the opponent, he started fighting with the opponent again. It was rare that he could take the old Western doctor's situation into consideration, but being able to pull him onto the horse was already his limit. He really couldn't take care of the expert on horseback. The old Western doctor was almost thrown off the horse again as soon as he got on. He quickly tightened the saddle and took the time to take a look at the blood volume of both sides.

According to Ji Xuanyi, this was actually the last wave of battle between Lao Xiyi and Xue Piao Renjian. In fact, it was true. Not only would the opponent not be fooled a second time, Lao Xiyi's health would also not be reduced a second time. Once targeted, he would die immediately. He was not Xue Piao Renjian. Facing two top knight players who were stronger than him, he would surely die with low health.

At this time, Xue Piaore's health had not even had time to be replenished by the old Western doctor – after all, he was replenishing blood while under the opponent's attack. Not only was his action interrupted, but Xue Piaore was also losing blood at the same time. Being able to add more than 70% was already a relatively sharp performance for a priest.

But the average health of the two opposing knights is still about 50%. There is no other way. Xue Piao Renjian also has to take care of the old Western doctor and cannot output at full strength. Reducing the health to this level is already the limit.

Xue Piao Renjian didn't look very happy. The enemy was not weak. Even if he could win in a one-on-one fight, there were two people on the opposite side. It was still a little difficult for him with this amount of blood. The faces of the two knights on the opposite side were even uglier. Not to mention that they were tricked, according to this configuration, they should have won easily. It can only be said that Xue Piao Renjian is worthy of being Xue Piao Renjian.

Finally, when Xue Piao Renjian's health was reduced to 30%, he successfully killed a knight on the opposite side with less health.

This knight was more difficult to deal with. Even after his own health was in danger, he turned around and tried to run away. It was a big taboo to let an opponent with little health get away in the endgame. Not only did he need to be wary of his sneak attacks throughout the whole process , but it was also easy for him to have problems with his mentality. Xue Piao Renjian could only spend some more time to kill him , but this also resulted in his health dropping to 30% while the other knight still had 70% left.

Xue Piao Renjian is indeed very strong, but his opponent is not weak. In this case, how can they fight each other with the same profession but almost double the HP difference? Xue Piao Renjian doesn't even have as many skills as his opponent!

If it were someone else, even if he didn't say it, he would probably feel that he had lost in his heart. However, Xue Piao Renjian remained calm and directly faced his opponent. His attack was so fierce that he even forced the latter to retreat several steps!

After all, he was once the number one, and his strength was still there, but his opponent was no pushover either. After a moment of weakness, he gritted his teeth and fought back – the current situation of the battle was also the result of his teammates fighting hard, so how could he just retreat like this!

Both knights fought desperately, but Xue Piao Renjian was Xue Piao Renjian after all. The health of the second-place team was decreasing much faster than Xue Piao Renjian! But don't forget, the difference in health between them was as much as double. No matter how fast the opponent's health dropped, Xue Piao Renjian would only have less than 20% of its health left! Both of them were very ruthless, and the battle pace was so fast that the audience could hardly keep up with their movements, and the health lines of both of them were frantically rushing towards the bottom of the health bar!

In the end, both of them had only 20% of their health left – only one move left, whoever was faster would win!

The shouts from the audience were overwhelming and many people's voices broke. If this wasn't a game, many people's throats would probably be bleeding!

The old western doctor was completely confused, but at the last moment, he heard Xue Piaorjian let out a slight click of the tongue.

Xue Piao Renjian's gun was 0.1 second slower.

He lost.

Until Xue Piao Renjian fell to the ground, many people still didn't react what had happened. They only saw the old western doctor who fell off his horse on the field get up with a very funny move, raised his staff and rushed towards his opponent – but he was just a priest with only a little blood left, how could he beat the knight? He fell to the ground with just one move, and was refreshed back to the resurrection point together with Xue Piao Renjian.

The audience gradually quieted down, but the absolute silence only lasted for a moment before shouts broke out again— " Snow is falling on the earth! Snow is falling on the earth!!! "

Although he lost, this battle has already explained everything. Xue Piao Renjian is still the same Xue Piao Renjian! One against two , only one move away! Just like he said in the waiting area, he will win! They also believe that in the next round, Xue Piao Renjian will win!

However, the contestants did not feel the support of the players outside the venue for Xue Piao Renjian. When the old western doctor came out of the passage, he almost cried silly. Xue Piao Renjian looked at him coldly and ruthlessly tore it off his body and threw it directly to Mi Yin. Mi Yin seemed to have known the ending long ago. She said nothing but smiled helplessly and comforted the old Western doctor.

When the two opposing players walked out of the passage, they looked at Xue Piao Renjian with extremely complicated eyes , as if Xue Piao Renjian was the winner, not them.

It was not only because Xue Piao Renjian's own combat power was much higher than they had imagined, but also because normally speaking, the winners of this battle should be Xue Piao Renjian and his team ...

One of the knights turned pale and said, " Fuck! You look down on us so much?!"

Chapter 220

Because of his concerns , the knight did not speak loudly, but the live broadcast signal was very good, and even if the voice was low , it was still heard keenly by some viewers.

Many people did not react and subconsciously asked what was going on in the barrage, but the barrage was not open to the players in the waiting area , so Ji Xuanyi certainly could not see it, and even if he saw it , Ji Xuanyi did not intend to answer.

Some things are better left to be known by everyone; there's no point in speaking them out. Just like in the game just now, Xue Piao Renjian actually had a way to win , but he just didn't use it. This is also the reason why the second knight looked so unhappy.

Even though the battle was fierce on the court just now and he didn't react for a while , he understood it after he got off the court.

Xue Piao Renjian lost this game on purpose.

There was an extra person on Xue Piao Renjian's horse , and although the impact was very subtle , it did hinder his battle . Not to mention other things , even if the old Western doctor was thrown off the horse just to reduce the weight , it would be very likely that Xue Piao Renjian would turn the defeat into victory , not to mention that the old Western doctor could even add blood as a priest.

Even if he is too slow to act in time, the old Western doctor can act as a bait to distract the opponent , or attract firepower for a moment.

Under the circumstances at the time, as long as the old Western doctor was left behind, no matter which of the above situations occurred, the outcome of the entire battle would be very different.

But Xue Piao Renjian didn't do that. Facing this defeat, his expression didn't even change much. It was obvious that he had known that he would lose.

Ji Xuanyi probably understood what Xue Piao Renjian was thinking. It seemed that Mi Yin still liked Old Western Doctor as his teammate. Although it was hard to say whether Mi Yin would be excited to flirt with players of other professions in the future, Old Western Doctor would most likely become a regular teammate of him and Xue Piao Renjian.

Old Western Doctor is indeed a very talented PVP player. As a priest who lives in the wild, he can probably be considered a strong man who can dominate team battles of more than five and less than ten people. But when it comes to the arena, especially this kind of competitive arena, he is much worse in both mentality and awareness. This can be seen from the first round of the game.

Of course it is possible to improve. It can be said that for a talented player like Lao Xiyi, improvement is easier than eating and drinking. However, the reason why he has played three rounds in a row and is still the same as at the beginning is that there are problems in two aspects.

One reason was that the opponent was too weak. With Xue Piao Renjian and Mi Yin around, the old Western doctor had no intention of becoming stronger. Until the last game, he was probably thinking about clinging to the two big guys and not doing anything else.

Secondly, everything has been going too smoothly for the old Western doctor. He has never lost a single game so far, and his desire to win has not been aroused. How can he become stronger if he doesn't even have the desire to win?

That's why he lost the last match so regrettably. The old Western doctor may have realized that the key to victory or defeat lies in himself, but the situation at that time did not allow him to think too clearly. This vague awareness made him feel more guilty, and his desire to win and become stronger became stronger.

However, Ji Xuanyi didn't think that this match was planned by Xue Piao Renjian from beginning to end. The latter didn't have so many ideas. The original plan was probably to let the opponent win a little. This match was so exciting, it must be that the opponent was really strong, or the old Western doctor was really a drag. Xue Piao Renjian probably tried very hard, and only then did he manage to play the match like this. The losing move was just something he remembered at the last minute and just went with the flow.

In Ji Xuanyi's opinion, Xue Piao Renjian still didn't do enough. If he were to take the field, he would probably have to say some high-sounding nonsense to the old Western doctor, such as "It's not that we can't win, but I can't give up on my teammates", so that the latter would realize it more thoroughly.

But considering the nature of Xue Piao Renjian, telling lies is probably more difficult for him than fighting two people at the same time, so let it go. Moreover, judging from the current condition of the old Western doctor, the failure in the last game has already had a great impact on him. Now that the goal has been achieved, there is no need to worry about whether the effect is the best. Over-stimulation is not a good thing.

But in a way, there was nothing wrong with what the knight player from the second-place team said. Xue Piao Renjian was indeed underestimating them, otherwise he would not have used them as a whetstone to sharpen his mentality as an old Western doctor.

You know, training teammates is important, but it also depends on the occasion. Also, although finding opportunities is troublesome, they can definitely be found. Victory only comes once, and it is equally important to them. Since Xue Piao Renjian decided to educate the old Western doctor in this semi-final, it is probably because in his opinion, this team has no chance of winning in the next two games.

Xue Piao Renjian seemed like a taciturn person, and he still held a grudge after all this time? Ji Xuanyi couldn't help but think.

Maybe he held back during the fight to let the other side notice it, probably because of the previous quarrel? Ji Xuanyi thought that after the two teams had fought, both sides had a better idea of each other's strength, and the relationship might get better, but it seemed that it had completely slid to the worse side. Mi Yin now looked like she was comforting the old western doctor, and she must have been speechless in her heart, right?

Ji Xuanyi's guess was correct, this was indeed the case. While Mi Yin was comforting the old western doctor, he was indeed complaining in his heart. However, he had vaguely expected Xue Piao Renjian to do this, so the extent of his complaints was not too strong.

In pvp , who doesn't have two enemies? If there are conflicts, there will be conflicts. They are in different servers. At worst, they can continue to fight in the next arena competition ... Mi Yin silently comforted herself in her heart.

It took the old western doctor a long time to recover. It was a bit embarrassing that he couldn't hold back and burst into tears, but the old western doctor was a thick-skinned man. The embarrassment passed in a moment, and was replaced by an infinitely strong desire for revenge in his heart and the determination to win with Mi Yin and the other two.

The old western doctor calmed down his emotions, looked at Mi Yin, and said seriously: " Let me play again, I won't lose this time, I will cooperate with Master Xue Piao to win back together! "

Mi Yin looked at him deeply, and the old Western doctor looked back at him very solemnly, and the two of them looked at each other.

Just when the old doctor and many live viewers thought that the exciting " Go ahead, I believe in you! " scene from the TV series would appear, Mi Yin said: " No, it's best of three. If we lose another game, we will go home. "

Old Western doctor: "..."

Live audience: " ??? "

Mi Yin said very seriously: " You are still too new. Xue Piao can't carry you. In the last game, I took advantage of the opponent's inattention and used tactics to gain an advantage. If Xue Piao carries you up again in this game, he will chase you and beat you to death. "

Although Xue Piao Renjian didn't say anything, he nodded in agreement.

Old Western doctor: "... qaq ! "

This script is wrong! Normally, shouldn't the coach (crossed out) take the risk of sending a player who has already lost a game, and then the latter explodes with his little universe and wins back the way he lost? ! Miyin, what are you doing to Fei Si!

Mi Yin smiled kindly and mercilessly pushed the old western doctor aside, saying: " There's nothing we can do. You're too new. You won't have a chance to play after this competition. Just watch from below. We'll talk about it next time, hahaha ..."

Old Western doctor: "..."

The old western doctor felt like his whole body was about to break apart. Although he had some doubts about his own strength , there was no need to be so ruthless! Was there no chance for him to play this year? !

The live audience was also convinced by Mi Yin's honest words, and couldn't help but brush on the barrage: " Being a bad student is the original sin, I understand. "

After pushing away the old western doctor who had angrily decided to hone his techniques and consciousness, Mi Yin walked up to the registration desk, where Xue Piao Renjian was already waiting.

If the opponent had changed to a different configuration, they might have had more options for selecting players, but the opponent had two knights and a priest, so Mi Yin was destined to have to focus the battle on Xue Piao Renjian. If he couldn't use a cavalry priest, he could only use a cavalry assassin, and he couldn't use a thorn priest no matter what.

The opponents were still immersed in the anger of being looked down upon by Xue Piao Renjian and even being used as a whetstone to train their young teammates. They were ready to give them a hard time if Xue Piao Renjian brought the priest onto the field again. But when they saw that the person who came on the field was Mi Yin instead of the old doctor, the two knights' faces did not look better.

If they go to the old Western doctor, they feel that he looks down on them. If they go to Mi Yin, they feel a little guilty and he is really difficult to serve.

But the duo of Mi Yin and Xue Piao Renjian is well-known, and their strength is obvious to all. However, in addition to their individual combat capabilities, the tacit understanding between these two people is also terrifying, and they can be said to be invincible in the arena.

In the previous era of keyboard online games, if Xue Piao Renjian replaced Mi Yin in single-player competitions, then in the arena, whenever these two people teamed up to participate in a competition, the championship would never fall into the hands of anyone else.

It was because they had moved to a holographic online game, and because the two of them were only ranked fifth in the auditions, that everyone relaxed their vigilance against them. Now that they have discovered that their strength has not declined due to the change in game environment, and has even become stronger, when these two people are put together again, the second place can't help but dread them.

They can fight hard enough with just one person, what about two people?

But this vague panic only appeared for a moment and was then suppressed. After all, the fight hadn't started yet, and being cowardly now would be too damaging to morale.

The three people on the second side gathered together and looked at each other, not sure whether they should use a cavalry priest or a double cavalry.

The latter is of course more powerful and can better restrain assassins, but the opponents are Mi Yin and Xue Piao Renjian, and it is hard to say whether they can win in a head-on fight.

Although the former is more stable when facing a kitchen knife team, assassins are more restrained against priests, not to mention that it is Mi Yin's assassin. It is not known whether the dirty style of the knight and priest can work ... This is really a headache.

Fortunately, the second place team is a serious arena team. They did not use stupid tricks like rock-paper-scissors. Instead, they planned to use cavalry and priest first and play a safe game. After all, they won the first game, so it would be best if they could win the second game. If they lost, they would not be eliminated. If they were unlucky enough to lose, they would send two knights to fight with all their might in the last game.

In the deciding game, the Cleaver Team will have an exceptional performance in terms of momentum and strength. It would be best if they can win, but if they lose, they have tried their best and the opponent is just stronger. They will be convinced and have no regrets.

After the three of them discussed it, they decided to send out the Cavalry and the Priest to fight this battle.

Mi Yin has a good impression of opponents who take the game seriously. If there hadn't been a conflict between them before, he would have gone up to say hello and see if he could poach some of their players (?). But there's no need to do that now. If he went up to them, people might think he was going there to make fun of them.

Both sides registered their lineups and took to the court.

At this point, after learning about the game lineup, the players in the audience and those watching the live broadcast were almost going crazy.

Xue Piao Renjian and Mi Yin! A sentimental combination, a divine combination! They have too many fans and fans, but these two haven't participated in a competition together for a long time. This time they can meet again, and it's a holographic live broadcast. The fans are going to faint! When the two of them appeared at the birth point together, the barrage was immediately filled with the words "Xue Mi, go for it!" It was a pity that Mi Yin couldn't see it, so he couldn't explain it. But it probably wouldn't be of any use even if he explained it ...

"Well, to be honest, I never thought that there would be a day when we would be able to fight side by side in a competition again ..." Mi Yin couldn't help but say in a low voice.

Xue Piao Renjian glanced at him and replied, "I will do the same in the future."

Mi Yin couldn't help laughing when she heard this and said, "Well, there's still a lot of time." Even when the snow is falling, smiles appear on the earth.

There was a lot of screaming in the live broadcast barrage!

However, there was not much time left for the fans to celebrate. Soon, the countdown came to an end. Amid the roar, the fence separating the spawn point and the field collapsed. The moment Xue Piao Renjian rode away from the spawn point, Mi Yin reached out and shook hands with him. The former pulled lightly, and Mi Yin handsomely jumped on the horse. The two of them rushed out without any pause.

The two contestants of the second team, who had already climbed onto their horses and were ready before the show started, were immediately compared to each other and looked neither handsome nor in sync.

After complaining bitterly about Mi Yin and Xue Piao Renjian's actions in his heart, the knight here also carried the priest and rushed out of the birth point quickly to meet the two of them. There were horses on both sides, and the knights came into contact quickly, and within a few seconds they were within each other's combat range.

The knight here started with a stab on horseback. The damage of this skill was very high, but the CD was not too long, so it was very convenient to take the initiative. He thought Xue Piao Renjian would use the same trick to compete with him in speed and positioning, but he didn't expect Xue Piao Renjian to directly tighten the reins, raise the horse's front hooves, and start trampling and kicking him with his big skill!

The CD of the trample skill is not short. Apart from the skill cycle , it is usually used after catching the opponent and wanting to kill him. I didn't expect Xue Piao Renjian to be so fierce and not leave any back-up plan. However, in this way, not only can the damage of the stabbing be failed, but a large amount of blood will be lost. Even if a priest is brought with him, it is still a loss.

The knight complained about Xue Piao Renjian in his heart, anxiously wondering what he would do after he used his skill so early. At the same time, he had to retract his offensive and forcibly turn his horse's head to avoid the kick.

But Xue Piao Renjian's skills were not so easy to dodge. Qi Qin was a little flustered when facing his trampling skills, let alone this knight? As soon as he dodged the first kick, Xue Piao Renjian forcibly controlled the horse's displacement and kicked him again. He had no choice but to continue dodging, and he was almost thrown off the horse by the horse's large movements! Just when Xue Piao Renjian kicked the knight for the third time, the positions of the two men and their horses moved to a very awkward angle, and the other knight finally saw the whole picture of Xue Piao Renjian and his horse from the side – the back of Xue Piao Renjian's horse was empty? !

The knight was suddenly startled. Because of the previous perspective problem, he had no idea when Mi Yin got off Xue Piao Renjian's horse. Of course, he didn't know where the other party had gone now!

It was just a matter of a split second, and the knight suddenly reacted, and immediately wanted to swing his gun to attack from behind, but when he remembered that there was a priest on his horse, the knight's movements slowed down, and he had to quickly turn around to look!

However, before he turned his head, he heard a scream from his teammate, and then the weight was lightened and his teammate actually fell to the ground!

The knight, who was in the first person perspective, couldn't see anything and lost his teammates in a daze, but the audience in the stands and the players in the waiting area saw everything clearly.

In fact, the moment Xue Piao Renjian launched an attack on the knight, Mi Yin jumped off the horse from behind when Xue Piao Renjian's horse stood up, and instantly entered invisible state. The purpose of Xue Piao Renjian's trampling skill at the beginning was only one, which was to make the opponent suffer a big bump because of dodging the attack and losing balance – this was thanks to the old Western doctor who would complain to him about not being able to hold the saddle every time after playing in the arena, and Xue Piao Renjian became concerned about this matter.

The bumps had a huge impact on the knight, almost making him fall off his horse. The impact on the priest behind him was even more terrible. His teammates desperately held on to the saddle to avoid falling off. However, at this moment, Mi Yin, who was in invisible state, teleported directly to the side of the priest, startled him and attacked his hand!

Not to mention the normal reflex of a person being attacked, the priest was still holding his staff! Of course, his grip on the saddle became weaker, and coupled with the violent shaking of the horse, it would be strange if his teammates didn't fall off!

Because the knight realized that Mi Yin might appear a moment in advance, he reacted very quickly and reached out to grab his teammate immediately, but Xue Piao Renjian had not yet used up his skills, and the last kick was a solid one, causing the knight to stagger.

At this moment, Mi Yin rushed over tacitly and used a poison blade directly on the priest who wanted to reduce his own damage, paralyzing the opponent on the spot, and swung the dagger to slash at him, using all his skills, and slashed the priest to only half of his blood. At this time, Xue Piao Renjian, who had pushed away the opponent's knight, also rushed over and cooperated with Mi Yin, using all his skills and beating him violently, causing a wave of kills before the opponent's knight arrived !

The whole audience was shocked by the swiftness of Mi Yin and Xue Piao Renjian's movements and their tacit cooperation!

You know, it was less than a minute since the battle officially started, this kill came too fast! And the other knights were even in a state of confusion! Maybe they haven't reacted yet to how their teammates fell off the horse!

What the hell is this magical configuration and playing style of Xue Piao Renjian and Mi Yin! killing the opponent's priest, Mi Yin immediately caught up with Xue Piao Renjian in three or two steps. As soon as the latter stretched out his hand, Mi Yin got on the horse while running. Although the opponent had been reduced in number, neither of them had any powerful skills now, so they ran away.

The knight on the opposite side stared at the corpse of his teammate for a long time, and then he realized it and chased after Mi Yin and Xue Piao Renjian – but it was difficult for him and another knight teammate to fight Xue Piao Renjian together, so how could he possibly kill Xue Piao Renjian and Mi Yin alone? It didn't take long before he was killed in one wave by Xue Piao Renjian and Mi Yin who had already prepared their skills, and lost the second round of the game.

Compared with the first round, the second round was really too fast ... fast and confusing, but you can't say it was not exciting. The main reason was that the cooperation between Mi Yin and Xue Piao Renjian was too natural. The connection of skills was like eating and drinking, and no one reacted well.

When I saw the reactions of Xue Piao Renjian and Lao Xiyi, I thought the second game would also be a close one, but why does it seem like a crushing victory now?

It was such a daze. Even though it was clearly a win, the cheers in the second game were not as loud as the first. The fans just looked crazy and as if they were high.

It was not that they did not expect to lose the second round, but the second place team really did not expect to lose this round so easily. They were simply beaten to the ground, especially the priest, who did not use a single skill when he came on the field! He was defeated in one go, and his teammates were stunned!

When the two second place contestants came out of the passage, there was even some conflict. One said that he didn't know how he lost, and the other said how dare you say that when you were so fucking crazy!

When the two approached, Ji Xuanyi could hear them arguing. One of them said, "Ma Dian, why didn't you tell me earlier?!" The other one cursed, "Isn't it for my mother to take care of your output environment and try not to distract you from irrelevant things?"

The two of them were arguing and almost fighting. The remaining knight who hadn't played had an ugly expression on his face. The old western doctor opened his mouth wide, looking at Xue Piao Renjian and Mi Yin coming out of the passage, and muttered: " It seems like I learned something, but to have such a level of tacit understanding? Will I be torn apart by hand? "

Ji Xuanyi: "..."

What on earth is this old western doctor thinking about?

Chapter 221

The second-place team finally realized that they had still underestimated Xue Piao Renjian and Mi Yin , but they had already entered the deciding round, and it was too late to regret the configuration they had sent out in the previous game.

The priest and the knight argued for a long time before they realized that the screen in the waiting area was still being broadcast live, and they stopped awkwardly.

Seeing the knight captain who didn't play in the last game had a livid face , the priest felt a little ashamed, but since they had already lost, he could only comfort him: " Although we lost , this tactic is the safest one . Don't take it too seriously. "

He was right . The captain's expression eased a little, and he shook his head again, saying, " I should have thought of this earlier. Once a team plays it safe in the arena , it will most likely lose. Without the will to fight , how can it possibly win? "

It is wrong to try this idea from the beginning . Only those who try their best are qualified to win. The knight captain stood up suddenly and said with a firm look: " Let's go , it's the last game. " The knight and the priest looked at each other , the priest stayed , and the knight followed the captain to register.

For both Mi Yin's team and the second place team, this was the first time they had to play a decisive game in a 1-1 situation . Although there was no change in the status of the two teams, the spectators watching the game were very excited.

The old western doctor calmed down from the blow of failure and no longer clamored to go on the court. Even if Mi Yin asked him to go in the final decisive game, he would not go. It was not because he was afraid, but mainly because he knew his own weight and knew he could not play this time. So he just encouraged Mi Yin and the others and returned to his seat.

When Ji Xuan saw that Mi Yin's face turned green after being invigorated by the old western doctor, and he looked like he had lost all hope in life, he couldn't help but ask: " What did you say to Mi Yin? Why does he look like that? "

The old western doctor was stunned for a moment and said, " What's wrong? I told him that his cooperation with Xue Piao Renjian is amazing. After this game, he will definitely have more fans ..."

Ji Xuanyi: "..."

Are you going to cheer her up? Are you trying to make Mi Yin lose her temper? Are you an undercover sent by the other side? ? ?

Ji Xuan was completely speechless. Fortunately, Mi Yin was not affected too much. After all, he was used to it. Too many lice won't itch, and too much powder won't be a worry!

The captain of the second team looked at Mi Yin and Xue Piao Renjian with a complicated expression. Just as he was about to say something, Mi Yin shook her head at him and said, "Let's talk after the fight."

The captain fell silent, put down the registration form, and led his teammates into the passage. Mi Yin glanced at their backs, smiled, and said to Xue Piao Renjian: "Let's go too. It's a good time to take a break after this fight."

This statement seems to have confirmed that they will have a place in tomorrow's finals.

Xue Piaorjian didn't say anything, just nodded and walked towards the passage in silence.

The two teams took their positions and walked to the birth point. Mi Yin had originally planned to mount his horse like in the previous game. Although it had no effect on the battle situation, such an action could, on the one hand, boost morale, and on the other hand, confirm that he and Xue Piao Renjian were ready to cooperate with each other. It was a necessary habitual little action. But Mi Yin suddenly remembered what the old western doctor said, and couldn't help but imagine the scene of herself getting on the horse from a third-person perspective, and found that it did seem a bit gay?

Mi Yin didn't dare to show his tacit understanding anymore. He honestly used both hands and feet to climb onto Xue Piao Renjian's horse. This surprised Xue Piao Renjian a little, and he couldn't help but look back at him in surprise.

Mi Yin said with a sad face: "Good brothers should climb onto the horse themselves!"

Snowfall: "..... ??? "

Although Xue Piao Renjian looked confused, how Mi Yin got on the horse actually had no effect on the battle. As soon as the countdown ended, Xue Piao Renjian immediately drove the horse and rushed out like an arrow.

This time, the two knights on the opposite side learned the lesson from the previous game and did not sprint in a straight line again. Instead, one of them made a slight detour and carefully included the side of Xue Piao Renjian's horse in his sight, making sure to prevent Mi Yin from disappearing silently again.

Although almost everyone thinks that keeping an eye on an assassin is a very stupid thing, for such a battle-hardened master, knowing when the assassin disappears, where he disappears from, and how far away he is from himself and his teammates , once the opponent launches an attack, there is almost a 60% probability of predicting the opponent's actions.

Sixty percent may not seem high, but when facing an elusive profession like an assassin, it is a very rare accuracy rate. If the prediction is successful and the assassin is caught off guard, with the explosive power of the two knights, they may be able to take the person away in one wave. Of course they would not miss such an opportunity.

As an assassin, how could Mi Yin not know what the other party was thinking? Facing the other party's surveillance, he already had a countermeasure!

Before Xue Piaorean Renjian came into contact with the local knight, when there were about seven or eight meters between them, Xue Piaorean Renjian suddenly reached back and held Mi

Yin's arms. Then he straightened his legs on the pedals, exerted force from his waist, and with a low shout, threw Mi Yin directly into the sky!

He learned this move from Ji Xuanyi and Qi Qin. Fortunately, Mi Yin was an assassin with a thin body, otherwise, with Xue Piao Renjian's posture and his slightly weak strength, he might have been thrown off the horse.

Although this action was sudden and somewhat disruptive, the falling speed was certain after all, which made it easier to judge Mi Yin's position. The two knights on the opposite side immediately looked up at Mi Yin!

Unexpectedly, the scene was completely different from what they had imagined. As soon as Mi Yin broke away from Xue Piao Renjian's hand and left the "horseback range", he immediately activated the invisibility skill. At this time, he was even in a state of flying upwards, and because his movements were too fast, there was no time to determine which direction he was flying. In other words, let alone which direction Mi Yin fell from, they didn't even know which direction Mi Yin disappeared from!

This is fucked up. In this situation, there is no point in making any predictions!

The two knights were stunned for a moment and had to give up guessing Mi Yin's actions. They temporarily focused all their attention on Xue Piao Renjian.

In fact, they couldn't be distracted even if they wanted to. After Xue Piao Renjian threw Mi Yin out, he immediately came into contact with the knight who was rushing towards him. He stabbed the knight with a shot, and the knight almost fell off his horse.

Just like Xue Piao Renjian said, he was the only one who would win in a one-on-one duel with the knights. Now the one-on-one situation was obviously disadvantageous to the second team. The captain, who was originally preparing to target Mi Yin from the side, could only rush up immediately to support his teammates and try to reduce Xue Piao Renjian's health.

But this time, their blood pressure reduction speed was obviously not as fast as last time.

The old western doctor couldn't help but ask: "Has the snowy world finally exploded?"

Ji Xuan glanced at him and said, "No, Xue Piao Renjian played the same as before. It seems that the situation is better this time only because both opponents have a little more concerns and have become hesitant to attack."

Although they had forced their attention to Xue Piao Renjian, how could they not be distracted by Mi Yin, such a big assassin who was still hidden? Compared with the previous explosive play, this time, every time they used a skill, they would consider in their minds whether they needed to save the skill. What should they do if Mi Yin suddenly appeared?

The two of them would even be distracted and pay attention to each other's backs, fearing that Mi Yin would suddenly appear. Once they failed to react in time and were controlled, they would be doomed!

However, Xue Piao Renjian had no worries at all. To be precise, because his teammate on the field was Mi Yin, he knew her and trusted her unreservedly. Now could be said to be the moment when he was most relaxed and could fully display his strength!

As one was gaining strength while the other was losing strength, although it was clearly a one-on-two situation, Xue Piao Renjian's health was dropping relatively faster, but in terms of

momentum it was as if he was the only one suppressing the other two, and the rhythm of the battle was more and more under his control!

Seeing that the situation was getting more and more wrong, the captain of the second team couldn't help but curse inwardly: " Fuck! Why hasn't he come out yet! Does he want to waste time with us like this? "

If they continue to be distracted, it would be a real joke if the two of them were caught by Xue Piao Renjian!

" There's nothing we can do, " his teammate said bitterly, " As long as he stays invisible as a deterrent, Xue Piao Renjian can gain the upper hand. Why should he come out? Unless we can reduce Xue Piao Renjian's health. "

But doing so would inevitably lead to less vigilance against Mi Yin, and once caught, it would basically be the end of the game.

The captain of the second place realized at this time that they should not have worried so much at the beginning. After thinking about it, they still wanted to save their skills. In fact, it didn't matter even if they used more skills. After all, the assassin's pursuit and killing did not pose much threat to the knight. They only needed to suppress Xue Piao Renjian and grasp the rhythm of the battle. There was still a certain possibility of victory.

But it's no use saying this now. Their performance in the first two games was not very good, and they were affected in this game. They became less keen in grasping the opportunities, which led to them losing the initiative. If they continue to be timid, you know how miserable the defeat will be without even playing.

The captain gritted his teeth and whispered, " Let's go! "

The health of both of them and Xue Piao Renjian is decreasing, and it is estimated that it will be not long before Mi Yin makes a move . Now they can only use their mobility to run away first while Mi Yin is not on Xue Piao Renjian's horse, and then strike back when Mi Yin realizes that he can't catch up and climbs onto Xue Piao Renjian's horse !

However, in this way, the rhythm of the battle will become very tight for them. After all, Xue Piao Renjian and Mi Yin move less, while they have to run around, and it can be said that they cannot afford to make any mistakes. However, this is also a way to slowly regain the rhythm and recover the advantage through high-frequency short contacts. He believes that with his own and his teammates' abilities, he can still do this.

His teammates immediately understood his plan from just one word, and without saying a word, they waved their guns to drive Xue Piao Renjian away and prepared to evacuate.

If all goes well, once they start fighting while running, it will be difficult for Xue Piao Renjian and Mi Yin to catch them. They can also take this opportunity to stabilize their position, slowly regain the advantage, seize the opportunity and kill Xue Piao Renjian !

As long as Mi Yin is the only one left on the field, even if he still has a lot of health, he will have no chance of turning the tables due to the professional suppression of the knight.

Having made up their minds, the two men immediately prepared to distance themselves from Xue Piaore Renjian. They moved very quickly. Logically, Mi Yin should not be able to react in time. Taking the latter's mobility into consideration, Xue Piaore Renjian would definitely stay and wait for him. Of course, it would be even better if Xue Piaore Renjian did not wait for Mi Yin and

chased them alone. Once the two men's positions were out of sync and Mi Yin was unable to provide support, they could then besiege Xue Piaore Renjian without any worries!

The two people had very beautiful thoughts. When they turned around and prepared to distance themselves, Xue Piao Renjian did not make any move to chase them. It seemed that he instantly understood their intention to run away, so he gave up the pursuit and waited for Mi Yin to meet him.

To be fair, he and his teammates could not do this so decisively when the enemy turned around and tried to escape. In terms of tacit understanding alone, they were indeed not as good as Xue Piao Renjian and Mi Yin.

But this is exactly what they want. If Xue Piao Renjian chases and beats them and then stops in time, it would be a bit of a loss for them!

As he was thinking this, the captain suddenly felt something was wrong. He subconsciously turned his head to look at his teammates, and saw that there was a subtle fluctuation in the air behind them .

" Turn back!!! " He shouted almost heartbreakingly, but it was too late. Mi Yin appeared out of thin air in an instant and stabbed the knight in the back with a knife!

Poison Blade is activated, paralyzing for three seconds!

The knight froze immediately, unable to move like a stone statue, but because the horse was still charging forward, the knight lost his balance and fell hard to the ground. Mi Yin pounced on him without hesitation.

The second captain immediately wanted to turn back to rescue, but Xue Piao Renjian had already caught up and stopped him directly!

In a one-on-one fight, he was no match for Xue Piao Renjian and could only watch his teammate being killed by Mi Yin , while his own health was no longer recoverable.

They lost ...

The moment the game ended, the cheers from the audience had reached their highest point, but unfortunately Mi Yin and Xue Piao Renjian could not hear it. The two of them just smiled at each other, whispered something, and returned to the waiting area through the passage.

The faces of the three members of the second team all looked unhappy. Normally, an assassin would be very passive when facing a knight, not only because of his mobility, but also because the knight was sitting on a horse, which was far beyond the assassin's attack range. It was very difficult to catch a knight and kill him .

Until now, they still don't understand how Mi Yin did it. They moved so fast, how could Mi Yin catch up with them and stab the knight? How could he have grasped the timing so accurately? Because there was no way to predict Mi Yin's position, they could only rely on combat experience to make inferences. In the minds of the second-place captain, they actually tended to believe that Mi Yin's position would be closer to Xue Piao Renjian. After all, it was not easy for an assassin to fight a knight alone. But when Mi Yin appeared, they were actually seven or eight meters away from Xue Piao Renjian, and Mi Yin seemed to have been prepared and had expected them to evacuate ...

This made the three members of the second team very depressed. They had already lost, so they simply didn't care about face. After Mi Yin and Xue Piao Renjian came out of the passage,

the captain of this team came up to them and said bluntly: " You are very strong, we are really no match for you. "

Mi Yin was stunned for a moment, and just as she was about to say something, the other party said, " It's not about saving face. We did lose so quickly because of a tactical mistake. We didn't give our all this time. "

Really unwilling to admit defeat, Mi Yin couldn't help showing a helpless smile and said: " I feel it, after all, this is the first competition, it's normal to be unfamiliar, I hope you can show your strength in the next competition, and, what I said at the beginning was indeed unintentional, you are indeed very strong, I just ... oh, sorry. "

The captain shook his head solemnly: " In online games, being bad is the original sin. You guys are awesome, so you are qualified to say that. "

Probably because he couldn't think of anything else to say, the captain held it in for a long time, but finally gave up and said shamelessly: " I just want to ask, how did you catch my teammate? "

Mi Yin didn't expect the opponent to suddenly serve a straight ball. She was stunned for a moment before she reacted. She looked at the opponent innocently and said, " I don't know either. You were fighting in a group, kicking around. Wouldn't it be easy for me to get hurt by mistake if I was lying in ambush? I just walked a little further away , and who knew you would suddenly rush towards me ..."

Mi Yin spread her hands helplessly and said, " You guys have already thrown yourself into my arms, I feel bad to let you go just like that, right? So I just went up and stabbed you, and it just happened to hit you. "

team leader: "....."

Just like that? ? ? That's how they lost??? Was Miyin kidding him? !

But why did Mi Yin tease him? Why did she tease him? His strength was there, so did he need to bother lying to them?

Seeing that the other person's face was ashen and he looked like he was about to spit out blood, Mi Yin asked with concern: " Are you okay? "

The latter shook his head with difficulty and said, " I'm fine. You guys keep going. We'll retreat first ..."

 " Are you leaving now? " Mi Yin asked.

Although they only have this one game in the morning, they still have to go through the ending process later. The staff may even give them special shots. This is the last chance for this team to show up in this competition.

It's not shameful to lose in the semi-finals.

The captain probably didn't care about it. He waved his hand and led his team away with a sad look on his face.

The old western doctor couldn't help but jump up, ran to Mi Yin and asked: " Are you telling the truth? It was just because they were unlucky that they chose to retreat in the direction you were in, so their half-implemented plan was disrupted, and then they lost??? "

Mi Yin raised an eyebrow at the old Western doctor with an unfathomable look, which made the other party stunned.

Ji Xuanyi couldn't help but shook his head. No wonder the old doctor was always fooled by Ye Linyu. The waiting area was being broadcast live. Mi Yin had already said that to the other team's captain. Even if there were other reasons, could he explain it to the old doctor again in front of everyone? It was impossible!

However, according to Ji Xuanyi's point of view, Mi Yin and Xue Piao Renjian's victory certainly could not be just a coincidence or bad luck for the other party. This can be seen from the fact that the two opposing team members retreated and Xue Piao Renjian had no intention of chasing them. After all, even if he couldn't see where Mi Yin was, he must have known it in his mind. In this case, there was no need to wait for Mi Yin to pick up the other party.

Xue Piao Renjian stopped only because of one thing. He knew that the other party could not run away, and in order to facilitate Mi Yin's movements, he could not chase the other party, causing confusion in the other party's movements and affecting Mi Yin's plan.

It is estimated that the second-place team will be able to react to this matter after they go out. The reason why Mi Yin was able to catch them is, firstly, because he is experienced in battle and can predict their actions with a high degree of accuracy, and secondly, it is more intuitive. In any case, Mi Yin can do this completely subjectively, not because of any coincidence, which proves that his ability is indeed much stronger than the players in this team.

It does not refer solely to individual combat effectiveness, but rather to comprehensive judgment in the arena. With Mi Yin's experience and strength in the arena after such a long period of immersion, it would be useless for them to come to the next competition.

Maybe Mi Yin didn't want to disappoint them too much so she lied and said she just happened to run into them by luck?

Ji Xuanyi shook his head. He didn't quite understand what Mi Yin was thinking, but he didn't have much time to focus on Mi Yin and the others.

The half of the game in the afternoon was their battle with the seeded team of Potian. Although Potian seemed to be frightened by his brutal performance in the previous game, but in terms of strength alone, this team could beat the seeded team, so it must not be too bad, and Potian was a player that Ji Xuanyi thought was very talented before.

In the holographic online game, with the bonus of chuunibyou, Potian will definitely practice his techniques and fighting skills very carefully, and he will definitely not be an easy opponent to deal with.

If it were someone else, Ji Xuanyi might be able to vaguely sense the other person's strength from their expression and performance, but Potian, this mentally retarded chuunibyou, did nothing but pretend to be cool. Ji Xuanyi had no idea of his bottom line and couldn't help but be a little more wary of him.

It was obvious that Potian treated Ji Xuanyi the same way. This could be seen from the fact that he hid behind his teammates and only showed Ji Xuanyi his wary eyes and a big forehead.

Po Tian's knight teammate couldn't help but say, " Boss, can you be more savvy? Isn't this your destined enemy ? Your reaction is as if he is your destined enemy! "

Potian said angrily: " How dare you! I call this secret observation, what do you know! "

After saying that, he hid himself a little tighter, thinking anxiously in his heart, Ji Xuanyi seems to be very fierce when fighting. Will he be targeted during the afternoon game?

Chapter 222

After being reminded by his teammates , Potian finally mustered up a little courage and looked less cowardly, but his eyes were still a little vague when facing Ji Xuanyi.

" What should we do? " The warlock in their team said worriedly, " Can Potian show his full potential in this state? I can't accept it if he loses like the second place. "

The knight didn't seem too worried and consoled him, " It's okay. He'll forget about these things when the fight starts. "

Although Potian is a bit unreliable, he is the strongest player they have ever seen in their lives . Even though they usually treat Potian like a child, in fact, Potian is the one who can give them a sense of security and support when fighting . You know, Potian was able to form a gang by himself before his second year syndrome worsened, and he would not let them down at the critical moment.

While his teammates were discussing, Potian finally managed to adjust his mentality and walked towards Ji Xuanyi. Apart from his erratic steps , there was almost no problem with him. Potian walked up to Ji Xuanyi , hesitated for a moment , and then said: " I saw your game , you are indeed very strong . Although I still regret that you chose a support , there is no doubt that you are qualified to be my opponent. "

Ji Xuanyi thought he had something to say , but he ended up speaking in this kind of chuunibyou way. He suddenly felt bored and wanted to log off.

When Potian saw that the other party didn't want to listen to him , he quickly shouted: " Wait a minute! I haven't finished talking yet. This afternoon's game is your last game. If you don't listen to me now, you won't have another chance! "

Ji Xuanyi then stopped, looked back at him, and corrected him: " The semi-finals are not knockout rounds. Even if you lose, you still have to play against the second place team next time. "

After Ji Xuanyi said this, even Mi Yin and the others were stunned. They had played so many knockout rounds that they almost treated the semi-finals as knockout rounds. Yes, there would be a competition for third and fourth place after the finals.

Everyone showed an expression of sudden enlightenment, which made Ji Xuanyi frown.

What kind of people are these!

But it's not everyone's fault. The arena games are so tense and the battles are so fierce. Apart from thinking about tactics and considering configuration based on the opponent's situation, everyone really doesn't have that much time to think about other things. It's normal to forget the competition system.

Potian was in a trance for a moment before he said, " Ah, it seems so ..."

What seems like, is actually the case!

Ji Xuanyi almost couldn't help rolling his eyes at him. When he was about to leave with Qi Qin, he was stopped by Potian again.

" Oh, never mind. Even if there is another fight, I have to say it now, " Potian shouted, " I don't think I did anything wrong in that incident. Don't even think about me apologizing like Xiefeng Shuyu and the others. "

Ji Xuanyi frowned and looked back at him. Po Tianji looked him in the eye seriously and said, " So you did nothing wrong in killing my gang members. I don't expect your apology, nor do I want to pursue it. I want to fight you only because you are a strong man. You are the only one in the world who deserves a serious fight from me! "

" I must tell you these words before the game because I don't want you to have any burden or influence from the past. If you understand, just let go of those things and just treat me as a powerful opponent who has nothing to do with you, " Potian looked up at him and said word by word, " Put aside everything and fight hard! "

Ji Xuanyi looked at him deeply, and the two of them stared at each other without giving in. After a while, Ji Xuanyi sneered and said, " Stupid chuunibyou. "

Then, leaving Potian with a look of disbelief and even insult, he left with Qi Qin without looking back.

" He actually dared to scold me like that! How dare he! " Potian pointed at Ji Xuanyi's back and shouted at his two teammates in an accusing manner, just like an elementary school student who was bullied by his classmates and was looking for someone to complain to. Although they actually had the same idea as Ji Xuanyi in their hearts, at this critical moment when the war was about to begin, Potian's teammates still cooperated very well and followed his performance.

" Little brother , " the warlock cursed in a very little brother tone, " How abominable! We must teach him a lesson! "

The knight also shared the same hatred and said: " That's right, we can't let him go! " Potian was satisfied after getting the response from his two younger brothers. He smiled coldly at Ji Xuanyi's back and said, " Oh, stupid guy, this afternoon, you will know what kind of person you have offended! "

The warlock leaned close to the knight's ear and complained in a voice not much louder than the buzz of a mosquito: " It's not the time for him to be afraid of being beaten! "

The knight also whispered back: " Stop talking. If anyone hears him, he'll have another attack! " The two of them returned to their original positions with a sympathetic look in their eyes, posing with Potian .

After Ji Xuanyi and Qi Qin left the waiting area, Qi Qin couldn't help but smile, looked at Ji Xuanyi, and said: " Even though you said that, Xuanyi is actually a little excited, right? "

Ji Xuanyi raised his eyebrow, glanced at him sideways, and said, " You are the one who talks too much. "

Even though he scolded Potian, Ji Xuanyi himself also had a second-year syndrome. How could he not feel a little shaken when Potian challenged him to a fight?

Just like Potian said, since he thought that there was nothing wrong with what happened in the past, there was no need for Ji Xuanyi to force himself. The gaming world was unreasonable. So he might as well put it aside and fight seriously!

"Potian's team is not easy to deal with," Ji Xuan said, "Potian is the main one. Whether it's archery or archer riding, it's hard to beat him. His archers are only stronger than Guan Qibo and his team, not weaker than them. After all, your profession is severely restrained. If possible, you should set your killing target on Potian at the beginning."

The reason why Ji Xuanyi said this was because the opponent was indeed very strong, and he was worried that if the game was left unfinished, Qi Qin would be killed by Potian using his speed. If Potian could be killed in advance, then the next things would be much simpler. But correspondingly, this strategy is definitely much more difficult to implement than prioritizing killing Potian's teammates. After all, a player's strength lies not only in output, but also in survivability. What's more, there is only a warlock and no healer in Potian's team, which shows that his survivability without treatment is also very strong. If the operation is not done well, Ji Xuanyi and the others may be killed by Potian, and then Potian's teammates will cooperate with Potian to kill them.

Even Ji Xuanyi himself was a little hesitant when he mentioned this tactic, so you can imagine how high the risk is.

Seeing his hesitation, Qi Qin said, "Why don't we just kill his teammates? As long as we can kill his teammates before the two of us are killed, if we work together, we should still be able to..."

Ji Xuanyi shook his head and said, "It's difficult to do this. Potian will definitely target me, there's no doubt about that. The archer's attack method is not easy to dodge. After killing his teammates, my chance of surviving is only about 30%. Unless you are sure you can beat him in a one-on-one fight, I still think it's better to kill Potian first."

Hearing this, Qi Qin looked down at Ji Xuanyi, and Ji Xuanyi also looked up at him. The two looked at each other for a while. Qi Qin suddenly smiled, and Ji Xuanyi raised his eyebrows at him and stopped talking.

In the afternoon, the audience seats were packed. One could imagine how exciting the match between the seeded team and Ji Xuan's team would be, and the players were almost scrambling to get a spot.

Because we want to take care of the experience of more players watching the game, tickets for each morning and afternoon game are bought separately, so that the seats for all games will not be occupied by the same group of players. This setting is generally for the benefit of most players. So even though many players complained that they couldn't have a good lunch because of the scramble for tickets, no one asked the official to change this setting.

Xiaoxiao Yuxia and others were able to sit in the first row to watch the game every time thanks to the friends and relatives tickets from Ji Xuanyi and others. It was also thanks to the hard work of Ji Xuanyi and Mi Yin that they made it to the semi-finals.

You know, Xiaoxiao Yuxia and his friends had many relatives and friends from other teams around them before, but most of them have left now.

"That's the seeded team. Can Ji Xuanyi and his team do it?" Xiao Xiaoyu couldn't help but say as she sat in her seat.

Ye Linyu smiled and said, "Even if Ji Xuanyi and the others can't do it, the old western doctor and the others can. I think they will definitely win the championship this time."

Xu Chu was shocked and said, " Among the two teams in the second server, there is only one old western doctor from Youyue City. Of course you said that, but I think Xiaoxiao Yuxia's worry is not unnecessary. "

Hearing this, Jian Xi Xin Jiu nodded seriously and said, " That's right. The seed team has a higher chance of winning than Ji Xuanyi and his team. And I heard from Ji Xuanyi that the middle school archer named Po Tian is very strong and can restrain Tian Xia. Even if Tian Xia is very powerful, he may not be able to get any good results in his hands. "

Ze, Yu, Sishui and the other two were nodding frantically. Xu Chu said seriously, " No, no, no, that's not what I meant. What I meant was that if Ji Xuanyi and the others fail to make it to the finals, there will only be six friends and family tickets left for the finals. We have to exclude Ye Linyu and Yun Zhongjian. With four tickets, we won't have enough seats. This is too serious. We must be worried about it! "

Everyone showed an expression of sudden enlightenment.

Sword washing new wine: "..."

Why would he be so desperate to discuss this kind of issue with a bunch of noobs?

In the drizzling rain, they were particularly excited to cheer for Ji Xuanyi and his team for the tickets for their friends and relatives. After a forced explanation from the staff, Ji Xuanyi and his team finally stood on the podium for the registration of the first game.

Potian glanced at Ji Xuanyi, then looked at Qi Qin in the audience and said, " Your twin brother didn't even show up in the semi-finals? "

Ji Xuanyi said calmly: " My biological father is more important than the game. "

This is true. Although there are many characters in anime who kill their fathers, Potian, a middle school boy with a second syndrome, has a good relationship with his father. When he heard this, he just snorted and didn't say much.

Both sides register at the same time and at a distance, so there is no possibility that one side can peek at the other side's configuration. Therefore, unless you don't care about this and have exposed your tactics before, generally speaking, both sides don't know the other side's situation when they are on the field, and can only infer the next possible lineup based on the other side's configuration.

Ji Xuan thought about it and knew that Potian's team would definitely not send out cavalry. The core of their team was Potian, so the only possible ones were archers and archers. If it was the latter, it would of course be better to use sword stabbing. If it was the former, although swordsmanship would also be restrained, it would still be slightly better than sword stabbing. ID on the form , put down his pen and got off the table. However, Potian was much faster than him. He didn't even think about it and finished filling it out in two seconds and got off the table. The staff member picked up the forms of both teams, unfolded them for everyone to see, and said, " Team Po Ting Chun sent archer Po Tian and knight Ting Chun Hen, and Team Suibian Da Da sent warlock Ji Xuan Yi and swordsman Tian Xia Di Yi. Please enter the entrance passage for both teams. "

Potian probably originally intended to choose a team name that was extremely childish, like Qi Qin's ID would be very suitable. But his two teammates' names were too feminine, one was Ting

Chunhen and the other Ting Qiao. So he could only choose a team name that did not match his personal style at all, which made Potian very dissatisfied for a while.

Seeing that the configuration was just right and there was no need to waste more energy due to the professional restraint disadvantage, Ji Xuanyi relaxed a little and looked at the situation on Potian's side.

Potian still had that dead look of a middle school student with a second-year syndrome and looked at him nonchalantly. His knight teammate named Ting Chunhen, on the other hand, gave Ji Xuanyi a friendly smile.

Ji Xuanyi turned his gaze away mercilessly, and Qi Qin had no choice but to nod at Ting Chunhen to prevent the latter from being so embarrassed.

Both sides left the waiting area and entered the passage leading to the battle field. After a while, they appeared at the birth points on both sides of the arena.

When counting down, Ji Xuanyi suddenly thought of Xue Piao Renjian and Mi Yin, as well as the knight and priest in the team of Li Yuexishan, who came in third, and couldn't help but say, "It's really weird. It feels like a lot of people who have nothing to do have a lot of fans. How come the two of us are all so depressed? "

There is no need to talk about Mi Yin and Xue Piao Renjian. After such a long time, Li Yue Xishan has been eliminated for a long time, but the popularity of the priest and knight in the team shows no sign of decreasing. On the contrary, the number of fans of him and Qi Qin is not even as many as that of Mu Xuanyi, who cried and said that his male god has been taken and is no longer alive.

Hearing this, Qi Qin was also very depressed, and said sadly: "Xu Chu said that these days there are more people who rely on orthopedics than those who rely on official marriages! "

"Nonsense!" Ji Xuan said angrily, "Don't play with Xu Chu anymore! In today's game, we will let those blind eaters know that the official match is the right way! "

When Ji Xuanyi said this, he completely forgot that although the audience seats could not see the scene inside the birth point, the live broadcast could see it clearly. Not only did Mi Yin couldn't help but cover her face, the audience also commented in the barrage: "Ji Xuanyi is so cute! The official pairing is the best! Real Mu Xuanyi fans only eat the official pairing! "

Ji Xuanyi was talking to Qi Qin when the countdown came to an end. With the collapse of the fences on both sides, the arena competition officially began!

As usual, Ji Xuanyi and Qi Qin walked outside leisurely – in fact, with their displacement abilities, it was probably impossible for them to walk faster.

Potian and Ting Chunhen on the opposite side did not use the knights' mobility to approach them quickly, but discussed for a while before stepping out of the birth point.

The distance between the two birth points was very far, about four hundred meters. Potian squinted his eyes and looked at where Ji Xuanyi and Qi Qin were. He suddenly pulled out an arrow from behind, put it on the bow, pulled the bowstring to its fullest, with the arrow pointing obliquely at the sky. After a pause, he suddenly let go, and the arrow flew out with a "whoosh" and disappeared.

The players in the audience couldn't help but whisper to each other, what was Potian going to do?

Although the physics system of this game is very well done, as long as you are strong enough, the thrown objects will fall where they should fall, but the skills have range requirements. If the distance is too far , they cannot be used or they will go off track or even become ineffective. What's more, Potian is now hundreds of meters away from Ji Xuanyi and the others. Even if it is a normal attack, this arrow will not be able to hit him, right?

" Is it a warning shot or a celebration? " someone couldn't help but guess.

The people next to him were speechless: " What a psycho! He hasn't even been beaten yet, what's the point of celebrating? "

Only Ting Chunhen looked at Potian, who was smiling and angry, and shook his head helplessly, saying: " Are you ready? Get on the horse. "

Potian said: " Wait a minute, I haven't seen their reaction yet. "

As soon as Potian finished speaking, Ji Xuanyi's steps forward suddenly stopped. The next second, a sharp arrow fell from the sky with a sound of breaking through the air, and the tail of the arrow hummed and nailed into the ground an inch in front of his toes.

The players in the audience couldn't see clearly, but the players watching the live broadcast were suddenly shocked . There was only one sentence in the barrage except " WTF!!! "

If everyone initially thought that Potian and his team had certain strength just because of the title of the seeded team, then after this arrow, everyone truly realized how awesome this team is! Even a strong team like Ji Xuanyi might fall at their hands!

Immediately, a group of viewers who were easily bored with the old and easily loved the new were attracted by the strength of Potian, a little middle school student with a second-year syndrome, while another group of Ji Xuanyi's diehard fans began to worry.

Qi Qin was also shocked by Potian's accuracy. At this distance and with this shooting method, even he couldn't do it. Guan Qibo and the others were far worse. It seemed that Ji Xuanyi was right. Potian was indeed a tough guy. No wonder he had such a serious second-year syndrome. Undoubtedly, this arrow without any skills only symbolized provocation! Ji Xuanyi's face gradually darkened.

Potian squinted his eyes and took a look. He was originally showing off, but was startled by Ji Xuanyi's expression. He felt a little panicked, but he couldn't show it, so he pretended to be complacent and said, " This effect is not bad. It's worth my special training for so long. "

As he said this, he used his hands and feet to climb onto Ting Chunhen's horse with a guilty conscience. He was very worried that Ji Xuan would suddenly fly over and beat him up. He could run faster if he was on a horse.

Hearing Chun Hen's words, he didn't realize that Po Tian had provoked him and had actually intimidated him, and thought that he was preparing to be serious, he couldn't help but complain in his heart.

Yes, you have been practicing this move for a long time. It would be better to practice something else.

Potian started practicing this move after he confirmed that Ji Xuanyi would take part in the competition. It looked very cool at first. Tingqiao and Ting Chunhen thought it was a killer move , but later they found out that it was just for show and provocation. They were speechless for a long time.

"Anyway, they must be frightened by me now, and their morale is in chaos!" Potian said with his eyes open, talking nonsense, "Quick! Take this opportunity to catch them off guard!" Ting Chunhen let out a long sigh, swung the reins as he was told, and galloped towards Ji Xuanyi and the others. But of course he was not following Potian's command. Potian's reliability was limited to individual combat. For battles that required tactics, he could only rely on Ting Chunhen and Tingqiao.

But it doesn't matter. With Potian's fighting power, tactics are actually not that important. Ting Chunhen was thinking, and when he was about to step into Potian's attack range, he stretched out his hand, let Potian off the galloping horse, and rushed towards Ji Xuanyi alone without hesitation!

He knew clearly what his goal was. As a swordsman, Qi Qin posed no threat to Potian. The only person he needed to deal with was Ji Xuanyi, who could cooperate with Qi Qin. As long as he could kill Ji Xuanyi, it didn't matter whether he survived or not.

To be precise, he might not die. After all, there was the huge threat of Potian. Ji Xuanyi and Qi Qin could not just leave Potian alone and attack him wholeheartedly. This was another reason why he rushed forward so recklessly.

If Ji Xuanyi really used all his skills on him, then Potian would be under even less pressure. It could be said that he didn't even have to kill Ji Xuanyi. He just needed to use up the opponent's skills. After all, a warlock without skills could at most block damage for the swordsman, and killing two in a row was already a common occurrence for Potian.

But to be on the safe side, he couldn't be too lazy and decided to beat Ji Xuanyi to a low health level.

Ting Chunhen was thinking, he ignored Qi Qin beside him and rushed towards Ji Xuan. How could Ji Xuanyi and Qi Qin not see through his thoughts? At the same time Ting Chunhen let go of Potian, Qi Qin had already grabbed Ji Xuanyi's hand. Before Ting Chunhen got close, he directly threw Ji Xuanyi towards Potian, and he raised his sword to fight Ting Chunhen. Ting Chunhen immediately realized that Ji Xuanyi and the others wanted to kill Potian first and then deal with him.

But Ji Xuanyi and his team's tactics might work wonders against two archers, but for a knight, no matter what the purpose is, it is definitely not a good idea to keep the swordsman and the warlock at a distance!

Ting Chunhen immediately turned his horse around, gave up Qi Qin without hesitation, and ran towards Potian again – the swordsman's mobility was ridiculously low, and before he killed Ji Xuanyi, Qi Qin had no chance of catching up!

Chapter 223

Although the core combat force of this team is Potian, it does not mean that Ting Chunhen has no ability. If you want to get a place in the seed team, everyone in this team must be a master! Ting Chunhen acted very quickly to ignore Qi Qin and almost instantly switched his target to Ji Xuanyi and used the trample skill directly. This was a battle between two teams of kitchen knife players and Ji Xuanyi and his men would not give Potian a chance to breathe. Ting Chunhen

had no need to hold back his skills. Now he just wanted to deal all the damage he could. Even if he could n't kill Ji Xuanyi, at least taking away half of his blood would be good!

How could Ji Xuanyi not think of this? The core member of Potingchun is Potian . The opponent's advantage when facing the swordsman profession is also the most important factor for winning this game. He is ready to target Potian . Unless Ting Chunhen is a color pen that is even weaker than Liutian , he will definitely not sit idly by and watch his actions . In addition to protecting Potian , he will definitely want to take this opportunity to get rid of him, the only variable that can affect the outcome of the battle!

Ji Xuanyi had already anticipated the opponent's move . Without saying a word, he dodged the attack and used a puppet technique in his counterattack – he was lucky and it hit him!

Ting Chunhen saw himself being controlled and instantly understood Ji Xuanyi's idea. The other party had actually been waiting for him to come over from the beginning. With Potian's mobility , it was difficult for Ji Xuanyi to catch him. Even if he caught him, he might not have enough time to wait for Qi Qin to make up for the damage. It was just right that Ting Chunhen came to him. He could completely use Ting Chunhen's skills to cause damage to Potian, and Ting Chunhen's mobility as a knight would not give Potian a chance to escape.

The only troublesome thing for Ji Xuanyi was that he switched his fire too quickly, and he didn't have time to paralyze Potian first? Ting Chunhen thought calmly, watching his body attack Potian under Ji Xuanyi's control, and he didn't feel nervous or worried at all.

This is certainly not because Ting Chunhen originally wanted to destroy Potian and just happened to get Ji Xuanyi's help – although he did have this idea, but his current calmness is only because he fully believes in Potian's ability.

Ji Xuanyi mainly played the warlock and then the assassin, but it was impossible for him to be proficient in other professions. At most, he was at the level of an ordinary sharp player. Even if he underestimated the opponent and regarded him as a first-rate master, it was absolutely impossible for him to inflict much damage on Potian.

Potian's strength was so strong that he had never seen anything like it in his life. At least for a knight of his strength, Potian could easily defeat two people at a time. If Ji Xuanyi wanted to use awkward puppetry techniques to deal with Potian, he would be too naive.

Sure enough, just as Ting Chunhen thought, when Ji Xuanyi manipulated him to chase Potian, the opponent dodged almost without any pressure. Except for the first attack when he hesitated when he subconsciously wanted to fight back and had some blood scraped off, he suffered almost no damage!

Not only were the spectators outside the venue astonished by Potian's smooth movements, they all began to discuss who was more powerful between him and Ji Xuanyi. Even Ji Xuanyi himself did not expect that Potian's strength had reached this level, and he could not help but sigh in amazement.

After all, he is not Mi Yin, who can master all professions. However, when he is operating an unskilled profession, he can only exert half of his strongest professional strength. If he had an assassin in his hand now, I think this situation would not be the case now.

However, Potian's strength is not just to dodge Ting Chunhen's attacks. If he wants to achieve the same results as the seed team, he can't just run away. While moving to avoid damage, Potian also launched an attack on Ji Xuanyi's body after reacting!

Although Ji Xuanyi was distracted to dodge the opponent's skills while controlling Ting Chunhen, his feel and intuition were weakened by more than half when using puppetry. He might be able to dodge Captain Yijianpo Dongfeng's attack, but he couldn't dodge Potian's attack.

In the blink of an eye, he was hit by several arrows and lost one third of his blood, which caused the audience outside the venue to exclaim in surprise.

You know, both Po Tingchun are almost at full health now. This is the first time that Ji Xuanyi and Qi Qin have fallen into a disadvantage at the beginning! The seeded team is indeed a seeded team. Is Ji Xuanyi going to suffer their Waterloo here?

Ji Xuanyi also instantly realized that Potian was much more difficult to deal with than he had imagined. Although controlling Ting Chunhen could no longer cause damage to the opponent, Ji Xuanyi did not end the effect of puppetry in advance. Instead, he controlled Ting Chunhen to stand in front of his own body, using the opponent as a meat shield, so that Potian did not dare to attack and dragged it until Qi Qin came to support.

Although the possibility of killing Potian at that time would not be so great, Ting Chunhen would be left behind. If he could kill Ting Chunhen without dying, there would be a certain chance of getting rid of Potian next.

Potian was stunned for a moment after seeing Ji Xuanyi's action. He didn't think too much about it . He just felt that Ji Xuanyi was trying to use Ting Chunhen to make him afraid to act rashly. His second-year syndrome came up all of a sudden. He looked at Ji Xuanyi, smiled coldly, and said: " What I hate most in my life is being threatened by others! "

Ji Xuanyi: "..."

This sentence has been said by many characters in TV dramas and it has become old-fashioned, but when Potian said it, Ji Xuanyi immediately had an ominous premonition.

As expected, Potian, the idiot, showed an arrogant and retarded expression, raised the arrow towards Ting Chunhen without hesitation, and said: " Too naive, my companion is just a burden to me, there is no point in using him to threaten me! "

After saying that, he let go and shot the arrow out!

Ji Xuanyi is about to vomit blood!

It's not that the situation of not caring about teammates and only wanting to kill them is impossible to happen, but even if the teammate's existence is not very useful, his health bar is there, which is also an important factor in reducing combat pressure. Anyone with a little bit of brains, even if they really think that their teammates are useless, will not really attack their teammates!

But Potian is really brainless! He is a middle school student with a second-year syndrome! Ji Xuanyi dares to bet that the opponent may not do this to kill Ji Xuanyi at all, but because he thinks it is cool to ignore his teammates! Very cool! Very awesome!

Fuck! Fuck chuunibyou!

However, it was useless to curse like this at this time. Although Potian had a second-year syndrome, he was not so stupid that he did not want to kill Ting Chunhen directly. Instead, he

used an explosive arrow that could cause damage to Ji Xuanyi. The huge damage and impact force directly blew Ji Xuanyi and Ting Chunhen away!

It sounded like Chunhen was screwed, but this plot was actually within his expectations ... He didn't know what kind of hard times he had to go through when he was fighting in the arena with Potian.

The explosive arrow caused huge damage, but it wouldn't kill instantly . Ting Chunhen lost some blood due to the explosion, but it was not a big deal. Ji Xuanyi lost more blood instead. He didn't know what kind of bullshit would happen if he controlled Ting Chunhen, and Qi Qin was a step behind. When there were two seconds left before the puppet technique ended, Ji Xuanyi directly controlled Ting Chunhen to run in front of Qi Qin, then released the control and hurriedly withdrew from Potian's attack range – he couldn't take any more damage from the opponent.

However, the situation was just right, Potian would certainly not let them go, and immediately launched a pursuit, not caring about Ting Chunhen who was beaten by Qi Qin, and wholeheartedly launched an attack on Ji Xuanyi!

Ji Xuanyi clicked his tongue. In order not to disturb Qi Qin's killing of Ting Chunhen , he could only slightly increase the distance between them and deal with Potian's attack alone. Qi Qin knew what Ji Xuanyi was thinking. Although he wanted to go up and help the other party block the attack, he also knew that it was a completely meaningless action. He could only try to speed up his movements, hoping to kill Ting Chunhen as soon as possible and provide assistance to Ji Xuanyi earlier.

However, Ting Chunhen would certainly not be stupid enough to fight Qi Qin in a duel. His target has always been Ji Xuanyi. Now Ji Xuanyi is being suppressed by Potian. Instead of fighting with Qi Qin here and competing with Ji Xuanyi to see who lives longer, it is better to turn his fire to help Potian kill Ji Xuanyi!

Hearing Chunhen attacking Ji Xuanyi again, wanting to attack him from both sides together with Potian, Qi Qin became anxious before Ji Xuanyi could react.

Why does this person always keep staring at Xuan Yi? Does he want to die?!

Qi Qin couldn't control himself for a moment, and forgot about any skills. He directly used his killing move , swung the giant sword horizontally, and aimed at Ting Chunhen's neck!

You know, because it is a holographic online game, it is too realistic. Whether intentionally or unintentionally, most players still avoid some more fatal parts when attacking. After all, skills have the same effect as long as they hit the target.

Just like when Ji Xuanyi beat Guan Qibo before, Qi Qin's attack this time was completely out of desperation and murderous intent. He looked extremely cruel. After all, in real life, few people dare to go for the neck in a fight. That would be fatal!

Ting Chunhen was so frightened that he forgot his previous thought that it didn't matter whether he lived or died. He subconsciously wanted to hide. However, as luck would have it, Ji Xuanyi had already decided to change his target from Potian to Ting Chunhen. Seeing that he had come to him, he paralyzed him without saying a word. Ting Chunhen was fixed in place and was hit so hard that he felt like his head was going to fly off!

The audience in the audience also thought so. They really thought that Ting Chunhen's head would fly off with that sword! Many people screamed, and the barrage even said that they couldn't bear to watch it anymore!

However, no matter how realistic the holographic game is, they dare not reveal the brain under the pressure of review. Although Chun Hen was hit by this blow and thought his head was going to be blown off, in fact, he only felt a sharp pain in his neck, and was knocked off his horse by Qi Qin.

Qi Qin also regretted it after he drew his sword. This kind of killing move should not be used in this world. However, the feeling after the sword touched his neck was as if he was not cutting the neck, but elastic rubber, which made Qi Qin stunned for a long time.

For a moment, one person was lying on the ground unable to move, and the other was staring at the neck of the person on the ground. The air seemed to freeze.

Ji Xuanyi was almost stabbed into a hedgehog by Potian. He turned around and saw Qi Qin still standing there. He immediately got angry and yelled, "What are you doing? Kill him!"

Qi Qin finally realized that his so-called killer move was just a normal attack in the game, and the damage was not even as high as that of his skills. What a waste of time!

Qi Qin immediately put down the burden in his heart and pounced towards Ting Chunhen who was still in a paralyzed state!

Qi Qin suddenly realized that when he abandoned his worries, Ting Chunhen was not so relaxed! The damage was not high, but it was too cruel! He felt Guan Qibo's pain firsthand, but his degree seemed to be much more serious than Guan Qibo's!

You have to know that Ji Xuanyi is just a weak sorcerer after all. No matter how fierce he is, it won't hurt much when he hits you. But Qi Qin is a real swordsman. Being hit by Ji Xuanyi and being hit by Qi Qin are two completely different concepts!

At this time, Ting Chunhen no longer had the intention to help Potian kill Ji Xuanyi. After all, Potian was so awesome that he probably wouldn't need a little damage from him. What was so important about life? Qi Qin's fighting style was too scary!

Ting Chunhen was beaten up by Qi Qin, and his blood dropped like a period. The moment the paralysis ended, he immediately turned over and climbed up, wanting to get on the horse and run away, but how could Qi Qin let him go like that! Before Ting Chunhen got on the horse, Qi Qin directly hit him in the waist with a sword and slapped him sideways, and then beat him up again, leaving Ting Chunhen with no chance to fight back!

But while Chun Hen was being beaten, Ji Xuanyi's condition was not good either. Potian's attacks were too dense, and combined with his movement, they came from all directions. Ji Xuanyi was unable to resist, and his health bar was dropping.

Now the situation has completely turned into a competition between Qi Qin and Potian for killing speed, while Ji Xuanyi and Ting Chunhen are competing to see who can live longer!

The audience watching the game also reacted and started cheering for their favorite teams, but it seemed that more people were cheering for Ji Xuanyi than for Potian.

After all, although Potian is awesome, his chuunibyou is just too annoying ... killing speed, but Ji Xuanyi's side definitely has higher survivability. He has already avoided most of the damage from Potian's skills, and the remaining damage is really unavoidable and he

has to take it. On the other hand, Ting Chunhen is just lying there like a salted fish and taking the beating – he has even given up his weapon and subconsciously hugged his head!

Ting Chunhen was stunned, but perhaps because he had been with Potian for a long time, he was also affected. He was still thinking in his mind, " It's too scary. This scene seems to only appear in movies and TV series ..."

" No, it may also appear on the legal channel. "

" Oh my god, this is probably the only chance in my life to get in touch with the underworld ! "

And so on and so forth ...

I heard Chunhen still remember that stupid whistleblower post. I heard the captain of Yijianpodongfeng say that Ji Xuanyi seemed to be the young master of the underworld ! Qi Qin must be their bodyguard!

If Ji Xuanyi's brutal attacks as a sorcerer made everyone feel very awesome, Qi Qin's brutal attacks as a swordsman made everyone feel terrified.

Although Qi Qin was indeed very powerful, the visual effect was indeed too horrific, and some people even began to sympathize with Ting Chunhenke who was beaten.

Qi Qin was helpless. He had never beaten a person who huddled up in a ball with his head in his hands. At that time, this behavior would be defined as bullying the weak and evil. But there was nothing he could do. Ting Chunhen couldn't die on the spot. For the sake of winning the game, Qi Qin couldn't let him go even if he knelt down and begged for mercy, let alone huddling up in a ball! He could only speed up his attack despite the condemnation of his conscience, hoping that Ting Chunhen would die sooner and end all this sooner ...

In comparison, even though Ting Chunhen had much more health than Ji Xuanyi at the beginning, in the end their health bars almost reached the bottom at the same time.

Ji Xuan glanced at Qi Qin and said anxiously, " Hurry up! "

He can't hold on any longer!

However, Qi Qin has already exerted his maximum speed. The data in the game is fixed. Even if he wants to move faster, there is no way!

At Ji Xuanyi's urging, Ting Chunhen finally had enough of the beating and died peacefully, lying motionless on the ground, while Ji Xuanyi only had a trace of blood left, and it seemed that he would die if he was touched again!

Qi Qin immediately rushed towards Ji Xuanyi, not to help Ji Xuanyi block the sword, but to directly launch a heavy slash and jump towards Potian!

Qi Qin's move was a very correct choice. Even if he stood in front of Ji Xuanyi, Potian could seize the opportunity when he landed unsteadily and still cause damage to Ji Xuanyi and kill him .

But if he went straight to Potian, Potian would worry that he might be caught and taken away by close combat, or even simply frightened by Qi Qin's previous beating of Ting Chunhen, and would choose to give up the finishing blow to Ji Xuanyi, escape first, and then find an opportunity to kill Ji Xuanyi – this was not a difficult thing, after all, Ji Xuanyi was only left with a trace of blood.

Ji Xuanyi thought so too. He even relaxed for a moment, thinking that Potian's attack would stop.

However, he saw Potian's actions — the other party had no intention of running away, but raised the bow at him again!

How could he forget? This is a fucking chuunibyou. At this critical moment of killing his nemesis , how could he give up!

In fact, this is indeed the case. Potian's mind was filled with thoughts like water that he would be caught by Qi Qin and beaten up. Qi Qin was very fierce and he would be beaten badly. But in the end , the idea that it would be very cool to kill his nemesis Ji Xuan with a single arrow prevailed!

When Qi Qin came over, Potian was actually already panicking, but he was a middle school student after all, so he immediately steadied himself, put his fear aside, sneered at Ji Xuanyi, and shot the last arrow at him without hesitation, saying in a very pretentious manner: " You lose, die here! "

Ji Xuanyi: "..."

Ji Xuan only had time to roll his eyes, then threw his last skill at Potian. When the CD went backwards, he lost the last bit of his blood and lay on the ground.

Potian killed Ji Xuanyi, but before he could be happy, he was controlled by another person. Then he was knocked to the ground by Qi Qin who fell from the sky and beaten up.

Ji Xuanyi was killed in front of him . Qi Qin really showed no mercy this time. He almost made Potian cry with one blow!

But although Potian has no skills, his body movement and ability to respond in battle are still there. He has always been fearless in a one-on-one fight. What's more, Qi Qin is a swordsman. Knowing that he has nothing to fear after he has distanced himself from Qi Qin, his desire to win and his desire to survive took effect at the same time. Potian actually escaped from Qi Qin's control by rolling and crawling!

This is not an easy task. After catching someone, Qi Qin will use judo-like moves. Unless the player is a horse-riding profession like a knight, it is difficult for other players to escape. Qi Qin was shocked that Potian was able to run away. At the same time, he also had a new concept of what Ji Xuanyi said about Potian being very strong and talented.

He is indeed very strong, but as an archer-type enemy , we cannot let him get away.

Qi Qin is very aware of the limitations of his abilities on this account. The speed is fixed, and he can't catch up. Once Potian pulls away from him, he may be kite-killed!

Ji Xuanyi is already dead. If this game cannot be won, not only will Ji Xuanyi explode, but even Qi Qin himself will not be able to bear it!

But there is no way to catch Potian, he has already escaped!

Qi Qin's mind went blank, and he threw his huge sword directly at Potian's back .

Chapter 224

Qi Qin was stunned for a moment when the sword slipped out of his hand , and then he couldn't help thinking that cutting the neck with a sword was like cutting rubber, so there shouldn't be a too horrifying scene now, right?

Should I? Qi Qin thought uncertainly.

After all, the sword had already slipped out of his hand , and it would be impossible for him to catch up and take it back even if he wanted to. Potian didn't even expect that Qi Qin would be so awesome as to throw out his weapon – if he missed, it would be the same as surrendering . No normal person would do such a thing at such a critical moment, okay!

So naturally, when Potian heard the sound of something flying over , he didn't even have time to look back before he was directly carried away by the huge force of the sword blade. Then, the next second, he was nailed face down to the wall around the arena ...

If Qi Qin beheading Ting Chunhen only made some timid players scream , this scene now is enough to make the players want to call the police!

Others are fighting in the arena, but Qi Qin is fucking trying to kill people !

However, after taking out their phones to no avail , most of the players realized that this is a game , this is a game , although it looks like the real thing , it won't kill anyone!

Because the audience seats were set up around the arena , and Potian was pierced through the back by the giant sword and nailed to the wall, the players on one side could not see what was going on . After making sure that no one would be killed, those guys who liked to watch the fun ran down from their seats and crowded to see what happened to Potian.

As a person nailed to the wall , Potian's condition was relatively good. It even took him a long time to realize what had just happened from the faint pain coming from his back.

When he figured out what position he was in, he was almost scared to tears. Probably no one would laugh at him, after all, for normal people, this reaction is really normal.

But Potian is not a normal person after all, he is a middle school student with a second syndrome, tears welled up in his eyes, and the next second he couldn't help but think, this posture is pretty damn handsome, maybe it will only happen once in this life, but why does it feel wrong ...

After Qi Qin nailed the Skybreaker to the wall, he heaved a sigh of relief when he found that no blood spurted out. However, there was no grudge between them, and the opponent was just an ordinary person who didn't know how to fight. Although it was a cold and ruthless competition, Qi Qin still couldn't help feeling guilty. He hurried over and didn't finish him off – after all, he didn't have any weapons in his hands now. He couldn't just beat someone to death with his fists, otherwise he would be arrested by the police – but instead said: " Are you okay? "

Potian almost cried when asked this question, and asked in a sobbing voice: " You're asking me?! Would you be okay if you were nailed here instead?! "

Qi Qin said embarrassedly: " I'm sorry, you ran too fast and I couldn't catch up with you. "

Potian really cried this time, saying: Just because you ca " n't catch up, you can beat people like this?! Who taught you that? Are you a murderer offline ! "

Qi Qin touched his nose. He couldn't say this was a competition or anything like that, so he could only say, " There's nothing I can do. Just admit defeat and I'll put you down. "

Potian was silent.

Qi Qin thought that he was unwilling to admit defeat just like that. After all, he had seen the other party's competitive spirit, plus his obsession with Ji Xuanyi ... However, in this situation, he

was still able to grit his teeth and refuse to admit defeat. His perseverance was far beyond that of ordinary people. Even if he was just obsessed with winning or losing, he was still a character! Qi Qin was secretly admiring him and was about to persuade him again when he heard Po Tian say in a mosquito-like voice: " It's not impossible to admit defeat. "

Qi Qin was stunned and said, " Ah? "

" This pose is pretty cool, but it doesn't show his face, which is weird, " Potian said in a low voice. In other anime and movies, a character is nailed like this, looking righteous or tragic, which is very cool. He is nailed upside down like this, like a piece of dead pork, which is really inconsistent with his status as the only one in the world, so –

 " Can you turn me over ... " Potian asked.

And then nail it again?

Qi Qin: "..... ??? "

Qi Qin simply couldn't imagine that there was someone like Potian in this world! However, Qi Qin was in the mid-life crisis and he couldn't be so cruel as to nail someone to the wall twice. The first time was a mistake made in a hurry. If he did it again, he would really be treated as a murderer and might even be arrested by the police before the game was over. In the end, Qi Qin put Potian down. When the latter was about to strike a handsome or tragic pose, Qi Qin beat him up with lightning speed. When Potian found out that he was not keeping his word and was about to slip away, he killed him directly and won the first game.

When Qi Qin and Ji Xuan came back to the waiting area, everyone looked at him with fear in their expressions, including Xue Piao Renjian, who couldn't help but look at them with some wariness and scrutiny.

We are all good citizens. When playing games, especially holographic online games, because of the education we have received since birth, we will subconsciously avoid making too terrible physical attacks when fighting. Qi Qin's routine is obviously murderous and he completely throws some things aside. It's no wonder that others think he is a gangster.

Qi Qin himself also realized this, and moved closer to Ji Xuanyi with some grievance.

Ji Xuan looked up at him, then glanced at the people around him coldly, and said in a forceful tone: " What are you doing? "

Everyone turned their eyes to Ji Xuanyi again, and then realized belatedly that the big boss was right here!

Think about Qi Qin, Ji Xuanyi's boyfriend and lackey. At least before, I didn't see how scary he was. In the final analysis, the reason for this outburst was still Ji Xuanyi ...

The old western doctor was the first to come back to his senses. Although he was shocked by Qi Qin's sudden outburst, he had been with these two people for such a long time that he knew their character well. Qi Qin and Ji Xuanyi were definitely not bad people. They could only be said to be more awesome. If there was a rift between the brothers because of such a thing, it would be really laughable.

Thinking of this, the old western doctor felt that Ji Xuanyi was still Ji Xuanyi, and Qi Qin was still Qi Qin, and there was nothing to be afraid of. He then approached them with a shameless face and said in a frivolous way: " Big brother, you are awesome? "

Ji Xuanyi kicked him and said, " Get lost! "

You say he is awesome, but he died in the last game, it's obviously a mockery of him! The old western doctor went back happily. Mi Yin smiled and said, " If we win another game, we can meet in the finals. Come on. "

Ji Xuan glanced at him and nodded at him. Xue Piao Renjian looked at Mi Yin and said nothing. Only the warlock Tingqiao from Potian's team was still looking at Qi Qin vigilantly.

At this time, Potian and Ting Chunhen also came out of the passage. One of them couldn't help rubbing his neck, and the other hunched over. When he saw Qi Qin, he showed a look of hatred and said, " Despicable ! "

Ji Xuan turned around to look at Qi Qin. He died a little far away from Qi Qin and the others , so he didn't hear the conversation between him and Potian.

Qi Qin touched his nose and told Ji Xuanyi about the matter, which made Ji Xuanyi frown.

He suspected that Potian might have a broken brain and was a psychopath!

However, although the battle was brutal, Potian, apart from being a little afraid of Qi Qin, did not feel too depressed by the blow.

Tingqiao also mentioned this when he asked them about the details of the game. Potian smiled and said, " It's just a loss of a game. We just need to win the next one. The most important thing is that I defeated my destined enemy in this game . Ji Xuanyi has come to this day!

Hahahahahahahaha – cough cough cough ..."

Tingqiao: "..."

Potian was choked by his own saliva and started coughing bitterly. While Tingqiao was patting his back, he subconsciously glanced at Ji Xuanyi's situation vigilantly, fearing that Potian's voice was too loud and might be heard by the other party. In case the other party couldn't hold back and gathered another group of people from the second server to rush up and beat Potian up, they might not be able to stop him.

Fortunately, Ji Xuanyi and the other two were talking to Mi Yin and the others and did not notice the situation here, so Potian saved his life.

" What will be the configuration for the next game? " Tingqiao asked.

Although Potian felt good about himself, the fighting ability of Ji Xuanyi and Qi Qin – especially the latter - had already penetrated into Tingqiao's heart. He clearly understood that there were no unexpected factors in the previous failure. In general, Potian and Ting Chunhen were not as strong as Ji Xuanyi and Qi Qin, and did not make any mistakes.

The current situation is not good for them. They have lost the first game, and the situation of the next game is still unknown. In the best-of-three game system, it is actually a critical moment and they cannot afford to be careless. It is definitely impossible for them to use the archers and cavalry, a configuration that has already lost a game.

As soon as Tingqiao said this, Potian's face looked a little unhappy, but Tingchunhen was slightly relieved.

Having been teammates for so long, how could they not understand what Tingqiao meant? If they couldn't get the bow and cavalry configuration, of course they couldn't use the riding technique. I heard that Chunhen's personal ability was not as good as Potian, so Tingqiao meant to use the bow technique in the next game in the hope of a comeback.

If it were the past or another enemy , Potian would definitely be very proud at this time, and then appear as a savior with the care and love of Tingqiao and Tingchunhen, but now ...

Potian touched his back. He calmed down now and stopped being a chuunibyou. Naturally, he remembered being scared and said hesitantly, " How about you two go up? "

Tingqiao and Ting Chunhen looked at him together.

Po Tian stiffened his neck and said, " Of course I'm not afraid of being beaten, I just used up a lot of energy before, and now I need to rest. You two go first, and I'll take the next one! "

Tingqiao thought about it carefully. It seems that this game does not have a clear setting for physical strength. In the end, the last game only lasted less than five minutes, and the skill CD was not even a full round! He could only persuade: " This is a best-of-three game. If you don't play, Ting Chunhen and I will lose, and we can go home. "

Hearing Chunhen's words, he quickly said, " This is not a knockout round. If you lose, you can compete with the second place for the third and fourth place, so you don't have to go home. " But for them, not being able to take first place is no different from going home.

Potian realized belatedly that he had only killed Ji Xuanyi in the last game, but did not really win, and there was no chance for his two teammates to go on the field and step on the landmine. He couldn't help but glance at Qi Qin.

Ji Xuanyi and Mi Yin were talking at that time. Qi Qin was distracted and met his eyes.

Qi Qin thought about it and gave Potian a friendly smile.

Potian: "..."

Potian was almost scared to tears. If nothing unexpected happened, Qi Qin might become his psychological shadow in the future.

But there was no other way. For the sake of that tiny chance of winning, Potian could only respond aggrievedly, no matter how scared he was, and said, " Okay, I'll follow you next time. " Tingqiao nodded, and thinking back to the last time when Potian and Tingchunhen were beaten, he patted Potian on the shoulder and comforted him: " Don't worry, if he wants to hit you, I will help you control him. "

Although Tingqiao was very happy to see Potian being beaten, he would still put the overall situation first for the sake of winning the game.

After hearing what Tingqiao said, Potian finally felt relieved. Tingqiao was a relatively good warlock player and had performed very reliably in previous battles. When he said he would protect Potian, Potian became very confident in his chances of survival.

Yes, with the cooperation of Tingqiao, a fairly capable younger brother, and the fact that Ji Xuanyi is no match for him at all, he doesn't need to be afraid of Qi Qin at all, and he will definitely win the next game.

Thinking of this, Potian became cocky again, ready to go to Ji Xuanyi and say something harsh. Tingqiao and Ting Chunhen saw what Potian was planning and quickly held him back, saying, " The competition is about to start. Come on, go and register! "

Are you kidding? If we let him go now, what will we do if he is beaten to death by Ji Xuanyi and his boyfriend?

Potian was dragged away by two teammates. Ji Xuan looked at the time and took Qi Qin to the registration desk.

Tingqiao was worried about Potian, so he followed him onto the stage. After Potian finished registering, he saw that he really put his head close to Ji Xuanyi and was ready to die. He quickly covered his mouth and cooperated with Ting Chunhen to drag him into the passage. Ji Xuanyi was not in a hurry and waited for the staff to announce the configuration.

" In the second match, Po Tingchun's team sent out the archer Po Tian and the warlock Tingqiao, and the Suibian Dada team sent out the swordsman Tianxia Diyi and the assassin Mu Xuanyi, " the staff member who also served as the host read out the configurations and smiled, saying, " The warlock from Po Tingchun's team also played. Wow, I thought I could see the only battle between the two warlocks in this match, but the assassin Mu Xuanyi has not appeared since the first round. I think everyone missed him very much. "

The staff members chattered a lot while Ji Xuanyi calmly left the line.

Qi Qin stood alone, looking at the waiting area broadcast on the screen, and explained uncomfortably: " Xuan Yi went to replace his younger brother. Uh, Xuan Yi's father is not in good health ..."

In the blink of an eye, the assassin Mu Xuanyi was online and said coldly: " Why are you talking nonsense? Can we enter now? "

The staff was startled by the assassin who suddenly appeared, not to mention that the other party had the same face as Ji Xuanyi. They couldn't help but mutter " Such a quick move ..." before smiling and saying, " Okay, please go through the passage. This is the second game of the second round of the semi-finals. As long as you win this game, you and your brother's team will be shortlisted for the finals. "

Mu Xuan glanced at him and said calmly, " I know, he said so, let's go. "

Upon hearing this, Qi Qin hurriedly followed in small steps, and entered the passage one after the other.

The old western doctor kept his eyes on the other person until both of them were out of sight, then he turned around and said to Mi Yin: " Fuck, Ji Xuanyi's brother looks so much like him, I really can't tell who is who! "

Mi Yin blinked, was silent for a moment, and said, " I can't tell either. "

As a warlock, Tingqiao rarely has the opportunity to fight with people of the same profession, especially fierce people of the same profession. After all, there are not many warlocks, let alone masters. It can be said that before the fight, he was still looking forward to fighting with Ji Xuanyi's warlock.

But he never expected that the latter would replace his younger brother. The configuration of the assassin and the swordsman was not only a pity that they could not fight against the same configuration, but this configuration would be much easier to fight against the archers of the warlock and the swordsman.

Swordsmen are often beaten by archers, but assassins are one of the few professions that can restrain archers, and they are not as disadvantaged as other professions when facing warlocks. After all, it is not easy to attack an assassin, let alone control him.

If the order is reversed, with sword stabbing against archery, and swordsmanship against archery, Po Tingchun's advantage will be much greater.

But think about it, since the other party could send out the corresponding configuration so accurately, it must have taken a lot of effort and thought.

In comparison, they basically didn't think much about this aspect. After all, they had not experienced the previous knockout rounds. The pride of the seeded team and the mysterious confidence brought by Potian made them ignore many things except the team's own hard power. Tingqiao stood at the birth point and couldn't help but feel a little regretful. If he had been more attentive, this situation wouldn't be the case now. The pressure of losing the first game was extraordinary. Although Chunhen and Potian didn't care, he couldn't let it go at all.

However, if he could defeat the opponent this time, the opponent would most likely send Ji Xuanyi in the third game, and he could also complete the duel between warlocks that he had been dreaming of – he still felt that although Ji Xuanyi was also very powerful, he was still better in the final analysis.

" Don't be too far away from me after the start , " Tingqiao said, " If the assassin launches a sneak attack and the two of us can't coordinate, it's very likely that we'll be defeated . "

Potian glanced at him and said with disdain: " I don't want to be too far away from you . Can you keep up with me? "

The tone of voice was just short of mocking Tingqiao for having short legs.

Tingqiao looked at him speechlessly and said, " At the beginning, you should coordinate with my speed. After the contact, I will control the swordsman. At this time, you should output with all your strength. The Mu Xuanyi on the opposite side will definitely attack one of us to save his teammates. If he hits me, you should switch fire directly. I remember that you are very good at catching assassins, but remember not to use explosive arrows. I am not Ting Chunhen, and my skin is very fragile. "

" If he chooses to attack you, I will immediately use the CD control. He will most likely start with Poison Blade. You should pay more attention to your back. It is best not to get paralyzed for three seconds. If there are only 1.5 seconds, his control will not end when you come out, and you will not be able to turn invisible. Then I will cooperate with your Puppet Swordsman to kill him. As long as the assassin is dealt with, this game will be easy to win. "

Tingqiao was talking a lot, but Potian didn't really listen to him. He just heard him ask his puppet Qi Qin to help him kill the assassin. He looked at him speechlessly and said, " Can you do it? " Tingqiao thought he was talking about controlling players to attack. After all, most warlocks couldn't do that. Not to mention the control, even recognizing skills was a big problem. It was already very good to be able to run away with people. And Tingqiao had never tried to use puppetry like Ji Xuanyi in battle before.

Tingqiao was very unhappy when he heard his words, but he understood that Potian was just like that, so he was angry for a while, but did not vent his anger. Instead, he said in a deep voice: " If Ji Xuanyi can do it, I can do it too! "

Potian looked at him, and Tingqiao looked back firmly.

Potian shrugged and said , " Okay! "

Sometimes people have this illusion. When they see others doing something very easily, they feel that they can do it too. Basically, they need to be taught a lesson before they can react. Tingqiao will soon understand this.

The author has something to say: The Arena game will be finished after the main text is written. I estimate that it will be finished in the next few days. After all, I have already written about the gameplay I have experienced in playing the game, and the things about Ji Xuanyi have also been resolved. Writing more will just waste time and cheat money (:3) Then there will be a Valentine's Day extra and a Battle Royale mode extra. Thank you all little angels for your support.

Chapter 225

The two sides discussed tactics until the countdown ended , and as soon as the game started, both sides rushed out together.

The assassin had become invisible , and there were only three people on the field. Qi Qin moved forward calmly, and Potian also restrained his speed , cooperating with Tingqiao to move towards Qi Qin at a snail's pace.

However, Potian was itching to attack and could not control himself at all . He took out his bow and arrow from time to time and fired two harmless attacks at Qi Qin . Almost every arrow reached Qi Qin accurately, but was slapped away by Qi Qin without hesitation, which made the audience scream.

Tingqiao said dissatisfiedly: " Can you please concentrate a little more ? What if the assassin on the other side appears when you are shooting an arrow? "

After all, he only played one game, and his performance was not very good . Potian had no feelings towards Ji Xuanyi's brother , so he said nonchalantly: " What are you afraid of ? Just come out and play. "

Tingqiao actually didn't know the strength of the assassin on the other side , and Potian was indeed qualified to say so , so he didn't know what to say at the moment , and only said: " It's always right to be more careful. At this distance , if the assassin rushes towards this side with all his strength, he will most likely be near us. "

As he said this, he couldn't help but wave his staff around randomly behind him , but of course nothing came out.

In fact, he also knew that the other party would not appear so soon. After all, he was still too far away from Qi Qin . If an assassin launched an attack alone and was caught, his teammates would not be able to provide support. Even if he came to their side, Mu Xuanyi would only watch from a distance and would not come forward.

But knowing is one thing, and not being able to help but worry about it is another.

Potian didn't think too much about it, but like several other top masters, his intuition was also very accurate, and he was used to trusting his intuition. When he heard Tingqiao's words, he just said, " He shouldn't be around now. "

Tingqiao's intuition was not as accurate as Potian's, but he had seen the other party's ability to catch assassins by prediction. After hearing this, he could only say: " Then let's attack the swordsman first, and when the assassin comes out, switch to the assassin directly. "

This is the basic way to deal with the assassin profession, and Tingqiao doesn't need to say much. But when he was approaching Qi Qin and was not yet within the attack range of Potian, the latter suddenly stopped.

"What's wrong?" Tingqiao asked nervously, stretching out his staff and waving it left and right, fearing that Mu Xuanyi had approached them.

Potian pondered for a moment and said, "If we go further, we should be within the attack range of his sword..."

Tingqiao: "..."

But it is normal. Everyone will have psychological trauma from the previous game, not to mention Potian who has experienced it personally.

Tingqiao comforted him: "Don't worry, there are only two of us, he won't dare to throw his weapon out."

He felt a little guilty about saying this, after all, there were two people on the opposite side, and once Potian was nailed, he would not have the strength to put him down. But he could only say this for now, otherwise there would be no need to fight this game.

And judging from the opponent's performance in the last game, it seems that he is not very willing to use this style of play. He probably won't use it again this time, right?

Tingqiao thought about it and continued to approach Qi Qin with Potian.

Because both of them were moving very slowly, Potian had already calmly drawn the arrow from behind and drawn the bow, making all preparations for the battle.

However, when Qi Qin was approaching the two people to a certain distance, he suddenly stopped.

Tingqiao was stunned for a moment and subconsciously took a step forward. As an archer, Potian's attack range was longer than Tingqiao's. While Tingqiao was still moving forward, Potian had already started his attack. Because he had to guard against Ji Xuanyi, he did not use his big skills, but used ordinary skills such as Arrow Rain, which had low attack power and short CD.

Such skills naturally could not cause any harm to Qi Qin. Although his speed was relatively slow, the huge size of his weapon made up for the shortcomings in defense, and he effortlessly knocked down all the arrows flying from Potian.

Tingqiao calculated the distance and thought that even if he took a few steps forward, he would not be too far away from Potian, so he immediately walked forward quickly.

Who knew that when Tingqiao moved, Qi Qin, who was concentrating on resisting Potian's attack, seemed to have eyes on his chin and took a few steps back – the initial speed of the swordsman and the warlock was not much different, not to mention that Qi Qin was wearing agility equipment, so Tingqiao would definitely not be able to catch up.

In this way, Qi Qin was still outside the attack range of Tingqiao, and correspondingly, he was also out of the attack range of Potian who was standing still.

Potian had no choice but to move forward.

Tingqiao knew that without his control and coordination, with Qi Qin's ability, Potian would never be able to break the opponent's defense without using his ultimate move. So he could only run forward two more steps. As a result, Qi Qin ran back as if he was teasing him.

After several times of this, Potian realized that something was wrong and said to Tingqiao impatiently: " Don't move! He will run away if you move! "

Tingqiao was also unhappy and said, " I can't reach him if I don't move. Can you beat him to death by yourself? "

From the time they met until now, Potian hasn't been hit by a single arrow!

The two were arguing, and Qi Qin seemed to have seen them fighting, and thought that there was an opportunity, so he suddenly took two steps forward. Little did he know that Ting Qiao had actually been staring at him out of the corner of his eye, waiting for his move!

Tingqiao immediately turned around and ran two steps, raising his staff towards him, trying to control him in place. Qi Qin also reacted and retreated again. Tingqiao had just taken a step when he suddenly felt a chill on his back. An extremely ominous premonition emerged in his heart, making him get goose bumps all over his body.

Almost instantly, he realized what had happened and immediately wanted to turn around and attack from behind. However, his intuition was a moment too slow. When he was about to turn around, a dagger had already pierced into his back, activating the skill, Poison Blade!

He took every precaution and even specifically warned Potian not to get paralyzed for three seconds, but he got paralyzed himself. Tingqiao regretted it so much that he felt his intestines turning green with regret. He guessed that Qi Qin's previous actions were just to seduce them, divert his attention, and make him let down his guard so that Mu Xuanyi could launch a sneak attack on them.

However, it is no use thinking about these things now. Tingqiao has suffered a complete three-second paralysis and can only hope that Potian can save him!

However, the moment Mu Xuanyi appeared behind Tingqiao, Qi Qin instantly gave up his escape and turned around to rush towards them. Po Tiancai had just shot an arrow at Mu Xuanyi when he was frightened by Qi Qin and turned around and ran without saying a word. Tingqiao had his back to him, and was still hoping that Potian could save him. If he turned his head and saw this scene, he would not know how sad he would feel.

However, since Potian is an archer, this action of turning around and running is not considered to be a complete betrayal of his teammates. After all, if he didn't run, the ranged player didn't keep a distance from the melee player, and the final result was just to be beaten together with Tingqiao. He ran away, firstly, he could adjust his position to support his teammates, and secondly, it was also to preserve the spark of revolution ...

So isn't it still selling out teammates ?

Fortunately, after Potian ran away, Qi Qin did not chase him, but instead focused his fire on Tingqiao together with Mu Xuanyi. If Tingqiao died first and Qi Qin and his men did not lose any men, Potian would have no chance of winning one against two.

Potian also realized this, and after gaining his foothold, he quickly launched an attack on Mu Xuanyi and Qi Qin, but just like before, his attacks were either blocked by Qi Qin or avoided by Mu Xuanyi using his movement – the latter was not like Ji Xuanyi, who moved slowly, resulting in him having to take a lot of damage. Most of Potian's attacks were meaningless to the agile assassin, not to mention that Qi Qin was still on his left and right.

Potian was so anxious that he scratched his ears and cheeks. Just when he was considering whether he should use explosive arrows to blow them all up since Tingqiao could not be saved, three seconds finally passed and Tingqiao came out of the paralyzed state with only one third of his health left!

Tingqiao's first reaction after the paralysis ended was to counter-control Mu Xuanyi, but the latter, as an assassin who had to be cautious to survive, how could he not calculate the control time? Almost the moment Tingqiao turned around, Mu Xuanyi immediately activated the teleportation and appeared behind Tingqiao again.

The assassin has two chances to teleport. Tingqiao knows that if he turns around again, the opponent will be able to dodge. But he has no time. His blood volume has dropped by two-thirds in three seconds, and now his blood volume is still decreasing rapidly. Mu Xuanyi's two teleports are enough to kill him and leave only a blood skin. Even if he controls Mu Xuanyi by then, Qi Qin will be able to kill him here.

In this situation, he had no choice but to consider whether to catch the assassin or not. The most important thing at the moment was to avoid at least one damage caused by the output and give himself a few more seconds of life!

All the thoughts flashed through his mind in an instant. The only target within Tingqiao's sight range was the same as Mu Xuanyi. In order to buy time and prevent the opponent from counterattacking the moment he was out of control, he went around Qi Qin!

But is it enough to just control the opponent? The assassin's damage seems to be terribly high. How many seconds can he survive?

Tingqiao hesitated for a moment before attacking, and then used a skill towards Qi Qin, which was not paralysis, but puppetry!

Qi Qin did not expect that the other party would actually puppet himself. At least in the script between him and Mu Xuanyi, he should be paralyzed at this time. Potian, who originally wanted to assist Tingqiao, would definitely be attracted by Qi Qin who had no ability to fight back. Mu Xuanyi would take this opportunity to directly kill Tingqiao who had no teammates to support him, and then harass Potian before Qi Qin's blood volume dropped to a dangerous state.

But what is the current situation of puppetry?

Mu Xuanyi was also stunned for a moment, and his attack on Tingqiao slowed down a beat.

Tingqiao felt the opponent's offensive slowing down, and immediately concluded that his temporary change of tactics was correct. He controlled Qi Qin's body and swung the sword horizontally towards Mu Xuan, trying to separate the opponent from his own body.

Mu Xuanyi paused for a moment. How should he put it? Although the opponent's actions were indeed beyond his expectations, it was really underestimating him for someone who couldn't even play a swordsman to force him to move.

The latter simply bent down to avoid Tingqiao's heavy and slow sweep, changed direction around Tingqiao's body, and continued to cut him.

Tingqiao was dumbfounded. It's not like he had never puppeted a swordsman before, and he knew that the latter's movements were slow due to the difference in attributes, but he had seen Ji Xuanyi's control of archers and knights, as well as Qi Qin's battle, and he felt that it shouldn't be that difficult, so he had the idea of controlling Qi Qin to attack Mu Xuanyi, and using one skill to take down two outputs and concentrate fire. However, the heavy feeling after getting started

only reminded him of the clumsiness of controlling the swordsman profession in the past, and his own attacks were completely different from what he imagined. Coupled with the sense of dislocation brought by puppetry, it was simply impossible for him to attack Mu Xuanyi!

In fact, to be precise, it was no longer a question of attacking Mu Xuanyi. He couldn't even force the other party to stay away from his body. Mu Xuanyi directly attacked his body while playing hide-and-seek with Qi Qin, who he was controlling!

The audience outside the venue were all moved by this scene: " Oh my God, this is a familiar scene and a familiar formula. Isn't this my swordsman ... "

" I'm right. I'm playing two completely different roles than the boss. "

" It seems easy and simple when I watch it, but when I think about it, isn't my operation exactly the same as the swordsman played by the warlock of Po Tingchun now ... "

" It felt like I was seeing myself being beaten up after being in the same place as the big guys. I couldn't bear to watch it. "

There were also warlocks who couldn't help but say something fair: " Wow, you don't know how dizzy it is after using the puppet technique. It's already very impressive that the warlock of Po Tingchun can control the world's number one to do such actions that are no different from ordinary players! "

Someone asked: " What about the knights and archers controlled by Ji Xuanyi? "

The sorcerer said without hesitation: " How can we compare? Ji Xuanyi is a god with a dual personality who has mastered the art of puppetry! "

It must be said that when Tingqiao used this move, he really put his own strength on the table to compare with Ji Xuanyi's. It was a public execution. Many players said that it was thanks to his performance, otherwise they would not have known that Ji Xuanyi was so awesome ...

Tingqiao couldn't hear the comments outside the arena, but he knew how others would compare him to Ji Xuanyi after this battle. He might even become a negative example. His face flushed, but he also understood that there was indeed a huge gap between him and Ji Xuanyi, and it would take a long time for him to catch up.

But now is not the time to think about these things, they are still in the middle of the game, and his real body is about to be chopped to death. What on earth is Potian doing? He shot a few arrows perfunctorily, but Mu Xuanyi dodged them and then he didn't make any move at all. Is he going to take revenge?

Tingqiao thought too much. In Potian's eyes, he was just a younger brother. How could a boss have a grudge against a younger brother? Potian didn't attack him not because he wanted to retaliate against him, but because he knew clearly that his attack was useless, so he didn't want to waste his energy.

Actually, Potian was also very upset. When he saw Tingqiao coming out, he thought that the opponent would control Qi Qin or Mu Xuanyi to cooperate with him in an attack. Unexpectedly, the latter, in order to prove that he was no worse than Ji Xuanyi, actually used puppetry on Qi Qin. Now there were four people on the field, three of them were in the same camp, and the only one he could fight was an assassin that he couldn't catch. Moreover, this assassin was circling around Tingqiao's body. In addition, Qi Qin's tall figure was swaying back and forth to block him. Potian had no chance to shoot! He wanted to throw the bow away!

Seeing that Tingqiao finally realized that he couldn't do the same thing as Ji Xuanyi and stopped controlling Qi Qin to sway back and forth, Potian finally breathed a sigh of relief and shouted, "Remove the puppet technique!"

Tingqiao's first reaction was that he would die after the puppet technique was lifted, but he understood Potian's character. Since the other party had said to lift the puppet technique, even if he didn't do it, the latter would continue to follow his own pace. If he lost, Tingqiao would have to take the blame. Besides, his current puppet technique was really useless, like a laughing stock. Even though Tingqiao knew that he might die after giving up control of Qi Qin, he had no choice but to obey Potian's command.

The next second, Tingqiao's normal five senses finally returned. However, the trance brought by the disappearance of the sense of dislocation made him completely unable to aim at either Mu Xuanyi or Qi Qin. He could only give up on himself and cast a damage reduction on himself, the only person who would not miss.

However, it was this damage reduction that saved his life – less than a second after Tingqiao released the puppet technique, Potian's explosive arrow arrived. Knowing that Qi Qin would block it, he did not aim the arrow directly at the opponent, but shot it at the ground about one meter away from the three people. This trick worked, and Qi Qin was unable to block it. The power of the explosive arrow blew away all three people who were gathered in a group!

This arrow caused Tingqiao's already precarious health bar to drop further, leaving only a thin layer of blood. However, under Potian's control, he and the two people on the opposite side flew in different directions, causing Mu Xuanyi and Qi Qin to lose the opportunity to finish him off, thus saving his life.

Tingqiao finally regained his senses after the explosion. He didn't even have time to check his health bar, so he immediately used paralysis on Qi Qin, the biggest target. Potian even seized the moment when Mu Xuanyi wanted to chase and kill Tingqiao but had no way to avoid it, and used an expulsion arrow on the opponent!

In the lightning-fast battle, it is very difficult to seize the opportunity. Ordinary people can only rely on luck, but masters rely on experience and prediction. Tingqiao was not bragging when he said that Potian was good at catching assassins. It can be clearly seen from the way Mu Xuanyi was caught that others can't do this. In addition, in terms of calculating the timing and direction of the explosive arrow explosion, although Potian only used two moves, they were both extreme operations.

It's a pity that there was no commentary for this match. The audience was not good enough to understand the game and could only watch the show and cheer and scream, shouting "Awesome!"

Mu Xuanyi originally wanted to use teleportation to chase, but he was caught in the lead-up time of a few tenths of a second. There was no way to avoid this expulsion arrow, and Mu Xuanyi was knocked over by the impact of the skill, and rolled on the ground for several rounds!

This one second of stiffness is the best time to catch the assassin! Tingqiao still has a CD control in his hand. As long as he hits Mu Xuanyi, the latter will lose the ability to teleport and stealth. The burst of Potian is enough to suppress the opponent to low health!

However, I don't know whether to say that Tingqiao's reaction was a little slow, or that Mu Xuanyi's reaction was too fast! The latter disappeared into thin air the moment he finished

rolling under the impact of the expulsion arrow. Tingqiao's skills were all at the tip of the staff, but he didn't use them!

Because Mu Xuanyi's movements were so fast, he disappeared the moment the tumble ended. It looked like he disappeared while rolling. The audience almost thought that he had been disconnected, until they saw Ji Xuanyi's name still lit up on the record board, and everyone breathed a sigh of relief.

After Mu Xuanyi disappeared, Tingqiao's first reaction was that he was going to be killed. Now he was just skin and blood, and he would basically be killed with one knife. He suddenly didn't know what to do.

After all, he still has a big skill in his hand, but Qi Qin has been controlled. If he uses it, he will lose. If he doesn't use it, he will die with the skill, which is an even bigger loss!

Just when Tingqiao was hesitating , Potian had seized the rare opportunity and started a quick attack on Qi Qin. He used up a lot of his big skills, but the name of the archer turret was not for nothing. He actually dealt a lot of damage in a short period of time. It was just that Qi Qin, as a swordsman, had too much blood, so he only lost one third of his blood.

In fact, it was not a bad thing for Mu Xuanyi to show up to kill him. Tingqiao, who was standing aside, suddenly reacted and realized that Mu Xuanyi had already used his strong invisibility. Showing up at this time meant that the latter would not be able to use invisibility for a long time in the future. In other words, he would lose the initiative when facing Potian. He only had one skill now, and it would be good if he used it, but it would be fine if he didn't use it. It was actually not a loss if he could help Potian to destroy Mu Xuanyi's initiative.

Thinking of this, Tingqiao relaxed his resistance and instead pretended to be panicked, standing there at a loss.

At this moment, Tingqiao suddenly felt something. Just as he was about to stretch out his staff to test, he heard a familiar voice in the air, ringing in his ears.

" That's fake acting, bro. "

Tingqiao: "..."

Chapter 226

When Tingqiao heard this voice , his scalp exploded, and he immediately stretched out his staff to hit the other party out of the air. However, how fast was the assassin? The person was gone before he stretched out his staff , so of course he only hit the air.

But what does that person mean? Should we kill him or not?

Tingqiao didn't understand for a moment, but a second later, he was still standing there with that little health left , without any change. At this time , he knew who the opponent's target was.

Mu Xuanyi is now in his rare state of invisibility. Although it seems that it is a good thing to solve Tingqiao, in fact, a warlock with only a trace of blood and even only one skill left in his hand needs to be replaced by a first mover . A big skill is a very bad thing . The benefits of using this stealth attack on Tingqiao are far less than using it on Potian.

If you think about this principle carefully , many people actually understand it . However, when a head is within reach and killing the archer is related to victory in the battle , few people can think

calmly about this . After all, if the archer is not Potian, killing the warlock is indeed equivalent to victory.

However, Potian's previous performance made Mu Xuanyi dare not underestimate him at all , and of course he would make a more cautious choice.

Facts have also proved that he did nothing wrong.

Tingqiao realized in a second that Mu Xuanyi's target was actually Potian who was attacking seriously , and immediately warned loudly: " Be careful! That assassin is coming towards you! " Potian had just reduced Qi Qin's health to about 60%. When he heard this, he immediately frowned and subconsciously looked to the empty left. However, as soon as he aimed the bow and arrow in that direction, the premonition disappeared again.

After all, the opponent is an assassin, and an experienced assassin at that. How could he be caught so easily by him?

Potian couldn't help but frown. The rain of arrows had just been used up and was still on cooldown . He had no other AOE skills to attack the enemy in a group. Only by noticing in advance the moment the enemy launched an attack would he have a chance to dodge or even counterattack.

It is actually not suitable to distract yourself to attack Qi Qin at this time, but there is only one archer on his side who can attack. If he does not reduce Qi Qin's blood now, it will only make it more difficult for him to fight later.

As Potian raised his bow and arrow towards Qi Qin again, his heart suddenly tightened. At this critical moment, even the most important thing about the second-year syndrome, handsomeness, was thrown out of his mind. Potian fell to the ground without any image, avoiding the attack from behind , then rolled on the ground, put an arrow on the bow and wanted to fight back.

However, the archer's forward movement of the bow was too much of a hindrance in such a race against time. Before Potian could fully draw his bow, the assassin kicked him in the hand! Potian was freaking shocked. This was a game. Although there were no hard and fast rules, was it ok to kick someone's hand like that? !

At this time, Potian had completely forgotten that when he shot arrows, he would stab other people's foreheads and buttocks.

However, it was useless to think about these things at this time. The pre-swing of Potian's attack was broken, and the bowstring was retracted. The assassin probably realized that he was not a strength profession and the leg attack did not cause any damage. He leaned down, holding the dagger in both hands, and stabbed towards Potian.

For a moment, Potian almost thought that he was playing some horror single-player game and was about to be ripped open!

Potian was almost scared to death by his own imagination. He was stabbed and found that only his health bar was reduced but no blood was spurted out. Then he reacted and rolled over quickly, trying to get up.

This assassin's strong stealth has been used up, and the next time he can use it will be a long time later. During this time, he only needs to keep a distance from the opponent. In fact, he can successfully defeat the opponent!

But before Potian successfully got up from the ground, he was kicked on the arm and fell to the ground again, almost eating a mouthful of dust. Potian looked at his health bar which dropped again, and couldn't help but think, what the hell is this weird fighting method!

When Potian was being beaten crazily by Mu Xuanyi, Qi Qin was finally freed from the paralysis – to be honest, because the number of assassins was too small and Ji Xuanyi almost never really attacked him, Qi Qin rarely experienced this feeling of being paralyzed. In most cases, Ji Xuanyi used this trick to control others.

Another point that must be said is that Potian is indeed a top archer player, and the plot of being controlled and then taking damage is indeed in their script, but the estimated damage at the beginning was about 30% in five seconds, which means that his health should still be 70% after the end, which can be said to be a very stable data.

But when the control time was just halfway through, Qi Qin's health was only more than 60%. If Potian really allowed him to fight for the full five seconds, he might be pushed directly to the critical blood line. Mu Xuanyi only took action in advance after estimating this. Otherwise, when Qi Qin's state was lifted and he was ready to attack Tingqiao, Potian would be diverted and then attack him, and he would have no way to avoid that knife.

But in general, although the current situation has deviated from the script since Tingqiao's puppetry, it is not too bad.

Qi Qin moved his numb arm, glanced at Mu Xuanyi and Potian not far away , and then turned his gaze to Ting Qiao in front of him.

Tingqiao originally planned to run to Potian to assist the latter in catching a wave of assassins, but Mu Xuanyi's positioning was so agile that he was not sure that his skills would hit the target, so he did not dare to use them so easily. After hesitating for more than a second, Qi Qin also came out of the paralyzed state, and Tingqiao was attacked from both sides .

What should he do now? He only had one CD left, and the retreat was a strong control. Who should he give it to? Should he give it to Mu Xuanyi or Qi Qin? The former might not hit the target, but once it hits, it can give Po Tian a chance to turn the tables. Although the latter has a much higher chance of hitting, the benefit is only to let this warlock, who has only a little health left, survive for a few more seconds. Both options don't seem very reliable.

Tingqiao looked at Qi Qin who was running towards him from behind, then looked at Mu Xuanyi on Potian's side, and suddenly a brilliant idea flashed through his mind!

If Potian knew that he had another brilliant idea, he would definitely beat him up to wake him up. Unfortunately, he was being beaten by Mu Xuanyi now and had no time to spare.

It's hard to say whether Tingqiao's method is reliable or not. If it's unreliable, it seems to be somewhat feasible.

Potian was suppressed by Mu Xuanyi mainly because the opponent was cheating (?), and did not use his skills properly. An assassin had to resort to physical manipulation, and this purely physical restriction might be a headache in the game, but if you look at it offline, it is actually very easy to solve. As long as he goes up to the bridge and restricts Mu Xuanyi casually, even if he just knocks the latter down, Potian will have enough time to escape, and it doesn't matter whether he lives or dies next.

Use control CD to limit Qi Qin's actions, and then he can break away to help Potian escape. In this way, he can have both the hit rate and the benefit!

Thinking of this, Tingqiao immediately felt that he had found the best of both worlds. Without saying a word, he turned around and used the CD control on Qi Qin. Then he wanted to rush to Potian and push Mu Xuanyi away.

In fact, logically speaking, although Tingqiao's method looks strange and not very suitable for the arena, it will definitely be effective if implemented. However, when he was considering this tactic, he forgot one thing.

For example, whether Qi Qin really needs skill CD to kill him .

Tingqiao turned around and took a step when he felt a strong force attacking him from behind, and then he was knocked to the ground. He didn't even have time to turn over before Qi Qin hit him with a basic attack, which emptied his health bar . He stared at the ground blankly, and lay on the ground motionless with his eyes open.

This time he really " died " with his eyes open. He lay down first, while Potian was still being beaten unilaterally by Mu Xuanyi. Qi Qin was still rushing over there. As a long -range fighter, Potian was isolated and helpless and was attacked by two melee fighters. As expected, they were going to lose this match ...

At this time, he remembered Qi Qin's performance in the previous game – this guy is a gangster ! Do I need skills to kill him ?

Tingqiao was originally filled with anger and regret, but when he thought about it, he just had low HP and short legs, so he would die in just two casual hits. If he had more HP, Qi Qin would not be able to use his skills, and he might be shot in the chest by an arrow just like in the last game. He was not like Potian, who had a middle school syndrome, and if he really encountered such a situation, he might be scared offline, which he would definitely not be able to bear!

Thinking about it this way, it seems that dying like this would be quite painless – now when facing Qi Qin, everyone is thinking of dying painlessly ... I don't know what Qi Qin will think after knowing this.

Tingqiao was lying on the ground, without even a chance to see the battle situation. He could only sigh in his heart. They had worked so hard to get the seed team's direct pass to the semi-finals, but they didn't expect the first of the only two games to end up like this.

But there was nothing they could do about it. After all, the semi-finals were so brutal, and Ji Xuanyi's team was definitely stronger than them. Not only Qi Qin and Ji Xuanyi's brother, he also clearly knew the gap between himself and Ji Xuanyi ...

He didn't have any big regrets, because he knew that even if there were a few more games, they still wouldn't be able to beat him. The gap in strength was there, so he didn't feel unwilling. He could only keep working hard in the future and hope that when they met again in the next competition, they would be able to defeat each other.

Tingqiao was lying on the ground thinking about the next competition. Potian was still being beaten by Mu Xuanyi. He had vaguely realized that something was wrong with this scene. It was exactly like the scene when Ji Xuanyi beat the archer named Guan Qibo!

Has he fallen to this level?!

Potian looked up at Mu Xuanyi in panic, and had the illusion that he was beaten by Ji Xuanyi himself. He couldn't help but recall the time when he was playing keyboard online games and how Ji Xuanyi taught him a lesson – Ji Xuanyi's younger brother could have pinned him to the

ground and beaten him, and it was because Ji Xuanyi didn't choose the assassin but played the warlock that gave him the opportunity to take advantage of him. Thinking about it this way, his previous pride and complacency were a complete slap in the face!

Potian rolled over and tried to escape, but was stabbed again. Seeing that his health was in danger, Potian had not forgotten that this was a game! He immediately became dizzy, and when he turned around, the person in front of him seemed to be Ji Xuanyi, so he couldn't help but blurt out the other person's name.

The assassin paused. Potian had never expected that the other party would react to his brother's name, and was stunned.

Mu Xuanyi lowered his eyes and looked at him coldly.

Potian swallowed nervously, feeling that he had done something terrible. Now he was just skin and blood, and could be killed with one knife. He no longer expected to win the game, he just wanted to die handsomely. Would Mu Xuanyi deliberately make him die ugly just because he called Ji Xuanyi's name?

Just when Potian was daydreaming, Mu Xuan looked at him and suddenly smiled meaningfully. Potian was stunned, before he could react, he saw the other party raise his sword and fall. In the blink of an eye, he was teleported to the birth point, and standing next to him was his teammate Tingqiao.

Both of them were a little dazed and looked at each other for a while before they realized that they had lost.

Amid the thunderous cheers from the audience and the dense barrage of comments in the live broadcast room, the team of Ji Xuanyi and Qi Qin successfully won the ticket to the finals. Tomorrow morning, they will meet Mi Yinxuepiaorenjian on the field to compete for the final championship title!

The first one to play was Mu Xuanyi. After the game, Ji Xuanyi was the first to return to the waiting area. The two brothers then exchanged shifts again.

It was obvious that Ji Xuanyi's brother had already told him the result of the game, so when Ji Xuanyi appeared in the waiting area, he had a smile on his face and seemed to be in a good mood.

When Ji Xuanyi returned to his seat, the three people on the field came out of the passage. Mi Yin glanced at him and said with interest: " What's going on on the field? Why did that bastard Po Tingchun look so lost when he came on the field, like a chick that had been soaked by rain. " Ji Xuanyi glanced at him and raised his eyebrows. Before he could say anything, the old western doctor said speechlessly: " Big Boss, are you stupid? Ji Xuanyi has been taking care of his father. He just came online. How can he know what is going on on the field? What's the point of asking him? If you want to ask, you should ask Tianxia. It just so happens that Tianxia is here! "

Miyin: "..."

The old western doctor dragged Qi Qin to sit down, and found Mi Yin looking at him, and asked curiously: " What's wrong? "

Mi Yin didn't say anything either, but just shook her head helplessly at him. The old Western doctor looked at Xue Piaore Renjian in confusion, but Xue Piaore Renjian also rolled his eyes at him, then turned her head away as if she didn't want to pay attention to him.

Old Western doctor: " ??? "

The old western doctor still did not give up and went to Qi Qin to inquire about why Potian suddenly looked like he was hit. However, Qi Qin only said that he saw Mu Xuan beat Potian with ease, and considering that the other party rarely appeared, he did not go up to help. He just watched the whole process, so he didn't know what happened, which made the old western doctor anxious and scratching his head.

Mi Yin put the old western doctor aside, looked at Ji Xuanyi, and said: " Tomorrow is the finals, our two teams will compete, do you have anything to say? "

Ji Xuanyi said: " What? "

Mi Yin smiled and said, " Anything is fine, swearing, bragging, or encouraging each other, it's all fine, it's live broadcast! "

Ji Xuan looked at him, paused, and said helplessly: " I didn't expect that after rejecting you so many times in the past, I still ended up playing in the arena with you. "

Although they are not teammates but opponents, for Mi Yin, as long as he enjoys the fight, there is probably no difference between opponents and teammates.

Mi Yin smiled even more happily when she heard this, and sighed, " It's a rare grand arena. After the last game, everything will return to normal. To be honest, I'm a little reluctant to let it go. "

Ji Xuanyi was speechless and said, " The arena is open, you're talking as if you're going to do your daily routine. "

Mi Yin shrugged and said, " The atmosphere is different. No matter what, this is the last game. Come on, Ji Xuanyi. Let me play with more joy! "

Ji Xuanyi pulled the corner of his mouth and said, " Don't worry, you will definitely lose tomorrow! "

Just when the two teams were facing each other and were about to fight to the death, a group of evil cults quietly emerged in the barrage.

 " It's Mu Mi! It's Mu Mi!!! "

I don't know what both sides will think after knowing this ...

The author has something to say: It's so short ... The main text will probably be finished in these two days _(:3)∠)_Bobobobo!

Chapter 227

The finals were on the second day , and most of the players were very excited, not only PVP players, but even PVE and casual players were also eager to try.

Although they didn't pay much attention to live broadcasts and live events before , they would still follow the posts in the game forums. If they couldn't understand the replay and analysis posts, they would read some gossip posts , such as "On the Hundred Possibilities of Cavalry

and Priesthood", "Surprise! Player Ji Xuanyi is actually the young master of the Black|| Gang!" , and "The Spring of Pink", as well as various popular science posts about players. Players who don't participate in PVP gameplay have great enthusiasm for these posts with no reading threshold, and even become fans of the protagonists of some posts!

Think about it , I have been following the posts for so long, and now it's almost the finals , how can I not go and take a look!

Coupled with other PVP players' yearning for the two expert teams in the finals , the number of ticket buyers once exploded . If the official hadn't sent people to maintain order , many players would have almost fought over the tickets for the finals!

In contrast , Xiaoxiao Yuxia and others seemed very relaxed . From the first round of eliminations to the finals, they sat in the first row of the friends and family seats in every game , which could be said to be very impressive.

Xiaoxiao Yuxia boasted about this for a long time, and several times she almost couldn't help but post on the forum to show off that the two teams in the finals were both from the second server, Day City. However, considering that it might bring bad luck to Ji Xuanyi and the others , she held back.

But no matter what, compared to other players who were watching the game and were extremely nervous because they were worried that the team they supported would lose, Xiaoxiao Yuxia and his friends were much more relaxed. After all, they were all from Starry City, so it didn't matter which team won.

If she had to choose one, Xiaoxiao Yuxia still hoped that Ji Xuanyi and his team would win. After all, not to mention Xue Piao Renjian in Mi Yin's team, who would come to Fanxing City sooner or later after transferring his household registration. But there was also the old western doctor, who was a real player from Youyue City. If he won, at least one third of the honor would have to go to Youyue City. How could it be worth it!

As she was thinking about it, Xiaoxiao Yuxia began to feel a little annoyed with Ye Linyu next to her.

However, Ye Linyu did not have time to pay attention to Xiao Xiao Yuxia. At least half of the people sitting together disliked him, but he had gotten used to it. He looked at the empty arena and wondered whether he should give the old western doctor a careful lesson after the game. After all, he was actually a little tired of being the gang leader. The affairs of Youyue City were quite tiring. He wanted to throw this mess to the old western doctor, but the latter had stupidly asked him yesterday what was going on with Po Tingchun's Po Tian, and why Mi Yin and Xue Piao Renjian were also acting strangely ...

Ye Linyu couldn't help but sigh.

Although he didn't quite understand what was going on at first, after the old Western doctor told him yesterday that Mi Yin was not going to let him play, and in order to be fair, Ji Xuanyi was not going to let his brother play either, Ye Linyu vaguely realized something.

It has to be said that Ji Xuanyi is quite courageous, but Ye Linyu doesn't mean to meddle in other people's business. He doesn't often compete in the arena, so it doesn't matter to him who wins or loses. What's more, even if he wins, it's Ji Xuanyi's own ability, so there's nothing to say.

The most important thing is the IQ of the old Western doctor. He is quite fun at ordinary times, but he is very worrying when it comes to serious matters ... Ye Linyu couldn't help but think about it.

However, the thoughts of Xiaoxiao Yuxia and his gang, as well as the thoughts of all the audience and players present, no longer had any impact on Ji Xuanyi and the others.

Today's competition is still divided into two games, morning and afternoon. The morning is the final between Ji Xuanyi and Mi Yin to decide the first and second place, while the afternoon is the match for the third and fourth place. Therefore, Potian and his team were not invited to the morning game. In the increasingly empty waiting area, there were only two teams, Ji Xuanyi and his two men, and Mi Yin's three men.

Although both sides already knew each other's configuration, they still followed the procedure and registered. Ji Xuanyi's side was swordsmanship, while Mi Yin's side was still a step behind the old Western doctor, so in the next three games, only Mi Yin himself and Xue Piao Renjian's assassin cavalry combination would be sent out.

Ji Xuanyi was well aware of the strength of the two people working together, so he was very cautious about this competition. Mi Yin and Xue Piao Renjian also understood how strong Ji Xuanyi and Qi Qin were , and they did not dare to underestimate each other.

After completing the registration, neither side said anything with a smile on their face. Instead, they nodded to each other and entered the passage leading to the competition venue under the guidance of the staff.

After arriving at the birth point, Qi Qin whispered: " Xue Piao Renjian is not a big threat, is this Zhua Mi Yin? "

In front of the live camera, even the smallest sound will be recorded, and the barrage exploded at once. Qi Qin's words can be said to be very arrogant. Xue Piao Renjian's strength is obvious to all, and this person actually said that Xue Piao Renjian is not a big threat? ! Is he really awesome or just bragging!

You know, Xue Piao Renjian is a person who can show great strength in a one-on-one fight with two top knights! To say that Xue Piao Renjian is not a threat is crazy!

However, some players also said that Qi Qin's previous demonstrated strength was quite impressive, and both teams were players from the second server and had a good relationship. Maybe they had really practiced in advance, so Xue Piao Renjian was indeed not a big threat to him!

This statement was only supported by a small number of people. Most people still felt that Qi Qin was not that great. After all, he was just talk. Who doesn't know how to brag?

In fact, Qi Qin was just unlucky. His teammates were either warlocks or assassins, both professions whose killing priority in battle was much higher than that of swordsmen. It was impossible for two people to ignore his teammates and attack him with all their strength, so naturally he had no chance to show his true strength.

Most players now have the impression that he is a ruthless gangster from an acrobatic troupe who can turn an arena into a murder scene and is also the boyfriend of the young master ... It's a long title! But it's useless.

Of course, there are a smaller group of people who happen to be players from the second server. They were fortunate enough to have experienced the battle when Zuo An first appeared

in front of them under the rain. They knew clearly that Xue Piao Renjian was indeed no match for Qi Qin. However, because these people were so few, they were completely buried in the numerous barrages and were not taken seriously at all.

When Ji Xuan heard Qi Qin's words, he guessed what the audience would think, but he didn't care about it. He just said, "Xue Piao Renjian is not a threat to you, but it is still very troublesome for me when cooperating with Mi Yin. After you go on stage, follow me closely and help me harass him. I will catch Mi Yin."

Upon hearing this, Qi Qin nodded.

Needless to say, as a warlock who poses a huge threat but is very fragile, Ji Xuanyi is definitely the main target of the opponent's attack. Mi Yin and Xue Piao Renjian would not kill the swordsman under the threat of a warlock if they were stupid. Even if the warlock's skills have been used up, they must kill him before his CD recovers.

The focus of this game is actually Ji Xuanyi's own survivability and Qi Qin's offensive power, and capturing points is even secondary.

Soon, the preparation time was over and both sides came on stage. Ji Xuanyi and Qi Qin moved towards the center of the venue at a snail's pace, while Xue Piao Renjian and Mi Yin did not take advantage of their speed, but approached the two cautiously.

At this speed, it will take more than ten seconds for contact to occur.

The audience was thinking so, and when the distance between the two sides was only a hundred meters, Xue Piao Renjian suddenly rode his horse towards Ji Xuan, and his speed was so fast that people almost thought he wanted to knock Ji Xuan away!

Ji Xuanyi had already seen through his opponent's plan. With two highly mobile professions, wouldn't it be foolish to abandon his strengths? The slow start was just a misleading tactic, hoping that they would be distracted by the estimated contact time, and then attack unexpectedly.

Although this strategy seems simple and silly, in fact, the sense of rhythm is a very important factor in combat. Once the rhythm of the battle is disrupted, at best you will lose your feel, and at worst your skill cycle will be disrupted. Once you are exposed and caught, it's basically over. So Ji Xuanyi had actually been paying close attention to the opposite side. When he saw Xue Piao Renjian rushing towards him, he immediately hid behind Qi Qin and let Qi Qin fight against him.

Xue Piao Renjian knew that he was no match for Qi Qin, but he did not dodge. Instead, he turned around and threw Mi Yin behind him directly in the direction of Ji Xuanyi, and then raised his gun to fight Qi Qin.

In this contact battle, Xue Piao Renjian was not as aggressive as the first time he fought with Qi Qin. Instead, he was more inclined to use riding skills to move around and avoid harm. He would attack Qi Qin when there was a chance, and dodge when there was no chance, or even run a few meters away, and wait until Qi Qin gave up chasing him before turning around and continuing to attack.

This is a very typical harassment style of play for the knight, but because the knight's pvp combat power is too strong in the current version, people rarely see the knight playing like this. In most cases, it is a large-scale battle.

It has to be said that Xue Piao Renjian's ability made full use of the knight's roaming and harassing style of play. After recording it, it can be used as a teaching video. Everyone was amazed when watching it, and Qi Qin also played very passively.

It stands to reason that it is normal for the long-legged profession to bully the short-legged profession with this style of play, but the person who did this is Xue Piao Renjian, which makes it very subtle. Could it be that it is really as some people say, that Xue Piao Renjian really cannot beat the number one in the world, so he gave up the head-on confrontation and chose a harassment style of play?

While the audience was lost in thought, Mi Yin also landed smoothly, rolled flexibly to avoid Qi Qin's interception, and went straight to Ji Xuanyi in stealth!

Assassin is one of the few professions that can have a slight advantage over warlock, not to mention that this assassin is Mi Yin. Qi Qin's original idea was to stop Mi Yin, and it would be best if he could hold both of them at the same time, so that Ji Xuanyi could support him more easily. However, Xue Piao Renjian was too difficult to deal with. As soon as he stretched out his weapon, he was shot straight at his throat by the opponent and subconsciously retracted his hand.

In fact, this shot might not cause much damage, but Qi Qin's conditioned reflex made him unable to ignore the attack. Xue Piao Renjian also observed Qi Qin's fighting habits for a long time before discovering this and targeted it as Qi Qin's weakness.

Qi Qin had no choice but to let Mi Yin go. The latter instantly went into invisible state, but Ji Xuanyi did not react at all, as if nothing had happened.

Many viewers were extremely anxious. Ji Xuanyi had not used any skills since he came on the stage and they were just watching. What was he doing? Regardless of whether he could deal with Mi Yin or not, he had to help Qi Qin solve the big problem of Xue Piao Renjian first!

Although Qi Qin said that Xue Piao Renjian was not a threat, the current situation seemed like Qi Qin was being led around and beaten. Although his health did not drop much, he had no time to support Ji Xuanyi!

Ji Xuanyi certainly knew that Qi Qin was very passive now, and it was not his intention to stand there and be a spectator, but he really could not make any extra movements now. The most he could do was to use his healing skills that seemed like a joke to reduce Qi Qin's blood, because no matter which of the three big skills he had now used, the benefits would be far from what he wanted.

In battle, the technique of using skills is important, but the timing of using them is ten thousand times more important than the technique.

Mi Yin was of course fully aware of Ji Xuanyi's thoughts, so even though he was ready to attack at any time, he still did not act rashly.

The situation on the field can be said to be very weird. The knight and the swordsman are fighting close and distant like dancing, the warlock is standing aside and watching, and the invisible assassin seems to be offline and doesn't show up at all. What is he doing?

Just as everyone was wondering, something suddenly happened on the side of Xue Piao Renjian and Qi Qin. Perhaps Qi Qin was finally tired of this style of fighting that didn't cause much damage at all, and in the harassing battle with Xue Piao Renjian, he suddenly burst out

with a speed that had never been seen before, and attacked with all his strength, directly knocking off a layer of the opponent's skin!

Is the real battle about to begin?! The audience became excited.

Xue Piao Renjian was obviously startled by the opponent's sudden change of rhythm. He tightened the reins and slowed down to avoid the latter's follow-up attack. Then, like the previous few times, he turned the horse's head and ran away from Qi Qin .

The audience, who had been excited thinking that something serious was about to happen, became deflated again ... When will this harassment ever end? What is going on?

Just when everyone thought that Xue Piao Renjian was preparing to readjust his status to harass the opponent, Xue Piao Renjian, who had moved to the side, suddenly changed his target and rushed straight towards Ji Xuanyi behind Qi Qin!

Qi Qin's first reaction was to stop the other party, but Xue Piao Renjian had inadvertently moved to the side of Qi Qin. In other words, Qi Qin wanted to stop him, but he couldn't reach him at all! The knight's movements were too fast! Moreover, the two were only ten meters apart. In a flash, Xue Piao Renjian passed through Qi Qin's defense and rushed towards Ji Xuanyi. The audience, who had just shrunk, could not even react. They still watched all this with numb expressions on their faces. It was not until Ji Xuanyi was attracted by Xue Piao Renjian and Mi Yin suddenly appeared in the air that the audience screamed in surprise!

It turns out that Mi Yin hasn't shown up because she was waiting for this!

Ji Xuanyi has three powerful controls in his hands and has a super strong intuition. Whenever Mi Yin appears, there is a risk of being caught, and in his opinion, the risk is not small, so he has not attacked, but lurked around Ji Xuanyi, just to wait for Xue Piao Renjian to paralyze Qi Qin and launch the signal to attack first!

All of this happened too unexpectedly. Ji Xuanyi would definitely be attracted by Xue Piao Renjian, and this was the perfect time to attack. As long as Ji Xuanyi could be controlled by the poisonous blade, with the explosive power of the knight and the assassin, the latter would be left with only a bloody skin if he didn't die!

In order to ensure the success rate of this attack, and considering the accuracy of Ji Xuanyi's intuition, Mi Yin even used teleportation in invisible state to approach the opponent, just to prevent the opponent from having time to react!

In fact, not to mention Ji Xuanyi, even the audience watching the game around did not react! They knew that the assassin cavalry configuration was very aggressive and mobile, and they were fighting a blitzkrieg, but they were too blitzkrieg! Ji Xuanyi was really going to die this time!

Chapter 228

If Ji Xuanyi knew what the audience was thinking , he would calmly tell them that it was eight hundred years too early to kill him.

Just when everyone thought that Ji Xuanyi would not be able to react in time and would be hit, Ji Xuanyi unexpectedly took advantage of the moment of Mi Yin's attack and suddenly pounced forward, dodging the knife while using his skill CD control on Xue Piao Renjian . Qi Qin also directly launched a heavy slash and leaped in the opposite direction to Ji Xuanyi.

But his target was not Mi Yin , but Xue Piao Renjian who was on CD and had no skills to use! At this moment, Mi Yin handed out the poisonous blade, Ji Xuan rushed forward to control Xue Piao Renjian, and Qi Qin slashed hard . These actions appeared almost at the same time, which stunned all the audience . The picture was in their eyes , but their brains could not react at all . Let alone speaking , they could only point at the field and scream " Ahhh " ! Mi Yin really never thought that Ji Xuanyi could dodge this knife! How did he dodge this knife? ! Even if he is an intuitive player , this is too fucking outrageous! He is almost invincible ! However, he had no time to ask this question now. Ji Xuanyi dodged it and gave Xue Piaore Renjian a CD control. At this time, Xue Piaore Renjian was preparing for an all-out attack. Being destroyed by concentrated fire did not count . People in a full-out attack must give up a certain sense of survival, and Xue Piaore Renjian has taken this to the extreme. In other words, Xue Piaore Renjian's all-out attack is very terrifying and the damage is explosive, but correspondingly, he is also extremely vulnerable at this time. Once caught, especially by the combination of Qi Qin and Ji Xuanyi, before the control time is over, there is basically no possibility of escape except to take the damage!

Mi Yin also instantly understood why Ji Xuanyi was slow to use his skills. The warlock has three strong controls, but that's actually only because the CD control is too buggy . In fact, there are only two strong controls that can really limit the enemy , one is paralysis, the other is puppet. When catching people, the CD control is basically only effective for people with not so long legs, or for stealth professions such as assassins. Unless your teammate has long legs, otherwise the CD control can only be used as a life-saving skill to break concentrated fire in most cases.

When Xue Piao Renjian and Qi Qin were fighting, the CD control was so useless. If Ji Xuanyi had used it on Xue Piao Renjian, the latter could have just ridden away on his horse, and Qi Qin would have had no choice but to chase after him. However, all three strong controls were used on Mi Yin, which was a waste. Even with Xue Piao Renjian's support, they might not be able to kill Mi Yin in one wave. The consequence of failing to catch Mi Yin would be a counterattack by Xue Piao Renjian and Mi Yin. Not to mention Qi Qin, Ji Xuanyi, a fragile little guy, would definitely not be able to survive.

So when Ji Xuanyi was fighting with Qi Qin in Xue Piao Renjian, he never reacted, because he was waiting for an opportunity, an opportunity that could maximize the benefits of CD control! This moment is when Xue Piao Renjian is truly preparing to launch an attack. People at this time are the most focused and their flaws are the most obvious.

In order to seize this opportunity, in addition to ability, experience and intuition, one also needs unparalleled courage and strong self-confidence, because at the same time Ji Xuanyi himself is also the prey of Xue Piao Renjian and Mi Yin. Once a mistake is made when catching people, the status between the hunter and the prey will be reversed instantly. At this time, the one who needs to worry about being killed is not Xue Piao Renjian, but Ji Xuanyi himself!

In fact, this reversal has already occurred once. The situation on the field has changed from Xue Piao Renjian and Mi Yin besieging Ji Xuan to Xue Piao Renjian being caught without any skills. Without any skill support, Xue Piao Renjian has no way to resist and avoid Qi Qin's damage,

and his escape route is completely blocked. There is no chance of escape at all, and he can only be suppressed for a while!

However, the CD control time is only four or five seconds. Due to the limitation of equipment, even if Qi Qin deals all the damage, Xue Piao Renjian will not die. At least 30% of his health will be left.

Thirty percent of blood is definitely enough for Xue Piao Renjian. They still have a chance. After all, in a battle under such circumstances, it is absolutely impossible for a single person to kill the enemy in one capture, even for a master like Qi Qin.

As soon as Mi Yin thought of this, he suddenly realized something and wanted to enter the invisible state instantly – even though he had not caused any damage to Ji Xuanyi, the game was set up so that even if he did not hit him, it would still count as entering the battle. That is to say, once the strong invisibility was activated, after the short period of strong invisibility was over, if he wanted to continue to be invisible, he would have to reset the skill. It could be said that this was an attack with no benefit and a huge loss!

But he had to do it, because the moment he lowered his head to prepare to attack Ji Xuanyi, he saw Ji Xuanyi looking at him with sharp eyes.

for one person to kill within five seconds , even if the opponent is a wooden stake with almost no ability to fight back.

But what if there are two people?

Mi Yin's pupils shrank, and he immediately tried to hide himself, but his movements were too slow, and Ji Xuanyi's staff was already aimed at him. At this time, Mi Yin could only pray in his heart, there is a 50% chance that the puppetry will fail! God bless! Failure, failure, failure!!!

However, Mi Yin's luck was really bad, even Ji Xuanyi's luck was equally bad, but with Mi Yin's prayer, the puppet technique was still successfully activated!

Mi Yin's heart sank the moment she lost control of her body, and she almost anticipated the outcome of defeat.

Although Xue Piao Renjian is very powerful, he has no skills to use when facing Ji Xuanyi's assassin and Qi Qin's swordsman at the same time, and basically has no chance of survival. After Xue Piao Renjian died, he was the only one left. It would be difficult for him to fight Qi Qin in a one-on-one fight, not to mention that Ji Xuanyi had a paralysis weapon in his hand. Given the opponent's intuition and strength to dodge his thundering attack, he was afraid that he would have to take the paralysis weapon. Even the audience in the stands could infer what would happen next.

Mi Yin couldn't help but sigh, and when Xue Piao Renjian was busy dealing with Qi Qin, he saw Mi Yin rushing towards him under Ji Xuanyi's control. After being surprised, he couldn't help but feel a little helpless.

Although he had thought about losing, he lost too quickly!

Although Ji Xuanyi, the assassin controlled by Mi Yin, could not exert his full strength, he still had the combat effectiveness of a first-class assassin. He cooperated with Qi Qin to hit the wooden stake of Xue Piao Renjian, and killed the opponent directly in less than five seconds, which caused the audience to exclaim.

They could hardly remember that a few seconds ago, they were still worried about Ji Xuanyi's safety!

killing Xue Piao Renjian, Ji Xuanyi's control over Mi Yin was not over yet, but in order to prevent Mi Yin from escaping by hiding, Ji Xuanyi released the puppet technique in advance. Before Mi Yin could react, he raised his hand to control her despite the sense of dislocation after the puppet technique was released. The rest was left to Qi Qin.

Five seconds are not enough to kill Xue Piao Renjian, who has thick skin and a lot of blood, but it is enough to kill Mi Yin.

Qi Qin also used his performance to tell Ji Xuanyi that Ji Xuanyi did not trust the wrong person. When the paralysis ended, Mi Yin was left with only a trace of blood. He still did not give up and wanted to run, but how could Qi Qin give him the chance? He just used a random basic attack and knocked him to the ground.

person on the platform shouted loudly: " Two people on the blue team were killed . The red team wins! "

The audience seats were instantly filled with cheers, many of them kept saying " What a slap in the face, what a slap in the face! " They thought Qi Qin was just bragging, but it turned out that he really had the ability. Although Xue Piao Renjian was caught off guard and was controlled, not everyone can suppress the opponent to the point where he can't run away.

Of course, there were also many fans of Xue Piao Renjian and Mi Yin who had not expected that the two would actually lose. Some of the more excited players even refused to admit it and asked the official to carefully check the process of the game. After all, Ji Xuanyi's dodge at the moment of the reversal was too clever. Can someone's intuition be so sharp? Or was he cheating or something ...

This argument was ridiculed as soon as it came out. Some rational fans said: " There is no general who is always victorious in the world. Of course, you may lose if you win. What's more, the enemy is so powerful. If you lose, you lose. This is only the first game. You just need to work hard to win the next one. If you don't admit that you can't win, people will say that Xue Mi can't afford to lose. "

After some debate, the topic was moved on.

Ji Xuanyi, Qi Qin and Mi Yin were refreshed back to the birth point the moment Mi Yin was killed, and both sides returned to the waiting area through the passage.

After all, it was the finals, and even Ji Xuanyi couldn't help but feel a little relaxed after winning the first game. Mi Yin and Xue Piao Renjian were not affected too much, and there was almost no frustration on their faces. When the two came out of the passage, they were still discussing something in a low voice. They were probably analyzing and reviewing Ji Xuanyi and their own mistakes, and thinking about how to play in the next round.

After entering the waiting area, Mi Yin looked up and saw Ji Xuanyi. She couldn't help but step forward and said, " I have been on guard against you guys trying to catch me. Isn't it said that assassins fight assassins? Why did you kill Xue Piao first? You are really unconventional. "

Ji Xuanyi raised his eyebrows and said, " You can also try it. "

Mi Yin was speechless. He certainly knew that there were no so-called routines in the arena. He himself had released assassins to kill other professions. What he said just now was just a joke. Assassins should of course be killed first , but that also depends on the situation. For people like

Mi Yin and Xue Piao Renjian, it would be good to catch the assassin, but it would not be a loss to kill Xue Piao Renjian first, and it could also disrupt the enemy's offensive rhythm.

But it's very funny that Ji Xuanyi and Qi Qin's swordsmanship configuration wanted to come up with a counter-routine. Sending an assassin to kill a knight was unexpected, and sending a warlock to kill a swordsman was stupid.

Mi Yin said helplessly, "Stop kidding me. I just want to ask you, how did you dodge when I grabbed you? All your attention should have been attracted by Xue Piao. What's more, I used invisibility and teleportation at the same time. You can't react even if you have eyes on the back of your head, right? Don't tell me about intuition. You are not Yun Zhongjian! "

Ji Xuanyi twitched his lips and said, "Boss, the game hasn't even finished yet and you're here to get information, is that okay? "

Mi Yin said shamelessly: "Just say it! "

Ji Xuanyi got goosebumps all over his body. Of course, he didn't care about it. He just said, "Of course I'm not Yun Zhongjian. I don't have eyes on the back of my head. My reaction was not intuition, but prediction, because I had already caught the timing of your attack. From the beginning, I didn't focus all my attention on Xue Piao Renjian, because his actions were already within my expectations! "

Mi Yin was stunned for a moment, then immediately reacted with an annoyed look: "Fuck, Tianxia deliberately sold that flaw to us! "

Ji Xuanyi smiled when he heard this.

Qi Qin has been practicing sword skills for twenty years. You may say that he has no other skills, but it is funny to say that he has no patience. Although this is a big competition watched by many people and there may be some influence of nervousness, let alone Xue Piao Renjian playing with him for five minutes, even if they played for a full twenty minutes, Qi Qin would not become annoyed and could not help but directly attack Xue Piao Renjian.

The reason why he did that was simply because Ji Xuanyi gave him a signal to do so.

Xue Piao Renjian and Mi Yin didn't know this, so they thought that Qi Qin's mentality was affected. Once there was a problem with his mentality, flaws would follow one after another. For example, they subconsciously regarded Xue Piao Renjian's movement as an escape from the battle, and ignored the fact that the opponent could pass through his defense and directly attack Ji Xuanyi's position!

This was the reason why Xue Piao Renjian and Mi Yin launched the attack, but they did not expect that Qi Qin knew everything clearly and had even made preparations in advance to support Ji Xuanyi. This was a plan designed by Ji Xuanyi to counterattack from the very beginning!

Ji Xuanyi said: "I know you won't miss this opportunity. Xue Piao Renjian will attack. Of course, you will definitely attack me from behind at the same time. I believe in your tacit understanding."

Ji Xuanyi smiled and said, "I don't know when you will appear behind me. My so-called intuition can't help me dodge that knife, but I can predict it. "

If Ji Xuanyi noticed and dodged after Mi Yin made the move, he would definitely not have had time to dodge. But in fact, Ji Xuanyi had already started dodging before Mi Yin made the move, so of course there was no way he would be hit by the knife!

Mi Yin was shocked, shook her head, and said, "Okay, okay, I finally understand what's going on. Ji Xuanyi, you thought the same as I did at the beginning. It's a pity that you don't stay in the arena. Let's team up and play a game in the future. I really want to be a teammate with a great character like you. I don't have to think about anything, I just need to listen to your instructions." Qi Qin had just shown a look of vigilance when Ji Xuanyi said, "Forget it. The arena is nice as a pastime, but I definitely can't pack up and live in the arena like you do. It's hard enough to play in this tournament. After the tournament, I won't go to the arena again for at least three months."

Ji Xuan's face almost turned green when he thought about the time when he was earning points in the auditions. Seeing that Mi Yin still had the same expression of not wanting to give up as before, he looked up at Xue Piao Renjian and said casually: "Also, what do you mean you don't have to worry about anything when you play with me? What, does it give you a headache to play with Xue Piao Renjian? Can't he help you share your worries?"

Miyin: "..."

Mi Yin immediately looked up at Xue Piao Renjian, and sure enough, the latter was frowning slightly. Although there was no big expression on his face, he could see a hint of accusation in his expression.

Mi Yin quickly said: "Of course that's not what I meant!"

Snowfall: "..."

Seeing that Xue Piao Renjian didn't show any emotion on his face, Mi Yin, who had thought that it was a live broadcast and that she should keep a certain distance from Xue Piao Renjian, could only cover her face and said resignedly, "You are such an annoying person. I won't fight with you, I won't fight with you. I only have Xue Piao! Let's go, let's go..."

Mi Yin grabbed Xue Piao Renjian, left Ji Xuanyi and Qi Qin behind, and took him to register for the second game, but her heart was filled with despair.

He was already rumored to have an affair with someone, and now he has said something like this. He will never be able to clear himself of the scandal even if he jumps into the Yellow River. If Ji Xuanyi could hear Mi Yin's thoughts, he would definitely not be able to help but complain. You said this as if you had ever been cleansed.

Chapter 229

The lineup for the second round of the game between the two sides is still swordsmanship versus stabbing cavalry.

Mi Yin now discovered the weakness of her own configuration. Although knights and assassins are actually much more popular than swordsmen and warlocks in arena competitions, this is a high-profile battle after all. When the strength is at the same level, the advantage of a single profession is not so prominent. When it comes to double configuration,

the professional combination of Mi Yin and Xue Piao Renjian is much more puzzling than the return to nature combination of Ji Xuanyi and others.

The simplest point is that both Mi Yin and Xue Piao Renjian are killing points. It doesn't matter whether you catch Mi Yin or Xue Piao Renjian . Both of them need to be careful during the battle and leave themselves a way to retreat at any time.

As for the combination of Ji Xuanyi and Qi Qin, the killing point only exists in Ji Xuanyi. Even if Mi Yin and Xue Piao Renjian are crazy and their consciousness has degenerated to the state of rookies playing in the arena for the first time, they will never kill Qi Qin . Therefore, the latter can exert 100% offensiveness before Ji Xuanyi's death .

In fact, in general games , this difference in configuration is not a big deal at all . After all , although swordsmanship only has one killing point , it also has only one output . However, in this game, although Ji Xuanyi's side has only one output , that output is Qi Qin, which is very despairing.

Mi Yin and his team wanted to change their configuration to target Ji Xuanyi and Qi Qin, but there was only one priest, Old Western Doctor, left in the team. Not to mention any problems with the Thorn Priest and the Paladin Priest, Old Western Doctor's level was already poor enough. If he played, Mi Yin and his team would only lose faster.

bite the bullet and join the assassination cavalry. The two of them had been discussing tactics with each other since the registration , without stopping for a moment.

Ji Xuan was thinking about how he had just explained his tactics to Mi Yin and the others, so he tried to eavesdrop quietly. However, Mi Yin and the others spoke too softly, and when Ji Xuan got closer he was blocked by Qi Qin. He was so angry that he beat the latter with his staff.

Qi Qin hadn't been beaten for a long time, and when he touched his head, he actually missed it a little.

After the registration process was over, both parties entered the venue from their respective passages. Ji Xuanyi looked at Xue Piao Renjian and Mi Yin with a grudge, while the two people opposite him were still whispering to each other .

Qi Qin lowered his head and asked, " Xuan Yi, shouldn't we discuss tactics? "

Ji Xuanyi looked up at him and said, " I am the only one they can target. No matter what tactics they use next, their only goal may be to kill me. "

Ji Xuanyi smiled and said, " But I won't be killed so easily . "

Ji Xuanyi is absolutely confident in his own strength, and he also trusts Qi Qin. If Xue Piao Renjian and Mi Yin give it a try, he really can't hold on for long alone. But with Qi Qin here, with the configuration of Xue Piao Renjian and Mi Yin, they definitely can't kill him. It can be said that Ji Xuanyi is sure to win this match.

Both teams entered their respective birth points. As this was the final of this tournament, and perhaps even the last match that would determine who would be crowned the champion, all the spectators were extremely excited. Not only the players at the scene and those watching the live broadcast, but even the staff in the waiting area stretched their necks, staring intently at the broadcast screen.

Under the expectant gazes of everyone, the countdown ended, and the fences of Ji Xuanyi and Mi Yin's birth points collapsed amid roars, and both sides rushed out from their birth points at the same time.

Mi Yin entered invisible mode before the game started. Being so far away , Ji Xuanyi and Qi Qin had no idea where the other party had gone. However, Xue Piao Renjian had no intention of waiting for Mi Yin. He rushed to the front and approached Ji Xuanyi and Qi Qin at an extremely fast speed.

Ji Xuanyi looked at Xue Piao Renjian and always felt that something was wrong, but the other party was a sullen person. He remained calm even when the sky was falling, let alone in an arena. Even if they were at a disadvantage, Ji Xuanyi could not see anything from his face. If I had to say something, it was probably that Xue Piao Renjian's riding posture was a bit weird. However, because the horse was running very fast and Xue Piao Renjian was shaking violently, the weird posture could not be seen much. Even Ji Xuanyi wondered if he was being too suspicious.

Xue Piao Renjian galloped all the way and ran straight to Qi Qin. Before he made contact with him, he reined in his horse and directly launched the skill of trampling. Multiple attacks came towards Qi Qin in succession, one attack after another.

Although this set of attacks came suddenly and was powerful, it was a piece of cake for Qi Qin. He had already cracked it the first time he fought with Xue Piao Renjian, and now he was even more proficient at it. It was much easier than the first time. He dodged it with a few moves. It was so easy that he almost wondered if Xue Piao Renjian was affected by the defeat in the previous game.

After dodging, Qi Qin launched a sweeping attack and slapped Xue Piao Renjian straight in front of him. However, Xue Piao Renjian remained calm and controlled his horse to turn around and avoid the attack.

At this time, Xue Piao Renjian's horse's butt was facing Qi Qin. Qi Qin was worried that he would give up, so he activated another big skill and raised his hoof, quickly raised his sword and retreated. However, Xue Piao Renjian frowned, as if he knew that this kick would not benefit much, so he did not attack Qi Qin, but controlled the horse to turn another half circle based on inertia.

Ji Xuanyi was still wondering where Mi Yin was, and only slightly distractedly looked at Xue Piao Renjian and Qi Qin. He thought Xue Piao Renjian would just feint an attack on Qi Qin as before, but he didn't expect that all the skills would be used. Could it be that Xue Piao Renjian and Mi Yin were really crazy and were preparing to attack Qi Qin?

In addition, Mi Yin has not appeared yet. Ji Xuan became a little uncertain when he thought about it. He hesitated and raised his staff towards Xue Piao Renjian, wondering whether he should help Qi Qin control the other party.

With Mi Yin's displacement speed, he should not be able to reach here yet. Should he take this opportunity to kill Xue Piao Renjian directly? If Mi Yin can't reach him, after throwing out two skills, the possibility of Xue Piao Renjian surviving is still very low. As long as the opponent can reduce the number of people, for Ji Xuanyi, this benefit is very great.

Even if he didn't have the skills to help Qi Qin catch Mi Yin, or if he made a big mistake and was killed by Mi Yin , Qi Qin was definitely capable of defeating Mi Yin in the endgame.

As soon as this thought came to his mind, Ji Xuanyi couldn't hold back any longer. However, before he made a firm decision to take action, Xue Piao Renjian had already turned around and faced Qi Qin again.

However, in Qi Qin's opinion, the inertia of Xue Piao Renjian's turning seemed a bit too great, and the latter was almost unstable on the horse's back . He raised his free hand fiercely, grasped the spear, and launched an attack towards Qi Qin.

Xue Piao Renjian's movements were so awkward that Qi Qin felt uncomfortable all over. He always felt that something was weird. Xue Piao Renjian's movement seemed to be just an exaggerated raising of his hand, but Qi Qin felt that he seemed to have some other purpose.

" What were you doing just now? Why did you make such a move? " Qi Qin couldn't help but ask directly while he was in contact with Xue Piaorenjian.

If Ji Xuan heard this, he would definitely scold him and ask if he was stupid. Who the hell would tell you this if you ask your opponent such a question at this time!

In fact, this is indeed the case. Xue Piao Renjian looked down at Qi Qin and said expressionlessly: " Live broadcast, show off. "

Qi Qin: "..."

Qi Qin: " ??? "

Qi Qin had a black question mark face. He thought Xue Piao Renjian would not pay any attention to him at all. He didn't expect that the other party actually spoke, and the answer was so nonsensical!

If Qi Qin studied with Ji Xuanyi for a while longer, he would understand that when a person does something completely different from usual, it probably means that the person is – guilty.

Qi Qin hadn't realized this yet, so he could only black out the question mark and couldn't guess what Xue Piao Renjian had just done.

In order to ensure a safe position, Ji Xuanyi, who was about 20 meters away from Qi Qin, did not hear the conversation between Xue Piao Renjian and Qi Qin, and therefore missed the truth. When Xue Piao Renjian started fighting normally with Qi Qin again, Ji Xuanyi finally confirmed that there was indeed no one on Xue Piao Renjian's horse. He decided to kill Xue Piao Renjian first before Mi Yin ran more than 300 meters from the opposite birth point on his own two legs and arrived at the current battlefield between the two sides !

Ji Xuanyi immediately raised his staff towards the two people who were fighting. However, just as he was about to launch an attack, an ominous premonition suddenly came to his mind.

Even though Ji Xuanyi had no idea how Mi Yin broke through the limit of her leg length and ran over here, and how she attacked him, he did feel the sign of being attacked!

Ji Xuanyi immediately wanted to move to avoid the attack from behind, no matter how awkward his posture was. However, the attack came too suddenly and too quickly. Even though Ji Xuanyi reacted, he could not completely avoid the attack and was hit in the back by Mi Yin's dagger! This kind of skill-based attack will be considered an effective attack even if it only causes a slight scratch on the skin. Not to mention the special effects, the damage is also complete. Ji Xuanyi was stabbed in the back and was paralyzed for three seconds!

Qi Qin had been paying attention to the situation on Ji Xuanyi's side. Seeing this, he immediately left Xue Piao Renjian and turned back to rescue the latter. Seeing that he couldn't

stop him, Xue Piao Renjian gave up fighting with him and rushed towards Ji Xuanyi at the same time, ready to cooperate with Mi Yin in launching an attack.

In fact, his original intention was to kill the enemy directly , but with the variable of Qi Qin , it was hard to say whether he could kill the enemy or not. He could only try to lower the opponent's blood line as much as possible.

In fact, generally speaking, it is not easy for a single assassin to kill a warlock within three seconds when he is at full burst. What's more, Ji Xuanyi is wearing a lot of physical equipment, so it is not so easy for Mi Yin to kill him. The more convenient way to deal with it is actually for Qi Qin to stop Xue Piao Renjian and prevent him from cooperating with Mi Yin.

But the current situation is that Xue Piao Renjian is unable to stop Qi Qin, and has no choice but to cooperate with Mi Yin to try to kill Ji Xuanyi. The reason is simple, just because Qi Qin's personal ability is too strong. If he is allowed to protect Ji Xuanyi, even if Xue Piao Renjian and Mi Yin are combined , the possibility of killing Ji Xuanyi will not be higher than the possibility of Mi Yin killing Ji Xuanyi alone without any influence .

This was indeed the case. As soon as Qi Qin arrived, he slapped Mi Yin, who was chopping Ji Xuanyi halfway, away. His movements were so fast that Mi Yin couldn't even use teleportation! After slapping Mi Yin away, Qi Qin turned around and stabbed Xue Piao Renjian with a sword, almost knocking the latter off his horse! Seeing this, everyone exclaimed in surprise.

Even Mi Yin himself was a little bit unbelievable. Although he knew that Qi Qin was very strong, he had never thought that he was so fierce before. If this wasn't a game and all he could see were data, he would have almost thought that the other party had exploded his inner universe to protect Ji Xuanyi!

Maybe this is the wife-protecting demon ...

Chapter 230

Qi Qin's movements in beating Fei Mi Yin and Xue Piao Renjian were extremely ferocious , causing the audience to exclaim in fear that he would do something to the two . But in fact , because the situation was too urgent, Qi Qin didn't even have time to use his skills , and completely relied on his own swordsmanship and strength attributes to stop the two. Although it seemed that he fought fiercely , he actually didn't lose much blood at all.

But in fact, it doesn't matter whether he loses blood or not . Xue Piao Renjian and Mi Yin have spent so much effort to launch the attack, their purpose is to kill Ji Xuanyi, but now their concentrated fire has been torn into pieces , and it can't pose much threat to Ji Xuanyi's blood bar . Once this wave of control is over, it is equivalent to that all the previous efforts of Xue Piao Renjian and Mi Yin have been wasted , and they have also lost several skill CDs. It can be said that it is a blood loss!

Mi Yin's expression became more and more solemn , and Xue Piao Renjian couldn't help but let out a slight click of his tongue.

Qi Qin is really difficult to deal with!

Seeing that Ji Xuanyi was about to escape from control, and the latter's blood volume had only dropped by less than one-third , it could be said that the plot was completely different from what

they had imagined . But this time they had finally caught Ji Xuanyi, it would be a big loss if they just wasted him like this. Xue Piao Renjian gritted his teeth and had to shout , forcibly driving his horse towards Qi Qin!

Although Qi Qin is very agile and does not look like a swordsman at all, especially when it comes to parrying physical attacks, he has a habit that he cannot change at all.

That is, when judging skill damage, one always subconsciously ignores the difference between skills and normal attacks , and always prioritizes blocking and avoiding moves that look more dangerous.

For example, when facing a skill that cuts the legs and a basic attack that cuts the neck at the same time, and can only dodge one, Qi Qin will definitely choose to dodge the basic attack that cuts the neck instead of the skill that cuts the legs, even if the actual amount of blood lost by the leg cut is much greater.

In other words, it is very difficult for him to use game data to measure gains and losses, especially in critical moments, his conditioned reflexes are completely uncontrollable.

Ji Xuanyi also mentioned this shortcoming to Qi Qin, but for some reason, he did not change it.

Xue Piao Renjian and Mi Yin also kept an eye on this matter.

It's not that I haven't thought about taking advantage of Qi Qin's weakness, but if it succeeds, it will be fine once, but if it happens more than once, Qi Qin will definitely be subconsciously on guard. He is already powerful enough at ordinary times, and the flaw that he found with great difficulty is gone now. Wouldn't Qi Qin be invincible in the game ?

Especially after the two sides became rivals, Mi Yin and Xue Piao Renjian thought that it was okay to attack Qi Qin's weakness, but only at a critical moment, otherwise, would they still want to fight in the next competition?

It just so happens that this moment is the legendary critical moment. If we lose this one, we will really lose. If we don't use our trump card now, when will we wait?

When Xue Piao Renjian began to attack Qi Qin's vital points, Mi Yin understood his idea, followed the opponent's rhythm, and started attacking Ji Xuanyi at the same time. Both of them used basic attacks to wipe the neck, and used skills to cut hands and legs.

Qi Qin was unable to react in time and avoided the wrong skill, causing Ji Xuanyi's health to drop sharply. Qi Qin became anxious and his movements became more chaotic, causing Ji Xuanyi's health to be pushed directly to the danger line, which made Ji Xuanyi very upset.

Mi Yin looked serious, but she didn't expect that the arena would be so sinister!

If Mi Yin knew what Ji Xuanyi was thinking, she would probably say something shamelessly. If she could beat him, she would show her strength. If she couldn't beat him, what else could she do? Besides, their fighting style was tailor-made for Qi Qin, so there was nothing wrong with it!

Qi Qin's strength is there. If he wants to win the championship, how can he succeed without thinking of a way to target his opponent!

This time, not only Ji Xuanyi lost blood, but Qi Qin's blood was also reduced by a quarter.

Fortunately, just when Mi Yin was about to enter the burst stage and try to kill Ji Xuanyi , the long three seconds finally passed!

Although Qi Qin's blocking action was not of much use in the next two seconds, it was better to have interference than to let the opponent stand and hit a wooden stake. After Ji Xuanyi came out of the paralyzed state, his health was still 27%, which was very dangerous, but enough. Thanks to Mi Yin for placing the main target of attack on Ji Xuanyi in order to confuse Qi Qin. The moment he regained his mobility, Ji Xuanyi waved his hands and directly avoided the opponent's skills.

Although he was very upset because Mi Yin and Xue Piao Renjian teamed up to bully Qi Qin, and even wanted to swing his staff to hit the other party on the head, but now it was more of a competition, let alone one second, not even a tenth of a second could be missed. Obviously, there was no time for Ji Xuanyi to do such a thing. He could only turn his wrist in one second and lock his target on Mi Yin with the smallest displacement.

Mi Yin had such a great time beating Ji Xuanyi, and playing with Qi Qin was also very fulfilling, that he didn't react for a moment and missed the paralysis effect for half a second. He only realized and retreated when Ji Xuan started to move.

However, the last blow he made to Ji Xuanyi was not a normal attack but a skill, which brought a certain stiffness effect. After it ended, it was too late to turn invisible! He was immediately paralyzed for five seconds and was fixed in place, unable to move!

Upon seeing this, Qi Qin immediately broke away from Xue Piao Renjian and started attacking Mi Yin. Xue Piao Renjian saw that the situation was not good and immediately wanted to go back to rescue, but Ji Xuanyi's staff was aimed at Xue Piao Renjian again!

Mi Yin clearly realized what Ji Xuanyi wanted to do. In the last game, he controlled him to cut off Xue Piao Renjian, and this time he controlled Xue Piao Renjian to step on him. Ji Xuanyi was being very fair and did not delay either side!

Mi Yin immediately began to pray in her heart. She won last time with a 50% chance. Shouldn't she win this time? ! ? !

Although the fifty percent probability is not calculated in this way, it is true that Ji Xuanyi's hit rate of puppetry in this competition was a bit high. Logically, there was still a great possibility that this attack would miss. However, with Mi Yin's prayer, Ji Xuanyi successfully completed the puppetry again, controlling Xue Piao Renjian, who was about to use his hoof to force Qi Qin back, and instead attacked Mi Yin together with Qi Qin!

Ji Xuanyi's knight level can only be said to be an average master, probably similar to Jian Xi Xin Jiu, maybe a little stronger, but Mi Yin can't move at all now, so Ji Xuanyi doesn't need to worry so much. He just adjusted his position so that Xue Piao Renjian was sandwiched between him and Qi Qin, so that he would not be able to escape so easily after ending the puppet control. He then stood there and output without moving at all.

Poor Mi Yin, she was just a fragile little assassin, how could she possibly withstand the output of two people? She was killed on the spot in less than five seconds. And Xue Piao Renjian was unable to escape after the puppet technique was released. After desperately suppressing Ji Xuanyi to a sliver of health, he also fell down helplessly.

In the last game, Ji Xuanyi and Qi Qin's team still won!

Mi Yin was killed . Although they knew that Ji Xuanyi and Qi Qin were very powerful and were the dark horses of this competition, no one expected that even Mi Yin and Xue Piao Renjian would lose!

After the game was announced to be over, the entire audience was silent for several seconds before suddenly bursting into cheers that almost overturned the entire arena. Of course, some fans of Mi Yin and Xue Piao Renjian were very frustrated and could not accept such an ending at all. But after the game, Ji Xuanyi and Mi Yin still looked very affectionate. Although Mi Yin and Xue Piao Renjian were a little disappointed, they were still very happy, which made it difficult for those fans to say anything.

The relationship between the two teams is very good. Mi Yin and Xue Piao Renjian are also happy for Ji Xuanyi and Qi Qin. If they run out and refuse to admit it, it will ruin the atmosphere and make Mi Yin and Xue Piao Renjian uncomfortable. Well, as long as their idols are happy, it's good. Although they, the fans, feel regretful, they will still support them in the next competition!

It can be said that Ji Xuanyi really treated the finals this time as auditions, and he didn't really react after it was over. He thought that he should be very happy and excited for taking first place and defeating Mi Yin and the other legendary team, but the actual emotions did not seem to be that intense.

Ji Xuanyi touched his chin, thinking that he might have really become a Buddha from playing the supporting role. Looking back at himself when he first entered this gaming world, he seemed to have changed a lot without realizing it.

Because the players and the audience were not in the same space, there was no scene of a large number of fans holding flowers to congratulate them. At most, the staff finally opened the live broadcast barrage and the audience seats to them. Watching those players climb onto the seats for their victory, they were so excited. The barrage covered one layer after another, and nothing could be seen clearly. Only then did Ji Xuanyi vaguely feel the atmosphere of victory.

"Congratulations." Mi Yin sighed, walked up with a smile, and stretched out her hand to Ji Xuanyi. Xue Piao Renjian also silently came to Mi Yin's side and looked at Qi Qin.

Ji Xuanyi smiled and the two exchanged a friendly handshake.

After dominating the arena for so many years, they suddenly fell from the top position. They must feel bad, even Mi Yin and Xue Piao Renjian. However, they didn't seem that sad. Ji Xuanyi couldn't help but say, "You have a good attitude. I am ready to contribute and comfort you."

Mi Yin heard this and waved her hands repeatedly, saying: "Please stop. If you continue, our fan fiction will be published. Please let me go and tell your family about this!"

Ji Xuan looked up at Qi Qin and helplessly discovered that the other party actually looked eager to try.

Seeing Ji Xuanyi back to normal, Mi Yin smiled and said, "There are wins and losses. When I won for the first time, I was already prepared for failure. The same goes for Xue Piao. I taught him this when we first played together in the arena."

Ji Xuanyi clapped his hands and said, "Great, one extra point for Xue Mi's fandom."

Miyin: "..."

Mi Yin almost got into a fight with Ji Xuanyi, but luckily they were pulled apart.

Ji Xuanyi straightened his clothes and said, "I won't say any more nonsense. You asked me last time, so I should ask you this time. How did you manage to appear so suddenly? It's such a long distance, even if you used two teleports, it wouldn't be enough to get here. And I remember

that you were not on Xue Piao Renjian's horse. The invisibility skill should not support riding, right? How did you get here? "

Mi Yin smiled upon hearing this and said, " It is true that invisibility is not supported while riding, but who said that invisibility is not possible while hanging on a horse? "

Ji Xuanyi was stunned.

Miyin smiled.

He was indeed not on horseback. In fact, before the show started, he asked Xue Piaorenjian to turn the horse sideways to block the view from outside. Then he tried to hook his feet on the pad under the saddle. Xue Piaorenjian then naturally extended a hand for him to hold, allowing him to hitch a ride in an invisible state.

Because this was a strategy that they suddenly came up with after entering the venue, Mi Yin and Xue Piao Renjian put in a lot of effort and tried several postures before completing it. They almost didn't make it in time for the countdown to end. The strange state of Xue Piao Renjian after the opening was also because of Mi Yin hanging on his hands.

To be honest, this is something only Mi Yin can do. In the holographic game, a player's weight is determined by his original weight plus the influence of his profession, and it is determined after comprehensive adjustment. In other words, Mi Yin is very thin, and with the agility bonus of the assassin profession, he can fix himself on the mat under the saddle of a galloping horse with just one hand of Xue Piao Renjian.

After all, in order to make Ji Xuanyi relax his vigilance, they must get to him as quickly as possible, which will make Ji Xuanyi feel that at this distance and at this time, Mi Yin will never be able to get to him.

" But it's not so easy to throw me out naturally without you noticing. " Mi Yin sighed.

In addition to distracting Qi Qin's attention through attacking skills, he also needed to turn around in a very artificial way to gain leverage. God knows, during Mi Yin's spinning action in Xue Piao Renjian, there was a second when he was less than half a meter away from Qi Qin's sword. He was afraid that Qi Qin would suddenly take a step forward and knock him out. Fortunately, Xue Piao Renjian's movements were too big, and Qi Qin had no intention of kicking him, so he did not go over. In addition, Mi Yin had tried her best to curl up into a ball, so there was no collision.

Xue Piao Renjian's stiff and cool attitude was also due to this. It was obvious that when he raised his hand, it was not that Xue Piao Renjian suddenly changed his nature, but that he threw Mi Yin out without anyone noticing.

After listening to this, Ji Xuan shook his head and said, " There are too many loopholes. I didn't find them in advance. It's because I don't have a good understanding of this game and my imagination is not rich enough. "

Mi Yin shrugged and said, " Who isn't? It doesn't matter. The game has only been launched for less than a year. We still have plenty of time. "

Ji Xuan smiled: " That's right. "

After the morning competition ended, Ji Xuanyi and his two companions and Mi Yin and his three companions were given a warm welcome in server two. If the scene when everyone was

watching the activity area when it was just opened was scary enough, the situation that Ji Xuanyi and his companions faced this time was ten times scarier than that!

This time, even the gang members called by Xiaoxiao Yuxia and Ye Linyu to maintain order were overwhelmed by the onlookers. Ji Xuanyi and others had no choice but to log off and wait for the staff to pick them up after they came back online in the afternoon.

In front of the GM , no matter how thick the crowd is, it doesn't matter!

In the afternoon, there will be a match between Po Tingchun and the team that lost to Mi Yin before, but the number of spectators will not be as many as that of Ji Xuanyi and his team. The outcome is also as expected, with Po Tingchun winning. In the evening, everyone was gathered together by the officials for an award ceremony, and Ji Xuanyi was forced to go on stage to give a speech.

Ji Xuanyi himself didn't know what he was saying, and there were a lot of people posting on the forum saying that they were willing to be his lackeys.

Ji Xuanyi: "..."

So how did the title of Young Master of the Underworld come to be confirmed?

In any case, this game that took nearly a month from start to finish is finally over.

Everyone can finally relax.

At least that's what Ji Xuanyi thought at first. However, the day after the competition ended, Mi Yin and the others disappeared again. Ji Xuanyi thought they were addicted to the arena and had no contact with them. It was not until he ran into Jian Xi Xin Jiu when he returned to Fanxing City and found out what was going on.

" The 22 competition is over, and there's still the 33 ..." Jian Xi Xin Jiu said with a weak expression, " After the 33 competition is over, there's still the 55. Everyone seemed to have forgotten about these things. They only remembered them after the official announcement, and went to find their teammates again, preparing to continue participating in the auditions! "

Ji Xuanyi: "..."

It was tiring enough to participate in a 2-2 competition, so Ji Xuanyi was unwilling to participate in a 3-3 competition no matter what. He had refused when Mi Yin invited them at the beginning, so the two of them did not contact him, and as a result, Ji Xuanyi himself had forgotten about it.

" You Er Er won the championship, so you really won't participate in the next two competitions? " Jian Xi Xinjiu couldn't help asking.

Not to mention the rewards in the game, there are also quite a lot of cash rewards for winning the competition. Doesn't Ji Xuanyi have any desire to try hard at all?

Jian Xi Xin Jiu had no idea that Ji Xuanyi was not short of money at all, and there was a rich second-generation standing by his side!

Ji Xuanyi waved his hand and said, " It's fine to have this kind of competition once for fun, but I can't stand this kind of repetitive gameplay. It's boring. Only Mi Yin likes this. "

In fact, Ji Xuanyi has not been online that often during this period, because he has been focusing on organizing competitions, and the gameplay has not been updated. He has almost completed the daily PVP and arena tasks, and the tasks in the Lost Continent Orc Territory. If this continues, he might have to take a break for a while .

Seeing Ji Xuanyi's vicissitudes, Jian Xixinjiu felt very sympathetic. He probably understood a little bit of Ji Xuanyi's thoughts. After hearing what he said, he couldn't help but tell him what he had heard: " Do you still remember the uncle party that Xu Chu mentioned? "

Ji Xuan was stunned for a moment and looked up at him.

Jian Xi Xin Jiu looked around, leaned close to his ear and said mysteriously, " Just two days ago, Xu Chu told us that after the competition, the game might have a new gameplay update, probably related to the Lost Continent, and I heard it's very exciting and awesome! "

Ji Xuanyi's eyes lit up!
